## RETREAT OF GERMANS IS NOW SLOWING UP

### AT MANY POINTS THE ENEMY FORCES DEVELOP RESISTANCE WITHOUT AVAIL

#### RETREATING GERMAN ARMY NOW RESISTS

At Many Points the Retreat Comes to Standstill—French Pursuit Rapid and Threatens German Line.

(Special to The Daily News.)

London, March 23.—The retrograde movement on the western front is coming to a standstill today. The British and French troops have reached points very near the "Hindenburg line." The fighting between large masses of men may be expected to occur very shortly. It has been learned that a German offensive has been planned for the 5th of April. The greatest interest is manifested in the reports from the French front. The pursuit by General Nivelle's forces has been so rapid as to threaten the piercing of the German line near to the Somme Canal, thus menacing the German positions at La Fere, which are supposed to be bases on the Hindenburg line. To the south and the southeast of Peronne, the French have captured forty additional villages.

#### British Advance.

During the last twenty-four hours the British have advanced ten miles east of the River Somme. Between Nurlu and Arras in a number of places the enemy is beginning to develop considerable resistance. Nevertheless his rear wards are being steadily driven from their positions and our progress continues. A co-ordinated advance is being made in every department of the vast attacking forces.

#### THE EFFECT "KULTUR"

(Special to The Daily News.)

London, March 23.—It became known yesterday that the Germans at Rouey Le Petit collected about two hundred old people and children in addition to the usual population, and then deliberately shelled the village. A great number of the defenceless and innocent people were killed.

#### THE SITUATION UNDER THE NEW RUSSIAN GOVT.

(Special to The Daily News.)

Petrograd, March 23.—Correspondence between the Czarina and former Minister Protopopoff has been discovered proving Protopopoff and others of the former Royalist Government had attempted to conclude a separate peace with Germany. The Grand Duke Nicholas will maintain discipline in the army and has telegraphed to the Premier to restore complete order among the populace.

London, March 23.—Messages received via Berlin state that great confusion exists in Russia. An archist agitation against the continuance of the war is growing. They state that the working men have refused to respond to appeals to resume work. It is thus indicated that the Provisional Government is far from being in control of the situation. Not too much credence is to be placed in messages received from Germany. Until corroboration is received from other sources, judgment is suspended as to the truth of these statements.

An official advice from Petrograd states that all members of the former Russian dynasty have placed themselves in the hands of the new Government.

#### DIRECT OUTCOME OF EVENTS IN RUSSIA

London, March 21.—Chancellor von Bethmann-Hollweg's speech before the Prussian Diet, promising liberal concessions, over which the German press waxes enthusiastic, is regarded in this country as a direct outcome of the Russian revolution.

"If the Russian people," says the Manchester Guardian, "win and establish their liberty upon an impregnable basis, then they will have given a new aspect to civilization. Already the first workings of the revolution are visible in the speech of the German Chancellor, in which he promises an internal political reorganization to Germany and a less illiberal franchise to Prussia." "Already an anxious question faces Germany, the Germany of the junkers. How can they hope to stand and face the German people, who are shedding their blood and their treasure for reaction against liberty? The revolution in Russia is the deadliest blow to the war morale of Germany yet struck. Britain hails new Russia with higher hope and surer confidence in the future, not only of the war, but of the world."

#### HAL PECK STAYS WITH SHIP

Mr. Hal Peck, of this city, happened to be one of the passengers on board the Prince Rupert last night. Mr. Peck is agent for Lloyds, the marine insurance people, and he is remaining on board the stranded vessel meantime, representing the underwriters. Mr. Peck arranged for his tug, the McCullough, to bring out a scow, in case there was any further danger, so that the mail at least could be saved. The McCullough carried the passengers to Inverness this morning, whence they were brought into Rupert by a special train.

The passengers suffered very little discomfort, and all the experiences of shipwreck were enjoyed, under the most favorable conditions for them.

