HOSTILITIES BETWEEN U. S. AND GERMANY ARE NOW CONSIDERED INEVITABLE

GERMANS NEAR HINDENBERG BATTLE LINE

Fierce Fighting is in Progress At Numerous Points—German Big Guns Now in Action in Bad Weather.

(Special to The Daily News.)
London, March 24.—The pursuing British and French troops between the Somme and Soissons are now encountering the fire from the big calibre German guns which is taken to show that the Germans have reached the line decided upon by Hindenberg for the stand. Despatches received today tell of fierce fighting at a score of points along the line of the French and British pursuit. The military critics believe that Germany is shaping for a supreme effort to regain supremacy and that great reinforcements have been received. Five hundred battalions are known to be in need of re-creation and with these brought up to full strength, the Germans are prepared to stake all on the one throw. It is said that the German retirement may be explained by the hope of delaying the Allies offensive, while the submarine campaign brings other developments. The Germans are not expected to vacate St. Quentin and Laon without a great struggle.

French Front.
Paris, March 24.—The Germans temporarily gained some ground to the north of St. Simon in the Ham region. The French troops counter attacked and drove them back to Seraucourt Le Grand three miles from St. Simon. The Germans re-acted vigorously on the Somme Aisne front. At some points south of the Somme the Germans have been pressed back beyond their planned positions. From the nature of their counter attacks, it is evident that the enemy is growing nervous.

Between Ailette and Soissons, the French have inflicted a stinging defeat on the Germans, driving them back with heavy losses.

Persian Front.
Petrograd, March 24.—After sixteen hours of desperate fighting, the Russians have dislodged the Turks occupying Aliebad near Keriza, and forced them to retreat.

FIRE IN PRINCE GEORGE

The city hall of Prince George was completely gutted by fire on the morning of the 20th of March. The blaze started at one a. m. The new water works system saved the structure from complete destruction. The books in the safe are intact and other documents were saved, but the latter are water-soaked. The origin of the fire is unknown.

WASHINGTON ADMITS GRAVE SITUATION

Another American Steamer Sunk By German Submarine—At Least Twenty Lives Lost—No Warning.

(Special to The Daily News.)
Washington, March 24.—The Standard Oil tanker "Heulton" has been sunk by a German submarine five miles from Terschelling in Holland. No warning was given the steamer which was within the "safety zone" as laid down by Germany. The survivors have been landed at Ymuiden in Holland. This latest affront to the United States is regarded as making actual hostilities inevitable. A speeding up of preparations for war is in progress. President Wilson and Secretary Lansing are convinced that the course of deliberate insult pursued by Germany is merely hastening the clash of arms.

CLOSED TOWNS MUST GO

That it is the intention of the government to do away with "closed towns," practically owned and operated by large companies, was announced by the Hon. T. D. Pattullo in the provincial parliament this week. "We are glad," said Mr. Pattullo, "that the companies operating these towns are making a success out of the industries in which they are engaged, and, in connection with which these towns are conducted for the housing of their workmen. In taking the action I mention we know what privilege will claim; that we are driving capital out of the country. I do not think any such result will happen and those who say it do not expect it to follow either. This government is determined to invite capital here and to protect it after it has come, but that does not say we will protect privilege; we will protect right, but not privilege. These gentlemen who come in here to operate any industry will have to understand that while nothing will be done to interfere with their rights, the just rights of the public are paramount."

S. S. PRINCE GEORGE TAKES UP THE RUN

Arrangements have been made whereby the S. S. Prince George, which has been overhauled at the drydock within the last few weeks is to leave Prince Rupert for the south tomorrow morning at ten o'clock. The remaining work on the vessel has been expedited and she will be all in readiness for the delayed passengers tomorrow.

THE SITUATION IN NEW RUSSIA

(Special to The Daily News.)

London, March 24.—It is reported here that the ex-Czar Nicholas has been placed under arrest at Tzarhoe Selo. The Imperial family is also confined to the palace. The governments of Great Britain, France and Italy have conveyed their recognition of the new Russian government. Lloyd George speaking here yesterday said that the Russian issue is the epoch marking event of the whole war. It is the greatest victory for democracy for the past hundred years.

