BRITISH PREPARE FOR WESTERN OFFENSIVE

GERMANS LOSE HEAVILY ON FRENCH FRONT--SPRING THAWS ON NORTH FRONT

BRITISH BUSY PREPARING FOR BIG OFFENSIVE

Terrible Fighting at Verdun Did Not Interrupt Preparations for Big Move in the British Section.

(Special to The Daily News.)

Paris, March 30.—Fifteen thousand Germans were sacrificed in a vain assault yesterday at Avoncourt and Malancourt. The French machine guns and 75's practically annihilated the attacking German divisions.

London Report.

Several attacks were made by the German infantry yesterday in an effort to recapture the positions lost to the French in the fighting at Avoncourt wood, but all were repulsed.

The Germans secured the first French trench at Malancourt, but all efforts to make a further advance were repulsed with heavy losses. There is artillery fighting east of the Meuse.

Allied Preparations.

A new disposition of the Allied forces on the western front has been effected with great skill and secrecy. An arrangement has been completed whereby one-quarter of this entire front, from the Yser to Somme, is held by the British troops.

The recent German attacks on Verdun have not interfered in the slightest with the preparations of the Allies for the coming big offensive in the west.

MISS JACKLIN AND MR DON PECK MARRIED

Miss Winnifred Eva Jacklin, daughter of Captain Frederick Jacklin, of Georgetown, was married on Tuesday afternoon to Mr. Donald Wesley Peck, son of Mr. and Mrs. Hal Peck of this city. The ceremony was performed by the Rev. Dr. Large of Port Simpson in the presence of a large gathering of friends. The bride, who was given away by her father, looked sweet in a going-away suit of saxe blue corduroy velvet, with a large picture hat. As bridesmaid, Miss Olive Rudland was charming. The bridegroom was supported by Mr. W. H. Rudland. Mr. and Mrs. Peck who were the recipients of many handsome gifts, are leaving for the east on their wedding tour.

R. B. McGinnis arrived this morning on his way to Alice Arm, where his company has let a road and wharf contract to the Westholme Lumber Company. The work will be started immediately, as Mr. McGinnis is anxious to have everything in full swing this summer.

SPRING FLOODS HAMPER RUSSIA ON NORTH FRONT

Fighting May Cease for a Time—Big Offensive on all Fronts is Planned—Dutch Cables are Cut.

(Special to The Daily News.)

London, March 30.—The heavy spring thaws on the northern front have resulted in a diminution of the fighting owing to the flooded state of the roads in the lowlands. It is probable that there will be a cessation of fighting for a few weeks.

In conjunction with her other allies, it is expected that Russia will launch her supreme effort in the next offensive which will be a general one on all fronts.

Cables Cut.

There is complete suspension of the telegraphic service between Holland and England today. There is no official statement issued, but it is rumored that the cable has been cut by the Germans.

Teuton Craft.

An elaborate organization for the supply of information and stores to German submarines has been discovered on the Greek island of Corfu. Forty persons have been arrested and taken to France.

It will be remembered that Corfu, which was formerly suspected of being a German submarine supply base in the Mediterranean, was taken over by the French and converted into a naval base.

RAILWAY MEN GIVE RED CROSS DANCE

A jolly social gathering was held in the Railway men's Hall in the Steele Block last evening under the auspices of the local Railway men's Association and in aid of the Carnival of the Allies. After a pleasant hour had been spent in card playing and music, dancing began and was kept up until early morning.

The music was provided by Messrs. Balagno, Harvey and Zelaski, who donated their services to the cause. The committee which made the arrangements consisted of Messrs. Foster, Rogers, Adams, Bell and Frazer, Mr. Len Bell acting as M. C., and the fact that the dance was a big success in every way was largely due to their efforts. The committee wishes to thank the orchestra for their splendid service and also all those who aided in making the evening an enjoyable one.

RED CROSS CONCERT

The concert in aid of the Red Cross fund, given in Seal Cove school last night, was a big success, the various items of a splendid program being thoroughly enjoyed. The ladies of the committee wish to thank all who assisted in making it a success.

SOLDIERS' HOMESTEAD ACT IS INTRODUCED

(Special to The Daily News.)

