## FIRST ENCOUNTER IN MEXICAN STRUGGLE

### DESPERATE GERMAN EFFORT TO STOP RUSSIANS -- BATTLE RAGING ALONG BUG

#### UNITED STATES CAVALRY CLASH WITH MEXICANS

**General Felix Gomez Killed—Forty Americans Killed—German Agents Stirred up Trouble.**

(Special to The Daily News.)

El Paso, Texas, June 22.—The first encounter between the Carranza troops and the United States soldiers since the Mexican declaration of war, occurred yesterday when a detachment of United States cavalry clashed with the Carranza forces at Carrizal.

Forty Americans were killed by machine gun fire in a surprise attack and seventeen were taken prisoners. The Mexican casualties were not so heavy but General Felix Gomez was amongst the killed.

#### German Work.

President Wilson is awaiting Carranza's next move. It is believed that German agents, who wish to curtail the aid being given by the United States to the Allies, have stirred up the trouble, while the Mexicans blame the Americans.

General Gomez sent a captain with an order to the American commander asking him to retire. The American commander replied that he was going on to Villa Ahuamada. The Americans fired on the Mexican captain, wounding him, and then attacked General Gomez, but were repulsed.

#### Mexican Munitions.

Laredo, Texas, June 22.—Seven million rounds of ammunition have been taken in charge by the Carranza authorities throughout Mexico while the government factory is working twenty-four hours daily with an output of thirty thousand rounds of cartridges per day.

#### AID TO PRISONERS

The sale of home cooking in aid of the prisoners of war will be held in the Red Cross rooms on Sixth Street on Friday. This week's sale will be managed by Mrs. R. H. Shockley and Mrs. E. H. Shockley. Lots of home cooking can be disposed of and all the ladies are invited to contribute.

Screens and screen doors put up and repaired, phone Fritz 219.

#### PROPOSED AMERICAN FISHING LEGISLATION

The following bill (H. R. 15,839) has recently been introduced in the U. S. House of Representatives, and if passed by Congress will prevent the shipment of fresh or frozen halibut or salmon from the north Pacific ocean or its tributary waters into the United States through any foreign country except when the same shall be in bond from an American port:

"A BILL to regulate the importation into the United States of halibut or salmon taken in the north Pacific ocean or its tributary waters shall be admitted into the United States through any foreign country except when the same shall be in bond from an American port."

The above bill has received the approval of the secretaries of commerce, state and treasury, and the U. S. commissioner of fisheries, and it is largely due to the efforts of H. C. Strong, of Ketchikan, Alaska, who has been in Washington working on this matter for some months, that matters have progressed so far with it.

Of its effect on the fishermen, Dr. Smith, U. S. commissioner of fisheries, in a report accompanying the bill, has the following in part to say:

"Its effect on the fishermen will simply be that the fish they now land at Canadian ports will be landed chiefly at Ketchikan, where they will have the ninety-mile trip to the Canadian port. It will necessitate the inauguration by the Grand Trunk Pacific railway of a ferry service suitable for the transportation of fish from Ketchikan, where the shipments would be accepted in bond for our eastern markets.

"The Grand Trunk Pacific railway will, if the measure here suggested is adopted, undoubtedly grant such facilities, as it needs the business of Southeast Alaska. Prince Rupert is bound to benefit by the shipment of halibut, even though originally landed at Ketchikan, but over and above this fact stands forth plainly that the Grand Trunk Pacific railway undoubtedly needs this business, as halibut is the road's most profitable factor in the eastbound freight.

"Under present regulations American fishing vessels are barred from discharging fish at Canadian ports for consumption in Canada, but Canadian vessels have the privilege of selling their catch in the United States in addition to selling in Canada. In other words, Canada discriminates against American vessels, but the United States does not place similar restrictions upon the sale of fish caught by Canadian vessels. This means that Americans are forced to add vessels of Can-

#### ENEMY HELD BY FRENCH FORCE ON RIVER MEUSE

**Attacks Repulsed on both Banks of River—Norwegian Steamer Torpedoed—Explosion at Parry Sound.**

(Special to The Daily News.)

Paris, June 22.—The Germans last night made attacks along both sides of the River Meuse, but were repulsed by the fire of the French batteries of artillery and the 75s.

#### Norwegian Steamer Sunk.

The Norwegian steamer Aquilla has been torpedoed by an Austrian submarine off the French port of Marseilles, in the Mediterranean.

#### Horses Diverted.

Chicago, June 22.—Two thousand horses, originally intended for the French and British armies have been given over to the Illinois National Guards, since the outbreak of further trouble in Mexico.

#### Another Explosion.

Parry Sound, June 22.—An explosion has occurred at the plant of the Canada Explosive Company here. Five persons were killed and thirteen were seriously injured. The cause of the explosion is unknown but a thorough investigation is being made.

