#### GERMANS MASS TROOPS ON WEST FRONT

Immense Concentration Exceeds Anything Before Known—Demoralization of German Army.

(Special to The Daily News.)  
Paris, April 21.—After five days of continuous steady smashing at the German line by the French, seventy-seven square miles of France have been reclaimed from the invading enemy. General Nivelle's men have now progressed over a front of nearly forty miles to a depth of three-quarters of a mile to full four miles. Scores of villages and towns have been taken since Monday.

**German Losses.**  
The losses inflicted upon the Germans have been staggering. In a counter attack which they made on Juvincourt, two complete divisions of forty thousand men were literally wiped out by the French artillery alone. Even among the German officers, the demoralization is spreading.

**Reinforcements.**  
Tremendous masses of reinforcements which have been hurriedly rushed up to the front line have been quite unavailing to stem the Allied advance. The concentration of German troops exceeds anything ever known in the history of the war.

**Progressing Favorably.**  
"The battle is progressing favorably," is the calm way in which the French army chiefs report the offensive. The results have exceeded all expectations. The French regard the advance between Ostel and Courtecamp as having reached proportionately greater success than elsewhere. The utmost strategic importance is attached to the formidable positions captured there.

**British Front.**  
London, April 21.—General Haig reports that further ground has been gained in the neighborhood of Villers Guslain, which lies about ten miles to the south of Cambrai.

**Syrian Front.**  
General Murray has resumed his march towards Jerusalem. Another victory has been achieved over the Turks. On the front of six and a half miles, the Turks were driven from their positions in full flight.

**Mesopotamia.**  
Another advance to the north of Bagdad is reported today by General Maude. The eighteenth Turkish Army Corps has been completely routed, and the Indian cavalry are pursuing the retreating foe. The British are near Samarra.

#### HARD AT WORK ON BROKEN ROADS

London, April 20.—Correspondents with the British headquarters in France ascribe the apparent inactivity along the British front to gales, rain and snow and the sodden ground hindering the bringing up of guns for another attack. They say, however, that the work is going on with terrific energy.

"Behind the lines," writes one correspondent, "it is like a world in movement, with tides of swirling traffic, transport wagons, motor lorries, guns, horses and mules constantly in motion. The battle pauses while the guns are going forward, for, unlike the battle of the Somme, where the guns did not have to move during the first week, the ground only being gained by yards, we have so far and so quickly brought forward the guns that we can follow hard on the heels of the enemy."

"It is difficult, however, following along roads which have broken down under stress of six months' vile weather and over battlefields worse than mountains to pass over the countless shell craters filled with water and ground which has become a bog. There is an army of men repairing the roads into something like soundness, filling craters and making brand new roads across swamps."

"The enemy well knows what is going on behind our line—that our great machine is closing in upon him, and that when the word is given it will strike a smashing blow at another vital point."

#### RECIPROCITY IN WHEAT AND FLOUR

Washington, April 20.—Canada's order putting wheat and wheat products on the free list will be decidedly to the advantage of Dominion producers, officials here say. The American duty on imports of Canadian wheat will disappear automatically and if the American crop is short the United States may become a good customer for the Canadian product. The order is expected to have little immediate effect, as Canada's visible supply is as short as this country's.

Saskatoon, April 20.—Dr. Swanson, of the University of Saskatchewan, said today that the granting of free wheat was the most important step taken by the Canadian Government in the last decade. The American market, he said, would be constantly expanding because of its proximity to the western producer and from the fact that wheat growing is always left to the pioneer countries. The United States was more and more using its land for beef production.

#### FISH ARRIVALS

The Neilson has arrived in port with 22,000 pounds of halibut, the Glacier with 12,000 pounds. The Stirrit was in yesterday with 5,000 pounds for the cold storage. The Carruthers also had a good haul on her last trip, bringing in around 13,000 pounds of all sorts of fish. The Carruthers is as yet the only trawler operating out of Prince Rupert. About 3,000 lbs. of spring salmon also came in yesterday, which sold for around 15 cents.

