## ZOUAVES AND SERBIANS TAKE VITAL POINT

### GERMANS CLAIMING VICTORY FROM ALT TO DANUBE--ACTIVITY AROUND YPRES

#### SERBIANS AND ZOUAVES HAVE CARRIED HILL

Important Point Gained on the Macedonian Front--Selected Bulgarian Troops are Defeated.

(Special to The Daily News.)  
Saloniki, Nov. 28.—The Zouaves, from North Africa, who form part of the French army on the Macedonian front, as well as in the western theatre of war, co-operating with the Serbian troops, have successfully carried Hill 1050 against the Bulgarians, Turks and Germans.

The Allied forces in this movement defeated a specially selected battalion of chasseurs of the guard, who had orders to hold the hill regardless of cost.

As evidence of the importance placed upon this position by the enemy, the Bulgarians made several counter-attacks with the object of recapturing it. They charged in the face of the guns of the Zouaves and Serbians, without considering the enormous casualties involved, and were repelled on each occasion.

**Big Fighting Coming.**  
London, Nov. 28.—Violent artillery duels foreshadow decisive infantry attacks along the whole front north of Monastir.

Berlin claims that the Entente Allies have suffered a severe defeat in this region.

#### CASE DISMISSED

In the Supreme Court this morning, Mr. Justice Morrison dismissed the case of the Rorvig Fish Company v. the Canadian Surety Company.

#### DISLOCATED SHOULDER

H. M. Smith, gasoline engineer on the Dominion government launch Fiska, was admitted to the hospital shortly after midnight suffering from a dislocated shoulder. Mr. Smith was boarding the launch when he fell from the wharf on to the deck of the vessel.

#### THE CRADLE

Born to Mr. and Mrs. C. C. Perry, 376 Fourth Avenue, East, a son at the general hospital this morning.

Presbyterian Church Bazaar in the church, Wednesday, November 29th, at 3 p. m. All kinds of Xmas novelties, plain and fancy sewing, etc. Tea and ices served. Splendid musical program in the evening.

For every two dollars cash purchase you have a chance for three prizes. See Tite's window display.

**CRIPPLED GERMAN OVERSEAS FREIGHTER BEING TOWED INTO NEW LONDON HARBOR.**—The photograph shows the submarine Deutschland, injured in collision with the tug Nectar, which was towing her out into deep water preparatory to her trip across the Atlantic. The tug was sent to Davy Jones' Locker. The picture shows the submarine being towed back into harbor.

#### IMPROVEMENTS IN TELEPHONE WIRING

Superintendent Kennedy recommended to the council last night that instead of repairing the telephone lines where they have suffered most seriously as a result of last Monday's storm in a way which at the best, would be only temporary, that use be made of the cable on hand and that part of the system be put on a more permanent basis.

The mayor said that, since the storm, Mr. Kennedy had been too busy to prepare a detailed report. Ald. Montgomery, seconded by Ald. Dybbavn, moved that the superintendent's recommendation be adopted.

Mr. Kennedy explained that his idea was to cover the sections of the city which are in worst condition. West of McBride and down to Ninth and also between Second and Third and First and Second, the leads were very bad. In some places where he had cut the wire away he found it was rusted so badly that they could not make joints. Storms of the past had affected them so badly that new wiring was necessary. Mr. Kennedy produced a plan of the city, showing just where he proposed putting in permanent new wiring. He also proposed putting in a lead to take care of the Cold Storage Company, the present equipment being in exceedingly bad shape. The new lead put in some time ago was in good condition, but at other places the old had been hung on trees and no effort made to make a satisfactory job of it.

Ald. Casey asked if the superintendent could give an idea of the cost and time necessary to make the improvements.

Mr. Kennedy said that they had the cable on hand and that the only cost would be the labor. He did not estimate that it would take a great deal longer time than the temporary repairing of the wires. The report was carried unanimously.

#### DESERTERS PARDONED

(Special to The Daily News.)

Ottawa, Nov. 28.—The Duke of Devonshire has signed an order-in-council pardoning all deserters from the Canadian Expeditionary Forces who again report for duty by December 15th.

#### FRENCH STEAMER ASHORE

(Special to The Daily News.)

