VENIZELOS MAY LEAD GREEKS IN REVOLT—PACIFIC MYSTERY SHIP REVELATION

PACIFIC MYSTERY SHIP WAS A FLOATING ARSENAL

MAVERICK HAD SUBMARINE, RIFLES AND MACHINE GUNS ON BOARD—1,000 GERMANS CAPTURED AND VILLAGE TAKEN—ENEMY USING NEW FORM OF GAS—COPPER SCARCE

(Special to The Daily News.)
San Francisco, Oct. 7.—The Jebson steamer *Maverick*, the mystery ship of the Pacific, has been found to contain a submarine in parts, 50,000 rifles, 21 machine guns and 21 cannon.

It is believed that the vessel was intended to form a German submarine base in the Pacific on the outbreak of war.

A rigid investigation is proceeding and it is believed that it will reveal the fact that there has been connivance on the part of officials.

1,000 Germans Taken.

Paris, Oct. 7.—The enemy was severely repulsed in four attacks north of La Sarp last night, in a

vain effort to recapture their lost positions.

We captured 1,000 prisoners and succeeded in taking the village of Tahure. Another great battle is imminent.

New Gases.

There is a new kind of gas being used by the Germans on the Champagne frontier, prussic acid being the base.

Men recovering from its effects are seized with convulsions like an epileptic.

Copper Scarce.

London, Oct. 7.—The German Minister of War announces that, owing to the scarcity of copper in Germany, copper chandeliers, works of art and statues will be taken over by the government.

PRESIDENT WILSON ANNOUNCES ENGAGEMENT

Washington, Oct. 6.—President Wilson today announced his engagement to Mrs. Norman R. Galt, of Washington.

The wedding will take place in the first week of December at the home of the bride-elect. Mrs. Galt is a widow of great personal charm and splendidly endowed intellectually.

PRINCE GEORGE ARRIVES

The following were amongst the first-class passengers on the *Prince George* this morning:

Mrs. Breeze, Mrs. F. J. Breeze, Mr. Lawson, Mr. P. A. Jennis, Mr. Storey, Mr. Herne, Mr. E. P. Yarwood, Mr. Neay, Mrs. May, Mr. Geo. R. Barnes, Mr. Craig and wife, J. W. O'Leary, Mrs. J. Stirrett, Mr. and Mrs. Maunders, J. McMaster, Mr. R. P. Hutchinson, Mr. Meuty, Mr. and Mrs. Harris, Mr. Henderson, Mr. and Mrs. and Master Wynne, Mr. Russell, Mr. McIntosh.

For Ocean Falls:—Mr. Robinson, Mr. Conduit, Mr. Sullivan, Mr. Randlesome.

TRAFALGAR DAY

It has been decided by the Queen Mary Chapter of the I. O. D. E. to make a collection of sox, wristlets, tobacco, and chocolate on Trafalgar Day, October 21st. All who would like to contribute are requested to leave their gifts with Mrs. McMullin, government buildings, between 3 and 5 p. m. on that day.

RANCHER ACTS QUEERLY ON THE PRINCE GEORGE

The police were called to the *Prince George* this morning to take care of a German called Otto Damascus, who had been acting strangely on the trip north. It appears that Otto had been worrying over some woman, and had been throwing his money about promiscuously.

Constable Adams examined the man's papers and found that he held the title deeds to a pre-emption up-river, and had about \$190 in his possession. He is being taken care of by the police, pending a medical examination, and an investigation into his movements.

LASKY ATTRACTION AT WESTHOLME THEATRE

The great attraction at the Westholme tonight is a five-act Lasky feature entitled "The Governor's Lady." The story depicts the transformation brought about in a simple American home by the sudden acquirement of wealth. The humble miner, now a wealthy man, becomes ambitious, politically and socially, and in time becomes governor. His wife, preferring a simple home life, is out of sympathy with his ambitions, and the governor schemes to get a divorce in order that he may marry a younger wife.

