TEUTONS ROUTED IN MACEDONIA -- BIG ADVANCE BY CANADIANS AND BRITISH

SERBIAN CROWN PRINCE ENTERS CAPTURED CITY

Monastir Taken by the Allies and Declared New Serbian Capital—Teutons are Retreating North.

(Special to The Daily News.)

London, Nov. 20.—Monastir, the Bulgarian stronghold in Macedonia, has fallen. The capture of Monastir is regarded in official circles as being of immense political significance. Besides having a tremendous effect on the morale of the Teutonic Allies in the Balkans, coming, as it does, along with the great British drive on the Ancre, it is believed that it will have a demoralising effect upon the people of Germany as well as on their armies on other fronts.

Serbian Prince Honored.

Monastir has already been established as the new capital of Serbia, and, at the occupation of the city, the Serbian Crown Prince marched through the streets at the head of the Serbian army.

The Germans and Bulgarians were decisively defeated in a fierce conflict in a snowstorm.

On the eastern section of the Macedonian front, the British have made a further advance and the Teutonic allies are now in disorderly retreat to the north.

CANADIAN NICKEL TO BRITAIN'S ENEMIES

(Special to The Daily News.)

Toronto, Nov. 20.—Hartley H. Dewar, the recently elected Liberal member of the Legislature for West Toronto, has publicly charged the Federal and Ontario governments with laxity in permitting Canadian nickel to get to the enemies of Britain. He blamed what he called the "Cochrane-Hearst-Ferguson connection with the International Nickel Company" for the fact that in 1916 two million, four hundred thousand pounds of Canadian nickel left the United States, that did not go to Great Britain or her Allies.

Fleet Commander Presents Note to Greek Government—More Allied Gains on Rumanian Fronts.

(Special to The Daily News.)

London, Nov. 20.—Vice-Admiral Fournet, commander of the Anglo-French fleet in the Mediterranean, has presented to the Greek government a note demanding the surrender to the Entente Allies of all arms, munitions and artillery possessed by the Greek army, with the exception of the fifty thousand rifles in actual use by the forces remaining under arms after the last step in demobilization of the Greek army was taken.

In Transylvania.

Petrograd, Nov. 20.—The Rumanians on the Transylvanian front have taken the offensive against the Austro-Germans in the Tirsajula Valley and have captured a series of heights.

The Austrians and Germans made several attacks on the Russian positions in the Carpathians. They were temporarily successful but were subsequently repelled.

On the Dobrudja front the Russians continue to gain ground against the army of Von Mackenzon.

FUNERAL SERVICES OF THE LATE S. E. STEBBINS

The funeral services for the late S. E. Stebbins, who met his death under such tragic circumstances at Granby recently, were held in the Anglican Church, Anyox, at 1.30 on Friday afternoon, Rev. G. H. Shepherd, officiating. Mr. Shepherd spoke feelingly of the deceased, describing him as a clean-cut, clean-living man, who made friends wherever he went. The funeral was largely attended and six fellow-linesmen acted as pall-bearers. Deceased, who had been at Granby for about a year, was well known in Prince Rupert and held in high esteem by all who knew him.

The remains have been forwarded by C. P. R. steamer to the south for interment in Mr. Stebbins' home town of Troy, New Hampshire. The funeral arrangements were carried out by Bruce Morton.

RED-HOT GUNS

A British gunner states that during the "big push" on the western front the British big guns were almost red-hot. Steam arose when cold water was poured over them and into them after every twenty rounds, and they were still hot twenty-four hours later.—Ex.

MARSEILLES STRUCK BY A HUGE TIDAL WAVE

(Special to The Daily News.)

NAVAL RECRUITING

Mayor McCaffery has called a meeting of citizens to be held in the city hall on Tuesday at 8 p. m. for the purpose of appointing a committee to assist in recruiting for the Royal Navy. The meeting will be addressed by Lieut. Chorley and Lieut. Julien, who are here recruiting, and Captain Luxmore may also speak. A large attendance of citizens is requested.

