TACTICAL VICTORY FOR THE BRITISH FLEET

GREECE IN LEAGUE WITH BULGARIANS -- DESPERATE FIGHTING ON ALL FRONTS

TACTICAL GAIN FOR THE BRITISH IN NAVAL FIGHT

British Squadron Encounter Entire German Fleet—Germans are Forced to Retire—Heavy Losses to Both Sides.

(Special to The Daily News)

London, June 3.—The summary of the official statements issued by the British Admiralty regarding the naval battle in the North Sea is that a cruiser squadron, consisting of six or eight battle cruisers; a number of light cruisers and destroyers, supported by four fast super-dreadnoughts, probably of the "Queen Elizabeth" class, while carrying out a reconnaissance off the coast of Jutland, came in contact with the entire German high seas fleet on the afternoon of Wednesday, May 31.

The battle lasted throughout the day and night, and was carried on under foggy, misty weather conditions. The losses on both sides were severe and the result was a tactical British victory, the enemy being forced to retreat to the cover of their mine fields.

German Losses.

The German losses in super-dreadnoughts, were two of the Kaiser class of battleships and one Derfflinger class of heavy battle cruiser, sunk. Two more of the latter were either sunk or very seriously damaged as against three British battle cruisers sunk. The enemy suffered heavier actual loss and a greater loss of capital ships.

The British losses further include three armored cruisers of an obsolete type, on which the loss of life was heavy, and eight British destroyers also went under.

Against the British losses of inferior craft, the Germans lost one light cruiser; six destroyers, and one submarine, while two light cruisers were disabled.

The loss of life is estimated at from twelve to fifteen thousand this number perhaps being fairly evenly distributed.

Zeppelins Engaged.

It is reported that six Zeppelins were engaged in the naval battle off the coast of Jutland. One dirigible, L-24, was badly damaged but was able to reach the Schleswig coast. It had a narrow escape, several men being wounded while supplies had to be thrown overboard in order to lighten the vessel that she might rise in her crippled condition.

LUMBER ACTIVITY

There are two lumber mills busy at Port Clements and one at Massett, while the Sewall mill will start at an early date. Already about half a million feet of spruce has been shipped to Vancouver. The clear is transhipped to the old country, while the rough goes to the Fraser River for box making.

The best strawberries can be obtained at Fuller & McMeekin's.

KING'S BIRTHDAY

His Majesty King George V., today celebrates his fifty-first birthday and his second war birthday. It will be the earnest hope and prayer of every one of his subjects that his next birthday may be celebrated in a world's peace. It is peculiarly fitting that, in a world's war in which the British navy holds the key to the whole situation, the British Empire should have a "sailor King."

SHIPPING FACILITIES TO SURF INLET MINE

Mr. Cavenaile, of Cavenaile & Hannan, has appealed to the Board of Trade in regard to the shipping facilities to Surf Inlet. He finds difficulty in delivering goods at that point owing to the fact that steamers call there only once in two weeks while they call every week going north.

Mr. Barnsley pointed out that the Surf Inlet Company were the only people doing much business there and the boats called according to their instructions. He believed that when too many boats were calling on the way south it had a disturbing effect on labor conditions there.

Mr. Lynch thought it was not altogether a disadvantage to Prince Rupert if the men who felt they had enough money on hand to warrant a holiday, were more liable to make the trip north rather than south. The matter was referred to the trade and commerce committee.

"CANADA, THE SPELLBINDER" BY MISS LILLIAN WHITING

Miss Lillian Whiting, the famous writer who passed through Prince Rupert last fall on a tour through Canada, has written a book entitled "Canada, the Spellbinder," as a result of her visit. Miss Whiting, interviewed at her home in Boston in regard to her tour, said "There seemed to be no other possible name for my new book than 'Canada, the Spellbinder.'"

"You see," she went on, "this marvellous land was such a revelation. I thought in a vague way that you had a great deal of snow and some prairie lands. It wasn't so much that I did not realize how big you were, as that I didn't know anything about you at all. And then I came and found you filled with everything for which the future can or will desire to ask."

Miss Whiting is dedicating her new book to the late Charles M. Hays. Miss Whiting is the author of "Athens, the Violet-Crowned," "Paris, the Beautiful," "Boston Days" and many others.

