## CAN'T DISLODGE CANADIANS ON VIMY RIDGE

### HUNS MAKE REPEATED COUNTER ATTACKS BY NIGHT & DAY WITHOUT RESULT

#### BRITISH NOW FIVE MILES PAST ARRAS

Heavy Snowfall on Western Front Now Retarding Operations Slightly—Canadians Can Hold Vimy.

(Special to The Daily News.)

London, April 12.—The British offensive against the German positions has driven the Germans back for five miles. The strength of the forward sweep of the advancing British increases with each battering of the enemy's line. Today the village of Monchy and the adjacent heights, full five miles to the east of Arras, which were very strongly held, were captured from the Germans. Along a battle front of fifty miles the great offensive is pushing back the foe. The village of La Bergerie has also been taken by the British. Satisfactory progress is being made at other points on the western front.

Despite repeated counter attacks made by very strong forces of the enemy, the Canadian troops continue to make their hold stronger on the Vimy Ridge each hour. All the efforts of the enemy to dislodge them from their newly captured positions have been fruitless. Repeated counter attacks during night and day have all been repulsed. In the capture of Vimy Ridge, thirty-six hundred prisoners, including seventy-two officers, were taken by the Canadians. Among the other booty were twenty-three guns, seventy machine guns and forty trench mortars.

**Canadian Losses.**  
In the first day's fighting for the possession of Vimy Ridge, the Canadian army lost eighty-nine officers. An unofficial estimate places the Canadian infantry casualties at fifteen hundred.

**More Prisoners.**  
On the other parts of the line directed by General Haig in the forward movement, the British troops captured seven thousand two hundred and ninety-four prisoners, among whom were a hundred and seventy officers.

They captured also eighty-eight guns, eighteen trench mortars and eighty-four machine guns. Up to now the bad weather has made no difference to the strength of the big push, but the heavy snowfall today may interfere with the speed of further offensive movements.

**St. Quentin.**  
General Haig has reported that the situation is developing according to the plans laid down, and the movement is progressing successfully everywhere. A constant hammering of the German line is going on everywhere. All the territory to the northeast of St. Quentin has been swept clear of the German forces. The encircling of the city continues.

#### PLANS TO EXTEND ENORMOUS CREDIT

(Special to The Daily News.)

Washington, April 10.—Plans for financing the war were discussed today by Secretary McAdoo with members of the ways and means committee and with Chairman Simmons of the finance committee. The \$3,400,000,000 already asked for the army and navy is expected to suffice, in addition to the regular appropriation bill, until June, 1918.

The most important question now is the extension of an immense credit to the Entente Allies—probably at least \$2,000,000,000—an indication that the nation is going into the war to the limit with the resources most readily available.

Bonds under such a plan would be issued to take over bonds of the Allies making them in effect security for those obligations.

On the question of taxation, Congress leaders feel that the burden of the war should be about equally divided between taxation and bond issues.

"The young men of the country," said Chairman Simmons, "are going to risk their lives in this war and the wealthy who may not be able to risk their lives should contribute from their wealth."

#### THE EXPLOSION IN FERNIE COAL MINE

(Special to The Daily News.)

Fernie, April 12.—The work of exploration in the No. 3 mine at Coal Creek, where the explosion occurred last week, has now achieved its object. Advance parties during the night located the bodies of five of the victims. It appears that death had been instantaneous. It is expected that the bodies of the other victims will be located soon.

#### AMERICAN AVIATORS

(Special to The Daily News.)

Paris, April 12.—The La Fayette Air Squadron, which is composed almost exclusively of American aviators, will in future be permitted to wear the American army uniform. The Stars and Stripes will be painted upon their machines.

#### THE WAR CONFERENCES

(Special to The Daily News.)

London, April 12.—In all conferences regarding the conduct of the war, such as take place from time to time between the nations of the Entente, the United States will henceforth be included.

