CITY MARKET PUT ON COMMISSION BASIS

CITY MARKET ON COMMISSION BASIS

The city market committee recommended to the council last night that the market be operated on a commission basis, instead of by a salaried official.

Ald. Casey brought in a minority report in which he quoted figures to show that, though there had been a loss on the working of the market, the last three months had shown a decided improvement. He thought by continuing as at present it would ultimately make out all right.

Ald. Barrie endorsed Ald. Casey's report.

The mayor pointed out that the employing of a salaried official included the necessity of increased work on the part of the treasurer's department in keeping track of things.

Ald. Casey contended that, on a commission basis, the city could not exercise proper control. He thought that the treasurer's report was encouraging. He admitted that Mr. Johnson had devoted much time to getting the business on a proper basis.

He argued that the net loss was only \$179 and he thought that this could be eliminated. He held that the market had given the people cheaper meat and that it was time someone put a crimp in the butcher business, which took big profits.

D. C. McRae said he appreciated the sincerity of Ald. Casey's remarks, but the figures given him by the treasurer showed a loss of \$411.90. Commissions had furnished 46.3 per cent. of the cost of doing business, while the taxpayers furnished 53.7 per cent. He thought this was sufficient reason for making the proposed change. The desire of the people was for economy, and he thought it should be carried out.

Ald. Montgomery said he had supported the salary proposal five months ago. It had been given a fair trial and had failed. The commission basis had also been a failure before, but the market then was not properly conducted. His chief objection to the existing system was that it required so much overseeing by the treasurer's department. He understood that the treasurer had now refused to accept any responsibility for disbursements. He felt that the service rendered the public did not warrant the cost. He moved that the majority report be adopted.

Ald. McClymont, in seconding the motion, said he had supported the starting of the market two years ago, and would not like to see it go out of existence. He believed that other cities employed a salaried manager, but in these instances, he was not a salesman, the producers coming in themselves. His chief fault with the present system was that it involved so much extra work for the treasurer.

Ald. Casey pointed out that the

FISH WHARF SITE

A letter from George A. McNicholl, representing the G. T. P., was read at the city council last night, asking if the city was prepared to go ahead with the construction of a fish wharf, in view of the proposals made by Mr. Clayton.

The city clerk was instructed to advise Mr. McNicholl, sending a copy of the letter to Mr. Clayton, that the city could not, for financial reasons, proceed with the building of the wharf meantime, but asking that the offer of the site be left open for six months. In the event of Mr. Clayton's company deciding to build a wharf, it was suggested that they might secure some other equally suitable site.

MARKET CLERK

Ald. Montgomery, seconded by Ald. D. C. McRae, moved last night that the council advertise for a market clerk to work on a basis of 7 1-2 per cent. commission, and that he furnish a \$2,000 bond.

Ald. Casey thought that this should not be done as it amounted to firing the present holder of the job. He admitted that there had been irregularities on the part of the present clerk, but none challenged his honesty and he thought that it would hurt the market to have a change made, since Mr. Holland had worked up a business connection.

Ald. Montgomery said that the change put the market on an entirely different basis, and that it was equivalent to a new job. There was nothing to hinder the present holder applying with the others, and his experience and qualifications would be taken into full consideration. The motion carried.

MORE LIGHT

The council last night adopted a suggestion from the light committee that twenty Tungsten cluster lights be purchased at a cost of \$100 to be placed at certain insufficiently lighted corners in the city.

commissions for October were \$71.94; November, \$96.78, and December \$132.07, a total of \$379.

Ald. Montgomery said that in December commissions were only \$55, the balance being extra profit taken on meat, which was contrary to the idea of the market and simply adopting the methods of the monopolist.

Ald. Casey said he understood that Mr. Johnson was willing to continue his share of the responsibility.

The mayor said that the treasurer had notified the committee to the contrary.

D. C. McRae said that there had been irregularities and that the city for the last three months had been supporting a retail business, which was unfair to the retail merchants of the city, as the granting of free light, phone, insurance, rent, etc., gave the market an unjust advantage, and, in spite of that advantage, the people had to bear a loss.

The majority report was adopted, Ald. Casey and Barrie dissenting.

