Torpedoed Vessel Towed to Boulogne Harbor—260 Saved and 75 are Missing—American Citizens Missing.

(Special to The Daily News.)

London, Mar. 25.—The Brighton-Boulogne passenger steamer Sussex has been torpedoed in the English Channel with heavy loss of life, including several American citizens.

The vessel was towed into Boulogne harbor. Two hundred and sixty survivors were landed in France, one hundred of whom still remain in Boulogne. Seventy-five are missing.

Two More.

The Dominion Line horse ship Englishman has been torpedoed and four Americans are missing. The steamer Sallybia has also been submarined, the crew being saved.

HUGE MOTOR SHIPS BUILT IN DENMARK

A motor ship of 12,000 tons, 500 feet long and of 6,000 horse power is being built at Copenhagen. The Danes were the first to build motor ships on a large scale, and it is reported that there are at present orders placed in Copenhagen for fifty such vessels and that the yards will be fully occupied until the end of 1921.

Britain has not yet gone extensively into the building of such ships, though the Elder-Dempster Company had one of 5,500 tons built in Belfast a few years ago.

The Danes have found the motor ship a big success as a cargo carrier, as it gives much more room for cargo in proportion to its size than the ordinary steamer. This is a line which might with profit be paid attention to on the Pacific coast.

VON KLUCK AND THE BARBER

Mr. Percy Allen, lecturing in London on his experiences in France, said that during the temporary German occupation of Amiens he was in a barber shop when General von Kluck came in. Two stalwart German soldiers, armed to the teeth, watched the operation "to prevent any mishap with the razor!"—Ex.

MAJESTIC THEATRE IS UNDER NEW MANAGEMENT

Commencing next Monday, the Majestic Theatre will be under the management of Mr. Harry Harvey. Mr. Harvey has been connected with the moving picture business in the province practically since it was first introduced as a regular entertainment, and is thoroughly qualified to cater to the requirements of Prince Rupert audiences.

For the first week, the management has secured a really wonderful program, Charlie Chaplin, Mary Pickford, Anita Stewart and Earle Williams all appearing in the one week. The management has been fortunate in securing the exclusive rights of several war gazettes which will be shown each week.

New ventilating arrangements are being installed so that the theatre will always be cool on the closest nights. Exclusive contracts have been made with several of the great feature companies and it can safely be said that the Majestic will now put up a show that will be impossible to beat and perhaps hard to equal. To assist him in the general management of the theatre, Mr. Harvey will have the loyal co-operation of Mr. L. Amadio, who has been operator at the Majestic for the last three years.

"ANDY" AKERBERG HAS RECEIVED HIS PATENT

"Andy" Akerberg, of the firm of Akerberg, Thomson Company of this city, last evening received his Canadian patent for his "Dandy Line Hauler," which is being used on board the Canadian schooners Zora, Lillian M., Muirneag, Royal, Tide, Tuladi, Hecate, Maud, and Sadie, and which has also been sent to several boats in Alaska. The United States patent has been applied for and may be along any day.

This line hauler has been greatly improved since it was first invented and is attracting the attention of fishermen all along the coast. In these days, when fishing with dories is impossible through the lack of crews, the "Dandy Line Hauler" is coming into its own and Akerberg, Thomson Company are preparing for a largely increased business in this line.

SCANDINAVIAN PREMIERS CONFER AT COPENHAGEN

Inaugurated by the King of Denmark, a conference between the premiers and foreign secretaries of the three Scandinavian countries began its session at the Royal Palace at Copenhagen recently, when the difficulties and restrictions of the commerce of these countries, owing to the European war, were discussed, with a view to arriving at some concrete plan of action in negotiating with the belligerent countries, and also to convey to the world at large the honest desire of these northern countries to conserve their strict neutrality.

In an interview, the Norwegian premier said that the existence of these neutral countries from now on depended upon the manner in which the individual citizens conducted their affairs as neutrals. The British blockade, which was becoming stricter every day, caused increasing difficulties and, as the popular opinion in Britain demanded still stricter precautions, and it may be expected that the British government would give some effect to that demand, it was therefore more than ever the duty of all neutral countries to maintain an absolute impartial standpoint and to see that trading is absolutely honest.

Captain Babington has sold the engine and boilers of the wrecked steamer Delhi to the Wallace Shipyards in Vancouver. The Coquitlam took them south early this week.

Mayor W. G. Gillett, of Prince George, arrived from Vancouver yesterday afternoon and left for home this morning. While in the south he succeeded in placing \$150,000 of the 6 per cent. Prince George bond issue at 87 1/2.