Victoria, March 30.—The Hon. W. R. Ross yesterday introduced in the legislature the Soldiers' Homestead Act. The act provides that all unpaid for lands will revert to the crown and will be used for the free settlement of returned soldiers without pre-emption restrictions. It is expected that two million acres will be available. Applicants will be granted 160 acres each. Portions of the lands will be used for the obtaining of funds for improvements and for loans.

MacKay Letters.

Letters which passed between the Rev. Principal MacKay and Dr. Young have been tabled in the house. The letters show that Dr. MacKay was expecting the presidency of the B. C. University in 1912, and that he threatened Sir Richard McBride that he would not submit tamely to the treatment accorded him.

EASTERN FINANCER LOOKED THINGS OVER

Mr. Monteith Rowntree, the Montreal financial man who has been in the city for some days, left for the east this morning. Mr. Rowntree, who has been instrumental in bringing a large amount of English capital into Canada, has been looking over the situation here in the interests of the shareholders of the hydro-electric company. He is of the opinion that the company could do a big power business here in the future.

Mr. Rowntree showed a keen interest in the development of the fishing industry and also went into the details of the various mining camps, particularly the new district of Alice Arm.

RESOLUTION TO BREAK THE SALMON MONOPOLY

After the drydock question had been disposed of last night, Geo. Morrow raised the question of direct shipping connection between Prince Rupert and Surf Inlet, Alice Arm and the various mining camps and also the breaking of the salmon fishing and canning monopoly. Mr. Morrow thought that the mayor and council should take the boat question up at Ottawa and Victoria.

He pointed out that Messrs. Cunningham and McIntyre had not had the courtesy to notify the fisheries committee here of the result of the conference which was held here some time ago. He read a resolution which he proposed should be sent to the premier, Mr. Bowser, and Mr. Parker Williams, asking Mr. Williams to bring the matter before the legislature.

S. M. Newton said that he would second the resolution if Mr. Morrow would embody in it that the provincial government grant a licence to the Haysport cannery.

Mr. Morrow explained that just what he wanted to avoid was the mentioning of individual canneries, and that his resolution covered all the ground.

The resolution was supported by F. S. Wright and Ald. Montgomery. The resolution carried, and as the crowd made for the doors, S. M. Newton moved that a resolution asking for a licence for the Haysport cannery be presented at the same time, but the crowd had gone before the resolution was completed.

DRYDOCK RESOLUTION IS ENDORSED AT PUBLIC MEETING

GOOD HUMORED DISCUSSION BEFORE LARGE AUDIENCE IN THE EMPRESS THEATRE—SUGGESTION THAT MAYOR McCAFFERY PROCEED SHORTLY TO OTTAWA

The Empress Theatre was well filled last evening when Mayor McCaffery took the chair at the public meeting called to discuss the drydock situation. R. Moore was appointed secretary of the meeting.

After reading the petition which brought about the meeting, the mayor read the following resolution which it was proposed to put to the meeting:

Resolved by the citizens of Prince Rupert in mass meeting assembled:

That whereas the government of the Dominion of Canada enabled the Grand Trunk Pacific Company to construct a drydock at the city of Prince Rupert as per agreement in that regard in the interests of the public good,

And whereas there seems to be undue delay in getting the plant into operation, although it has generally been understood that the plant has been in a position to do business for many months now,

And whereas many millions of dollars are being expended throughout the Empire in many plants of less capability than the one now located in the city of Prince Rupert both for the manufacture of munitions and the construction of ships,

And whereas the city of Prince Rupert is especially well situated for the carrying on of trade and commerce with the Orient and with our ally, Russia,

And whereas our ally, Russia, has been in urgent need of munitions of war and the city of Prince Rupert is singularly well situated to supply her,

And whereas railroads to the south appear to be blocked with huge shipments consigned to our ally, Russia, whereas no goods for this trade are passing over the government aided road, the Grand Trunk Pacific Railway, through this port,

And whereas in spite of a general depression, the situation in eastern Canada has been greatly ameliorated through the supplying of munitions of war and the extra demand for many lines of goods to Great Britain and her allies,

And whereas Prince Rupert and Prince Rupert district have been generous in the supply of men, money and other contributions to patriotic necessities,

And whereas the city of Prince Rupert and the district of Prince Rupert have received no benefit from the direct supplying of the Empire or her allies either with munitions of war or other supplies such as has occurred in eastern Canada and such as has occurred in lesser measure in cities to the south of us in British Columbia, in spite of the fact that we are particularly well equipped with a transcontinental railroad

and with a drydock capable both of manufacturing munitions of war and of building ships of many classes including submarines, protective and merchant ships and fishing craft.