SITUATION IN GREECE LOOKS VERY SERIOUS

Greece Played into the Hands of Bulgaria—Allies Must Think only of Their Own Interests.

(Special to The Daily News.)

London, June 3.—Thousands of Macedonian refugees are fleeing from the barbarities of the Teutons, and the heartrending treatment they received at the hands of the Greeks in Macedonia, during the recent Bulgarian drive.

Greece's attitude is important from a military standpoint, but is still more important politically. The mode and conditions under which the latest Bulgarian movement was carried out clearly demonstrate that Athens had an agreement with Sofia.

The Bulgarian move was made only forty-eight hours after one hundred and eighteen million dollars were conceded to Greece, apparently by the National Greek Bank, but really by a German-American group in New York.

The Allies can expect nothing more from Greece and should act immediately, guided only by their own interests.

WHALE FEASTS

Sixteen whales have been captured and treated at the Naden Harbor Whaling Station since the opening of the season. It is reported that the residents of Naden Harbor consider whale steaks a delicacy, that is, of the whale is young and tender.

CHINESE BUSINESS FIVE CENTURIES OLD

In China there is a manufacturing business that has been running over five centuries, and still has so much life that it is developing in new directions.

The business is the Imperial Porcelain Factory at Ching Teh Ching, which was established as far back as 1396, nineteen years before Agincourt. It is this factory which has always supplied the palaces of China with the famous blue and white porcelain.

The factory is now being re-organized and extended, and is in future to make not only the highest quality of porcelain for use as royal presents, but ordinary domestic articles for the home.—Exchange.

Lord Montagu, of Beaulieu, speaking at the Navy League's aircraft demonstration at the Queen's Hall, London. Lord Montagu has made such a vigorous campaign in this direction that he is sometimes called the "Apostle of the Air."

READING MATTER FOR THE NORTH SEA FLEET

An appeal has been made to the Board of Trade by a committee in London, England, for a subscription towards a fund for the providing of newspapers, magazines, etc., to the men of the grand fleet. In the past, newspaper proprietors have given free literature to this cause, but the large increase in the price of paper has caused them to relax their efforts, so that money is required to keep up a supply of reading material for the men who are watching so zealously in the North Sea. The letter was received and filed.

NATURALIZATION

Winnipeg Board of Trade has submitted to the local board a resolution suggesting that a movement be inaugurated to have the naturalization laws amended so that aliens who are subjects of countries which do not allow their people to renounce their nationality, even though they become naturalized Canadian subjects, be not allowed to become naturalized, so long as they are not allowed to renounce their original citizenship. The letter was received and filed.

LOCKPORT AND JEDWAY

There is considerable mining activity at Lockport and Jedway, on the Islands, H. E. Bodine, who was formerly at Hazelton, having very satisfactory prospects. There is a prospect of big mining development in this district.

DRYDOCK HAS NOT BEEN COMPLETED YET

At the meeting of the Board of Trade last night, L. M. de Gex moved that the board communicate with W. C. C. Mehan, of the G. T. P., in regard to the drydock, in view of the fact that the term of sixty days was now up. He thought that Mr. Mehan might have something of interest to say since Mr. Cotton had been here. This was seconded by D. Thomson.

M. J. Hobin said that a wrong interpretation had been placed upon the sixty days term, as Mr. Mehan had said that the dock would be finished then. He did not say that it would be running in sixty days. He stated that there were several contracts still to complete and that there was little hope of its being ready for government acceptance for sixty or ninety days yet. Mr. de Gex said that his motion was simply by way of a reminder and in order that a progress report might be made.

DR. L. W. KERGIN IS IN THE NEAR EAST

Dr. Kergin received a letter this morning from his brother, Dr. L. W. Kergin, who is somewhere in the Near East and bound for parts unknown. Lieut. Kergin has discovered that the world is small, as away up the Mediterranean he encountered three men of his medical year and also a doctor who was on the staff of Vancouver hospital with him.

ZEPPELIN RAIDERS WERE NEATLY FOOLED

On the night of the raid a large party of workmen forming the night shift of a powder mill were cycling to duty along a road which skirted the edge of a wood. Happening to glance upward, one of the men saw a Zeppelin directly above, drifting along silently with engines shut off, apparently shadowing the movements of the company. They dismounted immediately, extinguished their lamps, left their machines and entered the wood.

