Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also --- particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious-his audience-the readers of the newspaper-will, figuratively speaking, "lean forward and listen intently."

"TO win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."-SIR THOMAS WHITE, Minister of Finance.

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have: Sincerity -- Enthusiasm -- Advertising: Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be woll for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Consider Press Association, Room 503, Lumsden Building, Toronto.

PRODUCE MORE, SAVE MORE. MAKE LABOUR EFFICIENT. SAVE MATERIALS FROM WASTE. SPEND MONEY WISELY.

LET US PRODUCE AND SAVE-

The war is now turning on a contest of all forces and resources-men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR-

In this war-time all labour should be directly productive or should be assisting in production. Make it | risking their lives for us at home. Is it not our duty as efficient as possible. If your labour is on something to be careful and economical? Canadian dollars are that can be postponed, put it off till after the war and make your labour tell now. Making war is the first tell. Have a War Savings Account. Buy a War business of all Canadians. Efficiency in labour is as | Bond. important as efficiency in fighting.

LET US NOT WASTE MATERIALS-

Begin at home. The larger portion of salaries and wages is spent on the home-food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

LET US SPEND OUR MONEY WISELY-

Are you spending your money to the best advan-tage? What do you think of extravagance in war tin.e? Tens of thousands of Canadians are daily