How the wife of his early days conquers and continues to share his triumph is beautifully portrayed. Edith Wynne Mathison, as the governor's wife, is the bright star of the piece. "Others Started but Sophie Finished," a knock-about comedy, completes a very fine program.

FAMOUS THEATRICAL MANAGER IS DEAD

London, Oct. 6.—George Edwardes, the well-known English theatrical manager, died in London this morning, after a long illness.

MARCONI THE LIFE SAVER IN UNIFORM OF AN ITALIAN LIEUT.

Without doubt, the wireless, which was adapted and produced for the world by Signor Marconi, has saved thousands of lives since it was first used in 1899 to flash a message across the English Channel. Although the talented inventor has joined the colors in his native country, he says his business is still the saving of life, and he is perfecting new wireless apparatus for Allied ships. In an interview recently he said that if his invention was responsible for the taking of lives as the Zeppelins are, he would die in disgrace. His wife is a daughter of one of England's prominent families.

SEVENTY CARLOADS OF FISH IN SEPTEMBER

During the month of September, 62 carloads of fish were shipped over the G. T. P. to eastern points. This does not include small shipments which would amount to about eight carloads. With 25 working days in September, this works out at over two and a half carloads per day.

SONS OF ENGLAND EARN \$41.25 FOR RED CROSS

The Sons of England Society have been able to hand over through Stephen King the sum of \$41.25 to the Red Cross Society as the proceeds of the whist drive and dance held last Friday. The society wishes to thank the ladies, merchants, musicians and all who contributed to the success of the evening.

VERY SAD SHOOTING FATALITY AT CARCROSS

An extremely sad shooting accident occurred at Carcross the other day. The fourteen-year-old son and two little daughters of Mr. Johnson, superintendent of Indian schools at Carcross, were out hunting on the mountain six miles from town, when a .22 rifle, carried by one of the little girls, went off. The rifle was being carried pointing to the ground, and the bullet glanced off a rock and lodged in her brother's head, killing him instantaneously.

The sad occurrence cast a deep shadow of gloom over the whole community, where the boy was loved by all. Though only 14 years of age he was nearly six feet tall and one of the brightest boys in the neighborhood.

HAT HUNTS

There were some exciting hat hunts along the waterfront between 8 and 9 o'clock this morning, and quite a number of head-pieces found watery graves. One young gentleman, after chasing his hat across the wharf, brought off a great rugby tackle, but it was of no avail, the hat, evading his grasp, dropped over into the harbor.

BALKAN SITUATION SHOWS POSSIBILITY OF REVOLUTION

NEW GREEK CABINET FORMED—THE GREEK AND BULGARIAN POPULACE FAVOR ALLIES—VENIZELOS MAY LEAD GREEK PEOPLE—VON SANDERS CONFERS WITH KING FERDINAND

(Special to The Daily News.)
London, Oct. 7.—There is intense interest here over the Balkan situation. It is believed that there is a possibility of revolutions in Bulgaria and Greece, as the populace of both countries favor the Allies.

In the event of a revolution in Greece, the Allied camp at Salonika will become the rallying point for Ex-premier Venizelos and his followers.

New Greek Cabinet.

Alexander Zaimis has accepted King Constantine's invitation to form a cabinet. His associates include former Premiers Gounaris, Rhallis and Dragounis.

The rupture with Venizelos was followed by a visit from the German minister to the king. After Venizelos has outlined his policy, it is expected that the people of Greece will follow his lead.

Serbian Enthusiasm.

Nish, Oct. 7.—The news of the landing of French and British troops at Salonika has created the most intense enthusiasm, and has dissipated all fear of Germany being able to cross the Serbian frontier.

General Von Sanders, late German commander in the Dardanelles, is reported to be in conference with King Ferdinand at Philippopolis in Bulgaria.

BISHOP DU VERNET BACK FROM GENERAL SYNOD

Bishop Du Vernet returned last night after an absence of about five weeks in the east. While in Toronto, Bishop Du Vernet attended a meeting of bishops and afterwards the General Synod of the Anglican Church, which lasted for two weeks.

