CONGRESS PASSES NAVAL APPROPRIATION

UNITED STATES YARDS WILL RUSH THE CONSTRUCTION OF NAVAL WARSHIPS

HOUSE AND SENATE PASS NAVAL BILL

United States Provide for Bond Issue For Construction of Naval Vessels—Laconia Details are in.

(Special to The Daily News.)

Washington, March 5.—The Naval Appropriations Bill has been accepted. It has now passed both Senate and House of Representatives and will be put up for signature to the President forthwith. A resolution was also adopted providing for a bond issue for the purpose of expediting the construction of naval vessels.

The Department of State now has in its possession all the evidence of the destruction of the Laconia. It shows that twenty-five American citizens were put in jeopardy of their lives by the action of the German submarine and that three were killed.

YARROWDALE PRISONERS BEING HELD BY TYPHUS

(Special to The Daily News.)

Washington, March 5.—The Spanish Ambassador conveyed the news to the State Department today, which he had received from Berlin that the Yarrowdale prisoners have been detained solely on account of an outbreak of typhus. They will be permitted to depart just as soon as quarantine is complete.

SWEDEN SORE

(Special to The Daily News.)

London, March 5.—The Swedish government has intimated that it is proposed to take stern measures to preserve her neutrality, and also to safeguard her rights as a neutral. Swedish ships have been consistently sunk often without warning and Sweden's neutral rights must be respected.

HATCHING MORE PLOTS

(Special to The Daily News.)

London, March 5.—The German foreign secretary had a long audience with the Emperor William yesterday, according to advices received here. It is generally supposed that the audience concerned the Mexican question. It has been admitted in Berlin that Zimmerman's instructions to the Mexican minister have been quite correctly quoted in the exposure of German methods in the United States congress.

MANHOOD SUFFRAGE

(Special to The Daily News.)

London, March 5.—According to the report of the electoral reform committee, every adult male should have a vote. Sweeping changes will be made in the electoral machinery if the recommendation of the committee are carried out. Every man, irrespective of property or any other possessions, will be entitled to vote, but may not cast any more than one ballot.

THE UNTITLED ARE THE REAL ARISTOCRACY

Ottawa, Feb. 28.—There are now some thirty-nine honorary orders represented in Canada, all of which entitle the beneficiary to wear short pants and a tin sword at the state drawing room. Although this pastime of wearing short pants at state functions is not as harmless as it looks, it would not be so bad if social banners were not set up as the outcome of it. This country has long had wealth—it is now, through the efforts of the Borden government, being burdened with caste.

Looking over the belated list of New Year's honors one wonders on what principles knighthood is awarded. Time was when knighthood was a real distinction. It meant leadership, intellect, zeal in great causes. But that day has long gone by. Knighthood seems to mean now a bit of swagger, a label that will let the world know that the wearer of the title has enough money to support it. We looked on with some impatience while the British government, egged on by recommendations from the Borden government at Ottawa, turned judges and high officials into knights and thus created a privileged class in this new land, but we could have tolerated it if it had stopped there. But the baneful practice grew with what it fed on and now our knights are largely commercial. They are recruited from the class that can pay for it. Their wives need it in their business of social climbing.

It is freely stated in Ottawa that there is a regular tariff for these honors and that newly-rich millionaires who wish to shine as "Sir" come across to the extent of anywhere from twenty thousand to fifty thousand for the Conservative campaign fund. Moreover such as wish to be baronets or barons not only come across for the Conservative campaign fund in this country but pay an extra ten thousand pounds or so to the honor brokers over in England.

In this connection one of the London newspapers recently remarked that the English people had no idea that there was such much in Sir Max Aitken until they came to shake him down for his new title of Lord Beaverbrook. It may be taken for granted that Canadian lords, whether they live here or in dear, old England, where lords flourish better, pay for what they get and that they pay good and plenty. The campaign funds on both sides of the Atlantic Ocean must feel a good deal fatter through the recent contributions of Lord Seapear, Lord Tramways and Lord Merger.