That was as good as a signal; the crew of the airship, convinced that the men had reached the powder works, began unloading their cargo at once. Bomb after bomb fell among the trees and in the grounds of a neighboring house—twenty-four in all; then, doubtless happy at having done some damage, although obviously the factory hadn't blown up, the Zeppelin sailed away. And the total damage was one chicken suffering from shell shock, now, I am pleased to say, convalescent. Not one of the men was hurt!—Exchange.

ITALIANS ARE HOLDING BACK THE AUSTRIANS

Terrific Struggle on the Italian Front—Turks Claim Successes—French Make Slight Gain.

(Special to The Daily News)

Rome, June 3.—Reports are to hand of further desperate fighting between the Austrians and Italians between the Adige and Brenta Rivers. Along the Rosina and southeast of Arsiero, the Austrian attacks have been repulsed, with heavy casualties to the enemy.

Turkish Report.

Constantinople says that the Russian centre in the Caucasus region has been forced to retire for a distance of twenty kilometres in face of strong Turkish attacks. It is also reported that the Turks repulsed a surprise Russian attack on the Turkish left wing.

Verdun Front.

Paris, June 3.—There is heavy fighting on the Verdun front. The French have made slight progress south of Caurettes Wood.

The struggle between Thiaumont farm and Fort Vaux and east of the Meuse is extremely violent.

SPLENDID PROGRAM AT WESTHOLME THEATRE

"The Lost Paradise," the five-act Paramount photoplay at the Westholme in which the famous star, H. B. Warner, makes his first appearance on the screen, is conceded to be the greatest drama of capital and labor ever written. It is a powerful pictorial argument on behalf of those who really build up the wealth of nations, in which Mr. Warner's striking personality stands out vividly.

"Retribution" is a remarkably good two-act drama of political life, in which the villain, in the shape of a state governor, gets his just reward. A bright Lubin comedy completes a good eight-reel show. The musical numbers are now a special feature of the Westholme show, Mr. Harvey's violin solos being beautifully accompanied by Mrs. Bay on the piano.

FOR THE PRISONERS

The sale of home cooking held in the Red Cross rooms yesterday in aid of the Prisoners of War was a decided success, the sum of \$37.55 being realized. The painting of Nurse Cavell was won by Oscar Peterson and the album went to Dave Milne. The committee wish to thank all who assisted in the sale.

BOWSER AND ROBLIN

The resemblance between political happenings in British Columbia and in Manitoba becomes more marked every day. In the prairie province, where the ex-premier and several of his friends are awaiting trial on criminal charges, things reached such a pitch of debauchery that at last things began to leak through, in spite of all the efforts of a slavish, subsidised press. When the matter of the Parliament buildings scandal was broached, the Roblin bunch offered the most plausible story imaginable and it was not until matters reached a climax, and a commission of judges was appointed, that the followers of Bob Rogers crawled into their holes.

Taking thought, in their own low criminal fashion, they devised the plan of trying to throw some of their own mud over the Liberal party by claiming in the most brazen manner possible that the Liberal leader, Mr. Norris, now the respected premier of the province and the leader of a really progressive government, had been a party to the diabolical Tory Schemes. What happened? When the commission was through with its searching investigation, an investigation in which it was hard to get all the evidence because of the destruction of much of the correspondence, it was found that, not only were the Liberals perfectly clean, in spite of the assertions of one of the most prominent lawyers in Winnipeg, but that Roblin and Company must stand trial.

The Tories of British Columbia stand convicted, on the evidence of their own witnesses, of having squandered the public funds amongst their party friends in the most profigate manner. They stand convicted of setting aside the

laws of the province in order that their friends might make or save money. The McKenzie & Mann registration fees case is just one little instance of their methods, while the handing out of \$75,000 to Joe Matson was another. In the face of their record of misgovernment and worse, in every corner of the province, a record which A. C. Flumerfelt, in the Victoria by-election, took particular pains to stand from under, the only plan which appealed to the Tory mind was the Roblin scheme of trying to throw some of the Tory mud over their opponents.

In the choice of a target, they displayed their usual diabolical cunning. They did not attempt to attack H. C. Brewster. They knew that the reputation of H. C. Brewster was made throughout the province years ago and that they could not assail his good name. The only alternative was to attack, by the lowest possible means, the political character of M. A. Macdonald, a young man, who, though held in the very highest esteem by all who know him, was, comparatively speaking, an unknown man to the general public throughout the province.

