OFFICIAL REPLY TO WILSON NOTE DRAFTED

NEARLY SIX HUNDRED THOUSAND GERMAN AND AUSTRIAN PRISONERS TAKEN

ALLIED REPLY TO WILSON NOTE IS NOW READY

Copies Forwarded to Russia and Italy for Approval—Huge Number of Prisoners Taken in 1916.

(Special to The Daily News.)

London, Jan. 3.—The official draft of the reply to the Entente Allies to President Wilson's note regarding a peace conference has been prepared and is approved of by Great Britain and France. Copies of the reply have been forwarded to Italy and Russia for their approval.

Year's Captures.

Paris, Jan. 3.—During the year 1916 the French and British have captured 119,500 Germans; the Entente Allies have taken 11,173 Bulgarians and Turks; the Italians have captured 52,250 Austrians, and the Russians have taken over four hundred thousand Austrians and Germans.

The Entente air forces have conducted seventy-five raids into hostile territory and have shot down nine hundred German aeroplanes.

Somebody Split.

Washington, Jan. 3.—Senator Stone, speaking in the Senate yesterday, denounced the unknown person who gave the newspapers advance information regarding President Wilson's peace overtures, the rumor of which caused such a panic on the New York Stock Exchange before any official notice was published.

CHRISTIE GIBSON HAS BEEN KILLED IN ACTION

Word reached town this morning that Christie Gibson, one of the best known of Prince Rupert old timers, was killed in action in November last. Mr. Gibson was here in the very early days and had many friends in the city who will deeply regret to hear that he has paid the price of patriotism.

LINER MISSING

(Special to The Daily News.)

New York, Jan. 3.—Marine insurance companies have increased their rates on the cargo of the White Star liner Georgic, which was due to arrive in Liverpool from Philadelphia on Dec. 19th and which has not yet arrived nor been heard from.

FRANCE GIVES ALLIES MUCH WAR MATERIAL

Though Resources Largely in the Enemy's Hands, France is Doing Wonderful Work for Her Allies.

(Special to The Daily News.)

Paris, Jan. 3.—Official figures for the year indicate that, though France has been deprived of fifty per cent of her coal resources; ninety per cent of her iron ore, and eighty per cent of her iron and steel manufacturing establishments, through the German occupation of northern France and the territory east of Lorraine, she has been able to provide her allies with nearly a quarter of her total output, besides supplying the needs of her own armies on the field.

Younger Officers.

General Lyautey, the new Minister of War in France, is vigorously pursuing the policy of introducing younger officers into the positions in the higher commands, believing that this system will make for greater efforts in ousting the Germans from the territory they now occupy.

LOCAL BATTALION DID SPLENDID WORK

The following is an extract from a letter received from Major J. Charles Halsey, who is now adjutant of his battalion:

"We have been moving back from the Somme, and when on the march, are unable to post letters, nor do we receive any. We left Albert on the Somme on the 26th November, arriving here last night, where we expect to spend a few days, reorganizing and resting up a bit.

"We are glad to get away from the Somme area for a while. Since the action of October 21st, we have been in two others. The last one we did not suffer very badly.

"I note the people there think there was some carelessness in the battles we were engaged in. It was just the reverse. The 11th Brigade which we belong to, has been complimented by all the army and corps commanders on this front. This brigade has established a reputation, and attained a standard of efficiency that is very difficult to maintain. Further, this battalion is the best in the brigade, and is recognized as such by the Higher Commands. With regards to the actual battles, we always obtained our objectives, and held them. We took more prisoners than our total casualties, including 'sick, wounded and killed.' The idea of any carelessness is absolute piffle."

NANAIMO PUTS IT UP TO THE GOVERNMENT

A resolution from the Nanaimo city council regarding the high cost of living was brought down at the city council last evening. The resolution called for the protection of the home demands for food commodities; the removal of tariffs on foodstuffs; the fixing and regulating of wheat prices and an inquiry by the government into the cost of production of canned goods, flour, etc.

