RUSSIAN REVOLT ENFRANCHISES PEOPLE

NEW SYSTEM OF GOVT. BASED ON UNIVERSAL FRANCHISE & GENERAL ELECTIONS

REVOLUTION IN RUSSIA WAS SHORTEST YET

Grand Duke Nicholas Advised Czar to Abdicate—Regent is Grand Duke Michael—People Enfranchised.

(Special to The Daily News.)

Petrograd, March 17.—The revolution in Russia has proved to be the shortest and the least bloody of any in the history of the country. Russia has had many revolutions, some of which lasted for a considerable period, and caused much fighting, but they usually ended in the utter defeat of the revolutionists. This time the army was on the side of the people, and assisted the accomplishment of the coup d'etat. Every weapon, with the exception of the heavy big guns, was used this time, and the revolutionary party for once was the better armed. The streets of Petrograd have seethed with revolt and bloodshed for four whole days. Some of the pro-German officials commenced shooting promiscuously at the people thronging the streets from the officers' quarters, and as a result of this action, field guns were trained upon these buildings and they were battered down. The hotels were stormed by the populace, who were skillfully led in their movement. The prisons were burned with fire and the political prisoners, of whom many had been incarcerated for years without trial, were set at liberty. Scenes such as described in the taking of the bastille in the first French revolution were enacted over again and the meetings of relatives with their friends so long imprisoned were pathetic to witness. The Czarina is being detained in the Imperial Palace, while the ex-Czar is at Pskoff. The assassination of former Premier Sturmer and Minister of the Interior Protopopoff is unconfirmed. The Grand Duke Michael Alexandrovitch was appointed to act as regent till the Czar returns because of age, but it is said that he has declined to act as such.

The last act of the Czar before abdicating was to transfer the supreme command of the Russian armies to the Grand Duke Nicholas. This was done under pressure, when it was seen by his advisers that there was likely to be trouble. The Grand Duke is deservedly popular with all classes and is the idol of the army, with the exception, of course, of the pro-German element, who were responsible for his transfer from the German front to the Turkish. The Grand Duke Nicholas has telegraphed to the new President of the Duma, that in agreement with General Alexieff, he advised the Czar to abdicate.

Notwithstanding the tumult, the Allied officers at present in the Russian capital have been well treated at all times.

Pending the meeting of their constitutional assembly, the new government is vested in an executive committee of the Duma and the newly chosen council of ministers. The new President of the Duma is M. Rodziak, and his provisional government consists (Continued on Page four.)

KENT COAST AGAIN RAIDED BY AEROPLANE

(Special to The Daily News.)

London, March 17.—A hostile aeroplane was successful in eluding the British patrols in the Channel yesterday and managed to get as far as Westgate, in Kent, on the south coast. Bombs were dropped, but the damage done was slight. There were no casualties. Westgate is near Margate, which was fired at lately by a German destroyer.

SUDDEN DEATH OF OLD TIMER AT STEWART

The body of D. J. Rainey of Stewart, has been brought to Prince Rupert en route for the east. Mr. Rainey was one of the oldest residents in that part of the country, having been there for at least the last nineteen years. He was working on a prospect about two miles from Stewart, and used to go to out to work in the mornings and come into Stewart again at nights. One night lately he did not arrive back as usual, and, on a search being instituted, he was found to have fallen over a high cliff and the body is very badly mutilated by the fall. The relatives of the deceased are in Michigan, whether the remains will be sent for interment. The B. C. Undertakers have charge.

THE SOLDIERS' VOTE.

In connection with the conflicting reports regarding the counting of the soldiers' ballots taken in Europe, published on Thursday, the information received here that 1,900 anti-prohibitionists had been thrown out by Sir John Simonds is now said to be without foundation. The origin of this statement has been traced and it is said to be absolutely a "fake." Sir John Simonds decision was that all ballots cast will have to be counted and the prohibitionists charges are "matters for adjudication in British Columbia."

POLICE COMMISSION.