Halifax, Nov. 28.—The French steamer Pro Patria is ashore near Flat Point. Tugs are proceeding to her assistance.

#### BRITISH AIRMEN AND ARTILLERY JOINED FORCES

Important Enemy Positions are Bombarded—Two Planes Failed to Return—Zeppelin Raid on England.

(Special to The Daily News.)

London, Nov. 28.—British artillery bombarded the enemy trenches in the Ypres district yesterday. The batteries were assisted by British aeroplanes which co-operated successfully in the attack despite the inclement weather conditions of the past few days continued throughout the engagement.

Many important enemy military points were successfully shelled. Two of the aeroplanes failed to return to their base.

Berlin reports that the Allied artillery preparations in the regions of Armentieres and Arras indicate that a fresh offensive is being contemplated at these points.

#### Zeppelin Raid.

Hostile airships last night crossed the northeastern coast of England and dropped bombs at several places.

#### Italian Front.

Rome, Nov. 28.—In the Carso zone, in the Austro-Italian theatre of war, the Austrians are vigorously shelling the Italian positions.

On the Russian front, the Russians are engaging the enemy at several points.

#### PROTEST AGAINST FOSTER'S LANGUAGE

At the city council last night, the following resolution, moved by Ald. Dybbavn and seconded by Ald. Casey, was carried unanimously:—"Resolved, that this council place on record a protest against the language used by the Hon. Sir George E. Foster, in a speech delivered by him at the Empire Club, Toronto, and which was reported in the Monetary Times of 17th November.

The statements made are not true, were entirely uncalled for, and, being made by so prominent a man, are liable to be credited by strangers and are calculated to injure the city."

Copies of the resolution will be sent to the government, to Sir George E. Foster and to the Monetary Times.

#### CROW'S NEST COAL MINERS ARE ON STRIKE

Preliminary Conference at Ottawa But no Results—Lethbridge Miners Supply Schools and Hospitals.

(Special to The Daily News.)

Fernie, Nov. 28.—All the coal miners in the Crow's Nest Pass are idle as a result of the strike which began yesterday morning because of the refusal of the mine owners to grant the requested war bonus. Twenty-five hundred miners are thrown out of work.

A preliminary conference is being held at Ottawa between Hon. T. W. Crothers, Minister of Labor, and Hon. Robert Rogers, Minister of Public Works, and the representatives of the Alberta and British Columbia Miners' Unions. So far, the conference has brought about no definite results.

#### Coal For Schools.

Calgary, Nov. 28.—Four thousand coal miners in southern Alberta are now on strike. A few miners are working in the mines at Lethbridge for the purpose of getting out sufficient coal to supply the hospitals and the public schools throughout the cold weather.

#### TAMPERING WITH LIGHTING SYSTEM

Superintendent Kennedy reported to the city council last evening that the trouble experienced with the lighting of the city about ten days ago had again become apparent. He had gone over every foot of the system and found that everything connected with it was in perfect order. He had reason to believe that on several occasions the wires had been tampered with by parties not authorized to do so. He hesitated to think that anyone in the city would do so, still it was evident that there was something happening which should not. They had located the trouble in the section east of Hays Creek. The lines were all in good condition and there was no apparent reason why this trouble should exist.

Ald. Casey asked if this was the reason for the flickering of the lights.

Mr. Kennedy said it was. He said that he could not find any reason except that there was tampering. The lines answered a test clearly and then suddenly there was a flicker. It particularly affected the street lighting.

In reply to Ald. Montgomery, Mr. Kennedy said that they had succeeded in locating the trouble in the section mentioned.

The mayor said that he was loth to believe that anyone would do such a thing. He understood that it could be very simply done.

Ald. Montgomery said that it was a serious matter and moved that the mayor, the superintendent of utilities and the city solicitor be given power to act in the matter. This was seconded by Ald. McRae.

Ald. Casey asked if the tampering had had anything to do with the burning out of the fire alarm system.

Mr. Kennedy replied that this was entirely due to the storm and explained how the weight of snow had brought one wire in contact with another causing the whole system to go out of order. In speaking of the clearing up of the effects of the storm, Mr. Kennedy said that they were handling the live wires first, in order that there be no danger of accident, and then they would get the telephones connected up. Some of the alarm boxes required new parts and he thought they should get the phones in order first.

