RUSSIANS BEGIN GREAT RIGA OFFENSIVE

GERMAN SOCIALISTS DEMAND PEACE — PORTUGUESE TROOPS ON WEST FRONT

GREAT RUSSIAN OFFENSIVE HAS BEGUN AT RIGA

Germans Scared by New Developments on Riga Front—Big Advance Scored by The Russians.

(Special to The Daily News.)

Petrograd, Jan. 11.—The great new Russian offensive on the Riga front is causing alarm amongst the enemy, who are frightened by the continued success of the line of attack along the Riga-Mitau road, at the northwestern end of the Russian battle line.

The Germans are pouring all their available reserves into the thinning lines facing the Czar's troops in this sector.

The Russians are preparing to extend their attack until it reaches the dimensions of their offensives in Galicia and Volhynia last spring and summer. This is the consensus of opinion, not only in Allied circles, but in the capitals of the Central Powers.

Advance a Mile.

Russian troops attacking the German lines in the region of Lake Babit, west of Riga, scored an advance of more than a mile capturing an enemy position between the Tiril Marsh and the River Aa and taking 21 heavy guns and 11 of lighter calibre.

Berlin Report.

Berlin, Jan. 11.—The renewed Russian attacks with stronger force yesterday, southwest of Riga and near the northern end of the Galician front, were unsuccessful.

TO THE ELECTORS Prince Rupert, B. C.

Owing to illness in the family, I was detained in the east longer than I anticipated. Having returned, I am again in the field for alderman during 1917.

W. G. BARRIE.

TO THE ELECTORS Prince Rupert, B. C.

Ladies and Gentlemen: Having consented to become a candidate for Alderman for the Election next Thursday, I respectfully solicit your vote and influence.

Respectfully yours,
JOHN DYBHAVN.

WHITE SLAVE TRAFFIC IN HUN-RIDDEN BELGIUM

The Echo de Paris publishes, in its edition of November 9th, 1916, the following interview of Mr. H. Carton de Wiatt, the Belgian Minister of Justice, concerning the removals, deportations and compulsory work imposed upon numerous Belgian civilians by the high German authority:

It is only too true, declared Mr. Carton de Wiatt, that the German authority is actually proceeding in Belgium, throughout the whole military area, to veritable raffles of men which are a reproduction but on a still larger scale of the crimes perpetrated a few months ago, under the pretence of agricultural labor to be done, in the invaded regions of France. About the middle of October, a decree bearing the signature of the Quartermaster General Von Sauterberg, was posted in our Hainault and Flanders Communes. That decree stipulates that all persons who are able-bodied and who have recourse, themselves or their families to "other people's aid" may be forcibly compelled to work, even out-

(Continued on Page four.)

ATTENTION RATEPAYERS!

A bylaw to maintain a reserve to ensure prompt payment of instalments on our debt-bond is to be voted on by you on the 11th January.

We submit the following reasons in favor of said bylaw—

(1) The reserve fund has already been established this year, and has in practice been shown a great success.

(2) There always has been, and always will be, a shortage in collection of special rates for local improvement and other by-laws, which shortage has heretofore been made good from general revenue, but to do this the City has often been required to borrow from the bank, and always to place in the yearly estimates a sum to meet this shortage. With the reserve established we will neither have to borrow nor estimate.

(3) Instead of borrowing from the bank at six (6) per cent our reserve will receive the benefit of delinquent interest, and will pay to general fund six (6) per cent per annum on the whole amount of such reserve, and this will in fact reduce taxation to the extent of nearly Four Thousand Dollars (\$4,000.00).

(4) The scheme has been heartily endorsed by Sir Frederick Williams-Taylor, General-Manager of the Bank of Montreal, also by the largest bond houses in Canada, as well as the Bond Dealers' Association of Canada.

(5) We believe that the establishment of this reserve will materially increase the selling price of any bonds we may hereafter issue, and will have a far-reaching effect in the general financing of the City in the future.

(6) The City Treasurer will be happy to show to any taxpayer detailed reports and full explanation of the whole matter, and also the letters of commendation received.

(7) Clearly remember not one dollar of this reserve will be raised by extra taxation.

E. D. JOHNSON, City Treasurer.

FRED PETERS, City Solicitor.

Prince Rupert Public School Board

NOTICE TO PARENTS AND GUARDIANS.

