BENNETT'S PROHIBITION AMENDMENT CARRIED

(Special to The Daily News.)

Ottawa, March 28.—R. B. Bennett's amendment to H. H. Stevens' Prohibition Bill was passed in the House of Commons yesterday, thus defeating Dominion prohibition.

Prohibition is limited to the provinces which have enacted provincial legislation and, under the Bennett amendment, the transportation of liquor in those provinces is prohibited.

MAYOR M'CAFFERY EFFECTS BIG SAVING

In a casual, unassuming manner Mayor McCaffery intimated to the city council last night that, while in Victoria, he took the matter of the annual fee of \$2,000, in connection with the holding of the Wark Channel rights, up with the Hon. W. R. Ross and the Hon. William Manson, and had been able to get the amount reduced from \$2,000 to \$200.

Ald. Casey congratulated the mayor on his having been able to save the city such a sum of money annually.

The mayor explained that the reduction would not prejudice the city's position in regard to the rights.

The report was ordered received and filed.

Eight men were brought before Magistrate Carss this morning charged with cutting down trees on the city park on Ninth Avenue. They were dismissed after receiving a severe reprimand and a warning.

WRECK OF THE FRENCH DESTROYER LOUIS.—This is the salvage of the French torpedo boat destroyer Louis, which became a total wreck in running aground during operations in the Mediterranean. Men are seen on her partly submerged decks making notes of everything it is possible to salvage.

OTTAWA'S ATTITUDE TOWARDS PROHIBITION

Ottawa, March 28.—The Borden government does not embrace the prohibition movement with the same careless rapture that it slaughters free wheat or boosts the tariff on the necessities of life. It not only refrains from mounting the band wagon but does nothing to roll the old chariot along. Its attitude seems to be "Let the provinces do their own noble work—the Shell Committee suits us better."

This attitude was very noticeable last week in the debate on Mr. Stevens' motion during which Premier Borden did not open his mouth, except to say that the discussion would be on the general topic of prohibition and that, if the various "dry" resolutions on the order paper could not be consolidated, the vote would be on Mr. Stevens' motion which asks for nationwide prohibition of the manufacture, sale and importation of intoxicating liquor during the period of the war. Even after the vote is taken prohibition will not be much nearer legal enactment by the Dominion government which takes the view that all Canada requires of parliament is a more or less vague expression of opinion. As opinions cost nothing this country may have as many as it likes. The only condition is that they do not entail legislation.

Rumor has it that R. B. Bennett, of Calgary, has the resolution up his sleeve which is the Borden government's way out—namely that when all the provinces have enacted total prohibition they will come to the Borden government and ask it to second the motion which the Borden government could then do because when there is no place in all Canada to sell the stuff then there will be no risk or hardship in preventing the manufacture and importation of an unsaleable commodity. Meanwhile so long as the provinces vary in degree as to the measures of prohibition they pass the Borden government will consider itself warranted in arguing that sentiment is not sufficiently crystallized and that the best policy is one of *laissez-faire*. This

MR. LINNELL PROMOTED IN CONSULAR SERVICE

Mr. Irving N. Linnell, American Vice Consul at this port, has received notice by the United States Department of State of his appointment as Vice Consul in the American Consulate General at Vancouver, B. C. He will not, however, be able to leave Prince Rupert until the arrival of a newly appointed consul to relieve him of the duties in the consulate here, and the notice of such appointment has not yet been received.

Mr. Linnell is receiving the hearty congratulations of his many friends on his promotion to a more important position in the consular service, though all are sorry that it means his departure along with Mrs. Linnell and family from the city. Mr. Linnell has been in Prince for about four and a half years and has gained the high esteem of all citizens.

surmise, accurate or not, about represents the warmth the Borden government feels toward a movement that would deprive it of twenty-five million dollars annual revenue which would have to be made up by other taxes.

