## A FISHING DELEGATION GOING TO OTTAWA

### PRINCE RUPERT CITIZENS ARE DETERMINED TO BREAK THE CANNERY MONOPOLY

#### DELEGATION TO OTTAWA TO COMBAT CANNERY MONOPOLY

PLAIN SPEAKING AT MEETING WITH FISHERY REPRESENTATIVES LAST NIGHT—MAYOR McCaffery SUMS UP SITUATION EFFECTIVELY—DELEGATES TO LEAVE WEDNESDAY

Mayor McCaffery summed up the fishing situation at the close of the meeting last night, in a fighting speech in which he said that the matter simply resolved itself into a question of monopoly versus democracy. To him, the crux of the matter lay in the cannery boat-rating and the closing of the rivers to independent fishermen and independent canners.

"To the people who live in Prince Rupert, and in the north, the fishing of the Skeena and the Naas, is a natural resource, in which the people should have full say as to the use made of that fishing," said Mr. McCaffery. "In demanding that the fishing in these rivers be freed from the monopoly which binds it, the people are only exerting their democratic rights. It gets down to this, that the people of Prince Rupert and the north want to disrupt this cannery organization and throw the fishing open. That is true, and the central truth of the whole matter," said Mr. McCaffery.

Addressing the Advisory Board representatives, the mayor said, "You two men are supposed to represent us in Ottawa. The question has been placed before you strongly. You have ignored it, in a way, one reason being the danger of international complications, still the people of the north will not stand for this cannery combine. There are limits to which the people will not submit. They put the matter clearly before you last year. You put it up to the government, but nothing was done. The limit has been reached. We are living in a democratic country, with responsible government, and it is the opinion of myself and every man in this town, irrespective of politics, that action must be taken."

As a result of the meeting with F. H. Cunningham and D. N. Mc-

Intyre last night, which was presided over by Mayor McCaffery, it was decided to send a delegation to Ottawa to appear before the Advisory Board to press the claims of the north against the cannery monopoly. The delegation consists of O. H. Nelson, from the city council; W. E. Williams, Board of Trade, and G. W. Morrow, of the citizens' committee; with W. H. Montgomery as an alternative. In the event of any of those gentlemen being unable to go, the mayor is to select a substitute.

At the outset of the meeting, W. H. Montgomery asked the representatives why the resolutions of last year were turned down. Mr. Cunningham said that he had sent a written report on the whole matter, which gave the reasons.

W. E. Williams then took up the question of herring licenses, asking that fishermen on this coast be given the same treatment as the Atlantic men. Rates here are much higher. Mr. Cunningham said that he had not the Atlantic rates with him, but he admitted that there is a difference. He would place the matter before the board. Mr. Williams asked that the herring area be thrown wide open over the whole of No. 2 district. Mr. Cunningham thought that this would be no advantage as the herring could not be taken care of for more than ten hours.

Captain William Selig advised the government to put on one or more boats to prospect for herring as the fishermen had not the time to do this. This was being done on the Atlantic.

A. W. McLean was in favor of fishermen being free to go anywhere, so long as they observed the regulations for the preservation of spawning grounds.

Captain Rorvig gave his experience in trying to get herring, which was costly and ineffective.

G. W. Morrow wanted to know why the government objected to opening up the whole district. The matter of taking care of the fish was up to the fishermen. Mr. Cunningham said that the present regulations had been made by a commission some years ago and they could not be upset at once.

On the question of allowing halibut men to use humps and dog salmon for halibut bait, Mr. Cunningham refused to entertain the idea. Mr. Williams, Capt. Rorvig and others explained that the value of the halibut taken was far in excess of the salmon used. Mr. Rorvig pointed out that Japs on the Islands had sent 1,000 tons of dog salmon to Japan.

The question of the abolishing of the boat-rating brought out a lengthy and futile discussion. Strong fighting speeches were made by all the members of the committee in which they demand-

ed that the attached licenses be abolished. The chief plea of the representatives was that an international question was involved and that the independent men were so in name only. Mr. Williams showed that the independent men got much larger prices for their fish and said that the canneries enjoyed their monopoly because of the boat-rating.

The matter of opening up the seine fishing at the mouths of streams was next discussed at length. The committee demanded that the exclusive rights to the canneries be abolished.

The granting of cannery licenses to all applicants was then brought up, and the refusal of the government to grant a license when the Dominion government had given one. Mr. Cunningham explained that one new license in each district was granted each year.

It was urged that a chief inspector of fisheries be located in Prince Rupert. G. W. Morrow and O. H. Nelson strongly recommended this, pointing out that (continued on Page Four.)

