BRITISH AND FRENCH ARE KEEPING UP PRESSURE ON RETREATING GERMANS

ALLIES GAIN FIVE HUNDRED SQUARE MILES

German Retreat Still Continuing Pressed by the Allies—On Whole Front, 70 Towns, Villages Got.

(Special to The Daily News.)

London, March 20.—The greatest advance by the Allies has taken place since the German retreat from the Marne. Between the Arras sector and the River Oise, nearly five hundred square miles of territory has been added to the Allies' holdings already. And the Allied forces are still advancing, and pressing steadily against the Germans. The rejoicing here is general, but the experts are warning the nation against over optimism. They point out that the German retreat is no headlong flight, but a methodical and systematic turning back from untenable positions to others, doubtless long and carefully prepared. This is borne out by the fact that the reports lack details of any considerable losses of men, or materials by the Germans, which indicates that the withdrawal is far from a disorderly retreat. That the retreat has been accelerated by the Allies' undoubted superiority is understood, still the Germans have been able to remove their war material with them. Altogether, on the whole front, which extends to seventy or eighty miles, over seventy cities, towns and villages have fallen into the Allies' hands. There is much guessing today as to the new German line, but at the best it can be but a guess. The military experts seem to favor the line Douai, Cambrai, St. Quentin, LaFere, and Soissons. But the new line, though it may have been made by thousands of Russian prisoners, or Belgian or Polish slaves driven to their work cannot be so strong as the lines already found untenable on the Somme. Moreover, the Germans are on the wrong side of the watershed, as the British have a downhill slope in front of them generally speaking, and are superior in force of artillery and men.

JOIN THE REVOLUTION.

(Special to The Daily News.)

Petrograd, March 20.—The entire Russian Baltic Fleet and the fortresses at Viborg and Sveaborg have now joined the revolutionary movement. The trouble at Sveaborg was short lived, and the reactionary element was quickly disposed of.

The regular meeting of the Helping Hand Society will be held at the residence of Mrs. L. W. Reilly on Wednesday, March 21 at 8 p. m. All members are requested to attend.

THE UNITED STATES AND GERMANY

(Special to The Daily News.)

Washington, March 20.—The position with regard to Germany is once more acutely critical. Open hostilities, it is reported, are inevitable as the result of the sinking of three American ships yesterday. The gross tonnage of the three vessels sunk is 14,578, and this further flout of the President's warning cannot be ignored. Sudden action is said to be probable on the part of the President. Preparations are well in hand.

MINING NOTES.

The Silver Standard Mining Co., operating on Glen Mountain, near New Hazelton, are installing a new up to date compressed air plant at their Silver Standard Mine. The plant will be operated by a modern oil burning engine of 60 h.p., and will replace the old steam plant, which is now inadequate, due to the expansion of the mine since Mr. W. G. Norrie took charge. The adit tunnel on the 250 feet level of this mine has been opened up several high grade lenses of ore, which will be developed as soon as the new power plant is installed.

Another property adjoining the Silver Standard Mine, on which some work has been done, is expected to commence operating at an early date; the ore being similar to that found on the Silver Standard property.

In the Alice Arm district, the Dolly Varden Mines, Ltd., have taken in some machinery and are going to instal it in the Dolly Varden property. About fifty men are employed there at the present time drifting and raising on the ore bed, which, by recent systematic prospecting, has been proved to be of considerable extent. A considerable number of other properties have been worked in this district, and during the summer months the production from Alice Arm district will be greatly increased. The Molybdenite Mining & Reduction Company, who own a large deposit of molybdenite about four miles from the head of Alice Arm, have recently constructed an aerial tramway, mill and concentrator, capable of treating 150 tons of ore per day. Operations have been suspended here for some time, owing to the climatic conditions, but will be resumed shortly and a large force of men employed.

At the Ikeda Mine, on the Islands, \$100,000 is to be spent on a mill, power plant and tramways leading from the mine to bunkers placed at high water mark. Reports of a very promising nature are received regarding this property. Mr. W. G. Norrie, of the Silver Standard Mine has laid out the work here.

On Porcher Island, the Belmont, Canadian Company, owners of the Surf Inlet Mine, are operating several claims, which are said to be very satisfactory. Construction work at the Surf Inlet has been somewhat retarded lately on account of the severe weather prevailing in that district. This property is expected to be in full operation early in the summer and will employ large forces of men.

HEALTH OF THE CITY.