The Ladies Auxiliary of the St. Andrew's Society will hold an informal dance on April 2nd, in the Railwayman's Hall. Westholme orchestra, and refreshments. Admission 50c. Surplus for the Patriotic Fund. 62-6-9-72-5

LATE COUNT ZEPPELIN AND HIS INVENTION

Count Zeppelin is reported to have died of pneumonia and grief over the failure of his invention to bring victory to the Fatherland.

#### S. S. PRINCE RUPERT NOW HIGH AND DRY

Leaving here last night in a blinding snowstorm, the "Prince Rupert" smelt her way out of the harbor, and all went well until about fourteen miles out, she took to the ground. She was still fast this morning. The passengers were in no danger and were landed on the G. T. P. track by tug boats sent out from Prince Rupert. A special train was sent out to bring them in to town, which arrived this morning after eleven o'clock. The accident happened just about the top of high water, on Genn Island, one of the numerous small islands which stud this coast. The damage to the steamer has not been fully ascertained, and full particulars have not yet been received. That there has been no loss of life will be quite satisfactory information to the community.

Later. The last advices received regarding the stranded Prince Rupert are to the effect that the ship is in a rather bad position. At low water she is said to be high and dry, and her situation is such that makes it very difficult for the scows to be brought alongside. The damage appears to be extensive. The highest tide for the next half year will flow early tomorrow at 2.04 a. m., when it will attain a height of 23.1 feet. Everything possible will be done to effect temporary repairs to enable the ship to be brought off on this tide, as the difficulties will increase as the tides get lower.

#### FRENCH FRONT

(Special to The Daily News.)

Paris, March 23.—Despite the vigorous defence by the Germans, the French forces have occupied several more villages to the north of Soissons in their forward sweep. The Germans were thrown out of several important positions north of Tergnier. North of Berry au Bac the German trenches were raided and many prisoners taken. In the Argonne several German raids on the French trenches were repulsed with great losses to the enemy.

#### LARGE AREA CAPTURED

(Special to The Daily News.)

French official—The total territory re-occupied by the Allies in France up to the 21st March is 853 square miles. Spirited fighting is going on all along the French front but no further evacuations are mentioned.

Owing to the bad weather, The Table Supply has extended its Dollar Day Sale to include Saturday, March 24. Don't miss this opportunity. 20 big bargains, and every one a leader.

#### NEGRO RAN AMUCK IN THE CITY LAST NIGHT

The police station had three calls last evening from different ladies that a negro was attempting to break into their houses. Constable Bailey immediately set out to the threatened quarter, but failed to locate the man, as he had gone away in another direction. At 11:35 p. m. another call came. Constable Bailey took a car this time and made for the house on Thomson Street whence had come the call. He then saw the man heading up Sixth Avenue. He chased the suspect with the auto and eventually got him near Chief Gammon's house. Constable Bailey immediately searched him for a gun, whereupon the negro showed fight. The negro was crazed with drugs of some kind, possibly opium, and fought with great dexterity.

Chief Gammon heard the noise and immediately came to the assistance of Constable Bailey, but the negro managed to break loose and headed down Sixth Avenue towards McBride Street. On a piece of vacant ground there, a large number of piles are stored and here the negro took refuge. The nigger was in the woodpile all right. The two police officers went after him, and then he pulled a knife. The weather was snowy and the piles were very slippery, and in the scramble all three fell, and when the police officers extricated themselves their man had disappeared.

However, at three o'clock this morning advices were received as to his whereabouts, and Constables Adams and Bailey went down and arrested him in the Houston Rooms on Second Ave. By this time the crazing effect of the dope had worn off and no difficulty was experienced in taking him in charge.

There have been several complaints recently regarding prowling negroes around private dwellings in the city and it is to be hoped that such an example will be made of this case as will deter any possible future offenders in this respect.

There have been several complaints recently regarding prowling negroes around private dwellings in the city and it is to be hoped that such an example will be made of this case as will deter any possible future offenders in this respect.

#### RIPE FOR REVOLUTION

(Special to The Daily News.)