#### MINE AND SMELTER WORKERS' UNION

At a meeting of the Prince Rupert branch of the International Union of Mine, Mill and Smelter Workers held last evening, the following officers were elected: President, Mr. J. J. Anderson; Vice-President, Mr. William Crossbie; Recording Secretary, Mr. A. O. Morse; Conductor, Mr. Joe McLean; Warden, Mr. Emi Haneq. These officers were elected to constitute an executive board for the time being. They were authorized to prepare for affiliation with the Trades and Labor Council, B. C. Federation, and the Trades and Labor Congress of Canada.

The meeting was very harmoniously conducted and the future success of the organization is assured.

#### ARE FACING DEATH FROM STARVATION

New York, April 19.—A dispatch just received here from Jerusalem to the effect that fully 50 per cent of the population of Palestine and Syria are facing death by starvation. The only chance of relief is the capture of Jerusalem and the seaport of Jaffa by British forces. This will enable the Allies to bring supplies from Egypt.

The Jews, Mohammedans and the Druses of Mount Lebanon are all suffering alike, because the Turkish Government at Damascus has, through its officials, seized all horses, mules, goats, sheep and cattle. In addition, the Government has not only commandeered all the grain in Palestine and Syria, but has taken away that which was to be used as seed, so that the unfortunate people have not been able to sow their fields for the coming season.

#### THE POLICE COURT

At the police court this morning, before Magistrate Carss, John H. Sweder was charged with uttering seditious language and was committed for trial. Information was laid by Mr. W. T. Smith.

#### SONS OF ENGLAND HAVE A FINE TIME

A very pleasant and enjoyable evening was spent last night in the K. P. Hall by the members and friends of the Sons of England Society. A large number turned out to take part in a whist drive. The first prizes went to Mrs. E. Woods and Mr. Kelsey, and the others to Mrs. Reilly and Mr. Gavigan. The affair was one of the most enjoyable of its kind and the evening passed all too quickly. The Sons of England are to be congratulated on the success of their functions.

#### WESTHOLME THEATRE

At the Westholme Theatre tonight, Bizet's great opera, "Carmen" will be shown on the screen. This is one of the most deservedly popular of the grand operas, and the only one by which this composer is known by. For dramatic power and musical excellence few of the grand operas, well known to the public, can compare with "Carmen." Its brilliant scenes and tuneful numbers linger long on the memory. With Theda Bara as "Carmen," which is not the easiest part to play, something fine is in store for those who visit the Westholme tonight. There will be special selections played by the orchestra from the piece, as well as other Spanish numbers, and the musical programme itself promises to be one of the best. There will also be a special matinee from 3 to 5 this afternoon, for the benefit of those who cannot get out tonight.

#### THE RED CROSS

The Red Cross Society held the usual Friday sale of home cooking in their new tent on Third Avenue yesterday. The sale was under the charge of Mrs. Halsey and Mrs. John Conway and the amount netted for the society was \$63.60.

#### CANADIANS EARN GREAT REPUTATION

The South London Hospital has many Canadian inmates just now who have been wounded at the front. From colonels to subalterns, all are cheerful, and are making as good progress as can be expected.

Colonel Cy Peck is there, and one of the war correspondents in London has cabled as follows:—"Colonel Peck here says: 'Pipers of the 16th Battalion earned a great reputation on the Somme, when Piper Richardson marched to and fro in front of the German wires under a heavy fire, playing his pipes while the battalion tore down the German obstacles. In the Vimy advance the pipers begged permission to lead the companies. This granted, the pipers went over the top bravely, marching straight over every obstacle without deviation.'"

The war correspondent further says that the pipe major accompanied Colonel Peck, who though seriously ill of gastritis, retained command, advancing to their obstacle, the third German line.

Colonel Peck remained with his company until night in the captured positions, when he was forced to return, having to struggle through a heavy snowstorm. When he reached the lines, he collapsed. The report says that he is now making good steps towards recovery.

Of the twenty-one officers under Colonel Peck, seven were killed, and of one company which began with one hundred and fifty men, next day only sixty answered the roll.

Colonel Cy Peck, it will be remembered, left here with the first contingent in 1914 and on the other side was appointed in command of the 16th Battalion.

