## TERRIFIC FIGHTS CONTINUE ON WEST FRONT

**BOTH BRITISH AND FRENCH MAKE GAINS -- MANY PRISONERS TAKEN THIS WEEK**

### BRITISH MAKE FURTHER ADVANCES

**Bitter and Fierocious Fighting on British and French Fronts—Germans are Rushing Up Reinforcements.**

(Special to The Daily News.)

London, April 26.—Early this morning terrific fighting was in progress along the front between the rivers Scarpe and Colvel. The British made further progress and made important gains. At night, to the east of the Havrincourt Wood, we captured the village of Bethern, to the northeast of Trescault. More than three thousand prisoners have been taken since the resumption of the great drive by the British. Their further advances are being made in the face of bitter and ferocious opposition on the part of the Germans.

#### Reinforcements.

Germany is today throwing every available man into the breach which the British have hacked into the northernmost part of the famous Hindenburg line. On a front of nearly nine miles from Monchy to around Croisilles, fighting is raging with a ferocity which is unparalleled since the beginning of the war.

#### Aeroplanes.

Forty German aeroplanes were brought down, some behind our lines and some within the German lines, by our air service yesterday.

#### French Front.

Paris, April 26.—Violent fighting is in progress along most of the French front. Gains have been made in the Aisne and Champagne sectors. Calm prevails between the Somme and the Oise. Near La Fere, the French artillery are silencing that of the Germans. In the Aisne region, further progress has been made by the French to the southeast of Gerny Lannais.

#### Berlin Reports.

Berlin, April 26.—Strong British attacks on the whole front broke down under heavy losses. Germans in counter attack took 650 prisoners. A number of British tanks also captured. On Monday the British and French lost 20 aeroplanes, and one captive balloon. On Tuesday they lost 19 aeroplanes.

#### The Russian Front.

Petrograd, April 26.—In the Black Sea, a raid was made by a Russian cruiser and a destroyer, attended by submarines on the Turkish harbor works at Kerassunt. The harbor works were destroyed and also five Turkish vessels.

#### Basketball at Anyox.

(Special to The Daily News.)

Anyox, April 26.—The result of last night's basketball game here was Anyox 37, Prince Rupert 16.

### WESTHOLME

OPERA HOUSE TONIGHT ONLY  
"THE WAR OF WEALTH"  
Three acts.  
CATALONIA, Pictureque Spain.  
TWO REAL COMEDIES  
Sixth episode of "The Shielding Shadow" will be repeated tonight at 9 p. m.

ONE OF THE NEW GUNS SMASHING THE GERMAN FRONT IN FRANCE.—Cables say that a new shell has piercing qualities enabling it to penetrate the target a considerable distance before exploding, and when it does explode, tremendous havoc is created. Above is shown one of these stupendous new guns—a French one. It is not merely a siege gun, but it may be moved at will, on normal gauge railways.

#### CONSCRIPTION FOR BRITISHERS IN U. S.

Ottawa, April 24.—It is hinted in official circles that Canadians who during the last few months have gone to the United States in order to escape enforced military service, which was never proposed by the Canadian Government, may possibly find themselves in an awkward position now that the British Government is about to make an arrangement with the United States whereby all British subjects there will be conscripted and taken to England. It is stated that the names and addresses of most of these men are known and that the first to be selected may be those who have left Canada, as they come under the head of British subjects.

#### U. S. NATIONALITY STATISTICS

A table shows that there are 1,164,000 Canadian-born residents in the United States. More than half of these are in New York, Massachusetts and Michigan. There are 2,475,000 from the United Kingdom and Ireland. The Russians and Finns number 1,669,000, the Italians 1,335,000, and the Scandinavians 1,209,000. There are 4,200,000 who were born in Germany and Austria. Residents in the United States who were born in the Entente countries are thus substantially in the majority over those who came from the Central Empires.

#### CONGRATULATIONS

(Special to The Daily News.)

London, April 26.—The Hon. Arthur Henderson congratulates the Australians on the Second Anniversary of Gallipoli.

#### AEROPLANES MISSING

(Special to The Daily News.)

London, April 26.—Dispatches from the front state that eight British aeroplanes are missing, having failed to return.

