ALLIES SUBMIT BASIS OF PEACE TO WASHINGTON

Restoration of Belgium, Serbia and Montenegro Demanded With Guarantee of a Lasting Peace.

(Special to The Daily News.)

Washington, Jan. 12.—The Entente Powers, in their answer to President Wilson's peace overtures, demand the restoration of Belgium, Serbia and Montenegro with the payment of indemnities which are justly theirs; the evacuation of the invaded territories in France, Russia and Rumania, with ample reparation for the damage done by the invading Teutonic armies; the reorganization of Europe with a permanent peace guaranteed by a stable settlement based upon the principles of liberty for the small nations; the liberation of the Italians, Slavs and Rumanians from foreign domination; the enfranchisement of the populations which have been subject to the bloody tyranny of the Turks and the expulsion of the Ottoman empire from Europe.

Greece Accepts Terms.

The Greek government has finally accepted the terms of the British ultimatum.

JACK KELLY SENDS MORE RELICS OF WAR

Mrs. J. H. Kelly has received several more curios from the battlefields of Flanders, made by "Jack" in his spare time. One is an inkstand the base of which is a piece of oak, the ink bottle a time-fuse casing and the cap a shell-nose. On either side of the ink bottle are badges of Canadian regiments, one being that of the 48th. The back is the eagle from the front of a German helmet, which has evidently been the property of a Prussian Guard. Besides the usual "Mit Gott für König und Vaterland," it bears the words Peninsula and Waterloo in memory of the work of the Prussian guards in the Peninsular war and in helping Wellington to defeat Napoleon. The flanks are supported by brass bullet casings and the whole is a remarkable piece of work in metal.

"Jack" has also sent an ash-tray, the base of which is made from copper driving bands, the match holder being part of a hand bomb. Accompanying these is a paper knife, the handle of which is a bullet casing, surmounted by the button of the 48th Battalion.

Harry McLeod has gone south on matters connected with his department.

WAR MATERIAL DESTROYED IN FOUNDRY FIRE

Explosion Shocks Felt Miles Away When Munitions Blow up in Blaze at Canada Car Co's. Big Plant.

(Special to The Daily News.)

New York, Jan. 12.—The plant of the Canada Car and Foundry Company, near Kingsland, N. J., was completely destroyed by fire yesterday evening. Repeated explosions, which lasted for three hours continuously, wrecked the building and destroyed many millions of dollars worth of war supplies. A half million three-inch shells, completed and ready for shipment to the Russian government, exploded in the fire. It is believed that the seventeen hundred employees of the company are safe and that not a single life was lost. A spark in the gasoline room is supposed to have been the cause of the outbreak. The shock of the explosion was distinctly felt in New York City.

COUNCIL ENDORSED

The electors yesterday passed judgment upon the work of Mayor McCaffery and his council of 1916. The verdict was exactly as was expected. The mayor was returned by a large majority and he has reason to feel proud that he is the first mayor of Prince Rupert to be elected for a second successive term, in a contest. His opponent had a hard row to hoe and is to be congratulated upon the fact that he put up a clean fight, free from all personalities. Mr. McCutcheon is quite entitled to look upon the result, not as a personal defeat, but as the utter rout of the disgruntled parties who pressed him into the contest.

The only change in the council is the substitution of T. McMeekin for W. G. Barrie. Mr. McMeekin is to be congratulated upon his election. Possessed of sound business ability and a fund of common sense, Alderman McMeekin will be an acquisition to the council.

HARRY THAW TRIES TO COMMIT SUICIDE

(Special to The Daily News.)

New York, Jan. 12.—Harry K. Thaw has cut his throat. He was found by the police in Philadelphia in an unconscious condition, with self-inflicted wounds in his throat. He is expected to recover. Worry over the threat of his mother to turn him over to the New York police is believed to have been the reason for the rash act.