And whereas it is of great importance that Canada should at once take steps looking to the building of merchant ships to be in a position to take care of marine business at the close of the war,

And whereas government aided works should be of the first to receive such work as is given out,

And whereas it is reported that a credit of from seventy-five to one hundred million dollars is being arranged in Canada for the Imperial government and contracts for the manufacture of munitions of war are to be given out during the next two months, Now, therefore, it is the urgent request of the citizens of Prince Rupert that the government of Canada and the Grand Trunk Pacific Railway Company shall take such steps as are necessary to ensure the immediate use of the drydock at Prince Rupert either for the manufacture of munitions of war or the building of shipping craft, or both.

And be it further resolved that the citizens of Prince Rupert in presenting this request for immediate action, do so as forcefully as possible in order that the people of northern British Columbia while contributing men and money for the maintenance of our common heritage, may meantime also with other portions of Canada share in the benefits therefrom.

And be it further resolved that a copy of this resolution be sent to the Right Honorable Sir Robert Borden, Prime Minister of Canada, the President of the Grand Trunk Pacific Railway Company, the Right Honorable Sir Wilfrid Laurier, leader of His Majesty's Loyal Opposition in Canada, and to H. S. Clements, Esq., M. P. for Comox-Atlin.

The mayor then intimated that speeches were to be confined to the drydock at the outset, and that, when that matter had been disposed of, other subjects might be discussed.

Ex-Ald. Beveridge then proposed that ex-Mayor Newton open the discussion.

Mr. Newton said that they had all come here with great expectations, largely based upon the

The art of placing orders for war supplies is evidently a very delicate matter. In order that no shock may be sustained by the manufacturer, the order is sent to him in the most indirect manner possible. In fact it seems to be a case of breaking the news gently, with a colonel or two in between to act as buffers.

For instance, in the little matter of placing an order with the Colt Company for automatic pistols, Sir Sam Hughes gave the militia department instructions that the order was to be handed to Colonel John Wesley Allison. Probably Sam thought that the colonel's middle name tended to take away from the belligerent appearance of the order. Anyhow, the gallant colonel duly managed to place the order and the government paid \$18 each for the pistols. It now appears that New York bought the same gun for \$14, though of course they did not have a colonel to make a flank movement on the Colt Company with the order, and it also seems that Ottawa merchants pay \$18 less 10%, 5% and 2 1/2% for the same article. In plain English, the guns cost Canada \$4 too much.

Colonel Allison now states that he did not sell the guns to Canada, though he had been given the order at the request of Sir Sam, which goes to show that the colonel has a very fine perception of the delicate distinctions of the English language. Sam, in an eulogy on the colonel, said "I may say that the British government and the Canadian government as well, are in every sense under a deep obligation to Colonel Allison for his services. He never charged one cent yet

for the transfer of thousands and tens of thousands of dollars worth of stuff across the river. I do not know how he did it, but I know that it was done, and he has never rendered his bill yet, so that anything he had done has been a labor of love."

It is rather chilling to find that this fine patriot, who did so much for nothing, received a gift from the Colt Company for services rendered. The vice-president of the company assured the commissioners that the colonel did not receive a cent of commission, but that the firm, out of the goodness of its heart, handed over a gift. Here again, the fine distinctions of the language must be noticed, in arriving at the difference between a commission and a gift.

The gallant colonel is having quite a warm time at the hands of the commission and it is too bad that Sir Sam is in Europe, as his friend Allison is rather badly in need of reinforcements, while Sam might also be able to explain to the commission when a commission is not a commission. Meantime, the outstanding fact is that Canada paid \$4.00 too much for the pistols and there is just a suspicion that the fact that the colonel received a gift from the Colt Company had something to do with it. In any case, it was, at the best, rank bad business on the part of the minister of militia.

