B. C. SOLDIERS IN ENGLAND WILL VOTE

Victoria, July 10.—Premier Bowser today received a cable from Sir George Foster who is now in England stating that the War Office was quite agreeable to British Columbia soldiers who are now training in England taking part in the coming provincial election. The proposal to have them vote for their home candidates will, therefore, be carried out.

It will be manifestly impossible in view of the fact that every British soldier is busily engaged in the "Big Push," to attempt to secure the votes of men now at the front.

WELCOME COMMITTEE FOR RETURNED SOLDIERS

The returned soldiers concert in the Westholme last evening was much more than a concert. It was the beginning of an organization for the reception of men returning from the battlefields of Europe. The following resolution was moved by Mayor McCaffery and seconded by Mrs. W. P. Riley: That a committee be formed to select members of a Returned Soldiers Welcome Committee, the members of the committee to consist as far as possible of representatives from the existing patriotic societies of Prince Rupert.

The resolution was carried unanimously and Mrs. W. P. Riley, Mayor McCaffery and Canon Rix were appointed as a selection committee.

In opening the concert, Canon Rix, chairman, said that some such organization should have been formed long ago. He described how H. A. Harvey, with the assistance of Mrs. Riley and others, had prepared a reading and rest room for the boys and that out of this small beginning this larger movement had taken form. There was much to be done as an increasing number of men would be returning and he felt that the citizens would realize the duty which fell upon them in regard to the welfare of the men who had done so much for the Empire and for Canada.

Besides a very fine picture show the following artists contributed to the musical program: Mrs. J. H. McLeod, Miss Wright, J. E. Davey, C. D. Jones, Meth Davies, J. Sinclair, and George Waddell, solos; dances by Gladys Kemp and the Bailey Sisters, and piano solo by P. C. Daugherty. The accompaniments were played by Mrs. C. A. G. Armstrong, P. C. Daugherty and W. V. Davies.

The Westholme Theatre was packed and uniforms were largely in evidence, the ushers being men of the Irish Fusiliers along with two of the returned men. The concert was thoroughly enjoyed and encores were frequent.

SERBIA'S SOLDIERS WILL TAKE REVENGE

Corfu, July 12.—The following semi-official statement is issued here today:

For some time a section of the German press, headed by the semi-official journal has been spreading reports, the object of which cannot escape anyone, regarding alleged desertions by Serbian soldiers, and stating that Serbian soldiers do not wish to participate in future operations. We consider it unnecessary to deny these tendentious rumors, for soon the Serbian troops, well equipped, endowed with superb morale, and conscious of the imminence of their revenge, will give the Germans the lie in a material manner.—Reuter.

MATHEMATICAL PRECISION OF SOMME ADVANCE

Anglo-French Advance Proceeds Like Steam-roller—Germans Make Tremendous Sacrifices.

(Special to The Daily News.)

Paris, July 13.—The Allied advance on the Somme front is considered to be of the nature of a steam-roller proceeding with mathematical exactness along the lines originally planned by Earl Kitchener and General Joffre.

Tremendous Sacrifice.

The Germans have gained a little ground at Sainte Fine, but the gain was made at a tremendous sacrifice in men.

The British have regained ground which they lost at Mametz wood and have repulsed German attacks upon Contalmaison which the British captured on Tuesday. The presence of a great number of German dead in the region of Trones wood is ample evidence of the great sacrifices made by the Germans during the strenuous ten days' fighting at this point.

German Air Raid.

Berlin, July 13.—German aeroplanes have bombed Allied military encampments at Calais.

DEUTSCHLAND HAS TWO SMALL GUNS

American exchanges give some interesting details regarding the transatlantic submarine Deutschland, which arrived at Baltimore the other day. The craft is 315 feet long and carries a crew of twenty-nine men and a captain. She has a sea speed of several knots faster than the average freighter. The voyage from Bremerhavn, at the mouth of the Elbe, to the Virginia Capes occupied sixteen days.

She carries no torpedoes but has two small guns, presumably for defense. The captain reported passing within 500 feet of an Allied cruiser but escaped by diving. She was launched at Kiel in March and is owned by the Ocean Rheiderei, Ltd., of Bremen.

Germans in Baltimore hailed the arrival of the submarine with delight, as evidence of the partial breaking of the Allied blockade of the German coast. The public will not be allowed to inspect the new commercial underwater craft, nor will anyone but the federal authorities be allowed to go aboard of her.

MACHINE OIL

F. W. Welsh, one of the candidates on the original Tory Vancouver ticket who was withdrawn after the Sullivan affair, has got into another mess. The Bowser machine has always required a plentiful supply of oil and it has been an open secret for long that the general public of the province provided most of that commodity though it was, of course, obtained by painless extraction.

