FRENCH TROOPS SWEEP OVER GERMAN LINE

FOR A START, FRENCH TROOPS TAKE OVER TEN THOUSAND GERMAN PRISONERS

FIGHTING IS FIERCE AT ST. QUENTIN

The Gaps in the Hindenburg Line Being Widened—St. Quentin City Burning—Germans Are Desperate.

(Special to The Daily News.)

London, April 17.—The British troops are continuing to gradually widen the second of the gaps in the famous Hindenburg line to the north of St. Quentin. They have captured the positions known as Trois Sauvages, and East Gri-court. The city of St. Quentin has been fired and continues to burn.

Lens Holds Out.

Away to the north, the German troops are still holding on grimly to their positions in Lens. The outskirts of the city are in the possession of the British, but the German higher command has apparently rushed their reserves there and are putting up a desperate resistance, apparently to gain time to enable their engineers to complete the destruction of the numerous coal pits and factories, with which the town is surrounded. The Germans have made full use of the coal resources of that part of France they have been in possession of for so long. They will do their best to render the use of the coal mines impossible for the Allies or some considerable time.

Counter Attacks.

The counter attacks which the Germans have launched at Monchy and Lagnicourt, where the British have driven deep wedges into their line, suggest that their communications are threatened by the swift advance, and it is possible that Lens may be cut off. There are several strong positions still about Lens to which the German troops are yet clinging, although their main defences have been reduced to dust by the fire from the British batteries. The tremendous losses of the German forces in their counter attacks at Lagnicourt shows that they are unable to stem the tide of the British advance.

Mesopotamia.

The British attack on the Turkish forces has been successful, and the enemy has been driven back to the Jebetsamin Hills.

YUKONERS ARE NOW RETURNING HOME

The Princess Sophia on her arrival here yesterday afternoon from the south had on board a full passenger list, composed chiefly of Yukoners going home to the Northland after sojourning over the winter in the south. The White Pass and Yukon Route was well represented in the personnel of the crews of their steamers. There are many men in Prince Rupert today who are intending going north at the first opportunity.

THE WAR CONFERENCE IN WASHINGTON

(Special to The Daily News.)

Washington, April 17.—The Right Honorable Arthur Balfour, Secretary of State for Foreign Affairs, has arrived in United States waters and is expected to arrive in Washington this afternoon. The governor of the Bank of England, and a representative from the army and navy accompanied Mr. Balfour and a similar commission from France, headed by M. Viviani, Minister of Justice is also expected to arrive, when questions pertaining to the conduct of the war will be discussed, with President and his cabinet. The first conference is expected to take place tomorrow.

A Memorable Week.

This will prove to be one of the most memorable weeks in American history. President Wilson has appealed for the co-operation of every man, woman and child of the nation for waging a successful war, and is bringing the conflict home to every farm, factory and household. The events of the next few days will move the United States rapidly forward in her participation in the struggle with Germany.

CASUALTY LIST WILL BE HEAVY

Ottawa, April 16.—Commencing today, two lists of the casualties are being published daily by the military authorities, one in the morning and one in the evening. For several weeks past the lists have been comparatively light and only one list has been made public daily.

The Canadian troops have been fighting steadily for more than a week now, and have made big advances in the face of stiff opposition, and it can only be assumed that the losses will be heavy. The losses are probably less than in any previous fighting of a like magnitude, owing to the larger part which artillery plays in present day fighting.

CRITICS TRY TO EXPLAIN DEFEAT

Copenhagen, via London, April 16.—German military critics are still endeavoring to convince their readers that the battle of Arras is only of tactical, not strategical importance and without effect upon the general situation. They are occasionally betrayed, however, into making damaging admissions.

Captain von Salzmann in the Vossische Zeitung says the events prove the correctness of Field Marshal von Hindenburg's decision to shorten his line, since nothing can be done against superiority in heavy artillery.

Admits Shortage.

He speaks of German inferiority in material as well as in numbers—a noteworthy admission, in view of Germany's unprecedented efforts to manufacture munitions under industrial mobilization. Captain Salzmann concludes:

"Germany cannot expect always to go with flying banners from victory to victory, but, despite her inferiority in men and material, she has the nerves which will prevent the British from breaking the line."

First Line Shaken.