Twenty-seven bishops and about two hundred clergymen were at the synod, and much interesting and important business was dealt with, one of the chief items being a discussion on the revision and enrichment of the prayer book and its adaptation to Canadian conditions. Very interesting reports were brought down on missionary and Sunday school work, a whole day being devoted to each.

"THE PRICE OF TYRANNY" AT MAJESTIC THEATRE

The Majestic tonight has another famous Pathe feature in "The Price of Tyranny," in four acts. The story is of a millionaire manufacturer who banishes his son to India, because he has lost heavily at cards. The son dies, leaving a little daughter, who, by the merest accident, is finally restored to her grandfather.

It is a particularly pleasing drama, beautifully staged and splendidly acted. The *Pathe Gazette* is, as usual, bright and interesting. "His Friend the Captain" is aptly described as a thousand feet of laughter. It kept a large audience in a constant ripple of amusement last night.

COMPLETELY BURIED BY A "JACK JOHNSON"

John McRae, of McRae Bros., Ltd., has received a most interesting letter from his nephew, Jack Trumper, who was formerly at Granby and who is now "somewhere in France." Mr. Trumper describes how he was buried by a bursting "Jack Johnson," only his feet being left sticking out. A comrade, noticing the feet, hauled him out to a place of safety. He went to the front with the first Vancouver contingent and has so far escaped serious injury.

With the letter was enclosed a copy of the second issue of "The Listening Post," the newspaper published in the trenches by the 1st B. C. Regiment. This issue deals largely with the visit of Sir Robert Borden and Sir Sam Hughes to the front.

Mr. McRae has another nephew at the front, and one more a prisoner in Germany. The latter had his elbow shot away by shrapnel.

THE BALKANS

The patience of the Allies is being severely tested by the trend of events in the Balkans, and the latest move of King Constantine has produced further complications. There can be no possible doubt but that the Greek people are almost unanimously on the side of Serbia and her Allies, but the King's Hohenzollern connections are evidently bringing foreful arguments to bear. It looks as if his kingship were holding things up until the Bulgarian army is ready to strike. Balkan diplomacy has always been of the serpentine type, and the only effective method in taking the kinks out of it is for a strong Allied force to get busy with big guns and the bayonet.

The Kaiser has evidently been able to convince his worthy relatives that Germany can still lick the world. Another big drive on the eastern front, with a corresponding advance in the west, would probably provide the right kind of an argument. Though there is little news coming through, there is undoubtedly big business on hand on the western front. The Allies are holding on to the ground gained, and, with an ample supply of high explosive and other lines of munitions, further advances should be reported within the next few days.

INSPECTORS

The McBride government has done wonders as a party employment bureau, but it has not taken the fullest advantage of its opportunities, particularly as regards inspectors. Certainly there is a considerable army of government inspectors of one kind or another in the province,

in fact Sir Sam's honorary colonels have to take a back seat so far as numbers are concerned, still this branch of public service might have been developed tremendously.

The creation of an inspectorship of air pockets, to provide against the day when British Columbia will have an air fleet of its own, would be a pretty good scheme which would provide ample scope for the energies of a considerable number of the faithful. Of course there might be some difficulty with Sam Hughes in the matter, as he probably owns the air as well as the earth, however, a royal commission could be appointed which doubtless would be able to bring in a report of airy nothings at several thousand dollars each.

Inspectorships of Pacific coast oyster beds and the pearling industry of British Columbia might be used to an unlimited extent in providing an extended payroll, and, incidentally, might do wonders in reviving the interest of speculators in British Columbia, until such time as the lands of the province can be sold at remunerative prices. It is true that the powers in Victoria have exploited nearly every possible line of inspectorship, but these are mentioned just to show that there is still room, both at the top and the bottom, as it were.

VETERINARY NOTES

A horse with two spavins and one hip down was sold for \$100 by R. H. Creighton to the Ottawa buyers.

A Government horse buyer paid H. J. Chute, Somerset, \$165 for a colt of from 12 to 15 summers,

which fell down when it felt like it and had to be raised to its feet again, in fact it required a Dominion government elevator.

