GERMANS PREPARE FOR FRESH ATTACKS

TROOPS DRAWN TO VERDUN FROM OTHER FRONTS—WILSON DESPATCHES NOTE

GERMANS STAKE EVERYTHING ON VERDUN FRONT

Troops Drawn from Russia and From British Front for Another Big Attack—Heavy Hun Losses.

(Special to The Daily News.)

Paris, May 9.—Terrific fighting continues on the Verdun front. The Germans attempted an early morning attack upon Hill 304 after a violent artillery bombardment. The attack was completely repulsed by the French with rows of machine guns which were concealed in the trenches.

The French, in a series of counter attacks east of the Meuse, drove the Germans from certain of the captured positions. The German losses were heavy. One Prussian division, in the heavy fighting of Sunday, lost fifty per cent. of its strength through casualties.

Fresh Attacks.

Important artillery preparations by the Germans foreshadow a series of fresh attacks on both banks of the Meuse, which may extend to the Woivre plateau. The Germans have been reinforced from the Russian front and from the other portions of the western front, and have now ceased their attacks upon the British lines, the men being required before Verdun.

NOTICE TO MARINERS

Mariners plying in the vicinity of the North Channel, Queen Charlotte Sound, are warned to keep a lookout for a raft of logs adrift near Browning Island. About one mile from the Mainland in the North Channel, on Sunday, April 3rd, when in tow of the tug B. C. Boy, the raft broke adrift. It contains approximately 500,000 feet and is about 60 feet wide by 100 feet long, standing 16 feet high.

SUGGESTED CHANGES IN LIGHTING SYSTEM

The city council last night had before them a report from Light Superintendent D. D. Kennedy, in which he made several good suggestions which met with the approval of the light committee and subsequently of the council.

The most important dealt with the steam plant. Mr. Kennedy states that this can in no way be considered as an auxiliary plant and was too expensive. He recommended that instead of having three men there, the unmarried man be removed and one shift be divided between the other two, thus saving \$200 per month to the city. In the event of a mishap, engineers could be brought from the lake without trouble.

Ald. Casey asked if this meant sixteen-hour shifts for the two men.

Ald. Montgomery explained that it would mean only eight-hour shifts.

Ald. Casey did not feel disposed to concur in the report, as he understood that this meant plugging the switches, which meant danger in the event of a break. If they could handle this with only one man, he did not see why they could not do away with the substation altogether.

Ald. Montgomery explained that the superintendent did not intend to plug the switches but simply to leave them as was done by the B. C. Electric and other big companies.

Ald. Barrie wanted to know if Mr. Kennedy would guarantee that the switches would not be plugged.

Ald. Montgomery said that no such guarantee was necessary as there would be no plugging. He pointed out that the switches did not come out once in six months.

Ald. McClymont said that the committee had gone into the matter thoroughly and were satisfied that the recommendation was a good one. The report was concurred in, Ald. Casey dissenting.

Another important suggestion was the combining of the light and telephone outside gangs, thus doing away with the services of one lineman. This was left to the superintendent to arrange as he saw fit.

It is also suggested that the telephone exchange be transferred from the present quarters to the city hall. This will come up again when Mr. Kennedy has figured out the cost of moving.

It has been decided to remove the meter room from the basement of the city hall to the room formerly used by the purchasing agent, the basement being unsuitable because of dampness and vibration. This was agreed to.

WILSON SENDS ANOTHER NOTE TO THE KAISER

United States Accepts the Berlin Promises Regarding Submarines—White Star Liner Cymric is the Latest Victim.

(Special to The Daily News.)

Washington, May 9.—The American note was despatched to Berlin today. The United States accepts the German promises that the submarine warfare will in future be altered to conform with the recognized rules of international law.

Liner Cymric Torpedoed.

London, May 9.—The White Star Liner Cymric was torpedoed yesterday noon while approaching the coast of Ireland, and sank at three o'clock this morning while trying to make port. Five of her crew went down with her and one hundred and seven were killed by an explosion at the time she was struck by the torpedo. The remainder were saved.

The Cymric was a vessel of 13,000 tons and was engaged in the freight carrying trade between New York and Liverpool. She left New York for Liverpool on April 29th with a large cargo of munitions. She was torpedoed without warning.

FOUR MORE REBELS HAVE BEEN EXECUTED

(Special to The Daily News.)

London, May 9.—Cornelius Colbert, Edmund Kent, Michael Mallon and J. J. Herston, who took part in the rebellion in Dublin, have been executed as rebels. Nineteen others who had been sentenced to death have had their sentences commuted to penal servitude. Two have been acquitted.

Sir Roger Casement will conduct his own defence when he comes up before a police magistrate for public trial today.