It has not escaped the notice of thoughtful persons that the hereditary title is creeping in. Once we had the hereditary title under control. Only the barren people were made barons or baronets and so there was no social mortgage on posterity. A life peerage might sound a little bigger, but for all practical purposes a knighthood would do just as well. We could hardly cavil at rewards of personal merit where the reward ended with the meritorious person, but we did object to titles that could be passed on to sons not so meritorious. And the British government respected our scruples. It was an unwritten law that if a Canadian baron or baronet had children he must live in England, so that England could bear the brunt of it. The only exception to this rule was Sir Charles Tupper, who spent his declining days in England, but whose titled successor is still indigenous to this soil. Latterly, however, both rules seem to be in abeyance

and peers with considerable families, who do not choose to live in England, are being made.

No doubt the peerage question will solve itself. The Canadian peer will eventually go where peers get the deference due their station in life—namely to England. But the knighthoods continue to be a real curse. The Borden government loves knighthood. Half the cabinet is knighted already, and the other half is afraid to go home in the dark. The Borden government has encouraged the practice to such an extent that knights may now be regarded as epidemic. They are as frequent as colds in the head, and much more frequent than tons of coal. In all the large cities they run knight cars and even in the villages every drug store has a knight bell. This tends to show how thick they are getting. In some of the more congested centres the knights have formed clubs and trade unions. As a matter of fact knighthood is like the Legion of Honor—few escape it.

The number of knights increases so rapidly under the Borden government's kindly ministrations, that they will presently constitute a majority, and the unknighthood people will then be the real aristocracy. This view of it is reflected in the last honor list which underwent considerable change between the first draft and its final publication. Somewhere in the interval three of the victims named begged off. They were excused this time, but were told that they would have to stand for it when next New Year's came around. The blamed thing gets harder to take every year.

Among those who were scratched was John Ross Robertson, the well known newspaper proprietor and philanthropist, who puts himself on the safe side for all time by telling the reporters that he was offered a knighthood and a senatorship on the same day, and refused both. After a flout like that the Borden government will hardly dare to put it up to Mr. Robertson again. Moreover, they do say that the sturdy old democrat got mad clear through when they proposed to place him on the same social footing as Sir Sam Hughes. The Telegram has been hammering Sir Sam for some time now, and its owner would hardly care to be a knight in Sir Sam's company. In fact Mr. Robertson couldn't have felt hotter if they had offered to make him a Lieutenant-General.

The Telegram still shudders at the narrow escape of its proprietor from the knighthoods which are going the rounds. John Ross Robertson wants no prouder title

NEW TYPE OF GERMAN UNDERWATER CRAFT

New York, March 5.—The officers of the Dutch steamship Bomberg which arrived today report being stopped on the high seas by a new type of submarine. The German officer examined the papers of the Bomberg and allowed her to proceed to her destination. It is said that the new type of vessel is very small and is specially designed for the submarine blockade. The deck space is so limited that there is hardly room upon it on which any one of the crew can stand.

PROFITABLE FISHING

The commerce report of the United States consul, Mr. G. W. Hanson, at Prince Rupert is quoted in the Pacific Fisherman as follows:

"The shipping of fishermen in the halibut fisheries under a 'share' agreement instead of a wage schedule has resulted in several recent instances of large earnings for crews that happen to profit by the unusual catches of certain vessels. The most striking instance is found in the case of the Director, with a crew of four men. This boat brought in 19,000 pounds of halibut after fishing for 15 days and the catch sold for about \$2,000. The balance remaining after taking out all expenses was divided among the members of the crew, as provided under the share agreement under which the catch was made and each man received \$460.75, or \$30.71 per day. It is not uncommon for fishermen to make from \$10 to \$20 per day, but a larger figure is unusual."

JAPAN CONFIDENT

(Special to The Daily News.)

Tokio, March 5.—The Japanese foreign office issues the statement that the fact of Germany making very frequent attempts to sow the seeds of distrust between Japan, Great Britain and the United States has been known by the Japanese government for some time. Japan is confident that it is not distrusted by either of these two powers but will hold by her treaties.

