## RUSSIANS TAKE FOURTEEN THOUSAND MORE

### FRENCH CAPTURE GERMAN TRENCHES -- THE ITALIANS SLAUGHTER AUSTRIANS

#### RUSSIANS ARE ROLLING ALONG IRRESISTIBLY

Fourteen Thousand More Prisoners Taken—Victories at Every Point—New Japanese Explosive.

(Special to The Daily News.)

London, June 17.—The Austrians are unable to resist the Russian advances in the Buczacz district. The Austrian commanders entrusted the arrangements in connection with the surrender of Czernowitz to the Russians to a committee made up of representatives of the various nationalities in the city.

Victories Everywhere.

Petrograd, June 17.—The Russians are advancing very rapidly against the Austrian forces on the southern part of the eastern front, and have captured fourteen thousand more prisoners besides large quantities of artillery. Victories are reported in all the theatres of war.

Japanese Guns.

The magnificent Russian success is attributed to the use by the Czar's armies of a greatly improved type of Japanese gun which fires shells containing a new explosive of terrific destructive power.

In Mesopotamia.

London, June 17.—The British relief column in Mesopotamia is advancing steadily and has captured two hundred cars of grain and a quantity of cattle.

TORIES NOMINATE ATLIN CANDIDATE

At the Atlin Conservative Convention yesterday afternoon, W. X. Macdonald was nominated as the Conservative candidate to oppose Frank H. Mobley, the Liberal nominee for that district. The Conservative convention was presided over by J. E. Merryfield, secretary of Prince Rupert Conservative Association.

QUIET WEDDING

At the Methodist parsonage last evening the Rev. J. F. Dimmick united in matrimony Miss Nellie McLean and Mr. George Scott, both well known and highly esteemed residents of this city. The young couple were supported by Mr. and Mrs. Robert Dowther, at whose home there was a reception after the ceremony, and many friends gathered to wish Mr. and Mrs. Scott a long and happy married life. Later in the evening dancing was indulged in and kept up until early morning.

COLTS WON

The Colts defeated the C. C.'s at Recreation Park last evening by 14 to 2. Karl Louis, the Colts' new pitcher, proved too strong for the Club boys. Art Manson caught for the winners and, as usual, played a good game. Astori was behind the bat for the C. C.'s who tried a variety of pitchers, all of whom seemed to come easy to the Colts who were in a frisky mood.

#### ORIENTAL QUESTION DISCUSSED BY CHURCH

(Special to The Daily News.)

Winnipeg, June 17.—The opponents of Church union claim that the movement entirely disregards Presbyterian convictions. Rev. Mr. Stewart, of Edmonton, declares that consciences are to be coerced under threat and members are to be despoiled of their civil rights.

The Presbytery of Victoria in the Synod of British Columbia, raised the question of Oriental immigration and also that of Hindu moral degradation on account of the inability of the Hindus to have their families admitted into Canada.

John A. Patterson refused the appointment to the chairmanship of the finance board of the Presbyterian Assembly.

#### RE-ELECTED PRESIDENT OF BAR ASSOCIATION

(Special to The Daily News.)

Toronto, June 17.—Sir J. A. M. Aikens, K. C., of Winnipeg, who sacrificed himself in an effort to save something from the wreck of the Roblin government in Manitoba, has been re-elected President of the Canadian Bar Association.

#### ST. ANDREW'S SOCIETY'S GOODBYE TO D. McLEAN

In the St. Andrew's rooms last evening, the members of the St. Andrew's Society met to take farewell of Dan McLean, one of the original members of the society. There was a large gathering of the boys, and, after musical numbers had been rendered, President S. D. Macdonald, in the name of the society, presented Mr. McLean with a case of pipes as a token of esteem. Mr. Macdonald expressed the deep regret of the members in the loss of such a valuable member and office-bearer and wished the departing brother every success and an early return to the city in which he had spent seven years of good service to the community.

