TURKS FAILED TO OUTFLANK RUSSIANS -- TRIESTE HARBOR IS BEING SHELLED

T. D. PATTULLO OUTLINES CONSTRUCTIVE POLICY

ENTHUSIASTIC WELCOME TO THE LIBERAL CANDIDATE LAST NIGHT—MR. PATTULLO DEALS WITH PRESENT CONDITIONS AND THE REMEDY—BOWSER DEFEAT CERTAIN

The Liberal rooms were well filled when F. G. Dawson took the chair at the meeting last evening and many more filed in during the first fifteen minutes. In opening the proceedings, Mr. Dawson said that the Liberals did not intend to bribe an attendance by means of cigars and that he believed that the issues alone were important enough to draw a large audience.

Athol Fraser, the first president of the Liberal Association in Prince Rupert, was first called upon and he gave a rousing speech. Mr. Fraser has been in this province for thirty-six years and knows every corner of it and all its problems. Having just returned from Anyox and Alice Arm, he dealt with affairs there, pointing out how at Anyox the company owned the earth and all that it contained and all that was on top of it. They drew rentals of from \$7.50 to \$25 per month for houses built on land which is assessed as wild land, at \$7.50 an acre, while the adjoining Calhoun fraction is assessed at \$400 an acre. After showing how the company's timekeeper and the provincial police keep out all men whose presence is not desired by the company, he said that any man who openly showed that he was against the government was handed his time on one pretext or another. He described W. X. McDonald as a company agent whom they wanted in Victoria to vote as William Manson had always voted—just as he was told. He assured his audience that Frank Mobley would receive a handsome majority throughout Atlin and that there is hardly a Bowser supporter to be found in Alice Arm.

In very amusing fashion he told how Bob Green and "Jimmy" Henderson grabbed the Prince Rupert townsite, going into every detail of the notorious transaction. He felt satisfied that the Liberals would sweep the province, and, if they did not, they

would get what they deserved. A. H. Allison, who had just returned from the interior, said that he had difficulty in finding any Bowser supporters where he had been. Men who had always voted for the government were amongst the most anxious for its defeat. He dwelt on the Pooley incident at Esquimalt, when the Bowser candidate warned four men that unless they sent their resignations from the Liberal Association to him they must "take the consequences." He placed William Manson in the same category as Pooley because he had never come out and repudiated such an action. He described some of the government roads he had tried to travel over and said that the miners were laying planks at many of the "nice" spots in order to pack in their supplies. He had climbed over logs in many places on a road which had cost many thousands. He said that the Liberals had an opportunity to make the north country fit to live in and he believed they would succeed.

T. D. Pattullo.

T. D. Pattullo, after expressing pleasure in such a large attendance, said that he regretted that the electors of Prince Rupert had not been with him on his trips through the outlying districts, as they would realize more fully what was needed and it would make them all the more determined to oust the Bowser government, which had failed absolutely in the development of the north. He said that, after making a very close canvass of the district, he was satisfied that there was grave danger of the Bowser candidate losing his deposit. He said that in no egotistical way and did not attribute the fact to himself as Mr. Manson's opponent. "It is not a question of Mr. Manson or myself; or of Liberal or Tory," said Mr. Pattullo, "but a question of the people voting against a gang form of government which

SITUATION IN ATHENS GROWS MORE CRITICAL

Greek People May Rush Government into war—Serious Results of Air Raid—Censorship of Mails.

(Special to The Daily News.)

London, August 26.—Greece is liable to be rushed into the war by her people and a very grave cabinet crisis has to be met. The King and cabinet are inclined to permit the Bulgarians to advance into Greek territory and to take Kavala. Bulgarian statesmen have always held that Kavala is rightfully theirs, and the people of Greece fear that if the Bulgarians are allowed to occupy it, it will be lost to Greece for all time. The situation is very acute in Athens.

Raid Near London.

The official report on the air raid of Thursday on the outskirts of London gives eight people killed and thirty-six injured. The German dirigibles dropped a hundred bombs.

