SUNDAY SCHOOL CHILDREN HURT BY HUN RAIDERS

Canadian Hospital Damaged in Hydroplane Attack—Raider Brought Down—Allied Raid on Zeebrugge.

(Special to The Daily News.)

London, March 20.—Four German hydroplanes dropped forty-eight bombs on Dover yesterday, killing nine and injuring thirty-one. Several children were injured on their way to Sunday School.

A bomb was dropped on the Canadian hospital at Ramsgate, the building being damaged but no casualties resulting. Six bombs were dropped into the harbor from a height of six thousand feet.

Raider Brought Down.

The raiders were pursued by Allied airmen, and Flight Commander Bone, in a single-seater, after a thirty hours chase over the North Sea, in a fifteen minute fight, brought down one of the German planes, killing the crew.

Attack on Zeebrugge.

Early today an Allied fleet of sixty-five aeroplanes bombarded Zeebrugge, doing heavy damage to the Belgian port which is held by the Germans. Each aeroplane carried two hundred pounds of bombs and all returned safely from the raid.

The aeroplane sheds at Zeebrugge and Houtade were destroyed in the bombardment.

HAM AND BUD AT MAJESTIC THEATRE

There is a splendidly varied program at the Majestic tonight, the chief item of which is a two-act drama entitled "According to Their Lights." It is a story of a wild-cat mining deal and is full of excitement and thrill. "The Revolt of Mr. Wiggs" is a most amusing comedy, while there is also a Ham comedy entitled "The Merry Moving Men." Bud and Ham generally do a good deal of moving, no matter where they are. This is one of their best.

"Just a Lark" is a most pleasing little drama, which, with a Selig Tribune Weekly, showing the latest news from everywhere, completes a most interesting show.

VANCOUVER JAPS RAID NEWSPAPER MAN

(Special to The Daily News.)

Vancouver, March 20.—A mob of a hundred Japanese attacked the residence of the Rev. Goro Kaburami, the editor of a Japanese newspaper, last night. They were angered because neither pay nor uniforms are yet forthcoming for the Japanese Battalion, which has been drilling for two months. The editor is accused of not airing the grievances of the Japanese recruits. A dozen Japs were arrested.

WILFRED MACDONALD WOUNDED AT YPRES

Reports from Ottawa indicate that several battalions of Canadians were engaged in the fighting on March 2nd along the Ypres-Comines Canal, when the British regained a half mile of trenches from the enemy.

The official list records nine Canadians killed, ten wounded, two seriously ill and two suffering from shell shock. An official notice from Ottawa has been received by Mrs. Macdonald of this city stating that her son, Wilfred C. Macdonald, who left here with the first contingent, has been wounded in this engagement. Wilfred Macdonald was amongst the first of the Canadians to enter the trenches and, up to March 2nd, had escaped without a scratch. It will be the earnest hope of all in the city that he will soon recover and be able to return to the trenches at an early date.

"DIAMOND" NIGHT AT THE WESTHOLME THEATRE

"Mine Own People" is tonight's installment of "The Diamond from the Sky," in which John Powell, Esther and the other folks in this great serial get another step forward in their exciting lives. "Sympathy Sal" is a very funny two-act comedy, and the "Riddle of Wooden Leg" is a two-act drama which is rather out of the usual.

One of the best features in a good show is the Gaumont Graphic which shows how big guns are made; views of the Belgian front; artillery regiments; scenes from the French front; rough riding by Canadian cavalry, and other most interesting items related to the war.

AVIATION SCHOOL EQUIPMENT FOR B. C.

In order to obtain equipment for the aviation school at Vancouver a subscription fund has been started in the province and a branch list will shortly be opened here. As the government does not accept aviators until they have obtained their pilots certificates, the cost upon students taking the course comes high, and it is felt that, if equipment can be provided for the B. C. School by public subscription, it will aid in bringing along students.

The aviation branch is the most important in the service, but the war office does not see its way clear to put pupils through the school. Five machines are wanted for B. C. on which to train pilots and the cost, about \$20,000, must be provided by the students or by the public. As Prince Rupert will send several pupils to the school there should be a hearty response to the request for funds. This money is only to provide equipment, the pupils still paying their fees for the course.

DUTCH DEMAND EXPLANATION FROM GERMANY

Berlin Blames British for Torpedoing Tubantia—French Destroyer Submarine in the Adriatic.

(Special to The Daily News.)

The Hague, March 20.—The press of the Netherlands is discussing the possibility of war with Germany over the torpedoing of the Tubantia.

Berlin is asserting that the Dutch liner was sunk by a British submarine. The Dutch government has sent a strong protest to Germany.

