Among the Victims—Many
American Citizens Aboard
the Georgic.

(Special to The Daily News.)

Norfolk, Jan. 18.—Wireless
arnings confirm the rumored
ormation that a German sea
raider is operating in southern
Atlantic waters. Fifteen Entente
merchant vessels are reported to
have been sunk, including the
Empress, Radnorshire, Ninich,
the City Hall, the C. P. R. liner
Mount Temple, King George, the
White Star liner Georgic, the
French liners Voltaire and Nantes,
Casineres, Soluang and Otta.
There were sixty-three United
States citizens aboard the Georgic
which left Boston for Liverpool
on December 19th last, while the
King George also carried a num-
ber of Americans.

The steamer Theodore was
captured and a prize crew put
aboard, while the Yarrowdale was
also captured and used as a prison
ship, four hundred members of
the captured crews of the sunken
vessels being put aboard of her.

Submarine Sighted.
A submarine of undetermined
nationality has also been sighted
several hundred miles east of the
Virginia Capes.

HALIBUT FISHERMEN GET INCREASED PAY

Vancouver, Jan. 15.—Mr. A. L.
Hager, manager of the New Eng-
land Fish Co., returned today
from Seattle, where he attended
a conference of fishing compan-
ies to discuss new agreements
with the halibut fishermen. As a
result, the fishermen will get an
increase of 100 per cent. for the
winter months of December, Jan-
uary and February, and an in-
crease of 60 per cent. for the
summer and fall months.

The 1916 agreement guaranteed
fishermen 1 1/4 cents per pound on
halibut, but the owners volun-
tarily increased this remunera-
tion to 1 1/2 cents a pound. With
the striking of the new agree-
ment for 1917, the fishermen will
get 2 cents a pound during the
summer months—an increase of
60 per cent.—and will be paid 2 1/2
cents a pound for the winter
months named, which means an
increase of 100 per cent.

(Special to The Daily News.)

London, Jan. 18.—At daybreak
yesterday, the Canadians raided
the German trenches north of
Arras and inflicted very heavy
losses on the enemy, capturing
one hundred prisoners. Under
cover of darkness, the Canadian
troops crept up to the enemy
lines, unobserved, and, the mo-
ment the signal was given, bomb-
ing parties dropped on the de-
fenders, who resisted stubbornly
for a short time but were over-
whelmed.

On the Somme front, British
raiding parties executed two suc-
cessful attacks last night.

DON YELF BROKE HIS ARM YESTERDAY

Don Yelf had the misfortune to
fall and fracture his left arm be-
tween the wrist and the elbow,
while out skating yesterday. He
went to the hospital and had it
set and is now carrying the dam-
aged member around in splints.
After what he went through at
the front, a broken bone more or
less won't worry Don much, but
it is hoped that he will soon re-
cover the full use of the "wing."

(Special to The Daily News.)

Washington, Jan. 18.—The
State Department has received
another peace note from the En-
tente Powers, amplifying the for-

PRESBYTERIAN CHURCH HOLDS ANNUAL DINNER

The ninth annual dinner and
business meeting of the Presby-
terian Church was held last even-
ing when about a hundred and
fifty members and adherents of
the church were present. After a
substantial dinner had been dis-
posed of, the reports of the heads
of the various departments were
read and received with hearty ap-
plause.

Rev. Dr. Grant, in his opening
address, paid tribute to those
who had left the congregation to
serve the Empire at the front.

The sessional report, presented
by Chairman A. Douglas, showed
that there are 101 members on
the roll. The Sabbath School re-
port, read by the secretary, Jack
Naden, showed an average attend-
ance of 45, with the school in a
flourishing condition. Mrs. Steen,
secretary of the Ladies' Aid, pre-
sented a report covering the ac-
tivities of the ladies for the past
year and Mrs. Arnold, treasurer,
brought down a splendid financial
report, showing that the sum of
\$625.16 had been collected in this
branch of the work.

D. C. McRae, president of the
Fortnightly Club, gave a short
address, outlining the work of the
club. F. G. Dawson spoke on be-
half of the Board of Managers
and A. M. Manson, treasurer, pre-
sented the most satisfactory
financial report in the history of
the church. The congregational
revenue for the past year showed
an increase of \$476.56, whereas
last year it had fallen \$1,127 be-
hind the previous year. All out-
standing accounts had been paid
up and part of the mortgage debt
paid off.

F. G. Dawson, George H. Munro
and D. C. McRae were elected
managers for the ensuing year.
A. M. Manson, M. P. P., was re-
elected treasurer, and F. G. Daw-
son, G. R. Naden and A. M. Man-
son were re-elected trustees.