In spite of the dastardly attack upon the brilliant young member for Vancouver, in the form of veiled insinuation in the Matsonised press, it is very significant that, not one member of the Tory majority on the committee, in bringing down the report in the Legislature, dared to make a single charge against the character of this sterling man, nor did the attorney-general dare indulge in anything like a direct charge, preferring to take refuge behind the impending court proceedings.

NOTES AND COMMENTS

The details of yesterday's naval battle were meagre but the mere fact that the German navy had at last shown some real fight was good enough news for anyone of British blood.

The Tories are much more interested in a blackened Liberal party than in a clean British Columbia. The recent enquiries simply served to show more clearly the type of men who have been ruling in this province.

The Tories tell us that the plugging operations were to be extended to Prince Rupert. Well, we must take their word for it, as they seem to be the only people who know anything about it.

Fortunately, T. D. Pattullo is known throughout the north as a man of the highest honor, so that the Tory insinuations in regard to Prince Rupert simply fall back upon the Tories.

The first McBride government owed its existence to ballot box trickery and it is simply in keeping with the reputation of the party that it should try to retain power by the same means.

August 9th, 1915.

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from *Liver and Kidney Trouble*. Having read of 'Fruit-a-tives', I thought I would try them. The result was surprising. During the 3 1/2 years past, I have taken them regularly and would not change for anything. *I have not had an hour's sickness* since I commenced using 'Fruit-a-tives', and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain".

CROW'S NEST MINERS OPPOSE JAP LABOR

Fernie, May 30.—A special mass meeting of miners was held last night, when a report of the district executive board was in session here last week was received. The decision of the board relative to the two matters of momentous import to the organization caused this special meeting, which endorsed the report. The contentious matters are the recent demand for a 10 per cent. increase as war bonus for all coal employes and the introduction of Japanese labor in some mines in this district.

The executive reported all local unions endorsed the demand, and that negotiations along this line would be immediately commenced with the operators' association. The actual details of the proposals to be submitted to the operators would be given out by officials until negotiations have progressed, but they express confidence in a speedy removal of this contentious matter by a mutually satisfactory arrangement.

Regarding the importation of Orientals to work in the coal mines, they announced that this would be strenuously opposed and representations have been made to the Dominion government with a view to discouraging this movement, and expressing the desire to assist in obtaining white labor, as they maintain there is an adequate quantity of this class available for the operation of all the mines.

"A Dollar Saved is a Dollar Earned"

A DOLLAR to your credit in the bank, is yours. You don't have to work for it all over again—as you do for the dollars that have been spent.

How many dollars have you that you can call your own? Why not start an account in our Savings Department and save a part of the money you earn? A few dollars saved each week, amount to hundreds in the course of a few years.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

The Tale The Wagons Tell

My office window faces a street, close to the railway freight sheds.

All day long a steady stream of trucks and lorries lumber by—loaded with boxes, barrels and bales.

One truck I noticed the other afternoon was particularly interesting. No two boxes were the same, and stencilled on the end of each was the name of some well-known product—soap, tobacco, socks, breakfast food, cocoa, port, tea, chocolates, perfumery and baking powder.

Gathered there in prosaic wooden boxes were the results of thousands of hand's labor in all parts of the world.

The cocoa had been grown in Brazil, shipped to Bristol, transhipped to Montreal and finally distributed from Toronto.

The tea was gathered by swart-skinned natives of the romantic island of Ceylon; from sunny Portugal the luscious, big grapes had been gathered years ago, fermented, bottled and branded with a famous name; from Egypt had come the cotton and from South America the dyes that entered into the product finally stamped with the brand of a well-known hosiery.

There, behind that obviously prosaic truck-load of freight was the whole romance of modern commerce—the skilled production, the universal demand for food, drink and raiment, and the world-wide distribution of the things we use every day.

And then I speculated why we use these things every day, instead of some other things; and that brought me plump back to my own job of advertising.

The names of some of the boxes on the lorry were known everywhere to-day, but had been unknown a few years ago; and I saw then more clearly than ever before that Advertising is really a great channel digger. It is like the Panama Canal. You can sail from Montreal to Vancouver now, around the Horn. You can get there, but it is going to take months. A year or so from now you will sail through the Panama Canal and chop the journey to less than half. A new channel will have been dug.