Burns' Anniversary

Today, in Prince Rupert, and in every corner of the globe, for there are Scotsmen far and wide, the anniversary of the birth of Robert Burns will be celebrated. Scotia's national bard having first seen the light of day in an obscure Ayrshire cot on January 25th, 1759. Tonight, haggis will be consumed and laudatory speeches will be made without stint. Burns does not rank with the first flight of poets, yet his work will live long after that of abler literary men has been forgotten. His works live because they contain life.

POPULAR SERIAL AT WESTHOLME THEATRE

"The Diamond from the Sky," the popular serial at the Westholme, was again shown before a packed house last night. The 49th episode is full of rough and ready work and shows the results of the great fire, which the censor cut so unmercifully last week. John Powell is injured in the fire and Vivian and Blair Stanley are still plotting to get John's wealth. Quabba and Esther are still on their quest after John, and Marmaduke is having a hot time. He has hidden the diamond in the hollow of a tree where it is found by a little boy and girl. Who gets it next?

The Gaumont Gazette shows the latest Belgian, French and Russian military scenes. "Her Alibi" and "Stolen Jewels" are powerful dramas while "Axel and Florey" is a very funny comedy.

BILLIE REEVES AT MAJESTIC THEATRE

There is a feast of good things at the Majestic tonight, the program being splendidly varied. "Behind the Mask" is one of the most striking features, being a clever effort by crooks to secure the valuable ruby of an Indian potentate at a fancy dress ball. "The Girl and the Mail Bag" provides more thrills, while "The Fable of the Sorrows" is a great human interest story.

Billie Reeves is the star of the comedies. Billie dreams that he is a horse and Billie playing horse is too funny for words. The other items are equally good and the show is first-rate.

There is a great Sherlock Holmes drama billed for tomorrow and no one should miss it.

SHAWATLANS PIPELINE REQUIRES NEW SUPPORTS

A report from the acting city engineer to the board of works regarding the condition of the pipeline was brought down at the council meeting last night. It pointed out that the construction of work on both the 18-inch and 45-inch pipelines had never been carried out so that it was a complete and permanent job. There was still a lot of work required to make it secure. At many points concrete supports should have been put in instead of wooden blocks, while the valves also required to be set in concrete. The pipeline also required a lot of back-filling as a protection against slides. There were many dangerous trees which required cutting down as well. The engineer stated that the very heavy rainfall of last fall had caused the lake to rise rapidly and the slipway was not sufficient to carry the water away. The dam at that time overflowed by 14 feet, the supports being loosened by the heavy flow of water. The spring freshet will be heavy and the engineer thought it necessary to take steps immediately to protect the pipeline.

The cost of the undertaking will be \$2,500 and the finance committee approved of the work being done. The report was unanimously adopted.

their King and Country are paid through the local branch.

The first payments made were for the month of November, 1914, there being at that time 11 families dealt with. Owing to the formation of later contingents, in which a large number of men from Prince Rupert enlisted, the number has increased and the total number of cases dealt with by this branch is as follows:

Number of cases still being dealt with by this branch. 21

Transferred to other branches, owing to change of residence

Removed to England.

Temporary cases. Only one payment made; returned soldiers, etc.

Total number of cases dealt with by local branch.

The total amount paid out in monthly disbursements to the above cases, for the period covered by this report, is as follows:

Paid in monthly allowances soldiers families \$4,907.50

Money paid for passage to England (1 case) ...

Grants to returned soldiers for immediate necessities

Administration expenses stationery, printing and postage

Total

The first amount of \$4,907.50 represents an average allowance of \$22.93 per family per month.

PUBLIC OPINION

The surest sign that the Liberal party is gaining strength in the province every day is the fact that the local Tory organ is trying to convince itself that Liberalism is dying. It is the old story of whistling to keep the courage up. There is a wave of public opinion sweeping this province which no political party can stop. It is something entirely outside of mere party, and is headed by men who are disgusted with the corrupt methods of Bowserism. That it will sweep the Liberals into power is certain, and it is just as certain that, had a Liberal government mis-conducted the business of the province and mortgaged the future to the extent that the Bowser government has done, it would have been cleared out of office just as the Conservatives will be.

An awakened public opinion will not stand for the kind of government which was so fearful of having an honest man in opposition that it spent \$200,000 to defeat H. C. Brewster in his small constituency. The government which was hired by the big corporations is doomed to death by its own hand. Its policy of profligacy has been fatal to itself as well as to the province, and well the Conservatives know it. They already have seen the handwriting on the wall and many of them have already taken cover.

