ENORMOUS GERMAN LOSSES IN BUKOWINA

TERRIFIC ARTILLERY DUEL ON ITALIAN FRONT -- AUSTRIA CALLS LAST LINE

GERMAN LINES ARE PIERCED BY THE RUSSIANS

Enemy Losses were Enormous—Few Prisoners Taken—Czar Says no Peace so Long as Enemy Remains.

(Special to The Daily News.) Petrograd, Jan. 6.—The Austro-Germans, in concentrating their forces to oppose the Russian offensive, suffered enormous losses.

Few Prisoners Taken. The fierce opposition set up by the Hungarians accounts for the fact that few prisoners were taken.

The Russians have pierced the enemy's lines around Czernowitz, compelling them to retire.

Czar's Manifesto. The Czar, in a manifesto issued to his troops, says that he will not make peace till the last enemy has been driven from Russian soil, nor until a peace agreement has been arrived at with his Allies.

THE MAYORALTY
To the Electors of the City of Prince Rupert,
Ladies and Gentlemen:—In response to the wishes of a large number of ratepayers, I have consented to again become a candidate for the office of mayor for 1916. In the past I have made it a point of always being on the job in carefully guarding the affairs of the city along the lines of impartiality, practicability, economy based upon efficiency, and the preservation and success of our public utilities. If these efforts have met with your approval, might I again solicit your support as a means of the continuation of such a policy for the next year?
Yours truly,
S. M. NEWTON.

PROMISING PROSPECT ALONG LEGATE CREEK

Messrs. Whitmore and Orr have just had assays made on ore from their "Frisco" claim, which was located last July, and the result shows prospects of another high-grade property on Legate Creek. The "Frisco" is situated about half a mile from the group they bonded to Messrs. Price and Aitken last fall. The ore from this group assayed up to 40 per cent. copper, and showed total values of almost \$300 per ton. The "Frisco" shows outcroppings of bornite and chalcocite, in a line formation, running the full length of the claim.

In places 12 inches of clean bornite is to be seen in the hanging wall and the chalcocite shows from 4 to 6 feet on the foot wall. The quartz assays \$97.00 per ton, and the bornite \$314.93, the latter as follows:—Copper, 58.4 per cent.; silver, 83.3 per cent.; gold .06 per cent. The claim is about nine miles from the Skeena river, in a location which is well timbered and free from slides. A ferry will soon be constructed across the Skeena, and also a wagon road from Pacific up Legate Creek. These improvements will make this territory more accessible for prospecting and development.

ASQUITH BILL CALLS SINGLE MEN TO SERVE

Many Eligible Men Held Back Under Derby Scheme—Kitchener Addresses Upper House.

(Special to The Daily News.) London, Jan. 6.—Premier Asquith, in introducing his compulsory military service bill last night, said that the measure was not an abandonment of the voluntary system but simply the carrying out of an honorable obligation to the married men who had enlisted under Lord Derby's scheme.

Under the terms of the bill, all males between the ages of 18 and 40, who are bachelors, or widowers without children dependent upon them, are liable for military service. The premier emphasized the fact that, though 3,000,000 men had enlisted under Lord Derby's recruiting scheme, of whom probably 2,500,000 would be qualified for service, the government could not but consider the number of single men who had not enlisted as substantial.

Kitchener's Opinion. Lord Kitchener, in addressing the House of Lords, said that compulsion only affected those who had a poor idea of their duty as citizens.

RENEWED ACTIVITY IN THE COPPER MARKET

Expectations of renewed activity in copper have been fully realized, an exceptionally heavy demand developing this week, both for foreign and domestic account. Great Britain alone is credited with having placed a contract for 150,000,000 pounds, while makers of munitions, as well as the brass and wire mills, have bought on an extensive scale. Under the stimulus of the unusually large requirements, prices have risen to the highest level since 1907, sellers holding electrolytic at 21c. for thirty days' delivery and sales on a cash basis being made at 20c. Similarly, there has been a sharp advance at London, electrolytic in that market on Thursday rising to \$510, while standard spot went above \$420. Exports from domestic ports thus far this month have exceeded 26,000 tons.—Duns Review.