**VOTE FOR THOMAS McEEMKIN ON THURSDAY. BUSINESS MEN ARE NEEDED AS ALDERMEN.**

*Do you want to Help Prince Rupert Grow?*  
*Do you Believe in Progress?*

Then Vote for and Support WEDNESDAY as the Half-Holiday  
Or, are you content to knock, look backward, and in general to retard progress and hinder the development of Prince Rupert? If so you will support Saturday as the Half-Holiday.

The selection of Saturday would result in a serious inconvenience to the halibut industry as many of the vessels outfit and prepare to leave for the Banks on that day.

During the Salmon season no fishing is allowed from Friday until Sunday night, thus giving all persons engaged in that industry an opportunity to come to Prince Rupert and purchase their requirements only at the weekend.

Arrivals from and departures to all outside points would be compelled to wait a day and a half to transact their business, if Saturday were chosen.

The general public appears to be well satisfied with the present day as proven from experience of the last six months and no valid reason has been brought forward for a change to Saturday.

WEDNESDAY MEANS A REST INTERVAL IN THE MIDDLE OF THE WEEK. It takes the curse off of the daily toil for employees. A holiday in the middle of the week and the rest on Sunday means happy and contented clerks and a satisfied public.

WEDNESDAY is the reasonable day for employees, general public as well as employers, and means development and progress for the Port of Prince Rupert.

**DO YOUR DUTY TO YOURSELF AND YOUR TOWN AND VOTE WEDNESDAY THE HALF-HOLIDAY.**

#### THE MAYORALTY

Last year at this time, there was a feeling throughout the city that the civic ship was entering on a stormy voyage which required a strong, steady hand at the helm, and a hand guided by a clear, alert brain. M. P. McCaffery was elected as skipper of the ship. The ship has sailed through the year without a bump or tremor. Everything has gone along smoothly, rapidly and efficiently. Today, the taxpayers realize that they have completed the voyage at much less cost than ever before and with much more security.

The city has entered upon another voyage of a year, and the opinion of practically every man in the city is that the skipper of last year is the only man to take charge of the ship. He has shown himself to be thoroughly capable, in rough weather or calm, and the feeling throughout the city today is one of profound confidence in the ability of Mayor McCaffery. With a year of experience behind him, he is still better qualified for the important post than he was last year and, with the city's financial troubles a thing of the past, thanks largely to Mr. McCaffery's business ability, he will have time this year to devote his energies, as he has the past few months, to planning for new industries for Prince Rupert. The fact that the Emerson sawmill is an assured fact is largely due to Mayor McCaffery, as Mr. Emerson himself has pointed out. Other developments will follow, and they will follow much more rapidly and surely if the reins of government are left in the hands of M. P. McCaffery.

Marguerite Clark, in "Silks and Satins" at the Westholme tonight is as bright and dainty as ever. The part of little Felicite is particularly suited to this brilliant little actress and never has she been seen to greater advantage. There is a delightful love story running through the play and the whole makes one of the most enjoyable movie productions one could wish to see.

#### ROBERT CAMERON WILL REMAIN AT ESQUIMALT

Sergeant Robert Cameron, who left here with the first contingent and who has lost the use of his right arm through getting a few machine gun bullets in his elbow, is expected to arrive in Vancouver this week. He spent Christmas at his old home in Charlottetown, where he was given a rousing reception by his many old friends. Bob had just been home two days when his mother, who had been suffering from cancer for some time, passed away. Mr. Cameron expects to be detained at the military hospital at Esquimalt where he will undergo special treatment for his injured arm.

**MUNICIPAL ELECTION**

There is little excitement over the municipal elections this year and there are not nearly so many aldermanic candidates in the field as at this time last year, when there was something of an epidemic in that line. That there are so few new aspirants for office is a sign that the present members of the aldermanic board have acquitted themselves well.

In a year when retrenchment was of necessity the watchword, Mayor McCaffery and his aldermen did their duty, disagreeable though it sometimes must have been, without fear or favor. Mayor McCaffery made few pre-election promises, but, on taking office, he intimated that he felt that he had been placed in the civic chair to carry out schemes of retrenchment and to carry through the negotiations for the sale of the city's bonds. Mr. McCaffery has brought to the affairs of the city the business acumen he has shown in conducting his private business, and every taxpayer today must realize in his pocket that the city has benefitted tremendously from Mr. McCaffery's term in office.

On Thursday, he will return to the chair with renewed confidence, satisfied that he has the loyal support of the citizens of Prince Rupert in his efforts to gradually build up a strong business community here. The fact that the Emerson interests are shortly to start building a sawmill and shingle mill at Seal Cove is largely due to the efforts of Mayor McCaffery and the mayor has been busy for weeks and months past in trying to bring other industries to this vicinity, one or more of which will very

probably take definite shape at no distant date.

