ALLIES BOMBARDING BULGARIAN COAST

GERMAN CRUISER SUBMARINED -- A BRILLIANT FRENCH MOVEMENT IN SERBIA

SUCCESSFUL BOMBARDMENT OF BULGARIAN COAST LINE

BARRACKS AND DOCKS WRECKED AT DEDE AGATCH -- OVER 1,000 SOLDIERS KILLED--FRENCH MAKE BRILLIANT FLANKING MOVEMENT TO JOIN SERBIAN FORCES AGAINST BULGARS

(Special to The Daily News.)

London, Oct. 25.—The bombardment of Dede Agatch, the Bulgarian railroad terminal on the Aegean Sea, is being carried out by an Allied fleet of twenty battleships. Their fire, which is being directed by aeroplanes, has wrecked the barracks, docks and shipping, and the railway station. The bombardment started while the fortieth Bulgarian regiment was in barracks at mid-day meal. The first shells demolished the barracks, burying the occupants in the ruins. There has been a total loss of over a thousand soldiers and ten civilians.

Brilliant French Move.

Paris, Oct. 25.—The French troops in Serbia have scored a brilliant success in effecting a flank with the Serbians at Krivolsk. They turned the flank of three columns of Bulgarian

troops, while the Serbs attacked them in front, causing a Bulgarian retreat.