#### JIMMY WILDE WINS BELT

According to advices just received from England, Jimmy Wilde, the world's flyweight champion, has made the Lord Lonsdale belt for this division his personal property.

He won the belt by knocking out George Clark, challenger for the title. The contest took place at the National Sporting Club, and the finish came in the fourth round. Besides the belt, Wilde won a purse of \$2,500. Wilde had previously won the belt twice, and another victory was necessary to make possession absolute.

#### SEPARATE PEACE SCHEME COLLAPSES

(Special to The Daily News.)  
London, April 21.—A German wireless dispatch picked up today declared that no German Socialists will be sent to Stockholm by Bethman-Hollweg, and insisted that there were no separate peace negotiations in progress between the German and the Russian Socialists.

#### USING DEAD BODIES FOR FERTILIZER!

(Special to The Daily News.)  
Rome, April 21.—Information received here says that the Huns are alleged to be using their dead in a fertilizer plant. Pope Benedict is horrified and has expressed deep indignation.

#### STILL FIGHTING IN MEXICO

(Special to The Daily News.)  
El Paso, April 21.—A band of Villa's followers have been defeated near Chihuahua by the forces of the Government yesterday. One hundred and fifty of the Villistas have been killed and one hundred of their horses were captured.

#### CONSCRIPTION PLAN TO BE PUSHED AHEAD

(Special to The Daily News.)  
Washington, April 21.—It is said here that the President's plan for conscription service is to be shoved ahead of all other legislation now pending.

Britain is ready for an open discussion of measures for the successful conduct of the war, and it is expected that the Commissioners will divulge many plans when the war conference convenes. The blockade of Germany will be tightened, and the full strength of the American naval and air service will be utilized.

#### INTERNAL DANGERS FOR GERMANY

(Special to The Daily News.)  
London, April 21.—Prediction of the early closing of the war are general here. The London press are of the opinion that the Central Empires cannot hold out against the Allies much longer.

With Turkey, Bulgaria and Austria all seeking a separate peace, the Fatherland is also faced by grave internal dangers. No details of the strikes or rioting in Berlin have come through.

Neutral diplomatists just arrived in Geneva from Berlin declared that within the next four or six weeks, the German people will be without wheat or potatoes and the Government will be forced to face a famished population. They also state that the German scheme for a separate peace with Russia has collapsed.

#### THE REVOLUTION IN BRAZIL

(Special to The Daily News.)  
Buenos Ayres, April 21.—The revolt of the German population is growing worse. Refugees, who are pouring into Uruguay, report that heavy fighting is taking place between the rebels and the Government forces. Reports received from Montevideo state that the revolt has extended to three Brazilian states and that a very serious state of affairs exists.

**THE ARABIAN PHOENIX**

The legend of the Phoenix, the miraculous bird that is perpetually reborn from its own ashes, is associated by one group of scholars with Egypt, and by another with Arabia. Thanks to Great Britain, the political symbolism of the myth is now applicable to both these countries. In both cases, too, the consuming element that reduced to ashes a once glorious national life has been the same. In Egypt our struggle with the Turkish blight, complicated as the situation was by international agreements and by our own vital interests in the Canal route, was necessarily a long one; circumstances demanded that we should retain a very close control over the country, and the progress towards self-government will naturally be very slow and gradual. That, by the way, is in accordance with the long and slow-moving history of the most ancient of civilized nations. A simpler situation and a more rapidly changing picture are, with equal appropriateness, presented to us today by the region whose adventurous and high-spirited peoples passed, within the lifetime of Mahomet, from the stage of heathen tribalism to that of monotheistic nationalism, and from the age of song and legend to that of world-shaking history. History today is moving far more rapidly than in the days of Mahomet. The prophecies of ages are being fulfilled within a few months. Great events are following so close upon one another that it is difficult to grasp their enormous significance, and in the glare of the Russian Revolution many peoples may have failed to notice the impressive way in which General Maude's proclamation to the people of Bagdad connects itself with the extraordinary history of the Arabs.