#### GENERAL NEWS ITEMS

The Hon. A. J. Balfour, the Foreign Secretary, is about to leave London for Washington.

Rioting is reported in several Bulgarian towns.

Germany has stopped all mail and telegraphic communication with the United States.

Great demonstrations have been made in Brazil, agitating for war with Germany.

The Spanish steamer San Fulgencia has been sunk without warning. The crew were safely landed at Nantes.

The total Norwegian losses of shipping at March 24th was 403 vessels, of a tonnage of 65,357.

#### HALIBUT ARRIVALS

The Eidsvold has arrived with 40,000 lbs. halibut; the Augusta, with 16,000; Brothers, with 9,000; and the Teddy R. with 13,000 lbs. Another vessel has 20,000, while the Nautilus and the Kelly are in port for the Gold Storage. Bidding will probably commence this afternoon.

#### UNITED STATES AND THE ALLIES

(Special to The Daily News.)

Washington, April 12.—The big Revenue Bill is being debated in the House today. The Bill calls for a five billion dollar bond issue and includes a three billion dollar loan to the Entente. The debate started yesterday and the bill is expected to pass the House tomorrow.

#### Feed Our Allies.

"Feeding our Allies" will be the part of the United States in the great war at present. The mobilization of food stuffs and providing means by full naval cooperation for delivering them at the ports of Britain and France will be the extent of America's physical effort now. In the meantime, hundreds of thousands of men will be trained for action on the European fronts. As soon as they are fit and transportation is available, they will take their place with the troops of the other allies in the battlefield.

#### THE POLICE COURT

Before Magistrate Cars at the police court this morning Earl Brown, the negro, was arraigned on a charge of attempting to commit an indictable offence. The accused was committed for trial.

#### NEW OFFENSIVE

As a result of the big drive now proceeding on the western front calls upon the Red Cross Society for the sick and wounded boys at the front will be more urgent.

They are fighting for us. Do Your Share. Patronize the FISH POND SATURDAY

#### PREMIER BORDEN IN EDINBURGH

(Special to The Daily News.)

Edinburgh, April 12.—Premier Borden made a brilliant speech at the University here yesterday. In the course of his speech he said that Germany's evil spirit must lead ultimately to defeat and disaster. The British have done more in their three years of preparation than Germany accomplished in a quarter of a century. The Premier stated that a broader vision was needed in respect to Canada by the people of Britain.

#### EXPERIENCES ON THE WESTERN FRONT

A large crowd listened for an hour last night in the Baptist Church parlors to Sergeant McIntosh relate some of the experiences of a modern soldier. The address was instructive and serious, well balanced with humor of the trenches, making it very interesting from start to finish.

The speaker gave an insight into the soldiers' life from various angles, describing the long months of preparation, the transportation from Canada to Britain, the arrival in France, the baptism of fire, the third battle of Ypres, the life in hospital and the final return to Canada.

Each was illuminated by points of personal experience, adding color to the skeleton of the address.

The large audience listened attentively until the last experience was recited, and upon conclusion, he was greeted with many a handshake in appreciation of his excellent address.

Mrs. Gebhart's dress-making parlors has moved from the Clapp Building to Helgerson Block, Phone 502.

#### EMERSON SAWMILL CONSTRUCTION DELAYED

About a month ago, Mr. E. F. Doby, representing the Emerson Lumber interests, was in the city, and was prepared at that time to go ahead with the construction of the proposed sawmill at Seal Cove. The original plans upon submission to the government were found to be on a technicality incomplete in some little detail, and immediately upon learning this a second set of plans was drawn. These were approved by the government engineer here three weeks ago, and forwarded to Ottawa, for their final approval. Since which time nothing has been heard of them from the government.

Three weeks is a long time to take to give final approval to plans which have been approved already in detail by Mr. E. P. Gingras, the Dominion engineer here.

In the meantime, the work of preparing the ground at Seal Cove for the construction of the sawmill has had to be closed down, much to the disgust of the Emerson people and the contractor who was doing the work.

