## GERMAN SUBMARINES BLOCKADE NORWAY

### FIVE NORWEGIAN SHIPS ARE GONE -- SUBMARINE INFORMATION STATION FOUND

#### NORWAY COAST BLOCKADED BY 5 GERMAN SUBS.

Persistent War on Norwegian Shipping—Five More Vessels Sunk—Germans Fall in Verdun Attacks.

(Special to The Daily News.)  
London, Oct. 26.—German submarines are still directing most of their attention to the sinking of Norwegian ships. Yesterday, the Rising, Theidore, Anna and Guirne were sunk, while the Handi was burned. The Edam, which was reported yesterday to have been captured, is now reported sunk and the captured crew taken to Emden.  
The British steamer Framfield has also been sunk, while the Swedish vessels Antoinette and Henriette have suffered a similar fate.

**War on Norway.**  
Copenhagen, October 26.—The Germans are waging a persistent war against Norwegian shipping and five submarines are establishing a blockade of the coast of Norway in retaliation for Norway's attitude affecting German submarine activities in home waters.

**Germans Fall.**  
Paris, Oct. 26.—The Germans last night made three unsuccessful attempts by counter-attacks to recover the ground lost yesterday to the French on the Verdun front. The French are securely holding all the ground gained and the number of unwounded Germans taken prisoner now exceeds forty-five hundred.

**REGISTER NOW**  
Property holders only are on the municipal voters' list permanently. All who hold trade licenses must register this month at the city hall, if they wish to vote in the municipal elections in January. If you are not a property holder nor a holder of a trade license, you must pay your road tax and apply to have your name placed on the list. Do it now.

#### TEUTONS RUSH TO ENCOMPASS THE RUMANIANS

Germans Operating with Feverish Haste in Attempting to Cut off Rumanians—King of Greece Sore.

(Special to The Daily News.)  
London, Oct. 26.—The Germans, Bulgarians and Turks on the Dobrudja front are operating with feverish haste in an attempt to encompass the Rumanians, whose forces, with their Russian allies, are further retreating excepting near Dorna Watra, where the enemy was driven from his position on the heights.  
The Teutonic forces are trying to isolate the Rumanians who have evacuated Thernavada in order to prevent the passage of Russian reinforcements to their assistance.

**Constantine Sore.**  
Athens, Oct. 26.—King Constantine is bitterly resenting the Entente demands in regard to the handing over of all war supplies and the recalling of all Greek troops from the north. He insists that he has acted in perfectly good faith with the Entente Allies and that his one desire was to maintain a strict neutrality.

**JAMES CARRUTHERS MAY BUY IMPERIAL SUPPLIES**  
(Special to The Daily News.)  
London, Oct. 26.—James Carruthers, the well known financier of Montreal, may undertake to purchase supplies of Canadian wheat for the Imperial authorities.

**NEW HALIBUT RECORD**  
Halibut reached a new record today when the Atlin Fisheries paid 11% cents for 4,000 pounds brought in by the Nautilus and 14 1/4 for 2,000 by the Ella W. The Cold Storage Company paid 14 1/4 for the fare of the Agnes B. and the Rorvig Company paid 11% for the Equator.

**AGRICULTURAL JOURNAL ON PRINCE RUPERT FAIR**  
The Agricultural Journal for October contains an article on the Prince Rupert Exhibition by A. R. Neale, provincial horticulturist, in which he comments favorably upon the various classes, particularly the district exhibits. He attributes the success of the Graham Islanders to the splendid co-operation which exists amongst them under the guidance of Mr. Richardson. Mr. Neale gives the exhibition management great credit for the general success of the fair in a year in which conditions were unfavorable.

**GERMANS IN PRISON CAMPS IN ENGLAND.**—Most war pictures showing prison camps come from Germany because France does not give much information regarding her prisoners and, until recently, Britain has not had many. Here is a scene in one of the new prison camps in England. The men are kept in barbed wire enclosures by day and sleep in tents.

#### LIEUT. ADAIR CARSS KILLED IN ACTION

(Special to The Daily News.)  
Judge Carss was advised by telegram from Ottawa this forenoon that his son, Lieutenant Adair Carss, had been killed in action. Lieut. Carss was wounded some time ago but was able to return to duty almost immediately. The sad news cast a deep gloom over the city as the young officer was deservedly popular with all who knew him. Before going to the front, he was in partnership with his father in the legal profession and gave promise of great things as he gained in experience. Mr. Carss is the second member of the legal profession in Prince Rupert to make the supreme sacrifice, and, as a token of respect to his memory, the legal offices in town closed this afternoon.