DESPERATE MEASURE PROPOSED IN HUNGARY

Count Tisza, the Hungarian Premier, contemplates making the cultivation of wheat a State monopoly, according to The Post's Budapest correspondent, who declares that it is a desperate scheme, showing that national bankruptcy and ruin are not far distant. The correspondent says it seems incredible that the government should propose such a measure, and the mere fact of its being proposed proves the gravity of the present situation.

Referring to the idea in Parliament M. Sztorenyi, a former minister, said to Count Tisza: "If the government proposed a monopoly on wheat it would be the most dastardly act ever committed by the government, and they would find millions of people involved in open revolution before the plan could be adopted."—Special to Toronto Globe.

RUSSIAN SUCCESS

Reports from the Russian front are meagre, but all are decidedly reassuring. The evacuation of Czernowitz by the Germans is news of the utmost importance, the enemy having occupied this city since last summer. It is clear that the activity of the Russians is seriously interfering with the movements of the Austro-German forces in the Near East. General Von Mackenzen, who was to have led the Turco-German expedition against Egypt, has now been recalled to more urgent business on the Russian front.

Von Mackenzen is the one general of real genius which Germany has discovered during the war and he is evidently having to work overtime. By the way, it appears that Mackenzen is not entitled to the "Von" by birth, simply having that distinction conferred upon him by the Kaiser. Mackenzen sounds so Scotch that in some quarters there is a belief that this gentleman is a descendant of some Scotch highlander who had located in Germany, and the fact that the "Von" is a recent addition adds color to this idea. He certainly has shown some Scotch fighting qualities.

Von Hindenburg, on the Riga front, has had a disastrous time since the snow began to fly, so that the Russians are evidently busy all along the line. A continued run of successes on the eastern front will lead to weakness both in the Balkans and on the western front. The recent heavy artillery work in France must have played havoc with the German defences with the result that a concerted infantry attack may be expected whenever weather conditions are favorable. The German army

is in the position of a wild animal in a cage, dashing itself against the bars, first at one point and then at another. Its struggles will gradually cease as its strength diminishes and then the end. Meantime, the cage must be kept firm and strong.

PUBLIC OPINION

Public opinion is making itself felt in Canada so far as the growing demand for more honest government is concerned. Three provincial premiers have been retired from public life recently—Hon J. K. Fleming, of New Brunswick; Sir Rodmond Roblin, of Manitoba, and Sir Richard McBride, of British Columbia. In the cleansing sweep some other political opportunists have managed to run to cover just in time. Public opinion in the Dominion arena has had the satisfaction of seeing the Prime Minister stand up on the floor of the House of Commons and disassociate himself from the methods political of two patronage back-benchers, being Messrs. Garland and DeWitt Foster. "The will of the people must prevail" is a time-worn platitude, not uncommonly used by the least scrupulous of political dodgers.—The Ottawa Free Press.

THANKS OF I. O. D. E.

At the monthly meeting of the Queen Mary Chapter of the I. O. D. E., a hearty vote of thanks was tendered to all those who made the Christmas treat for the soldiers' children a complete success, especially to the Presbyterian congregation for the use of their hall; to the merchants of Prince Rupert for gifts; to the Majestic Theatre for free admission to the matinee; to Mrs. McGee and friends for entertainment, and to the press for free advertising.

FURTHER EVIDENCE IN SUBMARINE ENQUIRY

The following is an extract from the examination of Admiral Kingsmill by Sir Charles Davidson in Ottawa, with regard to the purchase of the Chilean submarines:

"What have you to say about the buoyancy and efficiency of these vessels?" asked Sir Charles Davidson.