Washington, March 23.—According to a speech by the Socialist member Hoffman in the Reichstag, thirty thousand cases of smallpox rage in Germany at the present moment and the contagion is spreading. Hoffman made a very strong speech in which he charged the rich with getting fatter while the poor got none. He accused the Government of actually hoarding sausage, while the poor were actually dying from hunger. That such a speech was permitted to be made strengthens the belief that conditions are ripe for real revolution in Germany.

#### THE FIGHT

The fight between the lightweights, Freddy Welch and Bennie Leonard, of Philadelphia, which was booked to take place last night, did not come off after all. All the pugs in Rupert were gathered together last night notwithstanding the weather, to learn the result, and were disappointed when none came through. A flash this morning states that the fight is off, but gives no reason.

#### HALIBUT ARRIVALS

The severe weather is having its effects on the fishing boats. The Eagle was the only one to arrive yesterday. She had 22,000 pounds and sold to the Booth Fisheries for 9% cents. There are no fishing boats in today up to noon.

#### GERMANY ASKS MEDIATION OF NEUTRAL STATE

Does Not Want Hostilities With United States—Request unheeded Till End of Ruthlessness.

(Special to The Daily News.)

Washington, March 23.—It is stated that a neutral nation in Europe will offer to mediate to prevent hostilities between the United States and Germany. It is not doubted that this neutral nation is egged on by Germany. No heed will be paid to such an attempt unless Germany stops her submarine campaign of ruthlessness.

London, March 23.—A declaration of war by Germany against the United States within the next few days would not surprise the British officials.

#### SOL'S AUTOMOBILE JUMPS THE TRACK

On Hays Cove Circle is to be seen an automobile with its nose buried in the muskeg and its rear wheels on the level of the street. It is Sol Mussallem's car, it is said. The refractory car slid gracefully over the edge without doing anyone any hurt. Sol's car took to the muskeg for the same reason that the Prince Rupert took to the rocks, and the snow is blamed in both cases.

#### RAID RELIEF STORES

(Special to The Daily News.)

Paris, March 23.—In their retreat, the Germans besides laying waste the countryside and looting everything, have sacked even the supply houses of the American Relief Commission. The French inhabitants, mostly women and children, are utterly without food.

#### THE WESTHOLME THEATRE

A photoplay based on D'Enery's "The Two Orphans," that famous book, will be shown at the Westholme Theatre tonight. The most massive and elaborate sets that ever lent truth and color to a photoplay were used in the production of this famous play.

The scene of the streets of Paris, showing the arrival of the Normandy coach bearing the "Two Orphans" alone cost \$5,000 and the whole play cost \$200,000 before it was completed. The great care taken in the production of this play has resulted in some marvellous scenes unequalled heretofore in the history of motion picture making. The artists are well known to be in the front line, and this will be something worth seeing.

**AN ACT OF WAR**

A German newspaper says that the departure of an American merchantman for an Entente port with armament and gunners aboard will be an act of war. The paper is not far out. The arming of American merchantmen means war no matter what felicitous phrase President Wilson may apply to it. If a German submarine should appear in the vicinity of one of those vessels it will be fired upon; its presence there will be evidence of hostile intent in view of the German proclamation of unrestricted submarine warfare. There may be, indeed, a number of skirmishes on the sea between Hun underwater craft and American armed merchantmen. The President might describe these as little sparks flying from the friction of German frightfulness with armed neutrality, but Germany will call them by another name and will act accordingly.

New York and other Atlantic cities are not a little apprehensive of a bombardment by German submarines. There is no doubt that if the Teutons really desire to throw a few shells into those places they could do so in spite of the batteries of heavy guns established along the coast. But it is questionable if they will wish to. There is too much at stake. German junkerdom, including the Kaiser, has heavy investments in the United States, especially in New York, and will not care to take untoward chances with them by unduly inflaming the wrath of the American people. They might sink ships and conspire via Mexico against Arizona and Texas without risk in this respect, but a bombardment of New York would be an entirely different kind of provocation.

**NOTES AND COMMENTS**

The Hohenzollerns are hard put to it these days in keeping the German mind in safe channels. The failure of the submarine campaign, the German retirement on the west front, the British victories in Mesopotamia and now the Russian revolution, must be avoided. The only distraction they can think of is an aerial at-

tack over Kent, very small comfort indeed. Why not send out the High Seas Fleet?

