NEW GERMAN SUPER-SUBMARINE -- RUSSIANS TAKE FIFTEEN HUNDRED MORE

GERMAN LINES FORCED BACK ON WESTERN FRONT

Important Gains by Allies—Germans practically Exhausted—Gen. Alderson Transfers to Imperial Forces.

(Special to The Daily News.)
London, Sept. 29.—Following the capture of Morval by the British, the enemy evacuated his positions to the northeast during the night. The result of the Allied victory at Comblès is that the German lines have now been forced back into an arc six miles deep, containing forty-four villages and covering a territory of a hundred and seventeen square miles.

The British and French are forcing the pace while the Germans are practically exhausted. General Sir Douglas Haig's forces are attacking from the north and the French from the south.

General Alderson Transferred.
General Alderson, who commanded the Canadian Expeditionary Force up to the second battle of Ypres, is now being transferred to the Imperial Forces.

MR. SHAW INTERVIEWED RE ALBERTA ELECTION

"As it is only a few days since Premier Sifton returned from Europe, the rumor-makers seem to have been rather enterprising," said R. L. Shaw, member for Stettler, in the Alberta Legislature, when shown the report this morning that there was to be an immediate election in his province.

"Personally, I cannot say with any certainty what basis there is for the story as I have been in B. C. for some time and have not had an opportunity of talking with Premier Sifton since his return. Nevertheless, there is ample justification for an early election in our province. The government, in the past three sessions, has undertaken some sweeping reforms including woman suffrage, prohibition, legislation for farmers' elevators, co-operative farms, trading laws and other measures along those lines. These things are radical departures from what any legislature attempted before the war and the principles of representative government demand that the government which undertakes such departures should have no hesitation about submitting its action to the electorate for ratification."

Mr. Shaw is in Prince Rupert for only a few days, en route for Vancouver where he has manufacturing interests.

THIRD GERMAN MERCHANT SUB. NEARLY READY

Kaiser will be Ready to Sail in a Month—Larger Vessel Than Deutschland—Two Ships Sunk.

(Special to The Daily News.)
London, Sept. 29.—It is reported that the third German merchant submarine will be ready to sail for the United States within a month. The new super-submarine is to be christened the Kaiser and is slightly larger than the Deutschland, which appears to have made the return voyage successfully.

The Bremen.
Dr. T. T. McKenzie of the University of Pennsylvania, reported the other day, on his arrival at Philadelphia, that the super-submarine Bremen was captured by the British navy and is now safely in Falmouth harbor. The Admiralty is silent on the subject, but it is freely discussed in semi-official circles. It is said that the Bremen had \$25,000,000 worth of valuable aniline dyes and precious stones on board.

Ships Sunk.
London, Sept. 29.—The Swedish steamer Stathe and the British vessel Benguela have been sunk.

STRIKE FIASCO?

(Special to The Daily News.)
New York, Sept. 29.—The police assert that the widely-advertised sympathetic strike in connection with the strike of the street railwaymen has never materialized. The unions declare that there are a hundred and forty thousand men out but they refuse to give the names of the organizations to which those men belong.

INTERNED CRUISERS

(Special to The Daily News.)
Newport News, Sept. 29.—Eight United States battleships are conveying the German auxiliary cruisers Kron Prinz Wilhelm and Prinz Eitel Frederick to the Philadelphia navy yard today. The reason for the size of the fleet of battleships conveying the cruisers is that they have to go outside of the three mile limit.

WAR CREDIT

(Special to The Daily News.)
Ottawa, Sept. 29.—Sir Thomas White, Minister of Finance, has cabled to the Chancellor of the Exchequer that the Dominion is advancing fifty millions to the Imperial Government here as a payment on the munitions purchased, as a result of his conference with the Dominion Bankers' Association.

ALBERTA ELECTION?

(Special to The Daily News.)
Edmonton, Sept. 29.—It is rumored that there will be a general election in the province of Alberta on October 23rd.

THE KING VISITS THE FRENCH FRONT

His Majesty talking with Sir Douglas Haig during his recent visit to the Somme front. King George on this occasion was right in the heart of the war zone with the German shells dropping not very far away.

FURTHER TALK OF STEAMSHIP MERGER

For the past few weeks there have been rumors of a merger of the Alaska Steamship Company interests with those of the Pacific Coast Steamship Company. The rumors were denied by both companies but there is reason to believe that some such arrangement has been practically completed and that Mr. Alexander, president of the Alaska S. S. Company will be the head of the combination. The change may affect Prince Rupert as the controlling interest seems to be in the hands of the Alaska Company which has never reckoned that business warranted their vessels calling at this port. On the other hand, there has recently been a large increase in the traffic between Prince Rupert and Alaska and the change may mean an increased number of American vessels calling here.

WESTMINSTER HALL HONORS REV H. R. GRANT

Rev. H. R. Grant received word this morning that the degree of D. D. had been conferred upon him by Westminster Hall. Dr. Grant is one of the pioneers of the Presbyterian Church in British Columbia and knows the province and its people thoroughly. He is not only well known and highly respected but loved by all with whom he has come into contact in his work. Dr. Grant is not only a deep student of the scriptures but also a deep student of mankind. He is much more than a preacher and it would be difficult to find a man to whom the name "pastor" could be more fittingly applied. The hearty good wishes and congratulations of the citizens of Prince Rupert, irrespective of denomination, will be extended to our new Doctor of Divinity.

The two latter boats will go south to Seattle to lay up for the winter after a most successful summer's fishing.

