ANOTHER MILE OF GERMAN TRENCHES IS TAKEN—GOOD PROGRESS BEING MADE

BRITISH ADVANCE CONTINUES IN MOST WINTRY WEATHER

ON ARRAS AND CAMBRAI HIGH ROAD DESPERATE AND BITTER FIGHTING OCCURS—BRITISH DRIVE WEDGES INTO THE GERMAN DEFENCES—WEATHER IS VERY STORMY

(Special to The Daily News.)

London, April 13.—Stumbling forward over slippery hummocks or wading through sticky mud-holes in the most wintry and stormy weather, France has ever known at this time of the year, the British nevertheless continue to throw their full weight against the German line today. The most desperate of all the bitter fighting which has marked the great "push" is apparently centering on the north and south of the Arras and Cambrai Highroad, which runs as nearly straight as a road can, between these two places. At Monchy le Preux on the north of the road, and at Bullecourt, which is about four miles to the south of the highway, the British have driven two wedges into the lines of the enemy, which are proving very formidable to the Germans.

The Greatest Battle.

General Maurice predicts that the present movement will develop into the greatest battle of the whole war. Germany has her reserves about ready to hurl with her full forces against the Allied line in the west, in a last endeavor to stem the advance.

French Front.

Paris, April 13.—In an attack last night on a new front below St. Quentin, between Coucy and Quincy Basse, the French drove back the Germans to the southwestern edge of the Upper Coucy Forests.

PEACE MOVES

(Special to The Daily News.)

London, April 13.—Reports received from a Swiss source state that the Bulgarian minister at Berne has made overtures to the Entente ministers with a view of effecting a separate peace.

Rome, April 13.—Austria is pressing the Pope to move for peace among the European belligerents, according to authentic reports in Vatican circles today. It is said that the Pope has refused to proceed now "for diplomatic reasons."

SUBMARINES ON THE PACIFIC COAST

(Special to The Daily News.)

San Francisco, April 13.—Radio flashes U boat warning. German submarine menace appears to have shifted to the Pacific. Wireless messages sent out by the navy department are heeded by ships.

THE SUBMARINE BLOCKADE

(Special to The Daily News.)

Washington, April 13.—A colossal campaign to break down the German submarine blockade and to keep the entente plentifully supplied with food, clothing and munitions has been determined upon by President Wilson as the first physical stroke against the enemy of the United States. To smash Germany's U boat blockade the United States will virtually bridge the Atlantic.

GENERAL NEWS ITEMS

(Special to The Daily News.)

American Ambassador Penfield has left Austria for Paris.

Twenty German consuls and their families have left Shanghai on a Dutch steamer and will proceed via San Francisco to Germany.

Brazil's status is as yet unfixed. An immediate declaration of war may not be issued. German residents have been attacked and serious outbreaks have been recorded in which a number of citizens have been killed.

ST. ANDREW'S SOCIETY BOYS AT THE FRONT

In a letter recently received from "Jimmy" Kelly who has been doing his bit in France for the last year, he tells of a regular St. Andrew's Society gathering early in March. Several different regiments were represented at the gathering. Malcolm Lamb was there and Alex. Gray, Jack Kelly, Charlie Dennis, George Abbott, George Sillars, Bob Robertson and Jimmy Gray. They had a great night together and of course the "old home town" entered largely into the conversation. Jack Dowling was one of the honored guests. The boys are all doing well.

RED CROSS WORK AT PORT ESSINGTON

The Women's Patriotic Guild of Port Essington last week sent 110 pairs of hand-knitted socks, 20 pyjama suits, and 3 water-bottle covers to the Red Cross Society at Montreal. Several of the members, viz., Mrs. Hunt, Mrs. Noble, Miss Noble, and Mrs. Crane have received letters from soldiers, Canadian, French, Italian and Australian telling how much they appreciate the gifts of socks distributed through the Red Cross Society.

PEACE MOVES BEING MADE BY GERMANY

(Special to The Daily News.)

Copenhagen, April 13.—Apparently positive reports have been received here today to the effect that the German Foreign Office is making overtures to the United States. It is understood that the negotiations are for the purpose of seeking peace between the two nations. No further details are available. The suggestion is made that Colonel House be sent to a secret conference.