Messrs. George McColl and T. McMeekin, both prominent members of the society who had been associated with Mr. McLean in office since its inception, paid high tribute to the sterling qualities of the guest of the evening and wished him godspeed and a speedy return.

Mr. McLean, in thanking the society for its handsome gift, said that never had he regretted leaving a town as he did departing from Prince Rupert. He wished the society continued prosperity and expressed the hope that he would return, after a visit to the old country, to find the St. Andrew's boys as heartily united as of old.

The gathering broke up with the singing of "He's a Jolly Good Fellow," "Auld Lang Syne," and "God Save the King," followed by three hearty cheers and a tiger for Mr. McLean.

Tens of Thousands of Australian Troops March Through London en Route to the Front.—All London turned out to greet the tens of thousands of Australians fully equipped and prepared for transit to the firing line as they marched through the streets of the British capital.

#### M. A. MACDONALD HAS BEEN RE-NOMINATED

(Special to The Daily News.)

Vancouver, June 17.—At a Liberal convention held here last evening, M. A. Macdonald, who administered such a trouncing to C. E. Tisdall at the by-election in Vancouver, was re-nominated as one of the Liberal candidates at the forthcoming general election in the province.

The Tory attempt to blacken the character of this brilliant young man has only served to make his position still stronger, and there is no doubt that he will head the polls in Vancouver at the general election.

#### EDMONTON HAS A WOMAN MAGISTRATE

On July 1st, Mrs. Arthur Murphy, of Edmonton, takes her seat on the bench as the specially selected official to adjudicate upon the cases of women and girls arising in that community. Mrs. Murphy is the first woman police magistrate to be appointed in the Dominion.

Mrs. Murphy is known all over Canada as "Janey Canuck," the author of many interesting books of the west. For a number of years she has been convener of the committee on legislation of the Local Council of Women. Mrs. Murphy is prominent in literary and social life in Edmonton and is president of the Canadian Women's Press Club, while she has taken an active part in every movement for the bettering of conditions in her city and province. In 1914 she was decorated by King George as a Lady of Grace of the Order of St. John of Jerusalem.

#### THE CRADLE

Born to Mr. and Mrs. John Anderson, Stewart, B. C., a son, at the general hospital yesterday.

#### ITALIANS REPELLED AUSTRIAN ATTACKS

(Special to The Daily News.)

Rome, June 17.—Eighteen thousand Austro-Hungarian troops who attacked the Italians on the Asiago plateau were mowed down before the Italian trenches.

Eighteen Austrian battalions also attacked the Italian lines from Monte Pari to Monte Lemerle. A heavy curtain of fire from the Italian batteries prevented the Austrians from recording a victory and the ground over which the attacking forces advanced was strewn with enemy corpses.

The Italians captured a large number of prisoners and several machine guns.

#### MUSKEG SCOUTS HOLD REUNION AT THE FRONT

The Daily News has received the following belated invitation to a grand reunion of "The Muskeg Scouts," which was held on June 1st at Poperinghe. There will probably be a report of the proceedings by a later mail.

#### REGISTRATION ENDORSED BY BAPTIST CONVENTION

Calgary, June 17.—The Alberta Baptist Convention which is meeting here has passed a resolution endorsing the principle of registration of all men of military age in Canada.

#### PRESBYTERIAN SERVICES

Rev. W. E. Collison will conduct the services in the Presbyterian Church tomorrow morning and the Rev. Mr. Miller, who has been attending the General Assembly in Winnipeg, will preach in the evening.

The halibut arrivals yesterday were light and prices ruled a shade higher. The Cold Storage bought the fares of the Stranger, 7,000; Kong Sverre, 12,000; Lincoln, 12,000, and Dolphin, 12,000.

#### FRENCH TAKE GERMAN FRONT TRENCH LINES

German Attacks on Verdun Front Again Fail—Canadians are Decorated for Bravery.

(Special to The Daily News.)

Paris, June 17.—The French, following the terrific attacks of the Germans yesterday, captured the German front trench lines south of Deadman's Hill. All attempts by the enemy to retake the positions have utterly failed.