Telegrams have been sent to Ottawa, and to our alleged "popular" member of the Dominion House, but so far without avail. Yesterday the following telegram was received here:

To M. P. McCaffery, Mayor, Prince Rupert:

Much disappointed at protracted delay Ottawa, can you help us? J. S. EMERSON.

Mr. Emerson is anxious and willing to go on with the construction of this sawmill, but if, after dickering nearly half a year with the Grand Trunk Pacific, to get a satisfactory lease of the ground, he has to wait another half year on the government for permission to erect his buildings, if in his natural disgust at this dilatory manner of doing things, he quits the whole business, who will blame him. Men like Mr. Emerson do not need to come to Prince Rupert to build mills, but Prince Rupert needs them to come.

The experience of Mr. Emerson in this respect would probably be communicated to others who might later want to establish themselves here, and if Prince Rupert gains a reputation for tactics of this kind, she will not gain very much. It is up to those interested in the progress of the city to see that such pressure is brought to bear upon those responsible for such annoying delays as will obviate these for the future.

#### PUBLIC MEETING

Thursday, April 12, 1917, at 8 p.m. In Carpenters Union Hall.

All wage earners are urgently requested to attend this meeting, as a District Union is being formed, affiliated with the International Union of Mine, Mill and Smelter Workers. Since hardly any fact is better known than that civilization evolves under economic stress, and is administered in accordance with the general knowledge of mankind, therefore, organization and education must be the essential groundwork to happiness and progress. We, therefore, deem it necessary to organize the Northern District Union of Prince Rupert, B. C. If you are an unorganized wage worker, come and join us, and be one of the three million in America. If you are a member of organized labor, come and help us launch the new ship.

GEO. CASEY, International Organizer.

#### PRESENTATION TO BISHOP DU VERNET

At the Church of England on Tuesday night there was an enjoyable entertainment, and a very pleasant social time was spent. A large number of people were present and songs were given by Mr. Melliar and Miss Grace Shockley, a recitation by Miss Mabel Vieriek and choruses by the young ladies of the Girl's Auxiliary, under whose auspices the meeting was held. Miss Davies acted as accompanist.

A debate upon the relative merits of the army and navy was splendidly fought, although one of the speakers for the navy was unavoidably absent. The Navy's advocates were Mr. George Hill and Mr. Alexander Rix, and the speakers for the army were Mr. S. M. Newton, Mr. A. Silversides and Mr. Sidney Hazet-Jones. The speaking was of an exceptionally good character and the judges had some difficulty in coming to a decision as to the winners. However, after some deliberation they decided in the favor of the army advocates, but as they had one extra speaker, it is seen that the honors were fairly equally divided.

A very interesting event was an address and presentation to the Right Reverend F. H. Du Vernet, D. D., Bishop of Caledonia. The address itself was beautifully executed by the office of Clement and Black. It drew attention to the fact that although for some time before 1917, the Bishop had ministered to Prince Rupert in the capacity of a clergyman, yet it was just ten years ago that a building was erected and regular church services held. It expressed the great appreciation that his many friends of these early years held for the devoted service he had given to Prince Rupert and indeed to all of northern British Columbia. And wished for him many years still in his chosen work that he might see the church he had established fulfilling adequately its duties in the great territory over which he presides. Mrs. Du Vernet in the fulfillment of the many duties incumbent upon her was made further reference to.

The address which was read by Mr. R. L. McIntosh, was accompanied by a fine club bag with a gold shield and a suitable inscription attached to it, and Mrs. Du Vernet was presented with a beautiful bouquet of flowers. The gift bearers were little Misses Flora Burritt and Alice Pillsbury. The Bishop made a suitable reply on behalf of himself and Mrs. Du Vernet.

Refreshments were served at the close, but the assembly largely divided itself into Navy and Army parties and fought the merits of these two services out until a late hour.