The enquiry conducted by Mr. Justice Murphy into contracts procured from the Vancouver School Board sheds some interesting light upon the Tory methods of extraction. J. C. Pendray, a soap manufacturer of Victoria, wanted to secure a contract for soap from the board, and F. W. Welsh, a member of the board and president of the local Conservative Association, made it abundantly plain that a contribution to the Tory machine would not be unwelcome, to put the matter gently. Mr. Pendray came through with \$25, but, to make sure that he did not come out on the wrong side, he added that amount to the contract price. In other words, the School Board, or rather the taxpayers of Vancouver, contributed that \$25 to the Bowser fund.

Mr. Welsh has been so prominent lately that he has been dropped from the Tory ticket, though he shows an inclination not to stay out. He is the gentleman who was on such intimate terms with John L. Sullivan and the Tory election gang from Seattle that Johnny sent him two wireless messages describing the oncoming voters in order that he might recognize them when they met. It was this Mr. Welsh who experienced such convenient lapses of memory when the "plugging" enquiry was on and also showed a great aptitude for destroying incriminating letters.

This friend of Sullivan, and the other jail-birds, who man-

aged to squeeze \$25 out of the soap manufacturer, or rather out of the people of Vancouver, for the Tory funds in return for a contract for soap is one of the crew who tried their utmost to blackguard M. A. Macdonald. He is now measuring down to his true standard and M. A. Macdonald still measures up to his full six feet some odd inches and looks the world in the face. It is the irony of fate that the first disclosures in connection with the school board form of Tory graft should be linked up with a contract for an article so cleansing as Pendray's soap.

The evidence in the enquiry makes amusing reading, especially as the counsel for the Tories seems to have labored under the delusion that it was a parliamentary enquiry that was being conducted. Mr. McNeill objected strenuously to the directness of the questions put, but Justice Murphy quietly told him just where he got off. Some day the story of the Seattle pluggers will be revealed just as clearly as the little soap deal was on Monday, but the revelation will not take place before a Tory parliamentary committee. There will not be such a thing as the latter in British Columbia for many years.

NOTES AND COMMENTS

There is only one thing which the Vancouver people should be thankful for in regard to the Tory graft on the school board contracts, and that is that John Wesley Allison was not chairman of the school board.

The Austrian despatches to Berlin seem to indicate that it would not be hard to induce the Austrians to throw up the sponge. The Russians seem to be annoying them exceedingly by their vast numbers.

TRADESMEN WANTED FOR CANADIAN ENGINEERS

Mayor McCaffery has received a letter from the commanding officer of the 6th Field Company, Canadian Engineers, with headquarters at North Vancouver, stating that recruits for this branch of the service are urgently wanted. All professions and trades are eligible for enlistment in this battalion and drafts are shipped for overseas service every two weeks.

The following are required:—Blacksmiths, bricklayers, carpenters, clerks, cooper, architectural draughtsmen, electricians, engineers, fitters and turners, harness makers, masons, painters, plasterers, plumbers, shoemakers, surveyors, tailors, plate layers, etc. Apply to Mayor J. Eades Ward, C. O. 6th Field Company, C. E., North Vancouver, B. C.

It will be successful in the big war which will follow the present struggle. He will have ceased to think about war or anything else when that war comes.

It is hard to see how the Vancouver Tories can have the heart to side-track such a valuable machine man as F. W. Welsh. He seems to have been able to collect funds quite freely while as a receiver of Sullivan messages, he was quite a success.

"THE MILK TRUST" AT WESTHOLME TONIGHT

"The Milk Trust" is the "Graft" story at the Westholme tonight. This is the twelfth of this most interesting and thrilling of exposures of the ring of capitalists whose ramifications extend to every possible line of endeavor and is one of the most exciting yet shown.

There is also a Broadway Star Feature entitled "Husks." This is a three-act drama of real merit. "When Willie Was Wild," an Imp comedy, and the Universal Animated Weekly complete a real good show.

GREAT FIGHT SCENE AT THE MAJESTIC THEATRE

"On The Night Stage," the five-act Mutual western drama at the Majestic, is a remarkably strong picture in which a "fighting parson" plays a great part. With Robert Edeson as the parson, the acting lacks nothing. Perhaps the most thrilling incident in a play which is full of life and thrill, is a "free-for-all" fight in a western saloon. It is intensely realistic in every detail. The parson falls in love with a dance-hall girl and wins her away from her former life, but much that is exciting happens before this stage is reached. It is a great drama.

George Ovey, in "The Guy Upstairs," is just as funny as Chaplin, and brought down the house last night. The Mutual Weekly is very fine. The music, which is always a big feature at this house, was great last evening, the best pieces being selections from "Carmen" and "Firefly."

GERMAN NAVY: "How dare you keep me here when all the world knows that I defeated you."—Opinion

PREPARING FOR PEACE IN BRITISH BUSINESS

That Britain is "preparing for peace in time of war" is evident from the fact that new factories are springing up to carry on business which was formerly entirely in the hands of the Germans. Margarine has an enormous sale in the old country and one of its chief constituents is the oil of the palm kernel. The palm kernel is

brought chiefly from West Africa to be crushed and the crushing has been done almost entirely in Hamburg and other German ports. Today, crushing mills are being put up in Hull, Liverpool and other ports and machinery used for crushing cotton seed and linseed is being adapted to the crushing of the palm kernel. If Britain can produce all its own palm oil, instead of buying from Germany, as in the past, it will

result in an additional turnover of \$25,000,000 a year. The Daily Mail states that it is proposed to put a prohibitory export duty on all palm kernels crushed outside of the British Empire in order to prevent Germany from getting back this trade.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

The Tale The Wagons Tell

My office window faces a street, close to the railway freight sheds.

