WILSON'S PEACE PERORATION IS RESENTED

VICTORY MUST COME, AND THEN PEACE—BRITISH SUCCESSES ON SOMME FRONT

WILSON PEACE PERORATION IS NOT EFFECTIVE

British Resent Proposals—People Determined That Victory Must Come—Germans Surrendering.

(Special to The Daily News.)
London, Jan. 29.—There is no uncertainty as to how the people of England viewed President Wilson's speech to the Senate. The streets flared with newspaper bills protesting against the President's suggestions. Even those who have suffered most by the war are determined that victory must be won before peace can be considered. Britain stood aside and let her Allies respond first to the German overtures but there is no hesitancy in expressing an opinion regarding Wilson's latest peace effort.

It is reported that Germany intends to issue a statement with reference to Wilson's speech in the Senate but the nature of the communication is as yet unknown.

Germans Surrender.

The German soldiers are very anxious to be taken prisoners of war and it is very evident that they do not like war any more. When captured, their one anxiety is to know how soon they will be taken to the rear and to safety. The war has shown Britain that there is no need of work-houses, and more reforms have been made during the last two years than could have been obtained in a century of peaceful agitation.

There has been less mental unbalance caused by the strain and stress of war than is caused in normal times by hopeless poverty. Measures to insure employment for the returned soldiers and for the eradication of the tramp class are under consideration.

DISASTROUS FIRE AT SMITHERS SUNDAY

Smithers, Jan. 28.—At 5:30 this afternoon a fire started in the gasoline engine plant of the Smithers electric lighting system, and, despite the efforts of the volunteer fire brigade, who labored strenuously with the thermometer registering 15 below zero, the flames quickly communicated to the Prince Theatre adjoining. Both building and plant with the interior fittings, piano and moving picture machine of the theatre are a total loss.

The fire originated by the ignition of gasoline fumes from a torch used in thawing out frozen pipes.

The lighting plant, as well as the theatre, was owned by J. M. MacCormack, formerly of R. Cunningham & Son, of Hazelton, and now a lieutenant in the Royal Engineers in France; Bob Miller, of Smithers, now a lieutenant in a Scottish regiment; Dave Eason, now residing in Oregon, and W. J. O'Neill, the latter acting as general manager. The loss is estimated at \$4,500, with no insurance.

Soon after the fire, a meeting of the citizens was held and plans formulated for the rebuilding of the theatre and hall as well as the construction of a new and larger electric light plant.

BRISK FIGHTING ON FRENCH AND BRITISH FRONTS

British Capture Commanding Position and Many Prisoners—French Gunners Are Busy.

(Special to The Daily News.)

London, Jan. 29.—British operations yesterday on the Somme front in the neighborhood of Le Transloy were successful. All objectives were gained and a commanding portion of the enemy trenches was captured. Over three hundred and fifty prisoners, including six officers, were taken. The enemy vigorously counter-attacked without effect and all attempts to regain the ground lost were defeated with heavy losses to the Germans.

Our aeroplanes did much useful work in assisting the attack and succeeded in destroying two enemy machines, while another was forced to the ground in a damaged condition. Two of our machines are missing.

French Front.

Paris, Jan. 29.—There were spirited artillery actions yesterday on the left bank of the Meuse; in the region of Hill 304; at Dead-man's Hill; on the right bank of the Meuse, and in the sections of Louvemont and Boise Cautieres.

In Lorraine our batteries destructively shelled the German organizations in the Parroy Forest. The rest of the front is comparatively quiet, with the exception of the Belgian front where there was violent artillery action in the region of Dixmude during yesterday and last night.

PRINCE JOHN MAY BE BROUGHT HERE

The Prince John has been beached at Petersburg, Alaska, her cargo having been taken off by the Prince Albert, which vessel has picked up the passengers from the stranded steamer and is completing the trip north. The Albert will take the place of the John in the G. T. P. schedule meantime.

The salvage steamer Salvor arrived from Vancouver this morning with Captain C. H. Nicholson, manager of the G. T. P. fleet, on board and will proceed north today. Captain Nicholson intends to have the Prince John brought to the drydock at Prince Rupert for overhaul and repairs and is now in town to make arrangements with J. H. Pillsbury to that end.