STRIKING DRAMA AT WESTHOLME THEATRE

George Beban in the great Moscoro production "Pasquale" is the feature of the Westholme show for tonight. Human interest is the keynote of this great drama, in which George Beban achieves a triumph as the proprietor of a small town grocery. He has divided his affections between Margarita, an orphan girl he has adopted, and Colombo, his horse. He struggles to pay off a mortgage on his business, and has just succeeded, when he is called to the colors by his native Italy. He returns a scarred veteran, to find his home and loved ones in danger. It is a story of everyday life which should make a strong appeal to all. An Animated Gazette completes a fine show, Charlie Chaplin is coming on Tuesday for one night only.

KELLY SENTENCED TO TWO AND A HALF YEARS

SUPREME COURT

The sittings of the Supreme Court were resumed this morning when the case of Burns v. Johnston was proceeded with. R. M. Burns and Albert Johnson were partners in the hotel business at Prince George. Jointly they purchased some land in connection with the hotel, which was later taken over by Mr. Johnston. Mr. Burns is now suing for an accounting and damages in connection with the deal. The plaintiff's case was completed this morning and the defence will be heard this afternoon. L. W. Patmore is appearing for the plaintiff and T. B. Shoebottom, of Vancouver, for the defendant.

SOLDIERS DEVELOPED PECULIAR LANGUAGE

Mr. Stanley, the Church Army Commissioner on the western front, says the French and English troops have developed a peculiar language, known only to themselves, which answers all their common needs. The words nonpluss the official interpreters, but an English soldier with no French at all can ask a French soldier with no English at all for practically anything he wants—and get it.—Exchange.

BORDEN GOVERNMENT'S GRIM PRACTICAL JOKES

Ottawa, Nov. 17.—Some people might call it cynical effrontery, others callous indifference, others again a sardonic sense of humor. At all events the Borden government has the laugh on the public. It has been a grim practical joker ever since the war started and for some time before that.

Perhaps the grimmest joke of all has been the war profiteering. Instead of putting the manufacture of munitions on a national basis, as suggested by Lloyd George's commissioner, Mr. D. A. Thomas, the Borden government preferred to hand out tremendous fortunes to their party friends. So far as the Borden government is concerned, this has been a Tory war from start to finish—a special opportunity sent by Providence to shake the plum tree to a finish. "We pass this way only once," one imagines the Borden government saying. "It's our last chance for a long time. Go to it. Eat 'em alive."

And go to it the profiteers did. Profits anywhere from one hundred to five hundred per cent. Poor quality at that. Paper shoes, Shoddy uniforms. Defective shells. Spavined chargers—and so forth and so on. Get as much for as little as possible. All the traffic could bear and then some.

In pursuance of this policy of handing it out to their friends, millions of dollars were spent in equipment that had to be discarded as soon as our soldiers reached England. From five to six million dollars was spent on Ross rifles after the British War Office had reported against them. Worse than that these rifles, by jamming when in action, have been responsible for the loss of many Canadian lives.

Another huge joke has been Honorary-Lieutenant-General Sir Sam Hughes, Minister of Militia, "the man who did things." What Sam did is now all too plain. One thing he did was to inflict on the country Honorary Colonel John Wesley Allison, whose idea of saving money for the British Empire was to steer fuse contracts that should have gone to good Canadians to American manufacturing firms on a commission of ten per cent. and up. Ultimately a Royal Commission was found necessary to prevent Sir Sam's friends from saving all the money in the British Empire—for himself and his side-partners.

Another thing Sir Sam did was to stick Canada for \$40,000 for a load of shovels with a hole in the middle. These shovels, called by the soldiers "Hughes' spoons", were found to be good neither for digging nor defending, the hole being big enough for the sand to run through, not big enough to shoot through and a tolerable bull's-eye for the Hun marksmen. However, that was only a little joke—something to keep his hand in—not a big job like the Bertam Shell Committee.

Another thing Sir Sam did was to load up the Canadian Staff in England with friends of his own, who seem content to view the war

CANADIANS AND BRITISH MAKE FURTHER GAINS

One Mile Advance on Three-mile Front in Ancre Sector—800 Prisoners Taken—Great Air Battle.

