Lord Kitchener Will Have Charge of Troops from All Parts of Empire

(Colonial Press Dispatch)

London, May 10.-Lord Kitchener, having finished his extensive tour, has returned to England to take up his new duties in connection with the Coronation. Some of his tours of inspection have ended disastrously for the inspected.

A certain commanding officer was putting his troops through a series of manoeuvres before Lord Kitchener, but somehow or other he managed to get his men thoroughly mixed up. In the end, however, the C. O. bobbed up, smiling, and trotting proudly up to "K, of K." he remarked: "There sir, I flatter myself that was extremely well done."

"Oh, excellently," was the suave reply: "but, may I ask, what on earth were you trying to do?"

It is estimated that more than 52,000 troops will be employed in London during the Coronation ceremonies. No fewer than 25, 000 soldiers and sailors from every state and dominion of the Empire will line the route and take part in the royal procession on Coronation Day. The various contingents

THURSDAY, MAY 11

ARE IMPROVEMENTS TO BE TAXED?

The snub administered by the Mayor to Alderman Morrissey at the council meeting on Monday evening when the latter wanted to know if it was the council's intention to tax improvements, is a snub that was quite undeserved. In asking the question, Alderman Morrissey was only doing his duty as a public servant. The question was asked on behalf of a large number of citizens, most of whom it may be assumed under the law of averages were once supporters of Mr. Manson.

In all progressive communities it is considered a virtue for the citizens to take an interest in public affairs. Even were it not so, the fact that it is the citizen's money that supplies the taxes ought to entitle them to ask the question through their representatives whether the council proposes to tax improvements or not. To say that the time is not yet ripe to discuss the council's taxation policy, is a most unsatisfactory way of evading the question.

If there are difficulties ahead, the council may be assured of a sympathetic and helpful consideration being given them, if they will take the public into their confidence. If there are no difficulties ahead, Were Run Over by a Train Near home, when the confines of little then the public is at loss to assign any reason why they should not be informed of a policy, in which they are all deeply interested. As things now are, the fear is abroad that the council are muddling along without any clear policy, or with a policy which they are not anxious to enlighten the public on.

This fear has been intensified, owing to the scant manner in which the public has already been treated over the assessment returns Even though one member of the Finance Committee has exceptional G. T. P. Winnipeg express this who had ready cash and therefore \$0000 House in section 6. Terms advantages for addressing the public nightly, nothing more than the bald statement of the assessment has been given out. The task of dissecting and expounding the council's fiscal programme is one we would much prefer to leave to the aldermen themselves-if they will take it up.

Eight weeks ago we suggested that the Mayor might enlighten the public on the economics of the city's assessment problems. We detailed a number of topics on which the public interest demands that enlightenment be given. The suggestion was made in a spirit of friendliness and not as criticism. In the same spirit the News again ... Whites Portland Cement ... invites the Mayor to the task, in courtesy offering him the privilege, before we take it up ourselves.

So too, in regard to the question as to whether the council proposes to place taxes on improvements—in other words impose a fine on those citizens who during the year have attempted to build up the town- Phone 125 we would invite the Mayor to answer, not ourselves, but the host of his own supporters, who are anxious to have this simple question answered. As tax-payers they feel they have the right to ask the question either personally, through an alderman, or through the press They, at least, do not relish being snubbed for taking an interest in the work of the council.

NOTES DUE

Two special efforts in the newspaper field call for special mention. The first is an excellent illustrated edition of the Omineca Herald. Its theme is progress and opportunities, with a number of well written articles describing the country, and giving intending settlers a fund of useful information. The pioneer newspaper has difficulties enough without getting out special editions. It is to such efforts that the province is indebted for a great deal of its "progress and opportunities."

The second special occasion is the receipt of a newspaper from the new mining camp of Steamboat. "The Steamboat Nugget" is the title, though an intimation is conveyed that its name will likely be changed to the Hope-Steamboat Nugget, as the paper is to be published in Hope 'owing to the impossibility of taking a printing plant into Steamboat." What a story is conveyed in that last clause. It recalls the story of the rush to the Klondike, when \$14,000 was spent on teaming in a \$3,000 linotype in order to start the first paper.

Percy F. Godenrath, of the Portland Canal Miner is the publisher, and the Nugget, bears a family likeness to the Miner.

The value of the wireless was demonstrated again yesterday, when after the Daily News had the exclusive story of the rescue of the crew man of the Humboldt came to say that his vessel had sighted the ... Grand Hotel.. overturned craft, righted her, and left her adrift one mile from Dead Spring Beds, clean White Sheets 25c cannot move away from the gang- near future should list them with us at Tree Point, Alaska. Twenty minutes later Mr. McKay, the owner of the boat, was in the Daily News office seeking confirmation of the news, and at once despatched a tug to Dead Tree Point in search of his vessel.