RENOUNCE RIGHTS FOR ONE DOLLAR

For the sum of one dollar, the rights which Timothy Foley, Patrick Welech and John W. Stewart acquired by an agreement with the province were handed over to the Pacific Great Eastern Railway Co. At the first glance, this looks rather strange, because this combination of individuals have never been known to give anything too much for a dollar. This and many other facts came out at the enquiry into the P. G. E. matters. Some time after this transaction the railway company's \$25,000,000 share capital was transferred to the three members of the contracting firm, without even the consideration of the single dollar. It seems that all the money that has been put into the enterprise, outside the proceeds of the bonds guaranteed by the province was not over \$40,000—if even that much.

GERMANY'S PRISONERS OF WAR AT THE FRONT

(Special to The Daily News.)

PRINCE GEORGE WANTS TO CONNECT G.T.P. AND C.N.R.

While the immediate completion of the P. G. E. line is hanging in the balance, the city council of Prince George is devoting its attention to get the G. T. P. to connect up with the C. N. R., according to a statement made by Mr. J. A. Turner, city-clerk and treasurer at Prince George, when in the south recently. In many places the G. T. P. and the C. N. R. run side by side and efforts have been made, he said, to induce the G. T. P. to permit of a switch being laid down to connect these two lines, which would thus shorten the distance from Prince George to Vancouver by about 700 miles. The suggestion was made that the switch should be located at or near Rainbow, and the application of the Prince George council has been forwarded to the Board of Railway Commissioners at Winnipeg. The C. N. R. was quite willing to have this done, but the G. T. P. opposed it.

WESTHOLME THEATRE

Edith Goodrich is the star filmed at the Westholme tonight in "The House of Lies." Those who have seen this talented actress previously know that she is a star of the first magnitude. The photoplay itself is one of great interest engrossing the attention of those witnessing the lifelike studies of the characters. There is not a dull moment in the whole evening, and the entertainment all through is first-class. There is a good comedy too. The musical programme is splendid and well worthy of the talent of the orchestra.

S.S. PRINCE RUPERT STILL HIGH AND DRY

The latest word received regarding the G. T. P. steamship Prince Rupert is that she is still fast on the rocks. Some very interesting photographs of the stranded steamer have been taken. She is shown resting easily in a groove in a ridge of rocks quite close to the bush. She is sitting practically upright and to all appearances just as if she were in the drydock. At low water she is high and dry, and one could walk around the vessel.

She has two or three hundred tons of cargo on board, including some ore, and when this has been taken out, and on the arrival of the "Salvor" from the south, active preparations for getting the vessel off will be made. The "Salvor" is reported to be on her way north and is expected to arrive tomorrow some time. The "Salvor" carries a representative from Lloyds, and the report given yesterday that Mr. Hal Peck, local agent for Lloyds, was standing by the ship is incorrect. Mr. Peck happened to be an ordinary passenger on this interrupted trip and returned to town with the others yesterday morning.

Interesting accounts of the ship's striking were given by some of the passengers and all speak highly of the calm and business-like way in which the situation was handled by the ship's company.

BELIEVED WILHELM NOW FEELS NERVOUS

London—Advices received from Berlin via The Hague state that a feeling of despondency is overshadowing Berlin, unrelieved by the latest news reaching Germany from Russia. In well informed circles here it is expected that the effect of the Czar's abdication will be felt most severely by Kaiser Wilhelm and his family, whose fortunes have always been intimately bound up with those of the Romanoffs.

Attention is called by authoritative personages to the connection always held to exist since Bismarck's time between the Prussian and Russian reactionary regiments. Bismarck's dictum that he invented the alliance of three emperors to support the monarchical principle against umsturz (overthrow), meant simply that he knew that the growth of democracy in any one European country directly affected the strength of the Prussian autocracy, which is the basis of the whole German state system.

The Germans have not forgotten how popular uprisings elsewhere affected the so-called March revolution in Berlin in 1848. There is thus good reason to believe that Bethmann-Hollweg's unexpected, and at first unintelligible, challenge to the Prussian junkers on Wednesday was not dictated by a trifling dispute about the payment of the members of the Lower Chamber, but by knowledge of the events then proceeding in Petrograd.

ARCTIC OCEAN CLOSED

(Special to The Daily News.)

Christiania, March 24.—Germany has instituted a blockade of the Arctic ocean between Norway and the Island of Spitzbergen to prevent shipment to and from the Russian port of Archangel. This port is closed by the ice for six months during the winter and is the only port the Russians possess outside of the Baltic and the Black Sea, in Europe.