NATIONAL SERVICE FOR MANUFACTURERS

Ottawa, January 25.—Parliament will be just as busy as it likes this session. There is plenty of material for discussion in the Lieut.-General Sir Sam Hughes correspondence with Premier Borden, Dr. Bruce's report, the returned lieutenant-colonels, who are now lieutenant-colonels in a double sense because they chose to come home and be colonels rather than go to the front and become lieutenants, the super-swollen Canadian military establishment in England, and many other matters bearing on the Borden government's incapacity to manage its end of the war.

Meanwhile the talk in the corridors is all of registration and national service. Is the government putting it over briskly? Are the cards being filled in? After the cards are filled in what next? How long will it take to count, classify, tabulate and cross index the answers? Two months? Three months, perhaps? When the first count is indexed will the government have another registration, this time with fines and penalties to catch the sulky fellows who tore their cards up? And after this second count is made, how long will it take to tabulate that? Another two months? Three months, eh—well perhaps? And that brings us to July, 1917, about which time the allied offensive and the German counter thrust should be at their height.

Many things can happen in six months—if the registration takes that long—and there is a disposition in these cynical precincts to believe that the Borden government is going to let them happen, which is a wise course to pursue, because how could the Borden government prevent things from happening in Europe anyway? It would be very much like Mrs. Partington's attempt to sweep back the Atlantic ocean. The prudent course is to wait and see, meantime making use of noble gestures, like national registration and such.

Members of Parliament who are in touch with labor say that there are several reasons why the workingman doesn't sign the registration cards quite as cheerfully as he would a petition to hang the Kaiser. One reason is that he doesn't consider it a square deal to make an inventory of the man power of Canada and to neglect making an inventory of the money power. If the one is mobilized or conscripted, the

FRENCH SAILORS HAVE THRILLING EXPERIENCE

(Special to The Daily News.)

Willemstad, Curacao, Jan. 29.—Three French sailors have reached Buenos Ayres after being at sea for ten days in a small boat. The men, who were on the verge of starvation, were members of the crew of the French armored cruiser Jeanne D'Arc, which is stationed at Martinique. They were carried away by a current and were unable to return to their ship.

FATAL RAILROAD ACCIDENT IN STATES

(Special to The Daily News.)

Waterbury, Conn., Jan. 29.—Forty-eight persons were injured when a freight engine ran into the rear car of the Boston-New York express on the N. Y., N. H., and H. R. Railway here last night. One passenger coach, which overturned, barely escaped a plunge down a thirty-foot embankment.

Cleveland, Jan. 29.—Four persons were killed; three burned to death and eighteen seriously injured when an interurban passenger car and an electric package car collided yesterday.

other ought to be too. There may be something in this objection. If the national registration has any other object than finding out who's married and who's not—who's Two in Canada, so to speak—it must be the war, and if men can fight, money, as Shakespeare says, is a good soldier, too, and will march.

This naturally brings up the question of the excess profits of munition manufacturers and others who have got rich out of army contracts. Is the government going to do anything more with these gentry, and if it is, why doesn't it let the workingman know beforehand, so that when they ask him to tell all he knows about himself, he may do it with a glad heart. How silly, by the way, some of the questions must appear to the profiteer? Of course he would be willing, if his fare was paid, to go anywhere else in Canada and make the same money as he is making now. You bet your life he would!

As for the workingman, he doesn't look at it quite that way. Why, he asks, should he tear up his home by the roots and go

RUMANIA LOST HEAVILY BUT IS STAYING WITH IT

Rumanian Premier Visits Russian Capital—Germans Did Not Gather Much Grain in Rumania.

(Special to The Daily News.)

Petrograd, Jan. 29.—M. Brati-ano, the Rumanian Premier, is in Petrograd in conference with the Russian authorities regarding the campaign in Moldavia. The Premier says he is glad to find that the Russians have the same feeling of unshakeable faith in the outcome of the war as they had at the beginning of hostilities. He states that the Rumanian army will soon be reformed and will aid the Russians in driving the enemy from Rumanian territory.

The Premier says that the German reports regarding the booty which has fallen into German hands in Rumania are greatly exaggerated and that the supplies gained is not sufficient to improve the economic situation in Germany. The Rumanian army has lost nearly a fourth of its fighting strength.

"Irreconcilable Ideals."

New York, Jan. 29.—Sir Thos. White, addressing the Canadian Society here, said that this is a war of "irreconcilable ideals" and that Anglo-Saxon freedom and Prussian militarism cannot both survive. He said that Canada is determined to continue to aid the Empire and wants to continue the war to a triumphant finish.