Ald. McClymont said that he had been spoken to about the street lighting. He wanted to know if there was a lack of help, or if they were awaiting supplies, or

#### BERLIN CLAIMS VICTORY FROM ALT TO DANUBE

Huge Territory Captured by the Teutonic Armies—Russians Charge Germans With Horrible Atrocities.

(Special to The Daily News.)

Berlin, Nov. 28.—The entire line, from the Alt River, flowing out of the Transylvania Alps in the northern part of Rumania, to the River Danube, which skirts the southern border of this country, is now in the hands of the Teutonic troops.

#### German Atrocities.

Rome, Nov. 28.—Despatches received from Petrograd declare that the Germans in the west Wallachian region, on the Transylvanian front, have been guilty of the most horrible atrocities.

#### Refused Safe Conduct.

London, Nov. 28.—The Allies have refused safe conduct across the Atlantic to the new Austrian Ambassador to Washington. He must travel to the United States at his own risk. It is anticipated in Vienna that America will protest.

#### POWER APPLICATION

At the city council last night, Ald. Casey drew attention to a notice in The Journal, filed by G. R. Naden & Co., with J. H. Pillsbury as agent. He moved that the city solicitor enquire into the matter and find out the intentions of the company. If there was to be any conflict between it and the publicly owned utility of this city the city solicitor should be instructed to take measures to have the application refused. This carried unanimously.

#### MINING CASE

Mr. Justice Morrison yesterday reserved judgment in the case of Harvey v. Bretzins. The plaintiff claims \$2,500 commission on the sale of the Debuture Group of mineral claims. W. E. Williams appeared for the plaintiff and L. W. Patmore for the defendant. The defence was that the plaintiff had nothing to do with the final deal and that the proposal he was working on fell through.

## RUMANIA

There is a good deal of pessimism over the Berlin report that the armies of Von Falkenhayn and Von Mackensen have linked up and are now across the Danube and making for Bucharest, the capital of Rumania. The news may be true, even if it does come from Berlin, but, until there are further details as to the exact strength of the army which has driven through the Rumanian defence in the Carpathians, one must simply be patient and await developments. The important matter really is as to what has suddenly become of the Rumanian army. There is no news of the capture of an enormous number of prisoners, and there is no news of an overwhelming victory. It is inconceivable that the army which has withstood the Germans and Austrians for so long in the mountain passes simply crumpled up and faded away.

The Rumanians claim that they still hold the Alt valley. There is no word of the fate of the army which defended Orsova. Craiova seems to have been yielded to the enemy without a struggle, and the speed with which the Germans seem to have made for Alexandria must have been something phenomenal, even had there been no resistance.

If, as the Germans would have us believe, the Central Powers have Bucharest and Rumania at their mercy, it is a serious matter, for Rumania. It is also serious to the Allies generally, in that it will extend the duration of the war considerably. That it will have no effect whatever on the morale of the British, French, Russian, Italian and Serbian troops is certain. Armies which have

gone through the past two years will not be down-hearted over this latest German assertion of success.

There seems to be a general fear that it will throw open the left flank of the Russian army and that an entire change of front will be necessary and that the change will be all in favor of the Teutons. So long as there is a sufficient force of Russians and Rumanians to the north, there seems to be no danger in this respect, so far as a layman with a map before him can figure out.

Compared to the overrunning of Serbia, the taking of Bucharest by the enemy is a minor matter. The first was admittedly a disaster, the latter is, comparatively speaking, little more than an incident. This is a war of long views, and one must continue to look much farther ahead than the next week or month. So far as can be learned from the war despatches, the Russian and Rumanian armies are still practically intact and all that has happened is that the scene of operations has been radically changed. That the reported success of the enemy has not brought them one iota nearer to victory, or rather that it has not removed them in the least from sure and certain defeat must be obvious to any observer. If the fate of Austria and Germany depended upon the success of the operations in the Balkans, then Germany has made a big stride forward. As it is, she has simply gained a momentary advantage, which will have no bearing whatever on her situation on the western front. It is in Europe, and on the western front, that the war is being fought to a finish. It may be that the Rumanian situation has prolonged hostili-

ties somewhat, but time is on the side of the Allies. Meantime, the people throughout the Empire must realize that their time must be used in conserving the resources at their command and that the most rigid economy is necessary, if the British Empire is to be in a fit state to recuperate quickly after the war.