BASE HOSPITAL, "SOMEWHERE IN FRANCE."—This photograph shows a base hospital in France of the type in which most of the wounded Canadians are treated before being sent to England. On the litters in the courtyard are lying German and French wounded, both badly in need of medical aid and some even more in need of the services of a minister of their faith.

MUNICIPAL ELECTION RESULTS IN VANCOUVER

(Special to The Daily News.)

Vancouver, Jan. 12.—Hamilton, Marshall, Miller, Owen, Woodside and Rogers were the aldermen elected here yesterday.

Mayor McBeath and Aldermen Kirk and Gale were returned by acclamation.

The school trustees elected were Messrs. Long, Matthews, and Mrs. Moody.

North Vancouver.

In North Vancouver, Vance was elected mayor and Wright, McBean, Barclay, Morden, Irwin and Clark were elected aldermen. The school trustees are Perry, Clements and Stacey.

New Westminster.

Mayor Gray was re-elected in New Westminster.

"JIM" NEVILLE HEARS FROM TWO LOCAL BOYS

Sergeant James Neville has received cards from John Tait and Walter Flewin, both of whom were with "Jim" somewhere in Flanders. "Jock" Tait is now with a hand grenade company in his old battalion, after having recovered from wounds sustained in the first great drive on the Somme. Walter Flewin, who was wounded at Festubert, where so many of the British Columbia boys were knocked out, is now as fit as ever.

CITIZENS OF PRINCE RUPERT:

Ladies and Gentlemen:—I thank you sincerely for the honor you have conferred upon me in again electing me as chief magistrate of the city. I take it as a personal compliment that I have created a record in being the first mayor of Prince Rupert to be elected for a second successive term of office, in a contest.

The greatest satisfaction to me, in the result, is that you have, by your votes, signified your approval of the work of the council for the last year, and it is my intention to devote all the energy I possess to the furtherance of the interests of this city and to the upbuilding of a business community here which will lay the foundation for the big city which is bound to develop in the years to come.

Again thanking you,

Yours faithfully,

M. P. McCAFFERY.

DISGRUNTLED ELEMENT COMPLETELY ROUTED

Interviewed by The Daily News

after the result of the mayoralty contest was made known last evening, Mayor McCaffery expressed great satisfaction in the fact that the contest this year had been so clean and free from all personalities. "My opponent set an example to his predecessor in the gentlemanly manner in which he conducted his campaign," said the mayor, "and I look upon the result, not only as a thorough endorsement of my work of the past year, but as the utter defeat of the disgruntled element in the city which induced Mr. McCutcheon to oppose me. One of the most pleasing features of the election has been the entire absence of party politics, and I feel satisfied that politics has at last been completely ousted from municipal affairs in this city."

Immediately after the result was declared, Mayor McCaffery called upon Mr. McCutcheon and congratulated him upon the clean fight he had made and "Doc" offered his heartiest congratulations, showing that he took his defeat, as he conducted his campaign, like a man.

Mr. and Mrs. L. W. Patmore were amongst the south-going passengers last evening.

PROVINCIAL PREMIERS DISCUSS BIG PROBLEM

(Special to The Daily News.)

The provincial premiers and other attendants at the conference were the guests at a dinner given by His Excellency the Duke of Devonshire last evening.

Prohibition.

There is a general impression prevailing in official circles that it is not the intention of the government to introduce legislation in regard to Dominion-wide prohibition.

Premier Borden has never extended much encouragement to the delegations requesting the curtailment of the manufacture and sale of liquor during the period of the war.

JELlicoe SAYS SUBMARINE IS TROUBLESOME

Menace to Shipping Greater Than at any Other Period—Cruiser Cornwallis Sunk—British Success.

(Special to The Daily News.)

London, Jan. 12.—Sir John Jellicoe, First Sea Lord of the Admiralty, has announced that the German submarine menace to merchant shipping is greater now than at any period since the outbreak of the war and requires all the energy of the Admiralty to combat it.