The British Admiralty has denied that there is any possibility of the Tubantia having been sunk by a British submarine.

Vienna, March 20.—The French destroyer Renaudin has been sunk in the Adriatic by an Austrian submarine. Forty-seven of her crew were lost and thirty-six saved.

SHELL COMMITTEE INVESTIGATION REFUSED

Ottawa, March 18.—The expected has happened. That is, to say Premier Borden has refused a probe into the Shell Committee. His arguments were three. (1) That the old Shell Committee was so good that they had, at Messrs. Thomas' and Hicken's request, to get rid of it, (2) that it was so good that it couldn't stand an inquiry, (3) that this war is being settled in Europe and take shame of yourself for trying to start anything here.

Of course the Premier did not put his argument just that way, but that is what his statements amounted to in the long run. His speech was a notable example of great cry and little wool. From the truculence of his tone the House judged that he was going to snatch Sir Wilfrid baldheaded before he got through, instead of which he practically repeated Sir Sam's remarks of three weeks ago with a little peevishness of his own for good measure. His favorite form of challenging the leader of the Opposition was this: "When he talks about so-and-so I want to tell him, etc., etc."

There's urbanity for you! The fact of the matter is adversity does not sweeten Sir Robert. Moreover he has a weak case and he relies on indignation to pull him out. Not only does he put his foot down flat on an investigation, but he stamps on it.

Mr. J. W. Flavelle, chairman of the reorganized Imperial Munitions Board, was in the gallery during most of Premier Borden's remarks, and seemed much surprised at this display of temper. Mr. Flavelle, who has a smooth and pious disposition, would never let the sun go down on his wrath that way. He would consider it bad play. Mr. Flavelle does his important work for nothing and sheer love of country. All he gets out of it is a beef contract and the more or less distant prospect of a knighthood.

Sir Wilfrid addressed himself at some length to the point made by Arthur Meighen, namely that the money so lavishly distributed by the old Shell Committee to itself and its friends, was British money and that consequently the Canadian Parliament had nothing to do with it. One of the great differences between Abraham Lincoln and Arthur Meighen is that Abraham was a hair splitter and Arthur is a hair splitter. This last hair Arthur will have

offered in competition for school children. It will be awarded to the pupil whose exhibited work shows the greatest all round capability, due allowance being made for age.

The Indian classes have been added to, and over \$900 in cash prizes is being offered for competition amongst the native sons of Northern British Columbia. A large exhibit, and attendance of the Indian population is expected at the 1916 Fair which comes off in September next. The dates set for the same are the 20th, 21st, and 22nd of September.

FRENCH FORCE ADVANCING ON BALKAN FRONT

Three Enemy Positions Taken—Allied Military Conference in Paris—Russians Active in Bessarabia.

(Special to The Daily News.)

London, March 20.—A strong French column, supported by light artillery, has moved north from Saloniki and has attacked and occupied three villages which were occupied by the Teuton-Bulgarian forces. The French force is now thirty miles north of Saloniki.

Allied Conference.

Paris, March 20.—German attacks at Malancourt and at Cote-De-Poivre have failed and the enemy has sustained heavy losses. There is intermittent fighting at Vaux.

General Count Cadrona, of Italy, the Crown Prince of Serbia and Sir Douglas Haig have arrived at Paris for a military conference.

Russian Activity.

Vienna, March 20.—There is renewed Russian activity on the Bessarabian front where the Russian artillery has made a resumption of the offensive.

to split all over again because Sir Wilfrid proved to the satisfaction of all reasonable minds that the money spent by the old Shell Committee was just as much Canadian money as it was British, since Sir Thomas White had admitted that there would be an accounting after the war and that Canada would pay her share of the munitions purchased by the British government in Canada for the use of British and Canadian troops in Europe. Sir Wilfrid's logical mind put two and two together and since he did not make five of it a government which thinks that it is the part of all good citizens to suspend their intellectual faculties and shut their mouths while the British shillings roll gaily into the

(Continued on Page Two)

The accompanying cut was designed by Mr. A. C. Garde, consulting mining engineer of Prince Rupert. Mr. Garde was awarded the prize offered in a recent competition for a design suitable for a permanent badge, by the Northern British Columbia Agricultural and Industrial Association. His design has been adopted by the Association as its permanent crest.

The badge is representative of the varied resources of Northern British Columbia, the furthering of the development of which is the reason for the Association being in existence. Mr. Garde has left nothing undone to make the badge distinctive, either as regards detail or workmanship, and is to be congratulated on its excellence. The central panel represents the head of a wild cattle from Graham Island, taken from a photo of one shot on the Islands some years ago by Mr. Garde. The Latin motto "Industry Conquers Everything" is an appropriate one.