A veteran of 20 winters, which was also badly heaved, was given to the government for \$65.

N. W. Keddy, of Berwick, received \$150 for a 14-year-old youngster which cost him \$55 six years ago. This man would have made a pretty good Indian commissioner.

BRAVE FRENCH GIRL

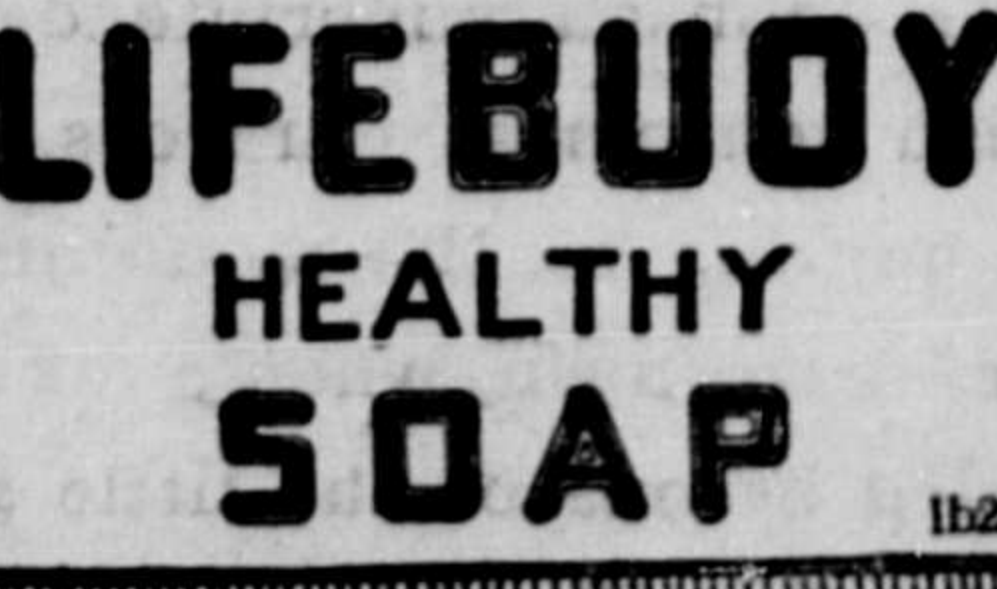

A telegram to the Journal from Hazebrouck says that the Cri de Flanders has announced that a brave girl named Renee Robin, aged sixteen, the daughter of a French Territorial, has been mentioned in an Order of the Day of the British Army for having placed in the hands of the British a plan of the positions at La Bassée and for having helped in an effectual bombardment of the German positions.—Weekly Mail.

Sweden's recent census, showing a population of 5,679,607, also showed fewer births in proportion to population than at any other time in the 170 years such statistics have been recorded.

LONDON A TONIC FOR FRENCH PESSIMISTS

M. Charles Humbert, writing in the Paris Journal, describes the vastness of the effort which the English are making, both with their fleet and their army. He praises the energy and skill which they have displayed in improvising a machinery of war that can vie with that of Germany.

"England's mobilization of her industry is a marvel," he says. "She has understood, thanks to the admirable leadership of Mr. Lloyd George, the capital importance of raw material in modern warfare. In England everyone knows that the factory hand is as indispensable as the soldier at the front. Indeed, in the trenches their comrades tell those among them who are skilled workers that it is their duty to go back home.

"Victory is now the one and only thought of the British people and the oversea Dominions are heart and soul with the mother country. From all lands across the seas where the Union Jack flies, is coming a continual flow of soldiers, workmen, and money. "Those who sometimes incline towards pessimism should go and spend a few days in London. They will come back filled with new enthusiasm by the sight of the fine, tenacious spirit of this people which will never yield and can never be broken."