THE AWAKENING

The Toronto Globe has the following to say regarding the awakening of the public conscience, as evidenced by the revolution in British Columbia.

One of the members elected to the Legislature of British Columbia in the recent political revolution writes to a friend in the East: "Nothing is more inspiring than to see how this hopelessly boom-crazed people of five years ago have been driven to their knees and have brought forth a new faith and a new passion for honesty. I look forward with thankfulness to the prospect of public service under such conditions."

Not in British Columbia alone, but in every province of the Dominion, and in the Federal arena, there are evidences of a new faith and a new passion for honesty. The moral awakening of the Canadian people was long delayed, but it has come at last. The graft, the hoodler, the manipulator of contracts, the corrupt railway promoter whose power for evil has been incalculably great, have had their day. From every government hereafter, Liberal or Conservative, there will be demanded a new passion for honesty. The man who obtains a dollar of the people's money will be expected to return a dollar's worth of service. The bribery of the electors with their own money must cease, and the politician who seeks to lengthen his tenure of office by squandering the resources of the country must be given short shrift.

And with this new passion for honesty in politics there is coming a new faith in democracy and a determination that government of the people by the people shall not be defeated through the machinations of entrenched privilege. The sweeping-out of the liquor traffic is one of the first fruits of this new political faith. The extension of the suffrage to

women in the Western Provinces is another. The social reform measures that bulk more largely year by year in political programs mark one line of advance. The determination of the Liberals of the west to wage uncompromising warfare on the high protection policy that breeds trusts and combines, which have put the cost of living in Canada so high that the average man can do no more than make both ends meet, indicate another. The attitude of the West heartens those who have fought for a generation against a tariff that hamstringed agriculture and promotes the unhealthy growth of great cities.

The advocates of railway nationalization raise their heads in both parties and declare that railways built almost entirely with public money or by public bond guarantees ought to be taken over and operated in the interests of the people of Canada. The abolition of the curse of patronage in the appointment of all men and women to the civil service of the Dominion and the provinces is demanded. The secret opening of tenders and awarding of contracts—a source of great and far-reaching abuse—can no more be defended in the case of the larger departments of provincial and national affairs than in regard to municipal contracts. The general utilization for the public benefit of the waterpowers, lands, forests, and mines within the illimitable Crown domains of the Dominion and the Provinces will be a cardinal feature of the new politics.

The speculative holder of lands, waterpowers, forests, and other natural resources has been almost as great a curse to the Canadian people as the distillery and the brewery. The natural opportunities of the Dominion must be made easily available to the worker or capitalist who desires to use them in the production of wealth, and altogether inac-

cessible to the forestaller and exploiter.

A good many of the old type of politicians who have gumshoed their way around these great issues will have to be discarded if the new faith and the new passion for honesty of which the British Columbian speaks are to find expression in the statute books. They will fight for the old ways and the old dishonesties and the old compromises, but theirs will inevitably be a losing fight. The dead hand must be loosed from the helm if the ship of State is to avoid shipwreck.

STEALING LIQUOR

Evidently thinking that liquor was of little more use to the wholesaler, since the prohibition bill has passed, an unknown man yesterday attempted to get away with two bottles of liquor from the warehouse of the Prince Rupert Importing Company. He was brought back and the police sent for but the stranger was evidently not anxious to make the acquaintance of the gentlemen at the city hall for he took a flying leap through a window and disappeared.

"MADAME LA PRESIDENTE"

AT MAJESTIC THEATRE

Anna Held, the world-famous comedienne appears for the first time on the screen at the Majestic Theatre tonight and tomorrow, in "Madame La Presidente." Ejected from the Hotel Boulogne after a gay party, Anna calmly establishes herself for the night in the home of M. Augustin Galipaux, the judge issuing the order. As Madame Galipaux has just left for Paris this leads to extremely amusing complications. The flabbergasted magistrate surrenders to Anna's threats and charms and the true zest of the play is brought out in the respected old Ministry of Justice in Paris, when the august Minister himself takes up the task of the gay soubrette's cavalier. It is one of the most amusing plays imaginable. There will be a special matinee on Saturday from 3 to 5.

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

**Sincerity -- Enthusiasm -- Advertising:
Three mighty forces, close-linked.**

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

LABOR PARLIAMENT TACKLES BIG PROBLEMS

Toronto, Sept. 26.—Urgent necessity for immediate action by the Dominion Government to control food prices, under the War Measures Act, and opposition to establishment of compulsory military service in Canada was recommended to the delegates of the convention of the Canadian Trades and Labor Congress yesterday in the report of the executive committee. The report also spoke for participation by Canadian labor in the peace conference proposed by the American Federation of Labor, for all labor bodies in Europe and America after the war; appointment of a commission on industrial conditions; nationalization of railways, mines and public utilities; an extensive system of highways; adoption of a policy for close land settlement which will provide sufficient aid to guarantee the right kind of settlers and insure social amenities; shortening of the work day to provide employment for unemployed; a gradual disbanding of enlisted men covering a period of at least two years, and increase of pensions for soldiers and incapacitated soldiers, with no distinction between children of officers and men; a vote of \$20,000 to buy permanent quarters for the Trades and Labor Congress in Ottawa.

A new draft act to take the place of the present Industrial Disputes Act, which was drawn up by the executive's solicitor, will be discussed this afternoon in the presence of the minister of labor and Mr. O'Donoghue.

There were three cars of fish on the train for the east this morning.