All day long a steady stream of trucks and lorries lumber by—loaded with boxes, barrels and bales.

One truck I noticed the other afternoon was particularly interesting. No two boxes were the same, and stencilled on the end of each was the name of some well-known product—soap, tobacco, socks, breakfast food, cocoa, port, tea, chocolates, perfumery and baking powder.

Gathered there in prosaic wooden boxes were the results of thousands of hand's labor in all parts of the world.

The cocoa had been grown in Brazil, shipped to Bristol, transhipped to Montreal and finally distributed from Toronto.

The tea was gathered by swart-skinned natives of the romantic island of Ceylon; from sunny Portugal the luscious, big grapes had been gathered years ago, fermented, bottled and branded with a famous name; from Egypt had come the cotton and from South America the dyes that entered into the product finally stamped with the brand of a well-known hosiery.

There, behind that obviously prosaic truck-load of freight was the whole romance of modern commerce—the skilled production, the universal demand for food, drink and raiment, and the world-wide distribution of the things we use every day.

And then I speculated why we use these things every day, instead of some other things; and that brought me plump back to my own job of advertising.

The names of some of the boxes on the lorry were known everywhere to-day, but had been unknown a few years ago; and I saw then more clearly than ever before that Advertising is really a great channel digger. It is like the Panama Canal. You can sail from Montreal to Vancouver now, around the Horn. You can get there, but it is going to take months. A year or so from now you will sail through the Panama Canal and chop the journey to less than half. A new channel will have been dug.

The great names in commerce to-day are those of the manufacturers who have let modern advertising steam-shovel a channel across the isthmus of distributing difficulties.

The great names in the commerce of to-morrow will be those of men who widen and dredge this channel so that the greater traffic may pass smoothly and quickly from the source of production to the homes of the consumer.

If you are doing a local business

talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a general business it would be well for you

to have counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Production and Thrift

"To win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."
SIR THOMAS WHITE, Minister of Finance.

**PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.**

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.

SELLING contracts
SEEMS to come
JUST as easy
TO the Tories
AS BUYING votes,
AND it is not
QUITE so uncertain.
SOMETIMES,
AS in Vancouver
LAST February,
THE BOUGHT votes
GET lost
OR stolen
AND it hurts
TO HAVE costly votes
GOING to the enemy.
CONTRACT selling
IS MUCH simpler
AND LESS risky,
UNLESS, as in
THE SOAP deal,
SOMEBODY squeals,
THEN there is
NO END of trouble.

SOAP contractors
ARE business men
AND are apt
TO USE cheques,
AND CHEQUES talk.
A SOAP contractor
WOULD NOT shine
AS A Tory
INDIAN RESERVE buyer
AS cheques
ARE NOT considered
GOOD form
IN THIS business.
JOE MATSON
IS THE Tory specialist

OFFICER FALLS ON BOMB TO SAVE MEN

New York, July 11.—Two official cablegrams concerning the Allied offensive in France were received in New York yesterday from the British Intelligence Office. One says in part:

"The interesting point emerges that Haig was ready to strike some time ago, but refrained, on Joffre's request, till word was given.

"Haig sent a message of congratulation to the Highland Light Infantry on its recent trench raid. The sturdy Scotsmen from Clydeside took forty-six prisoners and two machine guns, destroyed mine shafts, and killed ninety Germans, losing two wounded only. One officer in the Bantam Battalion of the Gloucester Regiment, wearing a steel body protector, threw himself on a bomb to save his men. The bomb exploded, tearing his clothing to bits and bruising him severely, but not fatally. No men were hurt."

NEW FISHING VENTURE

Captain W. Parsons and Captain J. Batt have just completed a deal whereby they become joint owners of the well-equipped and powerful gasoline launch "Joe Baker." Both are well known residents of this port, Captain Parsons having had command of the Chief Zibassa since the formation of the Canadian Fish and Cold Storage Company until a short time ago. Captain Batt has commanded vessels out of both Vancouver and Prince Rupert and has lately been sailing as mate and pilot on the James Garruthers. Some years ago both skippers fished together as "dory-mates" and are therefore well acquainted with each other's capabilities as fishermen. They have secured the services of a most competent engineer and also of an experienced fisherman and are now busy fitting out the Joe Baker with the best of gear and tackle. When the Joe Baker starts out on her first voyage under her new owners at the end of this week, Captain Parsons and Captain Batt will take with them the best wishes of a host of friends not only in Prince Rupert, but from Seattle to Yakutat.