The contrast between German and English blockade methods could have had no more striking illustration. It is well to bear in mind that the ships sunk by Germany are always unarmed merchantmen. The Kaiser's submarines keep clear of the British navy and avoid armed vessels. They are not seeking combat, but ruthless destruction. It has been said in fancied extenuation of these attacks that the use of the undersea boat is a new mode of warfare. The instrument is new, but the kind of warfare in which the Germans use it is precisely that employed by savages since the dawn of history.

Another spike in the wooden statue of Hindenburg. He said the Germans could hold their lines in France for thirty years if necessary and that they would hold them until the Allies came to terms. But the lines are not being held. The war map upon which terms of peace were to be dictated is being changed.

British Columbia's London house, constructed upon specifications in accordance with the importance of the person destined for its occupation, promises to be as expensive to the taxpayers of the province as the white elephant bequeathed by an Oriental potentate to the individual whose income was very limited indeed.

**COL. CODY'S SON KILLED**

Word comes from the war zone that Lieut. Frank Cody of the Royal Flying Corps, youngest son of the late Col. W. F. Cody (Buffalo Bill), was killed January 23. He chased a Teutonic airplane over the lines, when four German planes rose to give battle. The boy held his own for twenty minutes against the five, when he was seen falling rapidly.

The commander dropped an inquiry into the German lines and they recently replied, stating Cody was killed in action.

Young Cody leaves a wife and two baby boys. He was but 21 years old. He formerly gave Wild West shows in London along the lines of his illustrious father, and recently turned his attention to aviation.

**FORESTERS' WORK IS HIGHLY PRAISED**

London, March 21.—It has been announced in the House of Commons that the number of men enrolled in Canadian Forestry Corps units now working on timber cutting here is 2,862.

Sixteen Canadian mills, according to the Under-Secretary, who announced the figures in Parliament, have produced two and one-quarter million cubic feet of timber for the British government.

"I should like," added the Under-Secretary, "to express on behalf of the government our appreciation of the service rendered by the Canadian Forestry Corps to the Mother Country."

# FELT LIKE A NEW PERSON

## After Taking Only One Box Of "Fruit-a-tives"

EAST SHIP HARBOUR, N. S.  
"It is with great pleasure that I write to tell you of the wonderful benefits I have received from taking 'Fruit-a-tives'. For years, I was a dreadful sufferer from Constipation and Headaches, and I was miserable in every way. Nothing in the way of medicines seemed to help me. Then I finally tried 'Fruit-a-tives' and the effect was splendid. After taking one box, I feel like a new person, to have relief from those sickening Headaches."

# Internal Bathing's Rapid Growth

It is but natural to expect that a relief from Constipation and the many ills which it causes, which is so effectual and so natural as Internal Bathing, should quickly make many converts.

But its general use has increased so tremendously in the past few years as to surpass other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an Internal Bath.

The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, content and eager for the day's duties.

Mr. F. E. Smith writes:—  
"Dear Doctor,—Your 'Cascade' made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and today she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past; can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; hot weather does not cause oppression."

The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail by Cyril H. Goss, Druggist, corner 3rd Ave. and 6th Street Prince Rupert. Ask for free booklet, "Why Man of Today Is Only 50 Per Cent Efficient." If you prefer, write to Dr. Cas. A. Tyrrell, 163 College Street, Toronto, for same.

# LORD SHAUGHNESSY SAYS, "GET OUT OF RUTS"

In discussing the making arrangements for the returning soldiers, Lord Shaughnessy makes some very pertinent remarks. The seizing of the opportunity for Canada in the return of the soldiers will be the test of the quality of Canadian statesmanship, he says. Canada has always wanted men to develop the country. Here they will be, ready to our hand. Immigration is desirable, but uncertain. These men of ours will come home as a matter of course. Lord Shaughnessy takes it for granted that the present system of getting ex-soldiers employment will be greatly improved and developed, but even if the system is so improved that every man returning after the war gets some sort of a job, it does not follow that we have any great cause to boast. We shall have achieved a negative success. We must aim at something higher, a more positive success. There is too much haphazard employment at the best of times and with a flood of men coming back there will be a greatly increased danger of shoving them into places without regard to suitability. Putting round pegs into square holes does not pay. We must devise schemes of employment which will use a high percentage of each man's capacity. The man can make most by work that he is interested in and has skill for.