**THE ORE REFINERY**

Dr. Wilson, the eminent geologist, who has been working in conjunction with the Imperial Munitions Board, in his report to that body states that the most suitable location for the reduction and refining of copper, lead, zinc and other ores is one of two places on the Pacific coast. While the names of these locations are not mentioned, it may quite readily be assumed, and properly so, that one of the two is Prince Rupert. On account of its strategic geographic situation, and the fact that within a radius of two hundred miles are vast resources of these minerals, the fact of the suitability of Prince Rupert as the site for the proposed reduction works and refinery cannot be gainsaid.

The successful operation of such mines as those of the Granby Company, Rocher de Boule, at Hazelton, Surf Inlet mine on Princess Royal Island, the Dolly Varden at Alice Arm, and many others now undergoing the process of development, this only needs to be pointed out to prove the contention.

At a meeting of the Board of Trade in the city this week, the following resolutions were endorsed, which fully bear out these remarks:

"In view of the fact that Sir Thomas White, minister of finance, has proposed legislation to refine copper, lead, zinc, and other metals within the Dominion for the benefit of the Empire in times of war, the mining committee of the Prince Rupert Board of Trade desires to place on record the following resolutions passed:

"First: That such legislation meets with the unanimous approval of the Prince Rupert Board of Trade who in showing their appreciation of these important questions, wishes to offer Sir Thomas any possible assistance they may be able to render him.

"Second: That due to its advantageous geographical position, Prince Rupert is rapidly becoming the centre of a hinterland, very rich in minerals. For these reasons, Prince Rupert and vicinity offers excellent sites for any plants that may be proposed by Sir Thomas

for the reduction and refining of copper, lead, zinc—all of which minerals are mined in large quantities within a radius of 200 miles of this city.

"Third: That the mineral wealth of Prince Rupert's hinterland and the favorable economic conditions of the city has been recognized by the Board of Trade for some time past was shown by its action about two years ago when a comprehensive report dealing with the mining situation was forwarded to Col. David Carnegie, of the British War Office or Munitions Board. In this report the author, A. C. Garde, M. E., compiled much valuable data and recommended the erection of suitable reduction and refining works here. Special attention was called to this report because all statements and tonnage of minerals produced, as estimated by the author, has fully been substantiated by actual production since the date of his report, June 3rd, 1915.

"Fourth: That copies of these resolutions be forwarded to Sir Thomas White, minister of finance, the Chairman of the Imperial Munitions Board, and H. S. Clements, M. P., asking that due consideration be given to Garde's report and the special advantages of this locality."

It now remains to be seen what action the government will take in this matter, or whether they will ignore the claims of the northern part of the province. Let us impress upon them the necessity for the "development of the north."

**NOTES AND COMMENTS**

With proper handling and adequate investigation Canada should suffer less than most countries from the inevitable reaction following the war, and should recover most rapidly its lost capital, according to Adam Shortt, Civil Service Commissioner of Ottawa, addressing the Canadian Club at Winnipeg a few days ago.

As estimated by The Financial Post, the April dividends in Canada on common and preferred stocks of the leading industrial, public utility, trust and loan, insurance, and mining companies and banks for the first quarter

of the year will amount to nearly \$16,000,000. This amount being paid to the public, represents an important factor in buying power, and reflects directly upon general business conditions. Were the payments on various bonds, including Government, Provincial and municipal, as well as those of the industrial, public utility, and other groups also estimated, the total would run to several times that indicated.

Germany is stripped for the "last round." She says so herself, and all reports that when the Germans themselves call this the "last round" they mean that they can never again make such an effort as they have made and are making for this coming spring struggle. An indecisive result is for Germany an unsuccessful result; a defeat is destruction. So Reventlow and others paint the situation this spring.