It is a remarkable coincidence that Mrs. Carss went on board the boat for the south last night, intending to go to Victoria, but decided, as the boat was crowded, to postpone her departure until Friday. The deepest sympathy of the whole community will go out to Mr. and Mrs. Carss in the loss of an only son, and to Mrs. H. P. Wilson, of Moose Jaw, in losing her only brother.

#### RED CROSS NOTES

The Red Cross Society extends its heartiest thanks to W. H. Smith, of the Canadian Explosives, Limited, Prince Rupert, for a contribution of \$50 and to R. H. A. Neilson, Telegraph Creek, for \$5.

The amount raised for the British Red Cross "Our Day" fund, in Prince Rupert, was \$454.42. This amount has been remitted to Toronto to be forwarded to England. The local branch of the Red Cross raised \$417.42 and the Queen Mary Chapter of the I. O. D. E. raised \$37.

#### CONNAUGHT COULD SOLVE IRISH PROBLEM

(Special to The Daily News.)  
London, Oct. 26.—The newspapers are endeavoring to persuade the government to appoint the Duke of Connaught Vice-Roy of Ireland. A combination of the extremists of the Nationalists and Unionists has prevented the completion of Lloyd George's plan of compromise and the situation is impossible.  
The coalition cabinet is divided upon the issue and it is felt that a policy of drift will end in disaster. The Duke of Connaught presents the one outstanding figure today who might attempt to make a fresh start, under a big new conciliation scheme with the immediate granting of a measure of Home Rule to Ireland.

#### VICTORIA WHALING CO. HAD AVERAGE SEASON

The Islands whaling season which has just closed has averaged about the same as 1914 when there were ten boats engaged as against eight this year. The Victoria Whaling Company had three boats operating out of Kyuquot, Vancouver Island; three out of Rose Harbor, in the southern Queen Charlottes, and two out of Naden Harbor, in the northern Queen Charlottes. All told, 403 whales were caught, flms and humpbacks being in the majority, while a few sperms and sulphurbottoms were harpooned. Kyuquot had the record with 175; Rose Harbor had 121 and Naden Harbor 107.

#### FRIDAY'S SALE

The Red Cross sale on Friday will be in charge of Mrs. Smith, of Digby, and Mrs. W. T. Kergin. Ladies are again reminded that lots of home cooking can be disposed of. These sales are very successful but the list of contributors varies considerably from week to week. It would be a splendid thing if the ladies would think of Friday always as Red Cross day and make a habit of sending something every Friday. On this occasion, J. C. Gavigan has kindly donated a crate of fruit valued at \$10.

#### PROPOSED SAWMILL FOR PRINCE RUPERT

Mayor McCaffery, who is doing everything he possibly can to bring about industrial development here, has been in communication for some time with J. S. Emerson, of Vancouver, in regard to the establishment here of a sawmill which will employ from two to three hundred men. Mr. Emerson sent his manager here to look over the ground, and is now negotiating with the Grand Trunk Pacific Railway Company for a lease of a mill site on the waterfront.

Mr. Emerson has just written to the mayor stating that he has had an interview with George A. McNicholl in Vancouver and that it is his intention to return north with Mr. McNicholl to go over the ground personally. If everything here is satisfactory, Mr. Emerson will proceed to Winnipeg to lay his plans before the railroad officials there. That Mr. Emerson will be able to bring his plans to completion, and that his mill will soon be an established fact in this city will be the earnest hope of every citizen. Prince Rupert needs such a payroll as this mill will furnish and the project should prove of great benefit to every merchant and business man in the town, as well as to the railroad company.

#### STRIKE PREVENTED

(Special to The Daily News.)  
Winnipeg, Oct. 26.—The employees of the Canadian Pacific Railway Company have secured increased wages and improved working conditions, the changes to become effective on November 1st. Government intervention prevented a strike.

#### GALE ON LAKES

(Special to The Daily News.)  
Sault Ste Marie, Ont., Oct. 26.—The steamers on Lakes Huron and Superior have been driven to take shelter on account of a severe gale which is raging.

Pacific and B. C. Milk \$5.25 per case. Fuller & McMeekin. 251.

#### BRITISH FIND HUN WIRELESS IN U. S. WATERS

Intercepted Mail Reveals How Submarines Got Their Information—Allied Air-men Busy.