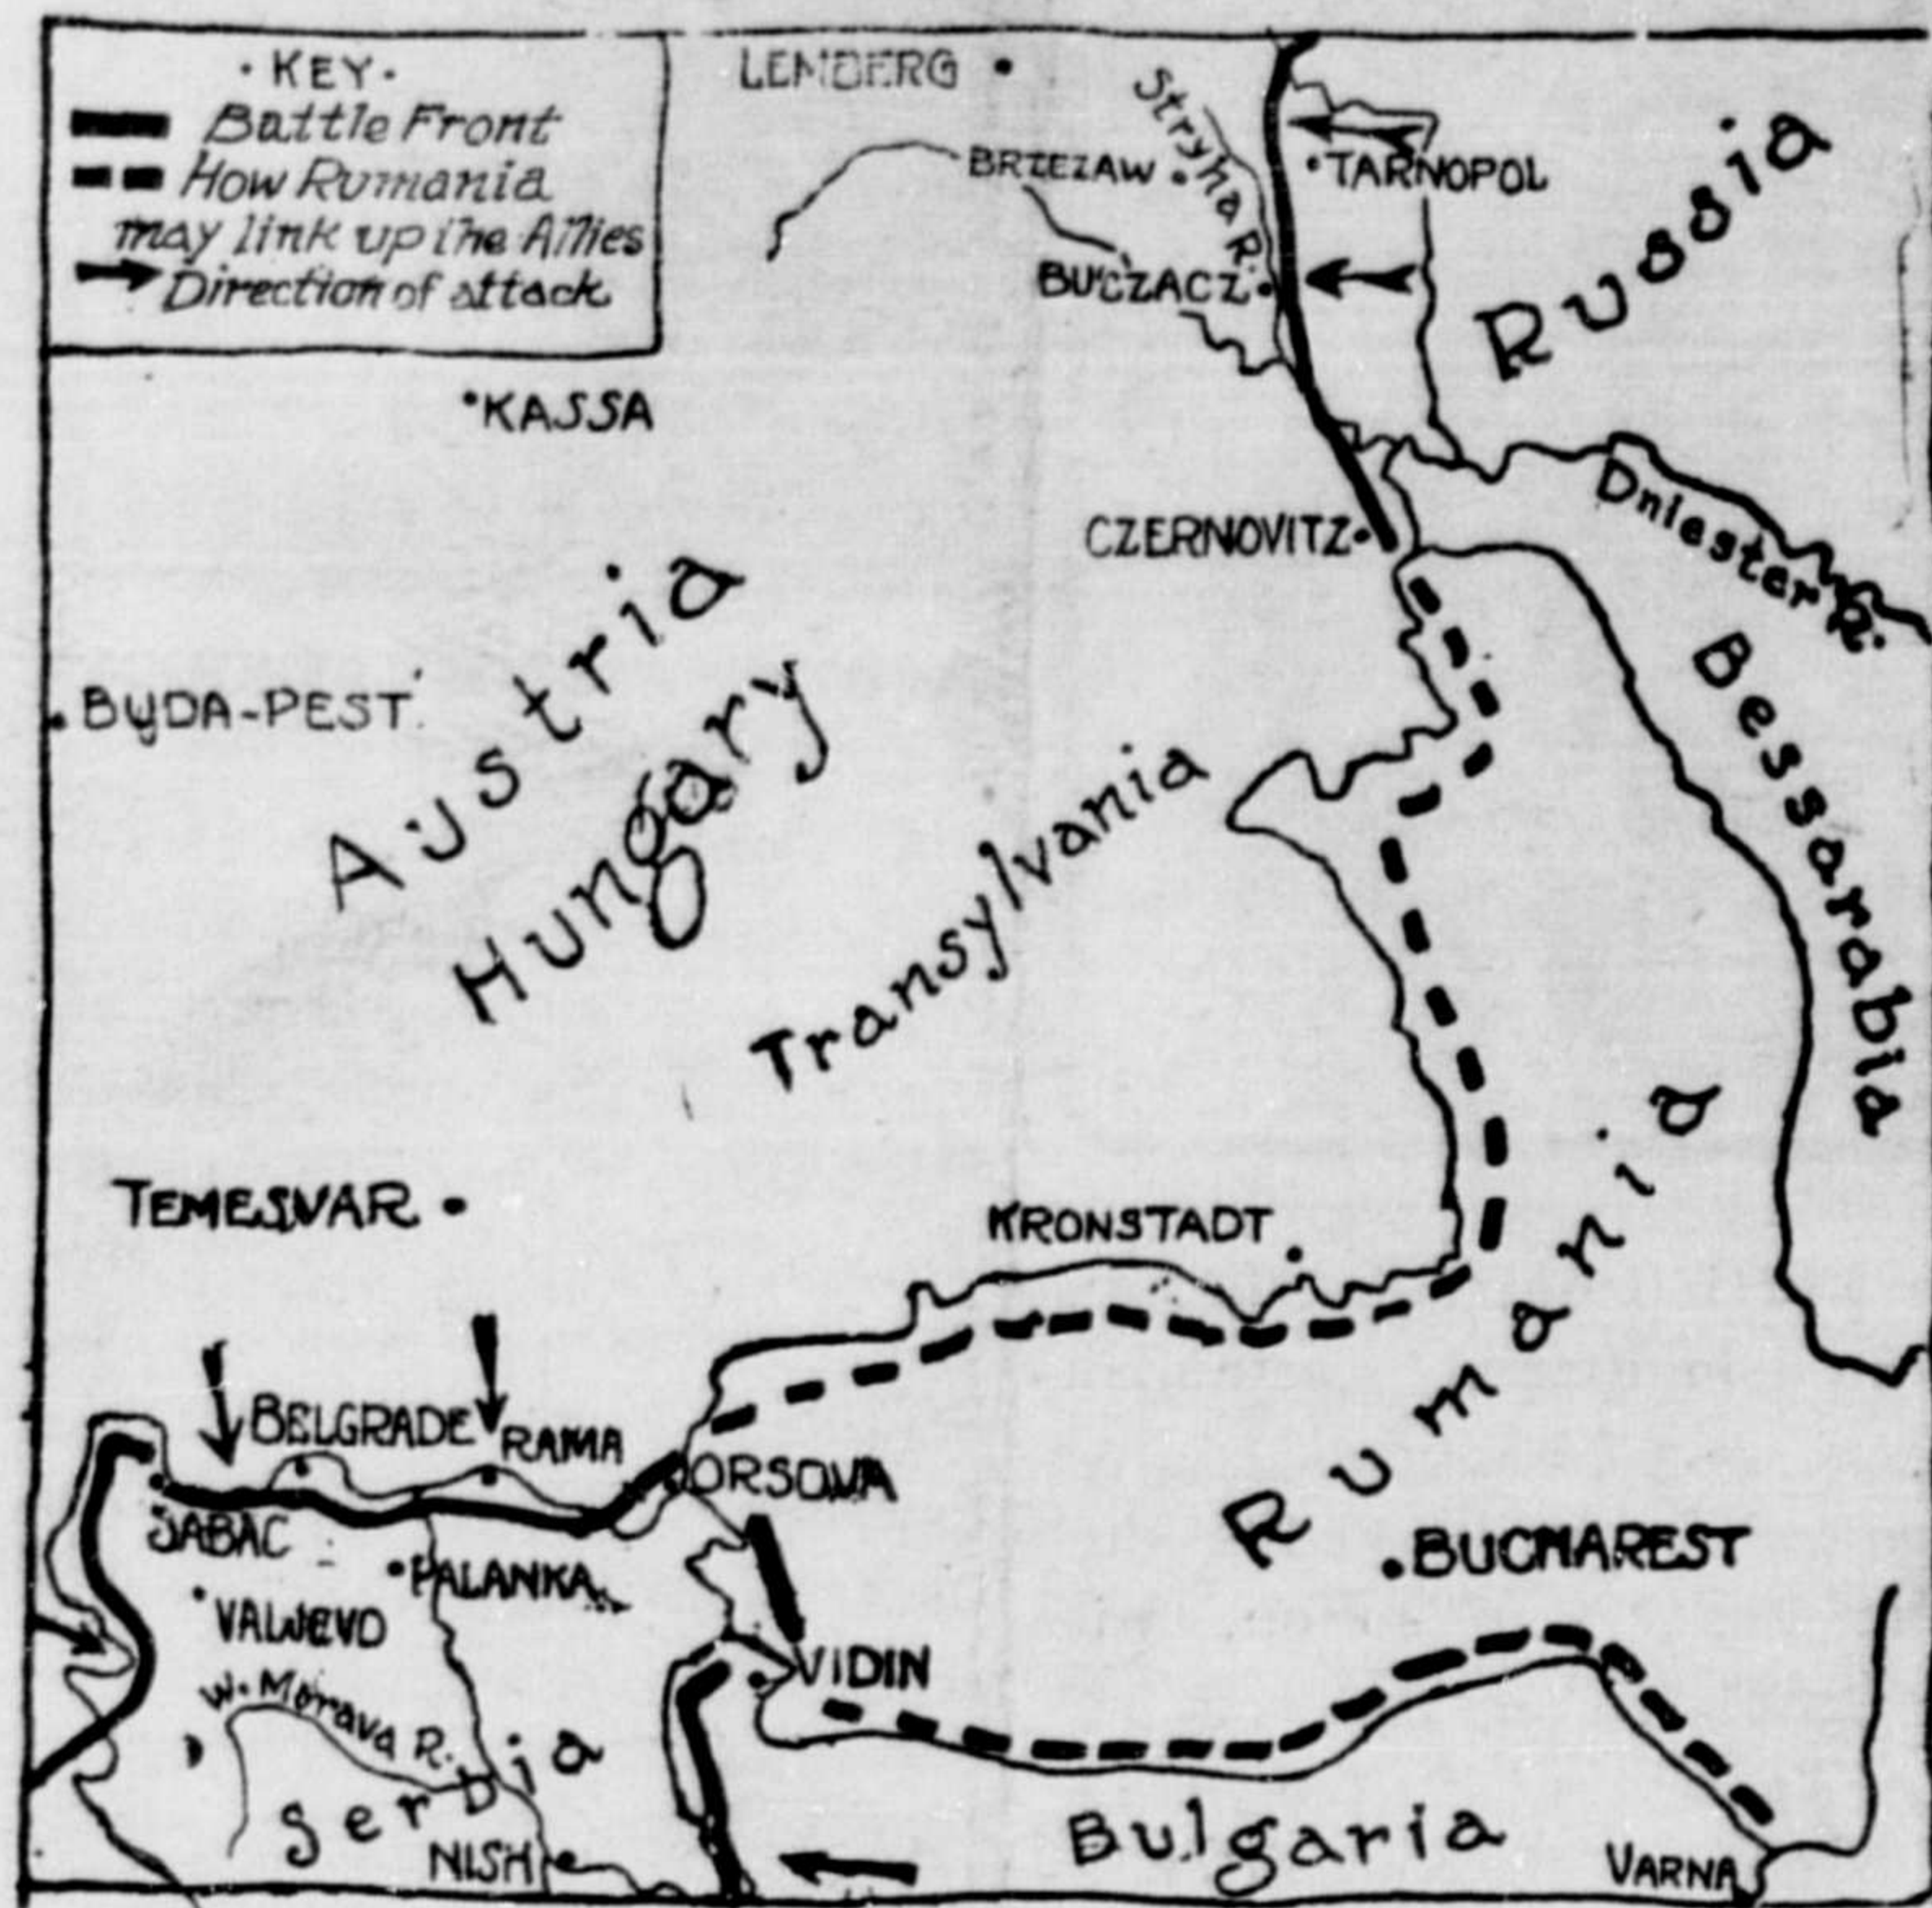

Critics believe that the Austro-Germans will not resume their offensive in the north until the Bulgars have been able to join them. The attack demonstrated that the Bulgarian troops are inferior to the trained British and French soldiers.

Italian Successes.

Rome, Oct. 25.—(Official) The Italians have scored an important success in taking by assault Monte Nordica, thus completing their advance along the Ledro Valley.

They have also captured a fort in the Corderole valley and have advanced along the entire front.

On the Carso front, they have advanced towards San Martell, taking over 1,000 prisoners and sixty officers with seven guns and a quantity of munitions.

Map shows three battlefronts and another which may soon be taken up by Roumania. The result of such an action can easily be seen to be of great use to the Entente Allies.

ROYAL COMMISSIONS

Ottawa, October 23.—At a time when the average Canadian is squeezing every cent and cutting out the frills to keep down expenses, the Borden government is going in for extra hired help in a generous, not to say lavish, fashion.

Without much strain on the mind, it is possible to recall at least half a dozen royal commissions—which is the big name they give their hired help—who are now being paid to do what is really the government's work.

Just a few of the top. There is the Davidson Commission whose duty is to follow up, amplify and extend the revelations made before the Public Accounts Committee. The Purchasing Commission, which is to cleanse and elevate the business of buying army supplies, and free it from the breath of scandal. The Shell Commission, which is to play the shell game for Canada in an honest and efficient