Austria Facing a Serious Cabinet Crisis—Kaiser's Offer to Roumania Causes A Split.

(Special to The Daily News.)

London, Dec. 1.—The Austrian ministers of the interior, commerce and finance have resigned as a protest against the efforts of the Kaiser to induce Emperor Franz Josef to consent to the sacrificing of Transylvania and part of Bukowina to Roumania in return for the keeping of benevolent neutrality towards the Central Powers.

Vienna Wants Peace.

Vienna is making efforts through the Vatican to obtain a separate peace. The Austrian cabinet crisis is regarded as the most important political event of the war.

Roumanian Terms.

A Bucharest news despatch announces that the Roumanians will deliver an ultimatum to Austria, just as soon as the Allies place 500,000 men on the field in the Balkans.

ESCAPED PRISONER WAS AFRAID TO RETURN

A.G. Hardacre, the man brought up from Vancouver by Chief Vickers, came up before Magistrate Carss this morning on a charge of escaping from lawful custody. Mr. Bailey stated that on 4th Feb., 1913, he was called to the wharf, and was there from 2:30 p.m. until 5:45. On returning, he found that accused had made his escape.

Hardacre made a statement to the effect that someone on the previous day brought in a bottle of rum, and that on the 4th, while he was under the influence of liquor, he found the prison doors open and walked out. After staying away over night, he was afraid to return. He will come up for trial at the assizes tomorrow.

GOVERNMENT WILL HANDLE NORTHCLIFFE

Home Secretary Issues Warning That Stronger Methods will Be Adopted—Austrian's Confession.

(Special to The Daily News.)

London, Dec. 1.—Sir John Simon, Secretary for Home Affairs in the British Parliament, has announced that the government intends to take measures to stop Lord Northcliffe from befouling his own nest, if the gentler methods pursued hitherto prove of no avail.

Through his papers, one of which is the London Times, at one time the most influential daily in Britain, Northcliffe has, from the outbreak of the war, conducted a very severe criticism of the heads of the various departments, and has sought to spread a feeling of pessimism throughout the country. The worst feature of the attacks was a steadily pursued effort to shake the faith of the people in the abilities of Lord Kitchener.

Austrian's Confession.

Cleveland, Dec. 1.—Officials are conducting an investigation into the confession of Dr. E. W. Ritter, who states that he took part in the plots against munitions plants in America.

Ritter is said to be Ritter Von Rettaghe, the son of an Austrian count, and the inventor of liquid fire.

CIGAR STORE ROBBERY CASE HEARD TODAY

At the police court this morning, Maurice West was charged with breaking into Cole's Cigar Store. Officer Bailey gave evidence in connection with the arrest of the accused.

V. A. Cole testified to his having locked up at 1:10 a. m. on the morning of the 30th, and stated that the sum of \$66 was left locked up in the safe, while the cash register contained about \$16.

A crow-bar and file were produced, and also the drawer of the safe. Mr. Cole drew the attention of the court to the fact that the bruises on the door of his store fitted exactly with the point of the bar. He also testified that accused knew the combination of the safe. The crow-bar and the file were found in Self's Cafe, where accused was working at the time of the burglary.

One of Mr. Self's employees stated that accused left the kitchen for fifteen minutes on the morning of the robbery, and on returning said he had been getting coals for his mother. The case was adjourned until this afternoon.

Later.

This afternoon, Maurice West explained his movements on the morning of the burglary, and Magistrate Carss dismissed the case, as he was perfectly satisfied with West's evidence.

MASQUERADE WAS A BRILLIANT SCENE

The masquerade in St. Andrew's Hall last night was an unqualified success. The hall was brightly decorated and so were the dancers. There were dainty gipsy girls, some of whom might have stepped out of "The Diamond from the Sky" scenes; Charlie Chaplin was there, though he was quieter than usual; Prince Rupert was present, garbed in the colors of the Agricultural Society; there were several chefs, many pierots and pierettes, while eastern costumes were frequently noticed. It was a gay scene, but there was one notable omission in a St. Andrew's celebration, there did not seem to be one characteristically Scotch garb in the lot. Some of the ladies had performed wonders in producing beautiful dresses from paper.

