INCREASED ACTIVITY ON VERDUN FRONT

RUSSIANS JOIN BRITISH NEAR KUT-EL-AMARA -- AUSTRIAN ATTACK REPULSED

FRENCH REPLY SHOT FOR SHOT AND HOLD HUNS

Terrific Fighting Continues on the Verdun Front—Germans are Increasing Their Big Gun Fire.

(Special to The Daily News.)

London, May 26.—The battle of Verdun continues with unabated fury along both banks of the Meuse. The Germans are keeping up their bombardments with unprecedented vigor, and are also making vicious infantry attacks. The French are replying with shot for shot and are holding the Germans at almost every point of attack.

A heavy artillery duel is in progress around Fort Douaumont and at Hill 304. The Germans have increased their artillery fire against the French positions in this region, probably preparatory to another infantry attack for the possession of this much fought-for vantage point.

British Front.

The line held by the British forces on the western front now extends for a distance of over one hundred miles, in the face of the heaviest German concentration outside of Verdun.

Casement's Trial.

The trial of Sir Roger Casement, on a charge of high treason, has been fixed to take place on June 26th.

LYOYD GEORGE WILL HANDLE IRISH PROBLEM

(Special to The Daily News.)

London, May 26.—Hon. David Lloyd George is to handle Britain's great problem of reconciling the apparently irreconcilable sections of the Irish people and the establishing of a measure of Home Rule in Ireland.

Compulsion Passed.

The Compulsory Military Service Bill has been signed by the King. Compulsory service will not be extended to Ireland.

A. E. REITCHEL DID WORK WORTHY OF V. C.

George Davis has received a letter from H. J. Scott, of the Canadian Explosives, stating that his son, who is at the front, says that A. E. Reichel would certainly have been recommended for the V. C. at the time he was wounded, had there been an officer present when he took charge of his company and captured two German trenches. Corporal Reichel, though wounded, carried two of his men on his back to a dressing station.

STEEL FREIGHTERS MAY BE BUILT AT DRYDOCK

M. P. Cotton, of Vancouver, accompanied by H. H. Hansard, the solicitor for the G. T. P., arrived here yesterday to make an inspection of the drydock, on behalf of a syndicate in the south, with a view to starting ship-building under the new Shipping Act.

Mr. Cotton was conducted over the drydock by J. H. Pillsbury, and expressed great satisfaction with the equipment of the plant. If satisfactory terms can be arranged, it is proposed to lease the plant for a term of years to construct and operate freight carriers. The syndicate favors the building of steel ships and has applied to the government for assistance in building four vessels. The company intends to build vessels of about 4,000 to 5,000 tons, and will operate the fleet themselves under the scheme of government guarantee.

The members of the syndicate fully considered the plans of the dock before sending Mr. Cotton north, and, provided that suitable terms can be arrived at, work will start at an early date. The G. T. P. officials have provided the engineer with the fullest particulars in regard to the plant and everything possible is being done to have the ship-building industry started on a solid basis.

VIC THOMPSONS NOW WITH THE ARTILLERY

Douglas Stork yesterday received a most interesting letter from Vic Thompsons, who is still alive and kicking at the front, after having had several narrow escapes.

Vic, after receiving wounds in the trenches, had a spell at bomb-throwing; then was transferred to a machine gun section and is now serving with the artillery. He finds the big gun work very interesting, though not quite so exciting as bomb-throwing.

He describes winter weather in Flanders as being worse than that of Prince Rupert so far as rain is concerned. Now that spring has set in they are having beautiful weather, however. Just before writing, he had met Bob Wiggins and also a brother of James Hunter, of Prince Rupert.

He has thoroughly recovered from his wounds and is keeping a bullet, which was extracted from his anatomy, as a souvenir. He had a thrilling escape when a bomb exploded over a party of four of them, of whom he was the only one to escape.

He thinks the war may last for a considerable time yet, and is looking forward to a week's holiday which he intends to spend in Scotland.

Stubbornness v. Patience. How a mule met its master in the Indians. This photo, which was taken with the British Egyptian force, shows Indians watering mules at a well. True to his nature, the mule showed great stubbornness, and was more inclined to jump into the water than to walk the plank. But his stubbornness availed him nothing against the Indians who have the patience of Job.

SOME SUGGESTIVE CONTRASTS IN CONNECTION WITH PLUGGING

**SULLIVAN MAKES STARTLING ADMISSIONS OF KNOWLEDGE ON
PART OF TORIES—LIBERALS KNEW NOTHING
OF THE SULLIVAN OPERATIONS WHILE
TORIES WERE WARNED**

J. L. Sullivan admits that he knew on Feb. 21st or 22nd, that a gang of "pluggers" was coming from Seattle to take part in the Vancouver by-election.