In spite of the glowing picture of the future painted by C. E. Tisdall while in Prince Rupert, the condition of the province is thoroughly well known to every man who is looking for work, and to every merchant who is struggling to stay in business. The war is a good Tory excuse for present conditions, but, unfortunately

for them, the war came too late, as British Columbia was showing signs of great distress long before August, 1914. Gambling with the people's money and the province's resources was what did the damage, and not the war. The war has really been a blessing, as, without it, British Columbia would have done less business and would have had thousands more to feed and clothe.

Bowser and the rest of his gang of marauders stand convicted, in spite of their desperate efforts to conceal the evidence. Enough has come to light to show very clearly how things were controlled at Victoria. What has been exposed has come to the public knowledge through proceedings in the courts. The Pacific Coal case; the Dominion Trust Co. scandal and a host of others, the people are quite conversant with, and these alone are enough to condemn any government, but what is concerning the public most is what they don't know, but surmise. Hiding of facts cuts both ways, and the greatest fear known to man is the fear of the unknown. Bowser and his satellites have shown what they are capable of doing wherever and whenever they got a chance, and the public are aware of many chances they had, over which there has been so far no litigation. The Bowser government, on its proven record, is therefore condemned both for what it did and for what it is suspected of having done.

When the public once has its suspicions aroused it does not err on the side of leniency. Bowser stands condemned many misdeeds of the most flagrant character and is also under grave suspicion besides. A man may be arrested on suspicion and get off, but when

a man stands trial before the tribunal of public opinion, he is condemned just as surely for what the public suspects as for what it knows. Public opinion knows no fine legal points, but it makes no mistake about the sentence. Bowser's sentence is banishment for many years.

RETRENCHMENT

The mayor intimated last night that the various committees of the council would meet on Friday night to consider reports regarding the scheme of retrenchment in the conduct of the city's affairs. Ald. Casey intimated that he would not be present, as he had attended one such meeting of the old council and had then vowed that never again would he take part in such a meeting. He thought the discussion should take place in public.

DISASTROUS FIRE VISITED QUESNEL

The historic old town of Quesnel was almost wiped out last Saturday by fire, the origin of which is not given out, but was supposed to have been the electric wiring in the hotel or a lamp explosion. The flames had such a start when discovered that it was impossible to place the origin.

The business part of Quesnel was very compactly built and once the flames got going nothing would stop them. The entire business block was wiped out and many of the residents were saved with great difficulty.

It was learned with great regret that Mr. Graham, formerly of the Hudson's Bay at Hazelton, was one to suffer loss. One of his children was so badly burned that death resulted shortly after.

Rev. D. R. McLean, formerly of New Hazelton, had great difficulty in saving his automobile, garage and residence.

It was the worst fire in the history of the town and all the business people affected are heavy losers. A new town will, however be built.—Omineca Herald.

Five years ago, I received samples of 'Fruit-a-lives' and after taking them I felt relief. Then I sent for three boxes and I kept improving until I was well. What Is Optometry? (or eye measuring)

The scientific drugless meth-ods of modern eye examina-tion.

Instead of trying lens after lens, and asking you which is best, we measure the power of each eye by re-flected light.

No discomfort; our methods are so short, easy and self proving that you can see for yourself that they are cor-rect.

No need to go out of town. A 1915 post graduate course and modern appliances give us the same advantages as the larger cities.

Why delay if you need glasses? Your eyes only get worse, and, again, if you don't need them, it's worth knowing.

Our thorough and complete examination will get it off your mind and our prices are moderate.

BELGIAN FUND

An account has been opened at the Canadian Bank of Commerce in the name of the Belgian Re-lief Committee and sub-scriptions for the relief of these worthy people are now in order. There will be no canvass made, and citizens are requested to simply walk into the bank and deposit what they can afford. The object needs no commendation here, as all are aware of the part played by gallant little Belgium in holding up the Germans in their first great raid on France. The fund is economically man-aged and citizens may rest assured that every dollar will do a hundred cents' worth of work in aiding those patriots. The ac-count will be open until January 31st.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also --- particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And en-thusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

Sincerity -- Enthusiasm -- Advertising:
Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
