WASHINGTON DISCUSSES RUPERT FISHING

THE BRITISH AMBASSADOR CONFERS WITH AMERICAN SECRETARY OF STATE

MORE RAIDS BY BRITISH AND FRENCH TROOPS

Three Hundred Yards of German Line Penetrated—Trenches Full of German Dead—More Vessels Sunk.

London, Feb. 23.—New Zealanders to the south of Arras entered the German lines for a depth of three hundred yards. They remained there for a full half hour wrecking the enemy dugouts and the various trench work. The enemy support lines were found to be filled with German dead from the bombardment prior to the preceding raid. Forty-four prisoners were captured.

More Vessels Sunk.
Two British steamers and one Swedish vessel are the latest submarine victims. One of the British vessels is the Holt liner *Perseus*, 6,728 tons.

German Raids.
Hostile raiding attempts to the east of Verdun were unsuccessful. The enemy suffered severe casualties and left many prisoners behind. Artillery activity continues to be particularly severe from Ypres to the Somme.

NEWFOUNDLAND MAY JOIN THE DOMINION

St. John's, Feb. 22.—Changes of far-reaching importance in the constitution of the overseas Empire of Great Britain after the war are expected to be considered at the conference to be held in London between premiers of the British colonies and Premier Lloyd George and his colleagues. A well posted member of the Newfoundland parliament said the question probably would come up of the unification of Australia and New Zealand with the lesser British possessions in the South Pacific, including the areas taken from Germany.

GERARD IN SPAIN

Madrid, Feb. 22.—The American Ambassador, Mr. Gerard, arrived here today, on his way to the port of embarkation for the United States. He was accorded an official reception by the government and was received with great honor. King Alfonso received Mr. Gerard in person.

TAFT MILITANT

New York, Feb. 23.—Ex-President Taft speaking here yesterday said it is the duty of the United States if any further invasions of the rights of American citizens or their property takes place by "ruthless" acts, to resist them as if the country itself were being invaded. He made a great plea for universal compulsory military training. Bryan he described as a "super-pacifist who must be kicked into war."

VOTES FOR WOMEN

Columbus, Ohio, Feb. 23.—Governor Cox has signed the Reynolds Bill which grants Presidential suffrage to the women of the state.

Surgeon Col. Fred Marlow

Another crisis in the Canadian Army Medical Corps. Surgeon Colonel Fred Marlow, director of the Army Medical Service in Toronto, is resigning in protest against the misunderstanding in regard to the clashes in the work of the C. A. M. C. and the Hospital Commission of Canada, respecting returned wounded soldiers.

A GLARING RECORD OF INCOMPETENCE

The Ross rifle is not now in use by the Canadian army in the war. It has been condemned as a war weapon by the men in the ranks who used it and by the generals in the field who handled our army divisions.

Why was this rifle so long used in the war before being discarded? The answer is supplied by the speech of Sir Sam Hughes in Parliament the other night in which he defended the Ross rifle and declared it to be superior to the Lee-Enfield. He kept the Ross rifle in use and the government kept him in office.

In the spring of 1915, Canadian soldiers in action began throwing away their Ross rifles whenever they got a chance to pick up Lee-Enfields. It appears that under general war conditions there grew up a very general dissatisfaction with the weapon throughout the troops of the first division. Yet the second and the third divisions were armed with the Ross rifle and even as late as August, 1916, the Fourth division crossed to France armed with it, though not carrying it into action.

Yet as long ago as June, 1915, one year and eight months ago, Sir John French had, after the battle of St. Julian, reported against the use of the Ross rifle and recommended the re-arming of the first division with the Lee-Enfield. He suggested that the discarded weapons should be re-bored in England to prevent jamming and that work was proceeding with it. It was not until after Sir Douglas Haig's adverse report in June, 1916, that the total discarding of the Canadian weapon at the front was put into general effect.

In June, 1915, sensational stories were being told in Canada by returned soldiers about the unfitness of the rifle with which Canada was arming her soldiers and sending them into battle. Yet it was believed to be unthinkable that the Canadian government and the Canadian and British generals in the field would allow our soldiers to go into battle with a weapon which would place them at a fatal disadvantage. It was impossible of belief that in such a life and death matter any blunder could be possible or if a mistake had been made, would be allowed to continue for a day beyond the first discovery of it. There appears to have been a greater degree of confidence in (Continued on Page four.)