manner. The Unemployment Commission, which tells the working man that God moves in a mysterious way, but mostly in alternate cycles of seven fat and seven lean years. The Marketing Commission which aims to provide the wheat farmer with the kind words in lieu of transportation facilities. The High Cost of Living Commission, which drew up a report but never printed it because it was overshadowed by the high cost of buying in Europe. The Better Terms for British Columbia Indians Commission, whose function is to prevent the red man being skinned alive unless the B. C. government

gets its share. The Ferguson Commission, whose mission was to unearth dead Grit sins, ransacking the cemetery, as it were, for the gold fillings. The Georgian Bay Canal Commission, which serves its chief purpose when it links up that amiable philosopher Sanford Evans with a government job. The ———, but what's the use of stringing out the list of those present? Suffice it to say that Royal Commissions are almost as prevalent as sausages.

All these Royal Commissions are at work, but there is some doubt as to whether they are earning their money. Take the Davidson Commission for example. It consists of one man, a Quebec judge, Sir Charles Peers Davidson. An opinion grows that for a gentleman whose middle name is Peers he might peer more deeply and widely than the facts appear to indicate. The Davidson Commission is following up the scandals all right, but that is about all. It keeps strictly in the footsteps of the Public Accounts Committee, covers the same ground, and doesn't budge from the middle of the road to see what is behind the hedge. A good and faithful Royal Commission, that won't hurt anybody that hasn't been hurt before.

