GERMAN PEACE PROPOSALS UNACCEPTABLE

STRONG PUBLIC SENTIMENT OPPOSED TO PEACE AT THE PRESENT JUNCTURE

GERMAN OFFERS OF PEACE ARE UNACCEPTABLE

Strong Current of Public Sentiment Opposed—New Government Will Refuse—Americans See Political Move.

(Special to The Daily News.)

London, Dec. 13.—It is reported that Austria-Hungary, Bulgaria and Turkey are making proposals of peace to the Allies through the Vatican, along lines similar to those laid down by Berlin yesterday.

London Opinion.

There is a strong current of public sentiment opposed to the German peace proposals. Those in close association with the new government view the proposals as unacceptable.

The peace proposals of the Kaiser contain no guarantees against future German military aggression which would permit the Entente Allies to demobilize their armies.

American Opinion.

New York, Dec. 13.—The World commenting editorially upon the German peace proposals, says this is a shrewd and far-sighted political move and a formal admission that Germany is tired of the war and would be glad to find a way out.

The Sun regards the proposals as an attempt to gain a moral advantage in the eyes of the world and to gain a historical position as a desiring peace, by proposing impossibilities and styling them as an honorable peace.

Lasting Peace Wanted.

Saskatoon, Dec. 13.—Sir Robert Borden, addressing a large audience here last night in support of national service, referred to the German peace proposals. He said "There can be no peace until a lasting peace is won."

TO MARINERS

HOW THE RUSSIANS SOUGHT TO HELP THE RUMANIANS

The upper arrow on this map shows where the Russian forces made a thrust at Kirilibaba, with the object of drawing off the enemy forces from the Rumanian front at Bucharest. The lower part of the map shows the enemy encircling movement which culminated in the taking of Bucharest. North of Bucharest is Ploesti, where the great Rumanian oil wells are located. The fields are operated in part by the Standard Oil Company.

SCHOONER HELGELAND'S RUDDER CARRIED AWAY

The American halibut schooner Helgeland, which brought in 45,000 pounds of fish yesterday, had quite a rough time outside. A heavy sea carried away her rudder and she made port with a "jury" rudder, in the shape of a pole rigged up to her rear tackle. The halibut fishermen who ply their trade on the northern banks are mostly seamen of the sturdy breed whose forefathers battled with the North Sea in all its moods, and a little thing like losing a rudder in a storm is a mere incident in the day's work. The Helgeland sold her fare to the Booth Company at 10 cents.

KILTIES ARRIVE

Lt.-Col. Percy A. Guthrie, Major Geggie, Major Morgan, Captain Sturdee, Captain Godenrath, Lieut. Seele and Sergeant Anderson, the recruiting party which is touring Canada to get men for the 236th Battalion, New Brunswick Kilties (Sir Sam's Own), arrived from Vancouver this morning. Capt. Godenrath is accompanied by Mrs. Godenrath, whose many friends in the city will give her a warm welcome.

MAJOR BULLOCK-WEBSTER IS STILL IN ENGLAND

Major Bullock-Webster is Acting Brigade Major of the 14th Canadian Training Brigade, stationed in England. Up to the present he has been refused permission to go to the front as the doctors pronounce him to be unfit for active service. He met his nephew, Frank, who is a machine gun officer. The major says that Corporal Whitley, who left from here, is making good and will soon be promoted sergeant. Major Bullock-Webster had a nephew killed in action, just after he had won the Military Cross.

HALIBUT FISHERMAN LOST IN SNOWSTORM

The halibut schooner San Juan has arrived in Seattle minus one of her crew. She had her dories out fishing off Yakutat when a blinding snowstorm set in. With the assistance of the Star, also belonging to the San Juan Company, she picked up her dories and men, but one poor fellow had been swept overboard from his dorie during the storm. The San Juan immediately left for home with a small catch of fish.

WESTHOLME THEATRE

The last episode of "The Girl and the Game" is presented at the Westholme Theatre tonight only, when there should be a large audience to take farewell of the darling Helen Holmes. "Diamonds are Trumps," a thrilling three-act drama, and a Ham and Bud comedy go to make up a nicely varied program.

CANADA FAILS TO MAKE GOOD HER PROMISES

Flavelle Says Manufacturers have Failed to Deliver the Goods —Chairman Saw Faulty Shells in Britain.

(Special to The Daily News.)

Toronto, Dec. 13.—J. W. Flavelle, chairman of the Imperial Munitions Board, who has just returned from England, has bluntly told the manufacturers in Canada that they have failed to make good their promises to Great Britain in regard to the delivery of munitions. He also stated that he had seen faulty Canadian shells laid aside in the inspection houses in Britain.

Finances.