#### In East Africa.

London, June 22.—The British Expeditionary Force in German East Africa continues to advance successfully and has taken Hendeni, in the northeastern section. Another column, advancing from the south has captured Alt Langenburg.

#### FISHING SITUATION PARTIALLY SOLVED

J. H. McLeod has received notice from his chief, John MacDougald, Commissioner of Customs at Ottawa, that halibut brought into this port in American bottoms may be shipped in Canadian bottoms to Vancouver and there transhipped to American points by rail.

The stoppage of the shipment of chicken halibut to American points by steamer worked a hardship upon some of the American firms doing business in Prince Rupert, as they were unable to dispose of their culls. The new instructions will not satisfy the American dealers, as what they want is the restoration of the old plan of shipping direct from this point to Seattle by steamer. It is felt that transhipment to rail at Vancouver will be too expensive and otherwise unsatisfactory.

Canadian registry to their fleets if they want to participate in the Canadian trade, and without effective legislation the tendency will be to increase the Canadian fleet at American ports."—Pacific Fisherman.

#### LIBERAL MAJORITY IN NOVA SCOTIA BIGGER

(Special to The Daily News.)

Halifax, N. S., June 22.—The latest returns in the Nova Scotia provincial elections are even better from a Liberal standpoint than was at first reported.

The Liberals now hold 32 seats while the Conservatives were able to retain only 11, giving the Murray government a majority of 21.

#### SPEECH RESTORED BY SUDDEN SHOCK

Mr. J. E. Davey, of this city, has just received news of a remarkable recovery of speech by a nephew of his in the old country. Private Davey, in the fighting around Ypres, was rendered unconscious through shell shock and was taken to hospital at Liverpool. He recovered consciousness but all efforts to restore his speech failed. As a last resort the doctors sent for the lad's mother, without telling the patient what they had done. When his mother arrived, one of the nurses occupied the speechless man's attention and kept his face away from the door of the room.

Mrs. Davey entered quietly and leaned over the bed on which the patient lay. The injured soldier turned suddenly round and received such a shock that he shouted "Mother." From that moment his speech came back and he is now as well as ever and ready for more fighting.

There have been many similar incidents recorded at various hospitals. For instance, one soldier, who was quite dumb from shock, placed his hand on a very hot radiator by accident and the shock brought forth a yell and his speech was restored.

The Seymour did not dispose of her 50,000 pounds of halibut yesterday. The highest price bid was 8½ cents and the captain held out for more.

#### BARNEY JOHNSON AND A CRIPPLED SUB.

The English newspapers are devoting columns to the adventures of Captain Barney Johnson, the genial skipper of the Prince Rupert who went over to the old country about a year ago on submarine service. It seems that when Barney's diver was close in to the German coast and traveling at a depth of sixty feet, she struck a mine which blew off her bow rudder and two tanks. Luckily the bulkheads remained intact and the submarine was brought to the surface with water pouring in.

As the mishap occurred off the German coast, it was a twenty-five hours voyage to an English port and the battered submarine had to travel on the surface and dodge enemy patrols. The daring Barney made the trip, however, and brought his crippled little craft safely home.

British Columbians, and Prince Rupert folks in particular, will be delighted to hear that Captain Johnson has received promotion as a result of this display of splendid courage and seamanship.

#### ROSE SALE BROUGHT IN SUM OF \$286.35

The I. O. D. E. sale of roses yesterday in aid of the local hospital realized the sum of \$286.35. The following were the proceeds from the different corners; Rupert Hotel, \$39.30; Royal Hotel, \$28.90; Orme's, \$56.40; C. P. R., \$18.45; Wallace's, \$15.00; Post-office, \$43.15; Wharf, \$62.20; Eleanor Peck, \$2.50; Cold Storage, \$10.00; Mrs. Naden, \$8.50, and from the sale of flowers, \$2.25.

The ladies of the I. O. D. E. wish to thank all who contributed in any way to the success of the sale.

Informal dance for benefit of Swimming Club, to provide funds to build ladies' dressing room, etc., at Salt lakes, on June 23rd Ten o'clock at Skating rink. Refreshments. Tickets 50c. each.

#### HUNS ATTEMPT TO STOP DRIVE UPON LEMBERG

**120,000 Reinforcements Sent to Eastern Front—A Terrific Fight Proceeds Along the Bug River.**

(Special to The Daily News.)

London, June 22.—One hundred and twenty thousand German troops have been hurried to the eastern front as a last effort to check the Russian offensive upon Lemberg.

There is a terrific battle raging along the River Bug where the Germans are making desperate attempts to arrest the Russian advance and to prevent the important railway junction of Kovel from falling into the hands of the Russians.

#### Turkish Revolt.

The Turkish garrison at Smyrna is in revolt with the result that the city has been almost completely destroyed.