There is no evidence that any living Liberal was aware of the fact.

J. L. Sullivan was the champion of the "wets," his admission throws an interesting light upon the relations of the "wets" and the license inspector.

There is no evidence that any Liberal received a letter from Seattle detailing the movements of the "pluggers."

J. L. Sullivan admits that through the license inspector the Conservative executive was furnished with the Carroll letter so that they might be fully apprised of the pending invasion of the pluggers.

There is no evidence that the Liberal executive had the faintest suspicion that anything of the kind was about to take place.

J. L. Sullivan admits that F. W. Welsh fully informed the premier and Mr. Tisdall of the oncoming of the hosts.

There is no evidence that Mr. Brewster or Mr. Macdonald had received even a hint of what was contemplated. The chairman of the investigating committee has stated that there is no suggestion that Mr. Brewster knew anything about the plot. There is not a scintilla of evidence that Mr. Macdonald was aware of the coming incursion.

J. L. Sullivan admits that F. W. Welsh, Conservative aspirant and

general roustabout, visited him to discuss the matter.

There is no evidence that any Liberal visited Mr. Sullivan, or any one of the Seattle gangsters.

J. L. Sullivan admits that F. W. Welsh got him to go to Seattle, where he saw Carroll and White and completed his information as to the schemes of the "pluggers."

TRADES AND LABOR COUNCIL'S CANDIDATES

Prince Rupert Trades and Labor Council, having been approached by the representatives of Labor in Atlin district to suggest a suitable candidate to represent the wage-earners of that riding, has announced by resolution sent to Atlin and Anyox, that it is ready to endorse to the full the candidature of George Casey, miner, as Labor's representative for Atlin.

It was resolved that a representative to be relied on as staunch in the support of Labor, and a man of character and capable of making his candidature formidable and his personality, if elected, a power for the advantage of Labor's interests in that riding, shall have the endorsement of Prince Rupert Trades and Labor Council.

The Trades and Labor Council also went on record and wished to be distinctly understood by all interested that in no manner, shape or form will it lend itself to anything that might even vaguely be construed into an endorsement of any candidature on the part of W. H. Montgomery, who is regarded unfavorably by organized labor of Prince Rupert in the arena of politics.

While details have not yet been finally arranged, there is a strong possibility that the Trades and Labor Council will endorse a trusted candidate for the Prince Rupert riding.

The council also endorsed the principle of compensation to the liquor interests, providing same was extended to the employees, and the secretary was instructed to communicate with the B. C. Federation of Labor, seeking its co-operation.

M. A. MACDONALD DENIES GOSDEN'S STORY FLATLY

Victoria, May 25.—Robert Gosden was committed for trial this morning on a charge of perjury in connection with the Vancouver election enquiry. His counsel reserved his defence. The case will likely come up at the fall assizes.

Gosden swore that M. A. Macdonald met him in front of Victoria post office on April 25th and made an appointment for a second meeting at the same place at 9 p. m. when \$50 was handed to Gosden by Macdonald.

M. A. Macdonald swore today that at 6 p. m. on the evening in question he was walking in Beacon Hill Park with his wife, and that at nine o'clock they were in their room at the hotel. He denied that he had been anywhere in the vicinity of the post office that evening. Mrs. Macdonald corroborated her husband's statement.

BOWSER MACHINE IS BLAMED FOR PLUGGING

(Special to The Daily News.)

Vancouver, May 26.—Before the committee of enquiry into the Vancouver election, D. E. McTaggart, chairman of the Liberal scrutineers, gave the impression that he believed that J. T. Scott had acted improperly. He was sure that the Liberals did not pay for this, as they had no money.

He thought that it was a scheme on the part of someone to hold up the Liberals later on.

G. S. Wismer, a Vancouver lawyer, blamed the Bowser machine for the whole business.

SALMON INSPECTION

Canned salmon is bought subject to a ten per cent. examination at point of shipment, and, at present, all British Columbia salmon is inspected in the south. In view of the fact that there are so many canneries in the vicinity of Prince Rupert, why should not there be an inspector located here? At present, all shipments of canned salmon must of necessity go via Vancouver, while, if an inspector were located here, a large amount of the season's pack would be shipped direct from this point.

This year, in particular, there will be a large part of the pack shipped by rail to the east for shipment from Atlantic ports, owing to the shortage of ocean tonnage on the Pacific, and the placing of an inspector at this point would probably mean that a considerable proportion of this salmon would be handled at and shipped from Prince Rupert over the Grand Trunk Pacific, thus saving the consignee the freight from Prince Rupert to Vancouver. We have inspectors galore and, in all probability, one of the gentlemen who are at present engaged in fish inspection business could manage to find time to carry out the shipping inspection as well. According to the cannery-men, it is not very arduous work. This would tend to make Prince Rupert the centre of the northern salmon packing industry, while at present it is merely a transshipping point for the Orientals who come north for the season and go south at the end of it.