The most important episode of the Balkan situation at the present is in Greece. Until the Allies have cleared the air in Athens, they can make no great strides northward. The crisis in the Greek capital is rapidly approaching and, by next spring, the Allied forces will be ready to begin their great advance. Meantime, the Germans and Bulgarians to the north have succeeded in gaining a fertile and fairly comfortable camping ground. That is about all they have gained. True, it is important, but it is not a vital factor in the final outcome of the war.

### TAMPERING WITH LIGHTING SYSTEM

(Continued From Page One.)

if the tampering with the wires was the sole cause of the trouble in certain districts. He wanted to know if the system was in good shape.

Mr. Kennedy explained that the first reason for the street lighting going dead was the trouble he mentioned. He went into technical details as to how the system was affected. He said that the contact of the wires caused an increased pressure to be thrown on certain lines which caused the rectifier tubes to blow out. They had two go out in a week. They got another and the day it was put in place it also blew out. He was planning to do away with these entirely by adopting the nitrogen lamp which is now being used in most big cities. By doing away with the arc lamps the city would be saving a considerable sum of money. He was getting started on the change when the storm broke.

Ald. Casey wanted to know wherein lay the benefit of the change. He thought it was a step backward.

Mr. Kennedy explained that this system was used in Vancouver and all the other big cities on the coast. He said that the nitrogen-filled lamp was infinitely superior to the magnetized arc lamp in that it saved so much in operating costs. Including the saving in tubes, etc., he believed it would make a difference of \$1,200 a year. As regarded lighting, the nitrogen lamp was superior to the present type in every way.

Ald. McClymont said that the public was not aware of the real causes of the trouble and that Mr. Kennedy's explanation was satisfactory.

Ald. Nelson said that people on the street had been talking of the matter and in some quarters political capital had been made out of it. It had even been hinted that there was a scheme to put the system out as a blow to municipal ownership. He had also heard it attributed to the fact that the council had kept the staff down.

## The Poor Man's University

"JONES knows more about motor cars than any other man I know," said a man to his friend. "He has obtained his knowledge chiefly from motor car advertisements, and the catalogues and booklets circulated through them."

"All I know about photography," declared a well-known amateur, "I have learned from the men who advertise cameras, plates, papers and films."

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

Advertisements have stimulated our intelligence, added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

# DR. PRICE'S CREAM BAKING POWDER

**Made from pure, cream of tartar**

Makes home baking easy. Nothing can equal it for making, quickly and perfectly, delicate hot biscuit, hot-breads, muffins, cake and pastry.

**Protects the food from alum.**

The difference in healthfulness of biscuits or cake made with Dr. Price's Cream Baking Powder as compared with cheap alum powders should warrant its use in every home.

**Made in Canada**

## "THE \$1,000 HUSBAND" AT THE WESTHOLME THEATRE

"The Thousand Dollar Husband," at the Westholme tonight, is an entertaining comedy-drama in which Blanche Sweet plays the part of a servant girl who has been left a fortune by an uncle, on condition that she marries before her next birthday. That event being within a week of the death of the uncle, the young lady has to hustle. She is already in love with a young student who is squandering his dad's money. Happening upon him broke, she offers him a thousand dollars if he will marry her. He agrees and, immediately after the ceremony, disappears. The story of the bringing together again of the parted couple makes an interesting story. Miss Sweet is splendid as the servant girl. There is a good gazette and also a very fine picture showing scenes in South America. The music is delightful.

### ATTENTION VOTERS

Persons who hold lots under agreements, or assignment of agreement, must make a declaration giving particulars of their title, before the last day of November. Any person neglecting to take such declaration will not be entered on the voters' list.

It is impossible for me to ascertain the names of agreement holders unless they come in personally.

It will greatly facilitate matters if persons wishing to make declaration bring their agreements, so that I may inspect them and thus prevent errors.

Reference to old voters' lists satisfies me that only a small proportion of agreement holders have registered in past years. This, I believe, has happened because people wrongly think their names will be inserted without any action on their part. I therefore call special attention to the necessity of agreement holders making declarations.

FRED PETERS, City Clerk.