NOTES AND COMMENTS

Not a word has been heard from the Pacific representatives on the Fisheries Advisory Board in regard to the demands made by local fishermen some months ago. Evidently the cannerymen are

thoroughly represented at Ottawa, while the fishermen have no representation whatever.

One big salmon packer holds fishing concessions over many miles of territory which is never fished. Why should one man have the power to prevent these waters from being opened up, simply that he and the rest of the ring may keep the price of salmon at a high figure in the old country market?

The salmon packers have during recent years forced the price of canned salmon away up in the old country and they must hold the present fishing monopoly in order to keep prices up.

promises made by the G. T. P. and the provincial and Dominion governments, but unfortunately people had been sadly disappointed, as the expectations had not materialized.

He felt that no one wished to embarrass the G. T. P. at such a time, but he thought that something might be done to bring about activity at the drydock. He understood the bulk of the construction was finished last sum-

D. 1915, in pursuance of a Tax Sale held by said Municipality on or about the 9th day of September, 1914, of all and singular certain parcel or tract of land and premises situate, lying, and being in the City of Prince Rupert in the Province of British Columbia, more particularly known and described as:—Lot ten (10), Block eighteen (18), Section six (6), Map 923.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. mer and that Mr. Donnelly had gone to Ottawa after business. Some months had passed and nothing was done.

With ships so scarce throughout the Empire and all the coast yards very busy, he thought it was time to make a move. He agreed with the resolution and thought, it should be sent to London and also Victoria.

T. D. Pattullo moved the adoption of the resolution. He thought that it covered the ground thoroughly and embodied all that was necessary. He felt that ship-building was a live issue and would also be a big question after the close of the war.

Ald Casey seconded the adoption of the resolution.

D. W. Morrissey said that his reason for starting this movement was that southern newspapers were speaking of the drydock as a "white elephant." He traced the history of the city's dealings with the G. T. P., showing how in 1910, when T. D. Pattullo, who was looked upon as the Lloyd George of Prince Rupert, was chairman of finance, the G. T. P. property was assessed at \$109,000, and Mr. Pattullo stayed firmly by this assessment.

In 1911, in consideration of certain promises, this amount was reduced to \$15,000. He held that the promises had not been fulfilled and that the G. T. P. owed the city \$45,000.

W. C. C. Mehan said that the resolution was perfectly proper in every way. He had already explained fully the conditions at the drydock and he assured his audience that there was no intent on the part of the G. T. P. or its officials to deceive the people of Prince Rupert. Financial con-

ditions had delayed the following out to completion of some of their plans, but he had every confidence that the company would carry through the work.

Prince Rupert and British Columbia were going through a time of depression, but the people of this province had a reputation for overcoming difficulties. (A voice "Oh you Dick McBride.") Mr. Mehan smilingly assured the interrupter that he had no political aspirations.

He felt it was a time for all to join hands and make the best of things and all would come out right in the end.

Ald. Casey asked if the drydock was ready to make munitions. Mr. Mehan said it was, and that Mr. Donnelly had taken the matter up with no results.

Mr. Mehan added that, when Mr. Pillsbury went south some time ago, he went at the instance of himself (Mr. Mehan) to investigate an enquiry as to the capacity of the dock.

V. A. Cole thought that the matter would come to a head on June 1st, when the dock would be taken over by the government or the G. T. P.

Mr. Mehan said that Mr. Cole seemed to have inside information. The resolution was then put and carried unanimously, the mayor remarking that he could already see the workmen coming up over the hill with their pails.

A. J. Prudhomme moved that the resolution be sent by wire, by mail, and followed by a deputation.

Ald. Casey asked Mr. Mehan if the company would give transportation. The general superintendent said he would willingly do anything that would help the matter along.