(Special to The Daily News.)

London, Nov. 20.—The Canadians and British are continuing their drive along the Ancre and yesterday advanced one mile on a three-mile front in this sector. They now occupy the outskirts of Grandcourt to the north of Thiepval. The Germans put up a stubborn resistance and it was only after severe fighting that victory was gained. Eight hundred prisoners were taken in this movement by the Canadians and British.

Great Air Battle.

In a spectacular air battle between five British aeroplanes and eight German machines, the British were successful in driving off the Germans. One enemy machine was brought down.

Fighting in India.

British forces have had a clash with six thousand Mohammedan tribesmen on the Indian frontier. The tribesmen were defeated.

from that distance. At any rate no attempt has been made to send them to the front or to supply their places with disabled officers who have done their bit in the field. The condition of the Canadian Army Medical Service in England, infested, as Dr. Bruce reports, with incompetents, drug fiends and booze fighters, who got their jobs because they were party supporters, is another prime example of Sir Sam's method of doing things.

Not to go into trite details of old scandals, the biggest joke Sir Sam has perpetrated on the public is himself. Sam is really the Gypsy's Curse on the Borden government, but he doesn't realize this. He thinks he is a Joan of Arc.

Another lugubrious joke by the Borden government was the appointment of R. B. Bennett, M. P., as chairman of a "non-partisan" National Service Commission. Non-partisan!!! Why, R. B. never thinks of the Almighty save as a Tory, and an Imperial Federalist of the Lionel Curtis type. An integral part of this joke was the attempt to hand Sir Wilfrid Laurier a lemon—that is to say, offering Sir Wilfrid a full share of the blame for the government's ineffective recruiting methods, while refusing to give him a look-in on army contracts and matters like that.

PENSIONS

Some time ago several municipalities passed resolutions recommending the paying of equal pensions to all Canadian soldiers, and now the Liberals of Eastern Ontario, in concluding their recent convention, have passed a resolution recommending that equal pensions be paid to all Canadian soldiers, irrespective of rank.

Such a plan should appeal strongly to every Canadian. Whether the Canadian soldier is a major or a private, he has made an equal sacrifice. Each man who has offered all he had to offer in the service of his country in the present crisis is entitled to the same consideration at the hands of his fellow-countrymen. The fact that one man holds a higher rank than another entitles the man of rank to a higher remuneration in the service, but when it comes to recompense for services rendered, a man should not be considered as a colonel, captain or private, but simply as a Canadian who has offered everything, to life itself, in defence of his country against a common foe. The difference in rank is very often simply the result of the one having friends and opportunity while the other was content to shoulder his rifle and do the hard grubbing. Rank is entitled to its reward, but that reward is received during active service and, when that is over, each is simply a Canadian who has offered his life to his country. No life should be considered of more value than another. When the ribbons and braid of the uniform have been discarded and the men return to civilian life, each man is the equal of his neighbor, or should be.

HANGING ON

Some weeks ago the people of British Columbia elected a new government, but they are discovering that it is one matter to elect a new government and an entirely different proposition to get rid of the old. Bowser has always conducted the affairs of the province in his own way, irrespective of the wishes of the people and, in defeat, he is just the same old Bowser. Shortly after the result of the election was made known, one Tory paper stated that he would resign in a few weeks; again it was said that he would resign when the final results had been received from the old country; then it was said that the certificates of the soldiers' vote would be here shortly and that the defeated premier would then resign. The latest report is that he may not resign for a few weeks yet.

This holding up of the new government, mark you, is all being done to "protect" the constitution. If Bowser decides that the constitution requires further "protection," he may remain in power just as long as he pleases. That seems to be the idea of the Tory press. Meantime, what is the Lieutenant-Governor doing? Nothing. In an alleged democratic country, where the people are supposed to rule, what should the Lieutenant-Governor do? From an ordinary common sense standpoint it would appear that the proper thing for him to do is to drop a hint to Mr. Bowser that he had better make room for a new adviser.