"Well, at the outset, one of the vessels, the C C 2, showed an inclination to lose her buoyancy when Capt. James endeavored to submerge her. Indeed Captain James did not seem to desire to submerge her. Commander Keyes looked her over at the dock and found her hull slightly dented. It was believed she had struck some object before she was purchased by the Canadian authorities. The defect was later remedied."

"The Chilean government," said Sir Charles Davidson, "seemed averse to making further payments on the craft. Was it because they thought they were defective so far as buoyancy and stability were concerned?"

"Well, they are continually out diving and firing torpedoes," repeated Admiral Kingsmill. The first day they arrived, Commander Keyes submerged one of them. The other had the defect, but it had been remedied, as I said."

"Didn't the contract with the Chilean government call for a test of two months with provisions on board? Did these vessels undergo such a test?"

"No, they have not been away from their parent ship. They were purchased for coastal defence, not for long cruising. They were not so tested."

ALLIES IN WAR AND CO-WORKERS IN PEACE

Brussels, Jan. 3.—It is characteristic that Belgium, even in this her period of unhappiness and distress, should look ahead into the brighter season to follow the war. Belgium is an industrial nation and before the war one of the wealthiest, per capita, in the world, and already the people are looking forward to the real rehabilitation of the country. Already tentative plans are being formulated for the reconstruction of railroads, the rebuilding of cities and other immense works that have been laid waste by German artillery.

"Where will we look for the men and the loans necessary to this work," said a prominent Belgian, discussing the matter. "Why, to our allies, of course. They are our allies in war and will continue to be in peace. We have shared sorrows and we will share the pleasures of rebuilding."

"To Canada we are forced to look for assistance now in these dark days of destitution. Our children are crying and our women pleading for the flour that Canada has to give. We will never forget what Canada is doing for us—for our women and children, many of them bereaved by our common cause—and when the rehabilitation begins Canada will profit industrially."

"To many today Canada is represented by the Belgian Relief Committee of Montreal, but when peace is declared Canada will be known here and will know Belgium as never before."

I still have quite a few pairs of felt and wool slippers left which must be closed out. Extra special reductions. Peck the Shoeman.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

SPLENDID SHOW AT WESTHOLME THEATRE

The Westholme was crowded last night to see Marguerite Clark in "Seven Sisters," the famous five-act comedy, and all must have been delighted. The dainty little movie star was undoubtedly the magnet which drew the audience, but every detail held their keenest interest from start to finish. As a spectacle, "Seven Sisters" is away above the average, the scenery around the convent being superb, while the ball-room scene is wonderfully fine. A company of Russian dancers give a brilliant display of their art. As Mici, the fourth of the seven sisters, Marguerite Clark is at her liveliest, the part suiting her to perfection. In addition to these five magnificent reels, there is a Universal Gazette which depicts the latest fashions; a fine series of football views; big French guns in action, and some splendid sea and air views, concluding with cartoons by Hy Mayer. This show is not to be missed.

To look back on a happy youth is to live twice; then and now.

- FACT HUNGER -

As children, our first demand is for nourishment; our second for facts.

All through life we go about searching for information.

We make a new acquaintance; but before we will accept him as a friend or invite him to our home we ask for facts about him.

We visit a foreign land; and from the moment we step across its border we are asking questions—searching for facts.

We are asked to try a new food product; isn't it instinctive with us to ask at once:

"Who makes this new article?"

"How is it made? what goes into it?"

"Is it worth the price charged for it?"

Facts—we are simply hungry for them.

Strange, isn't it, that we should so often have to search for them? Odd, that some manufacturers still withhold the facts about their product. Not always because they are facts to be ashamed of—for there are many worthy articles yet unadvertised.

But it will not be so much longer. The fact-hunger of the human race is becoming keener and keener. The more facts we get, the keener our relish for more of them.

Soon it will be impossible to sell a man or a woman anything until everything has been told about the goods that can be told through Advertising.

The public has discovered that Advertising tells much-needed facts—that, in fact, Advertising satisfies fact-hunger.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of those will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
