ENEMY BECOMING DEMORALIZED--RUSSIANS HAVE TAKEN TRENCHES IN GALICIA

ALLIES DRIVE ENEMY TOWARD SOMME VALLEY

Germans Have no Railway Behind Them—Allied Methods Have Demoralized German Soldiers.

(Special to The Daily News.)

Paris, Oct. 18.—The French and British are driving the enemy from their higher positions towards the Somme valley where there is no railway behind them and the only avenue of escape is over artillery strewn roads which are badly cut up by shell fire.

The numerous defeats in small sections of this front are demoralizing the Germans who are greatly harried by the suddenness of the Allied attacks. The French and British advance is being carried out systematically in short, sharp attacks at unexpected points and the Germans are greatly disconcerted by the zig-zag movements. The Germans have always relied upon straightforward attacks, trusting to their weight of numbers to carry them through. The Allies, after gaining a point, instead of thrusting forward, turn suddenly to either flank often completely outwitting the German aeroplane scouts. The French have captured another thousand prisoners.

Belgians Rebel.

Three hundred Ghent workmen for refusing to operate in a German munition factory in Belgium have been arrested and sent to Germany. Twelve who resisted arrest were shot.

SOLDIERS' VOTE MAKES VERY SLIGHT CHANGE

Victoria, Oct. 18.—The following are the returns from the soldiers' votes cast in Canada in the three northern constituencies:—

Prince Rupert—William Manson, 24; T. D. Pattullo, 19.

Omineca—F. M. Dockrill, 6; A. M. Manson, 5.

Atlin—F. H. Mobley, 18; W. X. McDonald, 6.

T. D. Pattullo's majority is now 151; A. M. Manson's majority is 173, and F. H. Mobley's majority is increased to 57. There is no possibility of the vote cast in Europe altering the result in either case.

JUDGE CARSS HEARS FROM THE TRENCHES

Judge Carss received a letter from Lieut. Adair Carss last evening. The letter was written on Sept. 29th, after the boys had been through some gruelling fighting. Adair's platoon was very fortunate in that it lost only one man and he but slightly wounded. Captain Brandt and Captain Halsey are with him "somewhere in France."

He describes a British cannonade of an hour and a half, preparatory to an infantry advance, as something terrific. He says he cannot see how any living thing could survive the hail of fire. The boys are all well and hearty.

WONG SING TAKEN ON SERIOUS CHARGE

The city police have had a busy time for the past few days trying to round up the Chinaman who smashed a compatriot over the head with a musical instrument. As Chinamen look very much alike to a white man, it was no easy job, but members of the force secured their man late last night near the corner of Third Avenue and McBride Street. Accused is called Wong Sing, which probably accounts for his musical proclivities. He was brought up today at the police court when the charge was read over to him. He was remanded for three days. The injured man is still in pretty bad shape but will recover.

RUSSIANS USED BAYONETS WITH DEADLY EFFECT

Trenches Taken in Hand to Hand Fighting in Galicia—The Rumanians Drive Back Invader.

(Special to The Daily News.)

Petrograd, Oct. 18.—Despite excessive rains and fog, which have been impeding operations on the Galician front for some days, the Russians have captured several trenches by using hand grenades followed by bayonet attacks as their plan of assault. The movements were carried out under cover of darkness, the Russians taking advantage of the Germans' fear of such style of attack.

On the southeastern portion of the Vladimir-Volynski front the enemy have been obliged to bring up reinforcements to assist their best regiments in contesting the advances of the Russians.

In Transylvania.

Bucharest, Oct. 18.—The Rumanians in the vicinity of the border passes continue to cling tenaciously to their positions and are striving hard to hold back the Austro-German invaders, who have been driven back across the frontier in the Uzul Valley.

Norway Loses Another.

Christiania, Norway, Oct. 18.—The Norwegian steamer Kongalf has been sunk.

