Take Trenches—Driven Back—and Take Them Again—Faced Very Heavy Machine Gun Fusillade.

(Special to The Daily News.)

Ottawa, Oct. 13.—A cablegram from London to the Militia Department announces that the Canadians have been engaged in particularly desperate fighting on the Somme front. The encounter has lasted almost incessantly all week and the British and Canadian forces attacked along a frontage of thirty-five hundred yards.

They captured several German trenches but were driven back into the barbed wire entanglements, where the enemy directed a terrible machine gun fire into the ranks of the Canadians. The men from Canada again advanced and succeeded in penetrating the German trenches and inflicted severe casualties upon the enemy. It is feared that the Canadian casualties are heavy, the battalions from Ontario, Manitoba, Alberta and British Columbia being the greatest sufferers.

MISS ELIZABETH BANKS RETURNS TO RUPERT

Miss Elizabeth Banks, the well known journalist and authoress, returned this morning from Seattle, where she has been visiting for two weeks. Miss Banks is an American citizen who is equally famous on both sides of the Atlantic. For years she has done special work for the London Daily Express and is touring this country and the United States gathering data for a series of articles for that journal, and incidentally material for a novel dealing with Canadian life. This talented lady has devoted much of her time and energy on behalf of the Red Cross Society since the war broke out, and has been instrumental in raising large sums through the sale of delightfully interesting little dog stories.

Miss Banks holds strong views as to the place of the United States in the present world's crisis and is not afraid to express them. She is a great admirer of the ability and strength of Col. Roosevelt. Miss Banks will be in Chicago during the presidential election campaign and will write it up for the London Express.

(Special to The Daily News.)

London, Oct. 13.—The International News Service, Hearst's organization which collected and distributed war news throughout the United States and Canada, has been denied all further use of the official press bureau cable and other facilities for news transmission, on account of its garbled war despatches and breaking faith with the bureau.

TAX SALE

At the opening of the city tax sale yesterday morning, William Beveridge entered a protest on the ground that the sale would not be valid, by reason of an order-in-council passed some time ago. City Solicitor Peters assured intending buyers that the sale would be perfectly valid.

Bidding was quite brisk, particularly for property anywhere in the vicinity of the drydock. F. W. Hart bought in a double corner on Third Avenue for \$1,736.94, but most of the inside property went to the city, most of the bidders devoting their attention to outside lots which did not carry such heavy responsibilities. When the sale closed, everything had been disposed of except the section 8 lots and these were sold this morning.

The halibut schooner Alameda brought in 9,000 pounds of fish this morning.

TRADES AND LABOR COUNCIL MEETING

At the regular meeting of the Trades and Labor Council on Tuesday evening, over which S. D. Macdonald presided, credentials were presented by J. Dean, representing the Engineers' and J. Pilford, representing the Longshoremen's Union.

A communication from the Legislative Committee of the Board of Trade was read, regarding the proposal to remove the embargo on foreign labor into British Columbia. Messrs. W. E. Thompson, J. J. Anderson and J. Pilford were appointed as a committee to confer on the matter.

The meeting endorsed the principle of a petition now being circulated by local fishermen, requesting Premier Borden to take steps to abolish Oriental labor in coast fishing.

The question of the right of certain restaurants in the city to hold a union card was also brought up. It will be reported upon at next meeting.

Arthur Cuthbert has been engaged to make a canvas of the city, to see to it that, from a Trades and Labor standpoint, as many names as possible are enrolled on the municipal voters' list. J. Morrison, of the Electrical Workers' Union, was elected treasurer, vice A. J. McLennan, who is leaving the city.

FISHING QUESTIONS

The time of the meeting of the Fisheries Advisory Board at Ottawa is drawing near and F. H. Cunningham and D. N. McIntyre, the British Columbia representatives on that board, will shortly be in Prince Rupert to gather information and hear complaints from the fishermen. Last year the fishermen brought many matters before these gentlemen with no results, so far as changes in the regulations governing salmon fishing were concerned. It behooves the fishermen and all interested in the fishing industry, and every man in Prince Rupert is interested directly or indirectly, to get busy immediately in the preparation of the various questions which should be brought once more to the notice of the board.

The salmon fishing situation is just where it was, with the canneries controlling the business as they please. The matter of boat rating should be again taken up and pressed firmly home. Another matter of the greatest importance is the conservation of the fish, which is always made the plea of the department, when dealing with any request for wider scope in salmon fishing. It is stated by men who ought to know that the salmon are not reaching the head waters of the rivers as they ought, and that one reason for the marked decrease in the sockeye run is that conditions in the rivers are far from satisfactory. Ottawa depends largely upon the reports from the hatcheries in forming its opinion of this branch of the industry, and it would do no harm if men who know the practical end of the salmon industry were to go

into this phase of the question carefully.

The question of using dog or humpback salmon for bait should also be again gone into. The department will doubtless tell us that salmon are much too valuable to use for halibut bait, but we know that the Japs are shipping hundreds of thousands of salted dog salmon to Japan, which could be put to a much better use as bait for halibut. It is also stated that on one day, not many miles from Prince Rupert, a fisherman dumped 20,000 humps overboard because they were not wanted at the cannery. This seems strange, in a season when everything with scales on was packed, but this information comes from a reliable source and the matter should be taken up with the department. Twenty thousand humps would provide bait for two thousand halibut trips easily.

