FRENCH BREAK THROUGH ON VERDUN FRONT

MANY PRISONERS TAKEN AND GREAT GAINS MADE — KAISER ON SOMME FRONT

FRENCH BREAK HUN LINES ON VERDUN FRONT

Ground Gained in one Day Took
Germans Two Months' Hard
Hammering to Capture
—3,500 Prisoners.

(Special to The Daily News.)

Paris, Oct. 25.—The French attacked on a front of seven kilometres on the Verdun front and broke through everywhere, advancing to a depth of three kilometres in the centre. The French captured the fort and village of Douaumont and advanced beyond Thiaumont, occupying the farm, around which there was so much desperate fighting some months ago and also the Haudremont quarries.

3,500 Prisoners.

Three thousand, one hundred prisoners were taken in this great new Verdun offensive and an enormous quantity of war material.

Military experts declare that the French forces, under General Neville, accomplished with lightning-like suddenness in a single day what the Germans required two months of continual hammering and enormous losses to procure.

The Allies are preparing to engage the enemy in every theatre of war, possibly with the purpose of relieving the pressure of the Germans against Rumania on the Dobrudja and in Transylvania.

CONSTANZA IS EVACUATED BY THE RUMANIANS

Bucharest and Berlin Both Claim
Captures—Rumanians and
Russians are Still
Retreating.

(Special to The Daily News.)

Bucharest, October 25.—The Germans, Bulgarians and Turks continue to compel the Rumanians and Russians to retire on the Dobrudja front. The Allies have secured several hundred prisoners and ten guns in the fighting of the last two days.

Constanza, the Black Sea port on the extreme east of this part of the Rumanian front, has been evacuated and enemy occupation permitted. It is reported that the Russians and Rumanians decided recently on this plan as a necessary part of their retreat, as it allowed them to shorten their line.

Berlin Report.

Berlin reports that the Russians and Rumanians have been forced to evacuate Constanza and that the Germans have taken six thousand, seven hundred prisoners in the recent fighting.

CHIEF CONSTABLE MINTY MOVED TO FORT GEORGE

Chief Constable Minty, who has been in Hazelton for two years and a half, has been transferred to South Fort George, where he will have charge of the combined districts of Fort George and Tete Jaune Cache. H. Taylor, of Tete Jaune, will succeed him in Hazelton.

Last Friday evening Chief Minty was entertained by a large gathering of friends at the Hazelton Hotel, when he was presented with a handsome meerschaum pipe as a token of esteem. R. S. Sargent presided and H. H. Little acted as toastmaster. Short speeches of appreciation of the chief's good qualities were made by Dr. Wrinch, H. B. Campbell, S. H. Hoskins and S. J. Martin.