Reports from British Columbia tend to show that the interesting transaction of the two submarines, purchased in a moment of inspiration by Sir Richard McBride, and billed to Canada at \$1,150,000 is being scrutinized as between gentlemen. Suspicion cannot live in that genial atmos-

BRITISH SUBMARINE SINKS GERMAN CRUISER NEAR LIBAU

GERMAN ARMORED CRUISER PRINCE ADALBERT SENT TO THE BOTTOM OF BALTIC--FRENCH CAPTURE MILE ON GERMAN FRONT--VICTORIA OFFICER SHOT--GERMAN AGENTS ARRESTED

(Special to The Daily News.)

Petrograd, Oct. 25.—A British submarine has sunk the German cruiser Prince Adalbert near Libau in the Baltic. The Prince Adalbert was an armored cruiser 394 feet long, had a displacement of 8,858 tons and carried a crew of 557 men.

Western Front.

Paris, Oct. 25.—(Official) The French troops captured a German salient over a one mile front in the Champagne district yesterday.

Captain Curry Killed.

Ottawa, Oct. 25.—Captain Curry, of the 42nd Battalion, was shot through the head and killed, two minutes after he had entered the trenches for the first time.

Captain Curry was a resident of Victoria, B. C., where he was highly respected as an efficient and capable officer.

German Agents Arrested.

New York, Oct. 25.—Lieut. Fay,

a man Sholz, brother-in-law of Fay, and a man named Dalthe, have been arrested on a charge of conspiring to blow up American munition plants.

Fay has confessed that he was in the employ of the German Secret Service. Detectives found a high powered auto at Weehawken, and also a speed boat, owned by Fay, on the Hudson river. Fay's boathouse contained 500 pounds of Chlorate of potash, fuses and bombs.

EASTERN STAR

Mr. and Mrs. Comisky, Mrs. Rice and Mrs. Douglas, of Vancouver, arrived this morning to organize a chapter of the Order of the Eastern Star in Prince Rupert. An organization meeting is being held this afternoon.

VETERAN NAVIGATOR DIES OF PNEUMONIA

Captain Simon B. Brunn, of the Border Line Steamship Dispatch, and a veteran northern navigator, has died in the hospital at Ketchikan, Alaska, of pneumonia. His illness was the result of exhaustion brought about by his efforts in saving the passengers from the stranded Mariposa.

The Dispatch was nearest to the Mariposa when she sent out the S. O. S. signal on October 8th and Captain Brunn took off 79 passengers from the beach at Bella Bella and landed them at Ketchikan. For five days he practically never left the bridge and finally collapsed.

YUKONERS MOVING SOUTH FOR WINTER

The Princess Sophia on Saturday afternoon brought about 215 Yukoners south. The northerners spent several hours in the city visiting old friends, in many cases. It is estimated that the gold output of the Yukon this year will total \$4,000,000, which is about an average year.

Included in the list were: Mr. Justice Macaulay and wife, Chas. Boyle, of one of the big dredging companies, and wife; Thomas McGowan, of the N. C. Company; Frank Nolan, ex-manager of the N. A. T. & T. Company; Fred Congdon, K. C., former governor; Wm. Scouse, a well known mining man; O. S. Lanning, manager of the N. C. Company at Dawson, who has put in about twenty years in the north and who has not been out for the past seven years, and Mrs. Lanning; John Locks; Mr. Henderson, a newspaper man, and Sheriff Brimstone.

AUTOMOBILE UPSETS AT NINTH AND M'BRIDE

What might have been a very serious accident occurred on Ninth Ave. on Saturday evening. Alex. Videck, with his wife and family, were returning home along Ninth in their auto when it turned over the side of the roadway, with the occupants underneath. All escaped without injury except Mr. Videck, whose injuries are not likely to have any serious results.

The accident, which occurred at the corner of McBride, is believed to have been caused by the steering gear going wrong. The auto was built by Mr. Videck himself.

Donald, who joined the 48th Battalion and was a member of Prince Rupert's second contingent, is the first of 21 members of the crew of the Prince George who joined the forces for overseas service, to fall.

He was killed on October 13th, "somewhere in France." His widow, Mrs. Jane Donald, resides on Thompson St., this city, and is a sister of Captain Donald, of the Prince George.

The sincere sympathy of all will go out to her in her bereavement.

SAM AND THOMAS

The address of Mr. D. A. Thomas, representative of Mr. Lloyd George, British minister of munitions, to the Canadian Manufacturers' Association at Montreal, was delivered in carefully chosen language. It was a message of constructive criticism, predicting a greater Canadian output of shells, and consequently, a shortening of the war and to the giving of orders to Canada's manufacturers. It was rather meagrely reported in the daily press, which may have accounted to some extent for the pique exhibited by Sir Sam Hughes, Canadian minister of militia, in his tactless interview given at Ottawa the next day. Several statements made by Mr. Thomas were labelled by Sir Sam as erroneous, but in view of the experience of Mr. Thomas, one can only conclude that Sir Sam is not as fully informed on the matter as he apparently thinks he is. The minister of militia stated, for instance, "it is upwards of three months since Mr. Thomas crossed the ocean, and he has not concluded a contract yet for one single dollar's worth of orders in Canada." Yet Mr. Thomas distinctly stated to the manufacturers' gathering that he had recently placed certain orders, some of which he named. Sir Sam also overlooks the fact that Mr. Thomas had to make a sort of exhaustive inventory of the Canadian situation as it effects the output of munitions. Mr. Thomas said that when he arrived here, only about two per cent. of the deliveries of orders placed in Canada had been made. Sir Sam says this is erroneous. But is it? Mr. Thomas added that deliveries had since improved considerably.