# SCOTLAND IS A "CRADLE OF KULTUR"

"The English," writes a certain Dr. Georg Biedenkapp in the "Muenchener Neute Nachrichten," quoted by "The Times," "are always trying to drive a wedge of dissension between German races and classes. Let us take revenge by making it as widely known as possible how wrong are their claims to fame."

Dr. Biedenkapp's discovery is that when you examine any famous "Englishman" you find that he really comes from Scotland. He proposes for his purpose to search the whole intellectual field, and especially to examine the philosophers and discoverers, and then, he says, the Germans will be finally rid of the painful necessity of acknowledging any debt to the English, whom they are bound "to hate and despise."

Dr. Biedenkapp's first list consists of Byron (on the ground that he was of Scottish origin on his mother's side), David Hume, "to whom even Kant acknowledged a debt of gratitude," Watt, Stephen, Adam Smith, Black, Carlyle, Newton (on the ground that there is much evidence that he was of Scottish origin), Napier, and finally Robert Burns, "whose influence on German literature was considerable."

The achievements of Scotland are indeed such that Herr Biedenkapp gives her a place with Sumbia, Thuringia, and the Hartz Mountains as "a cradle of kultur and a fountain of first-class genius." As for England, he is convinced that when the proper arguments are used there will be very little left of her supposed glories.

# LAND REGISTRY ACT

(Sections 36 and 134.)  
Re Application No. 91,111, Filing 5,814.

TAKE NOTICE that application has been made to register John Bergman, of Prince Rupert, B. C., as owner in fee under a Tax Sale Deed from the Collector of the City of Prince Rupert, bearing date the 10th day of September, 1915, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known as Lot Ten (10), Block Five (5), Section Seven (7), Map 922.

You are required to contest the claim of the tax purchaser within thirty-five days from the date of the service of this notice (which may be effected by Registered Mail or as Directed, and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:— "and in default of a caveat or certificate of his pendens being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the abovementioned lands, in the name of John Bergman:  
AND WHEREAS on investigating the title it appears that prior to the 9th day of September, 1914, (the date on which the said lands were sold for overdue taxes) you were the assessed owner thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of John Bergman unless you take and prosecute the proper proceedings to establish your claim, if any in the said lands, or to prevent such proposed action on my part.

DATED at the Land Registry Office Prince Rupert, B. C., this 6th day of December, A. D. 1916.

# FROM FAR AND NEAR

Mr. F. A. McKenzie, with the British army in the field, has the following article in a recent issue of The London Daily Mail:  
The German prisoner, in his muddy blue-gray uniform, with the fear of death scarce out of his eyes, was wolfishly devouring the regulation meal of "bully" and biscuits.

"Good," he said with a satisfied air when the last crumb had gone, "very good. We don't have food like that on our side."

Ontario is, since 1914, the largest gold producing province in Canada. The production for 1916 was 489,679 fine ounces, valued at \$10,122,563, being 52.8 per cent of the total production for Canada and an increase of 20.4 per cent over the production of 1914.

Women are riveters in the new German ships; they are running railway trains, doing transport work, farming, making munitions, running half a hundred different kinds of war organizations, as well as looking after Germany's complicated system of social policy. There are parts of Germany, more particularly it would appear in the south, where you may go far afield without meeting any sign of a male unless it happens to be a gang of prisoners.

While fishing for spring salmon a day or two ago, one of the Canoe Pass fishermen caught in his net a sturgeon weighing 350 pounds. Several years ago this was not an infrequent occurrence, but lately these fish have become scarce. Though so very large, the meat of the fish is not coarse, but tender and sweet, and the fortunate fisherman found a ready market for his catch.

# WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that George McRae, whose address is Skidegate, B. C., will apply for a licence to take and use 150 cubic feet per minute of water out of Demster Creek, which flows northerly and drains into Allford Bay, about 15 chains from the N. E. corner of T. L. 835. The water will be diverted from the stream at a point about ten chains west from N.W. corner of Lot 4, B. C. Fisheries, and will be used for power purpose upon the land described as adjoining Timber Limit 835 in application to lease.

