PRICE FIVE CENTS

PRESIDENT SPEAKS OF ACTIVE ASSERTION

WARNS THE NATION TO BE PREPARED FOR IMMEDIATE ASSOCIATION WITH WAR

GREAT SPEECH IN CONGRESS BY THE PRESIDENT

Warns People of a More Immediate Association With War Than Armed Neutrality—It May Not Suffice.

(Special to The Daily News.)

Washington, March 5.—President Wilson sounded a new note in the doctrine of internationalism and world peace in his inaugural address today. But in the same breath he warned the United States people that they may require a more immediate association with war than armed neutrality. Speaking of the unity of America, he said that her thought, spirit and action all voiced the view that Americanism from henceforth must be steeped in the world spirit instead of in the isolated national view of the past. His principal plea for the world's peace called for the limitation of armaments and for all nations to have an equal interest and responsibility in maintaining peace.

"Armed neutrality is our stand, but that may not suffice," said the President. "We stand firm in armed neutrality, since it seems that in no other way can we demonstrate what we insist upon and cannot forego. We may even be drawn by circumstances, not of our own purpose and desire to the more active assertion of our rights as we see them and to a more immediate association with the great struggle itself. The United States cannot, even if it wishes, any longer stand apart in isolation. It must regard itself as a world entity, and think and act in the terms of this world spirit."

To the thousands attending his second inauguration came these words of great import. The President called for the destruction of the "armed balance of power," that all the world should support no other view than governments derive all their just powers from the consent of the governed. The equality of nations was insisted upon in all matters of right or privilege.

LOCAL TAXATION OF GOVERNMENT PROPERTY

In connection with the request made to the government by the city council that the taxes on assessed government property in Prince Rupert be assumed by the provincial government, a letter was read last evening from the Hon. T. D. Pattullo, member for this riding, stating that the matter was in hand. This same matter had come up previously, as pointed out, in connection with the Point Grey municipality and they had received a communication from the late government agreeing to their request. It is pointed out now by the minister of lands that this letter had no statutory authority behind it. The whole matter was under the earnest consideration of the executive and a decision would be come to in the near future.

ROAD SUPERINTENDENT SYSTEM IS ABOLISHED

Victoria, March 3.—Radical changes in the system of public works construction throughout the province are foreshadowed in the public works department here by recent orders coming from the minister, Hon. Dr. King.

It has been plainly intimated that the road superintendent system will be abolished on the ground that to have a road superintendent in each district, the official being practically the appointee of the member, savored too much of political patronage. It is claimed by the administration that many of the road superintendents have not been practical men at the time of appointment and they have had their experience at the expense of the provincial treasury. It is also maintained that in many of the ridings roadwork under the superintendent has been patronage pure and simple.

The plan which it is said that Hon. Dr. King will bring into effect will mean the appointment of a number of qualified civil engineers who with their staffs will be under the civil service act and who will each have charge of a section of the province. They will have road foremen for each section. Instead of a road superintendent for each constituency the scheme will mean a road engineer for three or four, or possibly more, ridings. He will be able to do his own engineering work and his road foreman will carry out construction under his direction. The government believes that this method will mean economy and efficiency, particularly in the matter of getting roads built to a standard on the best grades.

DEATH OF MAJOR F. T. LUCAS

Word has just been received in town that Major F. Travis Lucas has been killed at the front. Major Lucas had very many friends in Prince Rupert, who will mourn his loss. Holding the position of resident engineer of the Grand Trunk Pacific Railway in this city and being one of the pioneers in the district, Major Lucas was very well known, and was very well liked by all who came in contact with him. Mr. Lucas went to Seattle to rebuild the G. T. P. dock there after the disastrous fire nearly three years ago, and when the war broke out, he left Canada with the 54th Regiment. Major Lucas was a brother to Mr. A. S. B. Lucas, who was long in this town and who now resides in Hamilton, Ontario. The sympathy of his many friends will be extended to Mr. Stanley Lucas in his loss.