(Special to The Daily News.)  
London, Oct. 26.—Letters intercepted by the British mail censors reveal further facts in regard to the methods of the German submarines operating in the vicinity of the United States coast. It now transpires that the submarines secure their information in regard to steamship movements along the coast from the steamer Willehad, which is acting as a wireless station within the three mile limit.

**Military Works Bombed.**  
Rome, Oct. 26.—Squadillas of Italian and French seaplanes violently bombarded Austrian military works along the Istrian coast.

**Raid on Germany.**  
Paris, Oct. 26.—Eleven British aeroplanes dropped bombs on the German blast furnaces at Hagondange causing several fires to break out.

#### FISHERIES BOARD MEETS IN JANUARY

Mayor McCaffery has just been advised that the Fisheries Advisory Board in Ottawa will not meet until the beginning of the year. It was hoped that F. H. Cunningham and D. N. McIntyre, the coast representatives on the board, would be here this month but their visit will likely be delayed for some weeks.

#### NEW TUNNEL DRIVEN AT DALY WEST MINE

The new tunnel at the Daly West gave the company some little trouble at the start. It is through a rock slide for quite a distance and was dangerous on account of the rock sliding. It had to be handled very carefully and only a few men could work. The tunnel is now into the solid rock and the drills can be worked and the full force of men put on. The new tunnel will be given an additional depth of over a hundred feet.—Omineca Herald.

**WESTERN FRONT**

Developments on the western front are becoming steadily more interesting, with the French assuming the aggressive in no uncertain fashion in front of Verdun and the Germans planning a big new counter-offensive on the Somme portion of this front. The continual nibbling of the French and British both north and south of the Somme has been a source of worry and great loss to the enemy, and the Kaiser has evidently made up his mind to revert to his old tactics of attacking, on the assumption that offense is the best means of defence. The Germans recently tried an offensive on the southern portion of the Somme front, and it ended in disaster. They are now to turn their attention to the northern section around Bapaume, to which place they are rushing reinforcements of artillery and infantry.

Right on top of the announcement of this new move comes the welcome news that the French have broken through at several places on the Verdun front, and the probability is that the new French move has given Wilhelm cause to think furiously, though he is likely to proceed with his plans on the Somme in the hope that the Allies will have to concentrate their forces there and by doing so may weaken the attack around Verdun.

Just as the Somme offensive was inaugurated to relieve the French drive on Verdun, so has the new French attack been developed along with a big general offensive at all other points with a view to relieving the situation on the Dobrudja and Transylvanian fronts.

There is no denying the fact

that things have gone badly with the Rumanians since they crossed the Danube but they are not losing many men, preferring to withdraw rather than to face disaster. Nothing further has been said of the presence of the Grand Duke on that front, but, if he is in command, the Allies have nothing to fear in the way of a permanent setback. Nicholas is a past-master in strategy and the leader who got the Russians out of their early difficulties will have no serious troubles in the Rumanian situation.

It becomes more apparent every day that the western front is the point of greatest importance and it is there that the final struggle will be fought out. The Allies on all fronts are working together magnificently, their team-work, if we may use the term, being splendid.

With disaster facing them at Verdun and a vindictive and determined foe to meet on the Somme, the Germans will have no men to spare for reinforcements elsewhere and the situation is gradually resolving itself into a wearing down campaign. The Allies do not seem to care whether they ever take Bapaume or Peronne, so long as their methods take continual toll of the enemy at the rate of a thousand or two at a time. Time is with the Allies and against the Teutons and every day sees another nail in the coffin of Prussian militarism.

situated than Canada in that she does not have a large alien population.

The Danes and Norwegians still suffer at the hands of the German submarines. The patience of Copenhagen and Christiania is great but there is a limit which surely has been reached.

Bowser and Company do not seem to care if the soldiers' vote is never counted. It is a case of hanging on to office on the slightest pretext whatever and typically Bowserian.

The following is from the quarterly bulletin of the Commission of Conservation in dealing with civic improvements:—"Prince Rupert:—there is perhaps no city in Canada that is so much in need of a Civic Improvement League as the new city of Prince Rupert, but no definite steps have yet been taken to form one. The need in Prince Rupert is due to the fact that the city has some specially difficult problems to solve owing to the undulating and rocky nature of its site and the isolated position of the city from other centres of population. This makes it peculiarly desirable that the citizens should train themselves to understand their local problems and to take a watchful interest in the development of the city."

**GEORGE W. NICKERSON RETURNS ON A VISIT**

George W. Nickerson, one of the most prominent business men of Prince Rupert, who has been making Winnipeg his headquarters for some months as the western representative of the Aylmer Packing Company and the Dominion Cannery, Limited, is being welcomed back to this city by a host of friends.