AGRICULTURAL SOCIETY

A meeting of the directors of the Agricultural Association was held last night. It was arranged to hold a canvass of the city at an early date for the purpose of securing funds to carry on the Fair, usually held in the month of September.

PRINCE RUPERT IS THE CENTRE OF NEW UNION

In the Carpenters' Hall last night was held the first organization meeting of the Prince Rupert Mine, Mill and Smeltermen's Union. There was a good attendance of prospective members and the enthusiasm ran high. The International Union with which the Prince Rupert union will be affiliated, is a very strong one.

The jurisdiction of the Prince Rupert Union will be designated as over all men in the mining industry in and around Prince Rupert that are not at this time claimed by any other local of the International. Its operations will extend from Telkwa to the coast, embracing Alice Arm, Granby and Surf Inlet, Prince Rupert being the centre.

The area over which the union will have jurisdiction is to be divided into wards, in each of which the work of the organization will be conducted.

A convention of the district workers will be held some time next week, when on receipt of the charter from the International Union, officers will be elected and the new union will be constitutionally formed.

FOOD RESTRICTIONS IN GERMANY ALARM PEOPLE

(Special to The Daily News.)

London, April 13.—Premier Lloyd George, speaking at the American Luncheon Club, can see a real peace coming. He says it was a bad day for Prussianism when Germany challenged the great republic. The United States is engaged in the greatest struggle for liberty ever embarked upon. By entering into the war, the United States will have a right to sit at the table when peace is discussed.

Already famine stalks through-out the German Empire and the impending further food restrictions are viewed with alarm by the people. Day by day the tension is becoming greater and by the famished hordes of the common people the bearable limits have already been reached and in the struggle for sustenance, the war is forgotten.

NOTES FROM ANYOX

Anyox Athletic Association.
A booster meeting of the Anyox Athletic Association last evening (Tuesday) brought out the nucleus of a future membership which will be a credit to the town. Committees were appointed to arrange for a booster smoker, baseball teams, football teams and water sports. The entire association was made a committee on membership and the secretary instructed to issue 500 membership cards for immediate distribution. The retiring vice-president, C. E. Allen, manager of the "Cubs" basketball team, was presented with a watchfob by the Cubs, and a life membership card by the association. Mr. Allen showed a heretofore unknown ability in rhetoric and in thanking the boys for their fraternalism also emphasized the necessity of team work in the organization as well as in the sports. The return match between the Cubs and Giants, the final basketball game of the season, was set for Thursday, April 12, in Recreation Hall. The gate will be divided with the Women's Auxiliary of the Anyox War Relief Fund.

Easter Ball.

As a final offering, after a year of pleasant surprises in the way of entertainment, the Danza Club excelled themselves in the management of their Easter Ball. Hand-painted decorations, flowers and draperies made Recreation Hall a bower of beauty, more effective because of the softened lighting from a scheme of oriental boudoir hangings. The Anyox ladies are well known as devotees of the mode but the Easter ball proved to be the setting for a display of feminine elegance that surpassed the most sanguine expectations of any who viewed the sight. Moore's Music, as usual, contributed largely to the success of the evening by their masterly interpretation of the popular dancing numbers. Lunch was served a la cabaret and a satisfied assembly maintained an undiminished enthusiasm until daylight announced its own approach.

NEW HONORS EARNED BY THE CANADIANS

In Impetuous Charge Canadian Troops Capture Another Mile of German Line Near Vimy

(Special to The Daily News.)

London, April 13.—The Canadian troops have earned new honors today. They stormed an entrance into the German lines on a mile front to the south of Vimy Ridge. Dashing forward impetuously they took nearly a mile of German trenches running south from the German commandant's house near the Farbus wood. The attack was made in fine style, notwithstanding the plowed up nature of the ground, and the Canadians were in the German trenches almost before the Germans knew they were coming. All day yesterday the Germans shelled the Vimy Ridge vigorously, but notwithstanding the damage done, the Canadians were enabled to consolidate their new positions. Further progress is being made.