At all events the Borden government as a government remains studiously aloof from the prohibition movement, and, on the plea that it is not a party question, allows Mr. Stevens, of British Columbia, a private member, to introduce the resolution. This looks like chasing the devil round the stump, because all questions with an overwhelming public opinion behind them are party questions in the sense that they are put up to the party in power with whom it rests to meet them bravely or otherwise. This same question of nation-wide prohibition Sir Wilfrid Laurier's government met bravely enough by granting a Dominion plebiscite in 1898. At that time public opinion was not as strong for prohibition as it is now, not quite half the voters were anxious enough to cast ballots, the province of Quebec was overwhelmingly against the measure, and one way and another the government

WAIF OF THE SEA BROUGHT TO PORT

The halibut schooner Tuladi brought into harbor this morning a prize of the sea, in the shape of the 65-ton schooner Volante, with a quantity of salt and a large supply of fishing gear on board. It seems that, while off Danger Rocks, Banks Island, Captain Tom Smith of the Tuladi, sighted the derelict with her anchors out drifting towards the rocks. He put some men aboard, took up the anchors and proceeded towards Prince Rupert.

The Volante is the supply schooner which dragged her anchors in Icy Straits during the terrific storms of the last week of January, the crew deserting her in the straits. She has been drifting in the Pacific for the past two months and looks like it. She is a weather-beaten old hulk, with ribbons of sails still clinging to her jib.

She was sighted by a Japanese liner several weeks ago, having evidently been driven south by the gales and then carried in towards the coast by the Japan current and afterwards brought north again by southwest winds. The boys on the Tuladi are proud of their capture and should profit considerably by it.

Frank Polot, the skipper of the Anita, reports that he sighted the vessel first and went on board, but could not handle her. He went round the island to get the assistance of the Tuladi, but the Tuladi had learned of the presence of the Volante from theadians and had gone round the other side of the island, and, by the time the Anita got up, a crew from the Tuladi had taken possession. It is a debatable point as to whether the boys of the Anita have any claim to a share of the spoils. The wreck is quite a centre of interest today, many people having been out to have a look at her.

FIRE

A house on Comox Avenue was wiped out by fire last night. It was fully insured. An over-heated stove was the cause of the blaze.

NO VOTE TAKEN ON KITSILANO RESERVE DEAL

Auditor Forgot to Place Matter Before House—Lorne Campbell Content to Swell the Provincial Debt.

(Special to The Daily News.)

Victoria, March 28.—In the private accounts committee, the provincial auditor admits there was no vote taken on special warrant issued for the spending of the \$300,000 which was paid for Kitsilano Reserve. He stated that the matter had never gone to the legislature owing to an oversight on the part of the auditor.

The Budget.

Hon. Lorne Campbell has introduced his first budget, in which he estimates that the deficit for the ensuing year will be \$4,643,000.

Keena will get \$176,000, Cariboo \$123,000, while \$175,000 has been appropriated to equip the new provincial building in London.

The public debt of the province amounts to \$18,589,178.

MR. THOMSON TAKES UP SHELL QUESTION

In view of the great demand for shells Mr. David Thomson, of Akerberg, Thomson Company of this city, took the question of machining and assembling shells up with the Imperial Munitions Board, and received the following reply from the chairman:

Dear Sirs:—I have your letter of the 5th. I regret that I am unable to encourage you in the expectation of receiving an order to machine and assemble shells.

The development in England has been very great, also in the United States and Canada, and in the aggregate, there is a greater capacity to machine and assemble than is required.

It is well to remember that the shell is not effective until it is complete and ready to fire. In all countries, the equipment to machine and assemble an empty shell has been greater than the development in the production of propellants and the manufacture of fuses.

Yours very truly,

J. W. FLAVELLE, Chairman. February 15th, 1916.

SALMON MONOPOLY

The salmon fishing season is coming on apace and there is no sign that any good has resulted from the meeting held in Prince Rupert some months ago with the Pacific representatives of the Fisheries Advisory Board. It is true that the board readily granted an extension of the ground covered by a herring licence, but the vexed questions of the salmon fishing remain just as before. The big interests are evidently to have things all their own way for another season, unless the fishermen again get busy and co-operate with their fellows in the south to have the fishing regulations put upon a more equitable basis. The Fishermen's Protective Association in Vancouver is preparing to take action in the matter and it would do no harm for the men of the north to get busy once more.

The Oriental comes north for the season and returns south in the fall, taking the bulk of his season's wages with him, leaving the north not a cent better off than he found it. The canneries are at present controlled from the south and all their business is done there. It is not suggested that the canning interests should transfer their head offices to Prince Rupert, but it is surely up to the government to issue licences to any independent white fishermen who desire them and to issue cannery licences to any company which is able to carry on the business. It is ridiculous that salmon fishing should today be carried on under regulations which may have been necessary when there was no centre of population in the north, and there is urgent need for reform.