One of the most important matters is the shipping of halibut in bond from Prince Rupert to Seattle. The privilege of shipping halibut in bond by steamer to an American port was enjoyed without a murmur of complaint for over a year, but it was suddenly withdrawn on the plea that it was a contravention of an old order-in-council, which was framed before Prince Rupert came into existence. American fishing concerns were induced to come to Prince Rupert to carry on the northern part of their business and, needless to say, their presence here is welcomed. Surely it is ridiculous that Ottawa should make it as hard as possible for those firms to carry on that business. A special order-in-council was framed for the benefit of the

halibut industry here, and, under it, that business has grown rapidly, surely it would be a simple matter to have a clause added to that order permitting the shipment of halibut in bond to Seattle by steamer, instead of having to transfer the fish to rail at Vancouver as at present. There are many other points of importance to discuss and it is time the fishermen got busy.

NOTES AND COMMENTS

The University professors in the new Greek cabinet must have sustained a rude shock when that ultimatum was presented to them. Constantine will now have to devote his attention to something more to the point than appointing new premiers.

To Premier Asquith's statement regarding the acceptance of a "precarious, dishonoring compromise, masquerading under the name of peace," every man in the British Empire will say "Amen."

That three hundred million British war loan is the thirteenth. It will probably prove unlucky for poor Wilhelm.

Those Calgary soldiers who tore things up the other day are evidently spoiling for a fight. It must be about time to ship them over to Europe where they will get plenty of it.

Devline, M. L. A. in Saskatchewan, got three years hard labor for accepting a bribe. A few more such sentences and Canadian politics will become pure as snow. It would be a good idea to attach a similar penalty to the acceptance of all middlemen's commissions on war orders.

The Bavarians are reported in Rumanian territory. They will probably find that they are very far away from home.

It is very appropriate that French aviators should cause sparks to fly in a magneto factory.

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-tives because I have tried other remedies and they did me no good". On the other hand, the fact that "Fruit-a-tives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. FAMOUS PLAYERS STARS AT MAJESTIC THEATRE

Cleo Ridgely and Wallace Reid are the Famous Players' stars at the Majestic tonight and tomorrow, in "The Love Mask." It is a gripping story of the gold rush in California in 1849. It tells of the adventures of a young lady who is bereft of her parents and is forced to seek out a claim for herself. She strikes it rich, only to have it taken away from her. She disguises herself as "Silver Spurs," a notorious bandit; the sheriff falls in love with her and is torn between love and duty, and many exciting things happen. It all comes out right in the end but there are many thrilling incidents before the final curtain

WESTERN SCOTS ARE SPLENDID BATTALION

Richard Sullivan, better known as "Paddy" Sullivan, says he cannot take credit for being in the South African war, as, previous to his experience in the present campaign, from which he has just returned, he had been only in the Egyptian war. Pat says there is a big difference between the war of his earlier days and that of today. In the old days, it was a kind of a straightforward, go right ahead business, but today, it is a case of dodging bombs from the air and submarines on the sea. Pat, if he cared, could tell many thrilling stories of the Zeppelin warfare over England, but he thinks the censor would not approve of them. The point that struck him most forcibly in England was how everybody is taking part in the war, the women being particularly active wherever their services can be used. He is proud of the fact that he

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

Sincerity -- Enthusiasm -- Advertising: Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

ST. ANDREW'S SOCIETY IN FLOURISHING STATE

St. Andrew's Society held its monthly meeting last evening in the rooms on Third Avenue, when S. D. Macdonald presided over an attendance of about fifty members. In opening the meeting, the president referred to the war and the part played in it by the members of the society. He made feeling reference to the fact that four members of the society, John Watt, James Russell, Roy McKinnon and James Stewart, had within the past few weeks, laid down their lives for their King and country.

Fourteen new members were initiated, which is a record number for any one meeting. Thomas McMeekin was appointed second vice-president in place of Dan McLean, who has gone to the old land, and Howard Steen was added to the board of directors.

In spite of the fact that a large number of the members are on active service, the society is in a flourishing condition and has ambitious plans for the coming winter. The following entertainment committee was appointed to prepare for the winter session: E. H. Patterson, J. G. Steen, Thos. McClymont, Frank Moore and James L. Lee.

Refreshments were served and a most enjoyable musical program was rendered. It included selections by the St. Andrew's orchestra, composed of James Lee, W. Vaughan Davies and C. R. Murray, and songs by R. Dowther, J. G. Steen, Frank Moore, James Sturgeon, C. W. W. Gauld, W. H. W. Murray and W. Vaughan Davies. Mr. Davies played the accompaniments in his usual efficient manner.

CHARLIE CHAPLIN AT WESTHOLME THEATRE

There is a monster program at the Westholme Theatre tonight, the chief item of which is "The Count," Charlie Chaplin's latest. It is some little time since this famous comedian was in the city and there will be a large audience to greet him tonight. "The Count" is—well, just Charlie. The rest of the program is of a high order, including "The Frame-Up," a splendid drama in which the famous actor George Fawcett plays the lead, while the third episode of "Liberty" will also be included. This serial of Mexico is a thriller, containing some great work by Eddie Polo, while Marie Walcamp makes an attractive heroine.

FRIDAY 13TH.

This is Friday and the 13th, an ominous combination, but so far nothing has happened, except that the boat from the south was late in arriving. It may be that some of the halibut schooner skippers have put off their time of departure until after midnight, but they will not say much about it.