HALIBUT ARRIVALS

There were quite a number of fishing boat arrivals over the weekend. The Chief Skugaid had 30,000 pounds; Bryan, 10,000; Agnes B., 8,000; Glacier, 14,000; Thelma, 16,000; Mars, 12,000; Viking, 12,000; Senator, 20,000. The Kelly also arrived for the Cold Storage Co. with 40,000 lbs. and the Equator had 2,000. The prices realized were from 9% to 10% cents.

THE SPOILS OF WAR

(Special to The Daily News.)

London, March 5.—Travellers returning to Holland report that the first of the captured cargo of the Yarrowdale has arrived in Berlin. These are motor trucks, of which the Yarrowdale carried a large number. They are being utilized in the streets of Berlin for transportation purposes, the German supplies of liquid fuel still being apparently plentiful.

CAPITAL AND LABOR ARE NOW UNITED

(Special to The Daily News.)

London, March 5.—Capital and labor have agreed to an industrial truce. Arrangements are under way whereby the great manufacturing plants of Great Britain will be operated so that disagreements can be avoided between labor and the capitalists. Whether this means that labor is to be represented on the various boards of directors of all limited companies, as has been suggested, has not been given out. Great Britain is determined that the nation's place in the markets of the world shall be regained and possibly attain a new supremacy.

HERRING AT LAST

Captain Bill Selig, of the Deep C Fisheries, Ltd., has been successful in locating some of the elusive herring. He brought them with him, so there is no doubt about it. "Worth their weight in gold" is what he says. Captain Selig had been out for three weeks cruising around in all the likely spots where the silvery scales might show. And at last he got them.

DEUTSCHLAND'S CARGO IS STILL UNSOLD

It will surprise most people to learn, says the Wall Street Journal, that the cargo of the Deutschland is still undisposed of in the United States. It consisted for the most part of dyes and medicines, and the people who are handling dyestuffs find that the United States is progressing in her independence as respects German dyes. One of the great losses to Germany will be discovered after the war is that the world can get along reasonably well without her potash and her dyes, and in many lines where she, before the war, held industrial supremacy.

ADVANCE ON THE ANCRE CONTINUES

Stubborn German Resistance to Advancing British on Five-Mile Front—Russian Gain in Persia.

(Special to The Daily News.)

London, March 5.—The British troops have advanced their line north of the Ancre in France against stubborn resistance by the Germans. The progress made averaged a quarter of a mile on a front of nearly five miles. The British were also successful in advancing north of Puseux and Amont and to the east of Gommecourt. The Germans made a strong bombing attack on a British trench to the east of Sully Saillisel but on a counter attack were compelled to evacuate the advanced trench they had temporarily gained. This particular trench had proved very troublesome to the German communications and its retention by the British will probably cause further attack.

French Front.

Paris, March 5.—A successful surprise attack was made by the French troops in the Argonne. Many casualties were inflicted on the enemy and prisoners taken. Dugouts were bombed and many machine guns were destroyed.

There has been very considerable artillery activity between the Oise and the Aisne to the south of Neuveron, also in Alsace near Burnhaupt. Calm prevails elsewhere.

Italian Front.

Rome, March 5.—There is intermittent artillery activity along the whole front.

Persian Front.

London, March 5.—The important Persian city of Hamadan has been the centre of much fighting recently. It has now been recaptured by the Russian forces. Hamadan is much nearer to Baghdad than Kut and the way has now been cleared for a Russian advance from the northeast to aid the British in their advance from the south. There are no other towns of any importance between Hamadan, Kut and Baghdad and with two disorganized Turkish forces retreating there at the same time, it is not thought probable that the enemy will be in a position to put up an effectual defence. The Admiralty announces that the river gunboats have been able to get ahead of the retreating Turks in Mesopotamia and have been able to inflict very heavy losses.