Germans Again Fail.

Powerful German attacks north of Souville on the Verdun front completely broke down under a terrific fire from the French machine gun batteries and deadly "75's." Every assault attempted by the Germans ended in failure.

The Allies, who have been carrying out extensive sapping operations on the western front, yesterday exploded several mines in France and Belgium, inflicting very heavy damages upon the enemy's defences.

Canadians Decorated.

Ottawa, June 17.—The Montreal and Toronto Highlanders and the Western Ontario battalions who recovered the lost positions at Hooge have been awarded decorations for their bravery. The casualties amongst Canadian officers during the last two weeks' fighting amounted to 395.

#### CHAIRMAN OF RAILROAD COMMISSION COMING

Mr. Drayton, chairman of the Railroad Commission of Canada, is expected to arrive here this evening from the east. Mr. Drayton is on a tour of inspection and is accompanied by W. P. Hinton, the G. T. P. traffic manager. Mr. Mehan has gone east to meet the party. Mr. Drayton will proceed to Vancouver where the commission will hold a sitting.

#### FISHERIES MEETING

There was a meeting of men interested in the fishing business with Premier Bowser and D. N. McIntyre, one of the coast representatives on the Fisheries Advisory Board, in the Court House this afternoon, to discuss recent developments in the fishing situation here. The object of the meeting was to impress upon the premier of the province and Mr. McIntyre the necessity of getting Ottawa to take action in the matter at once.

KITCHENER'S WORK

It is usual to enlarge upon a man's good qualities after he is gone and Kitchener, of course, has been receiving his share of applause, even from his critics, since he departed this life. In this connection it is refreshing to find a lengthy article by the famous journalist, J. B. Firth, in the London Daily Telegraph of May 23rd, some days before the great leader passed away, in which the writer describes the up-building of the British army from a force of 444,431, including reserves, with 251,706 territorials, making a total of 696,137 at the outbreak of the war, to its present strength of several millions.

Mr. Firth says:  
"Lord Kitchener is to be congratulated most heartily upon a wonderful achievement. These armies are of his raising. He must have passed through some very anxious months during the several phases of the recruiting problem. But he has always presented to the public a calm and imperturbable front. When others were frantically crying for immediate compulsion, he kept the even tenor of his way. He never varied his note that the country would need all the men she could get, and that the patriotism of the people would rise to any demand that might be made upon it. From the outset Lord Kitchener showed a sound presence of the magnitude and duration of the struggle, and the best monument of his tenure of the Secretaryship of State for War is the size and quality of the British Army of today."

Military critics have always held that it would be impossible to improvise a large army after hostilities had broken out, but, in this, as in many other matters, Kitchener has achieved the impossible. When it was seen that voluntarism could not cope with the demand,

there was a big noise about conscription and reams were written and long speeches were delivered pro and con. Kitchener said nothing further than to intimate how many men he needed. He alone realized the task on hand. His great personality stood out above the whole controversy and he got the men.

The following is an extract from a speech by Mr. Bonar Law in March, 1915:

"We are creating, to meet the needs of this war, armies which, even from the point of view of numbers, can compare with Continental armies now in the field. That is a great conception. I wish to say, speaking for myself, that I think that the conception is due largely to one man, and that if it had been left to statesmen on either bench the probability is that we would indeed have attempted to keep up our Expeditionary Force, and that we should have tried to add to our Territorials, but I hardly think that this great idea of utilising to the utmost the full resources of the country would have been carried out."

Remember that Wednesday is Alexandra Day and that roses made by cripple girls in England will be sold on the streets in aid of our hospital. Every rose you buy will help the hospital and also the little cripples in England.

NO ALUM

ALEXANDRA ROSE DAY, 1916

With the permission of the mayor, the Daughters of the Empire will observe Alexandra Day in Prince Rupert this year. On this day, roses, which are made by cripples, will be sold in London, and over 300 cities and towns in the old country, as also in the colonies. This year for the first time, British Columbia takes part. Toronto made its first effort last year when \$22,500 was collected for distribution among homes and hospitals.