At a meeting of the commission the report of the Chief for the month of February was received. For the month there were 42 cases out of which there were 35 convictions. The fines amounted to \$416.65.

Mr. and Mrs. James Duncan, who have been the guests of Mrs. F. G. Dawson for the last few days, left for their home in Regina this morning. Mr. and Mrs. Duncan have spent the last three months on the coast. When in Vancouver and Victoria they did not have three days without rain, and needless to say they are delighted with Prince Rupert's weather and climate.

The Rev. Thomson Ferrier, inspector of the Methodist Indian Institutes, accompanied by his son Fred, is making Prince Rupert headquarters in his peregrinations on the coast. Mr. Ferrier goes to Port Simpson today and on his return will proceed south.

Word has been received from Major J. C. Halsey, in England. He is now in a sanatorium there and his many friends will be glad to know that he is getting on as well as can be expected.

Mr. Geo. Moffatt, Superintendent and Mr. W. J. Porter, assistant engineer in charge of the operations of the Granby Company on Gibson Island are in town for a day or two.

BURIAL OF THE LATE DUCHESS OF CONNOUGHT

(Special to The Daily News.)
London, March 17.—The interment of the late Duchess of Connaught will take place at Windsor on Monday. The ceremony will be simple, but suitable to the rank of the blood royal.

ST. PATRICK'S CONCERT.

A very fine programme was rendered last night in the social hall of the Catholic Church. The hall was filled to its capacity. The first chorus was by the pupils, entitled "God Save All Here," and was followed by the "Hunter's Song." A dialogue by Albert Palmer and John Barton called "A History Lesson" was very good. "Going Home to Mauro" a trio by A. Gurrich, W. Murphy and Frank McKinnon went exceedingly well. There were numerous other items by the pupils which were of a high order of excellence. An instrumental trio by Mrs. Bryant and Messrs. Duffy and Edmunds was much appreciated. An Irish jig by Miss McQuillan was a very fine performance and reminiscent of "Ould Ireland." Other Irish songs were rendered by the church choir. Mayor McCaffery gave address on "Ireland and the part she is taking in the Empire's welfare." Mayor McCaffery was in good form and his address was very interesting indeed, as Mayor McCaffery always is in dealing with such a subject. The whole programme was one of great excellence and great praise redounds to the credit of the promoters. The proceeds were in aid of the church funds.

PERSIAN FRONT.

(Special to The Daily News.)

Petrograd, March 17.—Advancing from Kermanshah, the Russian troops have dislodged the Turkish army from strong positions on the summit of Naleshkan mountain. The Turks are retreating northwestwards, in the hopes of joining up with the other retreating army from Bagdad, before they get cut off by the rapid British advance.

Rare opportunity—latest models, no two alike—easy payment plan—the ladies' suits and coats—Wallace's.

DESTROYER SUNK.

(Special to The Daily News.)

London, March 17.—A British destroyer of the old type struck a mine in the English Channel yesterday. She sank immediately. One member of the crew was killed outright, and the remaining 28 are missing. It is expected that they would be picked up by some passing steamer, but so far no word has been heard of their being landed.

A STRIKING TRIBUTE

Under the heading "Great Britain Rises," The Wall Street Journal recently paid the following splendid tribute to the British performance in the war. It says:

All the seven wonders of the world fade on history's page compared with the spectacle Great Britain presents today. A commercial nation of less than 50,000,000 people suddenly summoned to arms where no arms existed and in less than thirty months she has a bigger army than history ever before recorded and a war machine in Europe that for wealth of shell, explosives and war power is the amazement of the Germans.