THE DANGER ZONE IN THE MEDITERRANEAN

BERNSTORFF'S PARTY WERE WELL SUPPLIED

Halifax, Feb. 23.—The examination of the baggage of the German party on board the Scandinavian liner *Frederick VIII.* revealed each member to be plentifully stocked with goods scarce in the Fatherland. Cotton goods were the most favored by each of both sexes. One secretary alone had several hundred suits of pyjamas. It is expected that the officials will confiscate these articles in view of the fact that cotton and explosives are so closely associated. The Germans are well supplied with gold also. Gold is contraband, and will not be allowed to be imported into Germany upon any consideration. It will be exchanged into some form of currency less useful to the Fatherland.

MAYBE AND MAYBE NOT

Hamilton, Ont., Feb. 23.—According to John Allan, M. P. P. for West Hamilton, the women of Ontario will have the franchise within one year. He further stated that the government had been working on the matter for some time and that plans are about completed for permitting women to vote. "The fact of the women having the vote," said Mr. Allan, "will not change the political situation in the least, as the women generally vote the same way as the male members of the family."

FRENCH STATEMENT

Paris, Feb. 23.—Admiral Lacroix, the French minister of marine, says that Germany's blockade is doomed to failure. He declared that the submarine campaign is her last fling of brute strength. That the military power of Germany is on the wane is quite evident. France has also adopted successful defensive measures against the undersea boats. So little has the menace affected France, he says, is to be seen from the fact that the French imports and exports have doubled since the war began.

GERMAN UNITY

London, Feb. 23.—As the result of a quarrel as to who were the better fighters at Beverloof in Belgium between the Bavarian and Prussian troops, thirty-two soldiers were killed and two hundred were wounded.

RUSSIAN PURCHASES

Ottawa, Feb. 23.—The Imperial Russian government has opened an office in Ottawa for the purpose of buying supplies in Canada for the government. The Russian government will buy directly from the Canadian manufacturers.

CONSERVATIVE LEADER

Halifax, Feb. 23.—The Conservatives of Nova Scotia have selected Mr. William K. Hall, K. C., member for Queens County, as the leader of the party.

PRISONERS OF WAR SUPERFLUITY SALE

At a meeting of the Prince Rupert Red Cross Society, it was decided to hold a jumble sale on the 17th March. Ladies will be at the Red Cross rooms three days before the sale to receive donations. Everyone has some article of furniture, clothing or bric-a-brac that they have no use for, but which might be useful to someone else. As far as possible the articles donated are asked to be in good condition.

It is hoped everyone will be able to contribute something so that a good sum may be realized for the Canadian prisoners in Germany. Particulars of the sale will appear later.

COUNCILS OF WOMEN

Members of the Council of Women from all over the province will be present at the Provincial Conference of Councils to be held in Victoria on Tuesday and Wednesday of next week. Among the subjects for discussion are "Citizenship"; "Problems of Emigration"; "Social and Moral Reform"; "Conservation of Labor and Resources"; "Conservation of Life"; "Women Prepared for Public Service," and very many others. When women bring the results of their discussions to bear, by their votes, we may look for some very radical alterations in very many things.

TRANSPORT TORPEDOED

Sydney, N. S. W., Feb. 22.—The Australian transport *Berrima* has been torpedoed in European waters. The stricken ship was able to limp into port under her own steam, thanks to her watertight bulkheads holding out. Four of the crew were killed by the exploding torpedo. There were no troops on board on this voyage.

BLAME FOR THE LEAK

Washington, Feb. 23.—The administrative officials in Washington have been completely exonerated from responsibility for the leak of the information of the contents of the President's note of December 20. The newspaper men are blamed.

TEN MINUTES TO LEAVE

London, Feb. 23.—The Swedish steamer *Skogland* reported yesterday as sunk, carried five Americans among the crew. They were given ten minutes to leave the vessel before she was sent to the bottom.

KETCHIKAN BEING RUINED BY RUPERT

Washington, Feb. 23.—The British Ambassador, Sir Cecil Spring-Rice, conferred with Secretary Redfield today about legislation now pending, which by prohibiting the importation of fresh and frozen fish from Canada seeks to rehabilitate the American salmon industry on the Pacific coast. The Canadian government desires to avoid this prohibitory legislation and may make concessions to make it unnecessary. After the interview with Secretary Redfield, Ottawa was advised by the Ambassador that they should require the Grand Trunk to discontinue exclusive concessions to Prince Rupert, which is claimed to be ruining the fishing industry at Ketchikan. An agreement will probably be made to have the Grand Trunk operate a steamer to Ketchikan to take care of the American catch.