Ald. Montgomery moved that the resolution be endorsed. This was seconded by Ald. McRae, who said that the investigation was started at the wrong end. He thought it was the higher-ups who should be investigated. He noticed that one big milling company, capitalized at \$2,500,000, which paid 6 per cent. before the war was now paying 10 per cent. The merchants were in his opinion struggling to make a bare living.

Ald. Casey said he was in accord with the principles of the resolution but he did not think that it should be dealt with while the investigation here was uncompleted.

Ald. Montgomery was of the opinion that the cause of the high cost of living was covered by the resolution and the endorsing of it would not interfere with the investigation.

Ald. Casey said that the resolution omitted an important factor in that it did not deal with the fact that the government is competing with the consumer for supplies today for the army and is paying such high prices that the manufacturer prefers to deal with the government rather than to produce goods for the people at home. He moved that the resolution lie on the table and be dealt with at the same time as the report on the local investigation. This was seconded by Ald. Dybbavn and carried by the chairman's vote.

Sale starts Thursday morning, this week, Wallace's.

"JIMMY" PARKS STILL ALIVE AND KICKING

Glad news reached Fire Chief McDonald this morning in the shape of a letter from "Jimmy" Parks, who was reported killed some weeks ago. Color was lent to the report in that Jim had not written for five weeks, and he had been a most regular correspondent. The letter is from a hospital at Boulogne where the former member of the fire staff is recovering from wounds. His right eye is damaged but it is gradually mending and he hopes to recover the sight of it completely. He mentions having seen Andy Hepburn, who was well, and Sam Massey, who had had the misfortune to lose his right eye. He also mentions a lad Murray, who formerly worked for Brother Moody, as having made the great sacrifice.

"Jimmy" expects to be invalided to England and he is looking forward to seeing the members of his family again. Whether he will be allowed to return to the front he does not yet know. He makes feeling reference to the death of Captain Adair Cars, who was loved by all the boys. The news that Mr. Parks is still alive and recovering from his wounds will be welcomed by his many friends in the city.

PAULINE FREDERICK AT WESTHOLME THEATRE

Pauline Frederick, one of the most popular stars of the screen, is the big attraction at the Westholme tonight in "The World's Great Snare," a picturization of Oppenheim's famous novel. It is a mining story of the early days in California and never has Miss Frederick appeared to better advantage than in this stirring story of the west. The novelist might have had this great actress in mind when he drew the character of Myra. It is something not to be missed.

Big sale starts tomorrow—Wallace's.

ENORMOUS WASTE OF VALUABLE COMMODITIES

The following is an extract from an article in the Vancouver Sun dealing with the coming year in the fishing industry of the Pacific coast:

No one knows the wealth of British Columbia's sea products. There is no report, either Provincial or Dominion, which gives the public an adequate idea on the subject. The amount of the salmon pack is covered in these reports, but nothing is said of the oolachan. Some little data may be obtained as to the halibut caught by the fearless fishers of the northern seas, but nothing is said of the dog-fish. Several companies have been formed for the purpose of gathering in the black cod, which swarm in the waters around Queen Charlotte Islands, but nothing is ever said of the various edible fishes which they will catch, kill, and consign to the waters from which they came.

Nothing in the past has been said of the waste going on at the salmon canneries, where heads, entrails and other "waste" are dumped into the salt water below the cannery.

All of these by-products of the fishing industry are of inestimable value to the province as fertilizers. There is no better fertilizer known than fish products, because of their great content of phosphorus.

The year 1917 will witness a great change in this industry. Salmon packing, which has been established on a commercial basis for many years, will not be amenable to many changes, but other phases of the industry will be brought to the front in a manner never anticipated.

FISHING REFORM

At the beginning of next week, fishermen and those interested in the fishing industry in this district, and all are interested directly or indirectly, will have another opportunity of placing their suggestions for the betterment of fishing conditions before the Pacific coast member of the Fisheries Advisory Board, who will be here on his way to Ottawa to attend the meeting of the board.