Mail Censorship.

Lord Robert Cecil, in commenting on the exception taken by the United States to the mail censorship, states that only general statistical information is extracted from trade letters solely for the purpose of checking up supplies which are consigned to neutrals and with the object of suppressing exports to the enemy which are not revealed by British firms.

ULTIMATUM ISSUED BY RAILROAD WORKERS

Washington, August 26.—The railway employees have submitted an ultimatum to the railroad managers in which they threaten an immediate strike unless the executives agree tonight to an eight-hour day. The prevailing opinion is that the executives will meet the men on this point and that a settlement will be arrived at and a strike averted.

VOTE YES

This British Columbia Act is Prohibition to the limit of the proved powers of British Columbia. To have included importation under its clauses would have been to retain the bar and the shop because the Act would have been "ultra vires." (Ultra vires is the way a lawyer says it so he can charge \$5.00 for advice. It means "no good" in law.)

Do you really want total Prohibition? Vote for this Act on September 14, and then you strengthen the hands of temperance leaders to secure total Dominion Prohibition from the only place it can be secured, that is the Dominion House at Ottawa. Vote YES.

MAJOR M'MORDIE D.S.O. IS RECOVERING NICELY

Word reached town last evening from Major S. P. McMordie, D. S. O., to the effect that he is now at Folkestone, England, and recovering nicely from his many wounds. He is hopeful that he will be sufficiently strong in a month or two to return to the front. Major McMordie is naturally reticent in regard to his own part in the big fighting, but, from news leaking through from others at the front, it becomes clear that he performed big things in that charge. It was a particularly daring piece of work and he and the men who took part in it volunteered specially to carry it out. One of the boys says that the gallant major continued to lead on his men after he had been badly wounded.

NAAS VALLEY HAS BEEN NEGLECTED

Frank H. Mobley, Liberal candidate for Atlin, returned yesterday from a trip up the Naas, having gone to the head waters on his own boat. Mr. Mobley has returned full of enthusiasm in regard to this garden spot of the north. Corn, tomatoes, oats, barley, etc., are growing there and ripening splendidly and the settlers are of the right stamp. "When the Naas Valley gets the assistance it deserves," said Mr. Mobley this morning, "it will be one of the richest parts of the province." Meantime, the settlers show the courage of real pioneers and pack their supplies for miles over rude trails, there being no roads. He saw one little girl of fourteen years of age packing a can of coal oil and twenty pounds of groceries on her back, while he met another settler who thought nothing of packing supplies for fifteen miles in the same way. These are the people who lay the foundations of prosperity for a country, and they are struggling along against the most adverse conditions, except that the climate is splendid and the soil very fertile. When Mr. Mobley gets to Victoria, the Naas Valley will for the first time have a real representative and the valley will blossom as never before.

MRS. POSTULU AND LITTLE GIRLS FROM MACEDONIA

"Billy" Postulu was a proud little man last evening when he welcomed his mother and two little sisters at the train. Mrs. Postulu and her two little girls are from Macedonia, the scene of stirring happenings for the past fifteen months. They arrived in New York about a week ago and were delighted in reaching Prince Rupert last night. The mother had not seen her husband and little boy for three years, and, in that time, little Billy had grown so rapidly that she scarcely knew him. It was an extremely happy family reunion.

TRIESTE BEING SHELLED FROM CARSO PLATEAU

Austrians Cling to Mountain Positions—Liner and three Torpedo Boats are Destroyed.

(Special to The Daily News.)

Italian Headquarters, near Goritz, August 26.—General Cadorna's army has advanced to within fourteen miles of Trieste, the great Austrian naval base, and the Austrians are clinging tenaciously to their mountain positions.

Italian artillery has completely levelled Monfalcone and other villages on the Carso plateau and the enemy second line trenches have been captured and the third line penetrated.

Shells falling in Trieste harbor have destroyed a sixteen thousand ton trans-Atlantic liner and three partially completed torpedo boats in the navy yards.