On the Scarpe River.

Further progress is being made on the Scarpe River in very wet and stormy weather. The Headquarters report shows that eleven more German guns have been captured between Croisilles and Roeux.

THE BOARD OF TRADE

At the monthly meeting of the Board of Trade held this week it was announced by Mr. F. G. Dawson that when in the south he had met certain of the officials of the G. T. P. and they had made certain representations to him that if the Board of Trade would withhold its action for three months in regard to making shipments over other lines than the G. T. P. the company would make some satisfactory arrangement to bring about the desires of the Board. This referred to the establishing of the steamship headquarters in the city of Prince Rupert.

CAPTAIN LEW KERGIN IS NOW IN TORONTO

A telegram has been received this morning by Dr. W. T. Kergin from Captain Lew Kergin stating that he has arrived safely in Toronto. Dr. "Lew" is across on leave and is with his wife and family in Toronto, where they have been staying for some time. He will sign up again on the expiration of his leave, with the R. A. M. C. and will be going back to the front.

CLAIMS MILLION FOR LOSS BY JITHERS

Winnipeg, April 12.—The Winnipeg Electric Railway has served notice, says the Winnipeg Telegram, on the city of a claim for damages amounting to one million dollars for loss sustained by the company due to competition by jitneys, which are alleged to have been tolerated and fostered by the city.

THE WAR'S AFTERMATH

That great changes in our everyday affairs are bound to result as the outcome of the war, is admitted on every hand. Just what such changes and alterations may be are not so clear nor very definitely stated by many of our statesmen. That change and improvement of many pre-war conditions is necessary and urgent cannot be gainsaid. It may be predicted with certainty that the returned soldier will in no wise be content to accept such conditions again on his return. The returned soldier too will be a power in the land.

From what direction progressive action will come first remains to be seen. But it is interesting to note the change of view brought about in some of the rank old stories in Great Britain. Here is Lord Milner, "Damn the Consequences" Milner, previously regarded as a Tory of the old school, now a strong advocate of state socialism. With him are associated others of the old Conservatives, whose opinions were supposed to be of the kind that "changeth not."

These have given expression to their change of opinion, and it is impossible to know just yet how far these principles have permeated through the mentality of the remainder of the old governing class in Britain.

The Empire Resources Development Committee has been formed. Its name is self explanatory. Its object is the development of the potential wealth of the Empire for the state. It has been realized that big businesses are becoming bigger, until in some trades virtual monopolies exist. That such monopolies ought to belong to the people is advocated. Big business means cheap production and the consumers, it is considered, should get all the benefit.

The plan of the committee includes provision for the adequate development of water supplies, railways, harbors, grain elevators, and factories for the handling of agricultural produce in order to utilize state-owned land for the purpose of meeting state liabilities.

Men who have proved themselves to be "captains of in-

dustry" would be chosen for the development of the countries potential wealth, which would be exploited for the benefit of the people.

Speaking two days ago in London on this subject, Lord Milner emphasized the necessity for state development of the Empire's resources on a large scale, by which the prices of commodities would be controlled for the benefit of the people, even in peace times.

It will be very interesting to witness the development of schemes hitherto regarded as Utopian.

NOTES AND COMMENTS

Press correspondents at the front report fires and explosions in St. Quentin and that the city has become the scene of that most congenial recreation of the Prussian soldier—looting. This indicates that in the opinion of the Hun command the Allies have drawn too near the chief centre of their present abode to be comfortable.

A German newspaper, after giving the matter its most serious consideration, has decided that the damage the Boche has suffered during the war can be repaired by an annual contribution from the Allies of between £250,000,000 and £300,000,000. We are astonished at the moderation of this demand. The contribution might have been made perpetual, whereas it is only to be for a term of years, on account of the enemies of Germany being practically in a state of bankruptcy. In the meantime, no doubt, the doomed Allies also will give the matter their most serious consideration.