CITY OF PRINCE RUPERT

NOTICE IS HEREBY GIVEN that an application will be made in the Legislative Assembly of the Province of British Columbia at its next session on behalf of the City of Prince Rupert for an Act containing provisions which are shortly stated as follows:—

(1) To authorize the changing debentures issuable under the bylaw in this clause mentioned, from the Sinking Fund plan to Annuity Instalment or Serial Bonds and the terms of years as herein stated:

No.	Bylaw and Object	Amount	Term of years.	
			pres.	pro.
97	Local Improvement Section 1	\$600,000	50	30
59	Hydro Electric	550,000	50	30
63	Government Debt	115,000	50	30
11	Telephone Plant	40,000	20	10
29	Electric Light Plant	66,000	15	10

and authorising the collection of instalments under such bonds with power to sell such bonds at a discount, and to use the Sinking Funds already collected towards reducing the debt; and power to raise any deficiency on sale of bonds by the issue of further bonds. Such changes to be made without submission to the ratepayers.

(2) Validating Bylaw No. 243 of said City; being "a bylaw for the purpose of authorising the renewal of certain treasury certificates and for issuing an additional amount of such certificates," and authorising the issue of bonds on the said Annuity Instalment or Serial plan for the \$100,000 mentioned in Bylaw 243 for not more than 30 years and also to ratify Bylaw 245, relating to such debentures; both without submission to the ratepayers.

(3) To provide for temporarily financing all said bonds by authorising the issue, renewal or reissue of temporary notes for not more than five (5) years from the date of such issue, renewal or reissue, pending the sale of the bonds heretofore mentioned and making provision for the payment of any loss which may be made on the sale of such temporary notes, renewals or reissue thereof.

(4) To provide for collecting instalments both for principal and interest before bonds have actually been sold. Such instalments so far as principal is concerned to be applied to reduce amount of treasury certificates or temporary notes then outstanding or to be issued.

LAUNCH FOUND

After reading the story in The Daily News of yesterday regarding the carpenters who had such a stormy time in an effort to reach Alice Arm, Chief Gammon informed The News that the Indians at Dundas Island had picked up a launch which might be the one which the carpenters lost. If Mr. Kallstrom or any of the others who took part in the adventure will communicate with the provincial chief of police, it may lead to the recovery of the boat.

CHAPLIN COMEDY AT THE MAJESTIC THEATRE

The Majestic was packed last night, Charlie Chaplin in "A Night at the Show" being the attraction. Charlie handling snakes in his usual bored fashion simply set the audience rocking with laughter, while his adventures with a 300 pound miss brought forth peals of laughter. This is one of the best Chaplins ever.

The Pathe Gazette presented very fine military scenes and showed how the crippled Tommies play football. The rest of the bill was up to the high standard which is being set by the new management and was thoroughly enjoyed.

"THE EXPLORER" AT WESTHOLME THEATRE

Lou Tellegen, who acted with Sarah Bernhardt at one time and who is now a "movie" star, is the leading figure in "The Explorer," a very fine five-act drama at the Westholme. It is a tale of adventure in the wilds of Africa in which an exploring party gets into serious trouble with the natives and gets out of it through the self-sacrifice of the weakling of the party, the brother of the sweetheart of the leader.

The scenes of native encampments and Zulus in full war paint are remarkably realistic, while the acting of Tellegen is always convincing.

A Topical Budget showing air raids on Paris and other interesting war items, and a comedy entitled "Under False Colors," make up a good program.

How Brown Learned How.

There is a man who makes shoes for children—and sells them to stores all over Canada
But he is only just learning how people buy.

It was this way: His wife—let us call her Mrs. Brown—phoned to him and asked him to buy some underwear for little Brown.

Picture Brown now among the throng of mothers at the "Children's Underwear" counter. He looks it over helplessly. What on earth does he know about Children's Underwear? For lack of anything better to say he asks: "Is this good quality?" The answer is short and quite conclusive: "It's Blank's"—naming a well-advertised line. That short word says everything. Brown pays his money and goes home, quite satisfied with his purchase.

Now what bothers Brown—a manufacturer of shoes, is this: How would it affect the purchase of a child's shoes if the salesman said "They're Brown's"?

Nobody knows Brown's shoes. Brown doesn't advertise. The name Brown signifies nothing when used in connection with children's shoes. The salesman must use all his persuasive wiles to induce people to buy them.

The point is—If the name Brown was as synonymous with Children's Shoes as "Blank's" is with Underwear, wouldn't Brown sell more shoes with less effort?