THEIR SMALL PROPORTION

In its campaign for the Patriotic Aid Fund a few days ago Montreal raised the large sum of \$4,316,563, easily leading the other cities of Canada in its subscription to the fund. In commenting on this splendid showing the Ottawa Citizen points out that the contributions of the munitions manufacturers amounted to only \$112,000 and comments accordingly. Our contemporary says:

"It has been remarked on several occasions, in the campaigns for funds for the benefit of the dependents of our soldiers, that as most of the great industries profiting by the war were located in Montreal or were financed from the metropolis the natural thing to expect was that the list of subscriptions from that city would exceed all others in the Dominion. The munition makers were not averse to this impression being widely circulated. Whether it was knowledge of this circumstance or merely a matter of better organization, we do not know, but the fact remains that in the recent collection the committee appointed an energetic team to interview the local munition makers and allied concerns benefiting by the war. This committee was known as the 'Munitions Team' and its report was confidently awaited by the general committee in the closing hours of the campaign when all were striving to place Montreal in the place of honor in the nation wide campaign. The following list was turned in:

Canadian Car Co.	\$10,000
Canadian Explosives	30,000
Canadian Steel Foundry	5,000
Canadian Vickers	5,000
Dominion Bridge Co.	8,000
Dominion Cartridge Co.	5,000
Dom. Copper Prod. Co.	5,000
Montreal Ammutn. Co.	5,000
Montreal Locomotive	10,000
Steel Co. of Canada	12,000
Peter Lyall & Sons	15,000
Standard Steel Co.	1,000
International Mfg. Co.	1,000

The total of these subscriptions is \$112,000; the number of firms represented is thirteen. Taking out the subscription of

the Canadian Explosives Company, the total is \$82,000 for twelve firms, or a little over \$7,000 each.

"We do not know any more convincing argument for confiscation of war profits than figures like these. All these concerns have made hundreds of thousands out of the war. Many of them have made millions. The Montreal Ammunition Company, be it noted, subscribed \$5,000. This is the organization which was formed when the war broke out, was capitalized at \$300,000 and which at last report had cleared over three million dollars. It cheerfully subscribes \$5,000 for the families and dependents of the Canadian soldiers at the front! Many concerns apparently do not give any of their profits to the fund. There is no mention of Canada Foundry and Forgings, for example—a stock which bounded from obscurity and the non-dividend class overnight, with several million dollars worth of orders for shell forgings.

"If the government is not interested in the success of the Patriotic Fund or not concerned with the problem of looking after the dependents of our soldiers the right course for it to pursue would be to continue to ignore the attitude of the profiteers in the matter of voluntary giving a respectable portion of gains which, many are convinced, can only be justified by some such consecration. If, however, the administration is alive to the growing sentiment in the Dominion it will forthwith take steps to appropriate the larger part of the swollen profits of munition makers and other war time contractors."—Victoria Times.

NOTES AND COMMENTS

German successes in the first instance were due to superiority in heavy artillery and to an abundance of munitions. Now the allies, and particularly the British, are not lacking in these essentials. The boot is on the other foot, as the preliminary movement in the anticipated spring drive proves. Fritz does not ap-

preciate the "baptism of fire" he is undergoing.

The price of potatoes in British Columbia, a province of large area and sparse population, is more than three times the price of potatoes in Great Britain, a country of very limited area and congested population. Britain, too, is blockaded (according to the Hun idea of a blockade) and British Columbia is not. How is such a state of affairs to be accounted for?

The war situation has developed into an interesting test of two systems—between the people of an autocratic state who are not allowed to do their own thinking and who are called upon to make sacrifices without knowing why, and the people of a democracy who are asked to endure privation, the causes of which they thoroughly understand. The German food distribution system was largely a failure because nothing in the world can eradicate from the Prussian Junker mind the ingrained idea that might is right and that deceiving the proletariat is legitimate.

United States newspapers claim there are fifty thousand Americans already fighting in the trenches. That it is quite a goodly company, and no doubt it is composed of noble fighting men who did not wait for the commission of an "overt act" before ranging themselves on the side of justice, honor, freedom and liberty.

It is now clear that whatever sympathy there was in the United States for Germany at any time since the war began was "made in Germany," and it cost the taxpayers of Germany a fairly high figure in marks. Von Bernstorff sprinkled money like water amongst his agents.

LAND REGISTRY ACT

(Sections 36 and 134.)

Re Application N. 9042—File No. 5794.

TAKE NOTICE that application has been made to register Marion B. Morrisey, of Prince Rupert, B. C., as owner in fee under Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 19th day of September, 1915, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known and described as Lot Eighteen (18), Block Eight (8), Section Eight (8), Map 923.