The provincial financial year ends in March and the new government has an enormous load of work to get through before that time. By remaining

Those New "Bran Foods"—a new one is born every week—a recognition of the need of food laxatives instead of drug laxatives. The problem of presenting bran to the human stomach in combination with a nutritious, easily digested food was solved twenty years ago by the invention of Shredded Wheat Biscuit, the food that supplies all the body-building material in the whole wheat grain in a digestible form, combined with bran, which is Nature's laxative. A body-building, strength-giving food. Serve with milk or cream or sliced peaches and cream or other fruits.

Made in Canada

in office for many weeks after he has been plainly told by the people that he is no longer wanted, Bowser is rendering it well-nigh impossible for the new government to lay its plans for the coming year. It is time that the people made the Lieutenant-Governor aware that they have had enough of this ridiculous nonsense. If Bowser persists in hanging on to office, long after any honorable premier would have sent in his resignation, it is surely up to the Lieutenant-Governor, the representative of the King, to take a hand in the governing of this province. If he does not, it is evident that the people do not rule, and that Bowserism is still to be allowed to do just as it pleases.

Coughing increases the irritation of the already inflamed mucous membranes and is moreover apt to carry disease to others. BORDEN GOVERNMENT'S GRIM PRACTICAL JOKE

(Continued From Page One.)

Night, an Independent Conservative Journal, has this to say:—"The mismanagement of our man power in connection with the war has been such that nothing that can be done will ever repair the damage. Muzzling Bourassa would probably be the most effective method of still accomplishing a little something, but, of course, this will not be done. But asking the Liberal leader to share the responsibility of Conservative mismanagement was rather a good idea, the only trouble is the Old Man saw the point of the hook and concluded not to bite."

Still another joke is the tariff—a cruel joke. It was a twenty-five per cent. tariff when the Liberals went out of office in 1911. It is a forty per cent. tariff now—a veritable Rake's Progress. War or no war, it would have been a forty per cent. tariff because the Borden government had to carry out its bargain with its masters, the food profiteers, to deliver the consumer to their tender mercies. And well have they done it—so well that in another year, that is to say at the end of the war, the food profiteers will have about all the money there is in the country. Trust them to keep a good lap ahead of the purchasing value of the dollar. Trust them to lick up all the benefits of high wages to the worker. Trust them to get all there is out of the goose short of actually killing it!

The situation of the worker

MACINNIS, Solicitor for Ikeda Mines Limited.

with a trades union at his back is bad enough, but consider the situation of the unorganized worker, the school teacher, the clerk, the parson, the innumerable wage slaves of desk and counter who are not able to gain their ends by striking and must take what they get or leave it. If the Cold Storage Kings and the other food brigands are allowed to go unchecked these poor fellows will soon be in sight of starvation.

The grimmest joke of all is when a deputation goes to Ottawa to ask the Borden government for measures of relief against the High Cost of Living, and the government suggests that the municipalities shall conduct investigations of their own and when they have found the witch they ought to be done, if anything. The government has or should have four reports on this subject in hand right now. Consequently any proposal to investigate is a stand-off, pure and simple. Go, chase yourself—that is what the government says to the people who complain about the High Cost of Living.

Bakers bread is now six cents a pound. The bakers say they can't do it for less with flour at \$9.50 a barrel. Flour is \$9.50 a barrel because the Borden government's milling friends have it all their own way. The Northwest farmer cannot sell his surplus wheat to the American miller except against a prohibitive duty, and the American miller is similarly impeded in selling his surplus flour to the Canadian consumer.

Meat prices are scandalous and threaten to become more so. The cold storages are firmly entrenched with the Borden government. A cold storage warehouse was burned at Lindsay the other day—one of the many and a small one at that—and a quarter of a million dollars worth of food went up in smoke. That is only one of the food-boards the cold-storagers are laying by so as to create artificial scarcity and famine prices.

Being as close to the cold storagers as the Borden government is it probably knows these facts. That one bank of which the largest cold storage operator in Canada is a director, finances practically all the big packing companies in this country. What would the depositors in this bank say if they knew that their own money was being used to choke them to death? Would they leave their money there or would there be a run on the bank?