RETAIL CLERKS MEETING

The Retail Clerks had a very large meeting last night. Two active members were gone, in Mr. P. H. Linzey and Mr. A. A. Cawley, who have left the city. Among the matters brought up was the inclusion of Martin O'Reilly, H. S. Wallace, Ltd., and Mussallum Grocery Co., Ltd., among the union stores.

GRANT TO HOSPITAL

At the city council meeting last evening, it was recommended by the finance and general committee that the sum of \$5,000 be granted to the General Hospital Association for the year 1917. The recommendation was adopted.

THE CRADLE

Born at the Prince Rupert general hospital this morning to Mr. and Mrs. Martin O'Reilly, a son.

SCENE OF THE BRITISH OPERATIONS IN PERSIA

PARLIAMENTARY CRISIS IN CHINA

(Special to The Daily News.)

Peking, March 5.—The Prime Minister has resigned. This is owing to the refusal of the President to sanction the cabinet's recommendation to break off relations with Germany, on account of their unrestricted submarine campaign.

THE FISHERIES DELEGATION REPORT

At the city council last night, Alderman Casey enquired when the delegation recently sent to Ottawa were going to make their report. Alderman Nelson, as a member of the delegation intimated that they had reported twice already. Alderman Casey said that the policy pursued by the delegation was not according to his idea of proper procedure. In the first place the delegation was not confined to members of the council, yet the council defrayed the expenses, while having had no report from the delegation, had thus been ignored. "Any delegates," he said, "travelling at the expense of the city should be selected by the council."

Here Alderman Casey was gently reproved by the Mayor for being "out of order," so notice of motion was given that the question would come up next Monday. There was some further discussion regarding a cannery licence, of which Alderman Nelson disclaimed all knowledge. Alderman Nelson also wanted the idea dispelled that he is "the recipient of a magnificent salary" in connection with his appointment to the Advisory Board.

Alderman Nelson was struck with the disposition to find fault displayed at times with the man who got something for himself.

GERMAN CHANCELLORSHIP

London, March 5.—A movement to force von Bethmann-Hollweg to resign the German chancellorship and make von Hindenburg chief of the state and also of the armies is being watched with acute interest here.

It is interpreted as meaning that the Hohenzollerns are side-stepping the disaster which is believed to be inevitable; that they are willing to let von Hindenburg become even more the national idol so that when the end comes he will be in a position to bear the brunt of the blame.

According to the plan outlined, von Hindenburg is to become both the Bismarck and the Moltke of this era. As he is an unflinching advocate of extreme measures, it is predicted that should he get important power he will increase the difficulties of the situation by drawing the United States into actual warfare.

The Hindenburg propaganda is being organized systematically, but it is ridiculed by the Liberal and Socialist forces in Germany.

BULGARIA TO BREAK WITH UNITED STATES

(Special to The Daily News.)

London, March 5.—The semi-official Bulgarian press agencies declare that the Bulgarian government will shortly send a note to the United States explaining their adherence to Germany and instructing the Bulgarian minister in Washington to demand his passports.

ACTIVITY IN THE QUEEN CHARLOTTE ISLANDS

Mr. A. R. Mallory, of Port Clements arrived in town this morning off the Prince Albert. Mr. Mallory reports that things are moving in the Queen Charlottes these days. The sawmill at Port Clements has started up. The sawmill has made a shipment of clear spruce for aeroplane construction. "The lumber industry is bound to be an important factor in the development of the Islands," says Mr. Mallory. There are three logging camps in full swing as well as the Kelly camp on Moresby Island, which is operating on a very large scale. The outlook for the prosperity of the Queen Charlotte Islands is brighter than it has been for a long time. The Ikeda Mine has proved to be a very valuable one, and between mining and logging, the Islands will be producing on a very large scale in the immediate future.

HAS INVENTION TO BLOW UP DIVERS

Pittsburg, March 5.—Theodore Eichholz, a young engineer and architect of this city, has invented a wireless device that may be used to destroy submarines by causing an explosion of gases that are always present in submarines. For several years the inventor was connected with the United States Corps of Engineers.