Major Morant says the British have succeeded in shaking the first line but that the assault has been stopped by the German support and main reserves. The latter statement is interesting if it means the strategic reserve which von Hindenburg mentioned recently as being accumulated for a striking force in this year's campaign.

UNITED STATES SENATORS WHO OPPOSED THE DECLARATION OF WAR.—Senators Stone, Lane, La Follette, Gronna and Vardman, shown from left to right. Senator Norris was the sixth of the filibusters, whose picture is not included here. Of the six obstinate ones, Stone and Vardman, (Democrats) have announced that hereafter they will support war measures.

DENMARK UTTERS WARNING TO HUNS

(Special to The Daily News.)

Copenhagen, April 17.—The official government organ here today utters a warning to Germany. Denmark is heartily sickened at the ruthlessness and wantonness of the Germans in their conduct of the war. Their discreditable policy is described as aimless and mischievous. Germany is asked to pause and consider the issues.

THE CITY COUNCIL

The meeting of the city council last evening was of short duration. In reply to an enquiry by Alderman Casey at the previous meeting, the city solicitor brought in his report regarding the right of corporations to vote at municipal elections.

According to the act, the duly qualified agent of a corporation who complies with the necessary requirements, is entitled to a vote. On the motion of Alderman Casey, seconded by Alderman Nelson, the report was filed.

NEW WIRELESS STATION ON THE PACIFIC COAST

Washington, April 16.—Woody Island, near the Alaskan town of Kodiak, will be the site of the big radio station which the Navy Department is about to establish to connect Alaska with the chain of wireless stations on the Lower Pacific coast. This will insure against interruption of communication through loss of cables by the act of an enemy or by accident.

STATIONERY FOR THE CITY HALL

Tenders for the supply of certain stationery requirements of the city hall were opened at the meeting of the city council last night. K. L. Raub, for envelopes only, tendered for \$164; for the whole order the News Job Press tendered for \$164; McRae Bros., Ltd., figured at \$190, and A. O. Franks at \$176. As every tender was not detailed, they were referred back to committee for tubulation on the motion of Alderman Montgomery.

PREMIER BORDEN AT WINDSOR CASTLE

(Special to The Daily News.)

London, April 17.—Sir Robert Borden, with his colleagues from the other self-governing dominions, now in Britain to attend the Empire conference, were the guests of King George for the weekend at Windsor Castle. Sir Edward Morris, of Newfoundland, Premier Massey, of New Zealand, General Smuts, the South African representative, and the Archbishop of York made up the party.

GENERAL STRIKE IS ON IN GERMANY

(Special to The Daily News.)

London, April 17.—Travellers arriving from Germany in Holland say that a general strike has commenced in Berlin. Numerous riots have occurred in the German capital. The troops have been called out and sanguinary encounters have taken place.

GRUESOME FIND ON ARISTABLE ISLAND

In a deserted shack, in the bush on Aristable Island, near to Surf Inlet, Captain Tom Peterson found the dead body of a man. There was no stove, nor utensils in the shack, and judging from the clothing worn by the dead man, it is probable he had been there since last summer.

He had no gun, although there were empty shells lying around outside, but his clothing carried two watches. There were some papers on the body too, but they had got wet, and were undecipherable. Such was the story told by Captain Tom Peterson last night. The matter has been reported to the provincial police department. Captain Peterson buried the body, before he left the island, and judging from the length of the dead man's hair, which was five or six inches long, he must have been away from the centres of civilization for some considerable period.

WHEAT IS PLACED ON THE FREE LIST

(Special to The Daily News.)

Ottawa, April 17.—The government has announced that wheat, wheat-flour, and semolina have been placed on the free list, thus opening up markets to Canada in the United States and Canadian markets to the Americans in these products.

SOUTH AMERICA AND GERMANY

La Paz, Bolivia, April 16.—The German minister and his staff have been handed their passports by the Bolivian Government, with a note declaring diplomatic relations between Bolivia and Germany have been severed.

Brazilian Action.

Rio de Janeiro, April 16.—It is officially announced that the government has decided to arm the Brazilian merchantmen which propose to make voyages into the German submarine zone. The ships, however, will be provided with instructions of a purely defensive character. It has been decided to seize for their own protection the damaged German interned ships in Brazilian ports.