#### Plague at Constantinople.

It is reported that plague has broken out in the barracks in Constantinople. The sanitary condition of the city is terrible and the facilities for coping with such an outbreak are of the most meagre description.

#### PROGRAM ARRANGED FOR DOMINION DAY

The committees in charge of the Dominion Day sports met last evening in the city hall to make final arrangements. The finance committee reported that \$175 had already been contributed. A list of the donors will be published later. Meantime, all interested may assist by applying to V. A. Cole, George Tite or George Frizzell, who will be happy to receive donations.

It was decided to set aside \$150 for the field sports; \$15 to advertising and \$10 to the Cadets. The finance committee will use any further funds in giving prizes for the best decorated windows and possibly to bring a band here far the day.

The baseball arrangements were left in the hands of the baseball committee.

The following is the sports program:

National Anthem and Maple Leaf by the school children.

Baseball game, 2:30.

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

## Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

# The Tale The Wagons Tell

My office window faces a street, close to the railway freight sheds.

All day long a steady stream of trucks and lorries lumber by—loaded with boxes, barrels and bales.

One truck I noticed the other afternoon was particularly interesting. No two boxes were the same, and stencilled on the end of each was the name of some well-known product—soap, tobacco, socks, breakfast food, cocoa, port, tea, chocolates, perfumery and baking powder.

Gathered there in prosaic wooden boxes were the results of thousands of hand's labor in all parts of the world.

The cocoa had been grown in Brazil, shipped to Bristol, transhipped to Montreal and finally distributed from Toronto.

The tea was gathered by swart-skinned natives of the romantic island of Ceylon; from sunny Portugal the luscious, big grapes had been gathered years ago, fermented, bottled and branded with a famous name; from Egypt had come the cotton and from South America the dyes that entered into the product finally stamped with the brand of a well-known hosiery.

There, behind that obviously prosaic truck-load of freight was the whole romance of modern commerce—the skilled production, the universal demand for food, drink and raiment, and the world-wide distribution of the things we use every day.

And then I speculated why we use these things every day, instead of some other things; and that brought me plump back to my own job of advertising.

The names of some of the boxes on the lorry were known everywhere to-day, but had been unknown a few years ago; and I saw then more clearly than ever before that Advertising is really a great channel digger. It is like the Panama Canal. You can sail from Montreal to Vancouver now, around the Horn. You can get there, but it is going to take months. A year or so from now you will sail through the Panama Canal and chop the journey to less than half. A new channel will have been dug.

The great names in commerce to-day are those of the manufacturers who have let modern advertising steam-shovel a channel across the isthmus of distributing difficulties.

The great names in the commerce of to-morrow will be those of men who widen and dredge this channel so that the greater traffic may pass smoothly and quickly from the source of production to the homes of the consumer.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumden Building, Toronto.

# Production and Thrift

"TO win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfillment our success, and consequently our national safety, may ultimately depend."—SIR THOMAS WHITE, Minister of Finance.

**PRODUCE MORE, SAVE MORE.  
MAKE LABOUR EFFICIENT.  
SAVE MATERIALS FROM WASTE.  
SPEND MONEY WISELY.**

#### LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

#### LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

#### LET US NOT WASTE OUR LABOUR

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

#### LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.

**THE NEW PERFECTION OIL SUPPLY SYSTEM INSURES A STEADY EVEN FLAME**

This flame is the secret of the popularity of the New Perfection. As quickly and as easily regulated as gas, it insures perfect heat for any cooking. It can't creep up or down—it stays just where you put it. It won't smoke or smell. The New Perfection saves labor, time and money. 1, 2, 3 and 4 burner sizes at these dealers:

**SWIMMING CLUB DANCE**

On Thursday evening of next week, the Swimming Club will give an informal dance in the Skating Rink to provide funds for the building of a ladies' dressing room at the Salt Lakes bathing pond. It will be a mid-summer dance and flannels or middies will be quite appropriate garb. Tickets for gentlemen are \$1.00 and ladies will be admitted free. The swimming club is doing real good work and is worthy of every encouragement from citizens.

**Your kind of cigarette!**

Prince Albert tobacco meets your wishes in every way—no bite, no parch; just cool, fragrant, refreshing. It rolls up into a cigarette you'll like better than any kind you ever tasted. The Prince Albert patented process cuts out bite and parch and you smoke as much as you like without trouble for your tongue. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

**PRINCE ALBERT**

*the international joy smoke*

is manufactured to be in a class by itself, to be better, to meet the taste of smokers all over the world. It is universal in its popularity because it is so friendly to every man who likes to smoke a home-made cigarette or a pipe. If your dealer cannot supply you, ask him to secure it through his wholesaler.

You certainly owe it to yourself to know just what a great amount of pleasure and satisfaction Prince Albert will afford you.

Prince Albert is sold throughout Canada, generally, in the 1/4-lb. tidy red tin, also in pound and half-pound tins.