TRIBUTE TO SIR DOUGLAS HAIG FROM GEN. FRENCH

London, Oct. 6.—Sir John French concludes his despatch to the King regarding the recent important action on the western front as follows:

"I desire to express to the army under my command my deep appreciation of the splendid work they have accomplished, and my heartfelt thanks for the brilliant leadership displayed by General Sir Douglas Haig and the corps and divisional commanders who acted under his orders in the main attack. In the same spirit of admiration and gratitude I wish particularly to comment on the magnificent courage, indomitable spirit and tenacity displayed by the troops of the old and new army and the territorials, who have vied with one another in the heroic conduct displayed in the battle and the officers and non-commissioned officers.

"I feel the utmost confidence and assurance that the same glorious spirit which has been so marked a feature throughout the first phase of this great battle will continue until our efforts are crowned by final and complete victory.

(Sigd.) "J. D. P. FRENCH,
 "Field Marshal, Com.-in-chief
 British Army in the field."
 "30th September, 1915."

Fuel oil obtained from Scotch shale fields has been found highly suitable for the British navy and it is estimated that from 400,000 to 500,000 tons will be available annually for 150 years.

The Housekeeper is Right

Sometimes a housekeeper requires a quick leavening agent, and finds she has no baking powder.
 What does she do?
 She raises her biscuit by a mixture of cream of tartar and soda, or soda and sour milk. She may not get the proportions quite right, but she knows her food is safe. But does she ever use a mixture of alum and soda? Was there ever a housekeeper who bought alum and soda to make a home made baking powder? Intuitively she feels it would be unsafe.
 Then why use baking powder made from alum or the same mixture that the housekeeper would not dare to mix and use in her food?
 Alum is alum, whether bought in the drug store or in baking powder.

DR. PRICE'S CREAM BAKING POWDER
 is made from pure cream of tartar and contains no alum, lime or phosphate. There is absolute safety in its use.

MORE RECRUITS

Thirty-nine strapping recruits came in on last night's train and went south on the George this morning. For some of the regiments, notably the 72nd Highlanders and the Pioneers, recruits are coming along faster than they can be absorbed. These two regiments have closed their lists for the present.

RED CROSS SALE

Messrs. Harrison and Gamble have kindly placed their office at the disposal of Mrs. F. S. Clements and Mrs. E. A. Sinclair, the ladies in charge of the Red Cross sale of home cooking on Friday of this week, from 10 a. m. to 6 p. m. The demands on the Red Cross are greater than ever, so everybody get busy and do some cooking. Everybody who can possibly do so, is requested to patronize the sale. Remember the place, opposite the post office.

If you have any suitable article to raffle it will be greatly appreciated. Send it in early on Friday morning.

Your King and Country Need You

RECRUITS WANTED FOR 62nd OVERSEAS BATTALION, CANADIAN EXPEDITIONARY FORCE.

RECRUITING OFFICE AT PROVINCIAL GOVERNMENT OFFICE NOW OPEN.

In view of the recruiting which is in progress at present throughout the Province, it is apropos to answer a few of the questions which are considered by those who contemplate entering the Service. The following is a list of pertinent queries, together with the information which each elicits.

QUESTIONS ANSWERED.

1.—How long am I to serve? Until the end of the war and six months after if required.

2.—What pay shall I receive? Your pay as a private will be \$1.00 per day and 10 cents field allowance. Besides this you will be clothed, equipped and subsisted by the Government.

3.—What will my wife receive during my absence? Every month there will be paid her a separation allowance of \$20 (also part of your pay) and if this be not enough to comfortably maintain your family, the Canadian Patriotic Fund will further assist them.

4.—What will happen if I am wounded or sick? You will be cared for by the Government and your pay continued until you are discharged. If you are permanently disabled an allowance will be paid you, varying according to the extent of your injury or disability.

5.—What will be done for my wife and children if I die while on Active Service? The Government will provide an adequate pension, that will enable the family to live comfortably until the children are old enough to look after themselves. The widowed mother of a single man, if the son be her sole support, is treated in the same way as a wife.

THE PRICE OF HOMAGE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how brisk it can be made by Advertising? Do you realize how much momentum you now lose in the Summer that must be regained in the Fall?

DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 603 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.