Peru's Reply to U. S.

Lima, Peru, April 16.—The reply of the Peruvian Government to the note from the United States announcing the existence of a state of war with Germany, says that Peru deprecates the fact that the United States was compelled to take such a course and expresses the hope of a speedy ending of the war. No reference is made to the neutrality of Peru.

AN APPEAL TO THE LADIES

Prince Rupert, April 17, 1917. To the Editor,

Sir:—As Regent of the Queen Mary Chapter of the Daughters of the Empire, I would urge upon all women over twenty-one, who are born British subjects, to register before May 1st, in order to counter balance the large foreign male vote in this province. In Alberta and Saskatchewan it is feared that the German and Austrian vote will hold the balance of power while our soldiers are away at the front.

Yours truly,
STELLA DU VERNET.

FIRE ON THIRD AVENUE

There was quite a little excitement yesterday afternoon for a few minutes on Third Avenue, between the News office and McBride Street. Some children, it is said, had got hold of a match, and as a result of their seeing how it went alight when struck, the dry brush and grass caught fire, and in a short space of time the whole hillside was blazing. The fire spread very quickly, but was as quickly put out on the arrival of the fire department.

FRENCH TAKE TEN THOUSAND PRISONERS

Great French Offensive Commences Between Soissons and Rheims—Fighting on Whole Front.

(Special to The Daily News.)

Paris, April 17.—After several days of preliminary artillery preparation, the great French attack began yesterday morning, on a front extending from Soissons to Rheims. On the first forward sweep of the French several lines of German positions were taken and over ten thousand Germans were taken prisoners. The fighting has been described as of the utmost violence. It is understood that the great offensive of the French army, which was timed to synchronise with the "big push" of the British forces farther to the north, may now be starting.

Official Report.

Today's official report indicated that the artillery preparation has spread all along the Champagne front, and a series of terrific smashes against the Germans is in progress all along the French front far down to the south in Alsace and Lorraine. The French drive towards St. Quentin has increased in pressure against the enemy, and south of the Oise fighting of a very bitter nature is in progress.

In Champagne.

Great numbers of prisoners have been taken in the preliminary reconnaissance raids undertaken by the French troops against the German lines. The artillery bombardment is terrific.

THE RETAIL CLERKS

A very enthusiastic meeting of the Retail Clerks Association was held last evening. The membership is increasing, there being three new members for initiation. Arrangements are in hand for a picnic being held on the 24th of May, Victoria Day, and a committee of the whole are considering the matter.

MORE FORESTERS WANTED

Ottawa, April 16.—About 12,000 more men are required from Canada for overseas forestry battalions. They will be sent overseas in drafts of 100 as soon after enlistment as possible. In Western Canada recruiting depots will be established at Winnipeg, Prince Albert, Edmonton, Kamloops, Revelstoke, Vancouver, Victoria and New Westminster.

WESTHOLME THEATRE

At the Westholme Theatre tonight will be repeated the great photoplay entitled "Witchcraft." Miss Fannie Ward, who is the star artiste, certainly lives up to her reputation in this production. The story of the play deals with the trials and tribulations of the early settlers in America, and their genuine belief in witchcraft. Puritans and Huguenots both are included among the characters, and as a picturization of old days that will never return, this photoplay is very interesting.

MESOPOTAMIA

"I venture on a friendly word to the wise—watch Mesopotamia," so writes Mr. Charles Pemberton recently. There is hardly any part of this wide world which will respond so readily to scientific development as this cradle of our modern civilization. "Mesopotamia has not," writes Mr. Pemberton, "like the road to Mandalay, been the theme of a Kipling verse, but it is a blessed country, and before it came under the iron heel of the Turk, and the all corrupt, stultifying influences for which the Turk stands, it flowed with the milk and honey of material prosperity, and gave to the world some of its most delightful romances.

"The greater part of the country has been allowed to drop out of civilization and to become an arid and unproductive wilderness. Bedouin marauders held sway and terrorised over the few industrious cultivators who hung on to the few spots of green land, and east and west and north and south practically all that remained were indications that at one time, great irrigation canals and considerable towns and cities had existed—the indications of a dethroned glory."