Already 25,000,000 pink roses have been ordered from Groom's Crippleage in London, and the kindred institution in Nottingham, England, and advanced deliveries have been dispatched to Hong Kong, South Africa, the West Indies and Canada.

The first observance of Alexandra Day was in 1912, when £12,000 was realized for charities. Last year the sum of £100,000 was raised. This year when the need of hospitals and charities, which Alexandra Day so materially benefits are greater than ever, it is gratifying to learn that wider interest is being taken in the movement.

The roses which will be offered for sale next Wednesday, June 21st, were all bought from the cripples, thus helping them. In selling them in Prince Rupert our local hospital will reap the benefit.

SPLENDID DRAMA AT WESTHOLME THEATRE

"The Love Route," the five-act Famous Players' drama at the Westholme tonight, is one of the finest western plays seen here for a long time. It is full of incident; rich in dramatic situations and is splendidly staged and acted.

"Sweetie's Hero," an Essanay comedy of real merit, kept the audience in a constant ripple of amusement last night while it also presented some exciting moments. The Selig Tribune Weekly is bright and up-to-date. Tonight there will be only one show.

LAND REGISTRY ACT—

Notice Under Section 36.

TAKE NOTICE that an application has been made to register Olaf Hanson, of Prince Rupert, B. C., as the owner in Fee-simple, under a Tax Sale Deed from the Collector of the City of Prince Rupert to Olaf Hanson, bearing date the 10th day of September, A. D. 1915, in pursuance of a Tax Sale held by said Municipality on or about the 9th day of September, 1914, of all and singular certain parcel or tract of land and premises situate, lying, and being in the City of Prince Rupert in the Province of British Columbia, more particularly known and described as—Lot ten (10), Block eighteen (18), Section six (6), Map 923.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said Olaf Hanson as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice.  
"And in default of a caveat or certificate of its pendency being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the "Municipal Clauses Act, 1906", or section 293 of the "Municipal Act, 1903", or section 253 of the "Taxation Act", in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

# SEVEN YEARS TORTURE

Nothing He'ped Him Until He Took "FRUIT-A-TIVES"

ALBERT VARNER

Buckingham, Que., May 3rd, 1915. For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating, while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston but without benefit. I tried many remedies but nothing did me good. Finally, a friend advised "Fruit-a-tives". I took this grand fruit medicine and it made me well. I am grateful to "Fruit-a-tives", and to everyone who has miserable health with Constipation and Indigestion and Bad Stomach, I say take "Fruit-a-tives", and you will get well".

## SCOTTISH OFFICER IN COMMAND AT SALONIKI

Scottish officers have distinguished themselves in this war, as they have done in every great struggle in which Britain has played a part. The officer now commanding the British troops at Saloniki is Lieut.-General George Francis Milne, who is a son of the late Mr. G. Milne, Westwood, Aberdeenshire, Scotland. He entered the Royal Artillery in 1885; became captain in 1895; major in 1900, when he took part in the South African war; brevet lieutenant-colonel in 1902; brevet colonel in 1905; colonel in 1909, and major-general in 1915.

He served with the Nile Expedition in 1898, and in South Africa 1899-1902, winning the D.S.O. in the latter campaign. During the present war he has been twice mentioned in despatches. He was created a C. B. in 1912.