Germany is devoting every energy to the building of powerful new submarines in an effort to cut off food supplies to Great Britain.

The British armored auxiliary cruiser Cornwallis has been sunk by a German submarine seaplane carrier.

British Success.

The British expeditionary force in the Levant has taken the entrenchments covering the town of Ras, on the Sinai Peninsula, twenty miles north of El Arish, which point was captured a few weeks ago. The Turkish defending forces suffered heavy losses in the encounter.

Berlin Report.

POVERTY

One of the most remarkable features of the war is the doing away with poverty in Britain. The people of the slums are busy; are making good wages and the almshouses are empty, excepting for very old people who have fallen by the wayside. Social reformers often tell us that the reason for poverty is the fact that wealth is so unequally distributed, and some have plans for the more equal distribution of the good things, or supposedly good things, of this world, in order to alleviate poverty.

The fact that there is today in Britain an absence of that abject poverty which was so prevalent before the war is really due to the fact that there is now a more equal distribution, not of wealth, but of opportunity to earn a living wage. When reformers have provided more equality of opportunity they will have taken a big step forward on the road to national prosperity. The late Sir Henry Campbell-Bannerman declared some years ago that there were fourteen million people in Britain continually upon the verge of starvation. There is something radically wrong with the system which is responsible for such a state of matters, and the fact that, today, there has been such a complete change in this respect means that circumstances have arisen to upset this system.

The war has done what reformers for many years have been trying to find a way to do, and it is to be hoped that this lesson of the war will be taken to heart, not only in the poverty-stricken cities of the old land but in the new Dominions where poverty is at present little known, but where much of it is in the making.

The ideal of national service, evolved during the war, must not be forgotten when peace comes. The world not only owes every being in it a living, but owes everyone an opportunity to do his share in carrying on the affairs of the world, the recompense for which should be a good living. Trades Unions have done much to raise the standard of living, but, unfortunately, their efforts have necessarily been along narrow lines. The day has arrived when capital and labor must realize, as never before, that they are interdependent one on the other: that their aims, instead of being diametrically opposed, are one, and that the truest national service can only be rendered when both sides forget the past and lay plans together for the future.

In the past, capital and labor have combined against each other and have fostered the idea that their aims are as wide apart as the poles. Today, they must realize that the greatest aim, in any branch of industry, is not the getting of the highest possible amount in wages for the minimum of work, or the reaping of the largest amounts in dividends by paying as little as possible for labor, but the production of the highest grade of material at the lowest possible cost to the consumer; with every available man employed and at the highest possible wages, while capital gets its just reward, but no more. It is easy to reform the world in a few sentences, in theory, but it is an entirely different matter putting the proposed reforms into practice. The war has shown the way to many reforms and it is up to employer and employee to get together and consider the future, view-

Scientists claim to have discovered the substance that produces growth in the human body. It is called Theelin and is located in the pituitary body at the base of the brain. Scientists say that by retarding or accelerating its functions it may be possible to control the stature of human beings. Possibly they may be able to control the growth of the brain as well but they had better keep in mind H. G. Wells' "Food of the Gods," while they are experimenting.

It is stated by a Santa Clara, California, professor that about eight billion miles of spots are now marring the face of the sun. The professor states that there is a great scar visible and that one can see further into the sun than ever before. It would be a relief if Wilhelm could be stuffed into that scar.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

J. R. EASTON REPLIES TO SIR GEO. E. FOSTER

James R. Easton, of Spitzer, Rorick & Company, Toledo, Ohio, and well known in Prince Rupert in connection with the purchase of this city's bonds, is now in Vancouver looking into the financial situation in South Vancouver. Mr. Easton states that his firm last year placed from ten to twelve million dollars' worth of bonds for Canadian clients and that they have the most absolute confidence in British Columbia.

