BONAR LAW REPLIES TO WILSON—COMMONS DISCUSSES RECRUITING SITUATION

OFFICERS WANT CONSCRIPTION IMMEDIATELY

(Special to The Daily News.)
Canadian Senior Officers Declare Voluntary System Has Failed and Conscription Must Be Adopted.

Toronto, Jan. 25.—That enlistments in Canada under the voluntary system have ceased to provide enough men to fill up the overseas battalions, was the unanimous opinion expressed by senior officers of the Canadian Expeditionary Forces at a conference here yesterday. The conference asked for the passage of an order-in-council enforcing the Militia Act and calling up for service immediately all males of the first class, from eighteen to thirty years of age, who are unmarried or who are widowers without children.

Gold for Raider?
New York, January 25.—Twice steamers have left Baltimore recently which had gold aboard and have not yet been reported as having arrived at their destinations in South America. It is said that the gold was for the German raider.

CANADIAN PATRIOTIC FUND

RED CROSS SALE

Mrs. John McRae and Mrs. Oakley will have charge of the Red Cross sale on Friday. Splendid support is being accorded the ladies in their magnificent work each week and it is to be hoped that this week may be even better than ever. The demand for Red Cross supplies is insistent and the good work must go on with the same determination with which our boys are doing their share at the front.

MR. NATION EXPLAINS PATRIOTIC FUND WORK

That the Patriotic Fund is carefully and economically administered and that it is doing splendid work much more efficiently and much more cheaply than could be done by the government was the gist of Mr. Nation's speech at the patriotic concert in the Westholme Theatre last evening in aid of the Canadian Patriotic Fund.

Mr. Nation said that those who stayed at home must pay to take care of the dependents of those who had gone to the front.

That the province has responded nobly to the call was shown by the fact that, whereas \$125,000 was the sum aimed at for 1916, outside of the cities of Vancouver and Victoria, the sum of \$450,000 was subscribed, though this was found to be insufficient to meet the demands, owing to the increased number of enlistments.

This year, it is expected that the sum of \$1,000,000 will be raised throughout the whole province, and such an amount will be required.

Mr. Nation emphasized the fact that only those who actually need assistance are given aid. He congratulated the local committee and the citizens of Prince Rupert generally on the fine work which they had done, and all that he asked was that they do at least as well this year as they did last.

He pointed out that there were 150 branches of the fund in this province and that 7,000 families are being assisted. The circumstances of the families are reported on every month by the officials and the greatest care is taken so that the fund may be equitably distributed.

Throughout Canada last year, the sum of \$15,000,000 was collected and the cost of administration was only 6-10 of one per cent, in addition to the accumulated interest on whatever sums were on deposit.

Mr. Nation dealt with criticisms which have been levelled at the fund. He said that it had cost less to administer than any charitable fund on record. He quoted figures to show exactly how the allowances are made. The full amount is given where absolutely

BRITISH VIEWS AND AMERICAN DIFFER WIDELY

Bonar Law Discusses Wilson's Latest Speech—Britain Wants Peace But Militarism Must Go.

(Special to The Daily News.)

Bristol, Jan. 25.—Mr. Hon. A. Bonar Law, addressing a war loan campaign meeting here last night, referred to President Wilson's recent speech in the Senate regarding the impossibility of peace following victory. He stated that Great Britain shared the aims of the United States in regard to the necessity of securing a lasting world's peace, but that other means were necessary to the procuring of it than the calling of a peace conference at the present time. Mr. Law said very emphatically that it is impossible to consent to Germany's peace terms, leaving the German military machine unbroken. He added that, though the United States and Britain are both anxious for peace, their viewpoints naturally differ widely, in that the latter nation is in the midst of a war with all its horrors and terrible sacrifices, while the former is far removed from any such conflict.

Loss Beer.

London, Jan. 25.—The food controller has decided that the quantity of beer brewed in Britain for the year beginning on April 1st must be but seventy per cent of the quantity produced during the previous year, on account of the fact that barley, sugar and other ingredients of beer are required for food.

HOUSE DEBATES WAR SITUATION AND RECRUITING

Marcel Says Bourassa and Monk Responsible for Trouble—French-Canadians Were Misled.

(Special to The Daily News.)

Ottawa, Jan. 25.—Hon. Charles Marcel, member for Bonaventure, Quebec; D. D. Mackenzie, Cape Breton; A. C. Boyce, Algoma; E. W. Nesbitt, North Oxford, and W. F. Cockshutt, Brantford, addressed the House of Commons yesterday on war topics; the Dorchester by-election and the recruiting situation throughout the Dominion.