Mr. Eichholz states that a few days ago a small experimental apparatus at his home on Neville Island sunk a small "dummy" submarine in the Ohio River five miles away. The destroyed model was built of steel, and had been submerged to a depth of ten feet.

All submarines while under water are propelled by electric storage batteries which throw off a gas that pervades the hull. This gas, Eichholz says, he detonates by wireless current and destruction follows. The apparatus will be submitted to the government at once.

BRITISH SHELLS FOR STATES

Washington, March 5.—Great Britain has withdrawn her objection and made known her permission for Hadfields, Ltd., an English munition concern, to contract with the United States navy department for armor-piercing shells of the 14 and 16-inch type.

GERMANY MADE A MISTAKE IN MEXICO

(Special to The Daily News.)

Berlin, March 5.—"We should not have offered Mexico any territory, because Mexico was on the defensive against the United States, we should have merely tendered them assistance." These are the words of George Bernhard, waiting in the Vossische Zeitung. Germany's self defensive offer of an alliance to Mexico "may reveal to Americans the dangers into which their President is leading them." He says it was Germany's duty to enlist as an ally America's most bitter enemy, but the offer of Germany to Mexico proved the salvation of Wilson's reputation, when he played it as a trump card in congress.

MORE TERRORISM IN BELGIAN PROVINCES

(Special to The Daily News.)

Amsterdam, March 5.—The Prussianising of Belgium is almost completed. The kingdom has been divided into three provinces, with the cities of Brussels, Namur and Ghent designated as their capitals. The German scheme as that adopted in Poland. Only German is to be taught in the schools and it is an offence to be heard speaking any other language throughout the country. The population remaining is suffering under the heavy hand of the oppressor.

POWER FOR THE EMERSON SAWMILL

At the city council last night, it was agreed to forward the contract for the power for the new mill at Seal Cove to the Emerson people for their signature.

New transformers will require to be put in to take care of this new demand for the city's power and it is proposed to get along with the work at once. Prince Rupert is able to meet the Westminster and Vancouver rates for power.

GOVERNMENT AND THE P. G. E. CONSTRUCTION

Victoria, March 5.—The government is now engrossed in preparing for an investigation of the Pacific Great Eastern Railway. A report has been handed to Hon. John Oliver, minister of railways, regarding the various expenditures in the construction of this line. It bears out in much detail the numerous allegations made by the members of the Liberal opposition in the last legislature. The report, however, is being supplemented by a more detailed examination of the line. It is said that this shows a condition of affairs warranting an investigation and it is very probable a committee of the house will be selected to undertake this.

OFFICERS OF PRINCE JOHN ARE COMMENDED

The marine enquiry held at Vancouver into the stranding of the G. T. P. steamer Prince John in Wrangel Narrows on January 26th, resulted in the certificates of the master and the first mate being returned to them forthwith. The board also thought the conduct of the officers and the crew after the stranding was worthy of high commendation.

Akerburg, Thomson & Co. have just received a shipment of spring brass and phosphor bronze. This is very high class metal and is used for making salmon trolling spoons. It will repay anyone intending going salmon trolling this spring to have a look at these.

RETREAT OF GERMAN ARMY CONTINUES

Stubborn German Resistance to Advancing British—Rear Guard Actions and Counter Attacks.

(Special to The Daily News.)

London, March 5.—The German troops continue their retreat aided by the low visibility. There is a white mist obscuring the view from the artillery control stations, and under cover of which the German troops have made good a further retirement. On one part of the front, a strong German counter attack was made, but was repulsed with loss and many prisoners were left in the hands of the British.

French Front.

Paris, March 5.—A violent German attack over a front of a mile and three quarters was made west of Soissons. Repeated assaults were made by the enemy, but each attack was repulsed with very heavy loss to the enemy. The German forces failed to get any footing anywhere except in one of our advanced trenches to the north of the Cauriers wood.

Mesopotamia.

