For five months, from July to November of last year, the employees of the Granby Company contributed the handsome sum of \$12,361.00 to the various Canadian Patriotic funds. #### DANDY SKATING

The citizens owe a deep debt of gratitude to the boys of the Amateur Athletic Association for the provision of a wonderfully good outdoor rink, which is reckoned to be the largest of the kind in the province. On Saturday, about four hundred people enjoyed the skating, and, if the frost holds, the rink should continue to be immensely popular with the young of all ages.

#### SKATING ACCIDENT

On the Market Place skating rink on Saturday night, Miss Olive Goodmanson, who was learning to skate, had the misfortune to fall and fracture a leg. Dr. W. T. Kergin, who happened to be present, rendered assistance and had her removed to his home, where she is employed.

Percy Shallcross, of the Shallcross & Macaulay Co., of Vancouver, came north on the Prince John and left for the interior on the train this morning.

#### MINING ACTIVITY IN PORTLAND CANAL REGION

That the Portland Canal is now coming into its own as a mining district is evidenced by the fact that Collins & Watkins have shipped a carload of silver-lead ore to Trail from the Kansas group on American Creek which showed \$140 to the ton.

Bruggy & Macleod also shipped 17 tons from the Frisco-Montana group on Marmot river, which showed \$100 to the ton, while the well known old timer, Bill Forest, sent down a smaller consignment from near Redcliffe, which worked out at about \$200 to the ton. With steady development work going on in this district, Stewart will once again wake up to a new lease of life.

#### "THE DIAMOND FROM THE SKY" AT THE WESTHOLME

Tonight's episode is entitled "The Charm Against Harm." There is a good bill besides, including a Gaumont Graphic with some of the latest war features, two good comedies, and a great two-act drama, the latter being entitled the "Ex-Convict."

The comedies are "Dr. Carven's Experiment" and "Hogans Out West," the latter being one of those rollicking western comedies which are so full of action.

#### ERA OF PROSPERITY REIGNING IN JAPAN

If America has benefited from the war commercially, Japan has gained proportionately. This little kingdom has always been looked upon as impoverished as a result of her several wars, but the demand for munitions and ships has done wonders in building up this little island of the Orient.

Russia has absorbed all the munitions which Japan could let her have, while shipbuilding has become a great industry and every line of trade in the land of the chrysanthemum is prosperous. Japan's specie reserve now amounts to about \$400,000,000 and her bankers are having the same troubles with idle funds as American bankers have experienced since the outbreak of war. Japan alone is handling the commerce of the Pacific ocean and is straining every resource to meet the demand. When the war ends, Japan will have a merchant fleet second only to that of Great Britain. The new American shipping law has done much to foster the industry in the Orient.

This is all of the utmost importance to Canada, as Japan is now ready to receive much that Canada can produce and, in years to come, will have an enormous demand for Canadian wheat, both hard and soft. At no distant date there will be a line of Japanese steamers calling regularly at Prince Rupert and all that is necessary is to show them in the right way that we have the goods. From Prince Rupert to Japan is and Japan is well aware of the shortest trans-Pacific route, fact, and at no distant date will take advantage of it.

#### THANKS

Mr. and Mrs. Porter wish to express their sincere thanks to the proprietors of the Royal and the Knox hotels, and their many other friends who so liberally extended their assistance in replacing their household effects, lost at the fire in the Dyer Apartments, on the evening of January 8th. 13-14

SHIPBUILDING

At the meeting in the courthouse in Vancouver the other day at which Hon. C. E. Tisdall, Hon. A. C. Flumerfelt, Hon. Lorne Campbell and Hon. W. R. Ross listened to the views of men interested in shipping in regard to the proposed building of a British Columbia marine, there was a marked diversity of opinion amongst the experts.

Captain Copp, who had had forty-two years' experience at sea, said that there was no doubt as to what shipping could do to build up a city. He had built, sailed and owned ships in that time and was conversant with every phase of the business. He stated that there was urgent necessity for ships and that there would be a shortage for eight or ten years. He advised that the ships he built of wood as this province did not produce steel and could not wait for its production.

In regard to labor, he said that carpenters could easily become expert shipbuilding men in a short time. With regard to the procuring of officers and men to handle the ships, he said that there would be difficulty in getting officers, but that crews could easily be obtained.

Captain Pybus, who had had forty-five years' experience at sea, strongly opposed the idea of building wooden ships. He said that wooden vessels passed out of commercial existence forty years ago. He said "Wooden vessels are a commercial impossibility, because they cannot compete with ships built of steel." He cited the American trade as an example. He was of the opinion that, after the war is over, the market will be swamped with tonnage. He claimed that it was very difficult to get crews for

sailing vessels and strongly advocated the use of steel steamers.

With experts so diametrically opposed in their ideas of the B. C. shipbuilding scheme, it will be a matter of difficulty for the cabinet ministers to arrive at a satisfactory conclusion. One very important phase of the shipping problem which was not touched upon is the matter of cargoes. In considering the building of ships, the suitability of those ships for the carrying of return cargoes is of the first importance. Wooden sailing vessels may be useful in the B. C. lumber trade to a certain extent, just as they are in the Baltic trade in Europe, but ships going to Europe from B. C. ports must be able to compete in the open market for return cargoes to this continent, the same also applying to trade with the Antipodes.