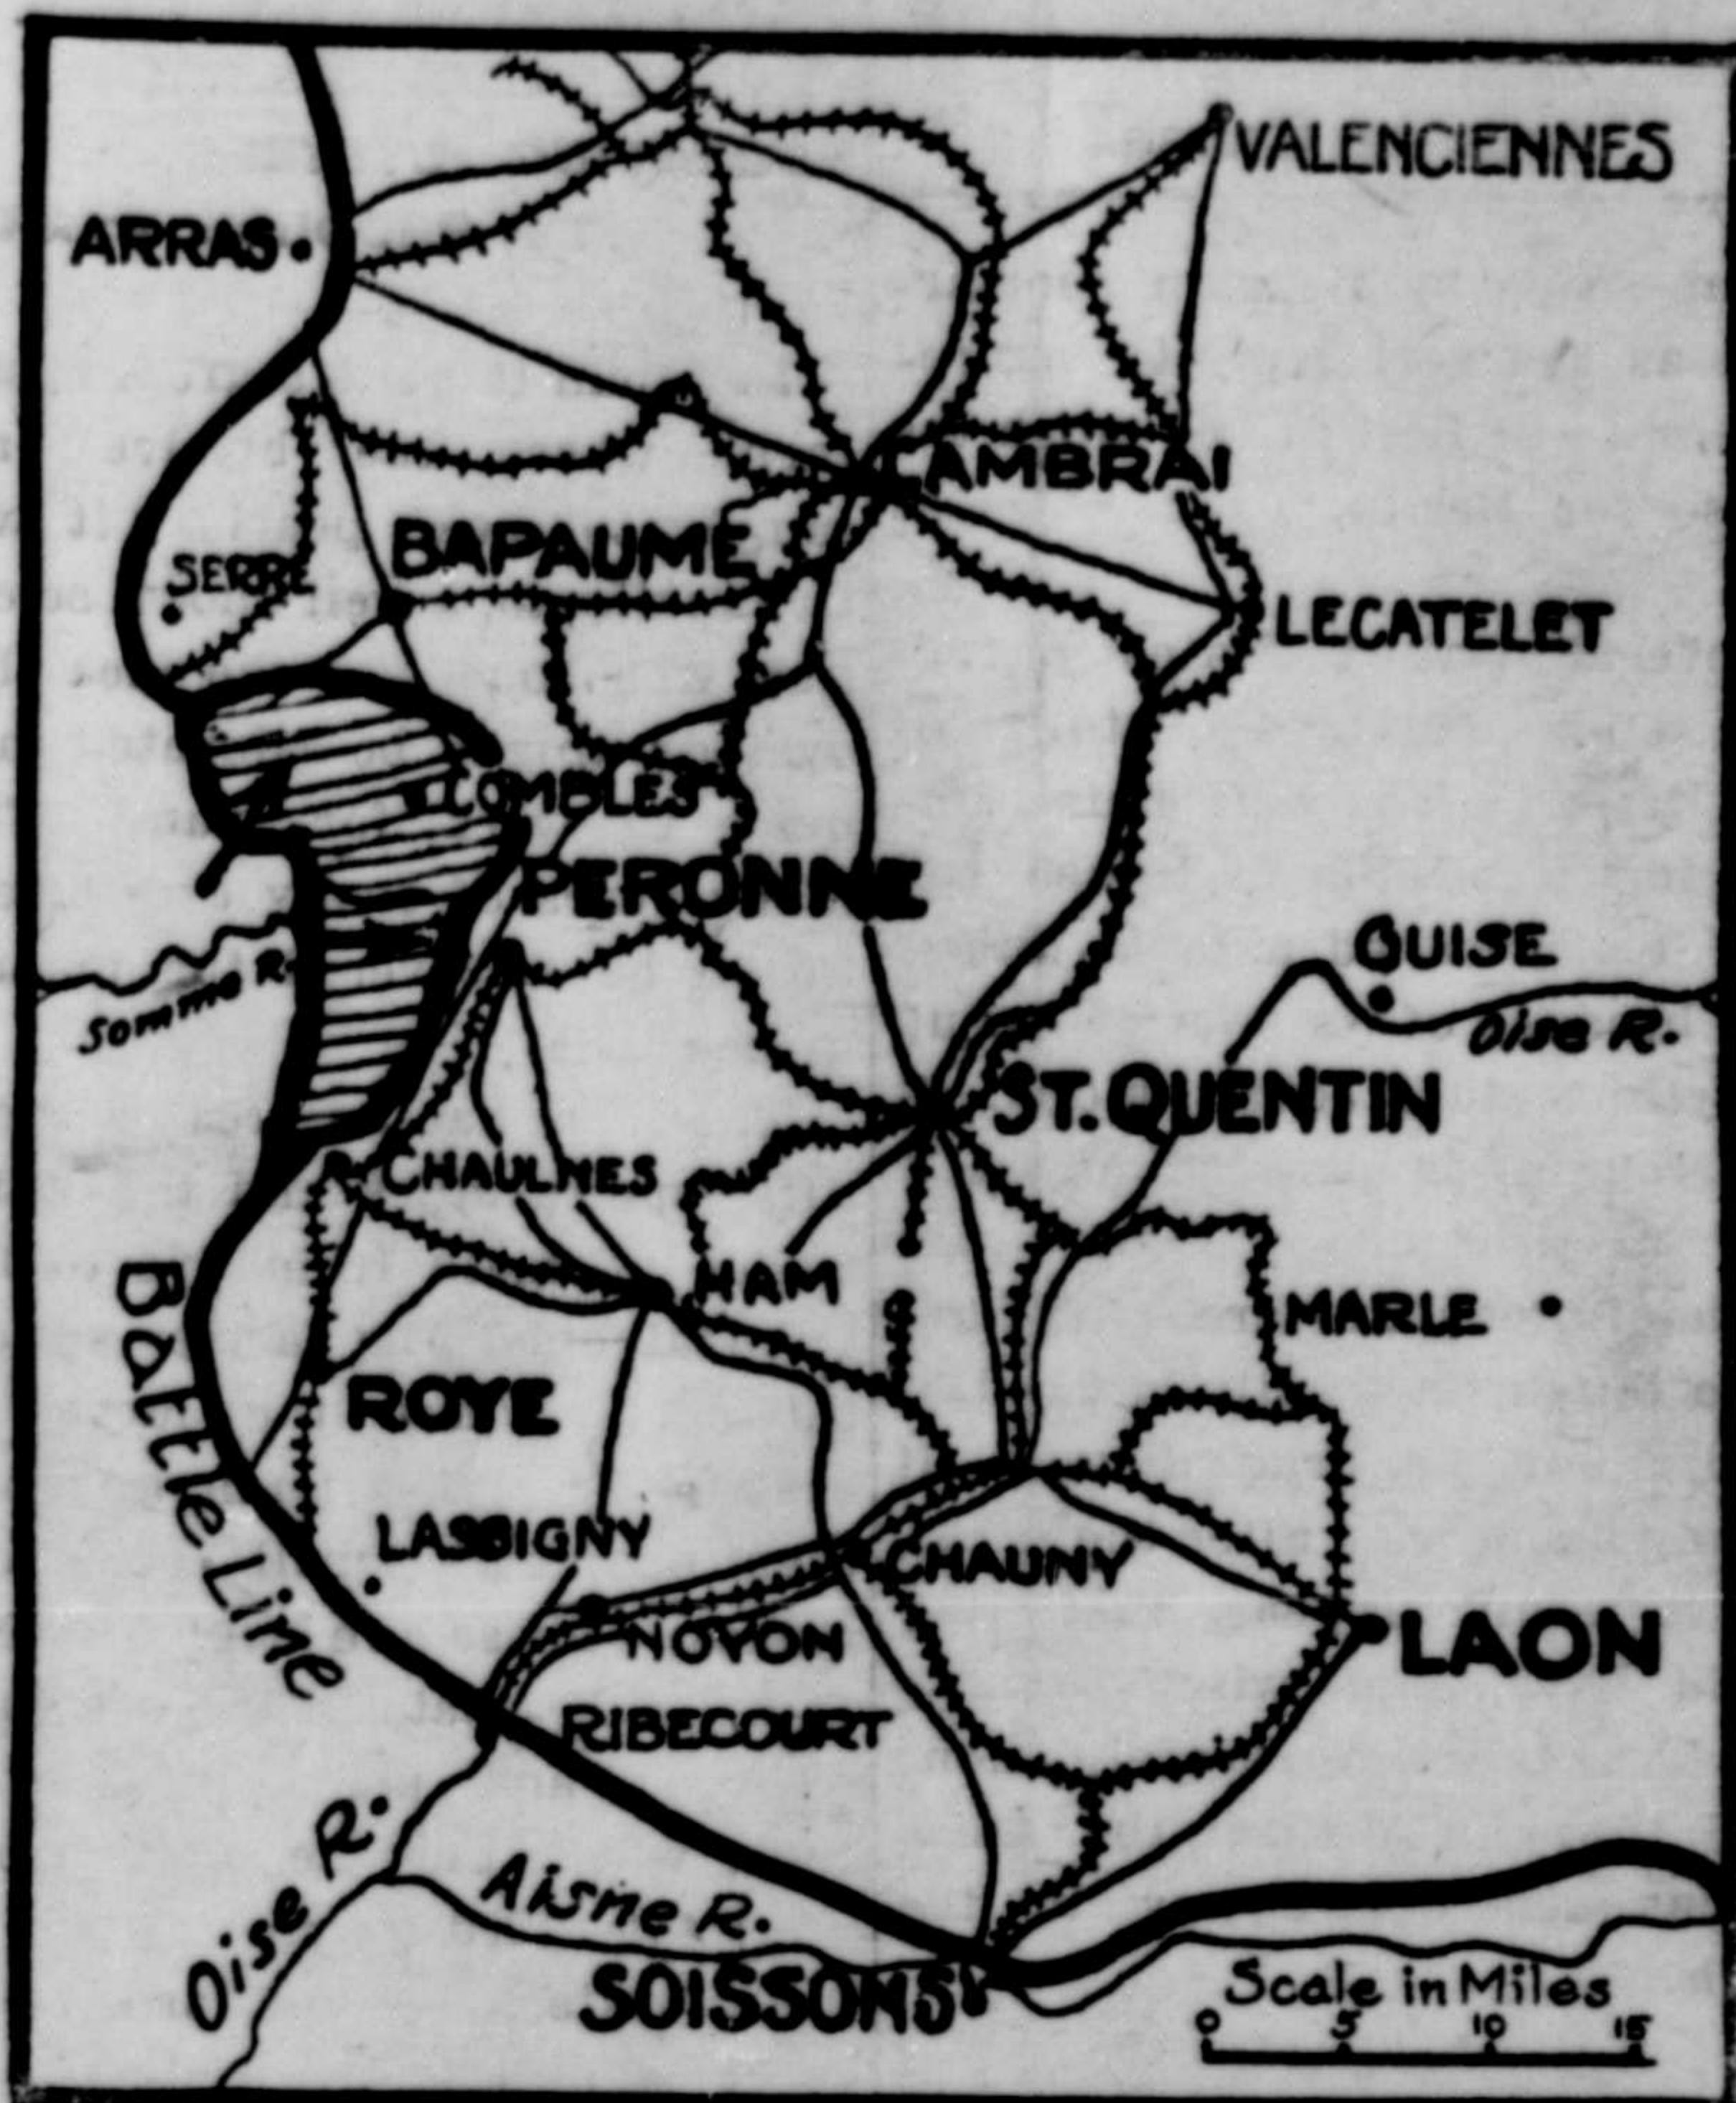

HALIBUT RECORD

Today noon halibut reached the record price of 11½ cents per pound, the Booth Fisheries paying this price for the 70,000 pounds brought in by the schooner Progress. The fare of the North Cape sold for 11 cents.

QUIET WEDDING

At the home of Mr. and Mrs. Morte Craig last evening, Miss H. C. Trees, of Tokomi, Indiana, was married to Mr. C. E. Bainter. The ceremony was performed by Rev. Dr. Grant, after which the wedding party was entertained by Mrs. Craig. Mr. and Mrs. Bainter have taken up their residence in the McMorde Apartments.

Thomas Ellis, one of the best known timber men on the coast, arrived from the east last evening. He left for the south this afternoon.

BIG FRENCH ADVANCE ON SOMME

The accompanying map shows the region in which the French captured three and a half miles of German trenches recently, after shifting their line of attack to the south of the Somme River. On this occasion the French took Bovent and twelve hundred prisoners. The shaded portion shows the advance.