Without an English airplane engine that could circle her own island she has vanquished the Zeppelins and is mistress of her own skies. With submarines by the hundred threatening her coast defences, her food supplies and her commerce, she has swept all oceans, locked the German fleet in harbor, convoyed shipments of gold across the ocean in safety—loads of gold that in former times would have paralyzed national financial markets—made the English Channel her multiple track ocean railway to Europe with no loss by Zeppelin or submarine; fought in Africa, at the Canal, at the Dardanelles; grappled with the Turk and the Bulgars; changed generals and admirals in command; changed cabinets; fed the armies of France; given arms to Russia; maintained the armies and the governments of Belgium and Serbia and altogether, advanced \$3,000,000,000, or three times the national debt of the United States, to her war allies.

While the United States has been trying to find out how to build military rifles in quantities and has unfilled orders for them representing hundreds of millions of dollars, England has been turning out rifles by the million for herself and her allies, cannon by the thousand, boots and coats by the million for herself and her allies, and, wonder of wonders, she has done all this, is doing it, is yet to do more, and has now her manufacturing, her trade relations and her overseas commerce unimpaired. Yet she has grabbed the trade of the world, so that her enemies are struggling on half rations with food, rubber and metal supplies from the outside world practically cut off except as new territory is taken.

This is a gigantic physical power and a trade and war power combined never before dreamed of. It puts in the shade all that the world previously knew of Great Britain's financial power.

The British lion was regarded as a money bag of trade and a whelp of the seas. Great Britain's ability to put 10 per cent. of her population under arms, to feed and equip her allies and at the same time to maintain her credit and commerce throughout the world was something never dreamed of within or without her empire before this war.

EARTHQUAKE OR SUB?

(Special to The Daily News.)

Buenos Ayres, March 17.—Communication by cable to London via the Azores has been suddenly broken off today. It is thought that this is the result of a submarine earthquake, but in some quarters it is believed to be the work of a German raider. The location of the break has not yet been ascertained.

HIGH SCHOOL LITERARY.

Those present at last night's meeting of the High School Literary Society had the privilege of enjoying an excellent programme. The meeting was opened by a school chorus, "Tipperary Tommy." This was rendered with true patriotic fervour. Then followed an oration, "The Gladiator's Appeal" by James Mitchell; the singing of "A Little Bit of Heaven" by Miss Kathleen Grant was greatly appreciated and heartily encored. Miss Marguerite Kilpatrick delighted the audience with a piano solo. A play was given entitled "Madame Department's School" and it won great praise for the participants. Miss Katherine Pillsbury took the part of "Madame Department" and Vienna Calderoni was a most likeable maid. The students attending the school were Miss Margaret McColl, Miss Kathleen Grant, Miss May Pringle and Miss Muriel Patmore. Miss Margaret Morgan rose to her usual eloquence in a recitation. The school magazine was read by Mr. James Mitchell and proved very interesting. It was full of quips and jokes at both students and teachers. There were also some very good articles and essays. A three part college chorus, sung by a few of the students made a decided hit. Mr. Brady delivered a short address on "Wit and Humour," illustrating the difference between these two qualities in a series of short stories. After a few appropriate remarks by the Rev. Dr. Grant, the meeting was brought to a close by the singing of the National Anthem.

ADVANCE BY THE BRITISH CONTINUES

Important Gains Made Between Perone and Bapaume on a Two and Half Mile Front—French Raids.

(Special to The Daily News.)

London, March 17.—Another important gain has been made by the British troops between Perone and Bapaume. Trenches on a two and a half mile front, running from the south of St. Pierre Wood to the north of the village of Salliesel have been occupied. The Germans were compelled to retreat as their trenches were no longer tenable, on account of the superiority of the British gunfire. Their communication trenches were enfiladed, and they were unable to bring up supports or ammunition to their front lines.

French Front.

Paris, March 17.—The French troops have captured the third line of German trenches east of Canary-sur-matz. Many prisoners were taken. After violent artillery preparation, reconnoitering parties carried out raids on several points on the enemy front in the direction of Beaurvaing, to the south of Crap-cau-Mesnil. The enemy trenches were completely shattered by our fire.

Mesopotamia.

The pursuit of the Turkish forces continues. British troops are now well on their way to Mosul. That the enemy will show fight at Samara is not expected.