The pursuing British are still hampering the retreat of the Turkish forces, expelled out of Kut-el-Amara. The British are near Ctesiphon, which is the furthest point reached by Major-General Townshend in his first advance. It is expected that the news of the investment of Baghdad will be received any time now.

BUSINESS METHODS

It was announced a few days ago that the Commercial Club of Port Clements, Q. C. L., has been inaugurated with a view of giving the facts, and nothing but the facts, to anyone desirous of information regarding the Islands. The usefulness of such an institution was proved by Mr. A. R. Mallory, the secretary of the club, this morning. Mr. Mallory has had already several enquiries from various people regarding the prospects of business in the Islands. As a result of the publicity afforded by the club, one of the large lumber operators in the south has had a man over the ground seeing for himself just what things looked like. With a sane business-like method of getting down to facts and stating them plainly, the Commercial Club should play a large part in the development of the Islands.

AFTER THE WAR

Vast fortunes have been made in Canada out of war contracts. Not much of this wealth has come to British Columbia, and so what we are about to say has very little local application. Is it right that these fortunes should remain exempt from any obligation to those who return home when the war is over? Put yourself in the place of the man who has spent months and perhaps years in the trenches. You return home and find scores of men who have become rich in making material that you have used in the war. How would you regard them? Would it occur to you that a part, at least, of these war fortunes ought to be employed in some way for your benefit? Think it over. We can tell you that the soldiers are thinking about it.

What are private individuals doing in British Columbia in providing for the returned soldiers who will require work at good wages, and who will be entitled to it, if any men ever were? We have a province teeming with natural resources. Grant that it might be premature to inaugurate industries on a large scale pending the return of the troops, has anything been done preliminary to the establishment of the industries that we all know will be needed? Plenty of resolutions have been passed. The people of the province are adepts at shouldering their responsibilities on to other people, and preferably on to the government, but that sort of thing does not take us anywhere. We talk, for example, of the great iron industry that can and ought to be built up here, and we are unanimous that the government, some government, any government, should do something about it. In the progress of the many discussions of this question we have heard the responsibility for inaction thrown upon the provincial government, the Dominion government, and even upon the Imperial government. We are told that there is going to be an opening for trade in Siberia and Russia, but so far not a single step has been taken

to find out what that market will take. We mean that nothing has been done by private enterprise. The Dominion government may have done something, but we are not very sure about it. But we take very little stock in government trade inquiries. They usually result in very little, whereas private inquiries, that is, inquiries carried on at the expense of business men, are likely to result in business.

One might enlarge on this subject for columns, but we shall drop it at this point, for all we wish to do is to arouse public opinion to an appreciation of the very great importance of the problem that will be presented by the requirements of the men who return sound and well from the war. The needs of some of them can be met by getting the men out upon the land, but let no one deceive himself with the idea that even twenty-five per cent of the men who will return from the war will desire to engage in farming. The solution of the problem will depend upon what private individuals do, and it is by no means too soon to plan for what will surely happen, and happen perhaps much sooner than we expect.—Colonist.

NOTES AND COMMENTS

Germany's new submarine policy proclaims her ambition for world domination. Neutral nations which fail to protest must recognize her authority over them if she wins the war.

Herr Rathmeister, some weeks ago expressed the opinion that the accentuated submarine campaign would starve Great Britain into submission within twelve weeks. Not to put too fine a point upon it, that seems to be another Hun miscalculation. How many "frightful" expedients have been resorted to since the war began that were going to speedily reduce Britain to a state of impotence? The Zeppelin preceded the submarine, and it was not the first.

Our ancestors in the good old days before Queen Bess were not

WHEN BUYING YEAST INSIST ON HAVING THIS PACKAGE

DECLINE SUBSTITUTES

much disturbed by the high cost of living, or, if they were, their worries were limited. The price of such things as potatoes, sugar, tobacco, peaches, oranges, apricots, lemons, bananas, Indian corn, tea and coffee, not to speak of such things as turkeys, did not trouble them at all, for the very simple reason that they did not have any of these things. If we would get back to the simple menus of these ancestors the H. C. of L. would not be much inconvenience.