Mr. Boyce charged the people of Quebec with failure to do their duty by Canada and the Empire. Mr. Cockshutt said he believed that the urgent necessity for recruits had not been sufficiently or in the proper way impressed upon the French-Canadian population. "The wonderful story of the French heroism in the defence of Verdun should be told at every cross-road of the province of Quebec," said Mr. Cockshutt.

Hon. C. Marcel stated that the teachings of Bourassa, Monk and other Nationalists that Canada should not participate in the war had been responsible for the small interest taken in recruiting in Quebec.

Michael Clarke gave notice of a motion that the government should introduce legislation during the present session for the extending of the franchise to every British citizen who had enlisted for overseas service and who was resident in Canada at the time of his enlistment.

INTERESTING PAPER AT FORTNIGHTLY CLUB

At the Fortnightly Club, in the Presbyterian Church last evening, Miss McClenaghan delivered a very fine paper on the Emancipation of Women. Dealing particularly with the period of the war, the essayist showed how women had so quickly come to the front since the beginning of the struggle. The scales had fallen from their eyes and a new conception of their duty to the state had been born. They were assisting to keep the engine of state pulsing forward and something of a revolution had taken place in the ranks of the "weaker" sex.

Miss McClenaghan compared the present status of women with the past, dealing particularly with the early struggles of Mrs. Pankhurst and her followers. Miss McClenaghan said that the debate

CANADIAN ENGINEERS NEED MANY RECRUITS

Lieut. E. Evans, of the Canadian Engineers, is coming to Prince Rupert shortly on a recruiting mission. Men are urgently needed for this most important branch of the service. Lieut. Evans will bring with him a set of moving pictures showing how the Canadian Engineers are trained for active service. This unit enjoys a high standing in the Canadian forces and only men of intelligence are wanted. The work is such that tradesmen are able to adapt themselves to the duties; while men who have been engaged on railroad construction and pioneer work generally are invaluable.

In the deal, and both owned a fifty-fifty share of the furniture, it seems likely, after all, the province will at least have some costly chairs and tables to show for an expenditure of its many thousands. On Saturday, Hon. John Oliver, acting premier, offered the Indian commission fifty cents on the dollar for the furniture—offered to pay that for the federal government's share, or take that much for the province's share. The province can use the furniture for the Workmen's Compensation commission.

FOR THE SOUTH

The keen interest which the Dominion Government is taking in Prince Rupert and the north is again exemplified in the report that the Cameron-Genoa Lumber Company is to be given a contract by the Federal Government for the building of two wooden schooners, with auxiliary power, to be built in Victoria. Nothing definite has yet been announced, but it is significant that this company is contracting for a year's output of the Port Clements sawmill on Graham Island, taking all the clear spruce which this mill can cut.

Victoria and Vancouver are busy as they can be in the way of ship-building, while the drydock at Prince Rupert remains an empty shell, with no sign of activity. That our drydock, which the Vancouver Province recently denied the very existence of by stating that the nearest large floating drydock in British possessions was at Hong Kong, is able to handle big business, we know absolutely. That the north is able to furnish valuable lumber for many of the parts needed in wooden vessels we have ample proof of, yet the government ignores Prince Rupert and hands all the business to Victoria. It did not even think it worth while to split the business and give the north one ship to build.

Prince Rupert is represented in Ottawa by a member who has already signified his intention of devoting all his attention to the south, where he rightly belongs, and it is very evident that we are no longer represented in the Federal House. The attitude of Ottawa seems to be that it did not bring Prince Rupert into existence, and that it, therefore, has no business whatever to take the slightest interest in what is being done, or left undone, here. So far as the Borden Government is concerned, this city might be a fishing town on the coast of Alaska; a place where it is understood that halibut is landed in considerable quantities. So long as the Borden Government remains in

power, just so long will this city be entirely neglected.

It is true that the Government is very busy with the war, and that it has enough troubles of its own without being harried by the wants of the people of the north, but surely it would require no more energy to place this extra ship-building business in Prince Rupert than in Victoria or Vancouver. The Government has time enough, and energy enough, to look after its friends in the south, and it is up to the people of the north to remind Ottawa that they exist, or rather are trying to exist. What are you going to do about it?