"We have found Canadian municipalities an absolutely safe investment," said Mr. Easton, "and our continued operations in British Columbia show that we have every faith in this province despite its temporary setback and the depression following the over-speculation you have been indulging in."

Mr. Easton says that his house pays little attention to politicians and their prognostications around election time or to outside knocking and criticism, but sends its own men into the field to investigate before opening up negotiations for bond issues. "All its information is secured first hand and by trained men, who are capable of making an intelligent study of conditions. It was as a result of this kind of investigation that the Prince Rupert loan was placed in face of much adverse criticism to the city. "We had a man in Prince Rupert for weeks, going into the situation thoroughly and as a result have faith in the city. One of your big public men spent a day there recently and then went back east and gave the impression that Prince Rupert was 'all in.' The kind of investigation he could make in a few hours' stay there was worth nothing at all."

Local News Notes

Wednesday was chosen as the half-holiday by a majority of 157.

Miss Mary Astoria left for Vancouver last evening to attend college.

John Day Bell, who was reported killed at the front some time ago, is a prisoner of war in Germany.

Andrew Brighton, who has been home in Scotland recovering from wounds, is now qualifying for a lieutenancy.

Mrs. R. J. Wilson, of Moose Jaw, arrived from the east last night to visit with her father and mother here.

Mrs. F. G. Dawson, accompanied by her mother, Mrs. Rothwell, of Regina, left last evening for Vancouver.

The reserve fund bylaw was endorsed by the ratepayers at the election yesterday, the vote being almost unanimous.

George R. Naden left for Victoria last evening. There were many friends at the wharf to wish him success in his new office.

There were over a hundred through passengers over the G. T. P. last evening, most of them being prairie folk wishing to escape the hardest of the winter.

Call the Pony Express for wood cut in stove lengths or 4 feet. Best household coal and general transfer. Piano moving our specialty. Prices moderate. Phone 301, R. W. Rogers.

J. F. Strang, of the Gosse-Millard Canning Company, left for the south last evening. Mr. Strang expects to come north again in about two weeks to begin preparations for the season.

J. Storfold, who has been representative of the Deep Sea Fishermen's Union here, left for Seattle last night accompanied by Mrs. Storfold. J. H. Meagher has taken over the management of the affairs of the union here.

A. J. MacDonald, who has been visiting his sister, Mrs. McKinnon of this city, left for Seattle last night. Mr. MacDonald was highly delighted with his stay in Prince Rupert, finding the winter climate here a trifle milder than that of the Yukon, where he has spent the last twenty winters.

RED CROSS WORK IS GREATLY APPRECIATED

John Day Bell, who left here for the front some time ago and is now a prisoner of war in Germany, has written to George Hill expressing thanks to the Red Cross Society for the splendid work it is doing for the prisoners held by the Germans. Mr. Bell makes a plea for support for the Red Cross by the people at home.

WESTHOLME THEATRE

Hobart Henley, who featured in "Craft," is presented at the Westholme tonight in "Temptation and a Man," a modern drama. "Peg O' The Ring" is the other big item in the program, this installment being entitled "On the High Seas." Grace Cunard and Francis Ford continue to hold the interest in this big serial.

UNIQUE PHOTO

Frank Dowling, Senr., has received an unique picture of young Frank, who is in England recovering from wounds and doing nicely, in the shape of a movograph. To all appearances, it is an ordinary picture but on touching a spring at the back, Frank's countenance takes on a beaming smile while his eyes twinkle.

Bathe Internally

Over 50,000 People Are Now
 Doing So.

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be, and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering this country, that great surgeons and specialists have been operating on the Lower Intestine for the most chronic and serious diseases, has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes us listless, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Cyril H. Orme's, Druggist, Corner 3rd Ave. and 6th St., or ask there for "Why Man of Today is Only 50 per cent Efficient," a booklet of great interest, which is given free on request. If you prefer, write for Booklet to Dr. Chas. A. Tyrrell, 163 College Street, Toronto.