THE RETURNED SOLDIERS.

Although the Princess Maquina came alongside the Government wharf nearly a whole hour before her expected time last night, there was a big crowd assembled to welcome the two boys from the western front. Tom Holmes is rather badly crippled and has some little difficulty in getting around. As the boys landed on the wharf three cheers were called for, which were heartily given. The Inlander Mess was well represented, Charlie Thorne having been one of their number previous to his going away. He will be a guest of the Mess during his furlough here. The shrapnel shell which wounded him was filled amongst other things with gramophone needles, and Charlie carries quite a number of these musical points around with him still.

EAT'S GILLET'S DIRT-CLEANS LYE DISINFECTS

CANADA'S PROPOSED AEROPLANE INDUSTRY

The announcement was recently made that it was proposed to establish through Canada branches of the Royal Flying Corps, with general headquarters at Toronto. It is the intention to construct, rebuild and repair every kind of aeroplane at the various depots, as well as to conduct the training and instruction courses to equip Canadians for service at the front with the Royal Flying Corps. Millions of dollars have already been expended in Toronto already in the permanent establishment of the headquarters. The branch depots, known as "wing headquarters" will be equipped with 90 machines, divided into five squadrons of 18 aeroplanes each. Each squadron is divided into three "flights" of six machines.

To attend to the work of "wing headquarters" 750 mechanics and cadets, with 250 officers will be required. The men are actually engaged in construction, repairing and rebuilding of the aeroplanes. Each aeroplane built would cost approximately \$10,000, so that the establishment on the Pacific coast of a "wing" would mean a great deal of activity and would provide an opportunity for the employment of a large number of mechanics as well as to enable prospective airmen to take their training under ideal climatic conditions.

AN ANCIENT CITY.

The capture of Bagdad marks the climax of one of the most dramatic and picturesque phases of the world war. The city which has fallen to British arms links the present to a past so distant that it is semi-fabulous. The known history of Bagdad reaches back for more than 4,000 years to the shadowy times of King Nebuchadnezzar of Babylon, a quay built by the Scriptural monarch still existing submerged in the Tigris. Within its precincts also there still stand the tombs of the Jewish prophets Joshua, Ezra and Ezekiel and the well of Daniel.

Long after the Babylonian dynasty had ceased to be more than a memory, Bagdad rose to splendor as the artistic, literary, scientific and religious capital of the world. The heart of the great Islamic empire of the Caliphs for hundreds of years, it was known throughout the world as "The Glorious City" and was the scene of the fantastic exploits of Haroun al-Rashid, the potentate whose magnificence is immortalized in the Arabian Nights.

In 1800 B. C. Bagdad was credited with a population of 2,000,000 souls and was easily the first city in the world in wealth and commerce. With the fall of Caliphs before the Turkish sultans, the decline of Bagdad commenced. It was successively the prey of Turks, Mongols, Tartars and Persians, but it was not until 1638 that the city became definitely a part of the Turkish Empire. Its ancient importance was largely due to the fact that it stood at the crossing of the lines of communication between India and Persia and the west.

The fall of Bagdad is of even greater significance for the effect it is expected to have on German aims than for its value in restoring British prestige in the eyes of the Mohammedan world and the East generally. While it is recognized that the British misfortunes in Mesopotamia had a serious influence on the prestige of the ruling power in India and Egypt and while it is pointed out that the capture of Bagdad will restore the balance, the chief gratification expressed is that the suc-

cess of General Maude's expedition "has shattered the dream that Germans have indulged in for more than 20 years."

As one typical comment put it: "The Germans' proud vision of an Eastern empire is dissipated before their eyes, the German route to the East is blocked and the existing terminus of the Berlin-to-Bagdad railway has passed into British hands. To Orientals it will seem to sound the knell of German aspirations."

It also is pointed out that Turkey's value as an ally of Germany is now irredeemably weakened and that the fall of Bagdad crowns the disasters which already had befallen Ottoman arms in other Asiatic theaters of the war.