In conformity with recommendations of the Department of Education, pupils will be taken into the receiving classes of the Public Schools twice yearly, at the opening of the term in January and August only. PARENTS AND GUARDIANS TAKE NOTICE that pupils six years of age and those who will attain the age of six years on or before the 1st day of May 1917, will be admitted to the receiving classes up to and including the 15th day of January. Pupils will be received in Borden St. School from Feb. 1st to 9th inclusive.

W. D. VANCE, Secretary.

TO THE ELECTORS

On my record as an alderman during the past year, I again solicit your support on Thursday.

D. C. McRAE.

RIGHT IN THE BREAD BASKET

THE KAISER:—"Och, himmel, he's hitting me below the belt."
Cartoon by Shields in the Toronto Telegram.

REDOUBLED EFFORTS IN PROSECUTING WAR

Ottawa, Jan. 11.—There is no evidence of an early peace, but, on the contrary, all preparations are for a protracted struggle. Since the elevation of Lloyd George to the premiership orders have been received in Ottawa by the munitions board to have material turned out with redoubled vigor.

An expenditure in Canada of scores of millions of dollars on new munitions plants of all kinds has recently been authorized. In some cases the new plants cannot possibly be completed for months. When they are ready, the National Service Commission will be strained to provide labor for their operation.

NOTICE

David H. Hays has taken over the real estate, insurance and safety deposit business handled by Hon. T. D. Pattullo. Mr. Hays will conduct this additional business at his present office at the corner of Second Avenue and Second Street.

TUG-BOAT WANTED

The undersigned is open to purchase a small steam tug, forty to fifty feet, must have good sound hull, first-class machinery and be seaworthy in every respect. Apply by letter, giving all particulars, stating where tug can be inspected.

WILLOW RIVER LUMBER CO.,
GISCOM, B. C.

PRISONERS OF WAR BEING CARED FOR

The Prisoners of War Department of the Red Cross Society has received from Queen Charlotte City, through Mrs. Sandilands, \$5 to provide two months food supply for Pte. A. Bristow, No. 4981, who is a prisoner at Geggangenlager, Stendel, Germany.

In case the public are not aware of the fact, the department advises that every Canadian prisoner, whether adopted or subscribed for or not, receives a parcel each week from the Red Cross Prisoners of War Department in London, England. He also receives 12 lbs. of bread a week and clothing from time to time. The cost of this is provided out of the general Prisoners of War Fund and, if the money subscribed by anyone adopting a prisoner is not sufficient, the balance is made up out of the funds, so that prisoners of war are in no danger of being neglected. If anyone cares to adopt a prisoner, a name will be furnished by the society. Many people are doing this and are receiving letters of gratitude from these men. The constant stream of help must be kept up if we are to save our men and especially at the present time with the reported shortage of food in Germany.

THOMAS McMEIKIN SOLICITS
YOUR VOTE FOR ALDERMAN ON
THURSDAY.

ISLANDS WOULD MAKE GREAT NATURAL PARK

(Contributed).

Almost every state in the American Union has its Natural Park, and there is no reason why the Northern part of British Columbia should not be made a resort for tourists, and for those seeking health and recreation. Within eighty miles of Prince Rupert is a group of islands that will compare favorably with any pleasure resort on this continent, in the way of climate, fishing, hunting, scenery and natural advantages. The Queen Charlotte Islands are little known to the majority of residents of the province; they are well worth a visit from those seeking recreation or rest. The inlets and rivers team with all varieties of fish; the sandy beaches would make better automobile drives than the famed sea shore of Florida; the climate is the most equable in the whole of the Dominion while the scenery cannot be excelled. Strange to relate, there are no wild animals on the islands, other than black bear, marten, land otter, and a few weasels. Wild geese, ducks and grouse are plentiful, while a few deer have recently been turned loose, and are thriving. There is no reason why caribou, mountain goats, mountain sheep, moose and other animals could not be introduced, considering that there is fodder all the year round and no animals that would prey upon them.

With mile after mile of grass, trees, muskeg, berries, and everything that wild animals could subsist on, tame sheep and goats could be pastured by thousands.