With all due deference to the gentlemen in the south who think that British Columbia can support herself, independent of the rest of the world, and contrary to every known law of economics, a British Columbia merchant marine cannot afford to be different from any other merchant marine, in that it must depend upon cargoes both ways, and that ships built exclusively for the carrying of lumber, without any regard to any other branch of the carrying trade, cannot be a financial success. We need ships at present, but whether, in normal times, we only need ships instead of a campaign in the interests of reciprocal trade with the rest of the world is perhaps the most important question. Ships will not of themselves bring the trade, but, in ordinary times, and, after all, it is ordinary times which must be planned for in a shipbuilding campaign, the

trade will invariably bring the ships. It is simply a case of the natural law of supply and demand.

INTERESTING FINANCIAL CASE IN VANCOUVER

Mr. Justice Clement gave a decision on Thursday in one of the most interesting financial cases ever heard in British Columbia. It was an action by R. P. McLennan, late president of the Bank of Vancouver, against E. L. Kinman for the recovery of \$7,000 on a note given by Kinman in July, 1909 for stock in the bank, which was then being formed. Mr. Kinman counter-claimed for the recovery of the note and \$4,850 in cash.

Mr. Kinman states that the note was given by him in order to help the bank to get the \$250,000 necessary to obtain its charter from the government, and that he had been assured that he would never have to meet the obligation.

His Lordship gave judgment in favor of Mr. McLennan, finding that Mr. Kinman was legally entitled to meet the note. With regard to the alleged illegality of the methods employed by the bank to obtain its charter, he concluded that they were not illegal. The Bank Act demanded that a deposit of \$250,000 be made, but it did not indicate that parliament was concerned with the way in which this amount was procured. Notes of subscribers to the

amount of \$200,000 were bought by Mr. McLennan and discounted at another bank in order that the Bank of Vancouver might have the necessary deposit.

Mr. Kinman will be remembered by some of the residents of this section five years ago, at which time he had a working bond on the Erie Group near Hazelton.

GERMANY SCHEMING FOR LIFTING OF BLOCKADE

A special despatch to the Vancouver Province states that Germany has conceded a diplomatic victory to Washington in regard to the various submarine episodes and is now scheming to stir up trouble between America and Great Britain over the naval blockade.

There is no prospect of an early decision in the land fighting, as the trench warfare has brought about a deadlock, but the sea blockade is slowly starving Germany to death, and every effort is being made to have Washington issue protests to Britain against the holding up of her overseas trade. Von Bernstorff is seeking to inveigle the United States into undertaking, as the champion of international law and the advocate of the freedom of the seas, the mission to compel the British to live within the narrowest interpretation of the letter of the law.

## LABOR DEPUTATION ENTERTAINED IN FRANCE

Rev. R. J. Campbell, the famous pastor of the City Temple, London, from which he recently resigned, has returned from a visit to the British troops in France with several good stories, among them the following:

A deputation from the labor unions had accepted an invitation by the government to visit the front and see conditions for themselves. In expectation of its arrival, staff officers were sent to the wharf to greet the incoming channel boat from England.

"Are the members of the labor party aboard?" called out an officer after the boat had been made fast.

A man, obviously a workman, stepped out with a "yes." His companions followed his lead. There were seven in the party of workmen, who seemed rather overwhelmed at the cordiality of their reception, especially when they were put into motor cars with officers and handed cigars. On their arrival at headquarters, they were introduced to a cour-

teous official. After a short chat with the men, who seemed a bit at a loss as to what to say, the official announced with a smile: "And now, gentlemen, I have instructions to take you to the commander-in-chief."

"Who's he?" blurted out one of the men.

"Why, Sir John French, of course," answered the astonished officer.

"Well," put in the man who seemed to be the leader of the party, "I don't know why we want to see 'im. You see, me and my mates 'ave come over to mend the boom in the 'ardor."—Seattle P.-I.

An account has been opened at the Canadian Bank of Commerce in the name of the Belgian Relief Committee and subscriptions for the relief of these worthy people are now in order. There will be no canvass made, and citizens are requested to simply walk into the bank and deposit what they can afford. The object needs no commendation here, as all are aware of the part played by gallant little Belgium in holding up the Germans in their first great raid on France. The fund is economically managed and citizens may rest assured that every dollar will do a hundred cents' worth of work in aiding those patriots. The account will be open until January 31st.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

## Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

## - FACT HUNGER -

As children, our first demand is for nourishment; our second for facts.

All through life we go about searching for information.

We make a new acquaintance; but before we will accept him as a friend or invite him to our home we ask for facts about him.

We visit a foreign land; and from the moment we step across its border we are asking questions—searching for facts.

We are asked to try a new food product; isn't it instinctive with us to ask at once:

"Who makes this new article?"

"How is it made? what goes into it?"

"Is it worth the price charged for it?"

Facts—we are simply hungry for them.

Strange, isn't it, that we should so often have to search for them? Odd, that some manufacturers still withhold the facts about their product. Not always because they are facts to be ashamed of—for there are many worthy articles yet unadvertised.

But it will not be so much longer. The fact-hunger of the human race is becoming keener and keener. The more facts we get, the keener our relish for more of them.

Soon it will be impossible to sell a man or a woman anything until everything has been told about the goods that can be told through Advertising.

The public has discovered that Advertising tells much-needed facts—that, in fact, Advertising satisfies fact-hunger.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