The Health Officer's report was read at the City Council meeting last night. It showed that the health of the city continues good. In the vital statistics, births for January were 11; deaths, 4. During February there were ten births and 2 deaths.

HOHENZOLLERNS TO HAVE THEIR TURN NEXT

(Special to The Daily News.)

London March 20.—A neutral attache here tells an astounding story of a plot to overthrow the Kaiser and to rid Germany forever of the blight of the Hohenzollerns. From this story, it is learned that Germany is ripening for revolution. Hindenburg is the popular idol, and it is said that he has been requested to take hold of the reins of the state after the Emperor William and his family have been got rid of.

THE RAILROAD STRIKE.

(Special to The Daily News.)

New York, March 20.—The United States Supreme Court has ruled that the Adamson eight hour day law passed last session is constitutional and valid. The railroad managers have agreed to accept that law as a basis of settlement in the demands of the men. A feeling of relief is general that the strike has been averted, as a strike at this particular time, with the great congestion of traffic on the eastern seaboard would throw the railway systems into a condition that would take months to recover from.

GERMAN DESTROYER OUT.

(Special to The Daily News.)

London, March 20.—A British destroyer was sunk in the Straits of Dover yesterday. A running fight was engaged in, in which another British destroyer was torpedoed, but with very little effect. The latter ship was not seriously damaged. The German loss is unknown.

THE CITY COUNCIL.

The council of the City of Prince Rupert duly met last evening at the appointed time. In the absence of Mayor McCaffery, Ald. McClymont was Acting Mayor, and on account of Mr. Fred Peters, K. C., the city clerk, being in the south on business, Mr. H. C. Edmunds was acting clerk. There was very little business on the agenda and that was ordinary routine work. The transaction of the city's affairs occupied about fifteen minutes, when adjournment was moved and seconded.

BRITAIN WELCOMES THE GOOD NEWS

London, March 18.—The News that "Great Russia" had joined the democracies and that one of the three great absolutist rulers of the world had resigned his throne in accordance with the demands of his people, was received here with mixed joy. There had been no illusion here about Russia.

"The people and the army are all for the war and against Germany," has been the word which came from Russia from all channels repeatedly. That the court had been enshrouded in a pro-German atmosphere and that the Emperor was a weak man under the thumb of his wife, and also the domination of several members of the bureaucracy, and others of whom were influenced by and in the pay of German diplomats, also had been reported.

The men now in control of the destinies of the great empire of Western Europe are Russians who are anti-German and pro-Russian to the core, so the Russian developments are regarded here as wholly to the benefit of the Entente Powers in the war.

Like Bastille.

"During the revolution," says a Reuter dispatch from Petrograd, "the hated Kreaty prison was seized by the revolutionists, after a short resistance by its guards. All the political prisoners held there, including the members of the workmen's group arrested a month ago, were liberated. The same course was followed at the preliminary detention prison and the women's prison. Detective headquarters was demolished and burned, with all the archives relating to political personages and organizations.

Among those arrested were Bishop Pitrim, the metropolitan of Petrograd, Chief M. Kerloff, who was in charge of the police arrangements at the time of the murder of Premier Stolypin, and whose activities have been renewed recently, and Genral Soukhomlinoff, former minister of war.

The Russian revolution is commented upon editorially here with enthusiasm, mainly as a great triumph for the Entente and a great disaster for the Central Powers. The press describes it as the death of German hopes.

THE LATE DUCHESS.

(Special to The Daily News.)

London, March 20.—The remains of the Duchess of Connaught, after being cremated, were interred at Windsor yesterday. The King has commanded the abandonment of all court functions for four weeks, during which time the court will be in mourning. President Borden was present at the funeral.

GERMAN WAR TAXES COLLECTED IN STATES

New York, March 20.—Federal agents investigating alleged German plots in this city and vicinity today, declared that they have obtained evidence proving that accredited German agents have been levying war taxes on German subjects in the United States for more than a year. One of the German assessors, the agents declare, has told of his part in the collections. Millions of dollars, the agents believe, have been collected. The agents also said they are trying to discover if the approximately \$5,000,000 collected through bazaars and fairs for the German Red Cross really reached that body. They have reason to believe, they said, that the money never left the United States.

RUSSIANS NOW GETTING DOWN TO BUSINESS

Order Has Been Quickly Restored Grand Duke Nicholas Releases Political Prisoners.

(Special to The Daily News.)

