GLARE OF SEARCHLIGHT "SHOWS HOME" TO RETURNING NIGHT FLYER. - This extraordinary photograph shows the return of a French Bourget aeroplane after a night trip over the enemy's lines. It is not a simple matter making a landing or finding "home" in the darkness of the night. The searchlight is powerful enough to illuminate the surrounding territory and to show the way to the air pilot. The Germans follow a different method, which does not show up so well to the enemy. They place lights in little pits dug at the corners of a huge diamond in the centre of the "field." This method has a disadvantage in that the aviator is apt to miss his landing altogether unless he has steered a straight course for "home" and is sailing practically right over the aerodrome.

TORY FEARS

The Toronto Daily News is worrying considerably these days about the "disorganization which threatens the Liberal party in Canada." It is very kind of this Tory organ to be so anxious about the health of the Liberal party, which is very good indeed, thank you, in fact, never was more robust. The Tory organ seeks to show that the authority and leadership of Sir Wilfrid Laurier is questioned and even repudiated everywhere except in Quebec and British Columbia, at least the latter province is omitted when the others are mentioned as being in a state of seething revolt. When one remembers that ever since Sir Wilfrid became leader of the Liberal party, some considerable time ago, we believe, there has been a periodical attempt on the part of the Tories to spread dissension in the ranks of the Liberals, one is apt to smile at such effusions.

The fact of the matter is that the Tories cannot be reconciled to the fact that the Liberals have a leader, and such a leader, while they have a makeshift in Sir Robert Borden. To offset the alleged lack of unity in the Liberal ranks, the Toronto News expatiates at consider able length, in fact, far too great a length to be convincing. on the solidarity of the Conhave cited many. The scientist-explorer, while in Chicago told a story about the San Blas Indians, a pygmy race of which little is known, because of their exclusive habits. They inhabit an island near Colon. There are only 10,000 of the small race in existance.

"These Indians are a seriousminded little people, who live a communistic life, in which the woman plays as important a part as the man," said he. "They are the Lilliputians of fact. > ONES knows more about motor care than any other man I know," said a man to his friend. "He has obtained his knowledge chiefly from motor car advertisements, and the catalogues and booklets circulated through them."

> "All I know about photography," declared a well-known amateur, "I have learned from the men who advertise cameras, plates, papers and films."

> Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything el he has learned from advertisements.

Advertisements have stimulated our added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University."

A Way to Soften the Hard Water of the Bath

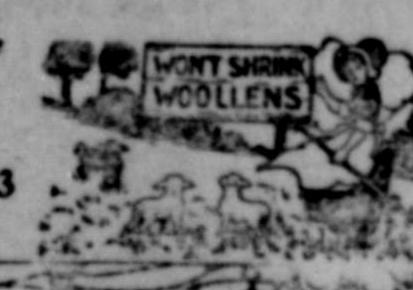

Get out the LUX package—pour in 3 or 4 tablespoonfuls into the water and stir a little. The water immediately becomes creamy soft, most refreshing and very beneficial to the skin. Try it to-night. You'll be pleased, well pleased. People where the water is unusually hard just revel in

for the bath. Especially where babies are concerned.

These silky-smooth little flakes of the purest essence of soap exercise a soothing and cleansing effect on the skin that is very stimulating after a trying day.

When the Royal Flying Corps was organized in 1912, it was estimated that in case of war the entire personnel would have to be renewed every six months—that that period would represent the average life of an airman in active service. In the first five months of the present war, however, during which the corps was almost continuously engaged in scouting and raiding expeditions. the total loss was six airmen killed by the enemy, five killed accidentally, five wounded, and five missing or prisoners, a total disablement of less than three per cent of the airmen on active service.

While no exact figures, either of losses or of the number of troops engaged in the field, have been made public by any of the powers engaged in the war, it is certain that the percentage of losses in land fighting, both of officers and men, has been very much larger than this in each of the armies .- Exchange.