Western Front.

A German attempt to capture a portion of the British line at Ginchy failed, and successful aeroplane raids were made against the German lines of communication.

The enemy gained a footing in the French trenches at St. Michel but were quickly driven out.

TURKS FOILED ONCE MORE BY THE RUSSIANS

Enemy Evacuates Bitlis and Mush is Recaptured—Tide Turned Against the Turks—Serbians do well.

(Special to The Daily News.)

London, August 26.—Bitlis has been evacuated by the Turks and the Turkish attempt to encircle the left flank of the Russian Caucasus army, with the intention of regaining Erzerum, has proved disastrous. At one time, the Turks appeared to be successful, when the Russians delivered a sudden blow and captured Mush, completely turning the tide against the enemy.

The re-occupation of Mush by the Grand Duke's army means the establishment of strong Russian positions west of Lake Van, and the stopping of the Turkish offensive will allow the Russians to advance into Asia Minor.

Balkan Front.

The British on the Macedonian front have destroyed the bridges over the Angista and crossed the river.

The Serbians opposed violent Bulgarian counter-attacks in the vicinity of Lake Ostrova and captured hundreds of Bulgarians.

Shells for Bulgars.

Austria is shipping three train loads of shells to the Bulgarians daily.

An unconfirmed wireless to New York from Rome states that Germany has ordered the Bulgarians to evacuate Greek Territory.

Germans Recaptured.

Amherst, August 26.—Of the four interned Germans who escaped from camp here recently three have been captured and the fourth has been killed.

Montreal Riots.

Montreal, August 26.—Recruiting privates who were associated with the recent riots in Montreal have been removed to Valcartier Camp and in the meantime the Irish Rangers have suspended their meetings.

THE ALLIED GRIP

In the light of the latest developments on the various battle fronts, it is interesting to recall a statement of the notorious Count Von Bernhardt, the German strategist whose teachings the Kaiser has followed blindly. Bernhardt saw Germany conquering everywhere; he felt that all the plans of her enemies must fail against her—save one plan. Germany must conquer all things, but even Bernhardt's contorted vision was not blind to the fact that Europe combined solidly against tyranny could never be conquered. So long as the nations of Europe could be picked off one by one and so long as there was no military combination amongst them following a prescribed plan, Germany had nothing to fear, but the moment the nations got together and formed one great combination to break the German tyranny, the crushing of Germany was inevitable.

In spirit and in action, the leading nations of Europe are for the time being as a single unit, with a single purpose—the crushing of the Prussian tyrant, and, just as Napoleon was pursued implacably by the rest of Europe, so will the Prussian Emperor, France, Russia, Britain, Italy, Belgium and Serbia are working together in a common purpose as nations have never been before. The very tyranny of Germany has been instrumental in giving them a singleness of purpose which has enabled them to sink all their smaller national aspirations.

What Bernhardt feared is actually taking place. In France, the Allies are gradually crushing the power of Teuton; in Galicia, the Russians, working in conjunction with the French and British on the one front and the Italians on the other, are driving the Austrians and Germans before them; in the Trentino, the Italians threaten to wrest from

Austria, Trieste, the most important point in the Adriatic, while in the Balkans, a combination of all the Allied nations is preparing to oust the Turk and Bulgarian Allies of Germany from Serbia and to crush those two powers so that they may never again disturb the peace of Europe.

Britishers are naturally most closely interested in the western front and many have shown impatience at the apparent slowness of the progress made there, but, when the history of the struggle is made known and the vast difficulties which had to be overcome are realized, there will be nothing but wonder at and praise for what is being accomplished in France and Flanders. It is a slow but sure process of advancement to which there is no let up. It is a gradual tightening of the steel ring which Bernhardt so much feared.

NOTES AND COMMENTS

It is gratifying to know that two hundred millions of dollars have been deposited in Canadian banks since the war began, even if you have not had to worry the receiving teller yourself to any great extent.