MINISTER OF LANDS TELLS OF DRYDOCK

Hon. T. D. Pattullo tells in Parliament of the Prince Rupert Plant Being Idle and Doing Nothing.

With the exception of the Premier, the Hon. T. D. Pattullo, minister of lands, is the first member of the executive to have spoken in the House in the debate on the address in reply to the speech from the throne. The minister, among other things dealt with the land question. He showed that the present system, or rather lack of system, which the late government had adopted was one of building trails and roads, and subsequently carrying out a colonization scheme. This policy had resulted in scattered settlement, which had necessitated the building up of a machinery too elaborate, too cumbersome and too expensive for the population the province had. There were roads and trails which were becoming overgrown, schools which had to be closed, and a general lack of "co-ordinated and simultaneous development."

Queen Charlottes.

This was instanced in the Queen Charlotte Islands where the population had dropped from 3,000 to 300. Scores of thousands of dollars had been spent on roads that were never passable and where there would be no settlers for years to come. The same thing was true of the northern interior and the people of the province had to find the interest on a great amount of money from the expenditure of which they got no results. The present government intended to meet this situation in a much more courageous, radical and elastic method, namely, that of community settlement.

Returned Soldiers.

Touching on the matter of the treatment of the returned soldiers the Hon. Mr. Pattullo declared it to be the duty of the national government to take care of all soldiers from the moment of enlistment until they were discharged back into civil life, provided with occupation and provision for their dependents. The government should give all necessary assistance, without any private contributions, which to some extent had the appearance of charity. This might cost money, and that money must be found. "If I were the central government," said Mr. Pattullo, "I would find out every man's capacity to pay and make them all pay. (Cheers). At present there is far greater economic loss than under any system that does not depend upon voluntarism." No soldier or dependent should have to rely upon what was really a charity, rather it should be his right under the state.

The Drydock.

The Hon. Mr. Pattullo called attention to the fact that there was much money being spent in the east in connection with the war and he believed British Columbia was not getting its share. He instanced Prince Rupert with a \$2,500,000 drydock in which ships, submarines and big guns (Continued on Page four.)

THE RETURNED SOLDIER

No provincial government in Canada was ever faced with so many problems, both new and old, as Mr. Brewster is now confronted with. The legacy of debt left by the former administration is in itself enough to discourage any administration. But that is only one of the problems. All demands, however, must yield right of way to the returned soldier. Immediate and honorable provision for every returned soldier is absolutely necessary. Already there are men back from the front looking vainly for employment. The Dominion government which was responsible for sending them overseas must see to it that they do not suffer from neglect now that their patriotic task has been performed. The provincial government also must act swiftly, wisely and generously. In this work the public man who hesitates is lost. It brooks no delay. Any slackness in looking after the returned soldier will bring down swift vengeance on the heads of those responsible. Let the two governments, federal and provincial, discard all red tape and get down to this most important business.

The returned soldier is the man who has enabled the rest of us to live in our country unmolested. He has risked his most cherished possession, his life, for us. We owe everything to him, our lives, our property, and our liberty, and for these we are in his debt. We owe everything to him and owing so much, every endeavor must be made to liquidate the debt. The chief way in which this can be done is in the provision for his future. Never must it be said hereafter that the returned soldier has not the wherewithal to live and to live decently. There is more than a preference coming to him, as regards employment on his return. He should have the choice, not the first choice, but the only choice. The sacrifices and risks he has endured entitle him to it.

He has the right to it and we must give him his right. Otherwise he will take it.

NOTES AND COMMENTS

The committee selected for the investigation into the affairs of the Pacific Great Eastern Railway Company will give general satisfaction. The political representation on the committee is about evenly balanced. Even if this were not the case, the issues are so clear cut and the charges so definite, that it is difficult to imagine that political prejudices will affect the findings to any great extent. Any charge against the McBride-Bowser combination of course has a political aspect, but we doubt whether they any longer dominate the opposition members in the legislature to the extent of influencing them in their findings.

How does this strike you? An American on a Grand Trunk train in Ontario exclaimed to a neighbor: "I don't care how long the war lasts; I'm making more money than ever in my life." Thereupon a lady sitting behind him, who had two sons at the front, arose umbrella in hand and proceeded to whack the fellow's head most vigorously. He ran to the conductor and made his complaint. The conductor investigated; then he stopped the train and put the fellow off, leaving him to walk eleven miles to his destination. The fellow complained to the company and received a reply to the effect that the conductor had done perfectly right and had been marked for promotion.