## INTERESTING FACTS ABOUT HEAVY GUNS

The making of a big gun is a long and complicated process and the operations involved are numerous. The older guns were made of cast iron, and guns of that material reached their highest development in the civil war. Now the best possible steel is required to resist the action of the explosive gases and muzzle velocities of 2,500 feet a second. The freshly cast ingot for a large-sized gun weighs about eighty tons. This is pierced to form a rough tube and then put through a forging press until it is of the right length, in some cases over seventy feet. Then follow the machining operations, and then what is, perhaps, the most delicate part of the process—hardening and tempering, in which the roughly machined tube is heated to a uniform and carefully regulated temperature in a tall chimney-like vertical furnace, from which it is lifted at the proper moment to be plunged into an oil bath contained in a deep cylindrical well. The process of rifling and the finishing of the outside, after an application of the wire-winding, are also interesting. It is not generally known that the life of a large gun based on the actual time of firing is only about three seconds.—Exchange

# 2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

## Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

# The Tale The Wagons Tell

My office window faces a street, close to the railway freight sheds.

All day long a steady stream of trucks and lorries lumber by—loaded with boxes, barrels and bales.

One truck I noticed the other afternoon was particularly interesting. No two boxes were the same, and stencilled on the end of each was the name of some well-known product—soap, tobacco, socks, breakfast food, cocoa, port, tea, chocolates, perfumery and baking powder.

Gathered there in prosaic wooden boxes were the results of thousands of hand's labor in all parts of the world.

There, behind that obviously prosaic truck-load of freight was the whole romance of modern commerce—the skilled production, the universal demand for food, drink and raiment, and the world-wide distribution of the things we use every day.

And then I speculated why we use these things every day, instead of some other things; and that brought me plump back to my own job of advertising.

The names of some of the boxes on the lorry were known everywhere to-day, but had been unknown a few years ago; and I saw then more clearly than ever before that Advertising is really a great channel digger. It is like the Panama Canal. You can sail from Montreal to Vancouver now, around the Horn. You can get there, but it is going to take months. A year or so from now you will sail through the Panama Canal and chop the journey to less than half. A new channel will have been dug.

The great names in commerce to-day are those of the manufacturers who have let modern advertising steam-shovel a channel across the isthmus of distributing difficulties.

The great names in the commerce of to-morrow will be those of men who widen and dredge this channel so that the greater traffic may pass smoothly and quickly from the source of production to the homes of the consumer.

The cocoa had been grown in Brazil, shipped to Bristol, transhipped to Montreal and finally distributed from Toronto.

The tea was gathered by swart-skinned natives of the romantic island of Ceylon; from sunny Portugal the luscious, big grapes had been gathered years ago, fermented, bottled and branded with a famous name; from Egypt had come the cotton and from South America the dyes that entered into the product finally stamped with the brand of a well-known hosiery.

# Production and Thrift

"To win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."—SIR THOMAS WHITE, Minister of Finance.

**PRODUCE MORE, SAVE MORE.  
MAKE LABOUR EFFICIENT.  
SAVE MATERIALS FROM WASTE.  
SPEND MONEY WISELY.**

### LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

### LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

### LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

### LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.

**FRENCH "75's" ARE WONDERFUL MACHINES**

(Continued From Page One.)

gunners, however, the recoil is absorbed by a buffer to which the gun is attached, instead of the customary axletree. Furthermore, the buffer not only absorbs the shock, but runs back the gun so exactly into its former position that no second laying in order to find the range is necessary.

Further improvements were carried out in regard to the fuses of the shells, which in ordinary circumstances could only be fired as rapidly as the gunners could adjust the fuses. The French got over this difficulty by inventing a machine to set the fuse, the details of which are still a secret. The matter cannot be discovered even when a "75" does fall into the enemy's hands, since the opening of the buffer which controls the recoil of the gun causes the escape of compressed air. The secret really lies in the exact combination of this compressed air and glycerine, which controls the fuse-setting device.

With the speed of fire of thirty shells to the minute, the "75" resembles a machine gun rather than a field piece in action. So exquisite is the adjustment of the recoil that a coin, or even a glass of water, can be placed on the wheel while in action without being jarred off. Another great advantage of the "75" is that it stands far more wear and tear than the average big gun, whose life is very short. After firing as many as 30,000 shells the "75" is still capable of sending a few more, while its capacity for work may be gathered from the fact that there have been "75's" in this war that have fired 1,600 rounds in a single day.—Ex.