Petrograd, March 20.—The real business of reformation is now taking up the attention of the Russian people. Order has been very quickly restored. The street crowds are very orderly. Much jubilation is shown regarding the emancipation of the Jews. That the free rights of citizenship have been extended to them is a matter of congratulation, as the Jews have furnished proof of their loyalty to Russia in many ways during this present war. Britain has officially recognized the new government in Petrograd. The Grand Duke Nicholas, the Commander in Chief of Russia's war forces, has ordered the release of all political prisoners now held in Baku. In an order of the day to the army, he exhorts his soldiers to obey their lawful chiefs, and urges them to defend their country and to support Russia's Allies in this unprecedented struggle.

MESOPOTAMIA.

(Special to The Daily News.)

The pursuit of the Turkish army continues. The Indian cavalry are on the heels of the retreating enemy, and are now close to Samara. This is not a town of any importance, except that it is a resort of thousands of pilgrims annually. The town contains a large number of priests of various Mohammedan sects.

THE EMPIRE CABINET.

(Special to The Daily News.)

London, March 20.—The first session of the Empire War Cabinet will be held in Downing Street today. It will be attended by Sir Robert Borden, Premier Morris of Newfoundland, General Smuts of South Africa, and Premier Massey of New Zealand.

SERBIAN FRONT.

Salonica, March 20.—The enemy bombarded Monastir during the night heavily with gas-filled shells. Many women and children were killed.

ILLNESS OF THE RUSSIAN HEIR

(Special to The Daily News.)

Petrograd, March 20.—The Czarvitch, who, it has been decided will succeed his father when abdication is effected, is reported to be very ill and in a very critical condition. Born in 1904, Alexis Nicholaevitch, the Czarvitch, is yet only a child and has always been in rather delicate health. His life has been despaired of many times, but he has always got the better of his previous illnesses. During his minority, his uncle, the Grand Duke Michael Alexandrovitch, the younger and only brother of the Czar, has been nominated as Regent. The Grand Duke Michael has always been opposed to the German influence in the Russian Imperial Family, and gave up his rights to the succession to the throne on the occasion of his morganatic marriage in 1914.

THE WOMEN'S VOTE.

Now that the women of British Columbia have got a vote to cast at election times, political matters ought to be taking up their attention.

Allowing that statement to stand, it will be the duty of the women of this province to alter this state of things once and for all.

We may now look for Women Political Associations, Liberal, Conservative, Socialist and Labor.

With the presence and the activity of women in politics, the public conscience will become more sensitive.

Now having a vote, it will be the duty of every woman to use it.

women. With women active members of the parties, the old idea that politics was no place for decent people, which is expressed so often, particularly in the larger cities, will be no longer heard.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them! Backed by the Belgian Relief Fund so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left. Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter! No people under the Allied Flags are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies! Send your subscriptions weekly, monthly or in one lump sum to Local or Provincial Committees, or to the Central Executive Committee, 50 St. Peter St., Montreal. \$2.50 Feeds A Belgian Family A Month.

ROBBING THE BABIES

According to the Neue Freie Presse of Vienna, the Austrian Minister of Public Instruction has ordered chemists and apothecaries through the empire to abstain from selling any further rubber mounted infants' feeding bottles or babies comforters, owing to the great scarcity of rubber. The municipal and rural authorities will be instructed to employ women and girls to make a house to house visitation in order to see that no such articles are used by children over twelve months' old, and they will be empowered to seize all rubber feeding tubes tests and comforters no longer in use. The hiding away of such rubber articles will entail very heavy penalties.

Internal Bathing's Rapid Growth

It is but natural to expect that a relief from Constipation and the many ills which it causes, which is so effectual and so natural as Internal Bathing, should quickly make many converts.

But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an Internal Bath.

The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.

Mr. F. E. Smith writes:—"Dear Doctor,—Your 'Cascade' made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and today she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past; can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; hot weather does not cause oppression."

The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail by Cyril H. Orme, Druggist, corner 3rd Ave. and 6th Street, Prince Rupert. STARVING TURKEY — SUICIDES DAILY IN CONSTANTINOPLE

Amsterdam.—A gentleman who holds a very responsible position of a commercial and financial character, in one of the largest business houses in Constantinople has just arrived in Holland, says a special correspondent. The picture he gives of the conditions in the Turkish capital is by no means a cheerful one. Constantinople, he said, was a starving city, where very certainly dozens of poor creatures perished every day, and where for a year and a half typhus, cholera, and plague had never been absent as epidemics. Constantinople was physically filthy, and over all hung the terrifying spectre of famine, which also threatened nearly all Turkey in Europe. One was hardly out of doors when one was surrounded, almost assailed, and borne down by an insistent mob of beggars, dirty and half perished with hunger. Every race of the Orient was represented in this army of beggars.