#### TROUBLE IN GERMANY

(Special to The Daily News.)

Amsterdam, April 26.—The new anti-Government Socialist party in Germany precipitated many tumultuous disturbances at yesterday's meeting of the Reichstag.

#### THE COUNTY COURT

The case of Earl Brown, the negro, was resumed this morning before Judge Young in the court-house. The accused was found guilty of attempted housebreaking with intent to commit assault and was sentenced to three months, the sentence to commence at the expiration of the previous sentence of three months for resisting arrest. Another charge against the same man will be heard tomorrow.

#### IN ORDER TO VOTE YOU MUST REGISTER

Information has just been received by the registrar of voters that the last date on which registration can be accepted for the provincial voters' roll is the second Monday in May, the 14th.

The Women's Suffrage Bill is now law, and any woman, who is a British subject and of twenty-one years of age, and otherwise qualified, is entitled to a vote, provided her name is on the register. In order to register, it is necessary to appear before the registrar of voters, Mr. J. H. McMullen, or a notary public, justice of the peace, or other special commissioner and have the necessary form filled out.

Among those other special commissioners, who have been appointed by the Government for this purpose are Mrs. A. R. Holby and Mrs. Bazzett-Jones, of the I. O. D. E., and Mrs. Kirkpatrick, of the W. C. T. U. These ladies are prepared to accept affidavits at any time and will be in attendance at the sale of home-cooking in the Red Cross tent on Third Ave. tomorrow afternoon.

The attention of all women is drawn to this matter, as well as any men who have not yet registered themselves.

#### TYPHUS IN ROUMANIA

(Special to The Daily News.)

London, April 26.—A severe epidemic of typhus is raging in Roumania. Notwithstanding death and pestilence stalking throughout the land, the hearts of the people are still dauntless, and they possess the assurance of ultimate victory.

#### THE RACE COURSE

A very merry time was spent last evening at the skating rink, when a ladies hoop race was the feature of the evening. The distance was five laps, and Miss Vina Toomire was the winner of the race, with Miss Mason second, and Miss Lily Shrubbsall third. Excitement ran high towards the end, in which the numerous spectators as well as the skaters shared.

#### WESTHOLME THEATRE

At the Westholme Theatre tonight will be shown a very interesting film, entitled "The War of Wealth." This is one that will appeal to everyone, the wealthy as well as the merely rich. It is a very well constructed photoplay and is sure to be well received. There are also two real comedies of the kind that dispel the cares of the day. In addition to these attractions, at 9 o'clock, the sixth episode of the "Shielding Shadow" will be shown for the benefit of any patrons who were unable to see it last night.

#### HON. "BOB" ROGERS WANTS DRYDOCKS

London, April 25.—Hon. Robert Rogers, the Canadian minister of public works, has taken up the question of building Admiralty drydocks at Esquimalt, B. C., and Halifax, communicating on the subject with Sir Edward Carson, the First Lord of the Admiralty, and Chancellor of the Exchequer Bonar Law. Mr. Rogers seemingly is hopeful that something will result.

"Canada," he said, "is entitled to this consideration, not only owing to the part she has played in the present war, but because of the effort of the Dominion Government to encourage shipbuilding in Canada. There should be no reason why the British ships when in Canadian waters should go to American ports to repair."

#### INDIA'S MEMBER OF THE WAR COUNCIL

The government's choice of the Maharajah of Bikanir as India's representative at the special sittings of the War Cabinet will give great satisfaction throughout our Eastern Empire.

An aide-de-camp to the King, his Highness is a vigorous man of thirty-six, with a yearly income of £200,000. He rules over a state of 23,315 square miles, nearly three times the size of Wales, with a population of 700,000 people, and is entitled to a salute of seventeen guns when he arrives at or leaves a garrison town.

At the beginning of the war the Maharajah offered the whole of his state resources to the King as well as his personal services, and his famous camel corps has done invaluable work in Egypt. He served for a year on Field Marshal Viscount French's staff, and has been mentioned in despatches.