DORCHESTER

According to the Tory inspired reports from Ottawa regarding the Dorchester by-election, the fact that Hon. Albert Seigny, Minister of Inland Revenue, has been returned by a majority of 250 is ample assurance that the Opposition will not dare to refuse another extension of the life of the present Parliament. The Tory assumption is that, because a small constituency in the province of Quebec has re-elected the gentleman who, in 1914, asked, "What has England ever done for us?" that the whole of the Dominion is perfectly satisfied that the Borden government should still be permitted to carry on Canada's part of the war in its own sweet way, no man during to say them nay.

The Tory assumption is that, because Dorchester has endorsed Seigny, the people of Canada are perfectly satisfied that the government which is sending hundreds of useless senior officers to England, to be scrapped along with millions of dollars worth of useless Canadian equipment, should be allowed to continue on its reckless course without a murmur; that the government which armed our soldiers with ineffective rifles for a year after they had proven ineffective should still have the directing of the lines of some hundreds of thousands of brave Canadian soldiers; that the government which allows the profiteers to get away with their millions, coined out of the suffering and misery of the people of Canada, should still hold sway; that the government which shelved the hospitals report of Dr. Bruce, because it did not consist of white-wash and flattery for the Tory leaders, is the kind of government the people of Canada desire above all things; that the Premier who was weak enough to tolerate Sir Sam Hughes' blunderings for two years, and then shunt him because he bluntly told what he thought about the Premier, is the right kind of a leader for the Do-

minion in this great crisis, and that the Premier who has tolerated Hon. Robert Rogers in his cabinet, after the Winnipeg revelations, is the kind of man the people want to conduct to conduct their affairs.

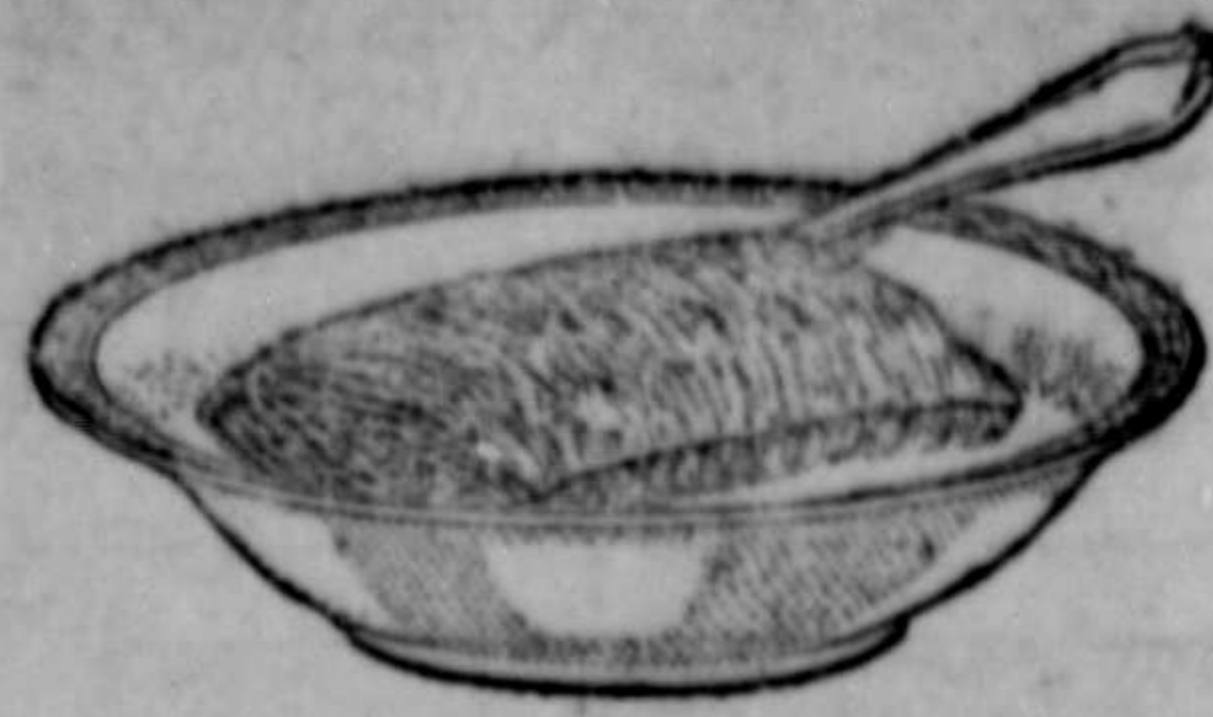

It is excusable that the Tories should show signs of vast relief in the fact that Mr. Seigny, one of the Nationalists with whom Sir Robert Borden burdened himself in 1914, has been re-elected, but it is ridiculous that they should, in their satisfaction at having supposedly postponed the day of disaster, assume that the rest of Canada is at one with Dorchester, Quebec, or that the rest of Canada heartily supports the bluntly expressed beliefs of the Nationalists.