NOTES AND COMMENTS

There is now no doubt that it was a German torpedo which hit the Dutch liner Tubantia. It will be interesting to see what action Holland takes. Like the United States, she may be content to resort to notes which mean nothing and accomplish just that.

Judging from what took place at Madison Square Gardens on Saturday evening, there are at least two Americans who are not "too proud to fight."

The German cruisers are becoming quite bold, two running fights in as many weeks must be quite encouraging to the boys of the North Sea fleet.

The news of Villa's capture is long in coming through and it begins to appear as if the gentleman had made his escape after being defeated.

After two weeks of complimentary remarks and regrets over the departure of Sir Richard, the provincial legislature will get down to real business this week.

The McBride-Bowser government by its handing over \$75,000 to J. S. H. Matson to do as he liked with did more to injure the credit of British Columbia than all the opposition speeches that were ever uttered.

The mayor did more than assist in the placing of the Private Bill while in the south, having been able to get the annual payment on the Wark Channel rights reduced from \$2,000 to \$200.

(Continued from Page One.)

could not find itself justified in passing a prohibition measure. Since then the scene has changed and all the Borden government had to do was to listen to the figures quoted by Mr. Stevens, one of its own supporters, to realize that the situation in regard to prohibition is much more exigent than it was eighteen years ago. Times, as the philosopher remarks, change and we change with them. For example, Quebec is now three-quarters dry, under local option, and is as keen for it, thanks to the leadership of the clergy, as it once was against it. In short, Quebec has moved bodily from the nineteenth century into the twentieth. Ontario—I quote Mr. Stevens' figures again—is two-thirds dry, New Brunswick is eighty per cent. dry, Nova Scotia is entirely dry, except Halifax, which is booked to surrender this year. Prince Edward Island is entirely dry, and, in addition, is entirely surrounded by water. Alberta will go dry next July, Saskatchewan has the dispensary system, Manitoba, already more than half dry, will have voted on total prohibition before this article sees print, and British Columbia will shortly have a plebiscite on prohibition, it being Premier Bowser's idea that if he can beguile the people with moral reform they may overlook the misdoings of the government.

These figures fortified by the example of Russia in abolishing vodka, France in cutting out absinthe, and Great Britain in lowering the percentage of alcohol in beer and curtailing the hours

of sale, were Mr. Stevens' chief arguments. One might have supposed that they would have tempted Sir George Foster to jump into the ring with a warm word or two in favor of his special hobby. Sir George has been a cold water man ever since he was old enough to think. Long before he was a statesman he was a temperance lecturer and lived at the altar of total abstinence. Soon after he became a cabinet minister, some thirty-two years ago, he introduced a prohibition resolution to the house which was carried by a round majority, but no further. Having justified his principles by this one attempt, and finding it bad form for cabinet ministers in a Conservative government to monkey with cold water resolutions, he let it go at that and never tried again. Privately he was as strong a reformer as ever, but officially he was not caught working at it. When the Liberals came back in 1896, Sir George experienced a recrudescence of feeling on the subject and spoke vigorously from time to time. But since the Conservatives were returned to power in 1911 and Sir George accepted the responsibilities of office under Premier Borden, he has eased off again. The theory among his teetotal friends is that if Sir George isn't saying anything he is brooding deeply. If he saw any wood it isn't at home in Ottawa.

The truth is that when Sir George saw the prohibition move-

ment heading toward Ottawa, he waved it back with a letter to Secretary Seybold in which he said that the money saved from the liquor traffic would be a great help to the Dominion government. "If it could be collected and devoted to that purpose." There's artfulness for you! Who would have suspected such caution in a red-hot crusader?

At all events Sir George sat mumchance all through the debate on prohibition in the House of Commons and the only flight of eloquence he indulged in was the flight he took to Toronto to make an address on his beloved topic to a Massey Hall audience. This address, which was enthusiastically received, presented all the arguments, some of them classics, on the temperance platform, with which Sir George's name is identified. In it he put it straight to those fellows in Queen's Park to do their bit. Which of course, is another story. No man knows better than Sir George that, on this subject, there is a chasm of two hundred and fifty miles between Queen's Park and Parliament Hill. Perhaps chasm is not the right word—Sir George would probably call it a moat.—H. F. Gadsby.

Local News Notes

April 3rd is the date. 75.
 You'll enjoy that dance. 75.
 The health officer suggests that that the burning of all refuse would tend to improve the health conditions of the city.