#### GEN. GARIBALDI OFFERS SERVICES

Rome, April 25.—General Ricciotti Garibaldi, the last surviving son of the Italian patriot, offered today himself and his four sons, all officers in the Italian army. Rising on his crutches, General Garibaldi said:

"I would be proud to draw my sword again under the Stars and Stripes."

General Garibaldi proposes the formation in America of an army of 30,000 to 100,000 Italian, Spanish and American volunteers, to be thrown into the Balkans by way of Saloniki and open up a route for the regulars to follow. He believes it would be thus possible to reach Constantinople in a fairly short time.

#### SERIOUS LOSSES OF BRITISH SHIPPING

(Special to The Daily News.)

London, April 26.—It is reported that over forty vessels of over 1,400 tons have been sunk by either mine or submarine during the past week.

#### OBJECTS TO PEERAGE

London, April 24.—Joseph Martin has given notice of a resolution in the House of Commons which he intends to introduce, that "this House regrets that in this time of struggle of the world democracies against autocracy, the British Government has become responsible for the appointment of resident peers in Canada, thus introducing the thin edge of the wedge of aristocracy in a purely democratic country."

#### MANITOBA WOMEN ON VOTERS' LISTS

Winnipeg, April 23.—The Manitoba Government announces that the registration for the new voters' lists for the province will be held in June. The lists will include the names of all women eligible. This is in preparation for the Dominion election, which it is believed is certain to be held this summer.

#### NOTES FROM THE ISLANDS

Boat building is the chief industry at Massett just now. Fifteen new fishing boats, owned by Indians will be put in the water in the very near future.

The Mabel, one of the fleet of seven masted schooners, is expected to arrive at Port Clements any day now, to load clear spruce lumber. She is a big boat and will carry quite a load.

The two lumber mills at Port Clements are working to capacity these days.

Great preparations are being made for the salmon fishing this season by the Islanders. The number of boats engaged in this industry is expected to be greater than ever before, and great things are expected.

#### \$10,000,000 FOR ROADS

Ottawa, April 20.—It is stated that \$10,000,000 is the sum which the Government proposes to provide for the improvement of Canadian roads in connection with the Highways Bill, again to be introduced this session.

The bill to amend the Bank Act will authorize the banks to lend money on live stock.

The Princess Maquinna will make a special trip to Alice Arm from Granby this week, leaving Prince Rupert on Friday at 11 p. m.

### FRENCH WAR COMMISSION IS NOW IN U. S.

**Marshal Joffre and Ex-Premier Viviani Get Great Reception—Large Crowds Assembled.**

(Special to The Daily News.)

Washington, April 26.—The French war commission headed by former Premier Viviani and Marshal Joffre landed at the Washington navy yard pier from the President's yacht Mayflower shortly before 12:30 p. m. yesterday. The Tricolor of France is now taking its place among the Allied flags floating over the Capitol, with the arrival of the French commission.

Great crowds flocked around the high fence and the heavily-guarded yard awaiting the arrival of the Mayflower. The famous French warrior, Marshal Joffre, was the great favorite of the crowd and everybody wanted to see him.

#### CLOSE SEARCH FOR FOOD

The Hague, April 24.—In view of the serious situation in Germany, the food dictator has again ordered a complete house-to-house round-up of any private food reserves in the towns, villages and hamlets of the whole of Germany.

The commissioner, with Berlin reservists, descended on farms, small and large, and vast estates. They searched thoroughly. Sacks of corn and potatoes, sides of bacon, hidden in garrets and cellars, or in apparently unused out-houses, were discovered. The search was slow and serious, but conscientious.

The potatoes and grain were carefully weighed and quantities apportioned to the families to suffice till the harvest.

The peasants were quiet and friendly, being evidently aware of the seriousness of the food situation.

The authorities were amazed at the quantities collected in these raids.

#### JOHN BULL IN SHAPE

Since August, 1914, England has been grimly marching through the ruins of her former self to a new England. She has been learning day by day lessons branded in letters of blood and fire. She was a giant fat with peace. Now she is a giant stripped, clean muscled, with her navy a shining, impenetrable shield, her army a sword keen as death, her economic organs healthy, re-invigorated, her heart beating strong with national pride and purpose.