THE DEPARTED

The notorious Indian Commission, which cost half a million dollars and did little else, is no more, and the only regrets that it has passed beyond will be expressed by the gentlemen who drew down \$30 per day for 365 days in the year. "Honest" John Oliver declares that the sum in the provincial treasury is about "six bits" and that the utmost economy must be practised by the new government. There is to be a paring down all round, in fact, there have been evidences of it already, and the Indian commission is one of the luxuries which British Columbia can no longer afford.

Squandering of the people's money is a crime at any time, but, in a time like the present, when every cent is needed to defeat a powerful foe, it is doubly criminal. Before the war, this Indian commission, which was a joint imposition of McBride and Borden, was considered as something of a joke, but, since the Dominion became embroiled in a life and death struggle, it had become a very serious and unnecessary encumbrance. It is hard on the members of the commission that they should be deprived of such a pleasant mode of "earning" \$30 Saturday and Sunday, and it may be that some of the Tory newspapers will raise a howl about the "cutting off of heads," but there are some operations which, in

the interests of the people, a new government must, if it does its duty, perform, and this was one of them.

JACK McNEIL WILL HANDLE PRAIRIE BEEF

Early next spring J. J. McNeil will secure a small farm on the prairie a few miles this side of Edmonton and utilize it as a collecting place for live stock, especially beef animals, sheep and hogs. Not only will he handle meat animals but will also have breeding stock or will be in a position to secure for buyers any class of animal desired.

The chief object is to be able to secure meat and get it on the local market when he wants it, and at prices which will enable the consumers in Northern British Columbia to live like ordinary mortals. During the months of late summer and early fall when locally produced beef is inclined to be scarce, the idea is to pick up good animals on the prairie and to hold them on the new farm until a carload is ready to ship and the market here is ready for the shipment.

This is an important development in the business of Brongh-ton & McNeil. Since going into the meat business this trade has been steadily increasing and at times they have been unable to fill orders. With the prairie station operating they will be able to supply the needs of the north at all times and with the very best of meats.—Omineca Herald.

DOLLY VARDEN MINE MAY BUILD TRAMLINE

Victoria, Jan. 24.—Extensive mining development is now going on in the Alice Arm district and that the company owning the Dolly Varden group of claims eighteen miles up the Kitsault river is planning a heavy investment was indicated yesterday when L. W. Patmore, of Prince Rupert, appeared before the executive council of the provincial government to ask on behalf of the Dolly Varden company the right to lay a tramline along a gazetted road which the company has built. The company is not asking for a charter, but for the right to lay their line for the purpose of transporting ore from the mine to the water. The government lent a kindly ear to the application. In return for the concession the company will make a common carrier of the tramline for ore and freight, but not for passengers. It will also build a pack trail for the use of the public. At present the road is eighteen miles long. It could be extended as other properties of the district are opened up and require transportation for their ore.

The Alice Arm district first came into considerable prominence at the time of the Portland Canal boom. Some hardy spirits, struck with the excellent showings on the surface, pinned their faith to the district, with the result that today they are reaping their reward. There are a number of high-grade properties under development in addition to the Dolly Varden. A smelter is near at hand at the Granby works, at "Goose Bay," as the place was formerly known. Northern mining men all speak highly of the Alice Arm district and predict it has a great future as a producer of copper and other minerals.

Internal Bathing's Rapid Growth

It is but natural to expect that a relief from Constipation and the many ills which it causes, which is so effectual and so natural as Internal Bathing, should quickly make many converts.

But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an Internal Bath.

The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.

Mr. F. E. Smith writes:—

"Dear Doctor,—Your 'Cascade' made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and today she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past; can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; hot weather does not cause oppression."

The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail by Cyril H. Orme, Druggist, corner 3rd Ave. and 6th Street, Prince Rupert. Ask for free booklet, "Why Man of Today is Only 50 Per Cent. Efficient." If you prefer, write to Dr. Chas. A. Tyrrell, 163 College Street, Toronto, for same.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

THE ROAD TO THE RIGHT.

YOU'VE met at least one of those few good old souls, who are constantly getting the worst of it when shopping, who don't believe in advertising. A hundred disappointing and instructive experiences have failed to teach him their plain lesson.

When he bought his first watch he was beguiled into buying one without a known name or a trustworthy guarantee. That watch—a poor timekeeper—cost him dearly by reason of missed appointments and missed trains, and for frequent repairs. Yet he paid the price of a good watch.

It is the same story with regard to his underwear, his shoes, and his fountain pen.