That Mayor McCaffery will be supported in the council by eight aldermen who will carry on the affairs of the city with care and economy during the year will be the desire of every citizen, and the matter is entirely in the hands of the citizens. The passing of the reserve fund bylaw will do much towards placing the finances of the city upon a firm and sure basis, and it will be up to the new council to conduct civic affairs as the past council has done, and as they have conducted their affairs as business men in the past year.

There is a strong possibility that the war will be over about mid-summer, then there may be room for more ambitious schemes, but, so long as the war clouds hover over the Empire, the most rigid economy must be observed all along the line. A council of careful business men is necessary in times like the present, and, if the clouds of war do lift, the same type of council will still be the proper one to administer the affairs of the city of Prince Rupert.

**THE NEW DEPUTY**

As was to be expected, the appointment of George R. Naden, as Deputy Minister of Lands, is hailed with the liveliest satisfaction, and Hon. T. D. Pattullo is to be congratulated on his coming north to find his deputy. Than Mr. Naden, a happier choice could not have been made. He has an experience of timber and land matters pertaining to this province extending over a long period of years, and should be able to render yeoman service to the minister and to the prov-

ince in his new sphere. Though Mr. Naden's duties will naturally cover the whole province, the greatest land and timber problems to be faced by the government are in the northern part of the province. There will be much hard work ahead for the deputy minister, but he will tackle it with energy and experience, and the results should be highly beneficial to Northern British Columbia and to the province generally.

**GERMAN SPIES WERE THOROUGHLY TRAINED**

In 1904 (writes Mr. Norman Smith in the Daily Mail) I was living in a flat at 27B Potsdamerstrasse, Berlin. My rooms adjoined the apartments of Lieut. Meyn, of the Prussian Army, who was then attached to the War Academy in Berlin. He was in possession of two special military certificates granted in recognition of his proficiency in language and knowledge of other countries. He told me that he had been travelling for years in France, on cycle and foot, studying the topography of that country. Three years had also been spent in Russia for the same purpose. Thus for seven years this skilled officer had been excused ordinary military duties to enable him to work as a spy. He boasted to me that he knew France.

 Jutting out into the Pacific ocean are thousands of large and small islands, some populated by the aborigines, while others have a few hardy white settlers, almost completely cut off from communication with the outside world. It is hardly credible to learn that a number of these places are within a few miles of the terminus of a transcontinental rail-

way, and the only means of communication enjoyed by the thousands of white and Indian residents is a fortnightly steamer from Prince Rupert, which ought to be the place from whence all supplies should be purchased, and which should be in close touch with the people who are endeavoring to obtain a means of livelihood. Under present conditions, the whites and natives are able to send their orders for supplies to Vancouver and Winnipeg, and to carry on all their business affairs with other places. Under the present mail contract, a steamer calls at Massett, Port Clements, Skidegate, Jedway, Sandspit, Ikeda, and Lockport fortnightly, remaining but long enough to leave any freight that is carried, and departing without giving the residents of many of the places time to answer correspondence. Although the Queen Charlotte Islands sent a large number of soldiers to the war, and the people are contributing to the Red Cross and other funds, they receive no word of the progress of affairs in the outside world, other than by mail.

The people are kept in ignorance of passing events, until they read the newspapers, or are informed by letter, every two weeks. The city of Prince Rupert is reaching out for business, but it is neglecting the large islands lying at their very doors, as Vancouver Island was neglected when Vancouver was an embryo terminus of a transcontinental railway. The department stores of eastern Canada, with Vancouver, Victoria and Seattle supplying the residents of Queen Charlotte Islands with the necessaries of life, it is no wonder that many prospective settlers visit the Islands and leave again without considering that there is land in plenty for purchase or pre-emption. The Queen Charlotte Islands have the best spruce lumber in the world, growing and awaiting the lumberman and mills. The fishing grounds are inexhaustible. When other parts of the Dominion are covered with snow, the evergreen islands afford food for cattle. There is no better place for sport, recreation and health than the Queen Charlotte group. The Japanese are discovering that the fisheries of the islands are valuable. American speculators have looked over the timber and mining wealth, from which they will

obtain millions of dollars in the near future. All of this is within a few hours of Prince Rupert and no effort is being made to run a ferry service that would bring in settlers and business men to build up the great lone islands within eighty miles of the prospective metropolis of the north. Get a move on, Prince Rupert! ISLANDER.

**2,000,000 Belgians Depend on us for Bread!**

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the  
**Belgian Relief Fund**

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

## The Poor Man's University

"JONES knows more about motor cars than any other man I know," said a man to his friend. "He has obtained his knowledge chiefly from motor car advertisements, and the catalogues and booklets circulated through them."

