FISHERMEN WILL PETITION PREMIER

The fishermen in this district are getting up a petition for presentation to Sir Robert Borden in regard to the control of the fishing industry on this coast by Orientals. The following is a draft of the petition which is being taken around for signature by the fishermen and citizens generally:

Prince Rupert, Sept. 23, 1916.

To the Right Hon. Sir Robert Borden, Ottawa.

Dear Sir:—Whereas the fishing industry of the North Pacific waters is largely in the hands of Oriental fishermen and as time goes on the fishing trade will become more and more under the control of these people we, the undersigned fishermen and citizens of Northern British Columbia, respectfully petition the Honourable the Premier to enact such legislation as will prohibit absolutely the employment of Orientals in the taking and handling of fish in these waters so that the white race and native Indians are enabled to handle this industry. We, your petitioners, will ever pray.

ALLIES EXTEND MEASURES FOR CONTROL OF SEA

Will Seek to Prevent Depletion of Tonnage—French Submarine Sunk—Struma Bombarded.

(Special to The Daily News.)

London, Sept. 23.—In order to prevent the depletion of world's shipping tonnage, as a result of the submarine operations of the Central Powers, the Allies are increasing their measures for the control of shipping. They claim that it is unreasonable to expect that coal should be expended and other facilities given for the carrying of merchandise for black-listed firms.

French Submarine Sunk.

Paris, Sept. 23.—An Austrian aeroplane has succeeded in sinking a French submarine.

Struma Bombarded.

London, Sept. 23.—British warships have bombarded the Bulgarian positions at the mouth of the River Struma. The Struma enters the Gulf of Contessa in the Aegean Sea, northeast of Saloniki.

CANADIANS LUMBERING IN SCOTTISH FORESTS

The need for timber is due not only to the scant supply coming from Baltic countries, but also to the demand for it at the seat of war. In consequence a call has been made on the forests of Scotland, which they are meeting. The government have selected a large area of timber on the Darnaway and Cawdor estates, and formed a body of Canadians to carry out the work. These men have been selected from the various divisions of the Canadian contingent for their knowledge and experience in timber cutting and saw-milling. A camp for three hundred men has been set up at Broadshay, on the southern edge of the Cawdor estate, and these men are to clear the timber to Culloden, a distance of between fifteen and twenty miles.

At present only a small saw-mill is running, driven by a large traction engine removed from its wheels. The timber cut is all being used to prepare the camp, and a large Canadian mill outfit is being built.

The wood being cut is 65 years old, and compares well with Canadian timber. The men say that it is similar in growth to what is being cut in Eastern Canada, but is of harder fibre.

Other camps of Canadians are at work in Rosshire. The North of Scotland is to be swept of its timber, and in the near future there must be a great scarcity. Among the subjects to be considered after the war will be that of afforestation.—Scotsman.

VICTORIA MAY BE LINKED WITH THE MAINLAND

Dream of Twenty Years May Yet be Realized—Canadian and British Rail and Ship Combine.

(Special to The Daily News.)

Victoria, Sept. 23.—A Royal Commission, which has been appointed to consider the question of Imperial defence, emphasizes the importance of bridging the Seymour Narrows in order to connect Vancouver Island with the mainland, with a view to protecting the continental shore line and its transcontinental railways. The bridging of those narrows has long been a dream of the people of this city and the change would have tremendous commercial significance to Victoria, as well as making for a stronger coastal defence.

Shipping Combine.

London, Sept. 23.—It is stated on good authority that a Canadian railway company and British shipping companies may establish a combine for the purpose of providing a fast trans-Atlantic steamship service between Liverpool and the Dominion of Canada.

BUSH FIRES

(Special to The Daily News.)

Spirit River, Ont., Sept. 23.—The bush fires which have already cleared about four hundred square miles of timber land are now devastating the White Mountain settlement.

Hugh Paton, one of the directors of the Royal Bank and a well known eastern financier, arrived from Montreal last evening, accompanied by Mrs. Paton. They were met here by Mr. Doherty. They left for the south this morning.

Arthur Spurr is on the sick list, having been laid low yesterday morning rather suddenly with what appears to be an attack of appendicitis. His many friends wish him a complete and speedy recovery.

Stewart Kilpatrick arrived last evening from London, England. Mr. Kilpatrick is on the staff of the Bank of Montreal there and is over here on business. This is his first visit home in four years.

The prizes for the band contest went to the Kitimaat Indians, they being the only entrants. The Kitimaat boys rendered magnificent service during the Exhibition, and their splendid work brought forth many comments.

THE DRYDOCK

The letter received by Mayor McCaffery from M. P. Cotton yesterday, in regard to the leasing of the drydock, throws a considerable amount of light on the subject, if it does not hold out much promise of an early starting of work at the plant.