The great names in commerce to-day are those of the manufacturers who have let modern advertising steam-shovel a channel across the isthmus of distributing difficulties.

The great names in the commerce of to-morrow will be those of men who widen and dredge this channel so that the greater traffic may pass smoothly and quickly from the source of production to the homes of the consumer.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Production and Thrift

"To win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."—SIR THOMAS WHITE, Minister of Finance.

**PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.**

LET US PRODUCE AND SAVE—
The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE MATERIALS—
Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

LET US NOT WASTE OUR LABOUR—
In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

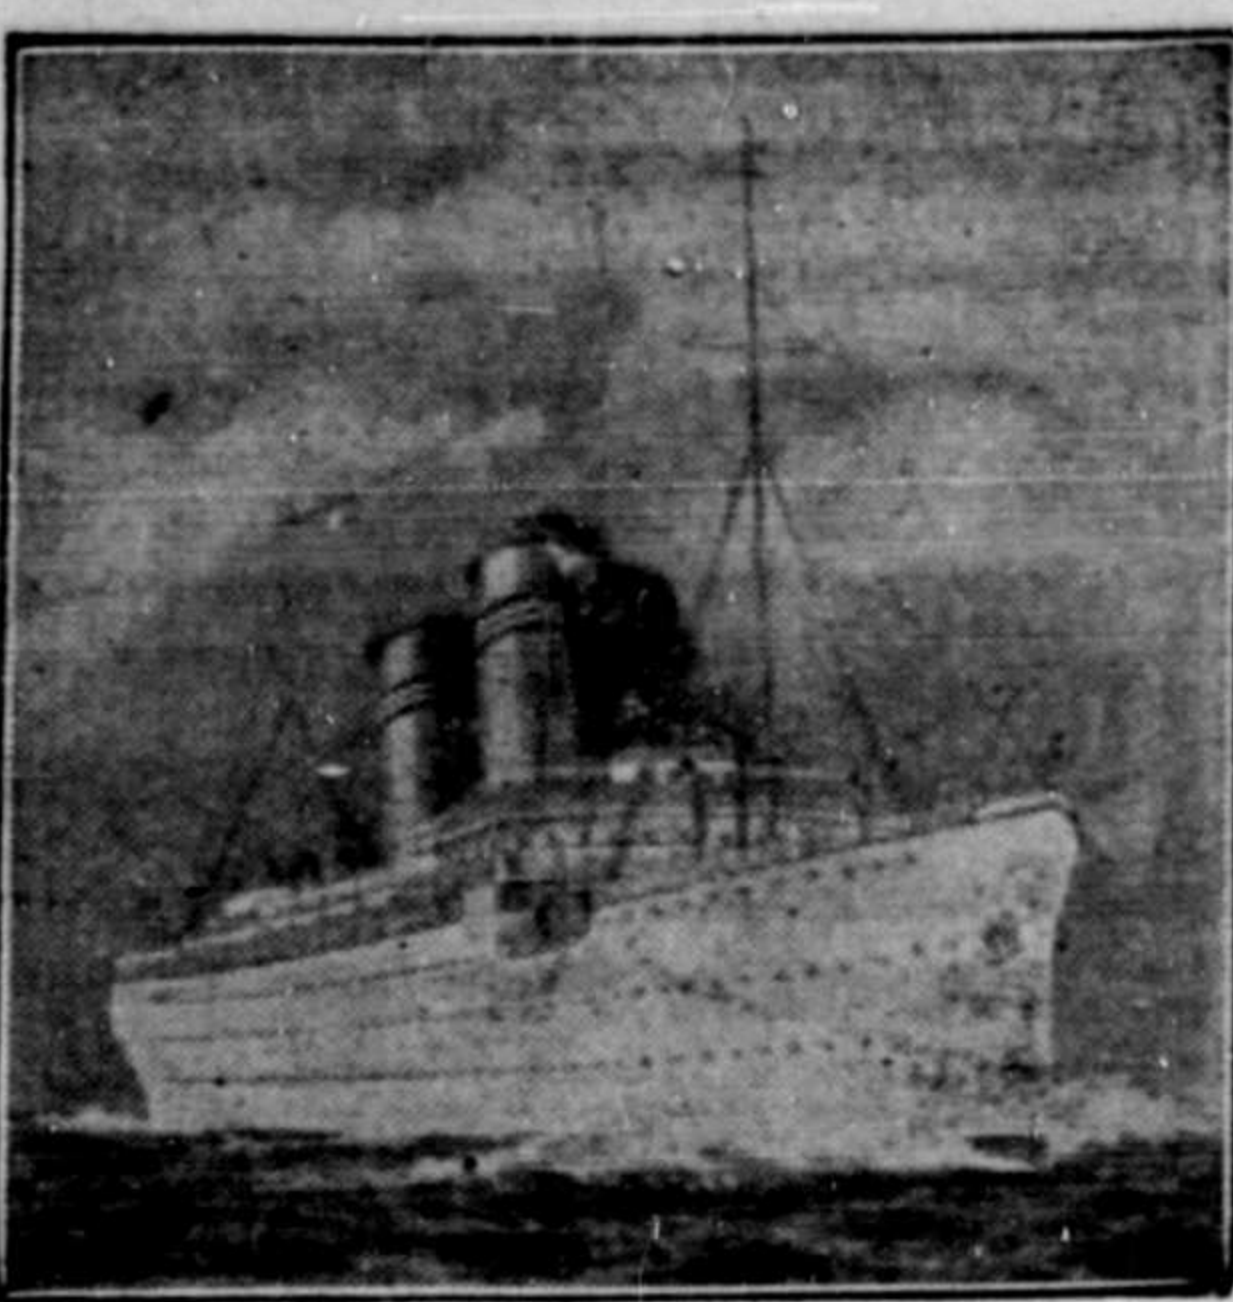

LET US SPEND OUR MONEY WISELY—
Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.

PARKER WILLIAMS INTRODUCED THE resolution FOR THE abolition OF the cannery BOAT rating AND moved THAT Ottawa BE petitioned TO abolish THE PACIFIC committee OF THE Fisheries Board. THIS is the first move TOWARDS independence FOR THE fishermen, BUT William Manson MOVED an amendment FOR the appointment OF a royal commission. THE USUAL method OF SIDE tracking A THORNY question

IS to appoint A commission. THE commission CAN BE depended upon TO DELAY matters FOR a year or two, WHILE it spends MANY thousands OF PUBLIC money. THE SUREST way TO GET NOTHING done AT BIG expense IS THE commission way. THE HOUSE HAS prorogued AND IT seems certain THAT the canneries ARE to enjoy THEIR monopoly FOR ANOTHER year. LET US make sure IT IS the last.

THE WESTERN UNIVERSITIES BATTALION NEEDS FIFTY MORE MEN TO COMPLETE THE ESTABLISHMENT.

THOUGHTFUL MEN OF EDUCATION

Leaders in the community should help the cause, by impressing upon the public the need for men, and the common duty. There is only one convincing way to do this,—BY ENLISTING YOURSELF.