Speaking of aerial warfare, information received from England is to the effect that a remarkable increase in the offensive power of this military branch may be expected during the coming summer. In the early stages of the war it was regarded as quite a feat when a dozen or so airplanes engaged on a bombing expedition. Then the number which set out on such adventures rose to thirty and forty and sometimes higher, but, up to date, as far as we know, nothing on a grand scale has been attempted. Next summer, however, when the ideal flying weather sets in, airplanes will be

flying in their hundreds on missions of destruction. A great aerial offensive is being planned and it will be directed against some of Germany's vital points. That is one of the methods of preparation upon which Britain has been engaged as part and parcel, in the time to come, of the offensive which has already been so successfully commenced.

The sale of home cooking will be held on Saturday this week instead of Friday at the request of Miss Ivy Jenns, who will be in charge, assisted by the Misses Du Vernet, Pillsbury, Young, Saunders and Beckwith. This committee has been working very hard for the last six weeks and the public will find many bargains. The sale will be held in Road Superintendent's office at the corner of Third Avenue and Fourth St., beginning at ten o'clock in the morning.

EMPIRE FISHERIES

MAY PAY FOR WAR

A plan to make the fishing resources of Hudson Bay, the whale oil of the South Seas and the jute trade of India, help pay off the huge debt with which the British Empire will find itself burdened at the close of the war has been launched in London through the formation of the Empire Resources Development Committee, with Sir Starr Jameson, the organizer of the Jameson raid, as chairman.

The plan is to put the work in the hands of captains of industry, whose business would be the development of potential wealth. The state would back the enterprise, would enlist the work of experts, who would seek out the most valuable resources of the Empire and exploit them for the benefit of the people.

Use for the state, after the war, of the fishing fleet now engaged in mine-sweeping is one of the novel suggestions of Alfred Bigland, member of the House of Commons, and a leading business man, who has travelled extensively in the United States.

"We should tap," said Mr. Bigland, "the fisheries in the Pacific Ocean bordering on British Columbia, in the mouth of the St. Lawrence, and in the waters around Newfoundland and Labrador. We could become the purveyors of fish in all forms, almost to the whole world."

No Limit to Fisheries.

"Already Newfoundland is sending on an average of 300,000 tons of cod to the Mediterranean and neutral countries. There is practically no limit to the quantity and the Grand Trunk Pacific Railway has already offered us refrigerating plants to bring fish from Prince Rupert to Liverpool at 2 cents a ton, which would be reduced still further on Government contracts."

"After the war, if the Government allowed it, all vessels now used in the North Sea for mine-sweeping and other purposes, could be used to form the nucleus of an Empire fishing fleet."

"Cold storage houses should be built in towns all over the land, and profits from the sale of fish caught by the state fleet should go into the state treasury. The fishermen would be paid according to the size of the catch, with a guaranteed minimum."

Mr. Bigland said that he believed that four times as much fish might be sold in this country as was sold before the war, and that the state might make a gross profit of \$180,000,000 a year.

"It may be said," he added, "that this is Socialism run rampant, but it is coming whether we like it or not."

Bathe Internally

Over 50,000 People Are Now Doing So.

For many years physicians have agreed that the vast majority of human ills were caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be, and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

During this time the "J. B. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering this country, that great surgeons and specialists have been operating on the Lower Intestine for the most chronic and serious diseases, has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine free from all poisonous waste matter, and over 500,000 are now using Internal Baths.

If you try the "J. B. L. Cascade" you will find yourself always bright, confident and capable—the poisoned waste makes us bilious, blue, dull and nervous. Internal Baths are Nature's own cure for constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade" gently assists her.

Call and see it at Cyril H. Orme's, Druggist, Corner 3rd Ave. and 6th St., or ask there for "Why Man of Today is Only 50 per cent Efficient," a booklet of great interest, which is given free on request. If you prefer, write for Booklet to Dr. Chas. A. Tyrrell, 163 College Street, Toronto.

When a Man Marries

WHEN a man marries he quickly discovers his need of innumerable things he had never thought of before.

And the butcher, the baker and the cabinet maker have a new home to supply.

The new husband and wife must buy things to which they had previously given little thought.

A thousand marriages mean a thousand new homes.

Right here is a fact overlooked by many merchants.