Laura Hope Crews AT WESTHOLME TONIGHT

There was a packed house at the Westholme last night, and all must have been delighted with the work of Henrietta Crossman in "the Supreme Test." It was a remarkable story of the contrast between the poor and the wealthy.

Tonight, Laura Hope Crews is the star of the bill, this great artiste appearing in "Blackbirds," a unique modern drama. There is also a fine two-act drama in "The Victims" and an Eclair Gazette, showing the latest European and world's news. Harry Harvey will give an impersonation of "The Languid Man" from "The Belle of New York."

MILITIA CALLED OUT ON MEXICAN BORDER

(Special to The Daily News.)

Washington, May 9.—President Wilson has called out the militia in the states of Texas, Arizona and New Mexico to deal with the Mexican border situation. The total number of troops called into service by the new order is four thousand.

SCHOOL GARDENS

At the council meeting last night, a resolution passed by the Horticultural Society was read, asking that the city council and the school board unite in an effort to provide some form of school garden in which the children of the city could learn to take an interest.

Ald. Montgomery thought this a most important matter. He alluded to the fact that boys in the city were getting into mischief which was bringing them into the police court. He felt that the police court was no place for boys and that a public park, or garden, where the youngsters could expend some of their superfluous energy would be a splendid thing. The acting mayor appointed Ald. Montgomery, McClymont and McRae as a committee to confer with the school board in the matter.

BASEBALL OPENING

The first game of the local baseball league was played last night between the Colts and the Catholic Club, when the former won a real close and exciting game by a score of 4 to 3. The Colts' battery was Bennie McDaniels and Arthur Manson, while that of the C. C.'s was Babe Fortin and Harry Astori. There was a fair turnout of spectators. Those teams should provide some real good ball before the season is much older.

BORDEN'S PRETENCE IS FINALLY UPSET

The following is a most interesting extract from the report of the proceedings in the enquiry into the shell committee's work at Ottawa:

The pretence presented to Parliament by Sir Robert Borden in his original efforts to prevent any investigation, that the Canadian Government had nothing to do with the Shell Committee, the latter being direct agents of the British War Office, was swept aside by the production of an important document.

Mr. Helimuth filed a formal contract which apparently determines the respective positions of the Canadian Government, through the Minister of Militia, and members of the Shell Committee, in relation to the manufacture of munitions for Britain. This document, strangely enough, was executed on July 4—a statutory holiday—immediately after the receipt of the cable of June 30 from the British Minister of Munitions stating that Mr. D. A. Thomas was on his way to this country. The document itself reads:

The Formal Contract.

"This agreement, made this first day of July, 1915, between Alexander Bertram of Ottawa, in the Province of Ontario; Thomas Cantley, of New Glasgow, in the Province of Nova Scotia; George W. Watts, of Toronto, in the Province of Ontario, and E. Carnegie, of Welland, in the Province of Ontario, manufacturers, of the first part; and Major-General Sam Hughes, Minister of Militia and Defence for Canada, and acting for and on behalf of his Majesty's Secretary of State for War, of the second part.

"Witnesseth, that the parties of the first part agree to manufacture and deliver to the party of the second part the munitions specified in the attached schedules (Continued on Page Two)

PROVINCE MUST MEET RAILROAD GUARANTEES

Sir Thomas White says C. N. R. Guarantees Must be Met by Both Federal and Provincial Governments.

(Special to The Daily News.)

Ottawa, May 9.—Sir Thomas White, in a speech dealing with the railway problems which confront Canada, stated today that the Federal and Provincial Governments must pay their Canadian Northern Railway guarantees, and that the Federal Government must also pay the interest on the Grand Trunk Pacific issues to prevent that road from going into the hands of a receiver.

Shipbuilding.

Victoria, May 9.—A. H. B. McGowan stated in the Legislature today that lumber companies in the south are preparing to build a fleet of forty ships under the new Shipping Bill.

Liberal Witnesses.

Stephen Mitchell, of Seattle, called to give evidence in the alleged plugging in the Vancouver by-election, stated that he plugged votes along with the Monte White gang.

H. C. Brewster announced that he will call witnesses for the Liberals after the government witnesses have been heard.

HOLIDAY QUESTION SETTLED BY COUNCIL

At the city council last night, Ald. D. C. McRae brought in a resolution to the effect that the council views the granting of a vacation to its employees as a period for recuperation and not as a part of their salary, and that no monetary consideration be paid to employees in lieu of holidays.

Ald. McRae, speaking to the motion, said that he had brought this question up because of the vote of \$100 to the late light superintendent last week. He thought that this matter should be definitely settled for the rest of the year. It was unbusiness-like for the council to vote such amounts when an employee left the service and that in the last three years over \$760 of the people's money had been voted in this way. He pointed out that when a city hall employee took his holidays, the rest of the staff did his work so that the city incurred no extra expense. He thought it was unfair that some applications for such a bonus had been granted while others had been refused.