The Association's affairs are in good shape, and already arrangements are well under way for the 1916 Fair. The prize list is in the hands of the printer and will be distributed the first week in

April, so as to be in time for spring seeding. The total amount of prize money, cups, medals, etc. amounts to nearly \$3,000. This is an increase over last year and shows the importance of the yearly fair to the community.

Numerous changes have been made based on last year's experience, in the Prize List. In the mining class, the Directors recognizing the increasing importance of mining to the district, have added several new classes, notably a permanent trophy for the best district exhibit of ore, to be held by winners for one year and with which goes a gold medal and diploma. This trophy is made from Northern British Columbia products, and the design will be representative of the mining industry of the North. In addition medals and diplomas are being offered for best samples of ore from any shipping mines in the northern part of the province as well as cash prizes for prospectors' specimens. The fact that so many mines have reached the shipping stage during the past year and more are expecting to do so this year, has necessitated the inclusion of these extra classes.

A silver medal is also being

NORTHERN WEALTH

The Hon. William Manson treated the provincial house on Friday to an expatiation on the agricultural, mineral and fishing wealth of the northern part of the province. William might have saved the valuable time of the house, as the wealth of the north is well known to the members in Victoria, most of whom are interested, directly or indirectly, in that same wealth. William might have enlarged upon the fact that the wealth of the north is largely latent, particularly the agricultural and mineral wealth. Millions of acres of agricultural land is not real wealth unless it is producing crops, and mountains of gold are of little use until the metal is being shipped and refined.

However, it must be comforting to the hundreds of settlers who have left the north during the last year to know that the north still possesses great resources. The Queen Charlotte Islands have been depleted of settlers simply because those pioneers could not make a living over there. Politicians of the Manson type seem to utterly fail to realize that the wealth of a country consists of the number of men who are able to support themselves and their families, and not of the huge acreage of land, which some day may be valuable, but which is held up by the speculator against the day when a genuine producer will require it. British Columbia may have the finest land in the whole world, but, without producers on that land, the province is poverty-stricken.

The fishing wealth of the north is largely in the hands of a huge combination of cannery proprietors, who employ almost exclusively Japs, who come here for the season and

go south in the fall without having done the district a cent of good. White fishermen are trying to get recognition by the fisheries board, but it is slow in coming and it seems certain that this season will be the same as its predecessors.

An independent canner, no matter how well equipped he may be, finds it impossible to get a license. The cannerymen are in league with the powers that be and no one outside of the charmed circle can start canning. This state of affairs will continue just so long as the people permit it. There is a fallacy abroad that we live in a democratic country and age, but there is nothing democratic when it comes to salmon canning.

The fact that there is so much latent wealth in this north country, while many hundreds have had to leave it because they could not earn a livelihood, is the greatest indictment which could be brought against the government. Of what use to the province is a vast and valuable acreage, if that acreage is tied up so that it needs a bank-rail to get any of it that is near enough a railroad or a wagon road to be of any use for farming? Of what value are the salmon runs if the revenue is scooped up by a huge combination which does all its spending in the south? Yes, William, there is wealth here, but it is all carefully under lock and key and the people of the north are denied admittance.

NOTES AND COMMENTS

There is a rumor that Wm. Manson contemplates writing a book on "The Wealth of the North," with an introduction by J. Songhees Matson, the distribu-

LAND REGISTRY ACT.

Notice Under Section 36.
TAKE NOTICE that an application has been made to register Olaf Hanson, of Prince Rupert, B. C., as the owner in fee-simple, under a Tax Sale Deed from the Collector of the City of Prince Rupert to Olaf Hanson, bearing date the 10th day of September, A. D. 1915, in pursuance of a Tax Sale held by said Municipality on or about the 9th day of September, 1914, of all and singular certain parcel or tract of land and premises situate, lying, and being in the City of Prince Rupert in the Province of British Columbia, more particularly known and described as:—Lot ten (10), Block eighteen (18), Section six (6), Map 923.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said Olaf Hanson as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice.

"And in default of a caveat or certificate of its pendency being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the 'Municipal Clauses Act, 1906,' or section 139 of the 'Municipal Act, 1903,' or section 253 of the 'Taxation Act, 1903,' in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

coffers of their friends, was much annoyed and said so.

When it comes to foaming the seidlitz powder of commerce has nothing on Premier Borden. He made a point of it, as I remember, that Sir Wilfrid's justifiable reflections on profiteering were "aspersions on the manufacturers of Canada." Now what do you think of that? Whatever happens Premier Borden is going to keep warm with the manufacturers.