This is one of the miracles of this epic time. Are we going to ignore it? Must we pass through the same darkness and agony to learn the same lessons.—Chicago Tribune.

## RETURNED SOLDIER PROBLEM

The retention of returned soldiers on the pay-list of the country for three months after their discharge cannot be more than a temporary expedient at best. It might serve its purpose while the number of soldiers coming back is comparatively small and the dearth of labor affords special opportunities for their reabsorption into the business and industrial life of the country, but when they begin to return by thousands at a time, when establishments producing war supplies cease their operations, this arrangement will be entirely inadequate.

It is recognized as a fundamental principle that during the transition back from the conditions of war to those of peace the nation must take care of the men who have fought its battles. A great many soldiers undoubtedly will obtain civil employment immediately or closely following their discharge, either resuming their former avocations or taking up others. But there will remain a large army whose demobilization will take a long time and it will be for the country to fill in that time to the best advantage of both the men and itself. The soldiers themselves will require work. They for the most part will want to be self-supporting.

It has been suggested that the services of the peace army be utilized in the development of the National Highway scheme. Undoubtedly a national highway is desirable and ultimately will become an important economic asset. Moreover, the proposal involves the primary principle of furnishing employment to the soldiers at the country's expense until the process of their reabsorption has been completed. But we are disposed to agree with Mr. Hill, secretary of the Military Hospitals Commission, that it would be less practical than the utilization of this labor for increasing the productiveness of the country. More production is Canada's most vital need, and as time goes by that need will become even more pressing than it is now.

It will be for the Dominion and the Provinces, acting in close co-operation, to deal with the matter in the most practical

way. The Dominion should furnish the money and the Provinces might provide the work for their respective units, this being apart from any special measures the various governments may see fit to take. But whatever is going to be done should be arranged for without delay. Temporary expedients merely make the issue all the more formidable when it has to be faced.

There are many ways in which the peace army could be utilized for the benefit of the Dominion, and each individual province as a whole. One, and that which lies closest to hand, is the breaking in of new land on a large scale and putting it under cultivation. The proposal has already been made to give the individual soldiers some land, but a government farm on a large scale, would prove an infinitely more attractive proposition. In the first place, results would be achieved very much quicker, and after the first start the project would be an assured self-supporting one, if properly managed, and ultimately, ought to be an asset to the Province.

Big production means cheap production. What is required to be done is the undertaking of the development of the natural resources of the Provinces. The natural wealth is here, and the returning soldiers will provide the necessary labor and the brains by which that wealth can be developed. The natural wealth of the country ought to belong to the people, and here is the finest chance ever given for the people of British Columbia in particular to secure that which is theirs.

## NOTES AND COMMENTS

The announcement that the British Government is ready to give orders for the construction of wooden ships in British Columbia, through the Imperial Munitions Board, will be welcome news to the province. Nobody can deny that we on the Pacific slope have not been fairly treated in the distribution of war contracts. Our proportion of the \$800,000,000 worth of orders which the Imperial Munitions Board announced a few days ago had been given in Canada has been

negligible. The bulk of this sum has been expended east of the Great Lakes notwithstanding the fact that the proportionate response of Western Canada to the call to arms has been much larger than in any other part of the Dominion.

A part of the Prince Rupert plant is called on the plans a "ship shed." It has stood idle for two years now. There is yet a chance that it may be utilized before the end of the war.

The New York Sun publishes the following indictment of Germany: "Germany has murdered men, women and children. By her gunners, the combatant and non-combatant, the aged, the infirm, the weak, the helpless, have been selected as targets with the same

enthusiasm with which strongholds and armed men have been assailed. She has sought no justification save the proclamation: 'It is my need.' She has spared neither beauty nor the sacred places of men's worship; she has consumed the monuments of the past and devastated the fields of the poor. Neither the works of man nor the ordinances of God have stayed her hand or sufficed to turn her sword from its path. She has slain wantonly for the sake of slaying; she has destroyed uselessly for the sole purpose of destroying."