CAPTAIN RALPH ASSER DANGEROUSLY WOUNDED

Mrs. R. Asser, who has resided with her sister, Mrs. H. E. McMillan, of this city for the past few months, has just received a cable stating that her husband, Captain Ralph Asser, has been dangerously wounded in the recent heavy fighting on the western front. Captain Asser has been at the front for about eighteen months. This is the second occasion on which he has been wounded. It is to be hoped that he will make a rapid and complete recovery.

RED CROSS WORK

Mrs. Woodland and Mrs. Mobley will have charge of the Red Cross sale of home cooking in the rooms on Third Avenue on Friday. The boys have been through some very heavy fighting recently and there are certain to be many casualties. An extra effort is required to provide hospital necessities and all ladies are asked to contribute what they can in the way of home cooking.

A. Schmit and W. Gabrielsen, who have been in the north for some weeks collecting information for the Norwegian government, left for the south last night on the Chelohsin. Mr. Schmit is an official of the Norwegian Forestry Department and Mr. Gabrielsen is a journalist.

SERBIAN FRONT.—The shaded portion of this map shows the Serbian and British advances in the region of Lake Ostrovo in Greece.

W. R. ROSS WILL LIKELY BE COUNTED OUT

Prince George, Oct. 13.—Hoping confidently that the result of the soldiers' vote will yet defeat Hon. W. R. Ross, minister of lands and forests in the Bowser government, the people of this riding are at present enjoying the somewhat dubious distinction of being the only riding in the province to apparently endorse a Bowser cabinet minister. Mr. Ross has a lead of 29 over John McInnes, which may be increased or decreased to some extent when the recount is made.

Will Protest.

If the soldiers' votes do not overcome that lead and give Mr. McInnes a majority, as expected, then it is likely that a protest will be made and perhaps a by-election held, in which case it is almost certain Mr. Ross would not be a candidate—if he would he would probably lose his deposit, as practically his whole "strength" lay in his having control of the government machine, which was a powerful weapon in such a large and unwieldy district as Fort George. This, of course, was the reason Mr. Ross made himself a "political fugitive from Fernie," as he was described by M. A. Macdonald here, and ran in this constituency.

A Costly Win.

It is said here that Mr. Ross during the campaign forgot himself for a moment one day and told some of his supporters that "they should have given him \$75,000 to win this district instead of \$50,000." It may seem a large sum, even \$50,000, but the way the money was spent right and left in this riding would make almost anyone believe that Mr. Ross was right—they should have given him about a million to make it safe.

SOLDIERS' VOTES

(Special to The Daily News.)

Vancouver, October 18.—The counting of half the soldiers' votes for the city of Vancouver was checked yesterday and the returns so far give W. J. Bowser a gain of 99 over the civilian ballot cast for P. Donnelly, the sixth Liberal elected. W. R. Ross, in Fort George riding, now leads John McInnes by only 17 votes.

GREEK CAPITAL CONTROLLED BY ALLIED TROOPS

Constantine Hastens Back to Athens—Allies Take Over Three Warships—Snow Hampers Italians.

(Special to The Daily News.)

London, Oct. 18.—Following the receipt of a note of an extremely grave character, King Constantine hastened to the Greek capital.

French and Italian sailors occupy Athens and Piraeus and the railway stations are guarded by Allied troops while machine gun batteries have been mounted in the municipal theatre at Athens.

The Allied fleet has taken over the Greek battleships Kilikis, Lemnos and Averoff, which were exempted from the recent order for dismantling.

Serbian Front.

The hostilities on the Macedonian front are confined to engagements between small advance patrols and artillery duels.

Italian Front.

In the Austro-Italian theatre of war, snow on the mountains and rain in the valleys are interfering with military movements. Winter sets in early in the Trentino and it is expected that snow will shortly seriously retard operations in the Alps.