The minister of militia uses

the word "erroneous" in connection with the statement of the British visitor respecting the price which the British government can pay for shells. On the other hand, the impression gathered as to what Mr. Thomas said on this point at the Montreal meeting, by a representative of The Monetary Times, who was present, was substantially this: "The British government is under a severe strain and must buy economically. The purchase of munitions is largely a matter of competition. The selling of munitions in the United States, Canada and the United Kingdom, must necessarily be on a competitive basis. The British government desires to place further orders for the smaller shells, and also desires to place orders for larger shells, and possibly guns, provided prices and conditions are satisfactory. The British government is anxious to give Canada a full preference, but has to consider three conditions, efficiency of ammunition, expedition in manufacture, and economy. Price must be a consideration, said Mr. Thomas, but he did not allege that it had not been considered in the past, or that the Canadian price had previously been high. His remarks were more in the tenor of a warning not to expect favoritism in the matter of prices.

We fancy that the underlying cause of Sir Sam Hughes' untimely interview (and we thought he had ceased to hand out such interviews) is largely in the statement of Mr. Thomas that a reorganization of the Canadian Shell Committee is about due. This may hurt the minister's vanity. In his interview, and respecting this matter, the minister says: "The shell committee was formed by

me"; "I felt our splendid Canadian industrial establishments were competent"; "I accordingly constituted the shell committee," and so on, with the emphasis on the first person. As it was "My troops," so is it "My shell committee."—Monetary Times.

ROYAL COMMISSIONS

(Continued From Page One.) consents to act as Jonah to a tin whale he must be pretty sure of his return ticket. Out in Victoria they will tell you that the submarines are pretty safe as long as they go down only once at a time—they have to go down three times in succession, before they drown.

Talking of British Columbia and Royal Commissions, reminds one of the Joint Indian Commission, approved by the Dominion and the British Columbia governments. It is built largely on a sense of humor, is now in its third year, and has already cost the country over \$200,000. One of its members once told me that if it were necessary in the pursuit of better terms for the British Columbia Indians, the Commission would not hesitate to cross the ocean to England and remain at the Savoy Hotel in London, for six months while it looked up state documents, treaties, crown grants from George the Third and similar matters. Some men are like that—they go where duty calls and to hell with the expense.

The alleged business of the Commission is to make a valuation of the various Indian reserves, so that the Indians will get as fair a price as they can

TOOK THE ADVICE OF HIS FRIEND

Stomach Trouble and Rheumatism Relieved By "Fruit-a-tives"

MR. L. LABRIE

204 Champlain St., Montreal.

"I have been restored to health by taking 'Fruit-a-tives'. For two years, I was a miserable sufferer from Rheumatism and Stomach Trouble. I became very weak, had frequent dizzy spells and when I took food, felt wretched and sleepy. I suffered from Rheumatism dreadfully, with pains in my back and joints and my hands swollen.

A friend advised me to try 'Fruit-a-tives' and from the outset, they did me good. After I had started the second box, I felt I was getting well and I persevered in the treatment. I can truthfully say that 'Fruit-a-tives' is the only medicine that helped me.

(Continued From Page Two.)

The wages of skin is \$80,000.

At present the Joint Commission for Better Terms for the British Columbia Indians is working the northern part of the province. Better terms for the In-

dians do not necessarily interfere with high old times for the Commissioners.

During the last six months they have "conferred" with the Indian chiefs in the north, three times—a five hundred mile journey each way. The first and second times the commissioners went north they used the ordinary palace steamers of the C. P. R. and G. T. P. which ply in the Inside passage, but on the last visit they

make the trip from Victoria on the Union S. S. Co.'s steamer, Chelohsin, which they chartered for \$350 a day. This charter, with side trips, and picnic interludes, will probably run three weeks. Some Charter!—H. F. Gadsby.

The Housekeeper is Right

Sometimes a housekeeper requires a quick leavening agent, and finds she has no baking powder.

What does she do?