Ottawa, Dec. 13.—Sir Thomas White, who has returned from London, expresses concern at the frequent offers which are being made in Canada of non-Canadian stocks and bonds. He desires that Canadian investors purchase Dominion Debentures in preference to any other stocks or bonds.

Western Front.

Paris, Dec. 13.—The Germans delivered a determined attack on the French positions near Lessigny, south of the Somme, but were checked by a heavy curtain of fire from the French batteries.

GENTLEMEN WILL MANAGE FRIDAY'S RED CROSS SALE

The Red Cross sale on Friday will be in charge of the gentlemen. It will be along different lines from the usual Friday sales and there will be some surprises and lots of fun. Every gentleman in the city must call at the rooms on Third Avenue some time on Friday. The sale will be conducted until 7 p. m. on this occasion. Of course the gentlemen cannot get along without the assistance of the ladies and the usual supply of cakes and home cooking is looked for and will be thankfully received.

E. F. DUBY RETURNED FROM VANCOUVER TODAY

E. F. Duby, who spent a few days here recently looking over the city with J. S. Emerson, who will build a sawmill at Seal Cove, returned from Vancouver this morning. Mr. Duby is here to make arrangements in connection with the construction and operation of the mill.

MANY VISITORS

There was heavy passenger traffic from the east last night and the Hotel Rupert was filled to overflowing. The register carried about fifty new names and the office presented a regular holiday appearance after the train arrived.

Lt.-Col. Percy A. Guthrie, 236th Battalion, C. E. F., who arrived from the south this morning, making a tour to Vancouver, stopping off at the big centres. The New Brunswickers wear the tartan of the McLeans of Dhuard and the officers are looking particularly for "Maes," though any other recruits will be welcomed. Colonel Guthrie will address a meeting in the Empress Theatre tonight under the auspices of St. Andrew's Society, when he will tell of his experiences at the front. He was wounded in France while with the 10th Battalion.

PROFITEERS STILL THROTTLING CANADA

Ottawa, Dec. 8.—People well read in Canadian history smile at the disciples of the party which stoned Lord Elgin and burnt the Parliament Buildings at Montreal, making a parade of their superior loyalty to the Mother Country through the mouth of a pin-head like ex-Alderman McBrien of Toronto, aided and abetted by a dead one like Honorary Colonel W. K. McNaught. These protestations have disgusted even Toronto, and Toronto in the past has stood a lot of this kind of talk without having her stomach turned.

The fact is that at least sixty per cent. of the officers on active service are Liberal in their politics and the rank and file under normal conditions would divide between the two parties on a fifty-fifty basis. As matters stand, however, there is no doubt, that the soldier vote enraged at the wholesale looting at home, and the Ross rifle abroad, would go overwhelmingly against the Government. There are three hundred and seventy-five thousand soldiers enlisted now and the word that is on every man's lips is "graft". When you ask them for corroborative evidence they mention paper shoes, Colonel John Wesley Allison, nine hundred per cent. profit on shell contracts, Camp Borden, and matters like that. Canada has a great reading population.

Our soldiers, both at home and at the front, have kept themselves well informed through Canadian newspapers of the doings at Ot-

FRENCH TAKE BULGAR POSTS IN MACEDONIA

Berlin Claims Further Big Gains in Carpathians—Du Fournet is Superseded in Naval Command.

(Special to The Daily News.)

London, Dec. 13.—The French have made further advances on the Macedonian front and have captured five Bulgarian positions south of the Lychnitza River. Operations north of Monastir are being impeded by heavy snow storms.

Berlin Report.

Berlin despatches state that the Teutonic armies have again repelled violent Allied attacks along the Cerna River.

Du Fournet Retires.

Paris, Dec. 13.—It is officially announced that Vice-Admiral Du Fournet, who conducted the negotiations between the Allies and the Greek government, has been replaced as commander of the Allied squadron in Greek waters by Admiral Caucher.

The Carpathians.

London, Dec. 13.—Berlin claims to have captured the towns of Mizil and Buzue and also the village of Uricena, along with ten thousand Rumanian prisoners in the fighting in the Carpathians.

On the Moldavian front, the Russians are continuing their violent attacks and the German offensive at several points has been checked.

Rumanian reports state that the Teutonic attacks yesterday all failed.

DEAR LIVING

The increased cost of living is not a new or a war problem, though the war has aggravated the situation tremendously. The cost of food and clothing has been gradually mounting year after year and, in most countries, out of proportion to the increase in wages. Methods of dealing with the problem have been discussed for years, and volumes of evidence have been compiled, but nothing effective in the way of action has been done.

The passing of an order-in-council by the Dominion government on November 10th brought matters to a head in Canada, and threw the onus of investigating upon the municipal councils, in that these bodies are invited to investigate any supposed combination to keep up or drive up prices in their various localities.