Ald. McClymont, in seconding the resolution, said he thought it was a step in the right direction. The motion carried unanimously.

Ald. Casey, in this connection, moved that the council grant two weeks' holiday to all its regular employees along the lines of last year. This was seconded by Ald. Montgomery and carried unanimously.

SHELL REVELATIONS

Canada looks on in amazement at the revelations which are being made before the commission of judges in Ottawa in the enquiry into the doings of the Shell Committee. The evidence of Colonel Carnegie disposes for all time of the pretence that the Canadian Shell Committee was a body answerable solely to the Imperial Government and entirely independent of Ottawa. Colonel Carnegie clearly showed that the committee consisted of Canadian manufacturers, to whom Sir Sam Hughes, as agent for the Imperial Government, awarded contracts for munitions amounting to the huge total of \$148,628,110.

Allison and his associates were merely sub-contractors who received their contracts from the company formed by the members of the committee. In referring to the committee as "my" committee, Sir Sam Hughes was perfectly right, as the committee was his in every sense of the word, and subservient to him in every particular.

One of the remarkable features of this contract is that it was drawn up between Messrs. Bertram, Cantley, E. Carnegie and Watts of the first part, and Major-General Sam Hughes, acting on behalf of the Imperial Secretary of State for War, of the second part, on the day following the receipt of the cable from the British War Office stating that Baron Thomas was on his way to Canada as representative of the Imperial Minister of Munitions. The matter was so urgent that the contract was drawn up and signed on July

1st, 1915, Dominion Day and a legal holiday.

It becomes more clear every day that the Canadian Government, through its representative, General Hughes, must carry the whole responsibility for the deeds and misdeeds of the Shell Committee. The plea of Sir Robert Borden, that the Canadian Government could not investigate the doings of the Shell Committee, as that body was entirely under the control of the Imperial Government, falls to the ground with a resounding thump. Canada looks on in wonder while the startling tale of contracts and sub-contracts is unfolded. How do Imperial statesmen view the revelations?

NOTES AND COMMENTS

Pat Carey was heard to remark on Saturday that he could not understand why people wanted to go to California for a change of climate when they could get six changes here in twenty-four hours.

The German reply to President Wilson, when robbed of its smooth phrases, simply says that Germany will quit the submarine business when Britain has agreed to lift the blockade.

Colonel Carnegie, in the shell enquiry, started out by trying to show that Sir Sam had nothing to do with it and concluded by proving that Sam had everything to do with it.

Shipbuilding companies are being formed in Victoria to take advantage of the proposed Shipping Act. When is that Prince Rupert Company to be incorporated?

Bob Jennings has been appointed vote-catcher-in-chief for the

Skeena district and the interior generally. What have the other road bosses done or left undone?

The firing on the French liner Venizia, which had forty Americans on board, is the true German answer to President Wilson's note. It had no diplomatic phraseology but it was straight to the point and easily understood.

David Lloyd George, the "little Welsh attorney," is still proving himself to be the one real big man in the Asquith cabinet. There is just a danger that he may prove too big for the cabinet.

BORDEN'S PRETENSE IS FINALLY UPSET

which form parts of this contract, subject to the following terms and conditions, and at the rates and prices variously stipulated.

The agreement is signed by Alexander Bertram, Thomas Cantley, George Watts, E. Carnegie and Sam Hughes. It is marked as "signed, sealed and delivered" in the presence of D. Carnegie.

When asked by Hon. Mr. Justice Duff if any significance consequently attached to the phraseology of a cablegram referring to contracts placed "with" the Shell Committee and contracts placed "by" the Shell Committee, Mr. Hellmuth pointed out that the Canadian Minister of Militia, and not the Shell Committee, would appear to be the agent of the British Government, and that the civil or manufacturing members of the committee were regarded by the War Office as contractors, and not at all as agents with the authority of agents. He added,

LAND REGISTRY ACT.

Notice Under Section 36.

TAKE NOTICE that an application has been made to register Olaf Hanson, of Prince Rupert, B. C., as the owner in Fee-simple, under a Tax Sale Deed from the Collector of the City of Prince Rupert to Olaf Hanson, bearing date the 10th day of September, A. D. 1915, in pursuance of a Tax Sale held by said Municipality on or about the 9th day of September, 1914 of all and singular certain parcel or tract of land and premises situate, lying, and being in the City of Prince Rupert in the Province of British Columbia, more particularly known and described as:—Lot ten (10), Block eighteen (18), Section six (6), Map 923.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said Olaf Hanson as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice.