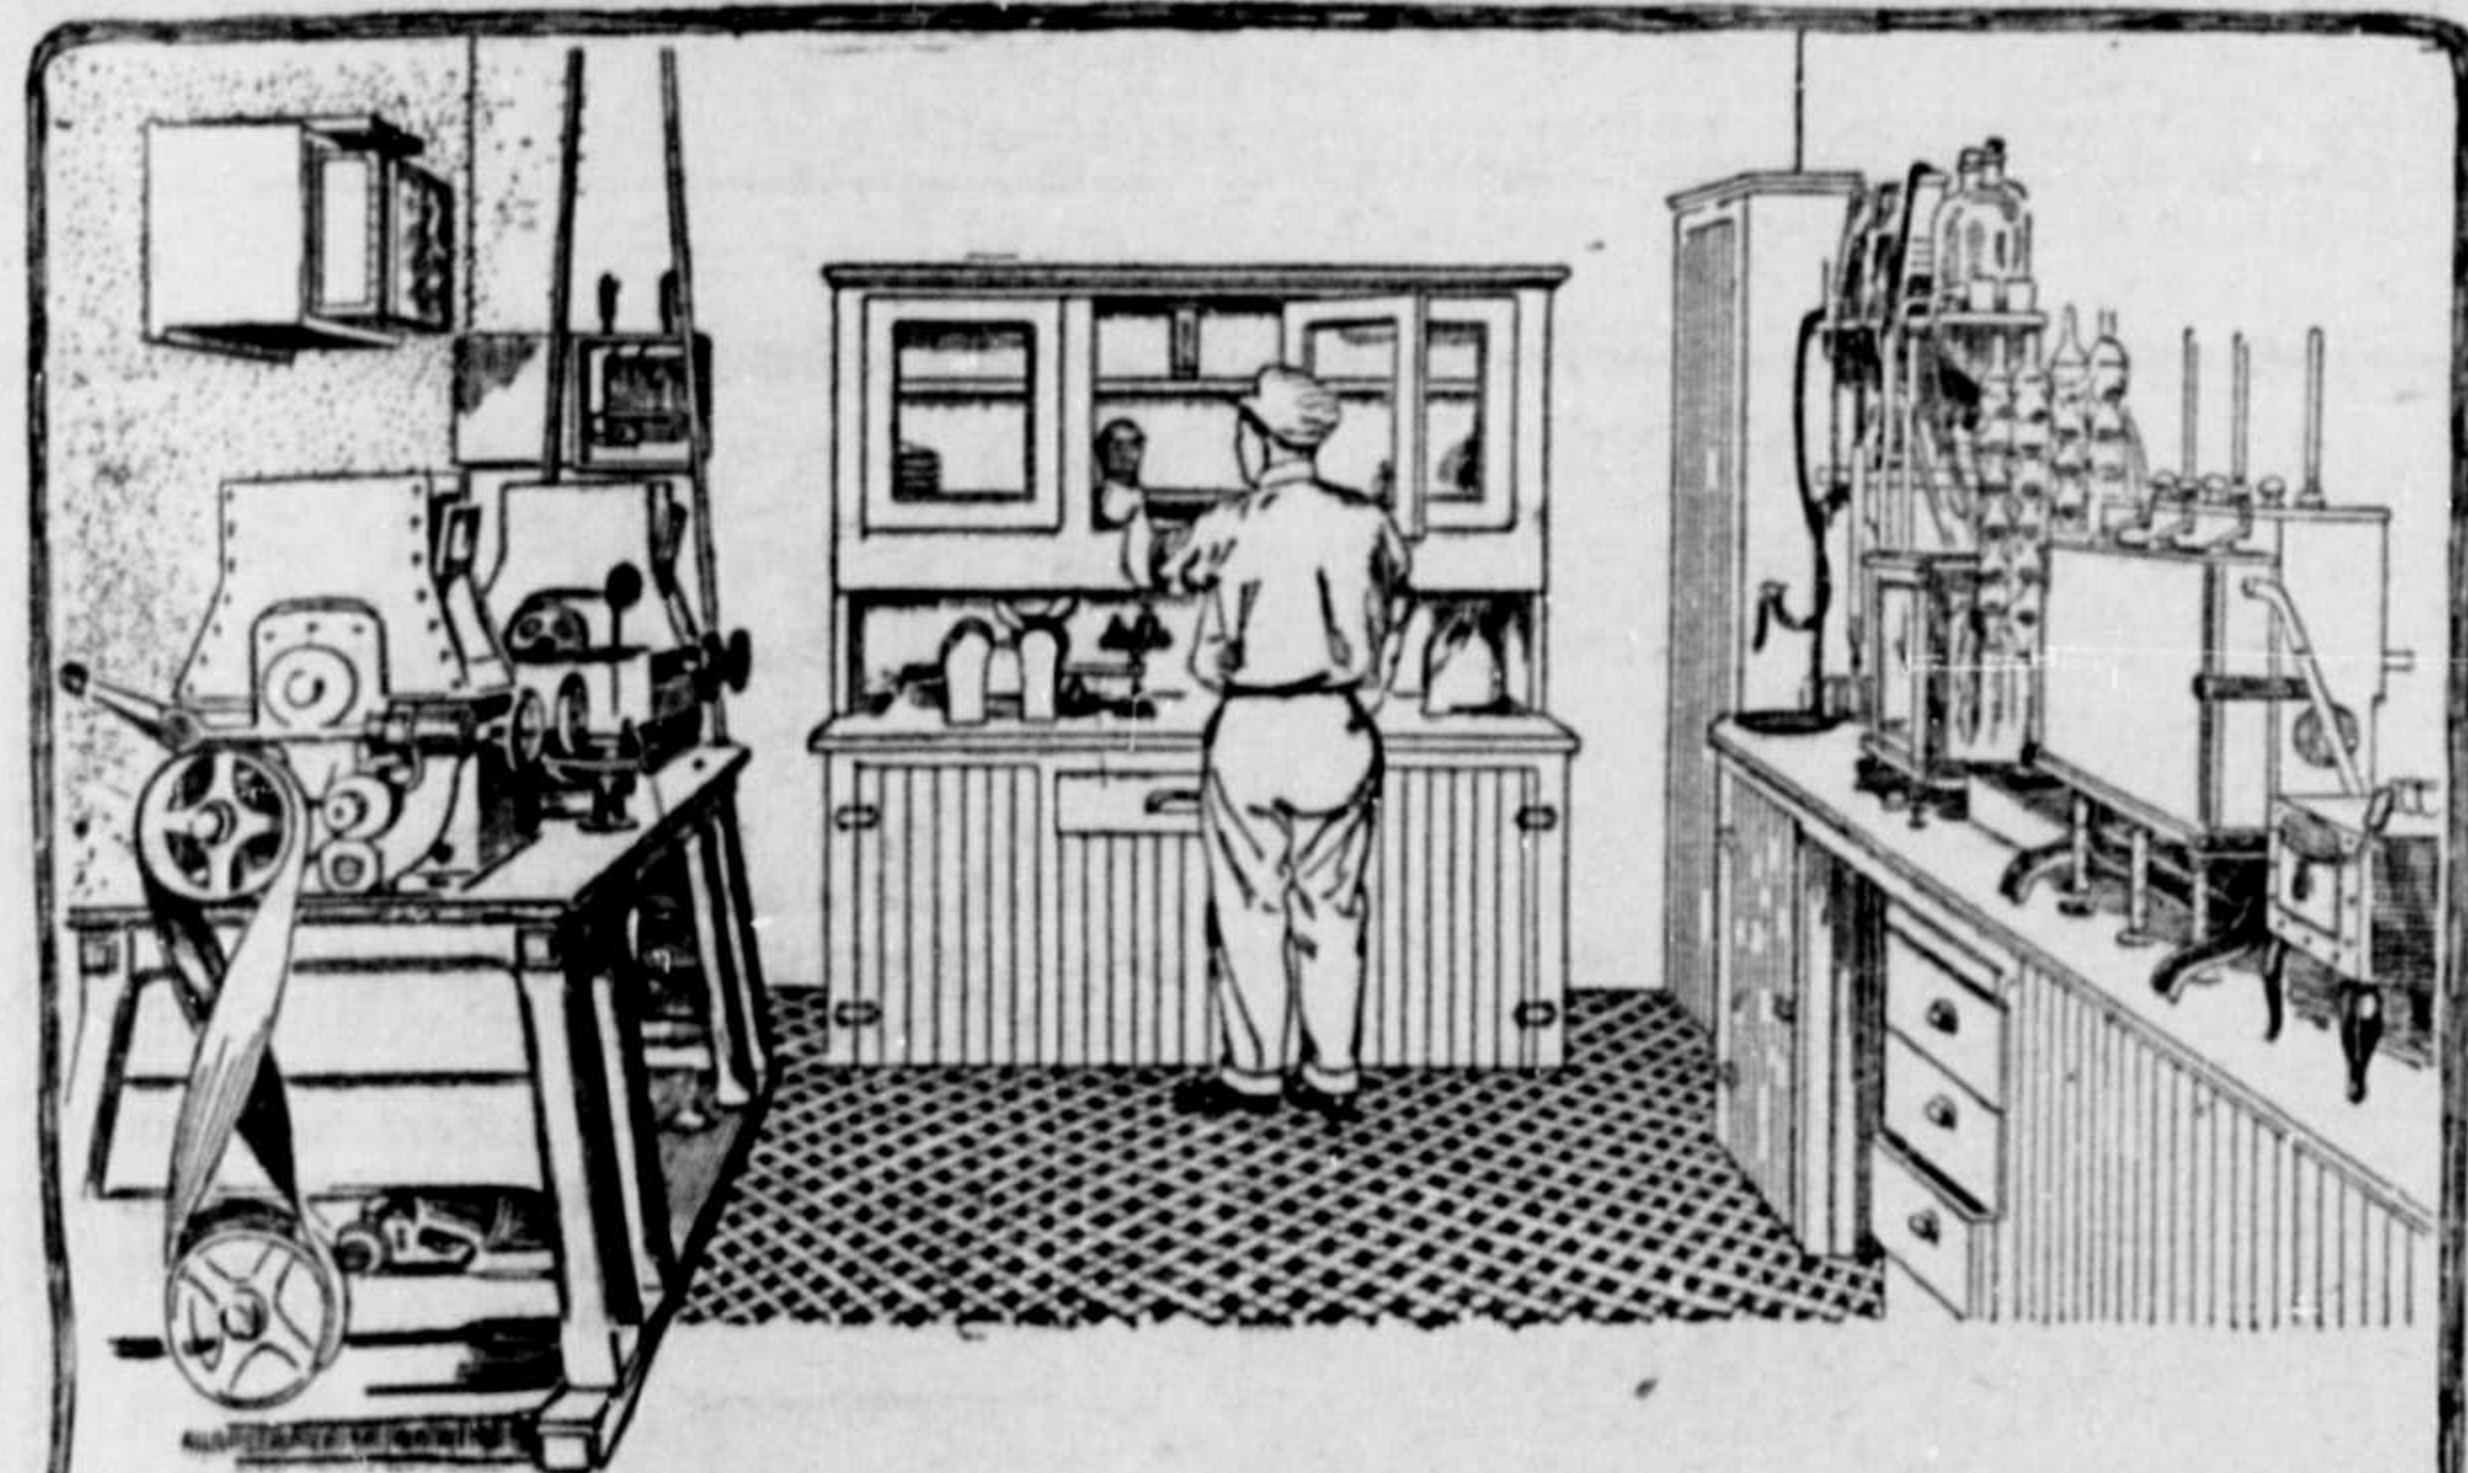

She raises her biscuit by a mixture of cream of tartar and soda, or soda and sour milk. She may not get the proportions quite right, but she knows her food is safe. But does she ever use a mixture of alum and soda? Was there ever a housekeeper who bought alum and soda to make a home made baking powder? Intuitively she feels it would be unsafe.

Then why use baking powder made from alum or the same mixture that the housekeeper would not dare to mix and use in her food?

Alum is alum, whether bought in the drug store or in baking powder.

DR. PRICE'S CREAM BAKING POWDER

is made from pure cream of tartar and contains no alum, lime or phosphate. There is absolute safety in its use.

Notice Under Section 36.

TAKE NOTICE that an application has been made to register Antonello Angelo, of Prince Rupert, B. Mrs. La Fortune returned from New Westminster this morning.

A carload of Chinese passed through on their way east this morning.

The American halibut schooner Corona came in this morning with her fore-top mast carried away.

Thomas Williamson, the stock market editor on the Toronto World, passed through on his way east today.

Mrs. E. A. Woods and Mrs. Harvey left Hamilton, Ont., yesterday and expect to reach Prince Rupert on Friday.

J. E. Oppenheimer, of the Rocher de Boule, come north on the Prince George and left for the mining camp on the train today.

J. Lewis, formerly on the staff of the Daily News and afterwards on The Empire, passed through this morning on his way to Winnipeg. He has been on the Victoria Colonist recently.

Two American schooners came in this morning. The Constance had 70,000 pounds of halibut, which the National Independent Company bought in at 6 1-2 cts. The Alameda had 6,000 pounds.