Seigny's re-election is hailed as a victory for the Conservatives. Does the Tory press recognize Monk, Bourassa and the rest of that ilk as Conservatives? Dorchester was a victory for Bourassa, Monk and the rest of the Nationalists, who are avowedly anti-British. It is a victory for the men who, in 1914, declared that they would "shoot holes in the Union Jack," and who described the Laurier cabinet as a "cabinet of Imperialists, disposed to sacrifice the interests of Canada, and to launch us into wars which do not concern us." It is a victory for the men who condemned Sir Wilfrid Laurier for his loyalty to the Empire, and, today, the party which seeks to show that Laurier is disloyal to the Empire, hails it as a gain for them. Nothing could be more eloquent of the dire straits in which the Tories find themselves. The Tories have again taken to themselves a serpent and are trying to convince themselves it is a dove. The awakening is not far distant and it will be a rude awakening.

STOP THIS LEAK

A Detroit newspaper recently printed an editorial welcoming "our Canadian newcomers," in the following terms: "Without trying to estimate

Putting Punch in Preparedness is not a question of guns and shells alone—it is a question of men—and you have to build men out of food. the proportion of their contribution, let us content ourselves with saying that Detroit would never have attained its present status without the contribution of Canadian skilled labor and of Canadian educated business men. Our commercial, financial, industrial, civic and social life is charged with them.

"For this reason we welcome the 17,631 Canadians, mostly virile, independent, educated, aggressive, combative, up-standing young men, strong in the principles of Christianity and of democratic self-reliance who have come to Detroit from Ontario and the Northwest Provinces during the past year."

This indicates that there has been a large leakage of Canadian man power since the war began, and it is a subject which should have had the attention of the Canadian authorities long ago. Throughout the country there is a good demand for labor; indeed, this question in some places is becoming acute. No economic situation is being relieved, therefore, by the exodus of men from Canada to the United States. It should have been apparent more than a year ago that Canada would finally need every man she has for her essential industries apart from the requirements of her recruitment. That leak should be plugged.—Victoria Times.

SEVEN YEARS TORTURE

Nothing Helped Him Until He Took "FRUIT-A-TIVES"

ALBERT VARNER

Buckingham, Que., May 3rd, 1915. For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating, while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston but without benefit. I tried many remedies but nothing did me good. Finally, a friend advised "Fruit-a-tives". I took this grand fruit medicine and it made me well. I am grateful to "Fruit-a-tives", and to everyone who has miserable health with Constipation and Indigestion and flat Stomach, I say take "Fruit-a-tives", and you will get well!

NATIONAL SERVICE FOR MANUFACTURERS

elsewhere in Canada to make some rich munition maker richer? If the manufacturers of munitions were nationalized—ah, that would be another story! One does for one's country what one hesitates to do for the bloated capitalist. They have got the right idea in England. Over there the government asks the workingman to make sacrifices for his country, not for the profiteers.

Incidentally they have squeezed the profiteer out of the munition business, and wherever else they leave him they bleed him good and plenty—they take sixty per cent. away from him. Since sacrifice is the word, England sees to it that everybody does it. In this connection word comes that there is a little group of Canadian companies with administrative offices in London, who are fighting this tax to the last gasp. One Canadian capitalist who had a big contract from the British War Office is said to be organizing the opposition to this levy on the ground that it is Canadian money and not English that the British government is trying to tax. This same capitalist, over here in Canada, sings quite a different song. He tells the Canadian profiteers, that is to say, those who make profits out of the Canadian government, and, not like him, out of the British War Office, that they ought to be ashamed of making so much money and that the time has come for them to make great sacrifices for their country. In fact he is preparing to sacrifice everybody's profits but his own. This is a habit philanthropists frequently develop—being generous with other people's money.