With the advent of the Young Turks to power in Constantinople, when Abdul Hamed disappeared, to give them their due, they realized the possibilities of the country and in 1909, called upon the services of Sir William Willcocks, the famous British engineer, to construct a scheme of irrigation for the Euphrates-Tigris Delta. This scheme was for only a small part of the country, but the richest part, from an agricultural point of view. It embraced only about 6,000 square miles, while the total area of the country demanding irrigations runs to something like twelve million acres.

In the biblical days we read that "there was much cattle in the land," and even yet, stock makes up the wealth of the people. At present inundation and drought follow each other with monotonous regularity. With the waterways brought under proper control as has been done in Egypt, this state of affairs would be obviated. Here is a picture which has

been drawn of the regenerated countryside:

"Every town and hamlet in the valley, from Baghdad to Bussorah, would find itself freed from the danger, expense and intolerable nuisance of flooding and the resurrection of this ancient land would become an accomplished fact. The Baghdad railway between Baghdad and the Persian Gulf would be taken through the middle of a cultivated land and not through hopeless deserts as at present."

Now that the British arms have taken possession of this richest of lands, not even the slightest of Little Englanders would consider it good policy not to go ahead with the development which it is calling for. Britain has proved time and time again that under her beneficent rule, the waste places of the earth in due time "blossom as the rose." Egypt and the former deserts of Scindia are two outstanding examples of her work in irrigating barren lands and her achievements in these places show her ability to undertake the task elsewhere.

"But what has all this to do with Canada," it may be asked. The answer is simple. Here there will soon be a great field for the manufacturer. The maker of tractors, ploughs, agricultural implements of all kinds, plant and machinery connected with building and bridgework, and a hundred other concerns will soon find a fine market ready for his incoming. There will be a tremendous time very soon of construction work necessary before much else can be done and at no distant date, Mesopotamia will be one of the real "live" spots of the globe.

NOTES AND COMMENTS

The press of the United States is eulogistic regarding the prowess of the Canadian troops, on the occasion of their last victory at Vimy. Canadians will hope to return the compliment soon, when the American army gets over there.

Two very eminent organizers have been secured by the United States to see that an adequate food supply is provided for the Allies, and to mobilize the stock

of provisions at home. Herbert C. Hoover, who has been feeding the Belgians for the past two years, will now see that enough food is provided for the Allies. General Goethal, who supervised the construction of the Panama Canal, is taking oversight of the transportation end.

Four divisions of Canadians fought at Vimy Ridge. That is an army about as large as Wellington or Napoleon commanded at Waterloo. We do not suppose that until this war began any British army of 80,000 men had ever fought in a single action. But the Canadian force is only a small part of the British army engaged in the Battle of Arras.

Great praise is given to the Canadians for their brave and successful advance at Vimy Ridge. They deserve it. They had the hardest task, and they performed it without failing at any time or at any point. They have the glory of success added to the praise of valor. Congratulations have gone to them from home, as well as from Great Britain and the United States.

2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied flag are so well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!

CLASSIFYING NATIONAL SERVICE CARDS.

AN OPEN LETTER TO THE RETURNED SOLDIERS AS SOON—GERMAN OR DANE?

Considering myself competent to judge in the above question, I would reckon it a mistake to hold myself back in the case between the returned soldiers and the city engineer, where probably public opinion on a few points has been misguided by ignorance.

With the deepest respect for the noble efforts in continuing their fight for freedom and justice in the homeland, I think the matter is started in a wrong place led by a less noble motive. Nobody unless they have lived near it, can understand conditions in the former Danish province of Slesvig-Holsten (Danish as far back as history goes and now under the German flag only through the broken promises of stronger nations). It is in parts still, after more than fifty years, more Danish than any other part of Denmark. I am proud to say that my mother hails from there. She and her people and many, many with them, were forced out after all their property had been confiscated or destroyed. I can understand better today, than before, why her heart burned with anger over German brutality and vandalism and why she taught her children to hate the Kaiser.

In regard to the city engineer's name, it is in my opinion one of the best Danish names, being the family name of one of the most prominent spokesmen of the oppressed Danes of that province and whom I count amongst my own relatives. It would certainly be to add the most crying injustice to these good people's unhappy life conditions to put them down as Germans, though not being Danes by birth. To belong nowhere, is not that the worst of all? If then one tries to make a home and become a good citizen amongst a nation whose shibboleth has always been right and justice, fair treatment should be expected. What will likely color one's life's true tendencies most? The official nationality, at that certain time, of the place where one is born or one's sympathies?

