COLONIZATION

When a party of Norwegians wrote to the department of lands at Victoria enquiring as to the possibility of securing land on which to create a colony, Hon. W. R. Ross replied that the British Columbia government was not in the colonizing business. Mr. Ross stated the truth very baldly and he might have added that the government was simply running a glorified Real Estate Exchange, in which the plums and the commissions went to the men who helped to keep the machine in good working order.

One of the biggest problems which will face the Brewster government will be the question of colonization. Immigrants have been brought to this province in tens of thousands in the past, and when the war is over, many more thousands will come. Every British Columbia soldier who has gone to Europe is, unconsciously, an advertising agent, and results will follow and it will be one of the most important duties of the government to prepare for them.

At the present time, this province is ill-prepared to receive any great influx of settlers of any kind. Our cities do not need them, and when the boys return from Europe and the thousands who are at present engaged in making munitions are released, there will be serious problems to be faced. However, settlers will come in, whether we want them or not. The war has unsettled tens of thousands of young men of energy in the old country and many of those young fellows will turn to Canada as an outlet for their energies. These men would be an asset to any country and it would be poor policy to turn them away, yet labor men will tell you, and they know of what they speak, that there is no room for any great number of fresh arrivals.

The solutions lie in the land; in new mining development and in the fishing industry, so

far as British Columbia is concerned. With the land, lumbering should be included, for a boom in lumbering throughout the province is certain to come with the rebuilding of Belgium and Northern France. So far as farming land is concerned, the government must carefully consider and adopt measures for the bringing under cultivation of the hundreds of thousands of acres of good land which are tied up for speculative purposes. A heavy tax on unimproved land, making it unprofitable to hold land for speculative purposes seems the easiest plan, but that can safely be left to our new administrators. Once it is regained for the people, the land must be settled upon a carefully planned community system so that the farmers have all the advantages of town life in the way of schools, churches etc.

Room can be made for thousands more in the fishing industry by the ousting of the Oriental, who has controlled the labor end of this business many years too long. With the cannery monopoly broken, there will be more canneries and a greater demand for labor. With the boat rating gone, the independent white fishermen will get prices for their salmon which will enable them to purchase boats for other lines of fishing, such as halibut, thus building up a Canadian fleet of halibut boats. In mining, lies the greatest hope of this district, and, with encouragement given to the small miner and less power given to the big corporations, there should be a big re-awakening in this industry with the results that there will be enough ore produced to warrant a smelter and probably a refinery in this vicinity.

The most important point is that, for the present, the cities of this province do not require men. Our cities will grow, and grow rapidly, but that growth must be produced from the

Lashing a Lazy Liver with pills may give temporary relief—but the pill habit is not a health habit. It will put the liver out of business in time—and then everything else goes out of business. Get the health habit by eating **Shredded Wheat Biscuit**, the ideal hot-weather food, which contains more digestible, brain-making, muscle-building material than beefsteak or eggs. The tasty, delicious crispness of the baked wheat gives palate joy and stomach comfort. It supplies the maximum of nutriment in smallest bulk, and its daily use keeps the bowels healthy and active. For breakfast with milk or cream, or for any meal with fresh fruits. **Made in Canada**

land behind the cities; from the production of the soil and the hills. Every new settler is worth a thousand dollars to this province, provided that settler is progressive and allowed to make progress along proper lines, but filling up our cities with men looking for work is not progress, but simply a preparation for future slums; pale-faced and stunted children, and national weakness. Canada's hope lies in her new lands and it is to the land, and the land only, that the new arrival must be sent, and he must not be sent to hew out a home miles from a neighbor but must be made one of a community which will ultimately build up a healthy town.

NAVIGABLE WATERS PROTECTION ACT

R. S. C. CHAPTER 115.
The Surf Inlet Power Company Limited hereby gives notice that it has under Section 7 of said act deposited with the Minister of Public Works at Ottawa and in the office of the District Registrar of the Land Registry District at Prince Rupert, B. C., a description of the site and the plans of wharves and power house proposed to be built at the head of Surf Inlet, Princess Royal Island, in front of Lot 40, Range 4 Coast District, B. C. And take notice that after the expiration of one month from the date of the first publication of this notice the Surf Inlet Power Company Limited will, under Section 7 of the said Act, apply to the Minister of Public Works, at his office in the City of Ottawa, for approval of the said site and plans and for leave to construct the said wharves and power house. Dated at Vancouver, B. C., this 29th day of May, 1916. THE SURF INLET POWER COMPANY, May 9th, 1916. J712

NEW FROHMAN STAR AT MAJESTIC THEATRE

In "The Mummy and the Humming Bird," the Famous Players Co. introduces to the motion picture public another famous Frohman star. The drama is one of those rare plays which permits an actor of real ability to display the full force of his histrionic power. The story recounts the tragedy of a neglected wife who seeks amusement in the company of an unscrupulous Italian novelist, Signor D'Orelli, known as the humming bird, who seeks firsthand information of the experiences and emotions of which he writes. Unfortunately his next story is to concern the wrecking of a home. The awakening of the unsuspecting husband, the revenge which a former victim of the wily schemer wreaks upon him, and the saving of the innocent woman, are fraught with thrills and dramatic suspense in abundance. A splendid Eclair Animated Weekly completes a great show.