The position of the recently appointed Austrian ambassador to the United States is a very peculiar one. The Allies granted him safe conduct to the United States and he arrived in that country at the time the president had broken off diplomatic relations with Germany. He did not present his credentials, doubtless because he learned that they would not have been received until the attitude of Austria towards the submarine campaign had been defined. This has not yet been done, and the likelihood is that it will not be in a manner satisfactory to the United States, in which event diplomatic relations with the Dual Monarchy will be broken off. The ambassador-designate will have no official status whatever, and the problem of getting him home will be not the least serious of those he will have to face.

LAND REGISTRY ACT

(Sections 36 and 134.)

Re Application N. 9942—File No. 5794.
TAKE NOTICE that application has been made to register Marion B. Morrissey, of Prince Rupert, B. C., as owner in fee under Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 10th day of September, 1915, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known and described as Lot Eighteen (18), Block Eight (8), Section Eight (8), Map 923.

You are required to contest the claim of the tax purchaser within 33 days from the date of the service of this notice (which may be effected by personal service) and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:— "and in default of a caveat or certificate of his pending being filed before the registration as owner of the person entitled under such sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of Marion B. Morrissey;

AND WHEREAS on investigating the title it appears that prior to the 9th day of September, 1914, (the date on which the said lands were sold for overdue taxes), you were the assessed owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of Marion B. Morrissey unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

DATED at the Land Registry Office, Prince Rupert, B. C., this 27th day of October, A. D. 1916.

H. F. MACLEOD,
District Registrar of Titles.
To Reuben Nugent, Esq., M15
1207 Pacific St., Vancouver, B. C.

NAVIGABLE WATERS PROTECTION ACT.

R. S. C. Chapter 115.

Hume B. Babington and Norman R. Brodhurst of the City of Prince Rupert, in the Province of British Columbia, hereby give notice that they have under Section 7 of the said act deposited with the Minister of Public Works at Ottawa and in the office of the District Registrar of Titles at the Land Registry Office at the City of Prince Rupert aforesaid a description of the site and the plans of a wharf proposed to be built in Hensling Bay, Langara Island, in front of Lots 999 and 998, Queen Charlotte Island District, Province of British Columbia.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice the said Hume B. Babington and Norman R. Brodhurst will under Section 7 of the said act apply to the Minister of Public Works at his office in the City of Ottawa, Province of Ontario, for approval of the said site and plans and for leave to construct the said wharf.

DATED at Prince Rupert, B. C., this 27th day of December, A. D. 1916.

SERBIA LOOTED BY BULGARIANS

Serbian Army Headquarters, via Saloniki and London.—Perusal of recent Sofia newspapers affords a glimpse of conditions prevailing in that part of Serbia under Bulgarian rule. The view revealed is not comforting to the expatriated portion of the Serbian nation.

For instance, an official notice announces the sale by auction of sundry articles taken from the enemy in Serbia, such as furniture, kitchen utensils and elegant objects of all kinds.

This communique points to a condition of systematic looting by the Bulgarians in the conquered territory.

Another significant announcement is that parliament will shortly be called to vote on a bill for the suppression of brigandage in parts of Serbia in Bulgarian occupation, showing that fresh severities are contemplated against the unhappy population. The plundered people, it appears, are also expected to pay taxes in full, regardless of the pitiable destitution.

To crown all, Serbian banknotes are proclaimed valueless, and silver dinars, coins worth 19 cents, were allowed to continue in circulation only until February 14, although they were accepted by the Bulgarian treaty at fifty per cent discount. After that date they were simply to be confiscated wherever found.

WOULD STANDARDISE FISHING BOATS

The Board of Trade of Victoria have been getting a memorial ready for submission to the government regarding the necessity for standardising the type of boats used in deep sea fishing in the Pacific Canadian waters. It is suggested that a fleet of fishing boats should be built up in Canada similar to the conditions in the North Sea. The usefulness of the standard type of trawlers there in war operations is noted, and a standard type of fishing craft would be equally useful in similar operations on the Pacific coast. It is proposed that the government assist those operating standard type vessels, with an additional bonus for naval reserve men being carried as crew.