A great many people have the idea that crossing Hecate Straits is an undertaking with exceptional risks. The white and Indian residents cross over to Prince Rupert in small launches at all seasons of the year, and not one life has been lost in many years. The inlets indenting the islands are wonderful, almost cutting through, from the east to the west. The notable inlets are Massett, Skidegate, Cumshewa, and Naden, running for many miles with land in sight on both sides. On these inlets fishermen are able to catch a large quantity of marketable fish. On one of the islands is situated a hot spring, which the Indians state has great value for invalids. Here and there, are a number of small islands, where good camping grounds may be found, with wood and fresh water in abundance. Langara Island, the northernmost of the group, is a small but very interesting locality. There hundreds of fishermen gather in the spring to troll for the king salmon, which weigh from twenty to one hundred pounds. It is not unusual for a troller to obtain twenty king salmon in one day. Men, women and children engage in king salmon fishing off the shores of Langara Island, obtaining a living and, in many cases, clearing quite a sum of money from the most healthful and pleasant of occupations. During

(continued on Page Four.)

GERMAN SOCIAL DEMOCRATS ARE OUT FOR PEACE

Petition to be Sent to Chancellor—Portuguese Troops on Western Front—Reply to Wilson on the Way.

(Special to The Daily News.)

London, Jan. 11.—German Social Democrats are circulating a petition for signature to be sent to Chancellor Von Bethmann-Hollweg demanding that Germany give up all her plans for world conquest and make peace at once.

Portuguese in the Fray.

Portuguese troops have arrived on the western front to add strength to the British and French forces.

The British treasury is preparing to launch a "loan of victory" which is hoped to be the last flotation in connection with the carrying on of the war.

Note Approved.

The reply of the Entente Allies to President Wilson's peace note has now received the approval of all the allied governments and is now en route to Washington.

French Report.

Paris, Jan. 11.—There is no news of importance from the western front.

The French parliament has re-assembled after the Christmas vacation. The government has requisitioned all stocks of alcohol for the use of the military department.

There are repeated rumors of a proposed German attempt to make a raid through Switzerland. The Swiss army is staunchly determined to defend the country at all costs from invasion from any source.

Steamers Sunk.

London, Jan. 11.—The British steamer Lorca, of 4,129 tons, is overdue and is believed to have been sunk. The British steamer Andoni, of 3,188 tons, has been torpedoed.

RETURNED SOLDIERS

To all those who witnessed the battle scenes from the Somme front at the Westholme last night, one of the predominant thoughts must have been, What can we ever do to repay those brave fellows for what they have done and are doing for us? It is to help solve this big problem that Premier Brewster has gone to Ottawa to confer with Premier Borden and the premiers of the various provinces. It is the biggest problem which Canada has ever faced, if we except the work of carrying on her share of the war. Next in importance to the winning of the war, is the care of the men who have helped to win it.

The provincial government has pledged itself to place as many of these men as possible in the civil service, and it is only right that this should be done, wherever possible. Especially in the outside branches there should be many positions found for our returned men. Most of them, after the life of the trenches, will not care to tie themselves to desks, and British Columbia in particular should be able to provide places of useful service to many of them.

It is impossible that all or even a large proportion of the returned soldiers can be placed by the government and it is up to the various municipalities and employers of labor generally to employ them wherever possible. It is true that many of the men will be hard to place, particularly those who have been seriously disabled, but for these special training, as is being given in France, may work wonders.

Premier Brewster, in his campaign speeches, made it very plain that one of the first

duties of his government would be to plan for the care of the returned soldiers and, as in all the other pledges made by Mr. Brewster, we may rest assured he will live up to his promises. The soldiers have formed strong associations throughout the country, which will do much toward taking care of the men until they find work, but the important part is the finding of work. After every war there has been a large addition made to the lists of the unemployed. This must not happen in this instance. The municipalities and the large employers of labor must unite with both governments to do everything possible for the soldiers who have fought and suffered for the Empire.

NOTES AND COMMENTS

W. J. Bowser is evidently still feeling sore over his defeat as he refuses to sanction the submitting of a petition to the Imperial Parliament asking that all provincial legislation since March 14th last be made valid. It will be remembered that, as attorney-general, Mr. Bowser made no effort to bring the matter before the courts. He evidently prefers to leave the affairs of the province in the muddle into which he got them.

Sir Max Aitken, Canada's eyewitness at the front, has been created a baron. He takes the title of Baron Beaverbrook, of New Brunswick and Cherkley, in the County of Surrey.

Prof. W. B. Bottomley, of King's College, London, has discovered a wonderful new plant food and fertilizer which is procured from peat. It is believed it will revolutionize agriculture and make the rehabilitation of war-shattered

NO MAGIC READ LABEL BAKING POWDER

ed Europe much easier. This may mean another industry for Prince Rupert if its muskeg has the qualities of peat.