## SHIPPING CONTROLLER AT THE ADMIRALTY

For two whole years after the war broke out, the Admiralty in London had held and guarded its own inefficient control of the merchant shipping requisitioned for transport purposes. Time and time again, the practical men of the Board of Trade who had the Government and Parliament behind them too, had tried to impinge upon the consciousness of the Admiralty the necessity for requisitioning the services of the best shipping men the nation possessed for such a tremendous and responsible work.

### Transports.

As transport demands grew larger, the job became too big to be handled efficiently by the departmental heads of the Admiralty, with their official methods. It was realized that modern commercial methods, so long regarded as desirable, were now absolutely necessary, to be introduced into the Admiralty. So a shipping controller was appointed in the person of Sir Joseph Maclay.

A recent issue of the London Chronicle carries an article which tells somewhat of the man. When the appointment was made it was not proposed to deprive the Admiralty of transport arrangements, but whatever was proposed, they were in Sir Joseph's hands very soon.

### Cuts Red Tape.

An individual personality and irresistible resolution to have his own wordless way, even against eloquent under-secretaries and voluminous Government departments were characteristic in him discovered in Whitehall but a few hours after his arrival.

Sir Joseph belongs to the firm of Maclay and McIntyre, of Glasgow, who even twenty years ago had the reputation of getting more work out of a ship than any other firm. The whole art of managing a ship consists in getting her discharged and out of port again without a moment's delay.

### Economy of Time.

Since shortly after the German invasion, the Belgians have depended for food entirely on the "Commission for Relief in Belgium". Unless we are willing to let these hundreds of thousands of women, children and old men starve, they must be fed at the expense of the Belgian Relief Fund. To make this possible someone must contribute nearly \$3,000,000 a month—every month—all this winter!

**MORE OR LESS**

The fleet of Dutch merchantmen, which has been sunk by a waiting submarine, sailed, it now appears, under a German guarantee of "relative security," says Punch in a recent issue, "and the incident has been received in Holland with a widespread outburst of relative acquiescence. Germany in the little ingenious arrangements that she is so fond of making for the safety and comfort of her neighbors, is so often her attitude to international law has always been one of approximate reverence. The shells with which she bombarded Rheims Cathedral were contingent shells and the Lusitania was sunk by a relative torpedo.

"Neutrals all over the world who are smarting just now under the manifestation of Germany's respective goodwill should try to realize before they take any action what is the precise situation of our chief enemy. He has (relatively) won the war; he has (virtually) broken the resistance of the Allies; he has (conditionally) ample supplies for his people; in particular, he is (morally) rich in potatoes. His finances at first sight appear to be pretty heavily involved, but that will soon be adjusted by (hypothetical) indemnities; he has enormous (proportional) reserves of men; he has (theoretically) blockaded Great Britain, and his final victory is (controversially) at hand.

"But his most impressive argument, which cannot fail to come home to hesitating neutrals, is to be found in his latest exhibition of offensive power, namely in his (putative) advance upon Ancre."

**NORTH AMERICAN WHEAT FOR ALLIES**

Winnipeg, April 24.—Negotiations are in progress between the British, Canadian and United States authorities looking towards the purchase of the entire North American wheat crop of 1917 at a fixed price.

The negotiations entered into recently by Sir George Foster, minister of trade and commerce, at Ottawa for the purchase of the Canadian crop failed because the grain growers would not accept the price offered. Without their consent and co-operation it would have been impossible while prices available in the United States probably were ranging much higher. The situation has changed, however. Sir George Foster declares that the effect of the government's recent action in removing the wheat duty will be to pool the wheat resources of Canada and the United States, the two countries being mutually agreed on the common aim of supplying foodstuffs to Great Britain and her allies. In these circumstances the question of fixing a price for the crops of the two countries becomes more practicable and negotiations to that end are now proceeding. A conference is to take place at Ottawa soon.

Dr. Price's Cream Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, corn bread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by using an additional quantity of Dr. Price's Baking Powder, about a teaspoon, in place of each egg omitted. The following tested recipe is a practical illustration:

**SPONGE CAKE**

1 cup sugar  
 1/2 cup water  
 3 eggs  
 2 teaspoons Dr. Price's Baking Powder  
 1 cup flour  
 1 teaspoon salt  
 1/2 cup cold water  
 1 teaspoon flavoring

The old method called for six eggs and no baking powder