To ask three old married men to act as judges was an act of sheer cruelty. However, they took the precaution of getting out of the way before the decisions were announced. Mrs. H. Brown was awarded the lady's prize for the best costume. She was garbed as a Turkish lady, and looked as if she might have been a granddaughter of Abdul Hamed. H. Astori was awarded the gentleman's prize, his get-up being that of an old apple-woman. Dancing was kept up until the "wee sma' hours" and everybody had a most delightful time.

MAX LINDER AT THE MAJESTIC THEATRE

The irrepressible Max Linder provides two reels of laughter at the Majestic tonight and tomorrow. Max does not appear in Prince Rupert often, but his appearances are always occasions to be remembered. "A Ringer for Max" is his feature tonight.

There is also a Pathe Gazette, which is always right in the front with news specials. "The Fallen Standard" is a very pleasing two-act drama. The "Bold Bad Boy" comedy is a good one. This program of three reels of fun, two of the more serious side of life, and one of highly interesting news should fill the house.

INTERESTING MEETING OF LOCAL FISHERMEN

The meeting of men interested in the fishing business, held in the city hall last night and presided over by George W. Nickerson, was productive of an illuminating discussion on the disadvantages under which individual fishermen labor in this district.

Mr. Nickerson outlined the questions which it is proposed to bring before Messrs. Cunningham and McIntyre, the representatives of the Dominion and provincial governments, when they arrive here on Thursday, and which we publish under another heading in this issue.

In a nutshell, the fishermen of the northern district want to be allowed to fish under the same regulations as those which govern fishing on the Atlantic seaboard. With regard to the appointment of a fisheries inspector here, Mr. Nickerson pointed out that it was ridiculous that an inspector resident 600 miles away should be asked to control fishing matters here. It is also felt that there should be two local representatives upon the advisory board, and that these representatives should be men closely connected with the industry.

In discussing the fishing for salmon in the creeks, Mr. Nickerson stated that the department absolutely refused to give any information as to which creeks were held by the various canneries. The chairman also pointed out that the privy council had given as its opinion that fishing in the sea was a right which could not be taken from the public, as such a free right had existed from the earliest times, even before the passing of Magna Charta.

Ald. Dybhavn drew attention to the monopoly which existed in cannery licenses, stating that it is impossible for any individual, no matter how well he may be adapted for the business, to obtain such a license.

Ald. Edge pointed out that Prince Rupert only benefits to the extent of 1 per cent. of the cost of running the various local canneries. He considered that the fishing industry is the most important thing Prince Rupert has at the present time, and the small men must be considered.

Captain Bill Selig dealt fully with the question of allowing halibut fishermen to fish for their own bait. He suggested that fishermen should be granted a royer's license which would enable them to fish anywhere. With regard to herring fishing, he pointed out that at present a man

ANOTHER BIG POWDER MILL IS BLOWN UP

Thirty-one Men Killed and Six Injured—Guards Doubled and Strict Enquiry Conducted.

(Special to The Daily News.)

Wilmington, Del., Dec. 1.—Following mysterious warnings, the plant of the Dupont Powder Works was blown up yesterday. Thirty-one men were killed and six were injured.

The accident is the worst which has occurred in any of this company's plants in the last twenty-five years. The management expresses its belief that it was the result of an accident, but a strict investigation is being made.

The place where the explosion occurred is one of those mushroom towns which have sprung up during the last few months in America, as a result of the extraordinary demand for munitions. The guard on the remainder of the plant has been doubled. There was another small explosion today, without any serious result.

requires separate licenses to fish for herring at the various points. For instance, a man can fish in the harbor under one license, but under the same license he cannot carry on his work off Digby Island. As the herring move around, a man ought to be allowed to follow them, using only one license for the season.

With regard to salmon, everything seemed to belong to one or two concerns, and the only chance for an individual was to get what he could steal.

W. S. Fisher said that he was strongly in favor of having the present restrictions taken off. He pointed out that there was a tremendous demand on the American market and elsewhere for herring, but that a license to fish in Prince Rupert harbor meant about a week's fishing, and then the fish

PATRIOTIC FUND

Efforts are being put forth by the committee of the Patriotic Fund which must have the hearty support of everyone in the Dominion. The demands on this fund are steadily increasing, as fresh battalions are sent to the front. Subscriptions will be sought, payable in monthly installments, so that the fund may have a continuous income.