We want to get out of ruts. We do our thinking in ruts and this keeps us acting in ruts. Take agriculture for instance. People have got a habit of thinking and saying that intensive farming is not suitable to Canadians, and accordingly it is not developed. But Canadians pride themselves on their adaptability and many of them might transfer their energies from extensive to intensive farming with great advantage to themselves and to the country. This is a line of industry which partly disabled soldiers, with sufficient training could carry on both easily and profitably. It involves thorough co-operation of course. But co-operation or government organization of buying and selling—in other words, national co-operation—may be applied in the near future to the agricultural industry in general. At a critical time like this, with tremendous problems to solve, we must be bold without rashness, and not flatter our timidity with the name of caution. If we stay in the rut then the less we talk about the national intelligence and enterprise, the better.

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st SEPTEMBER, 1917.  
THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above-named Bonds for Subscription at 96, payable as follows:—

10 per cent on application;
30 " 16th April, 1917;
30 " 15th May, 1917;
26 " 15th June, 1917.

The total allotment of bonds of this issue will be limited to one hundred and fifty million dollars, exclusive of the amount (if any) paid for by the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of April, 1917, or on any instalment due date thereafter, under discount at the rate of four per cent annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the April instalment.

Scrip certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary or Victoria, or at the Agency of the Bank of Montreal, New York City.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons, at the option of the holder, will be payable free of exchange at any branch in Canada of any chartered bank, or at the Agency of the Bank of Montreal, New York City.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognized bond and stock brokers having offices and carrying on business in Canada will be allowed a commission of three-eighths of one per cent on allotments made in respect of applications bearing their stamp, provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915, or in respect of the amount of any allotment paid for by surrender of five per cent debenture stock maturing 1st October, 1919. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

SUBSCRIPTION LISTS WILL CLOSE ON OR BEFORE THE 23rd OF MARCH, 1917.

**HINDENBURG MAY TRY RUSSIA AGAIN**

(Continued From Page One.)

man Russian party were turned topsy-turvy. Since then the Entente has been working to obtain control of the Duma. The revolution which has just ended decides the biggest question of the war so far as Russia is concerned. It rivets the Russian flag to the Entente mast. It destroys the German hope of separate peace and challenges von Hindenburg to make good his promise of a "defeated Russia," for one of the reasons why von Hindenburg succeeded Falkenhayn as chief of the Central Powers' General Staff was that he promised final victory against Russia.

**Hindenburg's Scheme.**

His policy, it is believed in Berlin, is to hold the Allies on the western front, as he did on the Somme and Ancre last year, and to launch as great an offensive as possible against the forces of Russia. Von Hindenburg has been waiting for the revolution. He may imagine the Russian forces demoralized by internal affairs and at last the time "ripe" for a dashing, ruthless German advance. But it appears that the Allies have anticipated Germany's plans and have won the revolution in Russia. The Duma now will have an opportunity to reorganize Russia's crippled transportation system and put new life into the Russian army. The revolution is the most encouraging sign for the Allies in Russia, but the real crisis is still to come. The acid test will be the power of the Russian people and the new Russian government to withstand a German offensive. The Russian line, which stretches from the Gulf of Riga to the Black Sea, is considered by German military observers to be vulnerable at two points—one on the Sereth river in Roumania, the other in Volhynia, on the Stockhod river, where General Brusiloff made his successful offensive against Austria last fall. Success on the Sereth would give Germany control of the transportation lines to the Stockhod front and open the way for a move on Odessa. This port the Central Powers covet because they believe it would give them control of the Russian Black Sea Fleet.

The revolution has brought about a military crisis, with possibilities for both the Entente and Germany, but the indications are that von Hindenburg will have to make the first move.