Sir Sam Hughes has arrived in Paris. It is to be hoped that there was a sufficient supply of cameras to meet the occasion.

Bowser claims to be getting quite used to heckling. He ought to be for he is getting plenty of it. After September 14th he will have an extremely long rest.

It is extremely amusing to notice how the Bowser press slides over the result of the Toronto election. The local organ did not report the result at all.

All the way from Prince George to the coast there is ample evidence that the Bowser candidates will be defeated by very large majorities. The Liberal wave which has been sweeping westward will reach highwater mark in British Columbia.

(Continued From Page One.)

has only been Conservative in the sense that it conserved for the financial buccaneers and the hangers on the resources of this province. "It is not in any sense a Conservative government," said the candidate, "but purely a Bowser government and many men who formerly voted Conservative will vote against it."

In comparing Bowser rule with a government under H. C. Brewster, Mr. Pattullo said that, if Bowser were elected, which he could not conceive of, he would have no more consideration for the province than he had in the past. In the first place, the finances of the province had been exhausted and Bowser would have to dispense with about half of the paid dependents of the government, so that even many of the present government employees would be out of their jobs, while Bowser would guarantee another twenty millions of P. G. E. bonds which would be disposed of at any old price and ten of these would go the same road as half of the \$18,000,000 had gone. He described the P. G. E. financing as "legalized robbery."

The Farmers' Aid Bill he described as a half-way measure which would give assistance to many men who did not require it and would do nothing towards genuine production. The Liberal scheme of assistance was to bring under production lands which at present were not being cultivated.

One of the first duties of the Brewster government would be to reorganize the various departments so that the legislation would be economically and efficiently administered. He felt certain that the Liberals could effect a saving of 50 per cent. in the civil list. It was a fallacy to imagine that every man should have a government job. A government which would actually make for production and development was what was wanted. At this point Mr. Pattullo threw off his coat, as the crowded room was intensely warm.

He went on to say that Brewster government would also foster the fishing industry by encouraging the growth of a fleet of Canadian bottoms, while it would do its utmost to break the salmon monopoly and to restore the salmon fishing to the white men. At present a few capitalists got the bulk of it and the Ori-

Coronation of the City of Prince Rupert.

ROAD TAXES 1916.

These taxes are now due and payable to the City of Prince Rupert on demand of Collector, or authorized agent. Persons in default will be subject to the penalties imposed by Municipal Act. Please note. E. D. JOHNSON, Treasurer and Collector. Prince Rupert, August 22, 1916. 201.

entails got the rest. He did not blame the capitalists for taking advantage of conditions, as the fault lay with the government and the people for fostering such conditions. The total exclusion of Orientals, as had been done in Australia was the only solution.

At Ocean Falls, he was glad to see large development, but he did not favor the handing over of everything to the capitalist, as had been done at Granby and Surf Inlet. The capitalist was quite able to take care of himself and the man who needed protection and aid was the small man. There should be no closed towns such as Anyox and the Liberals would see to it that this was changed.

On the Islands there were vast areas of valuable timber in the hands of the speculator which should be opened up for hand logging. The speculator was paying neither taxes nor dues.

In regard to mining, the bulk of it was now in the hands of the big corporations, solely because the small miner had not received the necessary assistance. Had the government devoted some of the vast sums it had spent on "political" roads and in hand-outs to its friends in connection with the buying of Indian reserves which it could get no title to, it would have been much better for all.

In agriculture, it was ridiculous to expect a man to hew out a home for himself in a heavily-timbered wilderness while it was the height of folly to squander money in building trails which in a few months reverted to wilderness again. The government road fund was simply a corruption fund and many of the roads and trails had been built to pacify the electors so that they might return the government to power so that it might continue to hand over millions to the railroad magnate. He ridiculed the idea of Bowser's government being anything new. The province had had thirteen years of Bowserism, as Bowser had ran the other government and had kicked out McBride when he felt like it.