BRITISH TO INSURE NEUTRAL TONNAGE

New York, Feb. 21.—Advices have been received here that the British government plans to extend its system of war risk insurance to neutral vessels trading with the United Kingdom. The last reports from London indicate that the rate charged is something like 3 per cent, compared with the flat rate of ten per cent now enforced on the local market. Little doubt is held that American and other neutral shipowners will take full advantage of the British scheme. Interest now centres in the possibility of other Allied governments following the British lead.

THE MONROE DOCTRINE

Washington, Feb. 23.—Representative Neely, of West Virginia, introduced a joint resolution to the House providing for a conference among representatives of all the American republics. The idea is to plan for concerted action to protect the rights of all neutral nations against aggression by any of the European belligerents.

AMERICANS RELEASED

CONNECTICUT CITY NOW UNDER MARTIAL LAW

Nine Simultaneous Fires Broke out—Munition Plants in the City—German Agents Are Arrested.

New Britain, Conn., Feb. 23.—The town is under martial law today. Nine simultaneous fires broke out in different parts of the city. There are many manufacturing plants here making munitions for the Allies and it is suspected that the conflagrations were the work of German agents. Two suspects were arrested. It has been impossible to indicate the extent of the loss yet.

MACHINERY DESTROYED IN GERMAN LINERS

Washington, Feb. 23.—The machinery of the eight German liners presently interned in Honolulu harbor has been wrecked beyond repair by their crews. The damage will amount to hundreds of thousands of dollars. The Germans carried out their instructions to the letter, being determined that their shipping will not be used by the Allies for some time.

FAMINE IN NEW YORK

Washington, Feb. 23.—Congress is fully alive to the necessity of the fact that the food shortage must be relieved and that forthwith. It is feared that bread riots will spread to every large city unless definite action is assured. Representative London blames the food speculators entirely. Says the country is surfeited with gold but there is no bread for the worker.

GERMAN RAIDS

Paris, Feb. 23.—German patrols in attempting to reach the Belgian lines northeast of Newport were dispersed with many casualties. On the right bank of the Meuse, there is heavy artillery fighting.

HALIBUT ARRIVALS

There were several fishing vessels in port this morning. On account of the extremely bad weather outside during the past week, the catches were rather light. The Commonwealth, belonging to the Booth Fisheries, brought in 16,000 pounds; the Nellie, an American boat, had 8,000 pounds and sold to the Booth Fisheries for 13 cents; the Doreen had 12,000 pounds, and the Tuladi with 5,000 went to the Cold Storage and sold for 13 1/2 cents. John Dybbavn bought 5,000 pounds on the Margalice at 13 cents, while the Lillian M. which had 5,000 pounds sold to the Atlin Fisheries at the same price.

THE ROYAL NAVY

The Seattle Times in discussing the disinclination of the Dutch government to join with the United States in their protest against the German submarine campaign says that this is due to the impossibility of a successful resistance by the Dutch people to a concerted attack by Germany and adds: "No other nation and particularly the United States, is at liberty to criticise the Dutch for the policy they ultimately decided to follow in this matter. Had the British fleet not stood between America and Germany, it is possible that Washington might have hesitated long before embarking upon such a perilous venture."

The Times is not the first American paper to speak to this effect and more than one public man has taken the same position.

The White Ensign is the guardian of the world's freedom.

Not infrequently American writers and speakers, to say nothing of the Germans, have complained of the naval supremacy of Great Britain and have cried out for what they have called "the freedom of the seas," although without any clear notion of what they have meant by it, but there is not and never was a man of them who believed that supremacy to be a menace to anyone except evildoers. It is a remarkable and important fact that the United States, in the opinion of some of its most prominent men, would today stand helpless before German aggression, if the British fleet did not control the seas, and equally remarkable and important is the fact that the fleet has never interposed its stupendous power to lessen the rights of neutrals. Certain restrictions were necessarily placed upon the movements of neutral ships in certain areas, but these were only for the purpose of the laws of blockade, as understood by all nations, from being violated.

Never in time of peace, has any nation been able to say that they have suffered in any way, shape or form from the

power of Britain's navy. Germany in particular had a whole lot to say about the freedom of the seas. But in what way or fashion she found them not to be free she did not say. The seas were so free that she was able to build up a great mercantile marine, nearly second to that of Britain herself. Her ships pursued their courses unmolested. They were free to sail all the seven seas, unhindered. And they did. The freedom that Germany wanted was that freedom to do as she liked. Which is not the idea of freedom as obtains in Britain. And what Germany would probably like to do at the present moment, provided the British navy were out of the way, would be to have their fleet come across the Atlantic. But the British fleet is not yet disposed of, and it alone has preserved for the United States freedom of action as a nation. It is for the general benefit of mankind and not for any selfish ends that "Britannia rules the waves."