Speaking of conditions on the prairies, Mr. Nickerson says business is fairly good all round, though some of the farmers lost their crops. Wheat prices are ruling high and there is a general belief that two dollar wheat is coming shortly.

Mr. Nickerson, who has always taken a very keen interest in the growth of the fishing industry here, is pleased that Prince Rupert has retained its hold on a large share of the halibut business, though he deprecates the fact that the American houses located here are still unable to ship their fish in bond to Seattle by steamer. He finds a general improvement in the business tone of Prince Rupert and is intensely gratified to find that the drydock shows signs of activity. He still has a warm spot in his heart for the coast city, though business forces him to return to the prairies at the beginning of the month.

### PRETTY WEDDING IS SOLEMNIZED AT TERRACE

A very pretty wedding was solemnized on Wednesday, October 17th, at the home of Mr. and Mrs. George Little, of Terrace, when their sister, Miss Marie Theresa Beste, was united in marriage to Mr. Knute Olson, Rev. C. A. Mitchell, of Hazelton, officiating.

The bridal party entered the room to the strains of Mendelssohn's wedding march played by Mrs. Thomas Walsh. Mr. George Little gave the bride away while Master Dudley Little carried the ring on a silver salver.

The ceremony was performed before a large mirror in the drawing room, which was banked with flowers, ferns and autumn leaves. The bride was attired in a gown

of white embroidered voile and carried a bouquet of white carnations.

After the ceremony, a dainty luncheon was served, the color scheme of which was pink and white. Mrs. Frank La Zelle and Mrs. George Dover presided at the table, assisted by Mrs. O. T. Sundal and Mrs. Thomas Walsh.

Those who witnessed the ceremony were Mr. and Mrs. J. K. Gordon, Mr. and Mrs. Frank La Zelle, Mr. and Mrs. George Dover, Mr. and Mrs. George Little, Mrs. O. T. Sundal, Mrs. Thomas Walsh, Mr. Peter McDonald and Mr. C. W. Graham.

Many friends saw the happy couple off on the train amidst showers of rice. Both the bride and groom are well and favorably known at Terrace and the congratulations and good wishes of the community are heartily extended to them.

### GERMANY FAR BEHIND IN SHIPYARD FACILITIES

A writer, in the New York Times makes the following interesting comparisons in regard to the building of cargo-carrying vessels by Great Britain and her allies as against Germany:

"Great Britain has 463 shipyards and engine and boiler shops where marine vessels and their equipment are built; her colonies have 198 and her allies 247, making a grand total of 908. Germany and her allies have a grand total of 124 such places.

To drydock and repair her warships and vessels of her mercantile marine, Great Britain has 572

drydocks and marine railways, her colonies have 246, and her allies 253, a grand total of 1,071. Germany and her allies have 138 such places. Belgium does not figure on either side.

America has 152 shipyards and marine engine and boiler shops and 239 drydocks and marine railways."

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

## Backed by the Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

# Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker? On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:

**Sincerity -- Enthusiasm -- Advertising:**  
**Three mighty forces, close-linked.**

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

**GREAT NEW SERIAL AT WESTHOLME THEATRE**

"Peg O' The Ring," the great circus serial featuring Grace Cunard, Ruth Stonehouse, Francis Ford and Eddie Polo, starts at the Westholme tonight and is continued tomorrow. This is one of the most striking serials ever produced and the circus scenes will delight the hearts of young and old. Lions, tigers, leopards and a regular menagerie of wild beasts take part in this great show and it is something not to be missed. The cast is a strong one and Grace Cunard makes a great hit in the leading role.

Tonight only, the serial will be accompanied by a thrilling drama entitled "Dr. Neighbor," in which Hobart Bosworth plays the lead. It is the story of the good Samaritan brought up to date and is an intensely interesting picture. Dorothy Davenport is also in the cast, which is a brilliant one.

The Joe Baker brought in 6,000 pounds of halibut yesterday afternoon. The Booth Company purchased the fare at 11 cents per pound.

**RICH MINERAL STRIKE ON DOME MOUNTAIN**

A sensational mineral strike was reported in Telkwa last week from Dome mountain by Chisholm Bros. and Steve Young. The boys had completed their assessment work on their old property when the new stuff was discovered and staked. Assays were run and gave returns of from \$400 to \$600 in gold and silver, the former predominating. There is a good sized vein and as a result of their first work they have several tons sacked ready to ship.—Omineca Herald.