Mr. Bowser challenges the government to produce its proof of the charges of corruption made against him and his colleagues in the recent campaign. The leader of the Opposition should be patient. The proofs will be forthcoming. Incidentally, what definition does Mr. Bowser give to his action in handing over to his clients, the P.G.E., \$5,700,000 more than the company was entitled to, in defiance of the law he was sworn to administer in the public interest? It has a very clear-cut definition in the Criminal Code of Canada.

Bethmann-Hollweg says there will have to be a political reorganization in Germany at the end of the war. As a rule not much reliance can be placed upon the statements of Huns, but in this instance there is probably a sub-

GILLET'S LYE EATS DIRT

stratum of truth in the Chancellor's announcement. In fact, there may be a revolution in Germany against the Kultur of blood and iron before the war is over. The long silence of the All-Highest is ominous.

field rifles in Canada has been under consideration by the government for some time. Last September the matter was first broached to the British authorities.

The government has now a free hand to go ahead and manufacture a national arm without any profits going into private pockets. Following is a statement by Sir Charles Ross, giving the reasons for the closing:

"The management of the Ross Rifle Company regret to announce that they have closed down their factory for an indefinite period, owing to the cancellation of all existing orders for rifles by the Imperial and Canadian governments.

"The Imperial cancellation reached us a few days ago, and is to take effect on the 31st instant. The cancellation by the Canadian authorities was received only this morning, to take effect immediately, and this without previous warning or representation of any kind.

"In view of this, we were with regret forced to close our doors, although we were capable and willing to continue operations.

HIS MAJESTY KING GEORGE

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unfailing flow of food to England and France must be maintained.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flag are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

ARE BATHS NECESSARY?

This looks like a foolish question in this enlightened age, but there are nearly a million Americans who knew nothing of internal bathing a few years ago and are now eager to testify that they are fully as essential to health as External Baths.

By a purely natural process of property using warm water, the "J. B. L. Cascade" removes ALL the poisonous waste from the Lower Intestine, which physicians agree is the cause of 95 per cent of all human ailments.

It instantly relieves constipation, properly regulates the bowels and prevents all the dragging-down which Bilioussness and Liver Troubles always create.
E. W. Southall, M. D., of Genesee, N. Y., writes:—

"I challenged the doctors in this town last week in regard to what I can do with your 'Cascade'. I can say for a truth that I know the reason for my success with many serious illnesses was due to having the bowels washed out once and sometimes twice a day. I only wish I could make the people in general believe in the efficiency of a good bowel washing. Sincerely yours."

Cyril H. Orme, Druggist, corner 3rd Ave. and 6th street, Prince Rupert has filed a tremendous demand for "J. B. L. Cascade" in the past few years, and will show and explain it to you on request. A free and interesting booklet on Internal Bathing, "Why Man of Today is Only 50 Per Cent Efficient," can also be obtained for the asking. If you prefer, write to Dr. Chas. A. Tyrrell, 163 College street, Toronto, for same.

MINISTER OF LANDS TELLS OF DRYDOCK

could be constructed, standing practically idle for two years. If the people of Vancouver or Victoria were so affected, would such a work to be allowed to lie idle? Hitherto, the voice from Northern British Columbia was as one "crying from the wilderness" and being so far away was perhaps not heard. He charged that eastern contractors were making huge profits out of the money which the government, or in other words the people, borrowed for war purposes. Later on the contractors' profits would be loaned out to the people for development purposes and thus the public would be paying interest twice on the same monies. "The remedy is that we should take a larger share of these profits. I claim that no man in these times has any right to make one dollar of abnormal profit."

Too Much Legislation.

"There are many people who lay undue stress on legislation and not enough on administration. You can have the most perfect legislation on your statute books, but if it is not properly and wisely and prudently administered, you may have poor government," said the minister of lands. "Hundreds of thousands of acres of land have been alienated as agricultural land that should have been retained by the crown for lease as timber land and I can safely say that millions of dollars have been thus lost to the province. The time has come when there shall be no more acquiescence of the public domain by fraud or misrepresentation, or careless and slipshod methods of administration."