LAND REGISTRY ACT (Sections 36 and 134.)

Re Application No. 91,111, Filing 5,814.
TAKE NOTICE that application has been made to register John Bergman, of Prince Rupert, B. C., as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 10th day of September, 1915, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known as Lot Ten (10), Block Five (5), Section Seven (7), Map 923.

You are required to contest the claim of the tax purchaser within thirty-five days from the date of the service of this notice (which may be effected by Registered Mail or as Directed, and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:— "...and in default of a caveat or certificate of its pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice....and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of John Bergman:
AND WHEREAS on investigating the title it appears that prior to the 9th day of September, 1914, (the date on which the said lands were sold for overdue taxes) you were the assessed owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of John Bergman unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.
DATED at the Land Registry Office, Prince Rupert, B. C., this 6th day of December, A. D. 1916.

H. F. MACLEOD,
District Registrar of Titles.
To Simon Peterson, Davisville, California.

ORDERS

432 Prince Rupert Cadet Corps.
By J. C. Brady, Instructor.

It is proposed that the above corps shall camp for two weeks during the coming summer. All boys wishing to attend must enroll before April 30th.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the

Central Executive Committee, 50 St. Peter St., Montreal.
\$2.50 Feeds A Belgian Family A Month.

Don't merely smother your cough

CURE IT

Mathieu's Syrup of Tar and Cod Liver Oil not only promptly arrests coughing, but thanks to its tonic and strengthening properties it helps the system to throw off the cold and thus effects a permanent cure. It is this quality which has won for it the largest sale of any cough and cold remedy in Canada.

35c. large bottles, everywhere.

J. L. MATHIEU CO., Prop., SHEPPARD, CAN.

If you add to French Mathieu's Syrup of Tar and Cod Liver Oil, the essential ingredients of the cure, you will find the cure for all coughs and colds.

When a Man Marries

WHEN a man marries he quickly discovers his need of innumerable things he had never thought of before.

And the butcher, the baker and the cabinet maker have a new home to supply.

The new husband and wife must buy things to which they had previously given little thought.

A thousand marriages mean a thousand new homes.

Right here is a fact overlooked by many merchants.

They say, "How could it pay us to keep on repeating the story of our goods or service?"

If they could reach every possible customer with one advertisement—and if people didn't forget—there might be no object in "keeping everlastingly at it."

But because every possible customer does not read every advertisement, you must repeat.

And because these thousands of new homes are every day coming into existence, continuous advertising brings increased results.

Perhaps some people knew your goods or your store five or ten years ago. Since then new generations have come into existence.

The boy of to-day is the man who will sign the cheques to-morrow. To-day your advertisements are of small interest to him. To-morrow he is your customer, if you solicit his trade through advertising.

Every day thousands of people discover for the first time their need of your kind of goods.

Will you be there every day with your bid for their business?

Or will you leave the field to your competitors?

Advertising is the key that opens the door of these new homes to your goods.

Is Advertising on your key-ring?

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

MORE CUNARD ORDERS PLACED IN SEATTLE

Seattle, March 5.—The Ames Shipbuilding and Drydock Company, of Seattle, today signed contracts to build nine large steel steamships at a cost of more than \$11,000,000. Seven ships of 9,000 tons each for the Cunard Line are among the boats. Keels for the first three Cunards will be laid during the present month, and the number of workmen at the plant will be increased to 3,000 as soon as possible.

RUSSO-BRITISH AGREEMENT

London, March 5.—Russia and Great Britain have reached an agreement on the principle on which each nation will treat the subjects of the other who are residents in its territory.

Every man of military age in either case will be required to enlist, but he may choose whether he shall go home or enlist in the country of his residence.

Russian Jews, many thousands of whom reside in England, were alarmed at reports published some months ago that they would be called back to serve in the Czar's armies. The leading Jews of England joined in a movement to prevent this.