SCANDINAVIAN FRATERNITY

At the meeting of delegates from the western lodges of the Scandinavian Fraternity of America, held at Spokane, Wash., the 17th to 19th inst., it was decided to form the lodges in Montana, Idaho, Oregon, Washington, British Columbia and adjacent territory into one Grand Lodge, and officers for the ensuing term were elected as follows: Grand President, A. Christoffson, Tacoma, Wash.; Grand Vice-President, John Dybhavn, Prince Rupert; Grand Secretary, Frank Burman, Spokane, Wash.; Grand Treasurer, Otto Johnson, Seattle, Wash.; Grand Chaplain, Alex. Benson, Missoula, Mont.

The next meeting of the Grand Lodge will be held in June, 1917, in Seattle.

Advises The Use Of "FRUIT-A-TIVES", The Famous Fruit Medicine.

MR. ROSENBERG
589 Casgrain St., Montreal.
April 20th, 1915.

"In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as 'Fruit-a-tives'. I was a sufferer from these complaints for five years, and my sedentary occupation, Music, brought about a kind of Intestinal Paralysis—with nasty Headaches, belching gas, drowsiness after eating, and Pain in the Back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives', and now for six months I have been entirely well.

I advise any one who suffers from that horrible trouble—Chronic Constipation with the resultant indigestion, to try 'Fruit-a-tives', and you will be agreeably surprised at the great benefit you will receive". A. ROSENBERG.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

**Sincerity -- Enthusiasm -- Advertising:
Three mighty forces, close-linked.**

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of those will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Production and Thrift

"To win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfillment our success, and consequently our national safety, may ultimately depend."—
SIR THOMAS WHITE, Minister of Finance.

**PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.**

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.

FAIR NOTES

A splendid program has been arranged for the Prince Rupert Fair to be held on the 20th, 21st and 22nd of September.

A good line of exhibits are promised in all industries, a feature in the fishery exhibits being the collection of Mr. C. Harrison of Massett.

Competition will be as keen as usual for the Dewar Cup in the District Exhibit. On recommendation of the judges, a new system of point scoring has been adopted, and this competition has now been placed on the same basis of competition as is in vogue in other parts of the province.

Attractions of all kinds in the way of sports, fireworks, vaudeville, baseball and football are promised, and the usual old time barn dance will wind up the event.

A change has been made as to the distribution of prizes, the directors having decided to use all efforts to pay all prizes on the day of the exhibition this year, instead of mailing them later.

The transportation of exhibits has been considerably improved over the previous years. All exhibits are subject to a refund of all freight paid, provided they are disposed of for charitable purposes. The directors have arranged for all exhibits, the owners of which are willing to send in under the above ruling, to be sent in freight charges collect. The freight will then be paid by the Association and a refund obtained by them. In sending in exhibits under this arrangement, address them to the secretary, N. B. C. Assn., Prince Rupert. The freight must be paid by exhibitor on all exhibits the return of which is desired by exhibitor, in the usual way. All charges for transfer from dock or depot to building are paid as usual by the Association.

ELLA HALL IN "JEWEL" AT WESTHOLME THEATRE

Miss Ella Hall, in "Jewel," a five-reel picturization of Miss Burnham's famous novel, is the big attraction at the Westholme tonight. It is the story of a gruff old aristocrat and his little granddaughter, "Jewel," whom he has never seen, until he is asked to take care of her for a few weeks while her father and mother are abroad. "Jewel" captivates the old gentleman, who hates children, and wins the hearts of all around her. She has been brought up in a Christian Science home and brings her teachings to bear upon every situation with marvellous results. A fine Nestor comedy and the 3rd episode of "The Master Key" complete a very fine show. The musical program will take the form of a piano and violin recital of classical numbers.

"DOCTORED" MUD?

One extraordinary feature of the recent operations on the Somme is owing to the weather. In the earlier days of the advance the heat was extreme, water was very hard to get up to the men in front, and they suffered in places from heat and thirst. Then came the tremendous rains, and the hardships from cold and wet were even worse than they had been in the heat. The condition of the trenches became indescribable. Bombers state that it was impossible to throw bombs with any effect, because no man can throw his best when fixed immovably up to his knees in liquid glue. So extraordinary is the mud—so sticky and glutinous—that there are many who believe that it is not natural, but has been "doctored" in some way by the enemy before he went, a suspicion which is deepened, if not created, by the fact that it seems to produce a great many sore feet.—Scotsman.