Archie Russell and H. J. Barnjum, two of Prince Rupert's most popular young old-timers, left for Vancouver this morning to enlist for overseas service. The former will join the B. C. Bantams and the latter a corps of engineers.

Mr. Phiscator, who has big interests around Terrace, came in on the train last night.

GERMAN RAIDER GREIF SUNK IN THE NORTH SEA

Sister Ship of the Moewe Came to Grief in February—British Auxiliary Alcantara is Also Sunk.

(Special to The Daily News.)

London, March 25.—The Germans have renewed their submarine activity in the North Sea. The German raider Greif has been sunk and five German officers and 115 men have been captured by the British and 180 drowned.

The British armed merchantman Alcantara, which sunk the Greif, was herself torpedoed with the loss of 74 men. The Greif was sunk by the gun fire of the Alcantara.

The British Admiralty announces that the Greif was sunk on February 20th, but that the news was withheld until the Germans discovered that the vessel had failed to pass the British patrols.

The Greif was of the same type as the Moewe, which did so much damage amongst British traders, and was rigged as a merchantman with Norwegian flags painted on both sides.

The Alcantara was formerly a 15,000 ton Dublin steamer which had been engaged by the Admiralty since the outbreak of war.

ADDRESS GIVEN ON ETERNAL PUNISHMENT

Mr. B. H. Barton, in the Empress Theatre last night, under the auspices of the I. B. S. A., dealt with the question of future punishment. According to his interpretation of the Bible, there is no such thing as eternal punishment. He said that people were horrified at the terrible atrocities which had been perpetrated in Belgium and that it was impossible for a God of Love to conceive something which was a million times worse. He held that the scriptures made no mention of the creation of Hell by God, and that the word was not mentioned until 2,500 years after the writing of the Book of Genesis. Hell could not have been created by man as man had no creative power.

Hell, he contended, is simply a second death. There was a resurrection from the first death, but there would be no resurrection from the second death. God was Almighty and could destroy the soul as well as the body.

The Universe would ultimately be perfect and no imperfect creature would be fitted to live in it. The wicked man, in being blotted out, was having the best gone for him, as he could not be happy in a perfect universe. The speaker described the parable of Lazarus as a symbol of the death of the Jewish people. Mr. Barton is a clear and interesting speaker. He will lecture again tonight and also on Sunday afternoon.

Von Buelow Summoned to Berlin by the Kaiser—Air Attack Near Saloniki—Quiet Night at Verdun.

London, March 25.—The Russians are developing a strong offensive on the Dvinsk front. They are supplied with thousands of new guns.

Von Buelow Summoned. The Kaiser has summoned Count Von Buelow, the former Chancellor, to Berlin. It is believed that he again offered him the chancellorship, in place of Von Bethmann-Hollwegg.

Spectacular Air Attack. French aviators have carried out a spectacular aerial bombardment of a Teuton camp outside of Saloniki.

Quiet at Verdun. Paris, March 25.—There was a quiet night at Verdun after a heavy day's bombardment from north, east and south. There were also artillery duels in the Woevre region.

The only advance effected by the enemy was in the Argonne, but they were later driven from the first line of trenches and many Germans were taken prisoners.

SHACKLETON RETURNS
 Yesterday, for once in a way, the news of the war was overshadowed by news of the doings of a small party of gaunt, haggard men, clad in furs, and led by an intrepid young Irish lieutenant. Even Berlin must have stopped thinking of war and bloodshed for a moment when it received the news that Sir Ernest Shackleton and his daring crew had succeeded in making the perilous journey of 1,700 miles across a continent of ice on foot.

Nothing is quite so typical of the British temperament than that these men should have set out on such an expedition when a world's war had broken out, and, after having heard nothing of the war news for eighteen months, it would be interesting to hear their opinions of the great conflict. They have returned to civilisation to find that Britain still rules the waves and Sir Ernest, as a naval commander, will feel satisfied that he has returned in good time to assist in taking care of the carefully preserved German fleet.

CABINET FORECAST
 Though it is early yet to be speculating as to the composition of the Brewster cabinet, it is interesting to the people of the north to learn that the leading men in Vancouver and Victoria are satisfied that Mr. Pattullo, the Liberal candidate for Prince Rupert, is the first choice for the portfolio of public works. Mr. Pattullo's sterling qualities have long been recognised throughout the north, and it is gratifying to learn that they have also been noticed in the larger centre to the south.

Mr. Pattullo is in every way qualified to fill such an important position, a position of

the greatest importance to this northern country, which is just on the threshold of its real development, and it will be greatly to the advantage of the province in general that this portfolio should be given to a man of such sterling worth. He is in every sense of the word a strong man, and just the type to set right much that has been badly mismanaged by the weaklings of the McBride-Bowser administration.