GEORGE KERR BURIED BY BURSTING SHELL

George Kerr, who was reported wounded recently, was a brother of Pete and "Billy" Kerr, both well known members of St. Andrew's Society who left for overseas over a year ago. George enlisted at Saskatoon but gave Prince Rupert as his home, as his wife has taken up her residence here.

Mr. Kerr had an extraordinary experience. He was returning from the trenches for a supply of ammunition when a shell came hurtling along, causing him to take shelter in a shell hole. Immediately after, another shell came along and buried him, fortunately leaving his head clear. He was picked up by a stretcher party after he had lain unconscious for eight hours, practically buried alive. He was removed to hospital in Boulogne where he is recovering from the shock.

His brother Pete has been transferred from the Canadians to the Black Watch, one of the most famous of Scottish regiments. "Billy" Kerr has been invalided back to the old country, rather seriously ill, but it is hoped that he will make a good recovery.

FRIDAY'S SALE

The Red Cross sale on Friday will be in charge of Mrs. Smith, of Digby, and Mrs. W. T. Kergin. Ladies are again reminded that lots of home cooking can be disposed of. These sales are very successful but the list of contributors varies considerably from week to week. It would be a splendid thing if the ladies would think of Friday always as Red Cross day and make a habit of sending something every Friday. On this occasion, J. C. Gavigan has kindly donated a crate of fruit valued at \$10.

RAILROAD STRIKE MAY BE AVERTED

(Special to The Daily News.)

Winnipeg, Oct. 25.—The Canadian Pacific Railway Company is granting certain of the concessions demanded by its employees, which undoubtedly will postpone the strike which otherwise would have taken place this evening. Nothing had been definitely decided upon by the representatives of the men at four o'clock this morning. The conference was resumed at nine thirty to discuss the fresh proposals.

FRED ADAMS KILLED BY A BURSTING SHELL

William Adams received last night letters of sympathy from Lieut. J. D. MacLean, Tom Medhurst and Howard Hill, on the death of his brother Fred. Each soldier speaks in the highest terms of Fred as a soldier and his company miss him greatly. Fred Adams was killed by a bursting shell while he was digging a communication trench on September 27th. Confusion brought instant death. Howard Hill was within a few feet of him when he was killed. The boys have made a cross for Fred's grave and Lieut. MacLean is sending a plan of the country showing the grave in case any member of the family wishes to visit it later.

KAISER VISITS SOMME FRONT NEAR BAPAUME

Germans Bringing Up Artillery
and Infantry for Huge
Counter-Attack—Rain
Interferes.

(Special to The Daily News.)

Paris, Oct. 25.—The Kaiser, after his conference with the Imperial Chancellor in Berlin, has arrived on the Somme front. He is personally supervising the preliminary arrangements for the arrival of strong artillery and infantry reinforcements in the vicinity of Bapaume. The presence of the Kaiser on the Somme front is taken as an indication of Germany's intentions to launch a formidable counter-attack at this point in order to check the steady British and French advance.

British Front.

London, October 25.—On the British portion of the Somme front intense rains and heavy fogs are retarding military operations. The mud seriously interferes with troop movements and only intermittent shelling is reported.

Prisoners Exchanged.

Great Britain and Germany are arranging for the exchange of all interned prisoners over the age of 45.

"MAJOR" GIBSON FIGURES IN CANADIAN WAR PICTORIAL

The Canadian War Pictorial, a photographic record of the Canadian troops at the front is the latest war publication by Hodder & Stoughton, of Toronto. The first issue is of peculiar interest to the people of Prince Rupert as one of the pictures shows a figure which must be "Major" Gibson, while he was still serving in the ranks. He is standing in a characteristic attitude, with his "Balmoral" bonnet at an acute angle. It is a silhouette and the face is not clear but there is the distinct outline of a beard and the "major" was the only Canadian who had permission to wear a beard in the trenches. Many of the pictures have appeared already in the press and on the screen but the book is valuable as a memento of the war and the part played in it by Canada. Sam Hughes appears in it on only five occasions, which is rather remarkable for Sam when it comes to photography.