Asked about the condition of the more fortunate classes and what is the feeling about their power to continue to take part in the war, the traveller replied that it needed no gift of prophecy to say that from all appearances and all that a member of the general public could hear the Turks were at the end of their resources. In any case Turkey had certainly mobilized all that she had to mobilize.

My next question was about munitions, to which the traveller replied that Germany sent large quantities, but the Turks were now making much more in their own factories than at the commencement of the war. Work was incessant in the national factories

under German foremen sent from Krupp at Essen. Many new factories had been erected, but the whole Turkish output was not very large. As to finances, all is disorganized into anarchy, national and private affairs being heavily and adversely affected. Food was more often than not dangerous, meat scarce and had, and very dear. Most trying was the scarcity of milk, which for a long time past had been only available, even for infants, in the form of skimmed milk. My informant said so far there had been no open rebellion against the conditions, as this is quite impossible under the rule of the German police, who keep order in the city with iron despotism, but deep rage and discontent are universal, and he was sure the popular wrath was only waiting till the Germans leave the city before it breaks out with the utmost violence.

BRITAIN— CALLS TO CANADA—

THE FACTORY

THE FARM

She must have Food—

for her Armies in the Field—for her Workers in the Factory—in the Munition plant—in the Shipyard—in the Mine.

THERE'S DANGER IN SIGHT—BUT YOU CAN HELP

DO YOU KNOW—

that the rapidly rising price of food stuffs means that the World's reserve supply is getting small?

DO YOU KNOW—

that a world-wide famine can only be averted by increasing this supply?

DO YOU KNOW—

that a "food famine" would be a worse disaster to the Empire and her Allies than reverses in the Field?

YOU CAN—

help thwart Germany's desperate submarine thrust on the high seas.

YOU CAN—

do this by helping to make every bit of land in Canada produce—the very last pound of food stuffs of which it is capable.

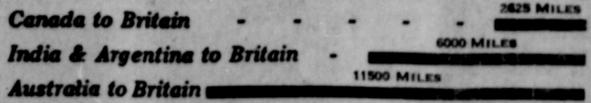

AND REMEMBER—

that no man can say that he has fully done his part—who having land—be it garden patch, or farm, or ranch—fails to make it produce food to its utmost capacity.

BRITAIN APPEALS TO CANADA

THE NEAREST PRODUCER OF STAPLE FOODS

India and Argentina are more than twice the distance away and Australia more than four times.

INFORMATION BUREAU

DOMINION DEPARTMENT OF AGRICULTURE

OTTAWA

"No matter what difficulties may face us, the supreme duty of every man on the land is to use every thought and every energy in the direction of producing more—and still more."

Martin Barrall—Minister of Agriculture.

The Department invites every one desiring information on any subject relative to Farm and Garden, to write—

LAND REGISTRY ACT

(Sections 36 and 134.)

Re Application No. 9144-L, Filing 5819.

TAKE NOTICE that application has been made to register The Corporation of the City of Prince Rupert in the Province of British Columbia, as owner in fee under two Tax Sale Deeds from the Collector of the City of Prince Rupert, bearing date the 7th day of December, 1916, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known and described as North-Westerly Seventy (70), feet of Lots Eleven (11), and Twelve (12), Block Eighteen (18), Section One (1), Map 923.

You are required to contact the claim of the tax purchaser within thirty-five days from the date of the service of this notice (which may be effected by personal service or as directed), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:—"and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served

with notice, . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the abovementioned lands, in the name of The Corporation of the City of Prince Rupert:

AND WHEREAS on investigating the title it appears that prior to the fourteenth day of September, 1916, (the date on which the said lands were sold for overdue taxes), you were a mortgagee thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of the above corporation unless you take and prosecute

the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part. Dated at the Land Registry Office, Prince Rupert, B. C., this 20th day of December, A. D. 1916.

H. F. MACLEOD, District Registrar of Titles. To Frederic Schattner, Esq., care of C. L. Freeman, C. F. B. Bldg. Edmonton, Alberta.