I wonder if the former Danish province or part of it as is the silent hope of all true Danes, shall go back to the kingdom through this present war, will Mr. Lorenzen then be considered German or Dane?

WATER NOTICE

USE AND STORAGE
 TAKE NOTICE that Magnus P. Olsen, whose address is Anyox, B. C., will apply for a licence to take and use about sixty cubic feet per second and to store about 200 acre-feet of water out of Bonanza Creek which flows southeasterly and drains into Grassy Bay about at or near Lot 1675, Cassiar District.

The storage-dam will be located at about one and one-half miles from mouth of Bonanza Creek. The capacity of the reservoir to be created is about 300 acre-feet, and it will flood about twenty acres of land. The water will be diverted from the stream at a point at or near the dam, and will be used for power for mining purposes upon the mine described as the Midas, Ptarmigan and Fox Groups, situated near the headwaters of Bonanza Creek.

This notice was posted on the ground on the 19th day of March, 1917.
 A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local paper.
 M. P. OLSEN, Applicant.
 The date of the first publication of this notice is March 26, 1917.

LAND REGISTRY ACT

(Sections 36 and 134.)
 Re Applications Nos. 9086-1 and 9087-1, Filing 5895.

TAKE NOTICE that application has been made to register Sarah Lande, of Prince Rupert, B. C., as owner in fee under two Tax Sale Deeds from the Collector of the City of Prince Rupert, bearing date the 22nd day of September, 1916, and ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the Municipality of Prince Rupert, more particularly known and described as Lot eleven (11), Block twenty-eight (28), Section Six (6), and Lot thirty-three (33), Block forty-six (46), Section Eight (8), Map 923.

You are required to contest the claim of the tax purchaser within 35 days from the date of the service of this notice (which may be effected by publication), and your attention is called to section 36 of the "Land Registry Act" with amendments, and to the following extract therefrom:— "and in default of a caveat or certificate of his pendency being filed before the registration as owner of the person entitled under such tax sale, all persons so served with notice, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes, and the Registrar shall register the person entitled under such tax sale as owner of the land so sold for taxes."

AND WHEREAS application has been made for a Certificate of Indefeasible Title to the above-mentioned lands, in the name of Sarah Lande.

AND WHEREAS on investigating the title it appears that prior to the 14th day of September, 1915, (the date on which the said lands were sold for overdue taxes), you were the registered and assessed owners thereof.

FURTHER TAKE NOTICE that at the same time I shall effect registration in pursuance of such application and issue a Certificate of Indefeasible Title to the said lands in the name of Sarah Lande unless you take and prosecute the proper proceedings to establish your claim, if any, to the said lands, or to prevent such proposed action on my part.

DATED at the Land Registry Office, Prince Rupert, B. C., this 10th day of April, A. D. 1917.
 H. F. MACLEOD,
 District Registrar of Titles,
 To Charles Planitz, as to Lot 33;
 H. F. Clark and H. O. Richer,
 as to Lot 11.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that George McRae, whose address is Skidegate, B. C., will apply for a licence to take and use 150 cubic feet per minute of water out of Demster Creek, which flows northerly and drains into Alford Bay, about 15 chains from the N. E. corner of T. L. 825. The water will be diverted from the stream at a point about ten chains west from N.W. corner of Lot 4, B. C. Fisheries, and will be used for power purpose upon the land described as adjoining Timber Limit 825 in application to lease.

This notice was posted on the ground on the 15th day of January, 1917. A copy of this notice and an application pursuant thereto and to the Water Act, 1914 will be filed in the office of the Water Recorder at Prince Rupert. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.
 The date of the first publication of this notice is February 21st, 1917.
 GEORGE MCRAE, Applicant.

Bathe Internally and Keep Well!

Nature has mightily equipped us all, old and young, to resist disease—but she requires that we give her a chance.

We give her no chance if we permit the Lower Intestine to be more or less clogged with accumulated waste. Yet that is a universal condition today, as is proven by the number of laxative drugs that are consumed.