Another matter touched by Sir Wilfrid was what a poet might call Sam Hughes's time fuses for which the shells were kept waiting more than a year while thousands of Canadian soldiers were slain and battles lost or not followed up because they had nothing to fight back with, shells without time fuses being about as useful as heads without brains. When D. A. Thomas paid his famous visit to Canada, this country, owing to the lack of time fuses, had made good on shell orders and deliveries only to the extent of two per cent. This rate was afterwards speeded up, but Canada is still seventy-five per cent behind schedule and

 "In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years. I was in constant misery from my stomach and my weight dropped down from 225 pounds to 160 pounds. Several of my friends advised me to try 'Fruit-a-tives' and I did so. That was eight months ago. I began to improve almost with the first dose. No other medicine I ever used acted so pleasantly and quickly as 'Fruit-a-tives', and by using it I recovered from the distressing Stomach Trouble, and all pain and Constipation and misery were cured. I completely recovered by the use of 'Fruit-a-tives' and now I weigh 208 pounds. I cannot praise 'Fruit-a-tives' enough."

stands little chance of getting more shell orders from England until she catches up. One reason for the delay was no time fuses, the other exigencies of the patronage list which did not look with favor on any shell makers but conservative ones. As afterwards pointed out by Mr. Carvell, of the Canadian General Electric Company, which at the very start of the war had offered to produce 100,000 shells a month, was turned down because its party complexion was not right and even now it can boast of nothing but a measly order for twenty-five thousand shells. Meanwhile the old Shell Committee was handing it out gaily to its friends and whenever a case of doubt arose helping itself to contracts at anywhere from one hundred to three hundred per cent. profit. More than that—although Sir Sam gives this a vague denial—it included in the price the twenty-four cents royalty per shell to the firm of Krupp and this aided and comforted the enemy to the extent of seven hundred thousand dollars.

Incidentally Sir Wilfrid paid his compliments to Colonel John Wesley Allison, Sir Sam's justly celebrated money-saver, who has never yet faced the Public Accounts Committee.

"A colonel," said Sir Wilfrid, "who never smelt gunpowder in his life except when there was a profit in it."—H. F. Gadsby.

Your King and Country Need You

RECRUITS WANTED FOR 62nd OVERSEAS BATTALION, CANADIAN EXPEDITIONARY FORCE.

RECRUITING OFFICE AT PROVINCIAL GOVERNMENT OFFICE NOW OPEN.

In view of the recruiting which is in progress at present throughout the Province, it is apropos to answer a few of the questions which are considered by those who contemplate entering the Service. The following is a list of pertinent queries, together with the information which each elicits.

QUESTIONS ANSWERED.

- 1.—How long am I to serve? Until the end of the war and six months after if required.
- 2.—What pay shall I receive? Your pay as a private will be \$1.00 per day and 10 cents field allowance. Besides this you will be clothed, equipped and subsisted by the Government.
- 3.—What will my wife receive during my absence? Every month there will be paid her a separation allowance of \$20 (also part of your pay) and if this be not enough to comfortably maintain your family, the Canadian Patriotic Fund will further assist them.
- 4.—What will happen if I am wounded or sick? You will be cared for by the Government and your pay continued until you are discharged. If you are permanently disabled an allowance will be paid you, varying according to the extent of your injury or disability.
- 5.—What will be done for my wife and children if I die while on Active Service? The Government will provide an adequate pension, that will enable the family to live comfortably until the children are old enough to look after themselves. The widowed mother of a single man, if the son be her sole support, is treated in the same way as a wife.

- FACT HUNGER -

As children, our first demand is for nourishment; our second for facts.

All through life we go about searching for information.

We make a new acquaintance; but before we will accept him as a friend or invite him to our home we ask for facts about him.

We visit a foreign land; and from the moment we step across its border we are asking questions—searching for facts.

We are asked to try a new food product; isn't it instinctive with us to ask at once:

"Who makes this new article?"

"How is it made? what goes into it?"

"Is it worth the price charged for it?"

Facts—we are simply hungry for them.

Strange, isn't it, that we should so often have to search for them? Odd, that some manufacturers still withhold the facts about their product. Not always because they are facts to be ashamed of—for there are many worthy articles yet unadvertised. But it will not be so much longer. The fact-hunger of the human race is becoming keener and keener. The more facts we get, the keener our relish for more of them.

Soon it will be impossible to sell a man or a woman anything until everything has been told about the goods that can be told through Advertising.

The public has discovered that Advertising tells much-needed facts—that, in fact, Advertising satisfies fact-hunger.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