You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by personal service) and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:— "and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such sale, all persons so served with notice, . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of Marion B. Morrisey;

AND WHEREAS on investigating the title it appears that prior to the 9th day of September, 1914, (the date on which the said lands were sold for overdue taxes), you were the assessed owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of Marion B. Morrisey unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

DATED at the Land Registry Office, Prince Rupert, B. C., this 27th day of October, A. D. 1916.

"I FEEL LIKE A NEW BEING"

"FRUIT-A-TIVES" Brought The Joy Of Health After Two Years' Suffering

MADAM LAPLANTE
25 St. Rose St., Montreal, April 4th.
"For over two years I was sick and miserable. I suffered from constant headaches, and had palpitation of the heart so badly that I feared I would die. There seemed to be a lump in my stomach and the constipation was dreadful. I suffered from Pain in the Back and Kidney Disease.

I was treated by a physician for a year and a half and he did me no good at all. I tried "Fruit-a-tives" as a last resort. After using three boxes, I was greatly improved and twelve boxes made me well. Now I can work all day and there are no headaches, no palpitation, no heart trouble, no constipation, no pain or kidney trouble and I feel like a new being—and it was "Fruit-a-tives" that gave me back my health."

SPEED IS A FEATURE OF THE SERBIAN

With the Serbian Army on Hill 1212.—These Serbian soldiers are the boys who invented speed. Scientists say that light is fairly hasty in transmission, but its gait is that of a fly stuck in molasses compared to the mental processes of the Serbian staff. They not only think quickly, but they move quickly. That's why they have been beating the Bulgarians. They get their foe "off centre" and keep him going. He doesn't get a chance to see his feet. Once he is driven out of one trench he finds himself hurdling other trenches on the hunt for safety. The Serbian army has been tiny—pitifully, pathetically, desperately small—in comparison with that of the Bulgar-Germans. No one who knows discounts either the courage or the skill of their opponents. But the Serbs have won—largely through speed.

Now They Move A Gun.

One doesn't ordinarily think of speed in connection with the Serbian soldier. His road gait is a slow one—in the tempo of the oxcart which furnish his transportation trains. But when speed is needed he has it to sell. I was standing in a battery of 120's, watching the operation of the guns. It was a quiet, almost restful scene, except for the occasional noise of the discharge. There were four guns, which were being fired at ten-minute intervals. The caisson chief worked at his upright shell cabinet as an apothecary might at home—putting shells in pigeon holes and taking them out again. Very slow, very easy going, stopping to smoke a cigarette and joke.

The man who passed the shell to the gun humped himself over the limber and smoked cigarettes. The man whose duty it was to pass the propulsive charge to the gun humped himself on the limber and smoked cigarettes. The man who pulls the string smoked cigarettes. Two or three unidentified smoked cigarettes. Barring the lethal possibilities of the equipment a picture of slothful ease was being offered. It would have destroyed the happiness of an efficiency engineer. These men could have been so much busier, they could easily have done forty, fifty times as much work as they were doing.

The man at the telephone shouted. Gun officers shouted. Drivers galloped up the little valley. The gun crews twisted the guns out of their bed-places and twelve horses were hooked on each. Another order, and four guns were climbing the hill to the new position. I had held a watch on them.

Five minutes had passed.

LAND REGISTRY ACT

(Sections 36 and 134.)
In Application No. 91,111, Filing 5,814. TAKE NOTICE that application has been made to register John Bergman, of Prince Rupert, B. C., as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 19th day of September, 1915, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known as Lot Ten (10), Block Five (5), Section Seven (7), Map 923.

You are required to contest the claim of the tax purchaser within thirty-five days from the date of the service of this notice (which may be effected by Registered Mail or as Directed, and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:— "and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the abovementioned lands, in the name of John Bergman:

AND WHEREAS on investigating the title it appears that prior to the 9th day of September, 1914, (the date on which the said lands were sold for overdue taxes) you were the assessed owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of John Bergman unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

DATED at the Land Registry Office, Prince Rupert, B. C., this 6th day of December, A. D. 1916.