The Conference held last year was productive of one small concession in regard to herring fishing and the fishermen should redouble their efforts this year with regard to the points on which the board refused, or was unable, to do anything. The question of cannery boat-rating is just as it was and this matter should be taken up and pressed home with the utmost energy.

One of the most important matters to be brought to the attention of Mr. Cunningham is that of fresh bait for the halibut fishermen. As time goes on, it becomes more and more apparent that Prince Rupert is destined to be the centre of the Pacific coast halibut industry and one of the most vital matters in this business is the supplying of fresh bait in sufficient quantity. It has been suggested that the halibut men be allowed to carry small nets with which to catch herring for bait, wherever they may be found. This, in the herring season, would be a benefit but there are times when herring are not to be had and either frozen bait or some other must be used. Halibut men urge that they should be allowed to take a sufficient number of hump-back salmon to cover a trip. This is of course strongly opposed by the cannerymen, es-

pecially in seasons when everything in the way of salmon is wanted for packing. The halibut men have sound reason on their side. There is no chance of their burdening themselves with more humps than they actually require as the fish are of little value compared with halibut. There are many areas held up by the canneries which are never fished, and from which humps could be taken without the slightest damage being done to future runs of the fish. There are several other features which it would be well to have brought to the notice of Mr. Cunningham, and through him, to the department at Ottawa. There will not be another opportunity of doing so for a year and, if anything is to be done during the ensuing season, action must be taken now. It is up to the fishermen and all interested to get busy right away and form their plans.

ANOTHER DRYDOCK

As was noted in a letter by Mr. Roerig to The Daily News last week, the Dominion government proposes to subsidise, or assist financially in some other way, the construction of a drydock of 18,000 tons capacity at Vancouver. The most ridiculous plea put forward for the project is that there is not a floating drydock of this capacity nearer than Honolulu and, in British possessions, nearer than Hong Kong. Evidently Prince Rupert is not considered to be a British possession, or its drydock is forgotten entirely. As Mr. Roerig so ably points out, the subsidising of such a dock at Vancouver, while the 20,000 ton structure at Prince Rupert lies idle is a most ridiculous piece of extravagance at a time when

every cent is needed to carry on the war. When the drydock at Prince Rupert is busy it will be time enough to build another at Vancouver.

JOLLY DANCE

The New Year's Day dance given by the Ladies Auxiliary of St. Andrew's Society was a huge success, there being about seventy couples present and each having a thoroughly enjoyable time. The arrangements were in the capable hands of Mrs. H. Killen, Mrs. J. H. Kelly, Mrs. Reid, Mrs. Robb, Mrs. Irvine, Mrs. Anderson and Mrs. Captain. The music was provided by the Westholme orchestra and the old square dances were indulged in as well as the later numbers. The refreshments were of the daintiest and the event was one of the jolliest of the season. The committee wish to thank Mr. L. Holby for his services as floor manager.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

"JONES knows more about motor cars than any other man I know," said a man to his friend. "He has obtained his knowledge chiefly from motor car advertisements, and the catalogues and booklets circulated through them."

"All I know about photography," declared a well-known amateur, "I have learned from the men who advertise cameras, plates, papers and films."

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

Advertisements have stimulated our intelligence, added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University."

CHILDREN'S CONCERT AT PORT ESSINGTON
The children of Port Essington Indian day school gave a most delightful entertainment in the Methodist Church there on the evening of December 26th. Rev. W. F. Rushbrook presided over a large attendance and the children submitted a program of over thirty items, including motion songs, choruses and recitations. The children rendered the various pieces with marked earnestness and ability. There was the usual Christmas tree, each child receiving a gift from Santa Claus. During the intermission, a collection was taken up in aid of the Belgian Relief Fund, which realized the sum of \$20. The gathering closed with the singing of "O Canada" and "God Save the King." Thirty-one children took part in the program and their work reflected the greatest credit upon their teachers, while it also displayed a high degree of intelligence in the scholars.