This notice was posted on the ground on the 15th day of January, 1917. A copy of this notice and an application pursuant thereto and to the Water Act, 1914 will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is February 21st, 1917.

GEORGE McRAE, Applicant.

# Bathe Internally

Over 50,000 People Are Now Doing So.

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be, and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering this country, that great surgeons and specialists have been operating on the Lower Intestine for the most chronic and serious diseases, has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisoned waste makes us bilious, blue, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Cyril H. Orme's, Druggist, Corner 3rd Ave. and 6th St., or ask there for "Why Man of Today is Only 50 per cent Efficient," a booklet of great interest, which is given free on request. If you prefer, write for Booklet to Dr. Chas. A. Tyrrell, 143 College Street, Toronto.

# When a Man Marries

WHEN a man marries he quickly discovers his need of innumerable things he had never thought of before.

And the butcher, the baker and the cabinet maker have a new home to supply.

The new husband and wife must buy things to which they had previously given little thought.

A thousand marriages mean a thousand new homes.

Right here is a fact overlooked by many merchants.

They say, "How could it pay us to keep on repeating the story of our goods or service?"

If they could reach every possible customer with one advertisement—and if people didn't forget—there might be no object in "keeping everlastingly at it."

But because every possible customer does not read every advertisement, you must repeat.

And because these thousands of new homes are every day coming into existence, continuous advertising brings increased results.

Perhaps some people knew your goods or your store five or ten years ago. Since then new generations have come into existence.

The boy of to-day is the man who will sign the cheques to-morrow. To-day your advertisements are of small interest to him. To-morrow he is your customer, if you solicit his trade through advertising.

Every day thousands of people discover for the first time their need of your kind of goods.

Will you be there every day with your bid for their business?

Or will you leave the field to your competitors?

Advertising is the key that opens the door of these new homes to your goods.

Is Advertising on your key-ring?

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 508, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

DELEGATION WAITS ON POLICE COMMISSION

At the meeting of the Police Commission in the mayor's office yesterday afternoon, a delegation from the Ministerial Association presented a petition asking for the abolition of the segregated district. Canon Rix, Rev. J. F. Dimmick and the Rev. W. W. Wright spoke advocating this course of action. Reference was made to the attitude of the attorney-general on this subject, and instructions issued by his department to the provincial police in the unorganized districts. The speakers mentioned certain numbers having come to this city recently since they were driven from the unorganized areas. A letter from the attorney-general's department was produced by the mayor, which affirmed the department's stand and further promised the civic authorities the full benefit of the department's support in seeking to abolish the evil.

The commissioners listened sympathetically, asking questions and interjecting remarks into the discussion. The Rev. J. F. Dimmick brought a message from Dr. Grant regretting his absence on another engagement, giving assurance of his desire to be present and urged action.

The commissioners promised earliest consideration and the delegation withdrew.

HOSPITAL FOR THE RETURNED SOLDIERS

Re letter, Mr. Editor, from Vancouver Hospital, read at the council meeting in connection with assistance for new hospital for returned wounded soldiers.

We have on Digby Island one of the most up-to-date small hospitals in the country called for some reason a marine hospital, with a doctor's residence quite near some. Neither of these buildings are in use except by the caretaker who has laid out and fixed up the grounds in excellent shape.

In summer this is a charming spot and the hospital is equipped and furnished in nice shape and I believe our own men convalescing would prefer living near home. The residence could be used for doctors and nurses. Why not put all this expenditure to some practical use and assist our men to regain their health around the shores of Digby Island in place of in Vancouver's heat and city surroundings.

Yours truly, GEO. MORROW.

2,000,000 Belgians Depend on us for Bread! Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them! Backed by the Belgian Relief Fund so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left. Unless we see willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter! No people under the Allied flag are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—in the sake of our own self-respect—let us give all we can to help our martyred Allies!