This good old soul's case is not unique. Many of us, if the truth be confessed, resemble him; we allow ourselves to be sold merchandise with an unknown brand or trade mark instead of buying merchandise which is well known to us through the medium of advertising. In slang language, we get "stung" pretty often.

In most of these cases we have ourselves to blame, for "the road to the right" thing to buy has been made plain by advertising.

There is no good reason for passing by the known thing, soundly guaranteed, to buy a dubious article, which, quality for quality, cannot be cheaper than the known, branded article.

"It is better to be sure than sorry."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

In the Letter Box

TO THE EDITOR,

Dear Sir,—We soldiers' wives, mothers, and sisters of Prince Rupert have long been asking the question put forward by the Returned Soldiers Association in your issue of yesterday. Is it fair to our menfolk that while they are fighting and dying in the trenches, we should be employing a d patronizing Germans ever here? Is it honorable? Is it loyal? Is it wise?

The position of city engineer could be as well and better filled by Britishers in this town who now have to go outside for employment, and if Mr. Lorenzen's sympathies are with the British, as has been said, would it not be a token of his sincerity that he join our overseas forces, and give his position to a returned soldier, or some other capable Britisher? Further, should a German having such a complete knowledge of every detail of our harbor as Mr. Lorenzen is said to possess, be free to travel back and forth to American cities where abound his countrymen, to whom such information may yet be valuable?

It is not to the city's credit that there should be room to beg that our positions of trust be given to Britishers only.

Yours truly,
Soldiers' Wives, Mothers, Sisters.

MR. NATION EXPLAINS PATRIOTIC FUND WORK

(Continued From Page One.)

necessary, but, where a soldier's wife and family have no rent to pay, the amount of rent is deducted from the allowance. Some said that they receive too much. To this he replied that they could not receive too much, considering the sacrifices their husbands and fathers were making that they might live in safety and comfort. Dealing with charges of graft, he said that such charges were made in ignorance. He asked if it was likely that the head of the Bank of Montreal would contribute \$100,000 to a fund which was badly administered.

Dealing with the question of government management, he said that the leading men of the Dominion were satisfied that it was much better handled by the present organization that it could be by either the Dominion or provincial governments. Mr. Nation pointed out that the people of Canada are doing very little in patriotic work compared with the people of Britain. In Britain, the people were giving ten times as much. We must realize that this is Canada's war and that we must either fight, work or pay.

The speaker also pointed out that the work must not cease with the ending of hostilities but must be carried on until the men have returned to Canada from Europe, which would be some months after the close of the war. On concluding his speech, Mr. Nation was accorded a very hearty vote of thanks, on the motion of S. M. Newton, who presided.

During the evening, J. E. Davey gave a vocal solo and Principal Brady gave a selection from Henry the Fourth, in splendid style. The Westholme orchestra rendered patriotic airs while a very fine series of war pictures were screened as well as the drama, "The Jewels of the Madonna." God Save the King brought the meeting to a close.

LABOR SPEAKER RAPS BORDEN GOVERNMENT

Vancouver, Jan. 22.—Declaring that the working people of Canada were anxious to "fall in line" behind any "laudable proposal for real national service," but that the Borden government had not so far brought forward anything nearer it than giving profitable munitions contracts to its friends, L. T. English, a prominent man in the labor movement locally, spoke at the People's Forum in the large O'Brien hall to a large audience yesterday. Judging from the applause given the principal speaker and the remarks of most of the other speakers who followed, the bulk of the audience looked upon the matter from the same viewpoint as Mr. English.

"One of the reasons," said the speaker, "why the working people of this country have opposed the so-called national registration of the Dominion government is because there is a deep-rooted suspicion in their minds that the scheme is like so many other schemes which have been brought forward, and is not for the good of the nation at all, but for the good of a few of the friends of the government. The people have been hoodwinked so often before in the name of patriotism or of loyalty that they suspect this is the same old thing."

"But perhaps the greatest objection to the scheme is that the time has come when the people frankly seek an issue with the present Canadian government on the question of the conduct that has been pursued by the government in the prosecution of the war."

Political Pull For Officers.
"In Calgary, they picked out in many cases men who had no training whatever and made them officers in the overseas regiments, putting them in command of many officers who had been in the militia. It got to be a joke, and that was one reason why men did not enthruse over the way the war was being managed by the government."

"In fact, it seems to be the idea of the Borden government that national service means handing out fat contracts for munitions to its friends, and the government seeing that all the necessary labor was provided, so that they could make lots of money out of it."