"All I know about photography," declared a well-known amateur, "I have learned from the men who advertise cameras, plates, papers and films."

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

Advertisements have stimulated our intelligence, added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.  
 If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Mr. and Mrs. Ike Thompson, from Graham Island, have gone south.

Just arrived 300 tons best Ladysmith Lump Coal. Send in your orders to Prince Rupert Coal Co. Phone 15. tf.

Fred Hardy is still in hospital in England recovering from his wounds. He is suffering from a badly lacerated hand.

The slides having been cleared away there is a possibility that the delayed mixed train will arrive this evening, followed by the regular passenger.

There will be no voting for school trustees, there being three vacancies and three candidates. Mrs. Kirkpatrick, L. W. Patmore and George H. Munro were elected.

Severe storms between Smithers and Prince George played havoc with the telegraph wires during the night and fallen trees have completely wrecked the service meantime.

Call the Pony Express for wood cut in stove lengths or 4 feet. Best household coal and general transfer. Piano moving our specialty. Prices moderate. Phone 301, R. W. Rogers. tf.

James Smith, of the G. T. P. staff who has been in Santa Anna, California, for some weeks, expects to remain in the south for about two more months. Mr. Smith is making a good recovery from his recent illness.

H. S. Clements, who was elected member for this district at the last election, but who some time ago deserted the north for the south, accepting the nomination for Comox, was a spectator at the fisheries meeting last night, but he did not stay long.

### ATTENTION RATEPAYERS!

A bylaw to maintain a reserve to ensure prompt payment of instalments on our debenture debt is to be voted on by you on the 11th January.

We submit the following reasons in favor of said bylaw:—

(1) The reserve fund has already been established this year, and has in practice been shown a great success.

(2) There always has been, and always will be, a shortage in collection of special rates for local improvement and other by-laws, which shortage has heretofore been made good from general revenue, but to do this the City has often been required to borrow from the bank, and always to place in the yearly estimates a sum to meet this shortage. With the reserve established we will neither have to borrow nor estimate.

(3) Instead of borrowing from the bank at six (6) per cent our reserve will receive the benefit of delinquent interest, and will pay to general fund six (6) per cent per annum on the whole amount of such reserve, and this will in fact reduce taxation to the extent of nearly Four Thousand Dollars (\$4,000.00).

(4) The scheme has been heartily endorsed by Sir Frederick Williams-Taylor, General Manager of the Bank of Montreal, also by the largest bond houses in Canada, as well as the Bond Dealers' Association of Canada.

(5) We believe that the establishment of this reserve will materially increase the selling price of any bonds we may hereafter issue, and will have a far-reaching effect in the general financing of the City in the future.

(6) The City Treasurer will be happy to show to any ratepayer detailed reports and full explanation of the whole matter, and also the letters of commendation received.

(7) Clearly remember not one dollar of this reserve will be raised by extra taxation.

E. D. JOHNSON, City Treasurer.  
FRED PETERS, City Solicitor.

### DELEGATION TO OTTAWA TO COMEAT CANNERY MONOPOLY

(Continued From Page One.)

Prince Rupert was the most important fishing centre on the coast.

The matter of protection was also discussed. Mr. Cunningham said this was up to the naval department and was being attended to.

A common license for all classes of fishing was asked for. Mr. McIntyre saw difficulties in the way, but admitted that deep sea licenses were too high.

The allowing of fishermen to use gas boats was next discussed. Mr. Cunningham said that many of the fishermen objected to this. Each member of the committee spoke strongly in favor of it. Mr. Morrow pointed out that fishermen living in Prince Rupert could not row all the way to the Skeena.

In regard to the introduction of more hatcheries, Mr. Cunningham said that he strongly favored this and it was having attention.

The introduction of salmon traps in the north was strongly opposed. Mr. Cunningham said that applications had been made and that one of these would be granted, but he would see to it that none would be given which would interfere with the Skeena fishing. None would be given within No. 2 district.

W. E. Williams raised the question of free bait, without restriction, to American halibut boats. He said that nine boats had been penalized for using Canadian bait and not returning with their fares to a Canadian port. Mr. McIntyre said that the customs department had remedied this by allowing the boats to return now.

At the close of the meeting, Mr. Morrow paid a compliment to the representatives, referring feelingly to the fact that Col. Cunningham had lost one of his sons at the front and had two more on active service. Mr. Morrow spoke strongly against the cannery combine and said that the people of Prince Rupert would fight for their rights. A hearty vote of thanks was accorded Messrs. Cunningham and McIntyre at the close.