SALMON PRICES

The establishment of independent canneries in this district will mean that the fishermen will receive a much better price for their fish. One authority stated the other day that

it would mean that the fishermen would get ten cents more per fish than they are able to get now. It is no secret that, at the present time, the cannerymen can quite nicely afford to pay this extra ten cents, and then some, and still have a handsome profit left. Roughly speaking, about four fish go to the case, and, if there are 120,000 cases of salmon put up on the Skeena this season, the extra ten cents would mean an additional \$50,000 to the fishermen. One can well imagine what this would mean to Prince Rupert, if the salmon fishing were entirely in the hands of independent fishermen.

NOTES AND COMMENTS

Bowser has once more displayed his political cunning, which has passed muster for statesmanship in this province for some years. He will come to the country with the prohibition bill as a bait for the "dry" vote and the compensation commission to tempt the "wets." It is a big but futile effort to grab both.

Since Wednesday, the demand for cold cream and such complexion restorers has gone up by leaps and bounds. One young man says that the next time he goes pic-nicing he will take a gallon of face cream instead of a rain-coat.

The P. G. E. has already cost much more than it should and it is only partially built. At the rate money has been spent, for the benefit of the Pat Welch interests, the six millions now being handed over, in addition to the eighteen millions already spent, will simply provide the original contractors with another bunch of easy money.

Sir Robert Borden is to take the Ross rifle question up with the commander of the British army,

No Palate-Joy Like This—The richest man in the world could not buy anything more pleasing to the palate or more strengthening than **Shredded Wheat Biscuit with Strawberries and cream**. A simple, natural diet that will bring health and strength for the Spring days. Try it for breakfast; eat it for luncheon.

Made in Canada.

He will probably have an early opportunity of explaining to Lloyd George what happened to the time fuses for which some millions have been spent with microscopical results.

and Mr. Egar, secretary of the Hotel Keepers' Association. As the "plugging" witnesses have sworn that they voted "wet," it seems eminently proper that the various hotel organizations should know that they were on the way.

Still no evidence that any Liberal knew of the approaching descent of the "pluggers" on Vancouver.

J. L. Sullivan admits that he went to meet them at the train. This is an eminently friendly act

SUGGESTIVE CONTRASTS WITH PLUGGING

Continued from Page 2.

acting in the Conservative interests, he tells us, and his hotel, the Irving, was evidently Conservative hotel headquarters.

There is no evidence that any Liberal met a single "plugger" and escorted him to any hotel.

J. L. Sullivan admits although the whole plan of campaign of the "pluggers" had been known for some days before the election, to the premier, the Bowser candidate, the Tory machine, Secretary Love, the license inspector, the secretary of the Hotel Men's Association, or in other words, to the entire government and liquor interests, no police were sent to any boat or train to arrest a single one of the would-be criminals. On the contrary, it seems to have been a case of jovial handshaking, and "welcome to our city."

There is no evidence that a single member of the Liberal party from Mr. Brewster down, knew any of these things.

J. L. Sullivan admits that though the entire Conservative organization knew every feature of the plot, they did not, and have not, made a single arrest.

The moment the Liberals secured evidence of fraudulent voting, the offender was arrested and is now serving nine months in jail.

Like all the "plugging" witnesses Sullivan admits that he was working for the "wets."

He admits that he was working to keep the Bowser aggregation in power. As Witness Kelly said, all the "pluggers" were engaged in the same task of voting for the "wets" and "keeping a lot of good fellows in power."

That they did vote and "plug" for the wets there can be no manner of doubt.—Sun.

MINERAL ACT

NOTICE TO DELINQUENT PARTNER

TO J. A. ROGERS, TAKE NOTICE that, whereas I have caused to be done the assessment work for the year 1915 on the mineral claims known as "Ladybird No. 4" Mineral Claim, situated in Cascade Creek valley, north of Silver Lake, in the Stewart, B. C., Mining District; and the "Stumpy" Mineral Claim, situated on the east side of Cascade Creek at the head, in the said Stewart Mining district, and have paid for said assessment work the sum of \$200.00; unless you pay to me the sum of \$100.00 for your share of the said assessment work together with the costs of this advertisement, I shall, at the expiration of ninety days from the date hereof, apply to the Mining Recorder at Stewart, B. C., to have your interest in the said "Ladybird No. 4" and "Stumpy" Mineral Claims vested in me in pursuance of the provisions of the "Mineral Act."

Dated at Prince Rupert, B. C., this 5th day of November, 1915.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

Sincerity -- Enthusiasm -- Advertising:
Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Production and Thrift

"TO win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."—SIR THOMAS WHITE, Minister of Finance.

PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.