Another little fact worth looking into. Not a pound of meat, not a can of peas, not an apple nor an onion, not an ounce of anything can be bought in Canada except at a retail price fixed by the wholesalers. Fruit rots in the shop windows sooner than suffer an abatement of price. There must be combines about. Why not get after 'em.—H. F. G.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker? On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm? Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast. This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:
Sincerity -- Enthusiasm -- Advertising:
Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

CITY OF PRINCE RUPERT ATTENTION VOTERS Persons who hold lots under agreements, or assignment of agreement must make a declaration giving particulars of their title, before the last day of November. It is impossible for me to ascertain the names of agreement holders unless they come in personally. It will greatly facilitate matters if persons wishing to make declaration bring their agreements, so that I may inspect them and thus prevent errors. Reference to old voters' lists satisfies me that only a small proportion of agreement holders have registered in past years. This, I believe, has happened because people wrongly think their names will be inserted without any action on their part. I therefore call special attention to the necessity of agreement holders making declarations. FRED PETERS, City Clerk.

SPLENDID RESULTS OF RED CROSS SALES

Each week sees Red Cross Friday becoming more a part of Prince Rupert's war work. People are realizing, as never before, that to win we must save lives and that there is no better way than in taking care of the brave men who every day make sacrifices that we may live in safety. It cheers them to know that every week the people of this city think of them and work for them. Last week proved another good Friday, and the society extends its thanks to Mrs. H. E. McMillan and Mrs. Clancy for the fine result of \$49.40. The society also thanks those who donated to the raffles, the home cooking and also for donations of cash.

Mr. Arnold donated a box of fruit, won by J. H. McMillan, Mrs. Vickers donated a lace collar and cuff set, won by Mrs. D. G. Stewart; Mr. Bloom donated a sack of flour, won by Mr. J. M. Sinclair; Mr. Tite donated a jardiniere stand, won by Mrs. J. C. Halsey, and the prize hens, donated by Mr. George Wilson, were won by Mrs. Pattullo. The cariboo picture frame is held over.

The following sent contributions: Mrs. Craig, Mrs. C. L. Munroe, Mrs. McMullin, Mrs. R. McKay, Mrs. Sinclair, Mrs. Besner, Mrs. D. H. McDonald, Mrs. Naden, Mrs. H. E. McMillan, Mrs. Clancy, Mrs. Sinnott, Mrs. Cade, Mrs. A. M. Manson, Mrs. Alex. Smith, Mrs. Mobley, Mrs. Peck, Mrs. Eggert, Mrs. Dowling, Mrs. D. G. The Engineers offer a scope where the natural abilities of a man will have the best chance for development. Promotion is rapid to anyone possessing constructive instinct. Carpenters, miners, wheelwrights, fitters, plumbers, electricians, etc., as well as handy men without experience, are wanted. The recruiting offices for the Canadian Engineers are at the corner of Hastings and Homer Streets, Vancouver, and at 606 View Street, Victoria. LUMBERMEN WANTED The British army requires lumber just as much as it requires munitions and there are many men in Canada who can do their share for the Empire by enlisting in the Forestry Battalions. The C. P. R. tug Nanoose, Capt. Singleton, arrived from Vancouver last night to take south the barge Will W. Case, which recently brought north 1,000 tons of coal for Albert & McCaffery. The tug with the barge in tow left for the south this morning.

Yesterday was a regular old-time, but the gale lacked its old-time "kick" and there seems to have been little damage done. The chimney on Lynch Bros. store came to grief and there were a few other minor mishaps, but nothing serious.

Ben Self and "Doc" Evans left on a hunting trip on Saturday afternoon. As there was no sign of them this morning, their friends sent out a launch party in case they needed assistance. It is feared that they may be stranded somewhere as a result of yesterday's storm.

There was a little anxiety in town on Saturday regarding the safety of Fred Scadden and three friends who went out to look at a prospect a week ago intending to be away for three days. The party returned to town safe and sound on Saturday night, having been storm-bound on Elliott Island.