DEATH CONQUERED

All that our wonderful dead relinquish they bequeath to us; and, when they die for us, they leaves us their lives, not in any strained, metaphorical sense, but in a very real and direct way. Virtue goes out of every man who falls while performing a deed of glory; and that virtue drops down upon us; and nothing of him is lost and nothing evaporates in the shock of a premature end. He gives us in one solitary and mighty stroke what he would have given us in a long life of duty and love. Death does not injure life; it is powerless against it. Life's aggregate never changes. What death takes from those who fall enters into those who are left standing. The number of lamps grows less, but the flame rises higher. Death is in no wise the gainer so long as there are living men. The more it exercises its ravages, the more it increases the intensity of that which it cannot touch; the more it pursues its phantom victories, the better does it prove to us that man will end by conquering death.—Maurice Maeterlinck in "The Wrack of the Storm."

REPLACING THE BAR

On Sunday evening, Rev. Dr. Grant opened up a very important subject and one which should engage the earnest attention of every citizen of Prince Rupert, namely—what is to replace the bar when prohibition comes into force? To very many men, particularly those who are away from town for weeks and months at a time, the bar has become a sort of club. It is frequented by many men who are not hard drinkers, but who simply have got into the habit of meeting

with old friends in this way. Reformers have said a great deal about the demon drink, but there is no doubt that the average man who is in the habit of frequenting the bar does not do so because he is driven by a craving for liquor, but simply that he has met a friend whom he wishes to entertain, and his habit of casual entertainment runs along that line.

Something to take the place of the bar must be provided, in fact, will provide itself, simply because the demand for some such place will remain, and wherever there is a demand for anything there is some sort of a supply forthcoming. There is, of course, the story of the wife who had a drunken husband who failed to respond to all treatment and when the minister asked her if she had tried everything, she replied, "Yes, even to putting sawdust on the floor and a barrel marked XXX in the corner, but it was of no use." The substitute for the bar need not resemble a bar-room, nor must it show any sign of being an effort to reclaim the former frequenter from his old habits. It must be something which the fisherman, the miner, and the man from outside the city will drop into naturally, and, once having been there, will go back in the natural order of things.

The average man, and we are all average men, hates to feel that someone is trying to reform him. It must be an unconscious changing of the old habits for new, resulting from an appreciation of the fact that the new plan is better than the old. With the bar gone, men will look around for some place of entertainment.

Killing the Calves

—All sorts of excuses are offered for the high price of beef, the most plausible being the alleged demand for veal—"the killing of calves which should be allowed to grow into regular beef." You cannot have beef if you eat it as "veal," but you can have Shredded Wheat Biscuit which contains more real nutriment than beef and costs much less. Shredded wheat biscuit is the whole wheat steam-cooked, shredded and baked. Make it your "meat" for ten days and see how much better you feel. Wholesome and strengthening for any meal with milk or cream or in combination with fruits.

We already have billiard rooms, picture shows, etc., which will undoubtedly benefit from the fact that the bar is gone and will be found by many to be a good substitute, but there will arise a need for more "homey" quarters in which a visitor and his friends might meet and spend a few hours resting and talking over old times. It is early yet to lay any definite plans, but it is not too early to begin thinking things over and preparing for the future. Dr. Grant has had a wide experience of men and is well fitted to assist in making arrangements along this line, and it would be a splendid thing if citizens could get together and talk things over. When the bar is taken away, something must take its place.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

Sincerity -- Enthusiasm -- Advertising: Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

HELEN HOLMES AT THE WESTHOLME THEATRE

This is "Helen Holmes" night at the Westholme Theatre when the seventh episode of "The Girl and the Game" will be presented. Miss Holmes' great daring has earned her a world-wide reputation and each week her audiences experience a new thrill. There seems to be nothing in the way of jumping trains and swinging across bridges that this movie star will not attempt. There is also a three-act "Mustang" feature and a Mutual Weekly showing the latest events the world over and also the daintiest of Parisian fashions. Lenore Ulrich is coming for Friday and Saturday in "The Heart of Paula."