For the most part, the work of the fund is carried on by voluntary workers, so that no subscriber need fear that his subscription is largely eaten up in overhead charges. Hitherto the interest allowed by the banks on reserve deposits have more than covered the cost of administration, and it seems probable that this condition can be maintained, at least for the present.

In Alberta alone the sum of \$75,000 has been distributed to the wives and dependants of men who have gone to serve their country at the front, and other provinces have benefitted in like proportion. Before the end of the war, Canada probably have provided 300,000 men for overseas service, and many of these men have left wives and families behind. The call for more money is urgent, and the committee feel satisfied that the people of British Columbia will respond just as heartily as the men have done to the call of their country in the hour of trial.

NOTES AND COMMENTS

The Germans on the western front must have thought that a flock of destroying angels had put in an appearance on Sunday. Fifteen air fights in one day is going some.

Ottawa has decided that only

market price will be paid for the 15,000,000 bushels of wheat appropriated by the government. What's the matter in Ottawa anyhow? On the shell basis, the price ought to have been about \$2.15 per bushel. The Tory wheat buyers must have been asleep at the switch.

When are the 200 per cent patriots to be made to shell out 95 per cent of their profits? If the finance minister thinks a war profits' tax would be too harsh, he might at least make a demand on the patriots on behalf of the Patriotic Fund.

Victoria seems to be simply wallowing in coal scandals these days. It is really too bad that an inquisitive court should want to enquire into the details of the graft of a Conservative Association secretary. While they are at it, it would be interesting to find out if Harry Price really got the commission, or if he was simply collecting party funds.

Harry Price, the fifty cents a ton buyer for the government, states that he took the commission because he was "guaranteeing payment by the government." Has the credit of the McBride government reached such a level in Victoria that a Conservative Association secretary has to give such a guarantee?

Bob Rogers must have left something of his evil influence behind him in Victoria. The books of the coal firm, from which Harry Price collected his price, have disappeared.

ermen had gone over there. The Point Grey season is approaching and the big concerns are afraid that they won't be able to get men, as the fishing is still good at Pender Harbor. The big interests had approached the government, and there is a probability that the fishing at Pender Harbor will be stopped.

The mayor said he was not acquainted with the fishing business but was pleased to see that local fishermen were taking these matters up. He remarked on the concessions which had already been made as a result of the efforts of the fisheries committees of the city council and the Board of Trade, and said that the only way to get anything was to keep on asking. In such matters politics should be entirely lost sight of, as the fishing industry was more important than politics.

Alec Maclean said he thought a rover's license was the solution of many of their difficulties. He had been able to obtain a salmon license for a space of four miles, but he might as well have had a license to fish in the city reservoir.

George Morrow went into the various points of the question very fully. He pointed out that it was ridiculous to ask a fisherman to pay \$50 for a seine license and \$2.50 for a gill net license for each different district. The fish were not put in the sea by politicians and he thought politics should have nothing to do with the business. He said that the white fishermen of the earlier days were largely to blame for the Japs getting the hold of the bus-

ness as they had done, but that today a race of fishermen has sprung up on this north coast and the monopolies of the past must be broken. He thought there should be no vested interest in such a business, as a cannery license was for one year just as an hotel license was for a year. At the same time, he was strongly in favor of measures for preserving the fish, but he objected to the government making fishing licenses a means of revenue. He felt that halibut fishermen should be allowed to take dog and hump-back salmon from the creeks for bait.

Captain Rorvik dealt with the question of herring licenses and stated that in Norway there were no restrictions, even to fishing on spawning grounds.

GROUSE MOUNTAIN MINES LOOKING WELL

Glowing reports are being received from Grouse mountain, the new Bulkley valley mining district, where five claims were recently bonded by R. P. Trimble. Pete Powers and partners, the contractors, are working on these properties, with results of a most encouraging nature. On Monday last the shaft was down thirty feet, all in solid ore, carrying excellent copper values which appear to increase with depth.

It is impossible at present to judge the width of the lead, as no walls have been found.

The present shaft will be continued to the 100-foot level, which is likely to be reached before Christmas.