The municipalities are first to assure themselves that some specific article is being put up to an abnormal price, then they must examine the merchant as to the cost and selling prices; overhead charges, and the quantities of the article on hand. If there is any sign of a combination to force prices up, a report must be made to the Minister of Labor, who will report to the Attorney General, who will take action if he considers the circumstances warrant it. In the opinion of our city solicitor, this procedure will take about six months.

An investigation into the cost of most articles of food and wearing apparel will show that prices are being steadily advanced by the producer and the manufacturer, for some reason or another. Take shoes for instance. A baby's shoe which nine months ago cost

85 cents at the factory, costs \$1.35 today. A man's shoe which nine months ago cost \$3.35 at the factory, now costs \$4.45, and a lady's shoe which nine months ago cost \$3.10, today costs \$4.35. Any shoe dealer can produce his invoices to show that these figures are correct. Similar advances have taken place in most other commodities. What can any municipal council do in regard to the advance made by the producer and the manufacturer? What does the government propose to do, when it is shown that the increases in price are not made by the retailer, but by the man who produces the article?

The fact of the matter is that the problem is one which is world-wide. The commercial world today is a complex nervous system, controlled from the various nerve centres. Take flour, for instance. Liverpool is the centre of the wheat and flour market. If the people of England, or the Fiji Islands, are practically out of flour and shipments are not on the way, the market at Liverpool immediately records the fact by a jump in prices. This jump is world-wide. Though Canada may have enough wheat and flour on hand to feed her people many times over, it makes no difference, up goes the price on the Winnipeg and Chicago markets. The actual supply of a commodity in Canada has no bearing on the price paid for that commodity by the Canadians. The world's ratio of supply and demand sets the price. Suppose there are signs of an impending jump in wheat, John Smith, in Winnipeg, buys two million bushels which he has no intention of ever seeing, much less using; John Jones in

"Beans Is Beans"

—and the cost is soaring skyward with pork, beef, eggs and other foods until the cost of living represents an increase of from 30 to 50 per cent. While meats and vegetables are beyond the reach of many millions of families, **Shredded Wheat Biscuit** continues to sell at the same old price and retains the same high nutritive quality. Shredded wheat biscuit contains all the rich body-building nutriment in the whole wheat grain, including the bran coat, which is so useful in keeping the bowels healthy and active. Eat it for any meal with milk or cream or in combination with fruits.
Made in Canada

Chicago does the same, and Harry Smith, in Liverpool does the same. This same wheat is turned over several times within a few hours, each time at an advance, and the housewife in Prince Rupert is threatened with a dearer loaf because certain gentlemen with too little to do, and little desire for productive labor, prefer gambling with the food supply of the nation to working. All the municipal investigations in the world will not prevent these gentlemen from playing their game. Practically the same game is being played with most commodities, on a more or less extensive scale. What is the government going to do about the gambling in food stuffs? If necessary, the whole supply of wheat should be taken over by the government at a fair price; enough set aside for the needs of Canada, and the balance sent to the Allies who need it, at the same price.

The municipal investigation is merely a nibbling on the extreme edge of a vast circle, and will never cause the slightest tremor to penetrate to the centre in which the real trouble lies. It is just exactly as if a doctor attached a plaster to the skin of a patient to cure an internal cancer. The government must begin at the centre and work outwards to the edge, and the sooner it begins the better.

PROFITEERS STILL THROTTLING CANADA

(Continued From Page One.)

tawa. They are fully abreast of all the vagaries of the Borden government, and are not to be caught with the stale ruse of dumping one sinner to save the rest. Which is to say that the dismissal of Sir Sam doesn't save the Borden government's bacon with the Canadian soldier, either at home or overseas. This soldier vote on which the government so obviously reckoned when it made its arrangements for balloting on the field of battle—this soldier vote which both parties agreed should be given its full privileges, has been alienated from the Borden government by the scandals in regard to war supplies and can no longer be counted on. This being the case, the Borden government is not anxious for a wartime election, and would willingly accept a reprieve of another year from next October. They don't want the day of wrath to come until their profiteering friends have sucked the last drop of blood.

Indeed, it would be no surprise if apostles of the Borden government in Toronto or elsewhere began to speak of the soldiers at the front as disloyal to the Mother Country because they are keeping a close enough eye on Canada to be anxious to kick the Borden government out the first time they get the chance.

Ask a soldier at the front, whose life, maybe, has been endangered by the Ross rifle they put in his hands—ask him what he thinks of the boasted loyalty of a government that allows him to be shot full of holes with our good Ontario nickel and he will say, "Don't make me laugh. I've got a cracked lip."

And just at this point, the Hon. A. E. Kemp, the Flaming Tinman, who has just been appointed as Sir Sam's successor, rises to explain that the public musn't have these naughty thoughts about Canadian nickel.