"THE BROKEN COIN" AT THE MAJESTIC THEATRE

"The Broken Coin" has provided more excitement than any other picture which has ever been screened at the Majestic, and the 13th episode, which will be shown tonight, is the most thrilling yet. Along with the stirring scenes, Grace Cunard provides a vein of quaint humor to the story which is delightful. For rapid action this serial is a wonder; there is not a dull moment throughout.

The rest of the program is good. The comedy "Her Rustic Hero" is a scream, while "Father's Strategy" is a delightfully amusing comedy drama. The Animated Weekly is, as usual, interesting and up-to-date.

The management of the Majestic announces a great four-act Pathe photoplay, entitled "Queen and Adventurer," for Wednesday and Thursday.

"THE DIAMOND FROM THE SKY" AT THE WESTHOLM

The chief item in the Westholme program for tonight and tomorrow is a further installment of two reels of the \$800.00 serial "The Diamond from the Sky." When last seen the diamond was strung around the neck of an organ-grinder's monkey, and this week it has another spell of adventure.

"The Gold in the Crock" is a very interesting two-act drama. "The Hicksville Tragedy Troupe" is one of those extremely funny Hicksville comedies which have been so popular in the past. An entirely new feature is the introduction of the Gaumont Gazette, depicting up-to-date European items.

A great four-act Paramount drama, entitled "The Unafraid," will be screened Wednesday.

SAILOR-ARTIST IS LEAVING FOR ENGLAND

Harry Cowper, the talented artist-sailor of the Prince George, is making his last trip along the Pacific coast, at least for some time. Harry is leaving shortly for England to rejoin the Royal Naval service, of which he was formerly a member.