A letter from G. R. Naden,
chairman of the Board of Man-
agers, was read, expressing re-
gret that he was compelled to re-
sign on account of his accepting
other responsibilities in the south.

pounds.

TEUTONS LOSE VADENI AFTER GRIM STRUGGLE

Rumanian Town is Re-captured
After Repeated Attacks—
Russians Assume the
Offensive.

(Special to The Daily News.)

London, Jan. 18.—Following
repeated and vigorous attacks,
the Russians have re-captured
Vadeni from the Teutons. Ac-
cording to the latest official com-
munications from Jassy, the Ger-
man and Bulgarian offensive has
slackened considerably, the at-
tacks of the enemy being less
furious while the resumption of
reports from Rumania is regarded
as an indication that the Teutonic
armies have failed to make pro-
gress beyond the Sereth river,
which marks the limit of their
advance.

The Germans have been re-
pulsed with heavy casualties by
Allied counter-attacks in the Ka-
sino and Suchitza valleys, while
the Russians are maintaining the
offensive and have gained a foot-
ing on the peak.

JOLLY DANCE

The dance given by Local Union
745, in the Railwaymen's Hall last
evening, was one of the jolliest
of the season. There were about
seventy-five couples present and
dancing was kept up until three
o'clock this morning. The music
was provided by the Westholme
orchestra; the catering was in
the capable hands of Al. Black-
burn, assisted by Jack Carmichael,
and Len Porter made an efficient
floor manager. Not a little of the
success of the event was due to
the efforts of Messrs. L. Methol,
E. Anderson and B. Jelliech, the
committee in charge of the ar-
rangements.

GREEK DUPLICITY

It would appear that the Entente Allies have again been caught napping in Greece. While the French and British forces have been carefully preserving law and order between the opposing factions, King Constantine has evidently been devoting his energies to scheming for the linking up of his troops, with the Turks and Bulgarians in the north, and now that his plans have matured, he will probably bid the Entente a polite good-bye.

The man in the street says, "I told you so" and "the beggars ought to have been shelled out of Athens long ago," but, unfortunately, nations such as the French, Italian and British cannot conduct their negotiations with other powers by the catch-as-catch-can rules, but must follow along the usual lines of diplomacy. In this war, the Allies have come off second best in all diplomatic matters simply because they have played the game according to the recognized rules and, if they have been fooled, they have at least done the honorable thing.

It may appear for the moment that Constantine has gained the advantage, but it is a fleeting victory and can never recompense him or his Royalist supporters for the stigma which will be attached to them down through history. The nations are not playing a game of free fight in the bush, but are making history. Britain today holds the place she does in the eyes of the world because her word is as good as her bond, while Germany and now Greece will not be trusted for generations to come. When the war is over, Germany must get busy to put her commerce in shape again. She will be

obliged to make overtures to every people on the globe.

Greece, on a smaller scale, probably a very much smaller scale, will be obliged to do the same. When that time comes, their conduct in the war will be remembered. Every approach will be received with suspicion, as a result of the duplicity displayed in the past two years and a half. Even viewing the matter from a purely selfish standpoint, national duplicity, like individual duplicity, is poor business.

Constantine's latest and final escapade closes his career as a king and it is an ignominious close, for a man who has admittedly in the past displayed considerable power as a leader. The formation of a Greek republic is only the matter of a short time, as, even if the Italian duke does ascend the throne, he is not likely ever to gain and hold the loyalty of the Greek people. A republic, with Venizelos at its head, will probably be the final outcome of the Constantine episode.

NOTES AND COMMENTS

Premier Borden's assurance that the National Service Commission has not the slightest intention of resorting to conscription should finally allay the fears of the Trades Unionists.

"Tom" Lawson sure has started something rolling in Washington. If he has hit upon the truth, it is very unfortunate for the "powers that be" at Washington; if he is simply angling for information, it is liable to be even worse than unfortunate for "Tom".

"Tino" has consistently played the "con" game ever since the outbreak of the war. The poor

NO ALUM

man was in a very awkward predicament. He was faced by a large fleet on the one hand and his wife's relatives on the other, and he evidently feared the fleet least.

Sweden follows the example of Norway in warning her people that it is becoming increasingly difficult to remain neutral and be in Europe. Both Scandinavian countries are asking for peace but at the same time they are preparing for eventualities.