NOTES AND COMMENTS

The Red Cross Society in Victoria have just benefitted to the extent of \$547.06. This sum represents what otherwise would have gone up in smoke. All the old newspapers, magazines and catalogues that the school children in Victoria could lay hands on have been gathered together and sorted and tied up in bundles. The Red Cross Society can sell these old papers for \$20 per ton. This amount is only for the January collections. The work will go regularly. Besides helping the Red Cross, it trains the younger generation in habits of thrift and by preventing waste, increases the national wealth.

Switzerland was the first European country to adopt universal military service. The original founders of the Swiss Confederation enacted that whoever shirked military training, which began at the age of 15, was declared "void of honor and perjured," and his house was vowed to destruction. From the earliest days of Confederation too the military authorities made special provision for

"Her Money Troubles"—They get more vexatious as the cost of foods climbs skyward. Meat, eggs and vegetables are almost beyond the family purse. Happy is the housewife who knows **Shredded Wheat**, its low cost and its high food value. A better balanced ration than meat or eggs and costs much less. Two **Shredded Wheat Biscuits** with milk or cream make a complete, perfect meal, supplying all the nutriment needed for a half day's work at a cost of a few cents. Delicious for any meal with milk or cream, or with fresh or stewed fruits. Made in Canada.

tending the wounded. In this respect they seem to have been in advance of their times.

The British Admiralty's decision to permit neutral vessels sailing from American ports for Europe to undergo examination at Halifax instead of Kirkwall, in the Orkney Islands, or Falmouth, has brought immediate relief to the congested cargo situation in the United States. Vessels bound for the Scandinavian countries will be able to skirt the northern boundary of the danger zone included in the German proclamation. Several vessels are taking advantage of the new route and expect to get away very soon.

No unmarried man between the ages of 20 and 30, who has not offered his services to the country will be given a coveted berth of the vessels of the sealing fleet of Newfoundland. The fleet will be the smallest on record and will set out in the middle of March. The owners have decided to ship no slackers and their decision is popular.

The same causes that drove Jacob and his eleven sons to Egypt, where his twelfth son had a corner on wheat, are again in operation in the same place. There is a famine in the land. The condition of the inhabitants of Syria and Palestine is pitiable to the extreme. Thousands of the inhabitants are starving. Many villages have lost half their population. Cholera, typhus and other diseases are rampant. Children are being sold in the streets for two bits. It is very difficult to get details of much that goes on in the land of the "unspeakable Turk," but quite enough news has come through to strike the civilised peoples with horror.

MARGUERITE CLARK AT THE WESTHOLME TONIGHT

Do you believe in fairies? When Maude Adams asked that question, at the end of "Peter Pan" every man, woman and child joined in the chorus of affirmatives. Now Marguerite Clark herself the dainty incarnation of the elf spirit, is starred by the Famous Players in a delightful romance that answers this question better than any verbal reply could. Strangely enough, it is only the little Lady Eileen, who believes in fairies at the beginning of the story. The others about her are too practical for that, but after we have seen the people of elf-land leading the trusting little girl to her true lover and destroy the impostor who attempted to get possession of her fortune, there can be no doubt at all that the fairies reward our faith in them. The irresistible Marguerite Clark makes the "Little Lady Eileen" an exquisite, mischievous, charming characterisation that will live in your memory as long as did the fairy tales your mother told.

LAND REGISTRY ACT

(Sections 26 and 134.)
Re Application N. 9042—File No. 5794.
TAKE NOTICE that application has been made to register Marion B. Morrissey, of Prince Rupert, B. C., as owner in fee under Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 10th day of September, 1915, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known and described as Lot Eighteen (18), Block Eight (8), Section Eight (8), Map 923).

You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by personal service) and your attention is called to section 26 of the "Land Registry Act" with amendments, and to the following extract therefrom:— "...and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such sale, all persons so served with notice, ... and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of Marion B. Morrissey;

AND WHEREAS on investigating the title it appears that prior to the 9th day of September, 1914, (the date on which the said lands were sold for overdue taxes), you were the assessed owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of Marion B. Morrissey unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

DATED at the Land Registry Office, Prince Rupert, B. C., this 27th day of October, A. D. 1916.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

"WE SELL NOTHING BUT THE BEST"

FRED STORK'S HARDWARE

THE ROAD TO THE RIGHT.