He described H. C. Brewster as a man who was strong financially and who had been thoroughly tested in public life and found to be true and honorable. Brewster would be to British Columbia what Whitney had been to Ontario, giving the people clean government. At this point Mr. Pattullo, who had been showing signs of discomfort from the heat occasioned by the crowded room, said he was not feeling well, and, almost immediately fainted. After coming round, he apologized for the abrupt conclusion of his speech and remarked that that was no criterion of what was to happen to him on September 14. He was given a tremendous ovation on again rising to his feet.

Advises The Use Of "FRUIT-A-TIVES", The Famous Fruit Medicine.

MR. ROSENBERG
689 Casgrain St., Montreal.
April 20th, 1915.

"In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as 'Fruit-a-tives'. I was a sufferer from these complaints for five years, and my sedentary occupation, Music, brought about a kind of Intestinal Paralysis—with nasty Headaches, belching gas, drowsiness after eating, and Pain in the Back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives', and now for six months I have been entirely well.

I advise any one who suffers from that horrible trouble—Chronic Constipation with the resultant indigestion, to try 'Fruit-a-tives', and you will be agreeably surprised at the great benefit you will receive". A. ROSENBERG.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

Sincerity -- Enthusiasm -- Advertising:
Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of those will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Production and Thrift

"TO win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."— SIR THOMAS WHITE, Minister of Finance.

PRODUCE MORE, SAVE MORE.

MAKE LABOUR EFFICIENT.

SAVE MATERIALS FROM WASTE.

SPEND MONEY WISELY.

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.

"THE GOLDEN CHANCE" AT MAJESTIC THEATRE

"The Golden Chance," a great five-act Lasky production enhances the reputation of the Majestic tonight. It is a play of modern life in which Cleo Ridgely is presented as a poor seamstress who is given an opportunity to marry a wealthy man, with Wallace Reid as the man. The poor seamstress refuses the opportunity but she has made such an impression upon the society man that he ultimately finds a way out of her difficulties and they are at last united. It is a very fine play, and rich in the human element. The acting leaves nothing to be desired.

There is also a special Eclair Gazette showing thousands of Austrian prisoners taken by the Russians and other great war scenes, those of the western front being particularly good. It is a splendid entertainment.

interior. They are looking over the timber areas of the province.

J. G. McLelland, of Truro, N. S., arrived from the east last night to visit with his son, J. G. McLelland, Junr., of this city. Miss McLelland, who is a nurse in Victoria, accompanied her father to the coast.

Alexander Meikle, aged forty, a section man with the G. T. P., died at the hospital yesterday afternoon. He was a native of Kirkcriston, Scotland, and had been in this country about two years. Heart failure was the cause of death.

"Doc" Stanwood left for Lower California this morning to proceed with work on a placer gold and molybdenum property he owns in Mexico. He has just received his patent from Carranza. The property promises to be a big producer.

AMERICAN CONSUL FROM NORTH BORNEO

George M. Hanson, the new American Consul for Prince Rupert, arrived yesterday from Sandakan, North Borneo, having travelled over eight thousand miles to his new post. SPLENDID SHOW AT THE WESTHOLME THEATRE

There is another fine Red Feather feature at the Westholme tonight in "The Target," a five-reel drama. The story is of a big man, big in stature and in heart, who is deserted by his friends, his mother alone retaining her faith in him. He is sent to prison for the crime of another. He and another prisoner escape to Canada and finally settle in B. C. He returns to see his mother and is again pounced on, but finally he is square with the world. It is an intensely dramatic story in which Hobart Bosworth is seen at his best. The 18th episode of "Graft" is one of the most thrilling yet, the scenes being laid in Chinese opium dens. An excellent Universal Weekly concludes an eight-reel show which is one of the finest ever shown at the Westholme.

SLIGHT FIRE

There was quite a little blaze at the Journal plant about 11:30 last night when a leak from the gasoline feed pipe to the linotype machine caught fire. The brigade was quickly on the scene and the chemical apparatus put out the blaze but things around the linotype machine were so hot that it was impossible to get the paper off this morning.