You can help Nature in Nature's most effectual way by Internal Bathing, and in an easy, non-habit-forming way keep the Intestine as sweet and clean as Nature demands it to be for perfect health and surer defence against contagion. Over half a million keen, bright, healthy people testify to its result.

Mrs. C. G. M. (name on request) of Strathroy, Ont., writes:—
 "I am pleased to have this opportunity of testifying to the merits of the J. B. L. Cascade. I have been using it now for a year with satisfactory results. I am an old woman, but my health is so improved that I have a renewed lease of life. You are at liberty to give my address to anyone privately who may desire to write to me regarding the Cascade.

Just call on Cyril H. Orme, Druggist, corner 3rd Ave. and 6th Street, Prince Rupert, and request free booklet, "Why Man of Today is Only 50 Per Cent Efficient." The most efficient device for Internal Bathing, The "J. B. L. Cascade" will also be shown and explained to you if you so desire. If you prefer, write for Booklet to Dr. Chas. A. Tyrrell, 153 College Street, Toronto.

In the Highest Degree Profitable

Some men figure that as the mercury climbs up sales will fall down. And figuring that way, fate is kind and does not disappoint them.

So there has grown up a commercial superstition that Summer is a dull season.

No greater fallacy has ever gone so long unchallenged.

Summer is a dull season for many lines—but there is no fundamental reason why it should be.

For instance, take a typical case—that of the Canadian wallpaper manufacturers.

They wished to secure their placing orders from the retailers before the early Fall—when American lines are offered. Through education by Advertising, they advanced the season to start the middle of June, instead of the end of August, and they now beat their foreign competitors to the market by nearly three months.

Perhaps you face a selling problem that education by Advertising will solve. Perhaps your Summer business needs the tonic of Summer Advertising.

As the mercury climbs up to its highest degree, increase, rather than slacken, your Advertising and selling efforts. You will find it profitable—in the highest degree.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

NOTES FROM PORT CLEMENTS

The tug "Gumshewa" arrived at Port Clements from Prince Rupert with mail last Thursday. Mr. A. R. Mallory, J. P., returned on her from the south where he has been spending the last month on business. Mr. Fowler, Mr. Smith and Mr. Phillips were also passengers in the tug.

Both the sawmills here are running, they have their own crews logging, and are stacking up big piles of lumber awaiting shipment.

The weather which has been very rainy and backward this spring is warming up again, thus causing a stir amongst the farmers, who have wintered in town. They are eagerly preparing for the cultivation of their fields.

A very great relief was felt about the shortage of food supplies on the arrival of the launch "Tempest King" from Prince Rupert Sunday afternoon, loaded down with provisions. Owing to the cancellation of the last trip of the steamboat, many of the staple lines of provisions were entirely gone and it was found necessary to send a small boat to Prince Rupert to keep the Grand Trunk Pacific steamship service from actually forcing upon our population the dreaded pangs of hunger.

So, E. J. and Bert Tingley undertook the job of transportation, considered somewhat hazardous for the smaller craft at this stormy season of the year. After a delay of three days in Rupert undergoing engine repairs the "Tempest King" left Prince Rupert at two o'clock Saturday morning on the return trip to Port Clements.

Although facing a steady northwest wind, she made good headway to Rose Spit. From there to the entrance of Massett Inlet the westerly wind increased to a gale and after getting within about four miles of Massett Inlet the "Tempest King" could not make further headway against the terrific storm and was carried backwards. From eight o'clock Saturday night, this staunch 30-foot craft battled with wind and wave, the seas ran mountain high and she was rapidly carried before the storm until at four o'clock Sunday morning the wind spent its fury and allowed the little grub-laden packet again to proceed. That no further damage to ship and cargo was done than the loss of a dinghy and a case of bacon and one sack of mush speaks the highest praise for the seamanship of the crew.

TIMBER SALE X 913.

Sealed tenders will be received by the Minister of Lands not later than noon on the 9th day of June, 1917, for the purchase of Licence X 913, to cut 7,425,000 feet of Hemlock, Cedar and Spruce, and 1,200 lineal feet of piling, on an area adjoining Lot 1695, Juskatla Inlet, Graham Island, Queen Charlotte Island District. Three (3) years will be allowed for removal of timber.