Hon. T. D. Pattullo, Minister of Lands, has appointed M. A. Grainger as provincial chief forester. Mr. Grainger has been acting-chief forester since Prof. McMillan resigned two years ago. He is a mathematical wrangler of King's College, Cambridge, and took part in the rush to the Klondyke in '98. Mr. Grainger has done much good work in the Forestry Department, and has published a book on logging on this coast.

LITTLE EXCITEMENT OVER THE ELECTIONS

Around town this forenoon it was hard to convince oneself that there was a municipal election on. The close of the campaign, if it can be so termed, was just as calm and quiet as the beginning. Citizens seem to realize that the stormy period in civic affairs is over and that, with Mayor McCaffery and a business council, a period of solid business advancement has been entered upon and all that is needed is a cessation of the war to bring Prince Rupert into a state of activity once more.

FROM FAR AND NEAR

Gustave Herve, the noted French publicist, states that the next desperate move by Germany may be a big drive through Switzerland under Von Hindenburg.

A large section of the French press has come to look upon this move as a possibility and that Switzerland will be treated as Belgium was.

Skinner & Eddy, which firm has made such rapid strides in ship-building in Seattle, has acquired the Variety Iron Works, as an adjunct to their ship-building plant.

A portrait by the famous Flemish painter, Roger Van Der Weyden, recently sold in New York at \$1,000 per inch. There are only five of Weyden's portraits in existence.

Colonel W. F. Cody, known the world over as "Buffalo Bill," has been seriously ill at Denver, Col., for four weeks. He has moved to Glenwood Springs in the hope that the treatment will effect a cure.

The Vancouver Sun publishes a lengthy and rather cynical article on Prince Rupert and its canneries and cold storage plant. It is written by an English youth who was here overnight about a year ago.

Dr. Frederick Starr, of the University of Chicago, who is leaving for Japan shortly, states that the world's centre from now on will be in Eastern Asia. This, he says, would have happened had there been no war, but the conflict in Europe has hastened the change.

Six hundred thousand Lithuanians in America have petitioned Washington demanding that the United States support them in an endeavor to have Lithuania made politically independent under the name of United Lithuania.

American ship-building yards are so crowded with foreign orders for new ships that the United States government is going to have difficulty in having its new battleships and cruisers built.

Switzerland is facing an economic problem. She has half a million foreigners to feed and is short of fuel, and many of the foreigners have no money. The food supply is also running short in many lines.

One thousand persons are engaged on the Skeena during the salmon season, vote Wednesday the half-holiday and allow them people to come to Prince Rupert on Saturdays.

NOTICE TO MARINERS

Alaska, Wrangell Strait, Point Alexander Light was temporarily changed from group flashing to a single flash, 0.3 secs. duration every three seconds, December 22, 1916, without other change. The normal characteristic will be restored as soon as practicable.

Wrangell Strait, Point Lockwood Rock Light No. 1 reported on December 27th as being adrift and opposite Deception Point, light extinguished, will be replaced and relighted as soon as practicable.

Clarence Strait, Approach to Lake Bay, Beck Island Light, Report has been received that Beck Island Light was extinguished for the winter on December 4th.

Sitka Sound, Western Channel, Channel Rock Beacon, reported missing on December 8th, will be replaced as soon as practicable. J. H. McLEOD.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your contributions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

The Poor Man's University

"JONES knows more about motor cars than any other man I know," said a man to his friend. "He has obtained his knowledge chiefly from motor car advertisements, and the catalogues and booklets circulated through them."

"All I know about photography," declared a well-known amateur, "I have learned from the men who advertise cameras, plates, papers and films."

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

Advertisements have stimulated our intelligence, added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 549, Lumsden Building, Toronto.

(Continued From Page One.)

side of their own domicile. The decree further states that any refusal to submit to this obligation shall be subject to a penalty of three years' imprisonment as a maximum, and of a fine of 10,000 marks, or to one or the other penalty only.

To fully realize the abominable character of such a compulsion, it must be remembered that, owing to the departure of so many Belgians whom their military obligations have kept away from their homes for more than two years already and to the almost complete stand-still of our industries and manufactures, one-third of our population are being assisted by the Relief Committee. The latter, with the co-operation of the Belgian government and of the Allies and the intervention of both Spain and the United States, are taking upon themselves an enormous obligation which, stricto jure, should be exclusively assumed by the occupying power.