There is only one people whose history rivals that of the Arabs in strangeness, and that is the Jewish people. And the Jews and the Arabs are essentially of the same blood; to the Arabs the Jews are "Beni-Israel," a tribe of their own race; the heroes of the Old Testament have a place in Arab legend and religion, and it was from the descendants of Jewish

refugees in Medina that Mahomet derived the main points of his theology. Thus the faiths of Europe and of Western Asia both had their origin in Arabia. This fact alone should give us a special interest in the future of the Arabs. But their secular history is as remarkable as their religious history. Patriarchal and illiterate in Mahomet's day, by the eighth century they had established great kingdoms in Mesopotamia and Egypt, and the poets and philosophers of Bagdad were absorbing and transmitting the treasures of Greek literature which were not to be fully revealed to Italy until the fifteenth century, and which, indeed, were first known to mediaeval Europe through Latin translations from the Arabic. While Christian Europe was sunk in monkish barbarism, the scholars of Bagdad and Cordova, men like Avicenna and Averroes, were laying the true foundations of modern medicine, mathematics, and physics; and the discovery of America in 1492 was largely owing to the Arab people who in that year were finally expelled from Spain.

It is probable that General Maude's allusions the other day to these former glories of the Arab race may not mean much to the average Bedouin. But the Bedouins, after all, constitute only about a fifth of the population of Arabia. Arab civilization is not dead. It proved its vitality by six centuries of glorious life, and in the withering blast of Turkish barbarism it has survived in a shrunken and desiccated form, like germs in a sun-dried pool. The best earnest of its power to respond to the revivifying influence of the British proclamation has already been given by the rising of the great Sherifs and by the recapture of the holy places so long defiled by Turkish hands. The terms of the British proclamation, which virtually amounts to an offer of protection and self-government, are not such as would have been offered to a stupid or degraded people; they are in wise consonance with the history of a noble race in whom subtlety and honor, passion and self-control, bravery and gentleness are inimitably combined. Our

own Imperial interests, too, coincide ideally—as they always must do when viewed in a big enough perspective—with a wise generosity. A reawakened Arabia, with the centre of its government at Babbad, and united with our Indian Empire and ourselves by natural trade-channels silted up since the days of Sinbad the Sailor, will be a better neighbor for us than a discontented province of Turkey. That the liberation of Mesopotamia and Arabia should be carried out by us in conjunction with the country on account of whose "aims" we so long bolstered up the destroyer of three great civilizations forms a dramatic reparation of an age-long error of policy.

**PUSHING UP THE TIGRIS**

London, April 17.—The British troops in Mesopotamia are continuing their advance up the Tigris in pursuit of the retreating Turks, it was officially announced today. They have pushed to within a little more than ten miles of Samarra, seven miles northwest of Bagdad and within a mile and a half of Istabilat, where the Turks apparently are expecting to make their next stand.

# AUTOINTOXICATION OR SELF-POISONING

The Dangerous Condition Which Produces Many Well Known Diseases.

## HOW TO GUARD AGAINST THIS TROUBLE

"FRUIT-A-LIVES" — The Wonderful Fruit Medicine — will Protect You

Auto-intoxication means self-poisoning, caused by continuous or partial constipation, or insufficient action of the bowels.

Instead of the refuse matter passing daily from the body, it is absorbed by the blood. As a result, the Kidneys and Skin are overworked, in their efforts to rid the blood of this poisoning.

Poisoning of the blood in this way often causes Indigestion, Loss of Appetite and Disturbed Stomach. It may produce Headaches and Sleeplessness. It may irritate the Kidneys and bring on Pain in the Back, Rheumatism, Gout, and Rheumatic Pains. It is the chief cause of Eczema — and keeps the whole system unhealthily by the constant absorption into the blood of this refuse matter.

"Fruit-a-lives" will always cure Auto-intoxication or self-poisoning — as "Fruit-a-lives" acts gently on bowels, kidneys and skin, strengthens the bowels and tones up the nervous system. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-lives Limited, Ottawa.

### "BOB" INGERSOLL ON GERMAN-AMERICANS

(From W. Coyney, Prince Rupert.)