FISH DAY

Next Tuesday is "Fish Day" throughout the Dominion of Canada, and in no city should it be recognized with greater enthusiasm than in Prince Rupert. This city is the centre of a vast mining district, and, at no distant date, a smelter will be within easy reach of us, as a matter of fact mining men have been considering plans for such a structure for several months, while Prince Rupert has also a drydock which is now completed; thoroughly tested, and likely to be busy from now on, but, in the meantime, the most important industry in our midst is the gathering of the harvest of the sea. Not only has Prince Rupert become famous for its fish within the borders of the Dominion, but its fame has spread across the Atlantic to Great Britain and across the Pacific to Japan.

The idea behind the inauguration of a National Fish Day is the encouragement of the use of fish as a food in Canada, and it is hoped that, after October 31st, every Tuesday will be Fish Day. The value of fish as a food has long been recognized by scientists, but the Canadian people have never taken kindly to fish as a staple article of food. This may be partly due to the fact that in many of the centres of population in the interior of this vast Dominion the people have heretofore eaten chiefly fresh water fish such as trout, whitefish, pickerel, etc. Anyone who has been obliged to eat fresh water fish steadily for some days together will tell you how quickly one gets tired of the diet. To use a very expressive Scotch word, fresh water fish are "wairsh," which means that

they lack salt and therefore flavor.

Ask anyone around the Great Lakes what they appreciated most in the way of food during a visit to a coast town in Britain, and they will promptly tell you that it is fish, simply because fresh sea fish was to them a luxury after the fresh water article.

Fish as a staple food has yet to come into its own in this country but it will do so in time, and the high price of beef will be one of the chief causes for its coming, and, when it comes, it will come to stay. Meantime, it would be a good scheme if the province could devise some means of advertising the fresh fish of the Pacific coast throughout the prairie cities.

The fishing industry of this coast is still in its infancy and salmon and halibut are practically the only fish caught to any great extent. There are at least twenty kinds of edible fish to be caught in these waters, some of which could probably be canned just as successfully as is the salmon. Black cod, than which there is no more delicious fish, is gradually coming into favor and the day is coming when it will be regarded as a delicacy. It is up to every citizen to celebrate Fish Day next Tuesday and to see to it that the day is kept up throughout each week of the year. An increased demand for fish will bring an increase in the number of fishermen making their headquarters here, and will aid the general prosperity of Prince Rupert to no small degree.

Killing the Calves

All sorts of excuses are offered for the high price of beef, the most plausible being the alleged demand for veal—"the killing of calves which should be allowed to grow into regular beef." You cannot have beef if you eat it as "veal," but you can have Shredded Wheat Biscuit which contains more real nutriment than beef and costs much less. Shredded wheat biscuit is the whole wheat steam-cooked, shredded and baked. Make it your "meat" for ten days and see how much better you feel. Wholesome and strengthening for any meal with milk or cream or in combination with fruits.

chant ships by German submarines as the real reply to her recent note to Berlin. So much the worse for Berlin.

Several United States papers last week published pictures of the "tank." It is a hideous monster but it is difficult to see just why it was called a tank, unless it is because of its swallowing up everything that comes along. It is a regular land dreadnought.

The Rumanians are still having a tough time both on the Dobrudja and in Transylvania. It is easy being wise after the event, but it would appear that they would have been wiser to have left Transylvania severely alone until they had helped the Allies to conquer the enemy to the south.

The Kaiser and the Chancellor are confabbing in Berlin. Perhaps Willie wants to know why the Hollwegg did not think of making a tank before Churchill did.

Eight vessels torpedoed and not a Britisher in the bunch. It would appear that it is safer to travel on a British ship these days than on a neutral.