The Princess Maquinna, which arrives from the south on Friday, will make the trip to the new mining camp at Alice Arm.

The health officer's report for January and February showed 29 births and 4 deaths for the two months. In February there were 56 cases of measles.

The funeral of the late P. R. Jardine took place yesterday afternoon from the chapel of the B. C. Undertakers, Rev. H. R. Grant conducting the services.

The board of works and finance committee's recommendation that a sidewalk from Taylor Street to the Exhibition Building be constructed at a cost of \$150 was adopted at the council last night.

The city will put in a pole line to give light on Bacon Street, Ninth and Tenth Avenues. The cost of labor will be \$120. On the recommendation of Alderman Casey, it was decided to consider the putting in of a light on 11th between Frederick and Conrad.

A letter from the B. C. Manufacturers' Association, enclosing a resolution recommending the placing of a duty of 50 per cent. on all imports from Germany after the war, was read at the city council last night. It was filed.

LIGHT SUPERINTENDENT TENDERS RESIGNATION

Mr. T. C. Duncan, superintendent of the light and telephone department, has handed his resignation to the city council. In view of the fact that he had taken no holidays for three and a half years in which he had worked for the city, he asked that he be granted an allowance to cover, and also asked that the city give him a reference making special mention of the installation of the hydro-electric.

The mayor said that Mr. Duncan's resignation was received with regret, as he had proven himself thoroughly efficient.

Ald. Casey expressed regret that Mr. Duncan had resigned, and, in moving that the resignation be accepted, moved that a suitable recommendation be given him along with two months' pay in lieu of holidays. This was seconded by Ald. Smith.

Ald. Montgomery concurred in the first two parts of the motion, but added a rider that the question of pay in lieu of holidays be referred to the committee. This was seconded by Ald. Nelson, and carried.

"THE GODDESS" IS BIG SUCCESS AT MAJESTIC

The Majestic Theatre put up a splendid show last night, and evidently the new management intends to give nothing but the best. "The Goddess," the great new serial, promises to keep up the reputation of the Majestic for the best serials. It is a picture quite out of the ordinary kind of plot after plot, week after week, the entire story being based on a famous writer's ideals of social reform. It promises to become more interesting as it proceeds. Mr. Harvey's solo last night was greatly appreciated, as was also the rest of the picture program. There is a magnificent program for Friday, including Mary Pickford and the great Nurse Cavell film.

Charlie Chaplin, appearing in "Mabel's Strange Predicament," at the Westholme Theatre tonight

The annual report of the city health officer was before the council last night. It showed 147 births and 35 deaths during the year, and a remarkably clean bill of health.

Prisoners of war fund will benefit by that dance Monday. 75.

MABEL AND CHARLIE AT WESTHOLME THEATRE

"The Diamond from the Sky" continues to thrill large audiences at the Westholme, while last night Charlie Chaplin and his old partner, Mabel, made the roofing with laughter in "Mabel's Strange Predicament." There are also two good two-reel dramas in "The Duel in the Dark" and "The Girl and the Gangsters." The latter is a remarkable story of mistaken identity, the similarity between two skirts landing a poor girl in a lot of trouble. There are no end of thrills, as is to be expected in a tale of the doings of a gang of crooks. It is a real good show.

How Brown Learned How.

There is a man who makes shoes for children—and sells them to stores all over Canada But he is only just learning how people buy.

It was this way: His wife—let us call her Mrs. Brown—phoned to him and asked him to buy some underwear for little Brown.

Picture Brown now among the throng of mothers at the "Children's Underwear" counter. He asks for Underwear for a child of six. He looks it over helplessly. What on earth does he know about Children's Underwear? For lack of anything better to say he asks: "Is this good quality?" The answer is short and quite conclusive: "It's Blank's"—naming a well-advertised line. That short word says everything. Brown pays his money and goes home, quite satisfied with his purchase.

Now what bothers Brown—a manufacturer of shoes, is this: How would it affect the purchase of a child's shoes if the salesman said "They're Brown's"?

Nobody knows Brown's shoes. Brown doesn't advertise.

The name Brown signifies nothing when used in connection with children's shoes. The salesman must use all his persuasive wiles to induce people to buy them.

The point is—If the name Brown was as synonymous with Children's Shoes as "Blank's" is with Underwear, wouldn't Brown sell more shoes with less effort?