Berlin says the Germans have enough cattle, grain and vegetables. The Germans seem to be very anxious to advertise the fact, yet they claim that the submarine campaign was inaugurated to save the German people from starvation.

General Nivelle and Sir Douglas Haig are evidently preparing to deliver a whole lot of very convincing peace talk to Germany during the coming spring and summer.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

The Poor Man's University

"JONES knows more about motor cars than any other man I know," said a man to his friend. "He has obtained his knowledge chiefly from motor car advertisements, and the catalogues and booklets circulated through them."

"All I know about photography," declared a well-known amateur, "I have learned from the men who advertise cameras, plates, papers and films."

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

Advertisements have stimulated our intelligence, added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Another installment of "Peg o' The Ring" is presented at the Westholme Theatre tonight along with the Knickerbocker Star feature, "The Morning After the Night Before," a comedy-drama in which Billy Parsons plays the leading part. The name of the Knickerbocker feature sounds interesting and whether the play is more comic than dramatic depends on where Billy was the night before.

HARNESSING VOLCANO AN ACCOMPLISHED FACT

The harnessing of one of nature's power sources, the water falls, is an old matter. It remained for an Italian engineer to find a new and untouched source of natural power and to utilize it. In Tuscany, today, a volcano has been harnessed and is furnishing power for several industries. In an engineering supplement of the London Times there are the plans presented, showing how 15,000 horse power has been developed and utilized, the details being supplied by President Luigi Luigi, of the Italian Society of Civil Engineers.

It seems that near Volterra, in Central Tuscany, there are numerous cracks in the earth from which powerful jets of very hot steam spout high in the air, bringing up, among other things, boric acid, the recovery of which has become a local industry of importance. In 1903 the first attempts were made to use this steam as a source of motive power and a small reciprocating engine was installed, with the steam jets furnishing the motive power, which in turn was attached to a dynamo, from which the lighting of the boric acid plant was supplied.

Later, to get a more ample supply, pipes were sunk to the source of the steam, which was under a hard stratum of rock 500 feet down. These pipes gave steam with a surface pressure varying from two to five atmospheres. After several years' use it was shown that the steam carrying the acids had a corrosive influence on the engines, necessitating many repairs, so the volcanic steam was used to replace fuel in the creation of pure steam in boilers instead of directly.

With the recent heavy advances in the price of coal in Italy, one result of the war, it became necessary to enlarge the original plant and now one of a capacity of 15,000 horse power has been installed and is in operation. The electrical current generated by it is being sent by wire to the cities of Northern Tuscany and has proved a boon to many small industries. Further extensions are contemplated, as it is believed that hundreds of thousands of additional horse power can be harnessed.—Seattle P.-I.

DOG FISH ARE BEING PACKED EXTENSIVELY

Seattle, Jan. 15.—A packing plant at Friday Harbor, Wash., has just canned 300 cases of dog fish, and plans to complete fifteen thousand cases before the end of the season. The label on the cans says: "Grey fish a new food packed at the request of the United States Bureau of Fisheries and under methods approved by it. The grey fish is esteemed in European countries but hitherto has not been utilized in the United States."

There is a large demand for grey fish eggs for use in tanning leather. They are half as large as a hen's egg. Grey fish was served last night at the annual dinner of the Washington Newspaper Institute. University of Washington, and was pronounced excellent.

Bathe Internally and Keep Well!

Nature has mightily equipped us all, old and young, to resist disease—but she requires that we give her a chance.

We give her no chance if we permit the Lower Intestine to be more or less clogged with accumulated waste. Yet that is a universal condition today, as is proven by the number of laxative drugs that are consumed.

You can help Nature in Nature's most effectual way by Internal Bathing, and in an easy, non-habit-forming way keep the Intestine as sweet and clean as Nature demands it to be for perfect health and surer defence against contagion. Over half a million keen, bright, healthy people testify to its result.

Mrs. C. G. M. (name on request) of Stratroy, Ont., writes:—

I am pleased to have this opportunity of testifying to the merits of the J. B. L. Cascade. I have been using it now for a year with satisfactory results. I am an old woman, but my health is so improved that I have a renewed lease of life. You are at liberty to give my address to anyone privately who may desire to write to me regarding the Cascade.

Just call on Cyril H. Orme, Druggist, corner 3rd Ave. and 6th Street, Prince Rupert, and request free booklet, "Why Man of Today is Only 50 Per Cent Efficient." The most efficient device for Internal Bathing, The "J. B. L. Cascade" will also be shown and explained to you if you so desire. If you prefer, write for Booklet to Dr. Chas. A.