He says that they did all that the British government requested of them and that the British government, not the Borden government, is responsible if the International Nickel Company puts such a broad interpretation on a gentleman's agreement that it sells our nickel to the Germans, who shoot it back at us on the battlefields of Europe by land or sea. In short, our War Lord Elect, passes the buck.

This is all sheer buncombe. When the British government told the Borden government to make the proper arrangements for regulating the dealings of the International Nickel Company with the enemy, it supposed, of course, that the Borden government would go about it in a businesslike way and would require something more than the Company's word of honor that it was not selling to the Germans. That it did sell to the Germans—millions of pounds since the war began—is notorious. That it is still selling to the Germans, via the Deutschland and other under-sea boats, also via German agencies in alleged neutrals has been proved up to the hilt by the Provincial Journal, which is in close touch with the British Embassy at Washington, and receives thence the facts which offset the pro-German propaganda in the United States.

In a word, the British government is responsible for nothing but its request to the Borden government to make such sensible and effective arrangements with the International Nickel Company as would prevent it assisting the enemies of the British Empire with the chief raw material of modern warfare drawn from a British overseas Dominion. It is not responsible for the Borden government's slackness in carry-

ing out instructions. Neither is it responsible for the Borden government's betrayal of the trust reposed in it. The British government knew, of course, that the International Nickel Company's nickel came from Canada and supposed naturally enough that the Canadian government having the whip hand, would make the International Nickel Company be good.

What the British government probably overlooked, or was not aware of, was that the Hon. Frank Cochrane, Minister of Railways, in Premier Borden's cabinet, is the International Nickel Company's handy-man for Canada. It was the International Nickel Company that made Frank Cochrane a political possibility. Thus and so was Canada given a nickel-plated Minister of Railways, who, when he passed on to Ottawa, put a nickel-plated Premier, to wit Hearst, in his place,

in Queen's Park, Toronto. This is the deadly trinity—Cochrane, Hearst and Ferguson. It seems a great pity that Mr. Kemp should have to do all the explaining, Mr. Cochrane being too sick to talk just now, and being no sepaquer even when he is well and strong. Indeed, the International Nickel Company will have to be looking soon for some more vocal apostle in the Borden cabinet, somebody who can make the worse appear the better reason. With Mr. Cochrane dumbness is a habit and dumbness can well be overdone.

When the soldier takes these matters into consideration he smiles at the McNaught protestations of superior loyalty for the party that lets him in for a raw deal like that. And that smile becomes a hoarse guffaw, when he thinks of his wife and little children left at home to be leached dry

Shoe Dealers are Entitled to Higher Prices for Some Brands of Rubbers

On a great many of our lines of Rubber Footwear there have, of necessity, been small advances in prices, for these reasons:—

Since the war the price of crude rubber has fluctuated, registering as much as 40% advance and then sagging back almost to 1914 figures. But ocean and freight rates on it have doubled—marine insurance is away up—and then there is the War Tax. Moreover, cottons used in rubber footwear are up 25% to 100%, chemicals 25% to 300%, dyes a good deal more than that, and labor is scarce and higher paid. All these items must be included in our costs.

Our policy has been, and will continue to be:—

To maintain fully the quality of each and every brand of our rubber footwear, regardless of expense.

To maintain, as long as we can, stability of prices to dealers, advancing just as little as possible considering the higher manufacturing cost.

If your shoe dealer asks you a little more for our rubbers, he is quite entitled to it. To his increased cost he must also get added profit to make up for his increased expense of doing business.

The public will find any increases we make on our brands of Rubber Footwear insignificant compared with the saving that the consistent use of Rubber Footwear accomplishes. The additional cost of our brands of Rubbers is, however, fully justified, because they are backed by the same reliable quality that has won popularity for these well-known marks:—

PROFITEERS STILL THROTTLING CANADA

(Continued from Page Three)
by the government's food profiteering friends. Sustain her as you will with separation allowances, patriotic funds, and so on, the cost of living more than keeps pace with her dollar shrunken to two-thirds of its face value. The cost of living goes ahead by leaps and bounds—the war being the excuse—and the government does nothing to the leapers and bounders except to threaten them with an order-in-council, which makes four bites of a cherry and thus gives the looters time to get away with the swag. The food profiteer never seems to think that he ought to take his medicine with the rest of us and cut down his profits during war time and, of course, the Borden government would never think of mentioning it to him. Let your food hog persist in his swinishness.
Let him that is greedy, be greedy still, and the Borden government will do its best to help him.
There is no doubt that this is a loyal government—loyal, for example, to its meat packing friends. Moreover, it believes in sacrifice—that is to say, sacrificing the consumer to the food profiteers. It would sacrifice the last man and the last dollar to that good cause. Its heart's desire is to remain in power till the last man is starved to death and the last dollar is shaken out of him.—H. F. GADSBY.