"And in default of a caveat or certificate of its pendency being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the 'Municipal Clauses Act, 1906,' or section 293 of the 'Municipal Act,' or section 139 of the 'Assessment Act, 1903,' or section 253 of the 'Taxation Act,' in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

however, that the members appeared to have regarded themselves as occupying dual positions, agents and contractors at the same time. Mr. Hellmuth described their position as "anomalous."

Whole Aspect Seems Altered.

This seemingly puts the investigation on a new and different footing. It had been assumed, by reason of Premier Borden's statements to Parliament, that the Royal Commissioners were to investigate and determine whether the Shell Committee placed War Office orders for fuses with honesty and good business judgment. With the Shell Committee regarded by the British Government as contractors, who could be sued for failure to fulfill their contracts, and not as authorized agents, the whole aspect of the investigation changes.

Today's evidence makes the Canadian Government directly responsible, with Sir Sam Hughes, as its Minister of Militia, the immediate agent. It also designates members of the Shell Committee as contractors to whom the Government gave the business, and establishes the concerns who were given contracts to produce shells as mere sub-contractors.

VIOLENT ATTACKS OF DYSPEPSIA

Suffered Tortures Until She Tried "Fruit-a-tives"

St. JEAN DE MATHA, Jan. 27th, 1914.
"After suffering for a long time with *Dyspepsia*, I have been made well by "Fruit-a-tives." I suffered so much that at last I would not dare to eat for I was afraid of dying. Five years ago, I received samples of "Fruit-a-tives" and after taking them I felt relief. Then I sent for three boxes and I kept improving until I was well. I quickly regained my lost weight—and now I eat, sleep and digest well—in a word, *I am fully recovered*, thanks to 'Fruit-a-tives.'

WHO CAUSED THE WAR?

As to the cause of the war, the Army and Navy Journal tells the following story as having been related in a debate before the City Club at Hartford, Conn.

"Who caused the war?" That is a long story. Richard Harding Davis went to Europe to find out—that was his business as a reporter. He went into Buckingham Palace and said:

"Now, George, on the level, as between two friends, who caused this rumpus?"

"Ah—well—I don't know; you go and ask Nick."

"So Davis went to Petrograd and said, 'Now, Nick, who was it?' And Nick said, 'I don't know; you had better go and ask Bill.' So he went to Berlin, slapped Bill on the back and said, 'Bill, old chap, who was it?'"

"Teddy."

"Teddy?"
"Yes, after he got through being president he went to Africa to hunt for a while, then he went to Stockholm to get a peace prize and then he came back and we fixed up a little battle for him, without getting too near. When the battle was over he said to me, 'Bill, that's a bully army you've got; you can lick any army in the world.' Now, how in h— was I to know that he was a d— liar?"

MYSTERIOUS DELAY ABOUT THE EXTENSION

The Toronto Globe publishes the following special despatch from Ottawa: Although the extension of the life of Parliament was made the first business of the session, and the government claimed at the beginning of the session that the petition to the Imperial Parliament must be attended to at once, even before war business came up, there seems to have been mysterious delay either in sending the petition to London or in getting action by the British House. At any rate, Sir George Foster, who was leading the House this afternoon in the absence of Sir Robert Borden, confessed when questioned by Hon. George P. Graham that he did not know what had happened to the petition.

Mr. Graham asked for some information as to whether the term of Parliament had really been extended or not, and what information the government could give as to whether the petition had been sent or whether it had been acted upon. The petition was passed in the Commons on February 8th.

Sir George replied that he did not know what the situation was. Only the Prime Minister could tell and he was absent.

Meanwhile there is considerable speculation as to the reasons for the delay in the final step in securing the extension of the life of Parliament until October, 1917. It is not beyond the bounds of possibility that after all there might be an election this year.

Modern Beacon Fires

THE old beacon fires were the great advertising mediums of their age.

Though they could not advertise merchandise, they advertised the things of most vital interest to the people.

Placed on the summits of high hills, bearing a message to thousands of "readers," they were prototypes of those modern fires of Twentieth Century commerce—the "beacon" fires of Newspaper Advertising.

The advertisements appearing in the newspapers to-day are shining lights in the world of commerce, flashing out news and information to a waiting world.

When the modern manufacturer lights the Beacon Fires of Newspaper Advertising he places his message before the people in a way that will impart knowledge, beget appreciation and win preference for his goods.

Who can fail to see any day the gleaming messages of "Magic Baking Powder," "Standard Ideal Ware," "Sunlight Soap," "Gillette Safety Razors," "Penman's Underwear," "Infants' Delight Soap," and many others?

To the Manufacturers of Canada

Each day sees more articles given publicity in the newspapers. Are your products and your brand still in the valley of obscurity, or are they blazoned forth by the beacon fires of advertising on the high hill of public favor?

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