It is facts like these which give the workingman pause when he goes to fill in his ticket. As a loyal citizen he does it, but as a friend of fair play all round, he doesn't half like it. But, being a good man and true, he does his duty even if others shirk it. It is not unreasonable to suppose that Mr. J. W. Flavelle, chairman of the Imperial Munitions Board, is in the workingman's mind when he fills in his registration card. He reflects that Mr. Flavelle has been posted by the Borden government in a strategic spot and that he would do well to keep an

Scene from "The Family Stain," at the Westholme Theatre tonight

eye on Mr. Flavelle, who is Cold Storage Czar, Egg Emperor, Pork Prince, Poultry Potentate, Sausage Sultan, Sirloin Sirdar, Beef Bashaw, and other titles too numerous to mention in this fair Canada of ours. Like Monte Cristo, Mr. Flavelle has the world by the hair. He is monarch of all he surveys—his right there is none to dispute.

Mr. Flavelle has given it out that everybody should make sacrifices, and he pretty nearly has his wish. We are all sacrificing to Mr. Flavelle and his fellow food monopolizers. The soldier marches bravely away to the war and leaves his wife and children behind to spend the separation allowance and what they get from the patriotic fund and what else they may earn besides on buying something to eat. For example, bacon costs forty cents a pound. At that scale of prices, it is not long before Canada's patriotic givings slip back to a few men who are getting very, very rich out of the necessities of life.

Chairman Flavelle's latest message is to the effect that Canada is drunk with prosperity. If Canada is drunk with what Mr. Flavelle says she is she doesn't know it. A few lucky fellows have made good money in the munition factories, but the average man has not had his wages raised in any proportion to the cost of living. The workingman's dollar is only two-thirds the value it was before the war. Generally speaking, food has gone up thirty-five per cent, and wages two per cent. If this is being drunk with prosperity, it is a pretty sober kind of drunkenness. All most of us do nowadays is see our money and then kiss it good-bye.

It is true that the customs receipts show large increases and that Canada has had a riot of spending. But this extravagance is not so much the exuberance of prosperity as the recklessness of despair. Eat, drink, and be clad gaily, say the people, for tomorrow the beneficiaries of a forty per cent. tariff will take it all out of us anyway. Prices are high because the shopkeepers make 'em high while the making is good. Besides, every body's do-

Coughing scatters germs — Stop it

Coughing increases the irritation of the already inflamed mucous membranes and is moreover apt to carry disease to others.

Mathieu's Syrup of Tar and Cod Liver Oil promptly stops coughing, and soon, thanks to its tonic properties, effects a permanent cure.

The wonderful popularity of Mathieu's Syrup of Tar and Cod Liver Oil is specially due to its great value as a permanent lung and bronchial healer.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your contributions weekly, monthly or in one lump sum to Local or Provincial Committee, or to the

THE ROAD TO THE RIGHT.

YOU'VE met at least one of those few good old souls, who are constantly getting the worst of it when shopping, who don't believe in advertising. A hundred disappointing and instructive experiences have failed to teach him their plain lesson.

When he bought his first watch he was beguiled into buying one without a known name or a trustworthy guarantee. That watch—a poor timekeeper—cost him dearly by reason of missed appointments and missed trains, and for frequent repairs. Yet he paid the price of a good watch.

It is the same story with regard to his underwear, his shoes, and his fountain pen.

This good old soul's case is not unique. Many of us, if the truth be confessed, resemble him; we allow ourselves to be sold merchandise with an unknown brand or trade mark instead of buying merchandise which is well known to us through the medium of advertising. In slang language, we get "stung" pretty often.

In most of these cases we have ourselves to blame, for "the road to the right" thing to buy has been made plain by advertising.

There is no good reason for passing by the known thing, soundly guaranteed, to buy a dubious article, which, quality for quality, cannot be cheaper than the known, branded article.

"It is better to be sure than sorry."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 583, Lumsden Building, Toronto.

ARE BATHS NECESSARY?

This looks like a foolish question in this enlightened age, but there are nearly a million Americans who know nothing of Internal Bathing.

By a purely natural process of properly using warm water, the "2, B. E. Cascade" removes ALL the poisonous waste from the Lower Intestine.

It instantly relieves constipation, properly regulates the bowels and prevents all the dragging-down which biliousness and Liver Troubles always create.

E. W. Southall, M.D., of Genesee, N. Y., writes: "I challenged the doctors in this town last week in regard to what I can do with your 'Cascade'.

Cyril H. Orme, Druggist, corner 3rd Ave. and 6th street, Prince Rupert has filled a tremendous demand for "2, B. E. Cascade."

A free and interesting booklet on Internal Bathing, "Why Man of Today is Only 30 Per Cent. Efficient," can also be obtained for the asking.