They say, "How could it pay us to keep on repeating the story of our goods or service?"

If they could reach every possible customer with one advertisement—and if people didn't forget—there might be no object in "keeping everlastingly at it."

But because every possible customer does not read every advertisement, you must repeat.

And because these thousands of new homes are every day coming into existence, continuous advertising brings increased results.

Perhaps some people knew your goods or your store five or ten years ago. Since then new generations have come into existence.

The boy of to-day is the man who will sign the cheques to-morrow. To-day your advertisements are of small interest to him. To-morrow he is your customer, if you solicit his trade through advertising.

Every day thousands of people discover for the first time their need of your kind of goods.

Will you be there every day with your bid for their business?

Or will you leave the field to your competitors?

Advertising is the key that opens the door of these new homes to your goods.

Is Advertising on your key-ring?

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

THE RAILROAD CLASSIFICATION

At the Board of Trade meeting held this week, the first matter brought up was a letter from the conference of the Western Boards of Trade held at Regina in March, regarding the action of the Railway Company requesting that classification No. 17 be put into effect. The following resolution was passed in Regina and was endorsed by the Prince Rupert Board of Trade:

"Inasmuch as Western Canadian business has been built up on the principles embodied in Canadian freight classification No. 16, and as any material change therein would seriously disturb the whole economic situation in the West, therefore the conference recommends that classification No. 16 be continued in effect."

The reason for this resolution being passed is that the railway rates would be increased by the adoption of classification No. 17.

WESTHOLME THEATRE

A photodrama entitled "Princess Romanoff" is billed for the Westholme tonight. This is based upon Sardou's most famous play, "Fedora," than which few dramas have received more world wide fame and universal approbation. The beautiful young Russian princess, early left a widow, is the sprightliest and wealthiest woman in the gay Russian capital. She plans a second marriage to please herself. The sudden death of her lover and her endeavors to find the assassin, the banished countess and her intimates in New York altogether combine in an entrancing play of high dramatic power. Nance O'Neill is the star and she is an eminent actress.

A Topical Budget will be shown and a musical programme of exceptional interest.

In the Letter Box

To the Editor,
 Dear Sir:—In your issue of yesterday, under the heading, "Cradle of Kultur," we read with great interest that all the great English poets and men of culture are of Scottish origin. As loyal Welshmen, we would like to know if there is any Scottish blood in our hero, David Lloyd George.

WELSH BOYS OF RUPERT.

(The article referred to by our correspondent was the statement of a German professor. The facts as he states them are no new discoveries, except possibly in Germany. They have been admitted in England, more or less grudgingly. The original origin of David Lloyd George has been suspected for several years, but at this distance from Cricketh Parish register, these suspicions cannot be verified meantime.—Editor).

LAND REGISTRY ACT

(Sections 36 and 134.)
 Re Application No. 9144-L, Filing 5819.
 TAKE NOTICE that application has been made to register The Corporation of the City of Prince Rupert in the Province of British Columbia, as owner in fee under two Tax Sale Deeds from the Collector of the City of Prince Rupert, bearing date the 7th day of December, 1916, of ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying, and being in the Municipality of Prince Rupert, more particularly known and described as Northwesterly Seventy (70), feet of Lots Eleven (11), and Twelve (12), Block Eighteen (18), Section One (1), Map 923.
 You are required to contest the claim of the tax purchaser within thirty-five days from the date of the service of this notice (which may be effected by personal service or as directed), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:—
 "and in default of a caveat or certificate of its pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, . . . and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."
 AND WHEREAS application has been made for a Certificate of Indefeasible Title to the abovementioned lands, in the name of The Corporation of the City of Prince Rupert:
 AND WHEREAS on investigating the title it appears that prior to the fourteenth day of September, 1916, (the date on which the said lands were sold for overdue taxes), you were a mortgagee thereof.
 FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of the above corporation unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.
 Dated at the Land Registry Office, Prince Rupert, B. C., this 20th day of December, A. D. 1916.

2,000,000 Belgians
 Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied Flag are as well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity for the sake of our own self-respect—let us give all we can to help our martyred Allies!
