"BOWSERISM"

The Victoria Colonist has for some time past been trying to prove that there is no such thing as Bowserism, Throughout the province of British Columbia the system of misgovernment inaugurated and carried on by Bowser and his machine is known to every elector by the name of Bowserism, and, one ventures to think that, had Bowserism been the name given to something which was good and worthy of recognition the Colonist would have been proud to use the term and doubtless would now be using it in large type and frequently.

Had Bowserism represented the opening up of the farming lands of British Columbia to the settler and the forming of community settlements with schools, churches and all the usual social institutions, the Bowser press would not be ashamed of the name.

Had Bowserism stood for fair and equitable dealing between the Canadian Northern Railway Company and the people, and between the Pacific Great Eastern Railway Company and the people, the Colonist would today be heralding Bowserism as a force for good.

Had Bowser told the members of the private bills committee that he could not sancfrom the housetops as all that there. is good, sound and sane in legislation.

and as premier, he is the servant of the province and not to crush to death all who differ with him, the Colonist would not today be trying to prove that there is no such thing as Bowserism, but would be trying to show that Bowserism is the

Many questions were asked, showing the interest the people are taking in the issues before them, and Mr. Pattullo's answers were thoroughly convincing. Belgians Depend on us

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Advertise In The Daily News.

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also --- particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper-will, figuratively speaking, "lean forward and listen intently."

> To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

Sincerity -- Enthusiasm -- Advertising: Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

" TO win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may altimately depend."SIR THOMAS WHITE. Minister of Finance.