In the early eighties a wealthy lady of the interior of New York state conceived the idea of commemorating the first great international arbitration and at the same time cementing the friendship of Great Britain with the United States. To accomplish this she commissioned an artist named Carpenter to cover a large canvas with the portraits of the joint high commission in session, the result of the efforts of this high commission being the historic Alabama award. The painting was to be presented to Queen Victoria with the request that it be hung in Windsor Castle as a memorial to the first successful step toward the ardently hoped for millennium "when wars shall be no more."

The immense picture was duly completed and to celebrate the occasion of its unveiling a grand banquet was held at Delmonico's, which was attended by the president, several members of his cabinet, and many distinguished men, including the then leading after-dinner speakers, Chauncy M. Depew, General Horace Porter, Jos. Choate and Colonel Robert Ingersoll.

The text of all the speeches was naturally and necessarily "peace" and if the brilliant eloquence expended then upon the subject could be reproduced now, it would be more than of passing interest and, indeed, might prove of influence.

It chanced that on this occasion that famous national orator "Bob" Ingersoll found himself way below the salt both at the table and on the toast list, so many distinguished speakers being around the board. But his turn came at last. All the many previous speeches at this banquet were more or less memorable, as most of them had been specially prepared for this memorable occasion, it being known that I had been commissioned to reproduce them in an elaborate book form, a copy of which was to be presented to Queen Victoria with the picture.

With his characteristic quick-wittedness and forensic ability Colonel Ingersoll took entirely new ground and presented the subject of "peace" from a standpoint differing as widely from the preceding oratory as an eagle differs from a dove. I have never come across this speech in any of the published orations of Ingersoll, and as it seems of peculiar usefulness at the present time when the question of German-American patriotism has become so absorbing, I here give from memory that portion referring to this subject.

"Peace and patriotism," said Colonel Ingersoll, "have been the text of all the masterly speeches delivered here tonight, and in adding my modest quota I must take issue with some of my distinguished predecessors. For ages poets have sung of peace, of the days when wars shall be no more; of patriotism and the love and loyalty one owes to the country one happened to be born in.

"Of peace, gentlemen, and particularly of the universal disarmaments so often hopefully referred to this evening, I assert that the olive branch of peace may only be held forth in the mailed hand. You cannot stay war with words. You cannot demand or even defend your rights unless

### Internal Bathing's Rapid Growth

It is but natural to expect that a relief from Constipation and the many ills which it causes, which is so effectual and so natural as Internal Bathing, should quickly make many converts.

But its general use has increased so tremendously in the past few years as to suggest other reasons, and these are found in the statement of users that they feel as if "made over new" the morning after an Internal Bath.

The elimination of the pernicious and poisonous waste which is ever present in the Lower Intestine gives Nature a chance to work unhampered. And one arises in the morning clear-headed, able, bright, confident and eager for the day's duties.

Mr. E. E. Smith writes:—"Dear Doctor,—Your 'Cascade' made a new man of me at the age of 49. I persuaded my wife to use the treatment also, and today she has better health than ever before. Since the use of the 'Cascade' she sleeps better and can walk for hours without fatigue. Fainting spells have become a condition of the past; can eat anything on the bill of fare and drink all beverages. Does not take cold when exposed; hot weather does not cause oppression.

The "J. B. L. Cascade," the most efficient device for Internal Bathing, is being shown and explained in detail by Cyril H. Orme, Druggist, corner 3rd Ave. and 6th Street, Prince Rupert. ## 2,000,000 Belgians Depend on us for Bread!

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Their own store of food, even if not destroyed or pillaged, would last only three weeks—they have had no chance to raise more—and the ruthless Germans refuse to supply them!

Backed by the

## Belgian Relief Fund

so generously contributed in the British Empire and the United States, the neutral Belgian Relief Commission has imported enough wheat, flour and other foods to feed the whole nation so far. The great majority of the 7,000,000 Belgians left in the country have been able to pay for their daily allowance of bread—but a steadily growing number have no money left.

Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

No people under the Allied flag are so well able to contribute generously as we Canadians! No cause has ever been more deserving of help! In the name of Justice and Humanity—for the sake of our own self-respect—let us give all we can to help our martyred Allies!