MINERAL ACT

Notice to Delinquent Partners.

To Grant Mahood and Patrick Daly. TAKE NOTICE that whereas we have done and caused to be done assessment work by surveys on the Daly, Sullivan, Edith and Lois Mineral Claims, situated in the Salmon River District, Portland Canal Mining Division, for the year 1916, and have paid for said work and recording same the sum of \$510.00, unless you pay to us the sum of \$255.00 for your share of said assessment work, together with the cost of this advertisement, we shall at the expiration of ninety (90) days from the date hereof, apply to the Mining Recorder at Stewart, B. C., to have your interests in the said Daly, Sullivan, Edith and Lois mineral claims vested in us, in pursuance of the provisions of the Mineral Act.

Dated at Victoria, B. C., this 15th day of November, A. D. 1916.

JAMES McDONALD.

F. 24. FREDERICK C. WINKLER.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that George McEae, whose address is Skidegate, B. C., will apply for a licence to take and use 150 cubic feet per minute of water out of Demster Creek, which flows northerly and drains into Allford Bay, about 15 chains from the N. E. corner of T. L. 835. The water will be diverted from the stream at a point about ten chains west from N.W. corner of Lot 4, B. C. Fisheries, and will be used for power purpose upon the land described as adjoining Timber Limit 835 in application to lease.

This notice was posted on the ground on the 15th day of January, 1917. A copy of this notice and an application pursuant thereto and to the Water Act, 1914 will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within sixty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is February 21st, 1917.

GEORGE MCAE, Applicant.

GOLD WATCH FREE.

A straightforward proposition offer from an established firm. We are giving away watches to thousands of people all over the world as a large advertisement. Now is your chance to obtain one. Write now, enclosing 25c made for use of our fashionable Ladies' Long Chain, or Gentle Alberts, and carriage paid to your door with the watch, which will be given from these watches are guaranteed five years, should you take advantage of our proposition.

Low offer. We expect you to tell your friends about us and show them the beautiful watch. Don't think this offer too good to be true, but send 25 cents to-day and win a Free Watch. You will be amazed—WILLIAMS & LLOYD, Wholesale Jewellers (Ingt. 14), 59, Cornhill Road, London, E. C.

Bathe Internally and Keep Well!

Nature has mightily equipped us all, old and young, to resist disease—but she requires that we give her a chance. We give her no chance if we permit the Lower Intestine to be more or less clogged with accumulated waste. Yet that is a universal condition today, as is proven by the number of laxative drugs that are consumed.

You can help Nature in Nature's most effectual way by internal bathing, and in an easy, non-habit-forming way keep the Intestine as sweet and clean as Nature demands it to be for perfect health and surer defence against contagion. Over half a million keen, bright, healthy people testify to its result.

Mrs. C. D. M. (name on request) of Strathroy, Ont., writes:— I am pleased to have this opportunity of testifying to the merits of the J. B. L. Cascade. I have been using it now for a year with satisfactory results. I am an old woman, but my health is so improved that I have a renewed lease of life. You are at liberty to give my address to anyone privately who may desire to write to me regarding the Cascade.

Just call on Cyril H. Orme, Druggist, corner 3rd Ave. and 6th Street, Prince Rupert, and request free booklet, "Why Man of Today is Only 50 Per Cent Efficient." The most efficient device for internal bathing, The "J. B. L. Cascade" will also be shown and explained to you if you so desire. If you prefer, write for Booklet to Dr. Chas. A. Tyrrell, 163 College Street, Toronto.

LUX

Won't discolor silks or fade colors.

If you don't use LUX you naturally dread the ordeal of wash day for your silk blouses. Silk fibres are peculiarly sensitive to common soaps and to ordinary wash-time rubbing and twisting. The LUX way is away better—you make a thick, creamy lather, you stir the garment gently about, you rinse thoroughly, you press out the water gently and hang out to dry.

The result is a fabric as fresh as when new. This refers to anything that pure water itself will not harm.

Don't shrink woollens at all grocers 10c.