A DOUBLE SERVICE!
You not only give your own service to the nation, but incite others by your example.
You have the future, your dependents have nothing to live for, if Germany wins. Dare you take any chance in such a matter?
The greater the number of men available for service, the shorter the war, and the fewer the losses. You owe it to yourself, your country, and the boys at the front, to act at once.
Men of the University type have already done much—thousands have gone—but their identity has been lost in the various units they have joined. The University Battalion was designed to preserve their identity—to help by force of example as well as by service in the field.
You have an opportunity of rendering the double service, under most agreeable conditions in the Western Universities Battalion. DON'T wait for your neighbor to point the way or to force you to do your bit.

Back up and get a fresh start!

For men who get away to a false start on a pipe or home-made cigarettes Prince Albert has a word or two for what ails their smokeappetites! Forget you ever tried to smoke, for Prince Albert is so different, has such a fine flavor, and is so cool and cheerful and friendly, you'll get a new idea of smoke joy! The patented process cuts out bite and parch! Prince Albert has always been sold without coupons or premiums. We prefer to give quality!
This little talk is also for men who think they're on the right track. All to be said is that the sooner you lay out the price for a supply of Prince Albert, the sooner you'll make a discovery that'll be worth a lot to your peace of mind and tongue! If your dealer cannot supply it, ask him to secure Prince Albert through his wholesaler. Get the idea of smoking all you want without a comeback—that's P. A.!

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made three men smoke pipes where one smoked before!