YOU'VE met at least one of those few good old souls, who are constantly getting the worst of it when shopping, who don't believe in advertising. A hundred disappointing and instructive experiences have failed to teach him their plain lesson.

When he bought his first watch he was beguiled into buying one without a known name or a trustworthy guarantee. That watch—a poor timekeeper—cost him dearly by reason of missed appointments and missed trains, and for frequent repairs. Yet he paid the price of a good watch.

It is the same story with regard to his underwear, his shoes, and his fountain pen.

This good old soul's case is not unique. Many of us, if the truth be confessed, resemble him; we allow ourselves to be sold merchandise with an unknown brand or trade mark instead of buying merchandise which is well known to us through the medium of advertising. In slang language, we get "stung" pretty often.

In most of these cases we have ourselves to blame, for "the road to the right" thing to buy has been made plain by advertising.

There is no good reason for passing by the known thing, soundly guaranteed, to buy a dubious article, which, quality for quality, cannot be cheaper than the known, branded article.

"It is better to be sure than sorry."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 505, Lumsden Building, Toronto.

Dr. Price's CREAM BAKING POWDER

There is no alum in Dr. Price's Cream Baking Powder. The names of its ingredients, printed on the label of every can, show it to be made from Cream of Tartar, which comes from grapes.

No alum baking powder or food containing alum is permitted to be sold in many countries. To avoid alum read the label and use only baking powder made from cream of tartar.

LAND REGISTRY ACT

Re Application No. 91,111, Filing 5,814. TAKE NOTICE that application has been made to register John Bergman, of Prince Rupert, B. C., as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 10th day of September, 1915, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known as Lot Ten (10), Block Five (5), Section Seven (7), Map 923.

You are required to contest the claim of the tax purchaser within thirty-five days from the date of the service of this notice (which may be effected by Registered Mail or as Directed, and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:— "...and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the abovementioned lands, in the name of John Bergman:

AND WHEREAS on investigating the title it appears that prior to the 9th day of September, 1914, (the date on which the said lands were sold for overdue taxes) you were the assessed owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of John Bergman unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

DATED at the Land Registry Office, Prince Rupert, B. C., this 6th day of December, A. D. 1916.

A GLARING RECORD OF INCOMPETENCE

(Continued From Page One.)

this than the government was entitled to. Everybody relied upon the government of Canada, the Canadian generals, the British Generals, to see that men's lives were not sacrificed by sending them into battle with a defective rifle. It is a scandal surpassing anything in this country's history that a weapon which had so early in the war proved unreliable, should have been continued in use for more than a year thereafter, at a cost in men's lives which cannot be estimated.

When the Prime Minister of Canada stands up in Parliament and seeks to excuse the blunders that have been made and are continuing in connection with the Ross rifle he cuts a figure that is so weak as to be pitiful. His excuse for everything is that the Laurier government in 1902 made a contract "in perpetuity" for Ross rifles and that the blame, therefore, rests with the government of 1902. The contract was "in perpetuity," unless terminated on a year's notice. The present government came into office in 1911 and if Sir Robert Borden did not approve of the contract, if he did not wish to assume it, take it over and keep it up in perpetuity, he had but to give a year's notice and give it up in 1912. Or he could have terminated it in 1913 or again in 1914. But his government did not terminate it, but accepted and continued it. Not only so, but it was a Ross rifle of the present government's special authorization that the troops carried overseas from Canada, which they tried in war and threw away on the battlefields to grab up something in which they had more confidence.

Does anyone believe for a moment that Sir Charles Ross was not ready a year ago, at the government's demand, had any such demand been made, to turn his factory over as quickly as it could have been done, to the manufacture of Lee-Enfields? The most absurd thing of all is even now the government is asking money to pay for the continued manufacture for another year of Ross rifles. Why? Because of the contract; because a year's notice has at last been given, and under the contract made by the awful Liberals of 1902, the factory must go on making these rifles until February of next year. There was never such a confession of helpless incompetence in the history of Canada. It is simply a child-minded effort to shift the blame to somebody else.

Here again all thought is of politics. A factory is producing 1,000 rifles a day, but rifles the soldiers will not use. What's the use of it? We are in the midst of a gigantic war in which empires will collapse. And we are keeping an immense factory busy making rifles to pack away in warehouses.—Toronto Star.