It is proposed that the above corps shall camp for two weeks during the coming summer. All boys wishing to attend must enroll before April 30th.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied flag are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

CURE IT—Mathieu's Syrup of Tar and Cod Liver Oil not only promptly arrests coughing, but thanks to its tonic and strengthening properties it helps the system to throw off the cold and thus effects a permanent cure. It is this quality which has won for it the largest sale of any cough and cold remedy in Canada.

When a Man Marries

WHEN a man marries he quickly discovers his need of innumerable things he had never thought of before.

And the butcher, the baker and the cabinet maker have a new home to supply.

The new husband and wife must buy things to which they had previously given little thought.

A thousand marriages mean a thousand new homes.

Right here is a fact overlooked by many merchants.

They say, "How could it pay us to keep on repeating the story of our goods or service?"

Perhaps some people knew your goods or your store five or ten years ago. Since then new generations have come into existence.

The boy of to-day is the man who will sign the cheques to-morrow. To-day your advertisements are of small interest to him. To-morrow he is your customer, if you solicit his trade through advertising.

Every day thousands of people discover for the first time their need of your kind of goods.

Will you be there every day with your bid for their business?

Or will you leave the field to your competitors?

Advertising is the key that opens the door of these new homes to your goods.

Is Advertising on your key-ring?
Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

than the one he enjoys now—Santa Claus to the Sick Children's Hospital. There is no glory for him in being called Lord Threeliner or words to that effect. He shares the opinion of the great majority of sensible citizens that, where knights are as prevalent as they are in Canada, the post of honor is a private station. It is understood that Mr. Robertson contemplates going to the Holy Land early this spring and remaining there until the open season for knighthoods in Canada is over.

However, it's an ill wind that blows nobody good. With knighthoods as cheap as they are, people are beginning to think more of senatorships. Whether a senator pays for his senatorship or not it is always a better investment than a knighthood. Who wouldn't rather be an "Hon." with a life annuity of \$2,500 and a free pass on all the railways than a "Sir," with nothing but expenses attached to it?—H. F. Gadsby.

FEBRUARY HALIBUT

According to our calculations, the total quantity of halibut landed at this port for the month of February is 809,000 pounds. This is an increase of 231,000 pounds over the arrivals during the month of January, in which month 578,000 pounds were landed here. With the improvement in the weather conditions, the catches for the month of March should be very much larger.

Bathe Internally and Keep Well!

Nature has mightily equipped us all, old and young, to resist disease—but she requires that we give her a chance. We give her no chance if we permit the Lower Intestine to be more or less clogged with accumulated waste. Yet that is a universal condition today, as is proven by the number of laxative drugs that are consumed.

You can help Nature in Nature's most effectual way by Internal Bathing, and in an easy, non-habit-forming way keep the Intestine as sweet and clean as Nature demands it to be for perfect health and surer defence against contagion. Over half a million keen, bright, healthy people testify to its result.

Mrs. C. G. M. (name on request) of Strathroy, Ont., writes:— I am pleased to have this opportunity of testifying to the merits of the J. B. L. Cascade. I have been using it now for a year with satisfactory results. I am an old woman, but my health is so improved that I have a renewed lease of life. You are at liberty to give my address to anyone privately who may desire to write to me regarding the Cascade.

Just call on Cyril H. Orme, Druggist, corner 3rd Ave. and 5th Street, Prince Rupert, and request free booklet, "Why Man of Today is Only 50 Per Cent Efficient." The most efficient device for Internal Bathing, The "J. B. L. Cascade" will also be shown and explained to you if you so desire. If you prefer, write for Booklet to Dr. Chas. A. LUX

Won't discolor silks or fade colors.

If you don't use LUX you naturally dread the ordeal of wash day for your silk blouses. Silk fibres are peculiarly sensitive to common soaps and to ordinary wash-time rubbing and twisting. The LUX way is away better—you make a thick, creamy lather, you stir the garment gently about, you rinse thoroughly, you press out the water gently and hang out to dry. The result is a fabric as fresh as when new. This refers to anything that pure water itself will not harm.