It is pointed out that Bagdad will be a difficult city to hold under assault, as it has neither natural nor artificial defences and lies on an open plain. It is believed, however, that the Turks are so thoroughly routed that there is no present cause for anxiety, although it is admitted that they have shown in Armenia and elsewhere a considerable gift for bringing a victorious enemy to an eventful halt.

NOTES AND COMMENTS

The Canadian public will feel the incongruity of Premier Borden addressing the Canadian troops at the front on the honorable principles for which they are risking their lives, and praising their sacrifices in the public cause and in the cause of national duty, with Hon. Robert Rogers standing at his side.

The Canadian people who read in the newspapers the account of this scene, will feel that it was not only incongruous, but that it was a hideous and disgraceful mockery.

The soldiers of Canada are as well acquainted as the Canadian people with the record of Hon. Robert Rogers in crooked politics. They are well aware that he is a corrupt politician who at the beginning of his career deserted principle for gain. They know that he has polluted political life wherever he has been a part of it and muddled

politics wherever he has touched it. They know that he has been found guilty by a supreme court judge of political crimes of which graft was the least.

They know that he has been the leader of political cannibalism in Canada, and that he has practised during his whole career the very wrong ideals they are fighting against. These soldiers know that the war is a struggle between opposing ideals of life. They know that they are fighting for right ideals. They know that the enemy is practicing and fighting for wrong ideals.

The soldiers who listened to the lofty words of the premier, must have felt that the presence of Hon. Robert Rogers was an insult to them and to the cause to which they have dedicated their lives.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund! To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

LAND REGISTRY ACT

(Sections 36 and 134.) In Application No. 21,144, Filing 5,814. TAKE NOTICE that application has been made to register John Bergman, of Prince Rupert, B. C., as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 10th day of September, 1915, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known as Lot Ten (10), Block Five (5), Section Seven (7), Map 923.

You are required to contest the claim of the tax purchaser within thirty-five days from the date of the service of this notice (which may be effected by Registered Mail or as Directed, and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:— "...and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice... and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be forever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the abovementioned lands, in the name of John Bergman:

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of John Bergman unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

WESTHOLME THEATRE.

The Westholme Theatre had a full house last night and a full houseful of gratified patrons. "Hulda from Holland," with Mary Pickford in the title role proved to be everything that has been said about it. It is a masterpiece. Mary Pickford is known to be an artist of no mean order. Pathos and humor are well blended, and, of course, there is the heart interest, which before the picture is ended becomes a very serious affair for "Hulda." Altogether one would go far before seeing a better constructed play, or one that is played better. Those who missed seeing this great play last night would do well to see it tonight, and many of those who saw it last night will want to witness the scenes again tonight. There is also a topical budget of great interest. The musical programme is up to the usual standard of the Westholme, well up, and that is saying enough.

Internal Bathing's Rapid Growth

It is but natural to expect that a relief from Constipation and the many ills which it causes, which is so effectual and so natural as Internal Bathing, should quickly make many converts.

But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an Internal Bath.

The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.

Mr. F. E. Smith writes:—"Dear Doctor,—Your 'Cascade' made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and today she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past; can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; but weather does not cause oppression."

The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail by Cyril H. Orme, Druggist, corner 3rd Ave. and 6th Street, Prince Rupert. Ask for free booklet, "Why Man of Today is Only 50 Per Cent. Efficient." If you prefer, write to Dr. Chas. A. Tyrrell, 163 College Street, Toronto, for same.

To-night—sprinkle 2 or 3 spoonfuls of LUX into the bath water. Stir it about. What happens? The LUX flakes dissolve instantly, making the water as soft as that from the old time "cistern" or rain-barrel on the farm—do you remember?

Soft as Summer Rain

Becomes the water into which you have stirred a few LUX flakes—pure essence of soap. An exquisite, soothing and refreshing quality is given the bath, or shampoo, and what's more, no further soap will be needed.