Development on a large scale is being arranged for and will be started soon after the holidays. Mining men will watch with the greatest interest the opening up of this prospect, which shows every indication of becoming a big mine.—Omineca Miner.

MARY PICKFORD AT THE WESTHOLME THEATRE

The Westholme Theatre tonight and tomorrow presents a great eight reel program, in which the dainty Mary Pickford holds the screen for six reels. In "the Dawn of a Tomorrow" Mary portrays the weird and wonderful character of Glad, the beautiful ragged girl of the London slums, whose undying courage conquers even starvation. In this play, Mary Pickford is delightful.

The management has cut down the orchestra and is devoting the expense saved to the production of even finer pictures than have been hitherto shown. There will be three gazettes weekly in future, two British and one American, and the finest features that money can buy.

The monster show tonight includes a great two-reel comedy, entitled "The Girl and the Stowaway." This is an exceptionally good society comedy.

CAR HIRE

The board of works, reporting to the council Monday on an account presented by J. R. Morgan for \$150 for car hire, stated that there was not enough evidence of the hiring of the cars to warrant passing the account.

Ald. Nicol said that there was absolutely nothing in the records to show that there had been any such transaction.

Ald. Dybhavn said that he believed that Mr. Morgan had ample evidence of having hired the cars to the city, and that the account should not be turned down unless the officials were certain that the cars had been returned.

Ald. Nicol said that Mr. Morgan had produced no evidence to show that the cars had been hired.

The mayor said that the city engineer had stated that the cars had not been hired. The board of works had referred the matter to the council that they might arrive at a conclusion. Mr. Lorenzen had gone into the matter fully and nothing could be ascertained to lead to the belief that the cars had ever been hired.

The matter was laid on the table pending a report from the city solicitor.

ALTERATIONS WANTED IN FISHING REGULATIONS

The following ten points constitute the questions which local fishing men desire Messrs Cunningham and McIntyre to bring before the advisory board at Ottawa.

1. Licenses for catching herring in both gill nets and seines be given to cover any territory in District No. 2.

2. Halibut fishermen to catch their own bait, having due regard to closed seasons and spawning grounds only.

3. Salmon licenses to be issued to all British subjects, Indians, and white men, who signify their intentions of becoming British subjects, said licenses to be good in any part of District No. 2.

3. The abolition of the boat rating, thereby forcing the cannery men to compete for their fish in the open market the same as buyers of halibut have to do.

4. Cannery licenses to be open to any applicant, without any limit to number. This is more a matter to impress upon the provincial government than it is on the Dominion.

5. The removal of restrictions on the exportation of crabs and any other fish for which a better price can be obtained in a foreign market.

7. The appointment of two residents of Prince Rupert to the advisory board of the Dominion. One of these to be a practical fisherman and the other a representative of the fish merchants.

8. The appointment of an inspector for District No. 2, who will report direct to Ottawa and have his headquarters at Prince Rupert.

9. The removal of a limit to the number of lines that a trowler is allowed to operate.

10. Abolition of licenses to canneries for exclusive right to fish creeks. Instead these creeks to be open to all fishermen, with the total exclusion of canneries.

Will Your "Boy" Spend Christmas "Somewhere in France"?
Then help him spend it Merrily!
 Nothing is too good to send to the boys who are serving King and Country. But let our gifts show thought and judgment as well as good-will and love.
 Among the few really acceptable gifts—smokes and pipes, chocolates and sweet biscuits, fountain pens and toothbrushes, toilet and shaving supplies—the Gillette Safety Razor ranks as a warm favorite, for one of the real luxuries of trench life is a clean, comfortable Gillette shave.
 It's a luxury the lucky ones share with their pals, so send along plenty of extra blades. If he has a Gillette already, a few boxes of blades will go far toward making him the most popular man in his Company.
 Welcome as it is on the firing line, the Gillette is even more keenly appreciated in the hospitals. With it the wounded can shave themselves safely, easily and regularly. They certainly do enjoy the Gillette—and Doctors and Nurses can scarcely speak well enough of it.
 Gillette "Bulldog" and Standard Sets cost \$5.00 each—compact Pocket Editions \$5.00 to \$6.00—Combination Sets, including Soap, Brush, etc., \$6.50 up.