Mr. Cowper has been in the service of the G. T. P. steamships since they were first placed on the coast, and has travelled 250,000 miles between Seattle and Prince Rupert in that time.

Harry's hobby is painting marine scenes in oils, and he is some artist, having taken prizes at Prince Rupert and Victoria exhibitions. The hearty good wishes of a host of friends will go with him in his new venture. His brother Ernest, who figured in the Lusitania disaster, has an appointment on a Spokane paper.

INSPECTION

INSPECTION of the Gillette Safety Razor by mechanical experts and men of judgment shows clearly WHY seven million shavers prefer it.

The thin, flat blade is tempered to a uniform hardness impossible in an ordinary thick-backed razor. As a natural result, it takes an edge unequalled for even keenness.

By a simple turn of the wrist you can regulate a Gillette shave to a nicety—light, medium or as close as you like.

The curved holder supports the blade close to the shaving edges, preventing all that vibration which makes hollow-ground open blades and other safeties pull and irritate when they strike a stiff beard.

The toothed guard ensures safety, and permits such free and rapid strokes that a smooth, clean Gillette shave need take no more than three minutes.

Then there's the adjustable feature, exclusive to the Gillette.

Inspect the Gillette and you'll buy it—and shave in comfort thereafter. Go to it! Your Druggist, Jeweler or Hardware Dealer will gladly parade the Gillette Line before you.

"Bulldog", "Aristocrat" and Standard Sets, \$5.00—Pocket Editions, \$5.00 to \$6.00—Combination Sets, \$6.50 up.