As soon as this notice had been duly posted, our fellow citizens whom the decree concerned were summoned in throngs at a time, in Courtrai, in Ghent, in Bruges, in Termonde and in Alost, and in several other localities, to the barracks, warehouses and empty mills and factories. Those who did not willingly answer the summons were seized and arrested in their lodgings and forcibly conveyed to the official rendezvous. For the city of Ghent alone, they numbered almost 3,000 people, composed not only of workmen, unemployed or not, but also of numerous clerks and petty dealers and employers. They were all examined, looked over and manipulated, one after the other just as if they had been on a genuine slave market. The less robust were eliminated and put aside. As to the rest, they were required to sign a document, all printed in German, by which they engaged themselves to work under orders of the German authorities. All the means of ordinary pressure were resorted to; incarceration, threats, deprivation of freedom and food, and various other acts of brutality. They refused. In spite of their refusal, they were carried off and deported towards unknown destinations. Every one of them was authorized to provide himself with a small bundle of clothing and a porringer. The official notice giving them that information added, textually,—"admirable irony! "Cash will be allowed to be taken also."

R. J. D. Smith, on his record as a member of the past council, solicits your support at the polls tomorrow.

ISLANDS WOULD MAKE GREAT NATURAL PARK

(Continued From Page One.)

the past summer the fishermen discovered another large fishing ground off Marble Island, on the west coast of Graham Island. Two fishermen obtained over a ton of salmon in one day with trolling lines.

Those seeking trout fishing will find the lakes and rivers all that is desired. The Yakoun, Ain, Awun, and other lakes are large, with rivers emptying into the inlets. Six varieties of trout have been caught on Yakoun river in one day. There has been little fishing done at the large lakes on the island on account of the distance from salt water and the means of communication. Several varieties of salmon spawn in the rivers, notably the sockeye, pink, cohoes and dog salmon.

On the east coast of Graham Island are stretches of hard-packed, sandy beaches, some extending for fifteen miles without any obstruction and as level as a billiard table. In all directions are camping places where sea or fresh water bathing can be indulged in.

It would be advisable for those intending to locate pre-emptions to visit the islands before considering the question of permanently locating. There are difficulties in the way of new settlers in almost every country, and it is not advisable to state that the land is ready for the plow, or that the new arrival will find everything necessary to start farming. There are few farms on the islands, and all prospective locators must judge for themselves; but as a natural park, ready for the introduction of every species of game, without danger of extermination by wolves or other undesirable animals, the Queen Charlotte Islands offer a means of furnishing a game and pleasure resort without comparison on the Pacific coast.

BIG DEVELOPMENT LOOKED FOR SOON

W. A. Williams, superintendent of the Granby smelters, arrived from the south yesterday, accompanied by E. J. Conway. Mr. Williams looks for great mining activity in this district during the coming spring and summer with much substantial development work being done.

For some time past, the Granby Company has been laboring under the disadvantage of an inadequate water supply and have been running only two of their four furnaces. They contemplate putting in oil burning machinery in the near future but are having difficulty in getting delivery.

THE DAILY NEWS

BATTLE OF THE SOMME AT WESTHOLME THEATRE

There was not a vacant seat in the Westholme last night, when the "Battle of the Somme" picture was shown. Rev. Canon Rix, in an appropriate little speech, opened the series. The Somme pictures are indeed the real thing and give one a proper idea of just how the boys live on the firing line. They clearly demonstrate the value of big guns and one sees monsters throwing shells of 1400 pounds. Our soldiers are shown helping the German wounded along and also burying the bodies of the fallen of the enemy. The Red Cross men are seen bandaging up the wounded before sending them to the base and also carrying off our own wounded to places of shelter. The havoc done by the big guns is splendidly depicted in the ruins of Mametz and the shattered German trenches.

The Westholme orchestra last night played very appropriate music to the various scenes and Ed. Stillwell brought out the big gun effects and the patter of the machine guns in splendid fashion. It is more than a show. It is a lesson never to be forgotten.

RED CROSS SALE

Mrs. Hoffman and Mrs. Gibbons will have charge of the Red Cross sale on Friday, in the rooms on Third Avenue. Red Cross Friday is becoming such a feature of the week that the ladies require no reminder that there will be the usual demand for cakes and home cooking, while the gentlemen will also remember that their presence is desired at the Red Cross rooms some time on Friday.