Judging from the letter from Premier Borden to President Chamberlin, in which the premier stated that, after conferring with his colleagues, he had decided that, pending the investigation of the Railway Committee, it would be unwise to lease the plant at the present time, it is quite clear that Hon. Robert Rogers, in his wire to the mayor on Sept. 14th did not state the whole truth when he said that the whole matter was up to the Grand Trunk Pacific. It is apparent that the matter was very much up to the government and that said government did not view the proposal with favor and that President Chamberlin had no alternative but to bow to the will of the premier and his ministers.

In view of the refusal of the government to approve of the scheme of Mr. Cotton and his associates, it is interesting to recall just what that plan meant for this city. After going over the plant here with Mr. Hansard and other officials Mr. Cotton went east to complete his financial arrangements. He arranged a contract for the building of four vessels, to be constructed two at a time which would have occupied two years. He was able to interest Chicago capitalists in the venture and, after Mr. Frost, of Chicago, had paid a visit to the drydock and was thoroughly satisfied with the outlook, he was promised \$500,000 cash to start construction when the lease was granted.

The lease form was actually drawn up and all that was necessary was the consent of the government. This was withheld and, in the meantime, Prince Rupert is still to possess a dead drydock, at a time when every shipyard on the continent is working practically night and day.

Hon. Robert Rogers says that the dock is not yet completed. It is evidently so near completion that Mr. Cotton's company is ready to proceed

with the construction of ships immediately. It may be that there are a few frills missing from the office furniture or a few mirrors lacking, but it is perfectly clear that Mr. Cotton considers the dock ready for business and that should be good enough for Ottawa. Prince Rupert has an opportunity today to break into the shipbuilding business such as it never will have again, and it is a crime that such a plant is held up at such a time.

The investigation of the Railway Committee is liable to take many months; as such committees work very slowly, and the chances are that, if a two years' lease of the plant were given to the Cotton interests, they would be through with their contracts before the commission has its report ready. The time is past for quibbling on the part of ministers at Ottawa and the people of Prince Rupert want immediate action and will see that they get it, or know the real reason why.

NOTES AND COMMENTS

The recent Berlin and Viennese victories over the Russians must have been imaginary as Brussiloff appears to be pursuing his way to Lemberg while the Austro-Hungarians are seeking more comfortable resting places up in the Carpathians.

Wall Street is betting on Hughes. This is a pretty sure sign that "the street" is afraid of Wilson and the heavy betting is being done to intimidate the public. It is an ancient game, not unknown in British Columbia.

Ferocious German attacks on the Verdun front seem to be a thing of the past. Things are turned around the other way now and young Willie's dreams of great victory are fading very far away.

New York state intends to enforce arbitration in the street railway strike. Its intentions are probably perfectly good but it is pretty late in the day to put them into force.

A German division has been recalled from the Russian front to the Somme. They will find that they are out of Brussiloff's frying pan into Joffre's fire.

Hon. Bob Rogers says there

GILLETT'S LYE EATS DIRT

will be no Federal election until after the war. Bob seems to be worrying a lot about that Federal election. Let's go on with the war, Bob and let the election and the new Parliament Buildings take care of themselves.

SPLENDID SHOW AT MAJESTIC THEATRE

"The Saleslady," the five-act Famous Players' production at the Majestic Theatre tonight, is one of the most realistic dramas ever screened. Hazel Dawn, the famous musical comedy actress, plays the part of a saleswoman in a big New York department store and later the part of a foot-light favorite and in each of the scenes the staging is perfect. The adventures of a poor country girl in the city have often been portrayed but never so attractive-

"DICK TURPIN" STORY AT THE WESTHOLME THEATRE

Dick Turpin, the hero of many wild escapades in the days of the stage coach, is the centre of a splendid drama at the Westholme tonight. With Francis Ford and Grace Cunard in the leading roles the play loses nothing in the telling. Greece Cunard, with her quaint mannerisms, adds a touch of humor to every situation which is delightful. This drama is just as thrilling as it is entertaining. There is also a single-act drama entitled "In Borrowed Plumes" and an amusing little comedy-drama called "Cinders," while the funny side of the bill includes a Nestor comedy, "When the Spirit Moved" and "Gertie's Awful Fix", an L-K. O. laughter-raiser.

BASEBALL

The Colts met the Port Simpson Indians in the final ball game yesterday when the local boys won by 11 to 0. The Colts' battery was Menzies and Art Manson, while Green and Ward was the visitors' combination. Ben Self acted as umpire.

ly and truthfully as in "The Saleslady." The cast includes Irving Cummings and other famous stars and the whole is a delightful picturization. There is also a real good comedy and the grand opera selections by the Balagno-Stillwell orchestra round out a splendid evening's entertainment.