THE P. G. E.
 Bowser, in his recent speech in the house, asked Mr. Brewster what his railway policy was, his most pointed question being "What does he (Mr. Brewster) propose to do about completing that railway, the most important railway that has been built in the province—the Pacific Great Eastern—by which the freight of the Grand Trunk Pacific MAY BE DIVERTED TO VANCOUVER."

To residents of Prince Rupert and the district along the line of the Grand Trunk Pacific this point is of the greatest interest and importance, and Bowser's bold statement will doubtless cause poor William Manson to cover a few blushes when he faces the people of the north. Of course, William has always tried to appear lukewarm in regard to the P. G. E., and, even when the politically defunct Mr. Tisdall enlarged upon the subject before a Prince Rupert audience, William never ventured to make a remark on the subject.

Never saying a word is William's long suite, and he has been content to remain silent throughout much of his peaceful career in the legislature. Now and again, of course, he has to raise his voice, but only to discuss such broad and non-

contentious subjects as the wealth of the north with its fishing, mining and agricultural resources. Perhaps the Hon. William will be able to explain why Mr. Bowser seems to be so proud of the fact that the P. G. E. will divert traffic from Prince Rupert.

"THE THUMB PRINT" AT THE WESTHOLME THEATRE

"The Thumb Print," the four-act French detective story at the Westholme, is the story of a secret society plot which led to the murder and robbery of a wealthy banker. The play is full of incident and has a most dramatic conclusion, the criminal expert finding that the murderer is an intimate friend of the family.

Of the lighter side of the bill, "Ham the Statue" takes premier place. Ham and Bud, as a lively piece of sculpture, brought down the house last night. "Too much Turkey" is a comedy which is quite serious at times, but concludes with turkeys enough and to spare. The Selig Tribune Weekly contains interesting tidbits from everywhere.

POWERFUL DRAMA AT MAJESTIC THEATRE

The Broadway star attraction, "The Mystery of Mary," is the chief feature at the Majestic tonight. Mary is not so mysterious when her story has been unfolded, but it is a highly interesting story splendidly told. Just when everything seems to be coming out all right, Mary is kidnapped, but young hubby foils the villain and they live happy ever after.

In "The Broken Train," Helene treats the audience to some more thrilling railroad stunts. Mr. Jarr, of the comically unfortunate Jarr family, has a lively time in "His Night Off." "Black Eyes," a most laughable comedy, completes a good show.

Anita Stewart appears on Monday in the first part of the great serial "The Goddess."

LORNE CAMPBELL, THE GENTLEMAN who NEARLY represents ROSSLAND, HAS returned FROM Ottawa WHITHER he went TO PROCURE hurriedly TWENTY-FIVE ships; ELECTION ships. LORNE said his piece IN THE HOUSE Tuesday, AND SAID it well, THAT IS, he never MADE a mistake. HE never MENTIONED ships. THE MINE is HIS province OR THE province IS HIS mine; PERHAPS both. ANYHOW, he forgot THE SHIPS carefully.

HE made A WEIGHTY speech ABOUT lead AND ZINC and COPPER, and HINTED gently that THE LIBERAL critics WERE searing capital AWAY from B. C. AND THEREFORE helping THE GERMANS. LORNE refrained FROM details AS TO how capital COULD be scared AWAY FROM 22-cent COPPER and ZINC and lead AT WAR prices, BUT then DETAILS are EVEN more awkward THAN phantom ELECTION ships.

How Brown Learned How.

There is a man who makes shoes for children—and sells them to stores all over Canada But he is only just learning how people buy.

It was this way: His wife—let us call her Mrs. Brown—phoned to him and asked him to buy some underwear for little Brown.

Picture Brown now among the throng of mothers at the "Children's Underwear" counter. He asks for Underwear for a child of six. He looks it over helplessly. What on earth does he know about Children's Underwear? For lack of anything better to say he asks: "Is this good quality?" The answer is short and quite conclusive: "It's Blank's"—naming a well-advertised line. That short word says everything. Brown pays his money and goes home, quite satisfied with his purchase.

Now what bothers Brown—a manufacturer of shoes, is this: How would it affect the purchase of a child's shoes if the salesman said "They're Brown's"?

Nobody knows Brown's shoes. Brown doesn't advertise. The name Brown signifies nothing when used in connection with children's shoes. The salesman must use all his persuasive wiles to induce people to buy them.

The point is—If the name Brown was as synonymous with Children's Shoes as "Blank's" is with Underwear, wouldn't Brown sell more shoes with less effort?