EDUCATING OYSTERS TO PRODUCE PEARLS

In Japan there is a great oyster farm where the bivalves are taught to make pearls. It was Dr. Mikimoto, a well known scientist, who conceived the idea that oysters might be educated and made to work for man. After many years of costly experimentation he discovered the method in use today.

The farm has an area of about fifty square miles and the water varies in depth from five to fifteen fathoms. The farmer selects the spots where the larvae of oysters are most numerous and then he plants small rocks and stones. These are soon covered with oyster-spats. They are then removed and placed in special beds, where they lie undisturbed until the third year.

An oyster will not produce a pearl unless it be irritated by some foreign substance. As soon as it feels this it proceeds to cover it with naere, layer on layer, until after a few years it has made a pearl. When large enough the oysters are taken from their beds and carefully opened; a tiny speck of some foreign substance is introduced into their bodies, and they are replaced in the sea. By the end of from three to five years the oyster has coated the foreign substance with naere and this has become a pearl.

All the work on this oyster farm is done by women, who bring the oysters up and down by diving.—Exchange.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

Sincerity -- Enthusiasm -- Advertising:
 Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

DOUBLE FEATURE AT WESTHOLME THEATRE

There is a double attraction at the Westholme tonight when Helen Holmes appears in the 8th episode of "The Girl and the Game," and the Mutual Masterpiece five-act feature "Powder" is screened. The locomotive used in the railroad film is the largest ever built, being 80 feet long and weighing 450,000. Helen Holmes was the first person to drive this steam monster at full speed. "Powder" is the story of a munition maker who is approached by two warring nations with a view to buying his shells. It turns out that both countries use his shells and the irony of it is that his own son is killed by one of them. The father is overwhelmed by a feeling of guilt in that his commercialism led to his son's death. A Mutual Weekly completes a good show.

RED CROSS SALE

The Red Cross Society extends its thanks to Mrs. Woodland and Mrs. Mobley for taking charge of the sale last Friday, and to all who contributed to the realizing of the splendid sum of \$59.30. The very artistic piece of work done by Mrs. Craig (framed pansies) was won by Mr. Venables, the nugget pin, donated by Mrs. Mobley, was won by Mr. Goldbloom; the box of cigars, donated by Stewart & Mobley, was won by T. L. Tingley, and the brass kettle, donated by Mrs. Galland, was won by Mr. Allison. The fruit dish given by Mrs. George Wilson is still open.

The following sent contributions: Mrs. Sherman, Mrs. C. L. Monroe, Mrs. Woodland, Mrs. George Munro, Mrs. Smith (Digby), Mrs. D. G. Stewart, Mrs. Besner, Mrs. Sinnott, Mrs. Young, Mrs. George Hill, Mrs. Humble, Mrs. McNicholl, Mrs. Jennings, Mrs. W. S. Fisher, Mrs. Sweder, Mrs. Willisroft, Mrs. McIntosh, Mrs. M. M. Stephens, Mrs. McMeekin, Mrs. Irwin, Mrs. Smithers, Mrs. Turnbull, Mrs. Allison, Mrs. A. M. Manson, Mrs. Healy, Mrs. Gutstein, Mrs. Wm. Millar, Mrs. John McRae, Mrs. H. Peck, Mrs. R. S. Wright, Mrs. R. E. Walker, Mrs. J. H. McMullin, Mrs. A. Little, Mrs. Sweet, Mrs. Akerberg, Mrs. Lindsay, Mrs. H. Parker, Mrs. Dowling, Mrs. Allan, Mrs. Birnie, Mrs. Adams, Mrs. Scheinman, Mrs. Pringle, Mrs. Lipsett, Mrs. Rix, Mrs. Morrow, Mrs. H. R. Grant, Mrs. Patmore, Mrs. D. H. Morrison, Mrs. S. E. Parker, Mrs. Knight, Mrs. Brooks-bank, and Mrs. A. B. Evans.

Mr. Tingley and Mr. Goldbloom very kindly redonated the box of cigars and the nugget pin to the society to be drawn for on some future occasion.
